FITHE suggestion was made in this I column a few weeks back, that it would not be a bad idea for some workingclass organization to meet the queen of starving, persecuted Roumania, at the pier with some banners or placards carrying appropriate signs. "Queen occupies royal suite while her subjects starve." "U. S. government wastes tax payers' money on parasite queen while Roumanian peasant children can't have bread." Of course Jimmy Walker's tammany police would be on the job to protect the queen, but the news would go forth.

H. G. WELLS has written another book. If it is not any better than his other late productions our readers would be well advised to spend their money elsewhere. This man Wells is about the most muddleheaded scribe that ever made a fortune out of a dictionary. He turns out thousands of words a day and a public with a stomach . for punishment swallows them. Wells is considered a radical hy many, but as a matter of fact he is a conservative and imperialist at heart. . . .

TT was rather tough on William I Green and his fellow lackeys of the A. F. of L. council to be refused the privilege of making some class-collaborationist speeches in the Detroit churches, owned and operated by the chamber of commerce and its servants. What fools those capitalist mortals are? What did they have to fear from Green? This baptist, with the physiognomy of a small town deadon, is one of the best friends of the capitalist system. What he would say in the Detroit pulpit would be that the workers and the employers should get together. This is just what they are doing now, only too well.

the necessity of inaugurating a campaign of organization in the automobile industry of the country."

Play on Prejudice.

"Will It Be Another Herrin?" is the only comment of "The Detroiter," showing that the editors of this sheet feel that the poisonous propaganda spread by the reptile press concern-

ing the struggle of the coal miners of Williamson county, Illinois, has completely prejudiced the Detroit

populace against the labor unions. "Herrin" and "Detroit" offer two DAUGHERTY JUR entirely different problems. At Herrin, Illinois, the coal miners had a 100 per cent union. It was the mine owners who sought to smash the miners' union at Herrin thru the most ruthless and careful planned campaign of murder.

The hope was not only to establish the American plan alias the "open shop" in the mine pits of Williamson county, but to smash the powerful Illinois coal miners' union, which is the backbone today of the United Mine Workers of America. It has been thru the miners' union that the Illinots coal miners have won what conditions, hours and wages they enjoy. Detroit Different.

The situation in Detroit is just the opposite. Here the American plan, with its \$7.50 per week wages for the slaves of Kreege's "five and ten cent a night's sleep, the twelve jurors in labor's helplessness.

# **DOCTOR REPORTS STRIKERS BADLY BEATEN BY COPS Passaic** Police Torture

Frame-up Victims

PASSAIC, N. J., Oct. 11 .- Strike headquarters issued a statement this morning that the union physician, Dr. Tellman, 225 President Street, who was sent yesterday to visit the men held in the county jail, Hackensack, in connection with the bomb throwing in Garfield, reported finding the men in very bad physical condition. One of the prisoners, Paul Kobacs, plainly Dr. Tellman is said to have found this man in plaster and bandages and to have reported back to the union that he had several ribs fractured or broken and that altho the marks disappeared from his body it was clear from the man's internal condition that he had been maltreated. Dr. Tellman teeth knocked out.

#### Deak's Statement.

Gustav Deak, chairman of the strike committee of Local 1603, United Textile Workers, in making public the report of Dr. Tellman, declared "this report by the union's doctor substantiates the statements of the men now out on bail that they had been subjected to the worst sort of police brutality and third degree methods in the effort to force them to sign "confessions" they were not allowed to read. More and more it becomes clear, until today even the uninitiated in police methods must realize the truth, that the arrested men are vic tims of a police plot to break the strike by arresting and attempting to discredit the leaders of the strike.

