Who Is Supporting The Keep The DAILY WORKER Fund?

HOW THE DISTRICTS STAND

By C. E. RUTHENBERG

General Secretary, Workers (Communist) Party.

THREE districts of the party have raised close to 50% of their quota of the Keep The DAILY WORKER Fund. Three other districts are below 10% of the quota assigned to them. Here are the figures showing the quota of the district based upon the members in the districts, the amounts they have time, workers of New York city will mollected and the percentage of their quota collected thus far:

This table throws light on who is giving support to Keep The DAILY WORKER. Seattle seems less interested insofar as the work done so far s concerned than any other district of the party. Next in lack of activity to support the Keep The DAILY WORKER Fund are the comrades of Cleveand who have only raised 11.6%. The Connecticut membership showed an equal lack of interest, having thus far raised only 15% of their quota.

Next in line, with a little better showing but still a very poor showing, munist) Party; M. The best district in the country in supporting The DAILY WORKER is the Kaneas City district, with 49.3% of its quota already collected. If the membership In Kansas City, Detroit, Chicago and Philadelphia would raise nearly 50% of the quota for their district in six week's time, why schould not New York, Boston, Cleveland, Minneapolis, New Haven, Seattle and San Francisco do the same thing?

The DAILY WORKER is the fighting, revolutionary organ of our whole party and every section of the party must give it equal support. For Kansas City, Detroit, Philadelphia and Chicago the goal for the month of November must be to raise their total to the 100% mark. If the campaign in these districts is pushed with continued energy and the mo- Modern Society Only mentum kept up, there is no reason why these districts should not go over the top by the end of November.

Every party member should study the above table carefully and then make himself a committee of one to stir up action in his district in support of the Keep The DAILY WORKER campaign. Every committee in the districts which have fallen below so badly must take up the Keep The DAILY WORKER campaign with new energy.

If every district had done what Kansas City, Detroit, Philadelphia and Chloago has done, The DAILY WORKER would be well out of the crisis which it still faces, because the other districts have not given the same support. instead of still fighting to Keep The DAILY WORKER, we would be carrying on the campaign to put it on a sound foundation for the next year with a better and bigger paper to serve our movement.

The end of the month of November must show a different standing of the situation. Funds must be rushed to The DAILY WORKER by all party poor showing can by energetic action win a better position and show they really want to Keep The DAILY WORKER. The districts which have given the best support must strain every bit of energy to go over the top with 100% quota.

Because of the uneven support which the Keep The DARLY WORKER campaign has received The DAILY WORKER is still in a serious critical situatino. Funds must be rushed to The DAILY WORKER by all party nuclei which have made collections and the work of collecting \$5.00 per member Intensified.

In those districts in which the members are far behind the work of aiding The DAILY WORKER to overcome the present difficulties must be taken up with the will of catching up on their quota and thus carrying The DAILY

WORKER thru its financial difficulties. IF THE WHOLE PARTY WILL GET BEHIND THE "KEEP THE DAILY WORKER" DRIVE, WE CAN WIN THE STRUGGLE AND KEEP OUR MOST IMPORTANT WEAPON IN THE REVOLUTIONARY STRUGGLE AGAINST CAPITALISM IN THIS COUNTRY.

BIG FIGHT FOR

William Hale Thompson Lining Up Support

No sooner had the tumult of the congressional elections died down in Illinois, than the capitalist politicians of Chicago began to lay their lines for the next big battle for the mayoral plum of this wealthy city.

Successful candidates on the repub-Nican and democrat tickets that led their respective slates were mentioned as aspirants. Among those are Patrick Carr, successful candiate for sheriff and Charles Barret, who was re-elected president of the Board of

Fred Lundin, Smain leader in Cook county, who testified before the Reed senate slush fund inquiry that he was not a politician, is the prime mover in the Robertson candidacy.

William + Hale Thompson, former mayor and cog in the Thompson-Harding-Lundin machine, is seeking 300,000 signatures of citizens who pledge themselves to vote for him. Thompson is now lined up with the Crowe G. O. P. faction.

