Miners' Conditions Horrible.

THE articles written by Gorden Cascaden, exposing the shipments of coal to Great Britain to break the strike of the British miners' union, deserve the widest attention of all workers, particularly the coal miners and railroad and marine transport workers.

These shipments should be boycotted by all workers true to their class. We urge that copies of The DAILY WORKER containing these articles by Cascaden be distributed widely along the waterfront of all Atlantic ports. Information showing shipments of scab coal to Britain should be sent in to add to the list run by The DAILY WORKER of scab coal ships.

CHICAGO LABOR

gather funds for the striking British miners in Chicago unions. Paul Mc-Kenna, national executive board member of the Miners' Federation of Great Britain, is now visiting as many unions as possible to get them to aid the striking British miners. The following is a list of union meetings that are to be covered with speakers seek ing donations for the British miners:

GUARD MEXICAN

(Continued from page 1)

As Ambassador Sheffield took the train from here he showed a union membership card to Senor Morones who had remarked that wealthy Americans cannot readily understand the struggles of the Mexican working classes. "Altho now serving my country as an ambassador, I started life as a working man."

"So did Mussolini," remarked a bystander.

. . . WASHINGTON, D. C., Aug. 16 .-The government has no intention, at least for the present, of changing its policy in regard to Mexico. While pressure in behalf of the oil barons will be brought to bear on Calles, the administration feels that intervention

now would be construed by the noncatholic voters as obedience to the dictates of Rome.

The G. O. P. expects squalls on the political horizon next fall. Coolidge feels that it would lose more than it could possibly gain by acceding to the imperious demands of the Knights of Columbus. The so-called catholic vote is largely democratic, anyhow, and could only be cornered at the expense of losing large blocks of anti-catholic votes thruout the west.

Representative Boylan, the Tammyite who introduced a resolution in congress last January urging a break with Mexico, is again raving for intervention. He challenges the administration to break with Mexico or else recognize Soviet Russia.

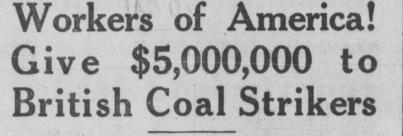

NEW YORK, Aug. 16 .- Ignacio Ma ran, former Mexican consul-general at Hamburg, Germany, and a supporter of reaction, congratulated William Green, president of the American Federation of Labor, on his statement on the Mexican situation. Maran said:

"Most laudable is, at this moment. the frank attitude taken by President Green of the American Federation of Labor in his statement defining clearly and concisely that the American labor tion of Labor convention which will organizations are above any scurrulous attempt to interfere with the rights and liberties of its individual members."

> It is no secret that Green's letter was welcomed by the catholic church and the oil interests and encouraged the elements hostile to the Calles administration to redouble their counterrevolutionary efforts.

. . . Discuss Mexican Situation. WHITE PINE CAMP, N. Y., Aug. 16.

No Atrocities Recorded. What decision has been reached, however, both refused to reveal. "Nothing to say," was the answer to all questions. From Mr. Kellogg it was learned that so far no indignities have been committed against any American as a result of the fight between the Mexican government and the catholic church.

By J. LOUIS ENGDAHL.

A MERICAN labor must send \$5,000,000 in financial aid to help the British coal miners continue their struggle against the British mine owners supported by the Baldwin tory government.

American labor must leave no stone unturned to stop the shipment of scab coal to Great Britain from this country.

. . . .

Here are two major tasks for the workers in the United States to accomplish in the immediate present. Action is needed now.

The spirit of the rank and file of labor in this country was well displayed at the last meeting of the Chicago Federation of Labor, when the British strike was endorsed unanimously, steps taken by unanimous vote to give it financial aid, and a unanimous declaration made in favor of an embargo on scab coal to England. But it is the officialdom of labor that must lead in the accomplishment of these tasks. The upsurge from the ranks must be so great that this official leadership will be pushed into action.

Some contributions have already been sent across. But it is a mere drop in the bucket. Not a single American labor organization has, as yet, done its share, least of all the United Mine Workers, the American coal miners' union.

The United Mine Workers of America must show their solidarity with the British coal miners by contributing at least \$1,000,000. It has raised much more for local strikes in this country. One million dollars, two dollars from each member, is not too much to send across the Atlantic Ocean to relieve the suffering among the million striking coal miners and their families. The money can be taken quickly out of the international and various district treasuries and later replaced thru a special assessment. The miners themselves must see that this is done. President John L. Lewis will not do it unless he is forced to do it.

This is a testing time for the great railroad brotherhoods, the Brotherhood of Locomotive Engineers, the Brotherhood of Locomotive Firemen and Enginemen, the Brotherhood of Railroad Trainmen and the Order of Railway Conductors, to show whether they possess any tie of kinship to organized labor, or whether they are as charged merely job trusts to protect the economic interests of their own members at the expense of the rest of the working class.