"But we want to tell the police gates who said on last Friday that again that this latest attempt will go the omission of Dr. Sherwood Eddy's the way of all the others in miserable speech on his European tour was failure. tastic plot will react as a boomerang, lack of time required to set it up in ago the shop chairmen's meeting of azainst the mill owners whom the type in the printshop. # Mighty U.S. Government UNION WEAK Can't Dodge Confession by One of Its Own Agents

### By J. LOUIS ENGDAHL.

WORKERS of America! Memorize the testimony offered by the department of justice agent, Fred J. Weyand, in his affidavit now on file with Judge Webster Thayer, in the Dedham, Mass., court where rests the power to say whether Sacco and

Vanzetti shall live or die. Especially American labor must commit to memory several statesomething of the atmosphere and ments by Weyand as follows: conotation of freedom. The 'open

"At one time as many as 12 agents of the department of justice in Boston were assigned to cover Sacco and Vanzetti meetings and other radical activities connected with the Sacco-Vanzetti case."

"NO EVIDENCE WAS DISCOV-ERED WARRANTING THE INSTI-TION OF PROCEEDINGS AGAINST ANYBODY."

"Shortly after the trial of Sacco and Vanzetti was concluded, the affiant (Weyand) says he told Weiss (Feri Felix Weiss of the prosecutor's staff) that he did not believe that they (Sacco and Vanzetti) were the men that shot the paymaster (at South Braintree), and Weiss replied that that might be so, but they were bad actors and would get what they deserted anyway."

"Mr. Weyand says that he is thoroly convinced, and always has been, that these men had nothing whatever to do with the South Braintree murder, and that their conviction was the result of cooperation between the Boston agents of the department of justice and the district attorney."

"It was the general opinion of the Boston agents of the department of justice having knowledge of the affair, that the South Braintree crime was committed by a group of professional highwaymen.'

. . .

These are statements from the confession of the ex-department of justice agent, Weyand, who has at hast, after six years, unleashed his tongue to tell what he knows.

Weyand says that he was concerned in the government's activities against workers called "reds" and "radicals," including the wholesale raids made in January, 1920. This was under the regime of President Woodrow Wilson and Attorney General J. Mitchell Palmer, the New Jersey college professor and the Pennsylvania quaker.

Wevand says that some time be fore the arrest of Sacco and Vanzetti, the names of both of them had got on the files of the department of justice as "radicals" to be watched, and as followers

. . . Mr. Wevand says that no evidence was obtained of utterances at any meetings which warranted proceedings against anybody. The reports of the meetings were sent to the Washington office of the department of justice and duplicates were kept in the Boston office.

It was under these preliminary circumstances that the government took an active interest in the joint trial of Sacco and Vanzetti, with Mr. Weyand being assigned to cover the trial.

Another agent, William J. West, who attended the trial for the same purpose, told Mr. Weyand that an Italian named Carbone was under an arrangement with the district attorney, the sheriff and Mr. Weiss, placed in the cell next to Sacco's some time during the year 1920 for the purpose of winning Sacco's con-

fidence in order to obtain incriminating evidence against him. NO EVIDENCE OF THE SORT

WAS OBTAINED BY CARBONE. . . . The understanding in this case, Mr. Weyand says, between the agents of the department of justice in Boston and the district attorney, followed the usual custom that the department of justice would help the district attorney to secure a conviction, and that he in turn would help the agents of the department to secure information that they might desire. The Boston agents believed that these men were anarchists, and hoped to be able to secure evidence against them, from their testimony at their trial for murder, to be used in case they were not convicted of murder. There is correspondence between Mr. Katzmann (district attorney)

and Mr. West (department of justice agent) on file in the Boston office of the department, but it is kept in secret. All efforts to force it to public view have failed. Mr. West furnished Mr. Katzmann information about the radical activities of

## their cross-examination.

. . . Thus at no time did the prosecution, bolstered by the U.S. department of justice, really believe that Sacco and Vanzetti were guilty. Yet with this knowledge, and also with the suspicion if not actual proof that the South Braintree affair was the work of the Morelli gang, the police bloodhounds were called off the real scent and "12 D. of J. agents set to watch the rising protest of American

murders at South Braintree

**COAL FIELD** 

IN PA. SOFT

ALTOONA, Pa., Oct. 4-(FP)-More than half its former members have been swept out of the miners' union in the great soft coal fields of Pennsylvania by the openshop tide of the last

vears. Six desperate months must pass before the 3-year Jacksonville agreement expires and the union is free to negotiate another national pact or to use the weapon of a national strike to recover its losses. Till then it must depend on local strikes. Local strikes are a frail protection in an overdeveloped industry that can easily supply the market with only half the mines in operation.

