# FASGISTI MOB AND MURDER OPPOSITION

Eurrent Events

By T. J. O'FLAHERTY

FOR those who like light reading I recommend the reports of the queen of Roumania's triumphal tour over the continent. Anybody with a little bit of experience can easily read between the lines and safely conclude that a gentleman by the name of Volstead is being flouted on the royal train. And when wine is in, even the most respectable of babbits part comwany with discretion. Read the story on the front page of the next Saturday assue dealing with an incident in Roumania during the war, in which the queen figured. BUT the queen of Roumania! What in the name of heaven can this Slady provide in the way of thrills? She is on the wrong side of fifty and the country on which she lives would not make the state of Rhode Island blush for size. And yet we suppose that Sam Hill, the great road builder or Stealey Washburn the famous war correspondent might like to be able to tell their grand children that they had access to a queen's boudoir. In a rich country like this tastes are apt to be anything but nuritannical.

# Five Thousand a Week for the Next Six Weeks to Keep The DAILY W

By C. E. RUTHENBERG General Secretary, Workers (Communist) Party. The contributions for the Keeps The DAILY WORKER Fund by weeks for the past eight weeks have been as follows:

September 18 .....\$ 339.50 September 25 ..... 512.10 October 2 ...... 1,021,03 October 9 ..... 1,967.30 October 16 ...... October 30 ...... 2,514.64 November 6 ...... 1,348.43 NOO WOL

Total .....\$14,992.70

The above figures tell a graphic story of the activities of the party and the sympathizers of our movement in support of the Keep The DAILY WORKER campaign.

During the first six weeks of the campaign the funds raised rose from week to week. The party members and sympathizers intensified their work and the campaign was going forward at a pace which would have quickly put The DAILY WORKER out of danger and completed the total of the \$50,000 fund, which would have guaranteed the appearance of The DAILY WORKER for another year.

During the past two weeks there has been a let-down in the work to Keep The DAILY WORKER, with a consequent recurrence of a sharp financial crisis for our paper.

In order to put The DAILY WORKER out of danger and to

successfully carry thru the campaign for the \$50,000 fund, as well as to meet the immediate crisis, the spirit of enthusiastic support which marked the weeks of October 16 and 23 must be renewed and intensified. The work done during these weeks shows that our party has the strength to triumphantly pull The DAHLY WORKER thru its difficulties and to keep this most important weapon in the class struggle for our movement.

Every party member and every committee of the party must immediately take up the work of securing contributions to the Keep The DAILY WORKER Fund in the spirit which will enable us to win the struggle we are making to keep our paper.

With the help of the contributions raised at the celebrations of the anniversary of the Russian Revolution this week's quota of the \$50,000 fund should be raised to \$5,000. WE MUST KEEP THIS PACE FOR THE NEXT SIX WEEKS AND THUS BRING THE TOTAL CLOSE TO THE \$50,000 GOAL.

Our party with its sympathizers has the strength to raise \$5,000 weekly if we mobilize our strength for this work.

To do that is the task before the party. Every member, every resource must be thrown into the campaign.

\$5,000 WEEKLY FOR SIX WEEKS IS THE GOAL. RUSH THE FUNDS COLLECTED TO THE DAILY WORK-ER AS FAST AS THEY COME IN.

MAKE THE SLOGAN, "KEEP THE DAILY WORKER" RE-SOUND AT EVERY PARTY MEETING, AT EVERY GATHER-ING OF WORKERS.

LET US SHOW OUR STRENGTH AND ABILITY TO ACHIEVE A VICTORY FOR OUR MOVEMENT.

# Republicans Aim to Win Over Hendrik Shipsted, Ready! Farmer-Labor Senator

By J. LOUIS ENGDAHL.

THE struggle of the workers and I farmers toward independent political action is uphill and difficult. Eternal vigilance is but a small part of the price that must be paid in order to achieve every advance,

no matter how small. Thus labor in Minnesota, for instance, must be on guard now more than ever if it would hold the advantages already gained by its Farmer-Labor Party.