Let the railroad shopmen's organizations, altho still sorely weakened by their last great strike, challenge the railroad brotherhoods to a contest in the raising of relief funds for the British strikers.

.....

The unions in the building trades, well paid in comparison with other branches of American labor, must give to the utmost, which means in sums not less than \$100,000 each for these international unions. Organizations like the United Brotherhood of Carpenters and Joiners, with some militancy among their hundreds of thousands of members, should advance close to the quarter million mark.

During the great general strike that broke over England on May first, the printing trades stopped the publication of the great capitalist newspapers. Perhaps this display of militancy will inspire some of the printing trades in this country to dip into their treasuries, which are well filled, or into the pockets of their members and make a good show-

Ill-Fated Conspiracy (Special to The Dally Worker) SAN DIEGO, Aug. 16 .- Believed to 4 have planned a revolt in Lower Callfonnia, between 125 and 150 men were held for arraignment today before U. S. Commissioner Ryan. The men, led by General Enrique Estrada, former

Mexican scenetary of war, were arrested by federal officers late yesterday as they were preparing to march upon and capture Tijuana.

Estrada and the other ringleaders of the revolt were held overnight in the county jail here; the rank and file were corraled at Fort Rosencrans on Point Loma. Estrada and his aides will be charged with participating in an armed expedition against a friendly. government

To Capture Gambling Joints.

Federal officers believed the men. planned to capture Tijuana and Mexicalai and then build up a financial reserve by taking over the revenue from the gambling houses and saloons of the two border towns.

The expedition, according to federal agents, was not a comic opera insurrection. The men were well-armed and many of the leaders had long milltary experience.

Confiscated Ammunition.

Officers confiscated 400 Springfield rifles, two machine guns, one armored truck and 150,000 rounds of ammunition.

The insurrection, it was believed, is the one which was reported to be brewing in the Imperial Valley several weeks ago. Premature publicity and the prompt action of Imperial county peace officers in patrolling all high ways were responsible for checking the concentration there, it was believed.

Contractor Involved.

T. Degman, a Culver City contractor, and Earle C. Parker, a San Diego hardware man, were captured with the rebel leaders. Ospicio Sanchez, one of the officers of the revolt, carried a letter from Degman reading as follows:

"The bearer, Ospicio Sanchez, will report to you with 25 Mexican laborers to start construction work. I will be there in a few days."

Federal operatives studied the message in the belief that it referred to the mobilization of the rebel troops. Degman was refused bail. He sent word to his attorneys in Los Angeles

to come to his assistance. Parker, the hardware man, who was thought to have furnished the munitions captured with the army was also

held. Conferences between General Aurelio Sepulveda, well-known Mexican military leader, a former resident of Los Angeles, and General Estrada. aroused the suspicion of Department of Justice agents and the subsequent investigation revealed the details or the proposed revolt. Federal agents were confident that the charges against the ringleaders will be proved as a mass of corresponence and official documents were taken. The insurrectos were rounded up at Dulzura, only three miles from the border.

plete stoppage of a shop in Spring Manhattan jobber, where 30 machines ployment at low wages. and fifty men were working. ing before their fellow craftsmen thruout the world.

The metal trades can be expected to do their share.

Huge sums could certainly be collected if the American Federation of Labor would set up some machinery for the gathering of relief funds among the millions of unorganized workers, in the auto industry, the rubber industry, the steel industry, the vast unorganized sections of the shoe, textile and many other industries. This is a test of the ability of the organized labor movement to get in touch with the unorganized workers.

The workers of the Union of Soviet Republics have thrown down the gauntlet to American labor thru the contribution of \$2,540,000 to the striking British coal miners up to July 21st. The collections are still going on within the Soviet Union. Will American labor accept the challenge of Soviet labor and exert a serious effort to make good on its challenge? The days immediately ahead will answer that question.

BRITISH BOSSES TRYING PLAN OF **COMPANY UNIONS**

Copy Yankee Stunt To **Break Trade Unions**

Company unions are being given a tryout by British employers, according to Walter M. Citrine, acting secretary of the British Trade Union Congress, writing in the Cotton Factory Times, the leading journal of the Lancashire cotton workers.

The company union mentioned by Citrine are not to be confused with the so-called Whitley councils, which cover whole industries and recognize the existing trade unions as the bodies empowered to negotiate and bargain for the organized workers.

Copy "Yankee Stunt." Citrine says that since the general

strike many employers have disclosed plans for smashing the British trade union movement by encouraging the formation of "breakaway unions" and the formation of company unions and "workers' clubs." The Cotton Factory Times, commenting on the company unions, calls the British employers' attempt to put them over a "yankee stunt" copied from the virgin land of company unionism.

Organized Scabbing.