Labor leaders are passing Thompson cards among the membership of their unions and forcing them to sign. Impaired Crowe's Prestige.

The defeat of Joseph Savage for county judge has considerably impaired the prestige of State's Attorney Robert E. Crowe who was looked upon until recently as the most powerful politician in the state. His association with gangsters, however, and the immunity enjoyed by them has rubbed the tinselt off this notorious foe of organized labor.

Prophets have differences of opin ion as to whether Senators Smith and Vare will be allowed to take their seats in the senate. Some believe that the democrats will let them sear but will open fire on them during the winter session of 1927 when both parties are laying their plans for the presidential campaign. They expect that a new airing of the scandal

would then wreak the most damage. The so-called republican insurgents will have the chance of a lifetime to show their stuff in the next congress. With 48 votes at the disposal of the republicans and 47 in the hands of the democrats, one foot-loose farmer-labor senator, the insurgents who are listed as republicans can make things disagreeable for the administration. should the insurgents propose any radical legislation, it remains to be seen how the democrats will vote.

Real World Trade Union Unity Will Come in Spite of Reaction's Opposition

By J. LOUIS ENGDAHL.

ON THE same day that the Detroit convention of the American Federation of Labor adjourned recently, the International Federation of Trade Unions (Amsterdam) issued a declaration refusing to officially recognize the proposed trade union conference to be held at Mexico City at the suggestion of the Mexican Federation of Trade Unions.

There is no doubt considerable significance to this conincidence. The American Federation of Labor officialdom has also refused to recognize the Mexico City conference, altho a little more diplomatically than Amsterdam. President William Green was given permission by his executive council to go. He did not decline, but merely stated he didn't have the time to make the trip, a threadbare evasion.

The outright rejection of the Amsterdam International and the evasion of the A. F. of L. drive toward the same goal. It is a very evident and joint blow against the militancy of Mexican labor.

Amsterdam is clearly taking the orders of the A. F. of L., with which it is seeking an anti-Bolshevik alliance. It was therefore to be expected that it would make the most of the excuse that it had heard that Michael Tomsky, secretary of the Russian Trade Union Congress, had also been invited. The officialdom of the International Federation of Trade Unions therefore issued its blanket refusal of participation in the gathering at Mexico City by de-

"The executive, in view of the conditions under which the delegation is to go to Mexico, decides that, on its own behalf and on that of the I. F. T. U., it must decline to take any responsibility whatever for it." There were two votes cast against

this declaration, however. It is not stated who cast the two insurgent ballots. Thus the press service of the Amsterdam International concludes that, "The result is that neither Purcell, altho he is the president of the I. F. T. U., nor Brown, altho he is secretary, have had any instructions to represent the I. F. T. U. in Mexico or in other American countries, any more than do the other members of the delegation."

It is not known definitely who will go to Mexico City from Europe. It was rumored about Detroit that Edo Fimmen, former secretary of the I. F. T. U., but now head of the Intertional Transport Workers' Federation, would attend. But he has not been heard from.

FOR 9TH ANNIVERSARY

It has been reported that Arthur A. Purcell, president of the I. F. T. U, would not attend because of his activity in the British coal miners' strike. Purcell made the trip to Mexico City following his attendance at the A. F. of L. convention at Atlantic City, last year, as fraternal delegate of the British Trades Union Congress.

Among those who originally were invited and planned to come to Mexico were Jouhaux, of France, and Mertens, of Belgium, vice presidents of the I. F. T. U. Evidently heavy pressure was brought to bear upon these two, since it is now announced that neither of them will attend. Thus the I. F. T. U., in common with the A F. of L., does all in its power to wreck the courageous efforts of the Mexican trade unions, now numbering close to 2,000,000 members, to bring unity into the world trade union movement.

European trade officials going to Mexico City, therefore, will go on the same basis as the A. F. of L. has forced trade union officials from this country to go to Moscow, merely as individuals. But it will be a begin-

It was three years ago that the Mexican trade unions expressed a desire to have a delegation from across the Atlantic visit their country, in the hope of establishing closer relations between the trade unions of the old world and the new. The Mexicans were even ready to provide the necessary funds for this purpose. The invitation was originally accepted, but it was claimed that the European situation at that moment prevented the various trade union leaders from leaving their respective countries.

