#### (Special to The Daily Worker)

MOSCOW, U. S. S. R., Sept. 1 .- The first group of the British miners' delegation, including the miners' wives, among these the wife of A. J. Cook, secretary of the Miners' Federation, arrived here today, and were greeted by a tremendous demonstration for the unity of the English and the Russian labor movement and of sympathy of the toiling masses of the Soviet Union for the heroic struggle of the British miners.

Annie Cook, speaking to the great crowds, declared: "We came to thank the Russian workers for their help. A million women and two million children require immediate aid. Many families are living merely on bread. Several cases of the death of mothers from exhaustion have been registered in a number of districts. Particularly is the need now felt because of the coming of autumn and the rigors of winter."

# Andreyev Urges Greater Support

Chairman Andreyev of the Soviet Labor Union delegation to the Anglo-Russian committee, reported in the presence of the British miners' delegation, to the Central Council of the Labor Unions of the U.S.S.R., on the course of the conference of the committee.

Andreyev pointed out that the Soviet delegation suggested concrete steps to increase the material support of the miners on the part of the Anglo-Russian committee and the General Council as well, also that the Soviet delegation had introduced measures against the importation of fuel into England.

The Central Council unanimously approved the action of the Soviet delegation, and further adopted a resolution entrusting its delegates to the forthcoming congress of the British trade unions to declare decisively that the labor unions of the Soviet Union are

ready to give the utmost further material support to the heroic struggle of the British miners.

Assess All Militant Labor. At the same time the Central Council, in an appeal to the labor unions of the U. S. S. R., invites them to aid per cent assessment upon the salary of all members. Simultaneously, the Central Council is notifying the Red International of Labor Unions that it offers to conduct a campaign for a similar levy among all organizations

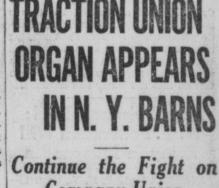

affiliated to the Red International.

to 133rd St. or Lexington Avenue Express to East 10th Street; then Westchester R. R. to Dyre Avenue, (Fare 7c). Walk three blocks West. Unity Slogans.

Here are a few of the slogans: Every Traction Worker a Union Man! You want a real union instead of the reptile Brotherhood to which you are now forced to belong. But there are many ways to attain the same end. If you are wise you will remember the following suggestions as to how to fight inside the Brotherhood as well as on the outside, in order that you may more quickly have your own union.

1. Attend All Meetings! The company has very cunningly succeeded in disgusting you with the way the Brotherhood meetings have been conducted in the past. Their purpose is to enable their own few paid henchman to conduct all the work. Fool them at this game! Your duty is to attend each and all meetings 100% strong.

2. Fight the Fake Delegates! You must oppose the fake delegates. Fight against them! They are not working in your own interest but in the interest of the company.

3. Unite the Forces of the Work ers! Do not fight alone. Begin to take careful note who else is fighting with you. Be careful with company spies but approach your honest brothers and talk things over with them. Lay yo plans for your local meetings. Fight together! Fight as one!

4. Demand Meetings Off Company Property! Start the agitation for meetings away from the company's property. You will succeed in this demand if you keep up the fight. Unite for the fight for a real union!

Warns of Spies.

The bulletin warns the workers to be wary of company spies and exposes the methods of the company union and the tools of the management who are placed in charge of the fake union.

## 150 Reported Drowned in Boat Collision

(Special to The Dally Worker) LENINGRAD, Sept. 1. - An unknown sailor is acclaimed today as the hero of the Burevestnik disaster, when some 150 persons were drowned as the Burevestnik, a Soviet passenger ship, sank in the Morskoi Canal on Sunday night after colliding with a pier in an effort to avoid a collision with the German steamer Greta.

Turned Off Steam.

This unknown sailor, a member of the crew of the battleship Murat and a passenger on the Burevestnik, returning to his station at Kronstadt from a holiday, ran into the boiler rooms as soon as he realized the Burevestnik was sinking and opened the steam cocks. His action is be lieved to have prevented an explosion and an even worse disaster. He was unable to regain the decks, however, and was drowned.

Most of those who lost their lives are believed to have been trapped below decks, as only nineteen bodies have thus far been recovered. A rigid inquiry into the causes of the disaster and the possible lack of lifesaving apparatus on a ship carrying 400 passengers and forty crew is under way.

#### Scene of Panlo.

companied by scenes of wild panic. and it is estimated that at least forty women were among those who met death by drowning.

the water and others jumped, saving abolish. their lives by clinging to the stone piling of the pier against which the ship crashed.

#### Assistance Futile.

The crew of the German steamer Greta lowered a lifeboat, but it was almost immediately swamped by frantic persons who insisted upon clinging to it and trying to save their lives. When the boat was swamped those who had already been picked up were thrown into the water and drowned.

## Wants Prisoners Paid; N. Y. Federation Will **Bring in Independents**

NIAGARA FALLS, N. Y., Sept. 1 .-Extension of workmen's compensation to include inmates of state institutions permanently injured by their employment was favored by the New York state federation of labor con vention. Compensation should b paid upon the prisoners' release, the convention recommended.