"In some respects," says Citrine "this is more dangerous than the frontal attack made by employers, or than the threat to legislate against the legal powers of the union." He calls the company union "deceptive inventions," working in a subtle and indirect manner for the destruction of the established unions. It is a form of organized blacklisting.

Those who join a company union enter into a conspiracy with the employers for taking advantage of the organized effort and sacrifices made by their fellow workers to improve the standards of wages and working conditions, for the company unionists accept all the advantages won by the trade unions, without accepting any of the responsibilities of trade unions

"I am confident that the company union will get short shift from the workers in this country," writes Citrine, in closing his statement. Bosses Aided by Reactionary Officials. He does not say whether the junket of British labor officials who came to this country a few months ago. their expenses paid by the reactionary Daily Mail of London, have had any influence in the establishment of these company unions. It will be remembered that these delegates were particularly impressed with the great open-shop establishments such as the General Electric Company.

GERMANY HOLDS TO HER CL AIM **ON LEAGUE SEAT** Seeks Expansion For

BERLIN, Aug. 16. - The German cabinet at its meeting last week laid down the rule for any German delegates who may be invited to the league of nations' coming meeting of the advisory committee, that Germany will not enter the league council if any other nations are admitted at the same time, and that Germany must have the same standing in the council as the other imperialist powers who have colonial possessions. Not Yet Invited.

German cabinet circles are affronted at the fact that Germany has not yet received even an invitation to attend the meeting. If such invitation is received, the old representatives, Dr. Gaus and Dr. Von Hoesch, the ambassador in Paris, will attend. The big industrialist and politicians

are beginning a drive for demanding of the other powers more colonial territories for Germany. They argue that the Dawes plan cannot be carried out unless Germany has new foreign markets such as only colonies can give, since her ability to pay rep. arations is based on a favorable trade balance, as pointed out by Owen Young, director of the Dawes plan.

Imperialist Designs. The colonization scheme has a cor-

rollary in the anti-republican move ment finding approval with the Hindenburg regime, who ordered the for eign embassies on the seventh anniversary of the Weimar constitution to fly the imperial flag, with a small inset of the republican colors.

President Hindenburg, while officially denying that he had had any communication with the ex-kaiser on the question of reducing the ex-mon arch's "claims" to the properties which caused the recent referendum vote, does not deny that conversations were held with the kaiser's legal rep resentative to reduce the claims until Italy and England in their acceptance could be gotten thru * * ń

THE DAILY WORKER

DETROIT LABOR

Workers (Communist) Party **WORKERS PARTY IN CLEVELAND PLACES TICKET**

(Special to The Dally Worker)

CLEVELAND, Aug. 16 .- At a convention of the Workers (Communist) Party in Cleveland a ticket for the coming campaign was put up. Altho the district has not been able to place a state ticket in the field, the Cleveland local will have its candidates for U. S. congress, state legislature and senate and a full county ticket. John Fromholz, John Brahtin and Israel Amter are the candidates of the party for congress.

Program and Platform.

The party convention adopted a program and platform, which are being isssued in leaflet form. The central slogans of the program are a labor party and a workers' and farmers' government. The Ohio State Federation of Labor is taken to task for putting up trade union candidates on the republican and democratic tickets. Only a labor party will answer the needs of the workers at the present time.

Support Miners.

The convention adopted several resolutions, pledging solidarity to the British miners now on strike, loyalty to Sacco and Vanzetti, and expressing solidarity with the painters and glaziers of Cleveland who have been on strike since March and to break whose strike the contractors' association has brought in scabs who are being protected by Safety Director Bar-The resolution calls on all the building trades to see to it that all contracts hereafter terminate on the same day.

The convention also adopted a resolution calling on the socialist party and the socialist labor party to form a united front in the coming campaign and offering to withdraw the Work ers (Communist) Party candidates in case either one or both of the parties would agree to call a convention together with the Workers (Communist) Party, trade unions and other working class organizations.

Failed to Answer Up to the present the socialist party

answered-and it is most probable been their attitude in all the united front campaigns that the party has offered to these two organizations, notably since the anthracite miners' strike, and especially for May Day.

WRITE AS YOU FIGHT!

ON TO A HALF MILLION!

Distribute a half million copies of the pamphlet, "The Workers (Communist) Party-What It Stands For, Why Every Worker Should Join" by the end of this year.

HERE'S HOW NEW YORK DOES IT! FIVE THOUSAND COPIES

OF THE PAMPHLET BY C. E. RUTHENBERG

The Workers (Communist) Party, What It Stands For, Why Every Worker Should Join

SOLD IN THE FIRST WEEK!

Dear Comrades:

We have already sold our first five thousand copies of the pamphlet. Already we have orders on our second five thousand. By the end of next week we hope to sell the other five thousand. For the first five weeks we should sell five thousand each week.