Instead of trying to build upon the Purcell visit to Mexico City last year, the I. F. T. U. executive went out of its way in an effort to belittle its results. This was a prophecy of the repudiation of the Mexico City conference that has now been issued by this same executive

Thus the labor reaction in the United States and capitalist Europe tries to place itself as an obstruction in the road that leads to trade union progress and unity. It will be bowled over and left in the dust unnoticed by the forward moving masses. Real world trade union unity, embracing the trade unions of all countries, including those of the Union of Soviet Republics, will blot out the reactionary alliance of the International Federation of Trade Unions with the American Federation of Labor.

COURTHOUSE, SOMERVILLE, N. J., Nov. 4 .- Ralph Gersline, tall, thin, vestryman in the slain Dr. Edward W. Hall's church, denied on the witness stand today that he had seen or spoken to Henry Stevens on the Phillips farm the night four years ago when the Rev Hall and his choir singer, Mrs. Eleanor Mills, were shot to death in De Russey's lane.

He told of going to the scene which was a "Lovers' Lane, at about 10:30 on the night of the double murder. He was accompuanted, he testified, by Miss Catherine Rastall. He parked his car near the famous crabapple tree where the murders were committed. Soon he heard the mumbling of voices, a shot, a woman's scream, then three shots-and then moans.

Didn't See Stevens.

"Didn't you ever tell a man that you were in the lane that night and that you saw there Henry Stevens and that 35 years for slaying Federal Agent he said to you: 'Get to hell out of Edward Shanahan, in addition to a here!' and fired two shot into the ground?" Special Prosecutor Alexander Simpson shouted.

"I did not," the witness replied. He said he met Miss Rastall in front of the Y. M. C. A., in New Brunswick, about 10 o'clock on the night of the John H. Hogan, president of the murder. LABOR 'LEADERS' FEEL HONORED II **DESTROYER RITES**

Green Subscribes to the Warship Program

By SYLVAN A. POLLACK. (Special to The Dally Worker) NEW YORK, Nov. 4. - William Green, president of the American Federation of Labor, and other national and local labor leaders drove the first rivet into the keel of the cruiser Pensacola at the Brooklyn navy yard here.

This ceremony was watched by 5,000 people, including fifty "labor leaders," who were present at the invitation of Rear Admiral Plunkett, who wanted the officials of the American Federation of Labor to have the "honor" of placing the first rivet.

Costs \$10,000,000.

The Pensacola will be of 10,000 tons and will cost \$10,000,000. The building of the ship is expected to take over two years. Within the next few weeks 3,000 men will be at work on the vessel, and if it is decided to make it a rush job 2,000 more will be added.

The labor leaders were assigned official position as follows: Right-hand riveter, William Green; left-hand riv-New York State Federation of Labor; holder on, Joseph Ryan, president of the New York Central Trades and Labor Council; rivet feeder, A. Mentions Armament Treaty.

President Green before the ceremony, cited the provisions of Articles 11 and 12 of the limitations armament treaty, and said:

"There is no limitation on the number of ships of this class which may be built by any of the contracting powers. Since the conclusion of the world war the United States has completed ten cruisers of 7,500 tons. Con gress has made appropriations for the construction of five of the Pensacola type. During and since the war one of the signatories has built, or is building, 50 cruisers, another 25, and we are building ten, for five of which the money has been appropriated. This is the first of the five whose keel is being laid.

"I make this statement in order that you may all clearly understand that we are not only within the limits of the exact wording of the treaty, but also within the spirit of the treaty. "Let us hope the world will have

Kellogg to Disregard Approved Treaty

WASHINGTON, Nov. 4 .- Disclosure that Secretary Kellogg is reconciling his conscience with the possibility of recognizing a Chamorrist regime in Nicaragua, much desired by Wall Street bankers, is made at the state department at the moment of arrival of reinforcements from Mexico for the constitutional party now in rebellion against Chamorro's dictatorship.