John Sullivan, approved as president of the federation by the conven tion, declared that the organization would attempt to bring into the American Federation of Labor ranks as man, 'without regard to race, color or many of the independent unions in previous condition of servitude,' the

olution

Piles of building materials, floor tile, pipe fittings, electric conduit tubes, etc., were being accumulated on the ground level of the De Wolf building at 100 West Monroe street Tues day. This job was struck on Aug. 23 by the Chicago Building Trades Council because of the use of non-union workers in the same trade with union

At the same time the interior building material was being stored on this job, the Citizens' Committee for the Enforcement of the Landis Award was issuing a statement that it had coming from Milwaukee, Detroit and New York fifty-three iron workers, six steamfitters and a number of elec tricians as well as other mechanics to be used in breaking the strike here and also on the Jewelers' building from which union men were called last Saturday by the council for the same reason,

#### Ready for Scabs.

The imported strike breakers will find several weeks' material stacked in the building in which they are expected to work and may put in all the overtime their scabby frames can stand without fear of getting ahead of the job.

Laborers on the De Wolf building, when the guards provided by the Citizens' Committee had assembled in an other corner to listen to a private about forty men in their trade at work there and that they were getting 80 cents per hour, without bonus. They claimed they did not like the work, but were forced into it by untoward circumstances, etc., the usual scab's line of talk. Union bricklayers are still at work

on the walls, now up to the eighth floor.

#### Extend the Strike!

The Chicago Building Trades Counil was in session Tuesday to decide whether or not to strike fifteen or the grounds that they are using nonunion workers in trades where union contracts have been made. One argument for striking these buildings has always been that increasing the size of the strike will be the best way to prevent the Citizens' Committee from bringing in enough scales to finish the buildings on which construction has already been stopped.

operative creamery stood.

(Special to The Daily Worker) BLOOMVILLE, Wis. (By Mail).was once a power hereabouts, has disappeared. The klansmen, in all their regalia, at one time held their great open air initiations here, as in other parts of the state and nation. Crowds of curiosity seekers came to witness the performance.

One of these initiations was given added zest by an event not on the regular program. This is a country where dynamiting stumps out of existence is one of the major duties of the farmer, just as the New England farmer picks rocks before he can raise his crops. At one of the klan ceremonies several farmer boys placed huge charges of dynamite under a great pine stump, blowing it into the sky along with masses of stone and dirt.

Farmers hereabouts call it "a miracle" that no one was killed or injured. It is one of the tales that is repeated about the ku klux klan, as if that organization were something of the faded past. \* \* \*

When the Nonpartisan League was at the height of its power in North Dakota it also swept into this state. It won many farmers in this section to its standards. They sent their representatives to the gathering at Madison, the state capitol, that was to plan and carry out the millenium for the farmers inside the old capitalist parties, thru the use of the primaries. But the last vestige of "The League" has disappeared. It also is a memory.

The Farmers' Equity Co-operative Exchange, commonly known as "The Equity," has also departed into the limbo of the dead past. \* \* \*

"The farmers hereabouts, therefore, have no organization of any kind thru which to struggle even for the slightest demands?" I asked.

"None at all," came the reply, "except that creamery down there."

Just a few steps down the road was the plant of the Ideal Butter and Cheese Co-operative. I visited it and had a talk with the manager. Everything was spick and span. The machinery was of the latest type. Everything was moving along satisfactorily. Last year the gross business was \$100,000. There were ambitious plans for improvements, the installation of a refrigerator plant, beautifying the surrounding grounds, etc., etc.

tions were gone. Our Communist But it seemed to me as if the Party can win the farmers as well farmers who brought their cream to as the industrial workers in the the dairy to be made into butter to cities.

# TRY TO SAVE

Expects Union to Come **To Arbitration** (Special to The Daily Worker) be shipped on to the big cities, even

NEW YORK CITY, Sept. 1 .--- Governor Al Smith has taken advantage of the nice words used by the officials of the International Ladies' Garment Workers' Union complementary of the commission which took two years to tell the union it was opposed to the union demands.

The union's letter declining the govrnor's proposal to arbitrate was so full of praise of the governor and his commission that he has promptly replied by a query as to why the union did not accept the commission's recommendations.

Profits From Advantage Given. In addition, the governor, after greeing with the union that his motives are the highest and concerned only with the welfare of the workers, proposes on that ground that the union ccept his advice and arbitrate. In fact he attacks them for not arbitrating, and upholds the Industrial Council of manufacturers, who stand n need of backing in view of the determination of the rank and file of he union to continue the struggle to dctory.

"As you indicate in your letter," ays the governor's reply, "the commission has shown keen appreciation of the complexities of the industry and have directed their efforts toward basic and permanent improvements. These recommendations were accepted by the manufacturers but rejected by he union.

More "High-Minded Devotion."

"For eight weeks the strike has een going on and the height of your short season is here. Because of the deadlock I proposed a speedy and final arbitration. Usually it is the employers who hesitate to accept arbitration, but this time it is the union. In urging this plan upon your leaders, had fully in mind the welfare of cloak and suit workers. While I appreciate much that you say in your letter, I regret that you have not given a favorable reply."