Local Strikes not Enough.

The Allegheny mountains that hide the coal of central Pennsylvania-Dist. 2, U. M. W. A .- and the broad river valleys that overlie the seams of the western Pennsylvania, or Pittsburgh. district (5) are spotted with these local strikes. The local unionists that are left carry bravely on. But they know that their salvation lies in a national movement that will swing the

great West Virginia fields back into the fold. Unionizing West Virginia the Key.

The fate of the Pennsylvania miners s inseparably wrapped with that of their West Virginia brothers. The breaking of the union's hold in the border state has let loose a flood of cheap scab coal into the northern markets on which the Pennsylvania men depended. The two states together produce about half the total bituminous production of the nation. Formerly Pennsylvania had the major portion but last year West Virginia, with its more than 30% wage differential, nosed it out.

The men of the four counties were left out of the settlement in 1922. Soon after the union membership fell to its former porportions. But with the rest of the state still unionized the United Mine Workers were still Sacco and Vanzetti, to be used in a highly formidable institution.

#### Jacksonville Pact ne Security.

Then came the Jacksonville agree nent, going into effect April 1, 1924, and promising to give these older fields security for the next three years. Yet-such is the irony of events-the great losses have taken place since this peace treaty was signed.

Jacksonville agreement was, in the language of wartime diplomacy, a scrap of paper as far as some large operators were concerned. They signit to avoid a national str

BEARDSTOWN, Ill., Oct. 11 .-Steady declines in the gauge readings at Peoria, while the river here remained stationary at a water mark of 26.24 feet, today aroused hope in this flood-ridden city that the rioting Illinois river has reached its peak. The water now is over a foot higher than at any time in past history. Active relief and rehabilitation work will get under way today with the expected arrival of Paul Dettmer. new director of Red Cross relief work.

Railroads are operating day service trains into this city altho in many places the tracks are covered.

The results of the flood now are becoming apparent as sheds, garages, streets.

peals to all the workers who realize

## Sunday Worker Takes Lead in Campaign

TORIES IS ON

IN ENGLAND

MOVE TO OUST

LONDON, Oct. 11. - The Sunday Worker, organ of the radicals in the British Trade Unions has initiated a campaign to oust the tory government.

Among those who have given their support to this campaign are A. B. cil of the Trade Union Congress, Will MEAUANS Lawther of the Labor Party executive committee and Alex Gossip of the Furnishing Trades.

Sunday Worker On the Job.

The Sunday Worker anticipated the decision of the tory party convention to launch an attack against the trade unions. Stanley Baldwin, in obedi- Kollantai to Replace ence to the demands of the coal operators announced that the government was prepared to introduce legislation to curb the power of the trade unions.

In the opinion of the Sunday Worker and its large circle of supporters, labor's reply to this ultimatum should be an ambitious campaign with the object of ditching the tory government and establishing a labor government in its place.

**Can't Restore Rights** to China Until Peace Comes, Says Chicagoan

SAN FRANCISCO, Oct. 11 .- "It is impossible to think of having America give up its extraterritorial rights in China until peace is restored in that country," declared Silas H. Strawn, Chicagoan and only American member of the commission on extraterritorial commission, who arrived here from China.

Nothing can be done to help China lished, opined the American. Until forced to continue to reap profits from China, was the substance of his comments

Sentence Negro on No **Evidence** at All

Page Three

By ED. OWENS. (Special to The Daily Worker) SACRAMENTO, Cal., Oct. 11 .- Geo Waters, a Negro of Sacramento, is to be hanged by the neck until he is dead on December 10. He was charged and convicted of killing his wife with a .22 calibre rifle,

Since California is one of the states which still resort to capital punishment, the fact that a Negro is to be executed does not occasion much surprise. But there are some little de tails about the trial and conviction of Waters that makes this case one of the most astounding in criminal court history.