After that the orders should not be much less than five thousand every week. We will see to it that the pamphlet is sold at every street meeting. By that time we will have dozens of meetings in the district each week.

At all our meetings and important affairs-particularly the election campaign meetings-a copy of the pamphlet will go with every ticket for the price of admission. In this way we will reach many workers who could not be reached otherwise. We will charge this to the expense of the meeting, taking off 21% cents from the gross proceeds from every ticket. I suggest that the other cities do the same thing.

We are also planning to circularize all T. U. E. L. groups, co-operative organizations, etc., with this pamphlet.

We are giving a copy of the pamphlet away free to every striker who calls at our office or fills out the blank in our special Strike Bulletin. We will circularize lists among our comrades to make up for the cost of this free distribution.

I suggest that this be written up in the Daily so that other cities may profit from these experiences.

Fraternally,

JACK STACHEL, Organization Secretary, Dist. No. 2.

STRIKE RELIEF Conference Formed By **Union Delegates**

AIDS PASSAIC

(Special to The Daily Worker)

DETROIT, Mich., Aug. 16 .- A permanent organization to carry on relief work in Detroit for the striking textile workers of Passaic was formed at the delegated conference at the labor espionage service. Electrical Workers Hall, 55 Adelaide street. Fifty-one delegates representing 27 organizations were present, and also, as specially invited guests, Mrs. Harriet R. McGraw and John T. Taylor of the Web Pressmen's Union. Rebecca Grecht, field organizer of the general relief committee of tex- but most of the molders are card tile strikers addressed the conference, pointing out the generous re- resisted by all employes. Several of sponse made by Detroit labor, and urging all organizations present not R. W. D.) were placed among the men to slacken their efforts but to intensify the relief drive in these crucial weeks of the strike.

Many Donations.

The following organizations brought in donations: Detroit Federation of Musicians, \$300; Painters' Local 723, \$100; Auto Workers' Union, \$25; Car- client and booster." Confidential repenters' Local 1191, \$25; Baker Drivers' Local 78, \$25; International Labor | weekly to these clients give what pur-Defense, \$27.25: Lithuanian Literary Society No. 52, \$17.64. Unions Behind Strikers.

The delegate from Painters' Union No. 723 reported that his local had decided that every member shall be called one to work one hour overtime for the benefit of the Passaic strikers. Carpenters' Union No. 1191 reported the local had taxed its membership \$1 each. Typographical Union No. 18 had permitted the relief committee to circularize its 900 members with an appeal for aid, accompanied by milk stamps and contribution lists, and also with an enclosure by Secretary John F. Simmons of the union, urging response to the appeal. It was further reported by Organizer Grecht that over 600 strike pictorials, "Hell in New Jersey," had been sold at union meetings in one week, and delegates were urged to push the sale of this vivid story of the struggle.

Executive Committee.

The following officers were elected: Newton B. Short, of Electrical Work-JACKASS READY ers No. 58, chairman; Jacob C. Robinson of Printing Pressmens' Union, secretary; Joseph Friedman of Painters' Local 723, treasurer. In addition FOR BIG PARADE to the officers, the following delegates were elected to the executive committee of the Detroit conference: Harriet R. McGraw; H. Bennett, Musicians Union; F. Bouchwalt, Electrical **Control House** Workers No. 78; John T. Taylor, Wed Pressmen; W. Reynolds, Workers (Communist) Party; Mrs. R. Louis (Special to The Daily Worker) Gomon; Mrs. Hugh C. BIG LABOR SPY AGENCY BOASTS OF HOW IT WRECKS TRADE UNIONS

By ROBERT W. DUNN, Federated Press.

Editor's Note: Robert W. Dunn, who knows more about the labor spy than any other man in the labor movement, begins a valuable series of articles on industrial detective agencies with the following expose of the Corporations Auxiliary agency. Dunn was co-author with Sidney Howard of the Labor Spy, and since the publication of this book has gathered a mass of additional data. His articles will appear weekly.

. . . Union-wrecking activities of labor tives. Eight months later it was an spy agencies are revealed again in letters and reports issued by the International Auxiliary Co., the New York walkout." state representative of the Corporations Auxiliary Co. of Ohio, premier

An item in a confidential report to clients issued by the Buffalo office of the international tells of speedy union liquidation where its undercover operatives were employed. The unnamed client "advises of the great help derived thru our service. He operates a foundry on an open shop basis men. A new production system was our representatives (meaning spies, and thru their leadership and propaganda work the men came to like the system. . . The union is being gradually forgotten.'

Another Booster.