#### Will Ask Conferences.

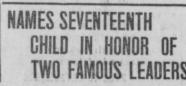

As the union had suggested that onferences be arranged in which the obbers be called upon to negotiate, he governor ends by saying:

"I shall communicate with the several parties, asking them to take part in such conferences. I shall also request the "impartial chairman" in your industry to co-operate by renewng meetings. Should this line of effort not prove successful, I shall expect you to consider again the question of arbitration."

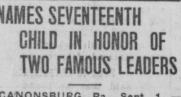

## Lawyers Victory Evaporates. The temporary injunction, recently

vacated by Supreme Court Justice Crain, which vacation was hailed by the union lawyers as of enormous value to the workers, has now been

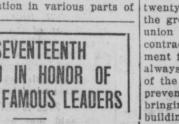

reinstated by decree of Supreme Court

CANONSBURG, Pa., Sept. 1. -Andy Harmison, noted militant miner of Canonsburg, has named his seventeenth child, a boy, William Z. Foster Alexander Howat Harmison, in honor of these two famous leaders. Andy swears that if the boy lives up, even a little bit, to the

character of those for whom he is

tion of the fur union, altho he is a do the work.

# Soviet Union Buys

CALGARY, Alta., Sept. 1. - Already 700 horses have been purchased for shipment to the Soviet Union in Canada. I. D. Durno, a local auctioneer, and Dr. Sunclair, who represents the dominion gowernment as veterinarian, are buying horses in Alberta for shipment to Leningrad.

The Soviet government intends to purchase 1.000 horses in Canada this year. The horses weigh from 1.000 to 1.200 pounds. They are too light for Alberta demands, but are just the thing needed by the Russian farmers The dominion government guarantees payment.

#### Movie Operators Gain.

New York as possible. He denounced sight to vote." And to prove that it radical organizations. He made no does not, he quotes from the amendmention of the A. F. of L. investiga- ment: "The right of citizens of the United States to vote shall not be demember of the committee appointed to nied or abridged by the United States or by any state on account of race, color or previous condition of servi-

tude." That does not seem to Mr. Lanier to 700 Horses in Canada guarantee to anybody the "right to vote," since it does not make voting

necessary at all, but simply guaran tees against race discrimination if and when there is voting. But Mr. Lanier forgets that this provision must be taken together with that earlier pro vision of the same constitution which says: "The United States shall guar-

antee to every state in this union republican form of government."

## Against Race Discrimination.

drop popular suffrage-and the restric

Now everybody knows that no re publican form of government can ex st without voting, however restricted this voting may be, and the Fifteentl Amendment guarantees to every man that this restriction shall not lie against his race. In brief, the Fifeenth Amendment only guarantee against race discrimination where vot of the original constitution, by guar

tion cannot lie against race. Hence the guarantee. If an idiot or an iganybody else. noramus is denied the right to vote on account of his idiocy or ignorance, still this idiot or ignoramus is guaranteed the right to vote "without re gard to race." In the same letter Mr. Lanier also

says with emphasis: "At present there is absolutely nothing in the constitutions or laws of any southern state that infringes or in any way violates this amendment-the ignorant and prejudiced charges that are constantly being made to the contrary notwithstanding."

#### A Good Example.

a conteners - that a conteners of

This statement is so absolute, universal and unconditional that to refireman of the Rock Island train, Sevfute it will require only one example to the contrary. Here it is, from the latest revised constitution of Texas: "In no event shall a Negro be eligible suburbs. to participate in a democratic party primary election held in the state of

Texas, and should a Negro vote in a democratic primary election, such ballot shall be void and election officials Sept. 6 (Labor Day), 8 p. m., at are herein directed to throw out such

ballot and not count the same." This is from the constitution of Texas. We will not stop to quote

# **JJ. S. OFFICERS PHILIPPINES**

## Transported, Fed and Incited Moros

(Special to The Dally Worker) MANILA, Sept. 1 .- It develops that there is certain proof that the Americans, particularly the constabulary officers directly under the command of Governor General Wood, who had visited Zamboanga in Mindanao the day before had planned the demonstration of Moros against independence which nearly resulted in an armed and bloody clash between the Moros and Filipinos.

A Put-up Job. The Filipinos charge that the American brought the Moros from surrounding territory, transporting them into the city, housing and feeding them in the constabulary barracks and preparing their banners.

Major Allen S. Fletcher, commanding the constabulary, was hardly able to stop the Moros, excited and encouraged in a warlike attitude by Fletcher and his men, from opening armed attack, and was forced to ask Colonel Carmi Thompson, Coolidge's investigator, to remain on the ship until he could round up the warlike Moros in the barracks.

## Filipino Proves His Charge. When Thompson came ashore,

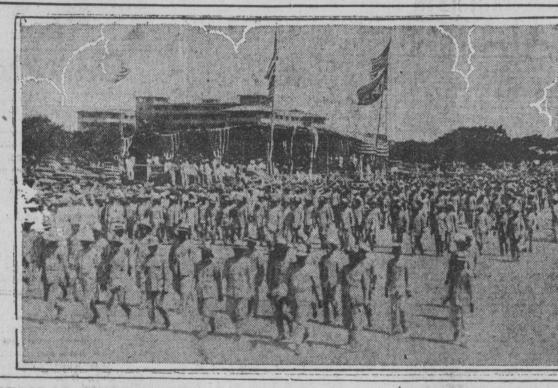

coming Thompson, pointed to the incitation of Major Fletcher as an example of American fomentation of trouble. He said:

'The only reason for the ill-feeling between the Americans and the Fili- as follows: pinos in Zamboanga is that the Americans interfere in politics and try to us they emphasize our differences. NEW YORK, Sept. 1.—Abolition of the reign of white terror and general amnesty for the 6,000 political prison-Poland--The Land of Systematic White Terror

The material gathered in this series of eight articles on the barbarous white terror in Poland is sent to The DAILY WORKER from a committee composed of workers' organizations in that militaristic and blood-stained land. The suppression of trade unions, the shooting down of unemployed, the torture of imprisoned workers told in this account is enough to rouse the Indignation of even those unsympathetic to the workers' cause.