The betrayal led by Quigley and other traitor elements of the defunct Non-Partisan League before the election will find its replica among other deserters, now that the election is over, and especially since it did not terminate as happily as one could wish,

Already the danger signal has flared. No less an organ of the great plunder interests than the New York Herald-Tribune, announces that, "It is expected Senator Shipsted, Farmer-Labor member, will vote with the republicans on organization," This may be only a rumor, but even rumors usually have some basis of truth. In fact, the hope of the republicans for Shipsted's support, as advanced by the New York capitalist daily sounds too plausible. to permit of any comfort for the valiant labor fighters shouldering the responsibility for the maintenance and the building of the Farmer-Labor movement.

The Quigley theory, supported by some non-partisan leaguers, was that all farmer-laborites should retreat to the democratic party, also dead in Minnesota, revivify it, and use it to promote the political ambitions of these adventurers who seek only immediate election successes and not the building of a permanent and ever-growing class power of the exploited on the land and in the cities. The primary was to be the weapon used for the capture of the democratic party.

In North Dakota the non-partisan leaguers claimed that they had successfully captured the republican party thru the use of the primaries. But the final proof of the pudding is in the eating. And the North Dakots non-partisan league senators, Frazien and Nye, are now planning to help the republican bosses organize the new senate, like all the other dutiful office boys of Wall Street. The same is said to be true of La Follette and Blaine, the "progressives" in Wisconsin; Brookhart in Iowa, and Norris and Howell in Nebraska. The republican bosses may have to pay a price to get the support of these so-called "insurgents." But they will pay it and gladly because they need the votes with the senate membership score standing at 47 republicans, 47 democrats and one farmer-laborite, with a special election yet to be held in Maine that may go G. O. P.

Labor has no control over the republican insurgents, but it has some power over the farmer-labor senator, Hendrik Shipsted. It must use that influence to prevent steps that Shipsted might take to consummate an unholy alliance between the farmer-labor power he represents in the United States senate and the republican party of the worst enemies of the producing masses.

The republicans expect to win the seat in Maine, giving them 48 in all. But the democrats may refuse to allow Vare and Smith, the slush fund twins from Pennsylvania and Illinois, to be sworn in immediately and take their seats. This means the republican total will be cut by two to 46. This is where the vote of the farmer-laborite, Shipsted, comes in. He can lift the G. O. P. total to 47, making a tie with the democrats, that can be broken in favor of the republicans by Vice-President Dawes, republican, who is president of the senate. What a picture! The farmer-labor senator, Shipsted, standing side by side with the Chicago banker, of Lorimer infamy, the author of the Morgan-Dawes plan, to make it possible for Wall Street's party to hold onto the senate and control all the committee appointments. Thus Shipsted becomes the Paul Revere who must ride the elephant in order to save the republican party.

. . .

The danger of this black betrayal on the part of Shipsted is imminent. Wherever possible Shipsted has been flirting with the republican party forces and not with Quigley's democratic friends. Shipsted came to Chicago not long ago to speak at an affair that promoted the mayoralty aspirations of the republican, William Hale Thompson. During the campaign just over, William McEwan, the Farmer-Labor campaign manager, invited Thompson to come to Minnesota for a "few meetings." And Thompson responded. Shipsted is also close to Frazier, Nye, LaFollette, Blaine and Brookhart, in fact, feels himself one of them, in spite of the fact that they are all still within the republican party that wars viciously upon the farmer-labor party in Minnesota. Shipsted would therefore find it easy going to trail along with this political group that refuses to break with Wall Street.

It is not too early for the farmerlabor forces to prepare against a desertion. The demand must be made upon Shipsted that he organize with the Farmer-Labor members of the house of representatives against both the old parties and for the unity of labor in support of independent political action. "Forewarned is forearmed."

The last meeting of the Chicago Federation of Labor, by an overwhelming majority, adopted a resolution to set aside November 11, as the day to commemorate the Haymarket martyrs. Delegates from the floor pointed out that the Haymarket tradition is a working class tradition, that the labor leaders who were hanged two score years ago were the pioneers of the eight-hour day which must still be achieved by millions of

workers. The meeting on the eleventh is being held under the auspices of the International Labor Defense and the Pioneer Aid and Support society which has kept up the memory of the Haymarket martyrs for numerous years up to now and has kept fresh and clean the grave of the workers at Waldheim cemetery.

