MEXICAN LABOR CHIEF FLAYS CHURCH; BLAMES CATHOLICS FOR BRITISH GENERAL STRIKE FLOP

(Special to The Daily Worker)

MEXICO CITY, August 10.-Charging that the catholic church has been the principal agency of oppression of Mexican laboring classes for centuries past, Secretary of Industry and Labor Luis N. Morones made a bitter attack upon the catholic church, during a debate upon the merits of the present eligious controversy.

Secretary Morones severely censured the Knights of Columbus for their resolution, enacted in the Philadelphia conference, demanding that President Coolidge intervene in the Mexican religious crisis.

Morones charged that the catholics were partially responsible for the rustration of the recent general strike in England, Cardinal Bourne denouncing the strikers as rebels and traitors to god and the king.

French Coal Miners Aid British Strike

LILLE, France, Aug. 10.—Around 4,000 organized coal miners of Northern France have downed tools in answer to the call of the C. G. T. U. (United General Confederation of Labor), issued as practical support of the striking miners of Great Britain.

British Miners Send Delegation to America

English labor leaders present their appeal to American workers at first hand, for aid in carrying on the British coal mine strike. FEARED LABOR, SAYS KERENSKY

sode of 1917

(Special to The Daily Worker) PARIS, Aug. 10. - In 1917 following

the March revolution in Russia, Alexander Kerensky, then head of the provisional government sent two urgent messages to Lloyd George, then premier of Great Britain, requesting an English battleship to transport the Czar and his family to England for their protection. Lloyd George answer-

"I deeply regret, but I am unwilling to provoke deplorable action or reprisal from British labor. Therefore I must refuse to concede your request."

This belated, but none the less interesting, bit of historical information was given today by Kerensky himself in an interview with newspaper men who asked him for his views on the recent wild reports being circulated about revelts and assassinations in the Soviet Union.

Wish Father To Thot.

The interviewers found the counterrevolutionary leader in his modest Paris garret and in what seemed to be a mixed speculative and reminiscent mood. In view of later dispatches that have laid low the frantic announcements from Bucharest and Riga of a national Russian crisis that promised to upset the Soviet power, the following statement of the exiled Kerensky (Continued on page 2)

Poles Ready to Drive on Lithuania

KOVNO, Lithuania, August 10 .- The Lithuanian government has a report that the Poles have concentrated three regiments of Polish shock troops in the vicinity of Svanzani, Lynziana, and Koltoviani. The Lithuanian officials hear that the Poles are actively preparing to stage a new coup d'etat to annex Lithuania to Poland. An unofficial state of war has existed between these countries since Gen. Zeligowski wrested the Vilna corridor from Lithuania in 1920.

BRITISH AND U.S. ENVOYS IN **MEXICO CONFER**

Plans for Concerted Action Discussed

(Continued from page 1) lescription. It is below the intellecual level of Voodoo Worship. The hurch generously donates each vilage a patron saint. Any action of the uthorities against the cunning priests 3 labelled an insult to the saint. Those aints are usually of the female sex. This saint will punish the whole village for any insult to her according to the priests. She wreaks vengeance on all regardless of who offers her imbrage. Thus the clergy have the superstitious people frightened into a state of panic.

Priests In Open Rebellion.

That there was more method than madness in the strike of the clergy is indicated in a statement issued by a catholic publicity agency in Mexico. The work of the priests who are now released from confining church duties, s to carry on the economic boycott against the government," reads one roadside. The same circular says hat "Mexico is with the church, but it never has been able to express its national will since the uprising against Porfirio Diaz a decade and a half ago."

The clergy will have as much trouble convincing the peasants that Diaz was their friend as the Russian emigres have in inducing the Russian peasants to fight for the restoration

The women of the wealthy classes are even condescending to move join in the fight against the governfor the church." Similar stories were tional assembly at Versailles. reread in England during the general were reserved running trains and doing other kinds of strikebreaking

Silver is Discounted.

Some apprehension has been caused. by the fact that silver is now discounted at four percent, in contrast to the rate of one per cent which has prevailed for several months. Altho merchants are alarmed at this situation bankers declared today that the gradually increasing discount of the silver peso during recent weeks is due to the withdrawal of approximately 70,000,000 gold pesos from circulation for the creation of a gold reserve in the recently established government banks. The gold has been replaced to a small degree by paper issues and to a larger degree by silver, thus disturbing the ratio between gold and silver.

Suspicion Aroused.

WASHINGTON, D. C. August 10. -While the state department denies any intention to intervene in the struggle between the Mexican gowernment and the catholic church there is a general produce a different atmosphere.

It is pointed out that the administration spokesmen have not disavowed the rumors of intended interference in the matter of oil and, anti-alien land

Depression Accentuated.

The department of commerce is informed by its Mexican agent that business depression has been accentuated by the catholic boycott. Mexican representatives here however say that reports of commercial decline have been greatly exaggerated. Catholics are not going to cut off their noses to spite their pocketbooks, they assert, no matter how willing they may be to give lip/loyalty to Rome.

German Catholics For Reaction. BERLIN, Aug. 10. - German catholic societies have promised moral support to the Mexican clergy in their rebellion against the government.

Chileans Support Calles. SANTIAGO, Chile, Aug. 10. - Chilean workers and intellectual radicals in a monster mass meeting held here, unanimously voted to support Calles in catholic church. The vast crowd listened attentively to Eduardo Hays, Mexican minister, tell the story of the con-

flict and its historical background. The Mexican cherical revolt may cause a revival of anti-catholic propaganda thruout the southern republics.

Battered/Steamers In Port.

HALIFAX, N. S., Aug. 10. - Two steamers, victims of the recent hurricane arrived here today for repairs. They are the Roman Prince, and the Baluchistan. Two of the crew of the latter were removed to a hospital mountains 20 miles south of here, acwhen the vessel docked.

S That is the way that Moscow has finally disposed of the "malicious fakes" manufactured and published by the capitalist press over the world these past few days concerning alleged "disorders" within the borders of the Workers' Repub-

Moscow hit upon a phrase that will be understood in our backward America, American fiction is light and frothy at the best, even in the coldest winter. The most intellectually laggard mind must have his brain tickled at all seasons of the year. But there must be a thrill to it, or many thrills, the more the better. This must especially be true of "summer fiction," a major national necessity right now.