6. The Ministry of Justice is asked not to prevent the free citizens from forming organizations for prisoners' welfare. (This means that up to the present no help for prisoners was permitted!)

of the Interior to see to it that the prisoners in the police prisons are not maltreated. (!)

Labor Ticket Assessment, leaving something like 6,000 party members who have not paid the assessment.

Thus far the national office has depended upon the voluntary action of the nuclei secretaries to secure the collection and remittance of the assessment. This method has falled to secure a response such as should be made by our party functionarles.

The collection of the balance of the assessment cannot be given up. The complete collection and settlement is a matter which involves the functioning of the party organization too seriously to close the matter with the assessment fund in its present status.

The lists of the secretarles who received stamps and have not been settled for are being turned over to the district organizers with instruction to secure a report from every comrade who received these stamps. Those comrades who have not given the collection of the assessment the attention they should have, as responsible party functionaries, can save the district organizers a considerable amount of time and work by taking action to clear their record immediately.

The slogan now is: EVERY STAMP MUST BE ACCOUNTED FOR! EVERY SECRETARY WHO RECEIVED STAMPS WILL BE HELD RESPONSIBLE FOR AN ACCOUNTING OF THE STAMPS HE RE-CEIVED.

## History of International Youth Day

September 3 is International Youth |gart Congress. A resolution was pass Day. On the 11th International Youth ed which said nothing definite and rea Day let us briefly review the history mained on paper. This same cons of our world youth movement. The gress elected Mr. Danneberg of the Young Communist International was Austrian Socialist Youth as the interounded on the 20th of November, national secretary. This gentleman 1919, at its Berlin conference. The saw his highest duty in non-activity and a sabotage of the international working class youth movement, however, from which the Young Communwork.

ist International sprung, commenced Betrayal of Social Democrate. much earlier at the end of the previous With the coming of the world war century. The immediate predecessor he political and economic situation of of the Y. C. I. was the International the working youth was tremendously Relations Committee of the socialist worsened. The betrayal of the social youth organizations founded at Stuttdemocrats (their support of the war) gart in 1907. Altho opportunism was completely exposed the opportunist growing and getting stronger at the character of the overwhelming majorie time this organization had in the be- ty of the socialist parties and the ginning a completely revolutionary Second International. This was the character. The leaders of this organ- signal for the fight to organize a revoization were, Karl Liebknecht, Rolland lutionary youth international. The Holst and Alberi, who were the repproletarian youth organizations, tom resentatives of the left wing of the gether with the German opposition re-Second International and who later be- established the international organization tion at the Berne conference in 1916 and commenced a struggle against the war and against social patriotism. The principles on which these youth Apart from a few points upon which it organizations were founded centered was unclear, for instance the question around the fact that the socialist eduof disarmament, the youth internacation of the youth could be carried on tional during the war maintained at only by active participation in the revolutionary international position lass struggle and by calling to the and in this action it rendered the working youth of all countries to join workers' movement an historical servhe struggle against militarism and ice. It was this conference in Berne, against their economic exploitation. Switzerland, in 1915 which decided to It was for this reason that opportunset aside September 3 as the Internaism was compelled to carry on a strugtional Day of Youth for demonstragle against the independent proletions against the capitalist war and tarian youth organizations. In Gerthe worsened political and economic many where this action of the opporsituation of the young workers.

Birth of Y. C. I.

Between 1915 and 1919 the prolearian youth organizations which stood on the revolutionary basis had to carry on the pioneer political work in many countries which would lay the basis for the future Communist parties. By 1919 the situation was ripe for the creation of the present Young communist International which showed definitely in its program the tasks f the revolutionary youth organizaions in the epoch of the struggle for power and made the youth internay ional into a centralized, consolidated rganization-the international genral staff of the young workers.

And so International Youth Day as its birth in 1915 in the midst of the world war and is given strength and impetus thru the creation of the nighty Young Communist International four years later. The American ection of the Young Comunist International, the Young Workers (Communist) League of America greets its international organization on this 11th International Youth Day with young workers' demonstrations from the Atlantic to the Pacific Ocean. We are determined to carry on the "hard everyday work" which will mould us into a mass Young Communist League was dealt with, but no international of the American working yout

I never saw and never communicated with in any shape, form of fashion; count not even speak his language: but I was tried as a principal: tried on flimsy circumstantial evidence. "The defense proved that I was no where near the place, had never seen the man nor spoken to him, nor had any communication with him whatsoever. At the first trial they could not get a jury. On the change of venue

to San Antonio, on the first trial the Three Trials.