Small Evidence.

The only evidence presented by the prosecution was the testimony of a nine-year-old girl who told of seeing Waters shoot his wife with a .22 calibre rifle. She ran from the room in fright. She did not even see the woman fall. No proof was submitted that the woman was dead. Her body nor any part of her body was produced. There were no bones nor ashes, no bloody clothing, no blood stains any place-not even the rifle with which Waters was alleged to

have committed the crime. Hypothetical.

In the absence of any material evidence to bolster up his case the prose cutor advanced the theory that perhaps the body might have been dismembered and thus disposed of. Waters is a poverty-stricken Negro. He was not put on the stand in his own behalf, nor was any defense witness called. But on an hypothetical proposition that he might have dismem bered the victim and cast the parts into the Sacramento River the jury brought in a verdict of guilty of first degree murder and the judge sentenced him to be hanged.

Like Mooney.

You ask how is all this possible? Well, California is California. Tom Mooney and Warren K. Billings are serving life sentences on a frame-up. Herman Suhr answers to a number, instead of a name. California has a criminal syndicalism act that is perhaps the most vicious piece of antilabor legislation on the statute books of any state. California produced a Judge Busick who opened up new vistas to the possibilities of the inunction evil.

George Waters will surely hang un less his case is appealed. He is poverty-stricken, friendless, and a Negro. California furnishes another bit of evidence to prove her to be the most backward state in the Union,

Rabindranath Tagore, Indian Poet, to Visit the Soviet Republics MOSCOW - (By Mail) - Rabindraath Tagore, the most famous of living poets of India, has visited in Stockholm Mr. Arosev, charge d'affaires of the U.S.S.R. in Sweden, and told him that he intends to take a trip to Russia. He gave the following short message to the U.S.S.R. "When I have known Russia, I admired her and began studying her great literature. My heart is alive with sympathy to her call for human.

Amid this perplexity, Bunny found comfort in the backing of Billy George, who was Anglo-Saxon and broad-shouldered and a senior besides. Billy assured him he was right and suggested that they take some steps to make their ideas understood to the rest of the student body. Why not organize a little group, the Society for the Study of Russian Problems, or something of that sort? Bunny should ask Mr. Irving to advise them and perhaps join them-it would be much better if they could have the backing of one of the teachers. So Bunny went to Mr. Irving, who said at once that he could not give any advice on the subject, for the reason that it would jeopardize his position to do so; the try on a war basis at a moment's students would have to follow their own judgment. The young instructor did add this much, they ought surely not use the name "Russian," but take some inoffensive title, the "Liberal Club," or the "Social Problems Society."

Bunny took that advice to the others, meeting in one of the class-rooms after hours. Billy George said it didn't seem very 'spunky" of Mr. Irving; whereupon Rachel Menzies flared up, he had no right to hint at such a thing, they all knew what the teacher's position was, and he had a perfect right to keep out of trouble. What business had Mr. George to be finding fault, when he himself had done nothing publicly?

The other demanded to know what he could do, and the Coolidge sent a letter to Gary, who girl was not backward in suggestions. Why not start a student paper, a little four-page sheet, once a week or even once a month? It would cost very little, and would make a hit they could be sure; look how many people had wanted to read Mr. Ross' letter about Siberia! If they printed that letter they would set the campus on fire. Mr. George could have the honor of being editor, and Rachel would contribute her share of the cost. There was obvious irony in that, considering the quantity of iron pipe which Billy's father was known to be marketing in Angel City. But they discussed it gravely, and Billy didn't think he could take any responsibility; his old man would pull him out of college and put him to work on a bookkeeper's stool.