Evidently the kept press editors had concluded that "sex appeal" had lost its punch, that the detective story was becoming too blase, and that other fiction forms were lacking sufficient kick. "Trudie" Ederle, swimming the channel, was the sensation of but one day. The tale of "Who is going to fight Jack Dempsey?" has been worn threadbare. The baseball season is going stale. Sen. Reed's slush fund investigation has played itself out. No excitement on the whole monotonous horizon. A new wrinkle had to be put into America's "summer fiction" for the season of 1926. So the editors finally hit upon another Bolshevik scare as their only salvation. They had used it before. They joined in the

common acclaim, "Try it again!" There is some significance to the fact that the wildest tales were manufactured and given elaborate space, with scare headlines, in the Hearst press. It shrieked so loudly that the rest of the employers' press, even some sections that try to cling to a semblance of truth, began screaming along with it. It became the wildest sort of orgie.

But the storm is over. The thousands of miles of newsprint, streaking thru hungry rotary presses like sheet lightning, have spread their wierd tales for nothing. Rivers of cloudy ink have flowed in vain. The atmosphere clears once more. The sun shines again and according to the headlines themselves, "Russia Is Serene!" It may be that the kept press automatically lived up to its usual traditions in furnishing the usual "happy ending." In this case it was inevitable. No other ending was possible, as has already been pointed out in these columns, for there was never anything unusual transpiring in the Union of Soviet Republics. The last chapter, as the Associated Press was forced to send it out to its clients, with the headline as it appeared in one of the Chicago Heart sheets, is published herewith. Hardly any additional comment is necessary. It is a confession of error that workers will do well to remember.

But that isn't all. As the cable from John Pepper, at Moscow, pubfished on another page points out, the disorders were and are outside and not within the Soviet borders.

It was under cover of the "Bolshevik scare," which the American press used for its own purposes, that reaction was seeking to carry forward its evil designs in Eastern Europe. The clash between Poland and Lithuania is becoming more acute. England is trying to advance ehr interests along the shores of the Baltic. At the same time the war drums beat in the Balkans, as has already been pointed out. Roumania of the white terror, in addition to joining with Yugo-Slavia and Greece against Bulgaria, concentrates her troops against restless Bessarabia. These are facts that cannot be hidden behind any Anti-Soviet barrage, no matter how carefully it is laid

. . . We repeat again, the disorders are not within the Union of Soviet Republics. There the workers and peasants are busier than ever building the new social order. All the dangers are from without. The danger to Soviet Rule is right here in the United States, among workers lulled into deep slumber by the narcotic influence of "summer fiction," whether it deals with fake tales of alleged industrial prosperity at home or the "justice" of Wall Street's policies abroad. The attack on Soviet Rule originates in capitalist countries. It is the duty of workers and farmers in all countries, especially in the United States, to overcome this attack and eliminate its source by establishing workers' rule everywhere.

Six Lose Lives in Fated British Sub

LONDON, Aug. 10 .- Six lives were the submarine is progressing.

Note .- Herewith is republished in full, headline and all, the admission by the Chicago Herald-Examiner (Hearst) that all the reports about disorders within the Soviet Union, published during the last few days, were brazen lies. The Hearst sheet extended Itself in its fabrication of lies and then confessed to it. Here is the confession:

(Chicago Herald-Examiner, Aug. 10.)

REPORTS ABOUT SOVIET MONEY Press Conspiracy

NAIL INSPIRED

Russian Paper Exposes

(Special to The Daily Worker) MOSCOW (By Mail) .- "Ekonomi-cheskaya Zhihu" (Economic Life), the organ of the Supreme Economic Council, commenting upon the brief but sinister reports appearing in the Euro pean press about the alleged instability of Soviet value, indicates that these reports appeared at the very time that negotiations were proceeding between Germany and Soviet Russia for the conclusion of the German-Soviet treaty and the supply of credits to Russia.

British Press Campaign. The paper, quoting examples of the brief parts of the newspapers, as, for example, the one in the London Daily Telegram from its Berlin correspond ent saying: "The German press is devoting so much attention to the fluctuations of the chervonetz that there is reason to suppose that official intiative lies behind this sudden campaign against Soviet value," suggests these reports are being inspired by those interested in damaging the elations between Germany and Rusia, and says of the above message that "The Berlin correspondent of the Daily Telegraph very astutely found in Berlin exactly what his masters in London wanted.

Further Proof of Conspiracy. "That there was a political purpose ehind these inspired reports is indicated," claims the "Ekonomicheskay Zhihu," "by the conclusion drawn by the Berlin Acht Uhr Abend at the end of an article on the alleged collapse of the chervonetz that: 'To conclude a political treaty with the Soviet government under these circumstances would be suicide. That country is rapidly advancing towards another revolutionary catastrophe and in the face of this Germany should adopt a

waiting policy. Pursued Definite Policy.

"The extracts we have quoted," says the "Ekonomicheskaya Zhizn," 'completely prove our contention that the campaign conducted in a section of the European capitalist press and the alarm raised about the alleged imsued clear and definite aims. If the initiators of this campaign think they can fool us they are hopelessly deceiving themselves. We know perfectly well what they are aiming at.

Campaign a Failure. "The fact that the German-Soviet treaty has been concluded and signed shows that the campaign has failed. We have grown accustomed to camand so also have business men and common-sense statesmen in the capitalist world. They deceive nobody. We still continue, as in the past, to work for our economic restoration. Comrade Rykoff, president of the our further economic development and the consolidation and expansion of our doom, will not succeed in turning us whom it had entrusted with the most from our purpose," concludes the

> Mexican Torrent Damaging. MEXICO CITY, Aug. 10.—Torrential ains are working havoc on the Isthmus of Tehuantepec. The village of Teltella is flooded with water three feet deep. Hundreds of families have had to flee their homes. Adobe houses have crumbled and collapsed.

NEGRO BARRED FROM MEMBERSHIP IN "MIXED" FRATERNAL ORGANIZATIONS

NORFOLK, Va., Aug. 10-Negroes in Virginia are barred from becoming members of any fraternal insurance order in which the majority of the membership or of the officers are white.

The Virginia legislature passed a bill forbidding the insuring of Negroes in any company in which white policy-holders were in the majority or where white officers were in control. This bill brought forth a wide-spread opposition.

Negro policy-holders notified the insurance companies in which they were insured that they were cancelling their policies. These companies which maintain a powerful lobby in the state legislature, fearing a loss of thousands of dollars weekly immediately brought pressure to bear on state commissioner of insurance to "interpret" this piece of race-hate inspired legislation. The commissioner "interpreted" the legislation as applying only to fraternal insurance orders where the membership would be forced to mix socially

BROMLEY AND BRITISH T. U. C. IS TAKEN TO TASK FOR ATTACK ON THE STRIKING MINERS

F. Seymour Cocks, a member of the executive of the I. L. P. Informa tion Committee and Union of Democratic Control, took Mr. John Bromley, secretary of the lomotive firemen and enginemen's union, to task, for his attack on the striking miners, published in the official magazine of his union

Bromley defends the action of the T. U. C. in betraying the miners by calling off the general strike. So well did he do this that the article was commended by the notorious fascist chancellor of the Exchequer Winston Churchill. The following splendid analysis of Bromley's attack is taken from the Sunday Worker, London, July 25.