"On an appeal, a plea of 'former jeopardy' was raised and the conviction was reversed in twenty-five days. On the third trial, without a plea of 'former jeopard' I was again convic-

ted and, upon appeal, the conviction was affirmed.' The American Federation of Labor. he Mexican Federation of Labor, the

Mexican national legislature, the governor of Mexico City, and numerous other public men in both countries have time and again requested the release of the brave rebels, who were intent on freeing their land from a despot's rule. It was only a few weeks ago that Governor Ferguson granted a pardon to the men still left in prison out of the original thirteen that were sentenced.

THE injunction was issued at the request of the Lumaghi Coal company. But Farirngton issued a circular, which was published in full in The DAILY WORKER of Oct. 13, 1924, defending Judge Hadley by explaining that the injunction was not against the miners who were on strike, but against the officers of other locals, restraining them from calling their purely cultural activity carried on by men out in sympathy with their fel

The jail guards stood around and watched with buckets of water to prevent the fire from spreading to other cells, but made no move to interfere with the ceremony.

When the dying man's groans soft ened to a murmer, a rope was brought and the charred body was dragged out- in the evening it calls us for supper side to an automobile. It was tied to the car to be taken further, but first, as it passed along the line of mob sters who could not get into the jail. it was beaten and hacked until the head was only a mass of pulp.

A long procession of automobiles followed the car that dragged Bird down a country road to the neighborhood of the farmhouse where the white girl is said to have smiled upon him, and there he was hanged from a tree, "just high enough to be a good target," the same white hooded leader announced. From fifty guns in the crowd shot and bullets were poured into the blackened, bleading corpse of Raymond Bird, and then the guns. were loaned around so that other protectors of the honor of the white race could enjoy the sensation of firing round after round into a Negro's dead body.

The mob dispersed and the sheriff got out of bed and came to cut the body down. No arrests have been made.

#### Murdered in Car.

The Negroes killed were a certain William Pinckney and a friend of his. They were in a car searching for the mother of Pinckney, who at that very time was being taken, along with a man found visiting her, to the outskirts of the city, where they were afterwards so badly beaten with leather straps that they were unable to make their way home. When the car containing Pinckney

and his companion came near the mot went to meet it, and after stopping it and ascertaining who was within, fired a volley at close range and killed both of its occupants.

Thruout all of these assaults the sheriff's office and the police department have failed to bestir themselves. When one white woman, Mrs. Pearl Casad, the proprietor of a beauty shop, was being stripped and lashed right

on the street the electric lights in that part of town went out. After the beating was administered the lights were turned back on again. While the town was in darkness the police left their posts and disappeared. They returned with the lights.

MEXICO PLANS

(Special to The Daily Worker)

MEXICO CITY, Sept. 1. - The Calles administration may protest to Washington against the vicious campaign conducted in a section of the United States press against the Mexican government.

Precedent for such action could be found in the protest of the American embassy in Mexico City during the Wilson administration when certain actors in Mexican theaters used Woodrow Wilson as the butt of their jokes

#### Boycott Played Out.

The catholic boycott has lost its kick and this form of sabotage no longer merits serious attention. The action of the Mexican Federation of Labor in threatening to start reprisals against catholic leaders who were actively directing the boycott, was decisive in forcing the boycotters to come to their senses.

The catholic end of the struggle in now being directed openly from Rome. The episcopate declares its readiness to carry out any instructions the Vatican may see fit to send.

## War Time 'Frame-Up' Artist Now Arrested for Old Embezzlement

#### By CARL HACKER (Special to The Daily Worker)

CLEVELAND, Sept. 1. - Fred Kohut, active as a spy in the I. W. W. and the socialist party during the war period, is reported as being held in Birmingham, Alabama, on a four-year old federal indictment for embezzle ment of funds while he was the "nemesis of accounts" for the Cleveland Credit Men's Association.

Together with A. E. King, Kohut Saturday Night Affair tried very hard to "frame-up" Mayor Hamilton of Piqua, a socialist, in 1918 on a liberty bond charge. Failing in

**By Upton Sinclair** 

WHAT HAS CONE BEFORE. J. Arnold Ross is a wealthy independent California oil operator who was first Jim Ross, a teamster and then a merchant before he went into the off business. Bunny, his son, is a sensitive boy, learning the oil business and now gond, to high school. Dad has a field in the San Elido Valley on the Watkins they were both much younger. He liked Paul who had run away from home because he didn't like the religious discipline imposed by his father. Paul is now a carpenter in the new Watkins field and his sister Ruth is keeping wealthy thru the bringing in of a great well which has grown to fourteen der-field under the leadership of an eight-hour day and a raise in wages. Paul and the Oil Operators' Association which supplies thugs and gunmen to the various operators, including Dad, during the strike. Bunny is back at school the oil presenter in the press. He is somewhat sympathetic te arrivers and doesn't believe the calumnies printed in the press about the strikers.

. . . .