ARTICLE X.

PRELIMINARY ORGANIZATION An important question of strike strategy is that relating to the matter of preliminary organization of the workers in the now unorganized industries before the precipitation of strikes. This raises the problems of how far we can depend upon the spontaneity of the workers and how far we can and must stimulate and organize them before they can go effectively into action against the employers.

Less and less can the strike strategist depend upon the spontaneity of the masses to bring them into revolt against their exploiters, more and more he has to figure on substantial preliminary organization, conceived planfully and carried through almost like a military strategy. Within the past 15 years American employers have become very able and skillful in checking spontaneous mass re- and brusquely, usually in the form of a sweeping wage cut volts amongst their workers. To this end they have developed a whole arsenal of means which may be summed versal protest and indignation on the part of the workers up under the general concessions of duplicity, and terror-

Today the powerful employers, when they see a threatening discontent among their workers, which manifests itself by a spreading spontaneous strike or an active organizing campaign, commonly seek to check the agitation by granting concessions to their workers in wage increases, welfare systems, etc. This they are able to do because of the enormous super-profits of imperialism which they are reaping of late years; whereas only a few years ago the hire them back at reduced rates.

employers were financially unable to bribe such movements | into stillness and they usually developed into big struggles. HOW EMPLOYERS FIGHT STRIKES

The way the Steel Trust combatted the big campaign of 1918-19 was typical of the new tendency. This gigantic corporation, seeing that the organizing work was succeed ing, granted four large increases in wages and the basic 8-hour day to its workers in the course of the campaign in order to block it. The "independents" followed suit. This materially made the work of organizing incomparably more difficult. The spontaneity of the workers was weakened.

When the strike came it followed closely the lines where intense organization work had been done. In those mills, such as the Duluth plant of the U. S. Steel and the Aliquipa plant of the Jones & Laughlin Co., where it had been impossible to carry on any agitation or organization, no strike whatever took place in spite of the gigantic character of the national movement.

Duplicity and terrorism. In the old days when an employer proceeded to cut labor costs radically he did it openly to go into effect on a certain date. Result, always a uniand often a bitter strike. But now the employers cut their labor costs in much more and subtle ways. Often they accomplish the same ends as a wage cut by speeding up their workers, which is easy for them to do in present-day industry. And where they actually do put a money wage cut into effect they commonly do it piecemeal, instead of sweepingly as before. They cut department after department, spreading the wage cutting campaign over months. Or else they discharge a steady stream of workers and then

And in addition to these methods of duplicity and concessions the employers carry on a stark terrorism against all workers who dare to make a protest, discharging and blacklisting them in a way unknown in previous times.

USING ALL ADVANTAGES

This policy of concessions, duplicity, and terrorism, coupled with the fact that the industries in general have been active for the past few years and have provided at least a modicum of work for the workers, weakens the factor of spontaneity. Determined, organized effort becomes increasingly more necessary, altho an occasional spontaneous strike still occurs. Hence our strike strategy must contemplate the carrying on of militant and aggressive organizing campaigns, carefully planned and skillfully

In my pamphlet "Organize the Unorganized" I have described in detail the manner of conducting these campaigns by "open" methods in those industries where it is possible for the unions to function publicly; and in "closed" industries (by utilization of workers' clubs, shop committees, Workers Party shop nuclei, company unions, etc.) where the militant "open shop" attitude of the employers prohibits preliminary open union organization.

Advantage must be taken of the company unons. The employers have established these organizations to increase the workers' efficiency and to check the growth of class consciousness and trade unionism among them. Nevertheless the workers' impulse to organize and struggle often manifests itself in these boss-controlled bodies. Our policy

How MUCH ORGANIZATION

The question of how to secure preliminary organization of the workers in the great unorganized industries and to determine just how much organization is necessary in a given situation before the strike should begin constitutes one of the real problems of strike strategy.

In impending strikes of unorganized workers, conservative labor leaders habitually overestimate the importance of organization and underestimate the spontaneity of the workers. They smother the fighting spirit of the workers by a dry-as-dust\_campaign for excessive organization. On the other hand, a common tendency of left wing leaders is to underestimate the necessity for a certain degree of preliminary organization and to depend too much upon the spontaneity of the workers. The result is abortive strikes. The history of the I. W. W. is full of such mistakes.