By F. SEYMOUR COCKS.

I am not a miner. Nor am I a memper of the T. U. C. But I have had some experience in sifting facts and weighing evidence and I have just been analyzing John Bromley's article n The Locomotive Journal. The re sults are somewhat surprising.

Mr. Bromley, beginning his narra ive with the discussions between the miners and the industrial committee of the T. U. C. in the early part of the year, states that the miners have "had no constructive propositions to make of any sort or kind." This is very odd. The miners' constructive propositions were put before the royal commission. They involved the naionalization of the mines and the complete reorganization of the indus-They were greatly praised at the time in labor circles. Yet now, presumably because that liberal politician, Sir Herbert Samuel, does not elieve in nationalization, the leaders of the Labor Party and the T. U. C. ave ceased even to mention the word

"Oh! no! we never mention it, Its name is never heard; Our lips are now forbid to speak

That once familiar word." Mr. Bromley admits that on Feb uary 12 the miners' leaders re-stated their position and emphasized the three points:

(1) No reduction in wages. (2) No increase in hours.

(3) No interference with the prin iple of national agreements.

He adds that at a joint meeting of the industrial committee and the min ers on February 19 it was decided that "pending the report of the royal commission, no new declaration of policy could be made, but that, in the neantime, the previous declaration in upport of the miners should be re affirmed." But the official announcement issued on this occasion included

the following words: "The attitude of the trade union movement was made perfectly clear last July, namely, that it would stand grimly and unitedly against any attempt further to degrade the standard of life in the coal fields. There was to be no reduction of wages, no increase in working hours, and no interference with the principle of national agreement. That is the position of the trade union movement today. . . . A communi cation embodying these decisions is being sent to all the affiliated trade

The industrial committee, therefore, did adopt the miners' despised slogan. It is unfortunate that Bromley should omit to mention this not unimportant

A "Puerile Attitude!"

port on March 10. On April 15 the owners told the miners that there would be heavy wage cuts at the end of the month. On April 8 the miners met the industrial committee and, ac cording to Bromley, "asked the committee to recommend the movement to enable them to ensure: no reduction in wages, no increase in hours and no departure from national agreements." In reply, the committee

Reaffirms its previous declaration in support of the miners' efforts to obtain an equitable settlement of outstanding difficulties.

It also recommended that negotiations should be continued to reduce points of difference to the smallest possible dimensions.

The resolution was, perhaps, a little vague. At the same time it reaffirmed the "previous declaration" of the committee. In other words, it supported the slogan. Bromley now suggests that the real meaning of this resolution was that the miners would be unwise to stand by their demands.

Without being a thought-reader, without knowing what reflections were passing at the time thru the minds of Bromley and Thomas, it is impossible to read such a meaning into the plain words of a resolution which says just the opposite. On the following day the miners, at a delegate conference, readopted their three points. Bromley says that such

One wonders whether the miners were told at the time that by adopting a policy which had already been affirmed and reaffirmed by the industrial committee and the "trade union movement" they were taking up a puerile attitude!

'action was puerile."

A few days later the owners an nounced that they intended to nego tiate with the districts separately. Bromley blames the miners for this He produces no evidence for such an assertion. It would be surprising if he had seeing that months previously the owners had stated that wages should be regulated by districts and not nationally. Evidently the industrial committee didn't think the miners were at fault, for on April 14 it passed a resolution throwing the blame on the owners and adding that:

"The committee reiterates its previous declarations to render the miners the fullest support in resisting the degradation of their standard of life and in obtaining an equitable

settlement with regard to wages, hours, and national agreements.' This resolution, also, is suppressed Bromley's narrative,

T. U. C. Condemns Wage Cuts. We now come to the meeting of T. U. executives on April 29, the eve of the strike. Bromley deals with this n a very sketchy way. The chairman's speech on that occasion gave o indication that the general council had weakened on the wages question. He put forward the constructive proposals of the council. Bromley says hat these proposals "dealt with the full implications of the report," and uggests that by accepting them the miners consented to a possible re duction in wages. But these proposals ejected the whole idea of reducing wages. They contained these words (not quoted by Mr. Bromley):

"In our view the wages and working conditions of mine workers are already so depressed as to render it imperative to seek for remedies other than" (not, be it noted, "as well as") "a further degradation in their standards of life, or the abrogation of the present standard hours. . . .

"The process of reducing wages cannot provide a solution, and would tend to intensify the present difficulty. The figures given in the commission's report show quite clearly that to seek any further degradation of this level is quite indefensible." These proposals were put before the

onference and afterwards submitted

the government. They were em phasized by subsequent speakers Bevin, for example, was very clear that the miners' wages should not be 'further driven down." Cook also spoke. He said that if he understood the resolution aright it meant that the conference confirmed and sup ported the miners' slogan. No one contradicted him, not even Mr. Bromey. Bromley does not mention the fact that on the Sunday previous to the stoppage some of the leaders of the T. U. C. were apparently ready to call off the strike and to betray the miners, but were prevented from doing so by the government. Nor does he quote the manifesto issued by the niners that same evening, in which they said that "under no circum stances can the miners accept any agreement which lowers the standard of living."

But he states that the strike started . on the formula of the min ers, which had been definitely rejected by the industrial committee' (when? when?) "but on the decision of the conference of executives to support the miners against having to accept reductions . . . before negotiations on the rest of the . . Report.

In other words, he apparently wants us to believe that the sole object of the general strike was that the miners' wages should be reduced on May 14 instead of on May 1, and that when the T. U. C. found that the miners could not be cajoled into abandoning their principles they called off the strike on May 12. In Bromley's own words: "What leadership! What a tragedy! What a lesson!"

Swift Interests Acquire Control of Philadelphia Concern

WASHINGTON, D. C., Aug. 10. Charges against the National Leather Company of Boston, controlled by the Swift interests, and the Swift and Company of Chicago, that they acquired half the capital stock of England, Walton & Co. of Philadelphia, with the intention of ending competition in the sale of leather between Swift' and this concern were dismissed by the Federal Trade Commission.

5 Die as Gulf Storm Attacks Nova Scotia

HALIFAX, N. S., Aug. 10-Five sail rs were drowned and two ships wrecked when the tail-end of a West India hurricane brought havoc with and a page of drawings of shipping off the Nova Scotian coast according to reports reaching here today.