As a result, the International claims 'we have another highly satisfied ports on general labor conditions sent ports to be "inside stuff" on union growth is always the occasion for a

MOVIE MAGNATES SEEK TO SMASH **OPERATORS' UNIO**

Bosses Build War Chest To Fight Union

(Special to The Daily Worker) NEW YORK, Aug. 16-Five hundred theaters were represented at a meeting in the Astor Hotel of the Theater Owners' Chamber of Commerce which control most of the independent movie palaces in New York. It was decided at this meeting to wage an agressive fight against the union. A decision was made not to grant the demands of the union and that as soon as the present agreement runs out that the movie houses operate under the scab "American plan."

Local 306 of the Motion Picture Operators insists on wage increases ranging from 20% to 40% with complete control of projection booths in tht hands of the union.

Reject Arbitration.

This offer made by the union was rejected by the theater owners. The will call at our office and bring your movie house magnates declare that own letter and this of ours to you they will not sign the new agreement. and present them both at this office, They declare that the union must we shall be glad to give you an in- either agree to renewing the old agreeerview for the position applied for." ment or go to arbitration. The motion When the worker is interviewed he picture operators, realizing that thru skillfully informed that the "per- arbitration they will not make any nanent position with good pay" means gains and that the bosses will get the best of the bargain, refused to arbitrate their demands

Bosses Seek Scabs.

At this meeting the moviet house proprietors decided to assess each member \$500 to start the battle against the union when the contract expires The International Industries claims Sept. 1. Scab-recruiting agencies have been opened in several parts of the years and that it never has less than city in an attempt to recruit a sufficient number of scabs to man the ties on its operative lists. Service larger theaters. A campaign to smash the present union organization has

> The union is also preparing for the battle. It does not intend to lav down and allow the bosses to smash their organization. They are preparing for the struggle, which is to start the day the contract expires.

Poverty Yarn of N. J. **Corporation Exploded** By \$12,000,000 Profit

NEWARK, N. J., Aug 16 .- (FP) -Stret car and bust subsidiaries of the Public Service Corporation of New Jersey have been arguing that they must cut employes' wages ten per cent, that they were unable to continue present wages. The local union of the Amalgamated Association of Street & Electric Railway Employes, has been demanding a twenty-five percent increase. Now Mayor Raymond has ordered an investigation into the The present agreement expires next October 1. It has been in force since October 1923 and gives conductors

WHAT HAS GONE BEFORE.

<section-header>

. . . .

They got to San Elido; and Dad said, "We'll jist stop and shake hands with Jake Coffey." They drove up to the store, and Bunny jumped out, and there was a clerk and he said, "Jake's gone up to Paradise to see the well. Have you heard the news?" Excelsior Pete has got a gusher, there's oil all over the place!" Bunny ran out and shouted to Dad, and leaped into the car, and gosh-almighty, the way they did burn up that road across the desert! Dad laughed, and said the speed-cops would all be up at the well.

They got to Paradise, and the town was deserted, not a soul on the streets, and not a car, except those that were hurrying through, like the Rosses. A burglar could have made off with the whole place-but any burglar would have been watching the gusher along with the speed-cops! You had to park your car a quarter of a mile away from the well, and you could hear the gusher roaring like Niagara Falls! And then, walking, you came round a turn in the road, and you could see the valley, and every-

thing in sight was black; there was a high wind blowing, and it was a regular thunder cloud, a curtain of black mist as far as you could see. The derrick was hidden altogether-you had to make a detour, behind a little ridge, and come over the top to windward, and there the crowds were gathered, staring at the great black jet that came rushing up out of the ground, a couple of hundred feet into the air, with a sound like an endless express train going by. You could see men working, or trying to work, under the derrick; you could see a bunch of them with picks and shovels, throwing up a sort of dam to hold the oil; they wouldn't save much, Dad said, it evaporated too fast.

Dad could watch this scene philosophically; it wasn't his "funeral." If it had been one of the independents, like himself, he'd have offered to help; but this was a dirty crowd, Excelsior Pete, they didn't think the little fellows had any business on earth, there was nothing too mean for them to do. Of course, it was a shame to see all that treasure going to waste; but you couldn't be sentimental when you were playing the oil game. What you had to watch out for was that the wind didn't shift suddenly and ruin your good suit of clothes!

They watched for a while, and then they remembered they had a well of their own, and drove back to Paradise and across

VIII

the valley to the Watkins ranch. They had a long talk with the Dye workers drop from sheer exforeman; Dad examined the core, and the report of the chemist haustion on the wet floors of the workwho had tested the oil; he saw that the "washing" was going all rooms. Rest rooms, wash' rooms, garright, they would be ready for the cementing off in the morning. places Everybody was on tiptoe; they were going to do their job better are all unheard of in the dye houses. than the "Excelsior Pete" crowd, and not smear all the landscape

with crude petroleum. The tankage was at the railroad depot, and they inspected the foundations, just completed for the tanks.