Our problem is to know just how to combine the two, spontaneity and organization; to learn to strike the blow when the workers' spirits are at their highest and when they have enough organization to at least mobilize them into the strike.

### PITTSBURGH DISTRICT PUTS INTO MOTION PLAN FOR RECRUITING OF **NEW MEMBERS AND MORE ACTIVITY**

PITTSBURGH, Pa., Nov. 8 .- The Workers (Communist) Party is at present, as admitted even by its enemies, the only militant, live working class organization in the country. It is the motive power that pushes the entire labor movement of this country into action, that directs the labor movement along progressive lines. It has a large number of sympathizers thruout the country as evidenced, for example, by the number of workers who read its press and by its influence in the numerous trade unions and other workers' organizations. Yet the membership of the party is limited. In fact, in proportion to its influence in the labor movement and to the Celebrate Revolution role it generally plays in this country, the party membership must be con

You remember in that colossal production, "The Emperor of Etruria," the Scythian slave girl who is brought in from the wilds to serve the pleasures of a pampered sybarite and the scene where the fat eunuchs lay hands upon her? With what splendid fury she claws them and knocks their heads together! Her clothing is torn to shreds in the struggle, and you have glimpses of a lithe sinewy body—the extent of the glimpses depending upon the censorship laws of the state in which you see the picture. The scene made a hit with the public, and many producers competed for Viola Tracy-pronounce it Vee-old, such things. I only know that Mr. please, with the accent on the first syllable. She displayed her magnificent fighting qualities next in "The Virgin Vamp," and thereafter escaped dishonor by a hair's breadth in many palpitating scenes. Of late she had acquired dignity, and was now regal on all the bill-boards of Angel City in "The Bride of Tutankhamen," an alluring figure, with deep-set mysterious black eyes and a smile fathomless as four thousand years of history.

"For the chance to be that simple, she slept with her producers, and two angels, and the director and his assistant; and all five of them told her how an innocent virgin says her prayers!"

Bunny, who was a rebel in his own line, sat up and took notice of this conversation; and you may be sure that Vee did not fail to take notice of the young oil prince, flashing him mischief with her sparking black eyes. ### JEWELRY BOSSES **ENDEAVORING TO** BREAK UNION

#### Eleven Shops Settle with the Union

NEW YORK, Nov. 8.-The Novelty Jewelry Employers Association is endeavoring to break the union and drive the small manufacturers out of business by prolonging the present strike, according to Anthony Capraro, manager of Local 17 which has been conducting a strike for union recognition since October 25th.

Small Fellows Doomed. "This association is not being built to serve the interests of the industry, Capraro declares. "The leaders of the association know that the small fellows cannot last long. If they can prolong the strike three or four weeks more, they think they can break both the small manufacturers and the union. By that time all of the trade will have gone to the big shops and the little fellows will be left out in the cold.

"Mr. Fishel, of Fishel Nessler Company, 184 Fifth avenue, is one of the moving spirits in the association. He has been paying the initiation fees for small manufacturers who have joined and has advanced them money to carry on. He has not told them, however, that his real intention is to double-cross them.

Changing Tactics.

"We have learned that Mr. Fishel is changing his tactics. Last Monday when his workers went to get their back pay, they were told that if they did not return to work they must come and take their tools away. When one worker went after his tools to take them and get a job in one of the settled shops, Fishel said to him: Well, leave them here a few days He is evidently not so sure that he has the situation in hand. He sees that the union means business and he is weakening."

Then Fagan Yelled that he (Fagan) got his education in the coal mines, but he did not state whether in union or scab mines. Fagan then went back to his weak point by saying: "I am your president, I have been fighting night and day for you brothers. There is not a moment that I am not thinking of some way to better the conditions of your district, and our great leader, John L. Lewis, has been doing the same."