Then, automatically, the eyes of the group turned to Bunny. What did he think? Bunny found his cheeks growing red. He had wanted to explain his ideas to other people, but had thought strikers. He told the delegates to col- month of September ended 198 ships of doing it in some dignified way, privately and quietly. A paper would make such a noise! Rachel Menzies apparently didn't mind a noise, But Henrietta would, she would be horrified by the bare idea. Also there was Dad-the "education business" would

be damned forever by such a venture. So Bunny had to say no; are ploughing, the largest fleet of and Rachel Menzies said that was all right, there were plenty of treight vessels ever listed as bound excuses, and she didn't blame anybody for finding the best one. for Hampton Roads at one time. The but at least they had no business criticizing Mr. Irving for lack

III

Soon after that Bunny read in the paper that the transport Bennington" had arrived in San Francisco with two thousand troops from Siberia. Paul's unit was listed; so Bunny called up Ruth on the telephone and told her the news, and said, be sure to let me know, as soon as she got word. Two days later Ruth called him-Paul had arrived at Paradise. It was a Friday, so Bunny "cut" his afternoon courses, and jumped into his car. Dad had gone over to Lobos River, to see to a "fishing" job so missed this first meeting.

It was almost twenty months that Paul had been away, and Bunny was keyed up with eagerness. The first glance gave him a shock, for Paul looked quite terrible-gaunt and yellow, his khaki jacket hanging loose upon him. "You've been sick!" cried Bunny.

"Yes," said Paul; "but I'm getting all right now."

"Paul, tell me what happened!" "Well, it was no picnic." And he seemed to think that would

gionnaire. That is enough. But there is some hope in the Colo-

rado situation. And it lies in the badness of the whole mess. It is impossible to believe that the Colorado miner will continue to "take," and strike. never "give." The breaking point is near. All indications point to that.

#### Are Restless.

There is a restnessness sweeping the entire state. The miners are beginning to realize, little by little, that they have little to lose now, if they make the struggle for liberty.

What is needed in Colorado now, perhaps more than any one thing, is a strong, militant leadership. It will not be long before the workers will be ready to follow. Perhaps one more winter, perhaps two. But the time is coming.

October Will Beat Record. It is predicted by coal men here that October will break the August record for dumpings, the greatest in the history of the port.

American steamers have entered the foreign coal trade now that the British lines are unable to supply fuel on account of the strike of miners that has been in progress in England for almost a year.

Would Kick Out Injured Worker to 'Prevent U. S. Burden'

WASHINGTON, Oct. 11 .- Senator Miceli is fighting the attempt of the United States labor department to deport him on the grounds that he might ecome a public charge.

The worker came to this country in 1921, shortly after his marriage in Italy. He worked at the Baldwin Locomotive Works, where he lost his arm in an industrial accident two years ago.

Now immigration authorities claim hat he is likely to become a public charge because of his missing right arm. Miceli is suing for writ of hastop his deportation with his wife.

## Workers Worst Hit by Florida Storm, Says Investigator

NEW YORK, Oct. 11 .--- Workers in the Florida hurricane area were worst hit by the terrible storm, according to the report from the scene by Dr. Worth M. Tippy, secretary of the commission of social service of the Federal Council of Churches, which sent him to the devastated area.

tirely wrecked, mostly the flimsy structures in which workers lived," Tippy reports.

"The total dead will never be known. They are somewhere be tween 500 and 1,000, possibly more. "The seriously injured number be tween 4,000 and 5,000 ,and minor cas ualties were much greater."

Make it one day's pay to keep The DAILY WORKER.

ent and their courage shows they are was the greatest in the history of the satisfy both his sister and his friend-after a year and a half!

They were over in the cabin on the Rascum tract, where Ruth and Paul had first begun house-keeping. It was suppertime, and the girl had prepared a bounteous repast; but Paul wasn't much on eating just now, he said-afraid to trust himself with good food. While they sat at table he told them about Manila, where they had stopped; and about a storm on the Pacific, but not a word about Siberia!

Of course that wouldn't do. After the meal they got Paul settled in an arm-chair, and Bunny said, "Look here, Paul, I've been trying to understand about this Russian business. I'm quarrelling with most everyone I know about it, and I counted on you for the truth. So please do tell us about it-just what happened to you."