The Norwegian steamer Ringborn with a cargo of lumber from Parksborough, N. S., for Manchester, Eng. was hurled upon the rocks off Scat tarie Island of Cape Breton coast after hours of battling the storm Five of her crew perished and a sixth was seriously injured when the deck load, torn free of its moorings, struck him. The wind, blowing at hundred knot velocity, tore down the funnel, the masts and smashed in all the deck houses.

The remainder of the crew, twelve in all, were saved. The Canadian ship, Patriot, which had been steam ing to the rescue of the freighter. was so badly damaged by the hurricane that she was forced to turn

Workers (Communist) Party

SEEK TO RAISE \$10,000 FUND FOR DAILY FREIHEIT

Chicago Edition to Appear Oct. 9

Amid great enthusiasm a group of active Chicago trade unionists, members of the Workmen's Circle and various Jewish fraternal and cultural societies pledged themselves to raise \$10,000 to establish a Chicago edition of the Jewish Daily Freiheit. Worker after worker brought out in most force ful language the need of a militant Jewish daily in Chicago-and the value of a special Chicago edition to the growing left-wing movement.

Appears October 9.

The Chicago edition of the Jewish Daily Freiheit will appear Saturday, Oct. 9. A special editor will be sent from New York or may be chosen in Chicago to take care of the Chicago

After a short introduction by Millgrom, A. Ravitch, the business man ager of the Freiheit, pointed out the mportance of the Chicago edition to the left-wing movement here and the need of such an organ not only to organdze the unorganized Jewish workers but also to reorganize the organized workers so that they would come out of the apathy they are now in and become an active force in the Chicago labor movement.

Over 70 active workers attended this banquet at which the Chicago Freiheit was discussed. At the banquet itself \$400 was raised for the Chicago edition

Left-Wingers Speak.

WRITE AS YOU FIGHT!

You Can Adopt Workers' Child for

Hundreds of thousands of workers' children spend their vacation in camps owned and controlled by the capitalist class. The ruling class is not satisfied with merely controlling the minds of the workers' children during the school term, they also thru charity institutions, etc., keep hold of the workers' children during the summer.

We know how dangerous such a condition is for the workingclass. But what are we doing to remedy it What are we doing to save at least a portion of the workers' children for the working class?

The Chicago Young Workers League has opened a children's camp on the banks of the Kankakee River at Momence, Ill. The camp is under the direction of an experienced lead er and a trained nurse. Because the children are workers' children, we cannot expect them to pay enough to cover their expenses. We have to stand the deficit and we must have the support of all workers and workers' organizations.

Adopt a workers' child for a week! Five dollars a week! Five dollars will adopt a child a

amp for a week! Every worker-every workers' or anization-should adopt one or more hildren.

What about you? Fraternally yours,

FILIPINOS MAY-One Week for \$5 GET GOVERNMENT

Independence Will Not Be Granted

MANILA, P. I., Aug. 10 .- Col. Carmi A. Thompson after a month's investigation of the islands at the behest of President Coolidge, who it is said senthe mission at the request of the American rubber trust, is convinced that the Philippines should not be al lowed their independence but that some political reforms must be made in the island so that American investments can be safely made.

It is believed that he will recom mend to Coolidge the creation of a dominion government. Senator Osmena, who just returned from Washington is touring the country preaching moderation and patience to the Fili pinos picturing the dominion form of government as the best for the Philip-

Senator Manuel Quezon declares he will go to the United States in November and fight the passage of the Bacon bill which proposes to take the most fertile land of the islands and make the rest of the islands independence.

The Chicago Tribune in its editorial entitled "A Red Herring in The Philippines" has the following to say on the scheme of the American rubber trust to make the Philippines a vast rubber plantation:

"We believe the tire manufactur- Chicago and Waukegan, ers are realists, and if they are they hope that American opinion will crys- capitalists. tallize in favor of freer land laws in the islands and a continuation of schools controlled by the bosses. Here Numerous speakers pointed out the American rule. The repeal of the law the students conduct the school, elect necessity of working class education limiting Philippine estates to 2,500 their student councils, their discipline and stressed the importance of educaacres would not, of itself, be enough; the rubber manufacturers would not care to make the enormous investment required if they felt that their capital was subject to the vagaries of native politics. They desire the continuation of American rule in the lands as a guaranty of safety.

Need to Retain Islands.

"As our rubber trade sees it, the question for the nation to decide is whether the possibility of developing the natural resources of the islands does not justify us in keeping them. Until recently we should have an swered an unequivocal no. The islands, it seemed to us, were a small asset in view of the dangers they subjected us to. The Philippines were peculiarly liable to attack by Japan, while we were forbidden by treaty from making them impregnable. We could not hope to hold the Philippines against a sudden attack from the north, but once they were lost we were committed to a war to regain them, a war which would have to be fought at a tremendous disadvantage due to the distance of the islands from this country and their proximity to Japan.

Away With False Issue.

"We are by no means prepared to abandon that position now, but we believe that the rubber manufacturers and others who are interested in the commercial and industrial possibilities of the islands should be allowed to develop their case fully. We wish they would develop it more frankly. Unquestionably the economic importance of the tropics is increasing in the

"Our country will be more secure in peace and war if we have a plentiful supply of tropical products. Perhaps the Philippines are better able to supply our needs than Mexico or Central and South America. The likelihood that Japanese ambition will lead to an their waiters sign, not only denying attack on the Philippines may not be so great as has been imagined. These are some of the considerations which Awake my brothers and sisters! might lead us to revise our theories Take this theme home to your heart of Philippine policy. To ignore the realites and stress the 'gouging' by the British is to darken counsel with a false issue."

WILL THE YOU'S WORKERS LEAGUE

Y. W. (C.) L. DISTRICT 8 SCHOOL

August 1st the Waukegan Young Workers (Communist) League welomed the students of the League Training School. The feature of the program was the showing for the first time a play, called "Shades of Passaic."

The school is a combination of learning in Communist theory and pracice. The purpose is to turn out comrades better able to do work. The need for good understanding of our movement has long been felt and this school will serve to fill that need. Those leading and active comrades attending the school will go back better able to carry out the league work.

It is well to note that in the school+ are to be found six miners, members the school. There is the press comof the United Mine Workers of Amer- mittee, the wall newspaper committee, ca, machinists, carpenters, painters, the entertainment committee, the laborers, students, etc.

START OWN SHOP AFTER LOCKOUT

Refuse to Sign "Yellow Dog" Contracts

CHICAGO Heights, Aug. 10. -(FP) Business is fine in the repair shops started by the lockedout auto mechanics of Chicago Heights, and more help has had to be taken on. When, as part of the open shop drive launched by the Automobile Dealers' Association, six ocal firms presented "yellow dog" contracts to their employes, not one of them would sign away his rights to union organization, and between 40 and 50 are now locked out.