Bunny asked about Paul, and learned that he had been put on the strike committee, and was editing a little paper which the union was publishing; it was lovely, and had Bunny seen it? They produced a copy-a double sheet, mimeographed on both sides for economy, and with a little oil-derrick at the top of the first sheet, alongside the title, "The Labor Defender." It was full of strike news, and exhortations, and an appeal to the governor of the State against the violence of the deputies and the refusal of the sheriff to take their whiskey away; also there was a poem, "Labor Awake, by Mrs. Weenie Martin, a Tool-dresser's Wife." Paul had just got back from a trip to some of the other fields, where he had gone to persuade the men to join the strike; in Oil Center they had tried to arrest him, but he had got a tip and got away by a back road.

America was going to war, and everybody was thrilled about it; at school they were singing patriotic songs and organizing drill corps. This oil war was so little in comparison that nobody heedit; but it got hold of Bunny, and came to seem the big war to him. All this arrogance of power, this defiance of law and decency, this miserable lying about workingmen! Here Bunny got the truth, he got it face to face with the men and women whom he knew; and then he would remember the tales he had read in the newspapers-and would hate himself, because he lived upon money which had been obtained by such means! His father was paying the "assessments" of the Federation, and thus paying the salaries of these blackguards-paying for their guns and ammunition, and for the bottles of whiskey without which they would not stay!

What did it mean? What was back of it? One thing-the greed of a little ruling group of operators, who wouldn't pay their men a living wage, but would work them twelve hours a day. They were driving the men with revolvers and rifles, holding them away from the wells, their only source of livelihood, and starving them back to work on the old unfair terms. That was the story, just that simple; and here, in Ruth's little kitchen, you saw the process from the inside. The girls had to reduce the price of the bread they sold, because some people couldn't afford it otherwise! Oil-workers never do save much, because they have to move about, and to bring their families, or to send them money. And now their savings were used up, and the contributions which came from other fields were not enough, and Paul, who had been saving money to study and become a scientist, was using it to support hungry families, and Ruth and Meelie were giving all their time and even old Mrs. Watkins was helping when she could.

Bunny carried this anguish back to his father. What were the people going to do, when they no longer had food to

national union told the 23rd annual Journeymen Barbers Association. The state barbers urged the passage of a license law requiring the licensing of all barbers and all persons doing barbering work in beauty parlors and providing for the examination of all applicants for such licenses. The bill also calls for the supervision of sanitation in barber shops and beauty parlors. Fifty-four state local unions were represented. Officers elected by the state association for the ensuing term were: President, Harry Quinto, New York City; Vice Presidents, Julius Frank, Buffalo; Barney Jacobs, Brooklyn and Charles Battaglia, Sche nectady; Secretary-treasurer, Patrick Reagan, Rochester.

## **GOVERNMENT SHOWS LIVING COST** AVERAGES 75% HIGHER THAN 1913

WASHINGTON-(FP)-The cost of living in the United States in June, 1926, was 74.8% above 1913, according to the semi-annual report of the U.S. department of labor. This level is about 1.6% below December, 1925, but is slightly above the level of June, 1925. It is 16% below the average of 1920 when the cost of living reached a peak.

The department's figures are based on the average cost of the budget of worker's family of five, including three children. The budget is actually that of workers relatively better paid than the average.

The increase in living costs since 1913 varies considerably. Detroit re ports the greatest increase, the cost of living in that city standing 84.7% above 1913. For Portland, Ore., the increase is 54.6%. For other cities the increases are Baltimore, 78.4%; Buffalo, 82.8%; Chicago, 77.8%; Cleveland, 81.9%; Houston, 69.1%; Los Angeles, 71.2%; New York, 78.6%; Philadelphia, 80.6%; San Francisco, 60.7%.

Flouse furnishing goods cost 110.4% above 1913. Increases in the other budget items are fuel and light, 80.7%; clothing, 68.2%; food, 59.7%; mis-

cellaneous 103.3%. As shown in previous Federated Press articles the department tends to underestimate the advance in rents. Rents charged for worker living quarters have advanced more than the general average. For this reason it is probable that the cost of living to the average unskilled worker is considerably higher than the 74.8% over 1913 shows by the department.

a silver lining. Organized labor of Granite City and nearby cities is contributing liberally. The main issue is union recognition. The company is open-

the socialist party here and became active members. However, it was not long before they were discovered. King, the bolder of the two, maintained his innocence and tried to remain within the organization.

A short time after their exposure in the socialist party here members came across an article in the Lega News, which is received by all at torneys in the city to keep them posted on the court docket, praising King for his work in the radical movemen and at the same time announcing his appointment to a position of collector of accounts for the Creditors' Associa tion. It also pointed out that he was a capable attorney, speaking seven languages.

Only a few months after that the daily papers of this city had quite a different story to tell concerning him. They reported that the "nemesis of accounts" had disappeared from the city, and with him was gone eight thousand dollars.