Paul sat with his head lying back. His face had always been sombre, a prominent nose and wide mouth with a tendency to droop at the corners; haggard as he was, this tendency accentuated, he looked like a mask of sorrow. "What happened to me?" he said, in his slow voice; and then he seemed to raise himself to the effort of recalling it. "I'll tell you what happened son; de I was kidnapped.

"Kidnapped!" The two of them echoed the word together. "Yes, just that. I thought I went into the army to put

down the Kaiser, but I was kidnapped by some Wall Street bonkers, and put to work as a strike-breaker, a scab."

Ruth and Bunny could only sit and gaze at Paul, and wait for him to say what he meant by these strange words.

'You remember our oil strike, Bunny? Those guards the Federation sent up there-husky fellows, with plenty of guns, and good warm clothes, rain-coats and water-proof hats and everything. Well, that's what I've been doing for a year and a half-putting down a strike for Wall Street bankers. The guards here at Paradise got ten dollars a day, and if they didn't for the last 13 years, continued. "We ganized in their union are striking beas corpus in the federal court to like it, they could quit; but I got thirty a month and beans, and if. I tried to quit they'd have shot me. That was the cinch the bankers had."

Again there was a pause. Paul had closed his eyes, and he told a part of his story that way, looking at things he saw inside his mind.

"First thing, the allies took the city of Vladivostok. The strikers had that city, with a perfectly good government, everything orderly and fine. They didn't make much resistancethey were too surprised at our behavior. We shot a few longshoremen, who tried to defend one building, and the strikers had a big funeral with a procession; they brought the red coffins to the American consulate with banners that asked us why we had shot their people. It happened to be the Fourth of July, and we were celebrating our revolution; why had we overthrown theirs?

"Twenty thousand homes were en- Of course we couldn't answer; none of us knew why we had done it; but little by little we began to find out."

# The "Y" Gets Away With Murder Again

When the boys who weren't obliged to make their permanent home there came back from Flanders they added to their own cuss- Isn't that interfering in the struggle, ing vocabulary a few choice morsels they picked up on the boats only the wrong way about? If the from the sailors and heaped the entire collection on the Y. M. C. A. The stories of the graft and corruption of this great christian organization feeding its treasury on the gory pennies of the lads in the big parade never got to be literature and by now has been all but mies of the working class. Taking forgotten except by the unfortunates who had to pay 25 cents for a that for granted, then both giving "free" package of Camels in France.

But the Y. M. C. A. was only one of the thousands of war profiteers. If its extortions of doughboys' money had been allowed to the interference is in the interests of become a nation-wide scandal as the iniquity of its operations cer- our class, and in the other in the intainly warranted, there would have been other and more powerful extortionists also exposed to the searchlight. It was all quieted down.

Then too, the Y. M. C. A. is too valuable an organization to the profiteers to be exposed to the risk of losing its efficacy as a tool of the bosses. And if anyone doubts that the Y. M. C. A. is such a tool -and that with a vengeance-they need only look to Detroit.

The simple recitation of the facts tells the story adequately on the General Council, there is nothenough. An invitation extended to President Green of the American Federation of Labor in convention in Detroit to address a meeting at one of the "Y" buildings was cancelled at the last minute. There were no bones made about the reason. Green was frankly told

that the cancellation was made because if he spoke in the building the General Council and its leading same that refused to accept the "Red" on every £100. it would endanger the prospects of a fund the Y. M. C. A. was lights have kept silence and rather raising among Detroit employers. The secretary of the Detroit Y. M. C. A. seemed unashamed to give the following figure of contributions to substantiate his story:

Henry Ford, \$750,000; Edsel Ford, \$750,000.

The Fisher Brothers (Fisher Body Co), \$500,000.

S. S. Kresge, five and ten cent store magnate, of whose business the "Y" secretary in Detroit, Van Dusen, is general manager, \$500,000.

And some more, all large open shop employers.

It isn't necessary to say another word about this organization that psychologizes workers in return for millions from the bosses. The Fords and the Fishers have learned that it is worth millions to take 661 the tar out of their slaves. The two millions that these two bosses alone gave was a contribution, not so much to the Y. M. C. A., as to the open shop.