Everything "hunky-dory," said Ruth. They drove over to the Rascum place and saw Ruth, and Bunny got on his hunting clothes, and got a few quail before sun-down; and then they had supper, and Paul told them all the gossip about the well, also how much money Eli had collected for his temple. After supper NEW YORK-(FP)-"London dock- they went back to the well-they just couldn't keep away! It was a crisp cold evening, a new moon in the sky, a big white star over it-everything so beautiful and Bunny so happy, he owned a "wild-cat," and it was "coming in," it was going to yield him a treasure that would make all the old-time fairy tales and Arabian Nights adventures seem childish things. They were lifting the "water-string" now-a process necessary to cementing printer who was recently laid off on time of the strike by workers in oth- off; the casing at the bottom had to be raised, so that the cement could be forced under. It was difficult, for the casing was wedge h, and they had to put down a tool known as a "jar," which struck heavy blows and shook the casing loose. Standing on the derrick platform, Bunny listened to these blows, far down in the earth; and then suddenly came a sound, the like of which had never assailed his ears in all his life, a sound that was literally a blow on the side of his head; it seemed as if the whole inside of the earth sudenly blew out. That tremendous casing-head, with miners were already making less than its mass of cement, which Dad had said would hold down Mt. Vesuvious, went suddenly up into the air; straight up, with the big fourteen inch casing following it, right through the top of the derrick, smashing the crown block and tackle as if these had been made of sugar candy!

Of course Bunny turned and ran for his life, everybody scattered in every direction. Bunny looked once or twice as he ran, and saw the casing head and a long string of casing up in the air, for all the world like a Dutchman's pipe, only it was straight. When this pipe-stem got too long, it broke off, and crashed over sideways, taking part of the derrick with it; and out of the hole there shot a geyser of water, and then oil, black floods of it, with that familiar roaring sound-an express train shooting out of the ground! Bunny gave a yell or two, and he saw Dad waving his arms, and presumably calling; he started toward his father-when suddenly, most dreadful thing of all, the whole mass of oil up in the air burst into flame!

They were never to know what did it; perhaps an electric spark, or the fire in the boiler, or a spark made by falling wreckage, or rocks blown out of the hole, striking on steel; anyhow, there was a tower of flame, and the most amazing spectaclethe burning oil would hit the ground, and bounce up, and explode, and leap again and fall again, and great red masses of flame would unfold, and burst, and yield black masses of smoke, and these in turn red. Mountains of smoke rose to the sky, and mountains of flame came seething down to the earth; every jet that struck the ground turned into a voicano, and rose again, higher than before; the whole mass, boiling and bursting, became a river of fire, a lava flood that went streaming down the valley, turning everything it touched into flame, then swallowing it up and hiding the flames in a cloud of smoke. The force of gravity took it down the valley, and the force of the wind swept it in one gulp; it took the tool-house, everything that was wood; and when there came a puff of wind, driving the stream of oil and gas to one side, you saw the skeleton of the derrick, draped , with fire.

American Finance Capital in Europe

ROME, Aug. 16 .- Andrew W. Mellon, secretary of the United States treasury, during his recent visit to Rome, in his talks with Premier Mussolini and Count Volpi, Italy's finance minister, "was able to see with his own eyes the solidity of the political situation, the activity and disciplined productivity and the strong co-ordinated and constructive sense" of Italy, and he did not hide his keen satisfaction.

This statement was made by Count Volpi, who added that altho the calls of Mr. Mellon upon Signor Mussolini and himself were strictly private, finance was discussed and the problem of Italian currency reform came up.

THE treasury department of the United States government, it is

evident from the above Associated Press dispatch, is assuming more and more of the functions of the state department. It has been denied time and time again that the secretary of the treasury's European trip had any political significance but the fascist officials of Italy seem to be of a different opinion.

Mellon left Italy for France and we can expect news of more "private conversations" with leading members of whatever cabinet happens to be leading a precarious existence while he is there.

Writing from London for the August 11 issue of The Nation, Oscar Garrison Villard, reviewing recent developments in Western Europe, says:

But above and behind the industrial and financial groups in both countries (France and England) stands the American moneypower which, by force of circumstances, is beginning to dominate the world-within a year it may be writing that Dawes Plan for France which Mr. Snowden, the ex-chancellor of the exchequer, has declared inevitable. I acquit the American money-power of deliberately planning to achieve a dominating position in Europe. It too is, I believe, merely reaping its share of the whirlwind . . . It would be amazing, perhaps, if we should live to see a European customs union against America, but it is not impossible.

The liberal Mr. Villard dislikes to impute base motives even to finance-capitalists but Mellon is in Europe, General Dawes has been there, so has Owen D. Young and over the head of all the western European governments hangs the Damocles sword of American foreclosure proceedings.