## **Blind Poet Arrested: Union Comes to Help**

Persecution of blind vendors on Chicago streets, allayed for a time by pressure on Mayor Dever from the Chicago Federation of Labor, has begun again with the arrest of T. Paul Sullivan, a blind poet. Sullivan, who belongs to the Fraternal Order of Blind Men, was selling his booklet of verse. Antidotes for the Blues, when the police arrested him. The Fraternal Order, with labor backing, immediately summoned the mayor, Welfare Commissioner Mary McDowell and others

while the blind had to work long hours for from \$11 a week up. The superintendent told The Federated Press that \$11 a week was plenty for

Why not a small bundle of The DAILY WORKER sent to you regularly to take to your trade minn meetings

this they came to Cleveland, entered alive? Dad gave the answer, they'd have to go back to work! "And lose the strike, Dad?" Yes, he said, if they couldn't win, they'd have to lose-that was the law of strikes, as of everything else. Life was stern, and sooner or later you had to learn it. They must give up and wait till a time when their union was stronger. "But, Dad, how can they make it stronger when the operators boycott them? You know how they weed out the union men-right now, if they give up, most of the companies won't take back the active ones." And Dad said he knew that. but the men would have to keep on trying, there was no other way. Certainly he could not support the strike by keeping his wells idle! The men must understand that he couldn't stand the gaff much longer, they had no right to expect it; they must either close the other wells, or see the Ross wells opened. And Bunny turned sort of sick inside, and went about hiding a thought like a dirty vice: "We're going to bring scabs into our tract!" (To be continued)

290 The Cloakmakers' Strike in New York

Advertising rates on application.

The strike of 40,000 members of the International Ladies' Garment Workers' Union in New York is in danger. Not because of any lack of fighting spirit of the rank and file, which has shown itself willing and anxious to battle militantly for the demands necessary to the well-being of the workers and the healthy growth of the union, but because of the eager willingness of the right wing Sigman elements to compromise the struggle.

The left wing itself is not without fault, for its lack of assertiveness of its own leadership, particularly when its methods and its leadership are known to have the full support of the membership.

Developments have now reached a crisis. This is shown by the disgraceful letter written over the signatures of Morris Sigman, president of the International, and Louis Hyman, chairman of the strike committee and joint board leader, to Governor Smith of New York state.

This letter was in reply to Governor Smith's demand, practically amounting to an ultimatum backed by the full power of the state, that the garment workers go back to work and submit to compulsory arbitration. It is easy to see what the motive of this is, in view of the governor's program of "industrial peace" with which he is appealing to the capitalists for support of his presidential ambitions. Breaking strikes, by armed force or compulsory arbitration, is the bid of all reactionary aspirants for president. This is understood by all class-conscious workers.

But what was the reaction of the union leadership to this attack on the workers? The right wing Sigman group, socialists, combined with Hyman, representing the center, a leader from whom the workers had a right to expect better things, in a craven letter, full of eulogistic sweetness toward this enemy of labor and his commission that, while it rejected the immediate demand of the governor, opened the way for his further pressure upon the union to do just what was "reluctantly" declined "in our present conditions."

The left wing is apparently playing only a negative role in this affair. Its fault is in remaining too much in the background, letting the right wing, which refuses to support a militant strike policy, Labor. take the lead-to the injury of the union and the possible frustration of its demands for which the membership have put up a heroic struggle.

The lessons of the Furriers' strike could well serve as an ex- as member of the Joint Board of Furample of reactionary leaders seeking to weaken a militant strike policy. Submit Under Protest.

In closing, however, as we stated state that altho there is no justification under the constitution of the American Federation of Labor, nor any facts in relation to the strike that demand investigation, the New York Joint Board will not block the invescommittee when requested and agree do so.

CHAPTER IL.

on Evolution"

THE STRUGGLE OVER OUR GEN-EALOGICAL TREE.

Our Ape-Relatives and the Vertebrate-Stem.

(Continued from previous issue.)

But, important as these arguments f comparative embryology are, one needs many years' study in the unfamiliar and difficult province of embryology before one can realize their evolutionary force. There are, in fact, not a few embryologists (especially of the modern school of experimental embryology) who do not succeed in do-

ing so. It is otherwise with the palpable proofs that we take from a remote science, paleontology. The rehearings. The New York Joint Board markable fossil remains sand impressions of extinct animals and plants all its activities. It wants the full give us directly the historical evilight of publicity thrown upon its con- dence we need to understand the sucduct and activities. You can imagine cessive appearance and disappearance our great surprise when we learned of the various species and groups. from your letter that the investiga- Geology has firmly established the tions are already proceeding. As the sedimentary rocks of this period, chiefly conducted a splendid strike, the meth- neisses and crystalline schists, are in a metamorphosed condition, the for able victory to the workers but also sil remains in them are unrecogniz better terms of settlement than those able. In the next succeeding strata of proposed by the officers of the A. F. the paleozoic period we find the carliest remains of fossilized vertebrates, Silurian primitive fishes (selachii) and

ganoids. These are followed, in the Devonian system, by the first dipneust fishes (a transitional form from the fishes to the amphibia). In the punish and discredit this militant lead. next, the Carboniferous system, we find the first terrestial or four-footed vertebrates-amphibians of the order of the stegocephala. A little later, in

the Permian rocks, the earliest amniotes, lowly, lizard-like reptiles (tocosauria) make their appearance: the warm-blooded birds and mammals are still wanting. We have the first traces of the mammals in the Triassic, the earliest sedimentary rocks of the mesozoic age; these are of the mono treme sub-class (pantotheria and allotheria). They are succeeded by the first marsupials (prodidelphia) in the Jurassic, the ancestral forms of the placentals (mallotheria), in the Cre-

taceous. See p. 165.

what employer would agree in conference to the terms of the union ried out. when the way is opened to trick the workers into arbitration?