The hard-boiled bosses of Detroit, thru their creature, the Y. M. C. A., have issued a challenge to the organized labor movement A that can be met only by an energetic campaign to unionize every kind of a booking office like in a bank. big plant in the city.

Home, Kills Self.

(Continued from previous issue) When we look at the matter impartally in the light of pure reason, the belief in immortality is wholly inconsistent with the facts of evolution and of physiology. The ontogenetic dogma of the older church, that the soul whom it is in the one International; is introduced into the soulless body at a particular moment of its embryonic development, is just as absurd as the phylogenetic dogma of the most modern Jesuits, that the divine spirit was breathed into the frame of an anthropoid ape at a certain period (in the Tertiary period). and so converted it into an immorta, soul. We may examine and test thi belief as we will, we can find in i nothing but a piece of mystic super stition. It is maintained solely by the great power of tradition and the support of conservative governments.

the leaders of which have no personal belief in these "revelations," but cling to the practical conviction that throne and altar must support. each other. They unfortunately overlook the circumstance that the throne is apt to become merely the footstool to the altar, and that the church exploits the state for its own, not the state's, good.

Ernst Haeckel

on "Last Words"

on Evolution"

We learn further, from the history of this dogma, that the belief in immortality did not find its way into cience until a comparatively late date. It is not found in the great Monistic natural philosophers who, six centuries before the time of Christ, evinced a profound insight into the real nature of the world. It is not found in Democritus and Empedocles, in Seneca and Lucretius Carus. It is not found in the older oriental religions, Buddhism, the ancient religion of the Chinese, or Confuciansm; in fact, there is no question of individual persistence after death in the Pentateuch or the earlier books of the Old Testament (which were written before the Babylonian exile). It was Plato and his pupil, Aristotle, that found a place for it in their dualistic metaphysics; and its agreement with the Christian and Mohammedan eaching secured for it a very wide spread acceptance.

Another psychological dogma, the belief in man's free-will, is equally nconsistent with the truth of evolu-On Saturday, Sept. 25, in the Chi-Modern physiology shows ion. clearly that the will is never really cago Tribune was an item on the ree in man or in the animal, but letermined by the organization of the Noted Viennese Biologist, Unsung at rain; this in turn is its individual haracter by the laws of heredity and VIENNA, - The body of Dr. Paul the influence of the environment. It is only because the apparent freedom. of the will has such a great practical significance in the province of religion, morality, sociology. and law,

that it still forms the subject of the most contradictory claims. Theoretically, determinism, or the doctrine of the necessary character of our voliions, was established long ago.

With the belief in the absolute free-

dom of the will and the personal im-

mortality of the soul is associated, in

the minds of many highly educated

people, a third article of faith, the

belief in a personal God. It is well

known that this belief, often wrongly

represented as an indispensable foun-

dation of religion, assumes the most

widely varied shapes. As' a rule,

however, it is an open or covert an-

thropomorphism. God is conceived as

the "supreme being," but turns out,

on closer examination, to be an ideal-

ized man. According to the Mosaic

narrative, "God made man to his own

image and likeness," but it is usually

the reverse: "Man made God accord-

ing to his own image and likeness."

This idealized man becomes creator

and architect and produces the world,

forming the various species of plants

and animals like a modeler, govern-

ing the world like a wise and all-

book. His wife is behind him, her the table with his hairy fist so that BARRIER divides the room into eyes are turned down, her lips whis- the empty bottles and glasses jump in per- without interruption: 'My God, my God howls:

The Wall Street interests which control American government are not moved to pity by the distress of agricultural com- about everything." munities. They see in these emergencies only a further opportunity for extending their control of natural resources by loans and mortgages on land.

That is why in every agricultural crisis the farmers are told that there is money they can borrow.

What the working farmer needs is not more loans at exorbitant interest rates but a moratorium on loans already made and which total, according to reliable estimates, more than \$9,500,000-a burden under which the American farmers are staggering and which makes any real solution of the agricultural crisis impossible unless the farmers are relieved from the continuous exaction of the Wall Street usurers.