Hire Strike-Breakers. The open shop firms are attempting o do business with professional strikebreakers, protected by more than 50 guards, but are losing business to the repair shops which the strikers have started, to give themselves work.

Chicago Heights is only one of a number of towns hit by the drive of the Automobile Dealers Association, which has sent out notices to auto dealers of Ithaca, Corning and Elmira, New York, and Joliet and Chicago Heights, Ill., that their establishments should hereafter be run on an open

Similar to Others. The form of "yellow dog" contract used by the auto dealers is identical with that which Greek restaurant owners in Chicago are seeking to make the employe's right to union membership but even to having "dealings, communications or interviews" with union men.

TRAPPED MINERS

PEORIA COAL MINERS USING **WRONG TACTIC**

Need Stronger Union, Not Home Consumers

By MAX COHEN. (Worker Correspondent)

PEORIA, Ill., Aug. 10.-Leaders of the local miners' unions have appealed to the association of commerce to help · them solve the slackness of work among the miners of this district. A meeting was held at the Association of Commerce building. About 40 out of an expected 100 were present, representing coal operators, distributers, miners and retailers.

A committee of eight will be appointed by Charles G. Farnum, president of the Association of Commerce, to draft a plan for promoting a "Burn Peoria Coal" movement. This was the result of the meeting.

Fine Theory-But

Figures were quoted indicating that if Peoria users of coal were to buy all their coal from mines in this locality Peoria miners would earn an average of \$256,554 more per month, or nearly 500,000 more a year. This money it was said, would be spent in Peoria

This is a very good plan, if it works, However, the fact that scab-mined coal from Kentucky is much cheaper than local mined coal places a great obstacle in the path of this committee. To expect the big users of coal to use the higher-priced union-dug coal from Peoria in place of the cheap coal they have always been using is futile. It would increase the cost of production. Storekeepers Interested, Sometimes.

The only reason why the retailers are anxious for the miners to get more coal is that the neat sum of \$3,500,000 more a year that the miners will be spent with them. Otherwise they crawl into their shell of disinterestdness when the miners ask for credit.

The "Burn Peoria Coal" plan is a failure from the start, because the interests of the stockholders in factories, the retailers and the miners do not agree. The results will speak for themselves.

Need Stronger Union.

Miners, if not their leaders, will find that an appeal to business organi- teenth Ave. J. Louis Engdahl, ediof the workers. The miners must fight their own battles. A better plan would be to build a more powerful union locally and the organization of the unorganized miners who dig the coal elsewhere.

WASHINGTON, Aug. 10 .- A drive to give congress wider powers of inlimiting senatorial campaign funds to will be undertaken next December, it was predicted here today as a sequel to the slush fund committee's inquiries into the milliondollar Illinois primary and the \$3, 000,000 Pennsylvania campaign.

Five dollars will renew your sub for a year, if you send it in before August 15.

WOMEN'S LAW CALLED COMMUNIST PLOT BY 100% WOMAN PATRIO

WASHINGTON, Aug. 10 .- Miss Mary Kilbreth, president of the Woman Patriot, organ of bitterest opposition to child-labor laws, woman suffrage and laws for the protection of working women, takes 34 solid pages in the Congressional Record of July 8 to denounce as Communistic the program of legislation backed by Mrs. Florence Kelley, secretary of the National Consumers' League. Senator Bayard of Delaware, brother of Mrs. Florence Bayard Hilles of the National Woman's Party, put the Kilbreth document hence. The state investigation which into the Record as an argument against the pending Phipps-Parker amendthe govenor previously ordered after ment to the Sheppard-Towner matern-+

WHAT HAS GONE BEFORE.

WHAT HAS GONE BEFORE.

J. Arnold Ross, oil operator, formerly Jim Ross, teamster, is unsuccessful in signing a lease with property holders at Beach City, Cal., because of intrigues of other operators and quarrels among the holders. While he is at Beach City, Bunny, his thirteen-year-old son, meets Paul Watkins, slightly older. Paul has run away from home. His father is a poor rancher in the San Elido Valley who is a "Holy Roller." Paul goes away to make his living on the road and Bunny goes about learning the oil business from his Dad who is bringing in a well at Prospect Hill. Dad was working hard and Bunny suggests a quall hunting trip to the San Elido Valley. Dad agrees and shortly they arrive at the Watkins ranch and pitch their camp. In hunting for quail: they find oil oczing out of the ground and Dad wheedles the sale of the ranch out of old Watkins and also arranges to secretly purchase adjacent lands. Paul's little sister, Ruth, and Bunny become friends. Bunny starts to high school at Beach City. With plenty of money and social standing he enters into the life of the school. He falls in love with another student, Rose Taintor. In the meantime Dad's oil business grows rapidly. The World War begins and Dad, along with other capitalists, benefits by selling oil to both belligerents. Bunny arranges for Paul to come and live with Ruth on a nearby ranch. Paul had been living with a lawyer who took a liking to him and bequeathed his library to Paul when he died. Paul "has it out" with his "holy roller" father who scorns him as unfaithful. His brother Eli is a hopeless religious fanatic, subject to fits. Eli is new going around the country acting a prophet and "healing" people. Bunny, anxious to get back to the ranch, suggests to Dad that the two go there and build a shack near the house that Paul and Ruth stop in. While they are there they hear that a rival company is about to drill nearby. Dad makes preparations to sink a well on the Watkins ranch. But he needs a road. He first goes to the county commissioner

IV

It was time for Bunny to go back to school; but first he had to pay his semi-annual visit to his mother.

Bunny had seen a notice in the paper, to the effect that Mrs. Andrew Wotherspoon Lang was suing for divorce on grounds of desertion. Now Mamma told him about it-her second husband had basely left her, two years after their marriage, and she had no idea where he was. She was a lonely and very sad woman, with tears in her eyes; Bunny could have no idea how hard it was, how every one tried to prey upon defenseless women. Presently, through the tears, Bunny became aware that his "pretty little Mamma" was tactfully hinting something; she would have to have a new name when she got the divorce, and she wanted to take back Dad's name, and Bunny wasn't quite sure whether that meant that she was to take Dad back along with his name. She asked how Dad was, and mustn't he be lonely, and did he have any women friends? That bothered Bunny, who didn't like to have people probing into his father's relations with womenhe wasn't sure himself, and didn't like to think about it. He said that Mamma would have to write to Dad, because Dad wouldn't let him, Bunny, talk about these matters. So then some more tears ran down the pretty cheeks, and Mamma said that everybody shut her out, even her own daughter, Bertie, had refused to come and stay with her this time, and what did that mean? Bunny explained, as well as he could; his sister was selfish, he thought, and wrapped up in her worldly career; she was a young lady now, flying very high, with a fast set, and didn't have time for any of her family.