At this moment there was an uproar in the hall-the men were hissing Fagan, calling him liar and fascist, friend of Benito Mussolini, and some of them left the hall. Fagan tried to talk on, but could get no order. At last a little order was gotten, after Fagan stopped talking, and someone proposed that the chairman appoint a sergeant at arms to keep order, the motion carried by the majority and the chairman appointed Philip Di Giambattista, Frank Marino and Martin Kavcich to be sergeants at arms,

Fagan started his talk again by sayng he guessed that the story would e in The DAILY WORKER about the chairman having to give him protecion so he could present his side of the present policy of the U. M. W.

Hapgood told about his trip to Russia and stated that our present leaders were against a delegation to the Soviet Union to find out the true facts about the Soviet government.

After some more questions and an swers, the meeting adjourned. A collection was taken to pay Hapgood's expenses.

The Forward was not interested enough in the organization to look into the mandates given by two annual conventions of the members of I. L. The Forward was interested in the financial statement of International Labor Defense only for the purpose of finding the basis for an attack upon the activity of a genuine working class organization with which the yellow socialist editors of the Forward have time and again found themselves out of sympathy with. 'The Forward charged "Communist control" of I. L. D. and that the I. L. D. campaigns were in the interests of purely Communist propaganda. NEW YORK, Nov. 8 .- Protests are voiced by members of the Brotherhood of Sleeping Car Porters that they are being forced to vote in the company union elections by threats and attempts to withhold their pay checks. The brotherhood plans an official protest. Its counsel, Donald Richberg, advises the porters' union that its members are "justified legally as well as morally" in refusing to vote in the Pullman Co. "employe representation plan."

The brotherhood claims over 6,000 of the 10,000 porters in its ranks and is appealing to the rail mediation board set up by the Watson-Parker act for recognition in place of the company union and for aid in securing a conference with Pullman Co. officials toward a new wage and working condition agreement.

#### Governor Moore's Aid to Passaic Strikers

Governor Moore of New Jersey has completed his tour of the Passaic strike region. He is back at his desk. In a statement is sued from the executive offices, it is pointed out that the governor found that the employers "did not object to their employes joining the union, but that they would not subscribe to the principle of the closed shop"; that, further, the textile barons do not intend, in the event of the settlement of the strike, to re-employ all the workers that were formerly employed; thirdly, that they "had never re the capitalist class. There are minor fused to treat with their own employes and were still willing to lities in congress representing groups do so."

The Passaic workers have had sufficient experience with the officials of the cities and state of New Jersey not to put very much reliance upon the "good offices" of Governor Moore. In the bitterest days of the strike, when the reign of police bestiality against the Passaic workers, their wives and children, was at its height, Moore did not lift his little finger to call a halt to the conditions which were arousing the mild protest even of conservative capitalist sheets. When men and children were being brutally clubbed by the police, when the fire hose was turned on pickets and sympathizers gest and most enthusiastic of recent in zero weather, Moore and his tribe were conspicuously and blithely ones there. When he spoke of the unaware that anything was wrong.

Moore's efforts to "settle the strike" are not being made in the interests of the strikers whose unswerving courage has brought them the admiration and solidarity of the international labor move- distinguished from anti-government acment. The desperate condition of the mill bosses, whose profits have been sadly cut into by the long months of the struggle, dictates the sudden interest that is being taken in the strike by the governor. His solicitude is inspired not by the sufferings of workers but by the sufferings of his masters, the textile capitalists.

The assurance of a successful outcome of the strike is the continued and unbroken solidarity of the strikers, and the determination of the whole American labor movement to keep up their support to Passaic. The Moores offer the strikers no guarantee of an honorable settlement.

The role of the capitalist government in the class struggle is to strengthen the position of the capitalist class economically and politically and to weaken the exploited workers and suppress their struggles.

The only to wrest from the workers the right gram of unlimited exploitation and the amassing of greater and greater fortunes for the favorite few is concerned, is the danger that labor may become dissatisfied and begin to fight for a larger share in the enormous

product of American industry. The strikes of the workers interfere with the smooth development of the capitalist program. Just as the vestiges of democracy which still remain so far as the government is concerned are being step by step whittled away, so the workers' right to strike is to be first limited and then abolish-

The attack on the right to strike and thus to carry on a struggle for higher wages and better working conditions is being made in three forms: First thru the development of the company unions and employees' representation plan thru which the capitalists are trying to befuddle the workers and make them believe that there is no a class basis to fight for their intera board of mediation, then to a board strike. of arbitration and finally to a board of | After the workers have "mediated,"