That Hyman, who covered himself with glory when he fought Sigman last year for the rights of the New York membership, should allow himself to be made use of by the compromising right wing in this shady maneuver, is a matter for sharp criticism by the fighting garment workers of New York who have a right to demand that he correct his mistake and look to them for support in so doing-where support must be mutual, and cease to lean upon the discredited Sigmanites, whose strength lies only in duplicity, intrigue and the Labor does not interfere in the exerweakening of the strike.

As for the left wing, it must take a lesson, as stated above, from the Furriers' strike. Only the left wing, this latest development Labor, but the situation in the Intershows, can be trusted to lead the union in struggle. Only the left national Fur Workers' Union is extrawing can express in action the fighting spirit of the workers, to whom they can and should appeal for full authority to lead the strike from now on until victory.

There is nothing weak in the International Ladies' Garment Union has full authority to institute Workers' Union except the leadership. The strike has so far been an inquiry into its internal affairs. successful despite the compromises of the right wing. The left wing must take control and lead the strike to victory. We are confident the membership will back them up to the hilt.

# Mexico Makes it Snappy

The government of Nicaragua, which is a subsidiary of the House of Morgan, protested to the league of nations that Mexico gave aid and comfort to the revolutionaries who are just now making things torrid for those who run Nicaragua in the interests of American imperialism.

In due time the league of nations notified Mexico of Nicaragua's protest and the Mexican foreign minister won the world's cham- ers' Union or the representatives of pionship in diplomatic brevity when he sent the following cablegram to Sir Eric Drummand, British secretary of Great Britain's league:

"Referring to your telegram of August 27. I have the honor to state that Mexico has no foreign relations with the league, but I thank you for your attention .- Saenz, foreign minister."

We are ready to bet big money at odds that Sir Eric dropped a perfectly good monocle on the polished floor of the league headquarters at the same time ejaculating with raised eyebrows: "My word !" when he read this astounding telegram.

We are also willing to risk our reputation for political precocity on the assertion that this is one action of the Mexican government that will not cause displeasure at Paul Smith's.

## Too Vague.

he International Fur Workers' Union However, if you are of the opinion and the Joint Board Furriers' Union. hat the statement in your letter, as ollows: "However, it is common knowledge that there exists within he International Fur Workers' Union condition that does not conform with he trade union ethics and trade union policies. During the recent strike a number of things transpired which atracted the attention of the officers of the American Federation of Labor o the fact that there was utter absence of co-operation, understanding and harmony between the officers of

he International Fur Workers' Union and the representatives of the Joint Board Furriers' Union," is sufficient, hen we must answer that is much oo vague, just a statement of gener alities not backed up by specific harges.

What Crime Have We Committed? Specifically, what have we done in can Federation of Labor to the fact he recent strike that does not con-

It has always been the procedure and tradition of our international to solve the internal problems of our organization at legally constituted conventions. If the difficulties between the New York Joint Board and the officers of our international must be immediately dealt with, then the officers of our tigation. We will appear before the international should exercise their authority and call a special convento to turn over books when ordered to tion for that purpose.

Investigate a Victorious Strike. We doubt whether ever before un-

ler similar circumstances has the executive council ordered the investigation of a strike. The executive counlast letter, that you have failed to cil has ordered the investigation of a omply with a single one of our re- strike that was successfully conducted, that won material gains for the work very emphatic. We stated we wanted ers, strengthened the control of the union over the industry and established the 40-hour week.

> The furriers' strike marked a turning point in the history of organized labor. It ended the period of the inability of most unions to resist the encroachments of the bosses. The victory was won at a time when wage cutting, speeding up, the institution of company unionism, etc., were the order of the day as far as the open shoppers were concerned.

Perhaps This Is the Reason.

Furthermore, we are proud of our achievements, particularly since the workers under the leadership of our Joint board rejected the eight points agreed to by you and international officers in agreement with the employers, and thru their militancy and solidarity forced better terms of settlement from the bosses than were contained in the eight points. It is impossible in the face of this

fact to understand what could have motivated the executive council to order an investigation. We have nothing to be ashamed of as far as our record is concerned. We desire to record for the benefit of the entire labor movement the strategy employed and the methods used that brought us such a notable victory.

It is unfair that on the committee appointed to investigate our Joint Board was denied representation. At least we should have been granted such representation in order to be informed as to every phase of the developments of the investigation.

#### Questions the "Unquestionable" Frayne.

In addition we objected to the personnel of the committee. We must repeat that a committee to investigate the New York Joint Board Furriers that there was an utter absence of co- form with trade union othics and trade Union which includes. Brother. Hugh

#### Appeal to All Labor.

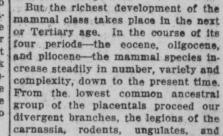

We wish to enter a formal protest against the whole procedure as in violation of the constitution of our international and the laws and procedure of the American Federation of Labor and we reserve the right for ourselves to make an appeal on this matter to the next convention of the American Federation of Labor.

We are certain when we present our case before the entire labor movement

our activities will not only be approved, but we will secure the full last meeting of the British Associaendorsement of organized labor for the tion. Professor Darwin said: "It does manner in which the strike was con- not seem unreasonable to suppose that ducted and for our service to the cause 500 to 1,000 million years may have of organized labor.