American imperialism is driving for world-domination, not merely for European domination, just as did Germany and just as does Great Britain. Such a course presupposes the existence of a planned effort into which such maneuvers as Mellon's conferences fit.

American imperialism must seek alliances in Europe, it must seek to make impossible such a united front against it as an European customs union would be and it must do this precisely because of its drive for world domination. It must prevent at all costs a common for months and even years, was front of the principal debtor nations and this is not difficult of accomplishment because of the conflicts between them as for instance, the deep differences disclosed between different groups by the recent consummation of the Spanish-Italian treaty, with its obvious threat to Great Britain and in a lesser degree to France.

That Secretary of the Treasury Mellon, unofficially and without any mandate for the purpose, is engaging in negotiations which continued, the entire coal industry of alter fundamentally the course of European diplomacy, is obvious. It is proof of the supremacy of finance-capital not only in Europe. but in America and it fits well with the nation-wide inspired agita- that is to say they used to be. Many tion for military training, a bigger and better army, navy and air of the mines have closed down, many force---it shows the way in which imperialist wars are made.

The Fight on Filipino Freedom—The Vanished "Little Brown Brother" Period—"Divide and Con- Reaction in the ican Imperialism in the Pacific Area--Natural Resources Other Than Rubber-Mobilizing "Public Sentiment"-Some Defects of the

Independence Movement.

By WILLIAM F. DUNNE. ARTICLE II.

"Sane, Humane and Forward-Looking" THE raising and harvesting of raw rubber has been accompanied by the most horrible atrocities in the his-

ory of mankind, atrocities made possible by the establishment of military dictatorships in the rubber-growing districts. Robert L. Bacon seems to have studied closely the bloody records of the Belgian, Dutch and French governments in the field of rubber pro-

duction. Sections 201, 202 and 301 provide for a military dictatorship over the new province and its people. SECTION 201 says: The president, with the advice

and consent of the senate of the United States, shall appoint a governor, a secretary, an attorney, a treasurer, a director of education. and an engineer, who shall..... together with auditor of the Philippine government, constitute the executive department of the province. THIS is definite enough but Section 202 still further strengthens the

dictatorship: The supreme executive power

shall be vested in the governor. He shall have general supervision and control of all departments. and shall be commander-in-chief of all the locally created armed forces and militia. whenever it becomes necessary he may call upon the commander of the military and naval forces of the United States, summon the posse comitatus, or call out the militia to prevent or suppress lawless violence, invasion, in-

surrection, or rebellion, and he may in case of rebellion or invasion, or imminent danger thereof, when the public safety requires it, suspend the privileges of the writ of habeas corpus, or place the province, or any part of it, under martial law ... TRUSTING persons with faith in the democratic professions of our capitalist statesmen may argue that the above provisions are for extraordinary emergencies only but the author of the bill has no such illusions. In his

remarks prefacing the introduction of his bill, Representative Bacon said: .the Moros are not yet remotely prepared to intelligently participate in a self-governing democracy.

The bill clothes the executive arm of the proposed government is clothed with full authority, backed by the armed forces, to do just about any thing it wishes to.

BUT legislative bodies have been known to check the full exercise even of dictatorial powers (Governor-General Leonard Wood had his troubles with the Filipino legislature and even the closely restricted Haitian assembly had to be dissolved to give the American dictatorship and its puppet president a free hand) so the Bacon bill gives the legislative powers to the executive-a simple solution for very complicated problem and one that is possible only when there is complete disregard for the rights of the human beings who are to be exploited and ruled-a typical characteristic of modern colonial rulers.

SECTION 301 provides: The governor, the secretary, the treasurer, the director of education. the engineer, and the attorney shall constitute the legislative council of the province

may also, in his discretion, appoint not to exceed three additional members of such council , who may be citizens of the Philippine. shall hold office at the pleasure of ... in case of a tie the president ... vote the proposition which receives the vote of the governor shall prevail

THE natives of the new province, it I is clear, will have no voice whatsoever in either the framing or the administration of the laws under which they will live.

Having established the principle that, in the words of Representative Bacon

The administration of their affairs should be restored to a SANE, HU MANE, AND FORWARD-LOOKING AMERICAN ADMINISTRATION-(Emphasis Mine), and the proper machinery, as described above, set up to carry out this high purpose, the next step is to place the control of the natural resources of the province in the hands of the government where it will be safe from Moros and Filipinos alike. THIS the Bacon bill does in Section

501, Clause c:

All the property and rights within the province acquired by the United States under cession from Spain.. are hereby expressly declared to be and are hereby reserved as the property of the United States. and are placed under the control of the government of the province to be administered and disposed of by