It was slow, uphill work, Fred H. Moore doing the bulk of it, with the enthusiastic support (after a while) IN those years, particularly the ear-

IN any event, his appearance did not prevent him from saving Ettore, Giovannitti and Caruso from the electric chair when he was their counsel in the famous case—a Massachusetts case, incidentally, in which he learned more about court practices in that, state than 90 per cent of the bourgeois native lawyers will ever know. It did not prevent him from wrenching a hundred wobblies form the grip of "justice" in the famous Everett, Washington, cases. Or from clearing Charlie Krieger of the Standard Oil frame-up in Tulsa, Oklahoma. Or from taking the lead in the San Diego free speech fight. His ignorance of Massachusetts practice is a journalistic euphemism for the court's frantic and fearless defender. Thompson can testify to that, having come splendidly to Moore's assistance at that time.

the defense was to bring Thompson into it for the supreme court argument. But I feel it necessary to protest against the short memory of the abor and liberal press. It was Moore's work that gave the case its true status. Just before he came to the cene a New York newspaper man was induced to go to Boston to invesigate the arrest of the two Italian vorkers. He returned to report that here was "no story" in it, not even or the New York Call-just a "couple of wops" in a jam. Several months ater, with Moore on the job, it became not merely a story, but the bigest story of its kind internationally. If he were not a "labor lawyer," identified with unpopular causes for so many years, and therefore one of "our own people," so to speak-if he were, for instance, a conservative corporation attorney who took a conscience case for a change, or a histrionic liberal espousing dramatic causes-would his gigantic job on the Sacco-Vanzetti case be so easily slighted? Of course he made mistakes, just as Thompson, being human and fallible, s probably making them now. Five rears is a long time for any human being to go without mistakes. And hindsight is too easy an indulgence.

just part of the whole process of making the case respectable, and even those who are least interested in such Sacco and Vanzetti is a class prosecution. Their defense should be lass defense in which the services of kind-hearted bourgeois attorneys and philanthropists are merely necessary

WHY THE DELAY?

To The DAILY WORKER: G. Bromley Oxnam's audience at the Los Angeles open forum was one of the big determination of the Bolsheviks to counteract religious superstition, while at the same time acording to all denominations full religious liberty as tivities, he was drowned in applause His impressions of Russia agree generally with those of other delegations and even with reports in Communist papers and of returned Communist vistors. But he put the average production of industries at 75 per cent of pre-war, while Russian official reports say many industries are above and the average approximately equal to prewar. Many questions were asked and answered, but as raised hands grew more numerous, he asked if the meeting was to last till midnight, which put an end to it, after which he was urrounded on the stage by eager questioners-I among them. I wanted to know if it was fair to say that requisitioning farmers' products is an inherent part of Communism. 'May be am wrong," he replied. I suggested that Communism is voluntary exchange of commodities thru store houses conveniently located. "Yes, if you speak of the future," was the substance of his reply.

But Why Delay?

In his speech he estimated that America would not be ready for Communism for fifty years, which is not inlike Edward Bellamy's estimate. But why delay? It is beginning to be uite generally admitted that the Communists at the head of the Soviet govhem by Tsarism, despite the savage attempts of capitalist governments to away. lefeat them and despite the famine are performing a service to the workrs and peasants of Russia that is come back for months.

follow their example and make the 'final conflict" brief; but their revolution startled the capitalist governments and parasites, and those immediately deluged their dominions with lies about Russia and killed and arrested Reds, and thereby, aided by reactionary labor officials, Thomases, MacDonalds, Scheidemanns, etc., succeeded in preventing the world revolution and prolonging the agony. If the proletarian revolution can succeed in Russia, why could it not have succeeded everywhere at the same time? Why so many liberal people aiding the parasites in prolonging the agony of the birth of the new society? Why delay? S. SOORBORG.

Drop Capitalistic Papers. To The DAILY WORKER:

Please find \$1 to help keep The DAILY WORKER. Now, the way I ook at things, it would be very easy to keep The DAILY WORKER if the workers would drop their masters' papers and put the money into their own paper.