But Bertie had found time recently for a talk with her brother; telling him that he was old enough now to know about their mother. Bertie had got the facts long ago from Aunt Emma, and now she passed them on, and many mysteries were solved for the boy, not merely about his mother, but about his father. Dad had married after he was forty, being then the keeper of a cross-roads store; he had married the village belle, who thought she was making a great conquest. But very soon she had got ideas beyond the village; she had tried to pry Dad loose, and finally had run away and left him, with a prosperous bond-salesman from Angel City, who had married her, but then got tired and left her.

Mamma's leaving had done what all her arguments had failed to do-it had pried Dad loose. He had thought it over and realized-what everybody wanted was money, and he had lost out because he hadn't made enough; well, he'd show them. And from that time Dad had shut his lips and set to work. Some of his associates in the village had proposed to drill for oil, and he had gone in with them, and they had made a success, and pretty soon Dad had branched out for himself.

Bunny thought that story over, and watched his father, and pieced things together. Yes, he understood now-that grim concentration, and watchfulness, and merciless driving; Dad was punishing Mrs. Andrew Wotherspoon Lang, showing her that he was just as good a man as any bond-salesman from the city! And Dad's distrust of women, his idea that they were all trying to get your money away from you! And his centering of all his hopes upon Bunny, who was going to be happy, and to have all of his father's virtues and none of his faults, and provide that meaning and justification which Dad couldn't find in his own life! When Bunny thought of that, he would have a sudden access of affection, and put his arm across Dad's shoulders, and say something about how his father was working too hard and how Bunny must hurry and grow up and carry some of the load.

He ventured very timidly to broach the matter of his mother's debts, and her plea that her income be increased; and so he got his father's point of view about his mother. There was jist no use a-givin' her money, Dad said; she was the type that never lives upon an income, but always has debts and is discontented. It wasn't stinginess on Dad's part, nor any wish to punish her; she had money enough to live like she had bargained to live when she Miss Grace Abbot, its present chief; bies; that Communist publications in married him, and that was his idea of justice. She had had nothing to do with his later success, and no claim upon its fruits. If she once found out that she could get money from Bunny, she would jist make his life miserable, and that was why Dad was so determined about it. The tradesmen could sue his mother, but they couldn't collect anything, so in the end they'd learn not to give her credit, and that would be the best thing for her. It was a painful subject, but the time had come when Bunny must understand it, and learn that women who tried to get your money away from you would even go so far as to marry you!

Bunny didn't say so, but he thought Dad was a little too pessimistic about one-half the human race. Bunny knew there were women who weren't like that, for he had found one-Rosie Taintor, who had been his sweetheart now for a year or more. Rosie always tried to keep him from spending money on her, saying that she didn't have any money, and it wasn't fair; she would ride in his car, but that was all. She was so gentle and goodcapitalists and women-and for 40 tinued their sex war campaigns, but in and Bunny was very unhappy about what was happening to their love affair. But his efforts to deny the truth to himself had been lative headquarters and herself, com- to represent women voters en masse, futile-he was beginning to be bored by it! They had looked at manding political general of socialism as a class, aligned against men and the eighteenth century English prints until they knew them by heart; and Rosie's comment on everything was still the same-'wonderful!" Bunny had gone on to new things, and he wanted new comments, and could not help wanting them, no matter how war as their only remaining excuse cruel it seemed. Therefore he did not take Rosie driving so often. and once or twice he took some other girl to a dance. And little Rosie was gentle and demure as ever, she did not even cry, at least not in his presence; Bunny was deeply touched, and like all The DAILY WORKER needs male creatures, he found it an immense convenience when old your five dollars-you need The loves consent to die painlessly, and without making a fuss! Withthat socialists have always favored DAILY WORKER. Send five for out realizing it, he got ready to fall in love with some new girl.

Quiet Comes to the Riga-Reval-Warsaw-**Bucharest Front**

After a week of intensive anti-Soviet propaganda, during which a new record for lying on an international scale has been set, the capitalist newspapers, on their inside pages, are beginning to retract in short paragraphs the categorical statements they made in sevencolumn lines and first page stories.

The counter-revolution in the Soviet Union is off. It never began, except in the pages of the capitalist press, but when the wish is father to the thought, and when the thought is a wish for the destruction of the Soviet government, news writers are given a latitude which, if taken in other circumstances, would send them looking for a new job.

So we find the following in the Chicago Tribune under a Warsaw date line of August 9:

Professor Charles Marion of the political science department of the University of Chicago arrived here from Moscow tonight and declared that all the rumors of riots in Moscow were untrue. He said that when he left Moscow last night the town was perfectly quiet.

Professor Marion was in Russia to study civic life, together with Prof. Harper. His report was corroborated by Robert P. Lewis, of New York and Honolulu.

Then there is a further six-line story under a London date line which, in speaking of the Russian situation, says:

There is no evidence of revolutionary outbreaks, according to information received by the British foreign office this after-

Comes a Riga dispatch, dated August 9, signed by Donald Day, one of the most versatile liars possessing a Corona. Markedly mild in contrast to the scare stories he was sending out while the propa- of putting into operation the maxim ganda was at its height are the two following sentences:

Rival groups of Communists are striving for control of the Soviet government. This does not mean the open revolt, which has been rumored, but now is denied.

This is evidence enough that the Riga dispatches were made up out of whole cloth, the Tribune correspondent being too modest to state that he was responsible for fifty per cent of them. The same can be said for the veracity of the dispatches from Reval, Warsaw and Bucharest.

The offensive against the Soviet Union is not over yet. But one of the lessons we learn from it in its present stage is that whatever occurrence in the internal affairs of the Soviet Union can be interpreted by the watchful advisers of world capitalism as a sign of weakness becomes the signal for a new attack on the workers' and peasants' government.

These attacks are the best proof of the falseness of the con- indifference on the enormous progress of organic life. tention of the world capitalist press that the Soviet Union is return- that the empirical sciences were making to capitalism instead of building a socialist economy. If the former were true the ruling class would not waste so much energy the world out of its own head, and to attacking a government which was driving the workers and peasants of Russia back into the family of capitalist nations.

"Solid Citizenship"

The Chicago Tribune in an editorial in its issue for August 10, furnishes us with a new definition of the phrase "solid citizenship."