Treaty Signed. All Central American republics signed a treaty, approved by the United States in a special letter wherein they agreed to give no recognition to a regime in Central America based on seizure of power by armed force, or upon any other than constitutional title.

Chamorro, former dictator, defeated in an election held during American military occupation two years ago, seized the capital by aid of milkary revolt and expelled the duly elected liberal administration. Refused recognition, he drove from the Nicaraguan congress most of the liberals, placed his own henchmen in their seats, and is now about to have one of his relatives or lieutenants "elected" as president, while he holds command of the army. The liberals are in revolt and have a fair chance of overthrowing

WASHINGTON, Noy. 4.—At least 250,000 Armenian and Russian refugees are unemployed, according to statistics gathered by a commission of the league of nations and reported to the state department from Geneva. The total number of refugees from these countries now in Europe is estimated to be 1,5009,000.

At an inter-governmental conference last May a form of refugee passport was adopted in place of the more awkward forms previously used, and \$500,000 was declared to be necessary as a fund with which to assist in the migration of these people. ATHEISTS FORCE "CAL" TO THANK GOD SOONER THAN HE HAD EXPECTED

NEW YORK, Nov. 4,-That the American Association for the Advancement of Atheism scared President Coolidge Into Issuing his annual religious Thanksgiving proclamation several weeks earlier than he had planned, is the opinion here. On October 30, the association sent a telegram to Coolidge calling upon him to refrain from issuing such a proclamation. The same day the president received the telegram the proclamation was released. Usually it is not released until after the first week of November, at least.

The telegram, signed by Freeman Hopwood, sald in part: "The Atheists in America call on you to return to the precedent of Thomas Jefferson, who, during his eight years' incumbency of office as Chief Executive, refused to issue a single religious proclamation. When asked for his reasons, Jefferson said, 'I consider the president of the United States as Interdicted by the constitution from meddling with religious institutions, their doctrinism discipline, or exercises."

YOUNG MINERS WANT RECOGNITION!

THE recent statement of the Ohio Coal Operators Association that its members would reopen their long closed mines under the observance of "a broad labor policy" is but another link in the chain of the open shop drive of the coal barons in their attempt to wreck the United Mine Workers of America.

In the mammoth coal-producing state of West Virginia, after a two-year "organizing campaign" the U. M. W. of boasts of six local unions.

At one time the union had some 50,000 members in this state In western Pennsylvania, which had 50,000 members, today there is no more than about 10,000, and these constantly locked out, on strike or working part time; or, in o'her words, battling for existence. In District 2, central Pennsylvania, some 30,000 members have been lost. In Nova Scotia and Alberta, on the Canadian side, the U. M. In established unions, where the left wing is in a minority or where its control of the official machinery is weak, the fight against the right wing takes on other forms. The general policy of the right wing leadership is to use its control of the union to dampen the fighting spirit of the workers and to sell them out over the conference table. Hence, the policy of the left wing in strikes of organized unions must be to spur on the masses to fight and, by mobilizing them against the reactionary leadership,

MOBILIZING THE MEMBERSHIP

The recent strike of the New York Furriers was another instance of a successful mobilization of the membership by the left leadership to balk a menacing right wing treachery. The local Joint Board which actually conducted the strike was in the hands of the left wing led by Ben Gold. But the machinery of the International was controlled by the right wing. Fascism In The United States

Armed hoodlums, members of the Italian fascist organization in the United States, entered the premises of two anti-fascist papers in New York, shortly after news of the latest attempt on Mussolini's vorable. No doubt it was easy to see life reached this country, and destroyed the printing machinery in that the Kerensky soap bubble was both plants, after threatening those on the premises with immediate death if they moved to protect their property.

This outrage committed by the New York fascists should spur the Anti-Fascist Alliance to renewed activity against the Fascist menace in the United States, and to give whatever aid possible to the victims of the bloody black-shirt reign in Italy. The American fascists are armed and boast of their intention to use the same fresh attempts at a coalition with the methods in combatting opposition that Mussolini used in Italy.