WHAT are the natural resources which, with a few strokes of the pen, and by the power of a dictator- the best traditions of Anglo-Saxon ship organized expressly for the pur- altruism, is on the duty to do good pose, are to be handed over to the care to a suffering people ... The president of individuals responsible only to the

government of the American imperial-Hemp and sugar are the principal substance. Its skill with the devices roducts that of in connection with of portrayal has far exceeded in beauty he Philippines. The sugar trust is considered to be the capitalist group nost interested in the islands. But Representative Bacon, speaking for his oill, gives the following valuable information

THE finest coal bodies in the Philippine Islands are in Mindanao. One of the greatest undeveloped bodies of iron ore in the world is situated in the island of Mindanao. Competent engineers have estimated that there are in sight over 500,000,-000 tons of high grade iron ore.. With the Moro province once opened for the development of iron ore and for the growing of copra, sugar, rubber, hemp and the investment of capital under careful governmental regulations, encouraged rather than discouraged, as at present, there is no question but that in a very short time the revenues of the Moro province would far exceed per capita of population, that of the entire remaining portion of the Philippine Archipelago.

YOAL, iron and rubber, a huge supply of cheap labor-power guaranteed by the military government provided by the Bacon bill-the Moro province is certainly a juicy morsel Parade" is but a single exception. Infor American imperialism.

But no great publicity is given Communism denounced. In other by the sponsors of the Bacon bill to such material reasons for the division of the Philippine Islands. A holy purpose actuates those who seek this legislation and the emphasis, following

This Is Solidarity

Since the British miners withdrew from the pits in their long and painful struggle the attempt of the owners to force a reduction of wages and lengthening of hours on them, not a pound of fuel oil has been sold to the British market by the Union of Socialist Soviet Republics.

This fact was learned when the central committee of the Miners' Union of Soviet Russia was forced to reply to lies circulated by the social-democratic press of Germany, that the Soviet govern- those states practically to monopolize ment had concluded agreements to sell fuel oil to the British government.

Not only have the Russian workers contributed over \$2,500,000 to the strikers' relief fund but no shipments of any nature that hopeless for them provided they would help the British government break the strike have been allowed to leave a Soviet port.

This policy is entirely opposite to that followed by the reactionary trade union leaders of the rest of Europe who sail under the banner of social-democracy. Coal is pouring into British ports from the West Virginia coal operator, and that "a union might be formed. This every coal producing country in the world. This shameful traffic the Ohio coal operators envy him. could be stopped inside of twenty-four hours if the leaders of the There was only one thing to be done. Amsterdam International, those calumniators of the Soviet Union, and that was to follow up the staryagreed to the proposal made by the trade unions of the U.S.S.R. bait of opening the mines provided for an international conference of trade unions to consider ways the United Mine Workers would conand means of assisting the miners win the strike. This offer was sent to a reduction of the wage scale spurned by the social-democrats and the sorry spectacle of international scabbery continued.

The most glorious chapter in the history of the British miners' struggle, not even excluding the sacrifices of the embattled coal they were rejected. But they were diggers, will be that devoted to the unexampled solidarity shown by the workers of Soviet Russia, who at great sacrifice to themselves, rendered every assistance to their comrades in Britain in the interests of the world labor movement.

"Say it with your pen in the worke correspondent page of The DAILY This challenge poist be taken up, for work for a long time or on half rairy life of the union. tions, and they have nothing to fall WORKER."

Altho the novel and the drama of today have comparatively escaped from this fettering influence -- of course the popular novel still panders to this artistic depravity-the moving picture perpetuates it.

WHEN "The Last Laugh" finally went round the country, its end-Many of the members of the U. M. W. ing was changed so as not to leave A. in Ohio district are willing to acan unhappy feeling in the hearts of cept an offer of work, provided it its audiences. Hardy's novel, "Tess of the D'Urbervilles," was changed in the appears to be continuous. It is perfectly clear that this offer is not same way when it was pictured. Sinclair Lewis' "Main Street" suffered the made in sincerity, for there is no market for all the coal mined in this same fate. Even "The Big Parade," country and the chaos that exists in to suit the bourgeois fear of reality, was made to end happily. Andreyev's Great Britain prevails in the United "He Who Gets Slapped" also was doctored for the movie patients. The ordinary run of movies, of course, unvaryingly follows this prescription. WERE "Anna Karenina" to be movieized the suicidal Anna would certainly be saved from the wheels of the train by a courageous Vronsky who would kill her husband in a duel and carry Anna off to the priest in preparation for the final fade-away kiss as the ship carried them to a happier clime.

As long as the moving picture continues this sentimental romanticism of. ending its value as a form of realistic art will be less than little. As long as it devotes itself to the other bourgeois virtues it will continue to be a reactionary art.

WCFL Radio Program

Chicago Federation of Labor radio proadcasting station WCFL is on the air with regular programs. It is broadcasting on a 491.5 wave length from the Municipal Pier.

TONIGHT

6:00 to 7:00-Chicago Federation of La-or talks and bulletins.