In Iowa, for instance, according to the Tribune dictionary, the "solid citizenship" is composed of those who voted against Brookhart. As for the majority of the Iowa citizenship which voted in reason." Hegel's abtruse metaphys- sent the real "idealist philosophy" at the Republican Primaries for Brookhart, the Tribune dismisses them with two sentences:

Brookhart does not represent the solid citizenship of Iowa and his success thru temporary discontent has no proper relation to the real intelligence and prosperity of the Commonwealth. He represents radical labor from outside of his state, and the radicalism of the unsuccessful farmer.

The radical labor from outside of the state to which the Tribits living population, had meantime transformation. Lamarer had said une refers, consists of the American Federation of Labor, and the Railway Brotherhoods. They are just as radical as a small town banker.

The "unsuccessful" farmer element which supported Brookhart, are farmers who have failed in trying to make a decent living by him. selling farm produce, which tariff laws do not and cannot protect, in a market where all the commodities they buy are sold at monopoly prices which tariff laws help to fix.

That section of the Iowa farmers which has discovered the whole realm of science? We are bound futility of such a struggle and in addition has had sense enough to answer that it varies considerably. to draw some partially correct conclusions from the refusal of the The facts of the evolution of the indi-Coolidge administration to pass the McNary-Haugen Bill, is the section which the Tribune is denouncing.

The Tribune, therefore, is waging war on the most intelli- mountains in geology seemed to have rians, those wonderful microscopic ma gent section of the Iowa farmers. We hold no brief for Brookhart. an equally sound empirical founda-His recent compromise with the republican party machine in Iowa which brings his followers again under the domination of the elements mathematical speculation. There was this remarkable class of animals, of they are fighting shows the impossibility of establishing political no longer any serious question of which I afterwards described more independence for farmers by such men and methods.

But the Tribune's attack shows that even this side-tracking deliberate action of a personal crea- years of research, provided me with of revolts of poverty-stricken farmers causes such sheets a great deal this made people cling to the idea my Darwinian ideas. But when I reof worry by giving proof that farmers are beginning to do a ilttle more than ever in regard to the ori- turned from Messina to Berlin in the

For such contingencies the Tribune, as the mouthpiece of big industrial capitalism of the Middle West, has a candidate in readiness. He is none other than Frank O. Lowden, the millionaire genileman farmer prospect for president. If the farmers are going to do any thinking, the Tribune prefers to have them think of such spokesmen as Lowden. Even the amiable Brookhart is too much to the left. Regular republicans are preferable, because there is always [the danger that, in spite of continual betrayals, the working farmers being in the majority, will think out the strategy of their struggle to its logical conclusion-independent political action in alliance of Species," proved convincingly that with a Labor Party.

A Story of the British General Strike

BY A MILITANT ON THE FIRING LINE.

(The following is a brief account of | the activities of one trade unionist in Britain during the great general strike. Thousands of such stories could be told. While the official leadership was lethargic, if not worse, the crisis drew from the rank and file the type that is capable of taking the initiative in a crisis and scrap conventional formalities in obedience to the law of necessity. It is types such as the writer of this article (a letter to an American friend) that will supply the British working class with leadership in the near future.—Ed.)

About the national position, you will read in the papers of what led up to the strike. So far as the calling off is concerned, I think A. J. Cook's ac count is correct. First, I must say that I have not given up in despair for as one who was working inside the local Council of Action I could see a break, or should I say surrender taking place, not locally, but nation ally. At the same time I hoped for the best. The response of the men was wonderful, despite the way it was conducted, or should I say misconducted, by the Trades Union Council

It appeared to me as tho the Trades Union Council was forced into the po sition by the various executive committees in the conference held on the Saturday before the strike was declared, all unions placing power in the hands of the Trades Union Council's general council. Well, we find the general council in a position of having to make a stand, and of course knowing the makeup of the majority of the general council, they wanted to finish it as soon as possible, not by

fighting but by belly-crawling. From the first day of receiving power they became afraid of it. They go out of their way to point out that Then, again, instead of them making that machinery which is necessary to cope with the strike, they lay still, for not even the first essential thing for conducting a strike-communication-had been established. Instead of war, "hit hard and hit fast," they

out, the order calling them out coming | Echo (note, local papers) offices to | with people in the newspaper trade along after.

If the maxim of hit hard and hit arst had been applied the first day the government would have found some way out, or would have been kicked out. The active ones in the workshops, rails, etc., had been callng for action previous to the strike.

I was working inside, and while I accuse the leaders of cowardice. must say that I feared what would nappen with the situation as it was, no attempt being made to meet it, some of the leaders belly-crawling to the government. In the face of this leadership, I could see a blood bath of the workers, with no chance of us hitting back. I feared it all, for when enter a fight in the ring (this comrade is an amateur boxer), I have never retreated from the moment I have started, for I know that spells 'finished." No doubt we will be furnished with all sorts of excuses, but for me there is one, and one only, and hat is leadership.

Now for the local position. Tues lay found all transport at a standstill, docks, road and rail, not a wheel moving. Not a newspaper of any ort after Monday midnight. Reports oming in of sections not vet called apon having downed tools on their own, like my own shop walking out to man, foremen, etc., not waiting for the call. To give you some idea of the position on the Merseyside, I will' give you my own activities during that period which is a true statement of facts.

Tuesday morning saw the last of the dope, for all workers engaged on experience with the Sunday Worker the press ceased work Monday midnight. This resulted in the Daily the streets selling them. Within a Herald being left at the wholesaler's, it having arrived too late for delivery with local papers, also the Trades the strike is an industrial dispute. ee the newsboys.

It was now dinner time. The fact that it was a morning paper, also the Herald, they also looking forward to some sort of an evening paper, the boys would have none. I knew that not only our own men were thirsting for news, but that the "general public" of Lord street, etc., also wanted some, I got six chaps busy on Lord street, who sold them as quick as they could give them out. This proved too much for the boys, who soon got on the job, with the result that not one copy remained of the 8.000.

The following day, after a deal of obbying, members of the Council of Action decided upon a typed news bulletin. I pressed for a printed one, but they would not listen. The get ting out and delivery of the bulletin was in my charge, the Council of Ac tion appointing me on the job, they supplying a draft copy each day. What a task!-what a job! Typewriters, duplicators, etc., were in va rious trades union offices thruout the city. After the first issue I had them brought into one building, the Trades Council offices.

How we managed the first issue? Well, it would take pages to tell. The second issue found us going hell for leather, for we had to supply all organizations. This we did, I building up a machine for distribution which worked splendidly after the first day After supplying the needs of the trades unions, the idea struck me of getting them on the streets, and my came in useful, for I had the boys on quarter of an hour I had taken in £11 (selling them at 6 pence for 12) Of course I had done this without askreceived a phone call telling me to

But on the Council of Action read ing my report the following morning Well, I made inquiries on my own, they endorsed my action. This I found my union, district committee trades the best way with this body, "to do a was not satisfied with the output, so some people, and away I go and I arranged for relays of workers for for supplying of literature to all afthen another, with the result that the alds, which would have laid there wards the end of the strike we turned job on the committee for relief for out 60,000 a day for the trades unions committees or Trades Union Council, then was to get them on the streets, besides supplying newsboys in town. when one sees the great stand by but called shop meetings and went so I went over to the Express and I had also been busy on the phone these men.

who I met on the Sunday Worker and was supplying them with 200, 300 and 400 dozen to cover the outside dis tricts. What a job! I was getting what sleep I could on the floor in the Trade Council offices, having my food while doing some sort of work. I do wish you could have seen me with my coat off, and as I have been told since the strike, very insulting to some

Inside the main office I fixed up huge notice: "There's a war on. I you are not in it, clear out." This was for those people who can talk about doing things, or who tell you what to do, or, on the other hand, want to sing praises to you on your work. Well, by selling Bulletins we cleared the cost of all paper that was used for the 60,000 that went free o the trade unions, also handed over handsome balance of £30. Never saw home from the beginning till the end, and I was not the only one, for other fellows, seeing the lack of ma chinery, fitted themselves into the va rious jobs, such as despatch riders etc. Fellows arrived at the Counci of Action offices at all hours of the norning, in some cases wet to th skin, one of us getting "out of bed" o make the "blighter" a cup of hot tea, which no doubt proved very acceptable after being on a motor bike from London or Manchester. We are low holding the post mortem on the strike, controversy goes on briskly and the climax will be reached at the conference of trades unions executive committees when the general council will have to give an account of its actions. I have been busy night and day in all sorts of ways. I have fought two fights in the midst of the aftermath of the strike. They were staged for the miners' relief fund, and entered the ring on the two occa sions without any training, so you will have some idea how I feel; in fact, have been told by my doctor that will have to take a rest. What, with council, literature secretary for same I which has resulted in us setting up a depot from the trades council offices the machines, with the result that to- filiated organizations; now another the miners, then to suggest a rest

WITH THE STAFF

Being Things From Here and There Which Have Inspired Us to Folly or Frenzy

A Statesman Speaks.

The president was seated in front of a Franklin stove poking up the open fire in the Coolidge farmhouse when the message containing an outline of the Clemenceau letter was carried to him from Miss Cilley's general store, to which it had been telephoned. No direct comment was forthcoming from the president. He gave no indication of his reaction for a considerable period. He would be seen occasionally thru a front window walking about the room where three years ago he was administered the oath as president. At last, following a particularly vigorous jabbing with the poker at the fire, the president straightened up, signs of cogitation began to appear between the presidential chin and forehead. Drawing up to his full height, he gave an expressive gesture of blended dignity and disdain and exclaimed-"HMP!"

Hopeful Mr. Garvin.

J. L. Garvin is an Englishman. A capitalist scribe writes of him as "one of the greatest editors and writers of the world." This genius far surpasses us poor boobs on The DAILY WORKER. So much so that we feel like quitting after reading the following link of Garvin sausage, wherein Mr. Garvin's "brilliance" in attacking Marxism is only equalled by his ability to explain the perfectly lovely situation England is in, not under Marxism, but capitalism. He says:

Marxism

"Marxism is the Prussianism of economics and the mere goose-steps of the mind. It is the fairy-tale corpse on the back of British labor; only by riddance of it can British labor survive."

And Yet

"Our unparalleled debt is \$40,000,-The Haugen bill, recently debated in 000,000, our wealth declining, our taxthe house, has been defeated before. ation prodigious, our production costs The government is, of course, concern- high, our competitive position diffi-Each of these organizations is seek- therefore, likely that a compromise our shipyards closing, our agriculture ed enough about the farmer vote. WE THOUGHT SO

In his youth the Reverend Edward W. Hall, victim of the sensational New signed to let the farm co-operatives Brunswick murder, had worked on sheep have money to regulate their crops, ranches in Montana and Arizona; and newly discovered correspondence tends to show, it is said, that he intended to retire from the ministry and go into the government, to be recovered by a tax sheep raising business in Mexico.—News on products handled. The Haugen item.

OBJECTS TO BEING ABOLISHED.

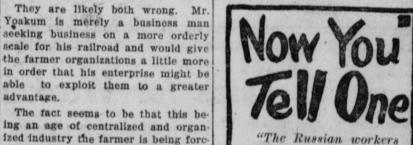

Dear Editor:- I note that your "With The farm heads, that I met last the Staff column has had no comments on Kansas City for the last few days. To help you out of this difficulty you will find the following worth while, taken from the chamber of commerce book, their own affairs. This has been pro-"Kansas City." moted by Mr. Yoakum of Washington D. C., former president of the Frisco

LABOR SUPPLY.

American labor predominates in Kansas City, only eight per cent of the total population being foreign-born. This accounts largely for the absence of labor controversies, from which the city has been exceptionally free thruout its history.

The labor supply comes in large part from the surrounding farm communities, and has been found by local manufacturers and others ed sacrificing rich man spending his to be exceptionally efficient.

There are no radical or uners, while the Nebraska Farm Union American groups to be found in editor calls him "Mr. Hoakum" and Kansas City. thinks he is a bunco man of big business leading the farmers' organiza-

the market. Heretofore they have been attempting to do it separately, but in the past two years a number of attempts have been made to form fed erations of the various groups. Each group has national connections but each state organization is nearly independent of the others. The corn belt association, the cotton belt, wheat and to Hegel, "in the state the divine will their creed threatened. The churches live stock belts, criss-crossing each

The farmers' unions are run by the members in theory, but in reality they ere dominated by the managers and officials of the various enterprises the farmer association members at 25 ion. The Kansas Farmers' Unions, for instance, has a bank, a creamery, a produce association, an insurance association, an auditing department, a live stock association, and a few cooperative stores and quite a number of grain elevators organized into a grain exchange at Kansas City, Mo. The officials of these institutions dominate the conventions and steer things about as much as any big business concern is steered. The membership send many "dirt farmers" as delegates who would have the power to dominate if they were trained up to that point.

The task of holding their products. and regulating the flow on the market, has been handicapped by lack of funds. Altho the farmers deposit millions of dollars in the banks each year they have not done their depositing the farmer organizations a little more in their own bank, in Kansas City, in order that his enterprise might be Kansas, nor in North Dakota, where the able to exploit them to a greater bank is actually "owned" by the state. Of course, there is a reason and that is, that the local private bank stock ing an age of centralized and organholders are, in many cases, a majority ized industry the farmer is being force of farmers, and besides that the farm- ed into collective activity in marketer often needs money quickly and he ing his products.
