HUNDREDS of thousands of dollars are being wasted on the queen of Roumania by wealthy American paresites. This is a rich country. At least Ferdy's spouse has reason to think so. Yet we read the following story in a capitalist paper: "Mrs Brunette Lacy and her family, saved from eviction by \$40 fund raised in Judge Eberhardt's court, face a cheerless winter unless somebody helps.' This is a rich country, no doubt, for those who are made rich by the unrequited toil of millions of wage slaves who are not much farther removed from the sidewalk than Mrs. Lacy.

PASSAIC WORSTED MILLS AGREE TO ARBITRATE UNION DEMANDS; FIRST VICTORY GOES TO LABOR

(Special to The Daily Worker)

PASSAIC, N. J., Nov. 11 .- The first break in the ranks of the Passaic mill barons came today when the Passaic Worsted Mills agreed to submit the questions of a forty-four hour week and a ten per cent raise to arbitration. Other demands are conceded to the workers.

The Passaic Worsted Mills employ about 600 workers. This is the first victory in the battle between the mill owners and the sixteen thousand operatives on strike in New Jersey and is to be recorded in the favor of the workers whose brave struggle under the greatest odds has won the admiration of the labor movement of the entire world.

GENERAL WOOD MADE DICTATOR **OF PHILIPPINES** ished by U.S.

(Special to The Daily Worker) MANILA, Nov. 11. -- Virtual dictaorship of Governor General Leonard Wood of the United States over the Philippine Islands is established by the executive order issued Wednesday abolishing the Board of Control and putting all its powers in the hands of the governor. This is seen as the answer of the United States government to the Filipino's demands for independence.

Answer to Independence.

The Board of Control was comprised of the governor general and the president of the Filipino senate and speaker of the house. The president of the senate, Manuel Quezon, and the speak. er of the house. Manuel Roxas, both advocated freedom for the islands, and the move to abolish their offices is seen as an attempt to block their influence.

U. S. Gives Order.

The order abolishing the board is ssued under authority of the U.S. attorney general and judge advocate general of the U.S. army, who declared the provision of the Philippine statutes for the board are void.

Under the statutes the Board of Control selects the directors of all government-owned corporations, incents cluding the Philippine National Bank. Manila Raflroad company, National Development company, and National Coal company,

As the speaker of the senate and president of the house formed a majority on the board they were able to over-rule policies of General Wood.

Passaic Strikers Are Behind Them

BOMB FRAME-UP

APPEAR NOV. 19

21 VICTIMS OF

PASSAIC, N. J., Nov. 11 .- The mill controlled police of the strike area have tried for 40 weeks to break the big textile strike in Passaic and vicinity. Failing in their efforts to club the strikers back to the mills, they have resorted to all sorts of manufactured frame-ups in the attempt to remove the leadership of the strike .. In these attempts they have had the full co-operation of the so-called law courts, which have been busy doing their bit to please the mill bosses and break the strike by handing out savage jail sentences and, in order to deplete the small funds of the strikers, exacting heavy fines and setting exorbitant bail.

Bomb Frame-Up.

The numerous and various frameups by the mill-owned police have collapsed in the past. Now, however comes the bombing frame-up, in which 21 good strikers were seized and held incommunicado in jail for five days before bail was set in exorbitant figures. During those five days they were subjected to the most brutal and revolting police third degree tortures.

Trial Nov. 19.

The cases of these men come up on November 19. Money must be forthcoming for their defense. Able law yers must be employed to give them the best defense possible, in order to thwart the efforts of the courts and police to railroad them to prison as a punishment for their activities in the strike. Organized labor must come to their defense. The workers every where must rally to their aid.

The bosses and their police have manufactured another Mooney case but on a far bigger scale. Organized labor must smash this frame-up in the bud, by rushing money to Passaic for defense of these men. The addres of the general relief committee is 743 Main avenue, Passaic, N. J.

the next war "in the air."

A RMISTICE DAY is a time for delivering fake sermons on "Peace," while at the same time beating up hysteria in preparation for the next war. It may seem that this is a difficult contradiction to impose successfully upon the people. Nevertheless, it is done. President Cal Coolidge did it again yesterday at Kansas City, Mo., where he dedicated a "memorial" to war, on the eighth anniversary of the signing of the armistice on November 11, 1918.

. . .

It is an armistice indeed, an admission that the last war was not "the war to end all wars." An armistice is a time for speedy recuperation and careful preparation for the next bloody encounter. That is the period thru which we are now passing. The next war will end all wars only if the masses who suffer will unite to end the capitalist system that breeds fratricidal struggles as an inevitable accompaniment of its conflicting imperialist ambitions. . . .

No kaiser, on throne or horseback, ever boasted more vehemently of the militarism at his beck and call, than Cal Coolidge, commander-inchief of the American forces of war, -sea, land and air-bragged of the armed might of Wall Street in his speech at Kansas City.

Coolidge painted the glory picture of war preparations. Four billions of dollars appropriated during the last six years. "There is no better navy than our own in the world." The army is "not outmatched by any other of like number of troops." The entire military and naval forces represent a strength "altogether the largest we have ever maintained in time of peace." Coolidge acclaimed the five-year program for improving the aviation service declaring, "It' is a mistake to suppose that our country is lagging behind in this modern art." So far as the air program is concerned. Coolidge issued this defi to the rest of the capitalist world:

"Both in the excellence and speed of its planes it holds high records, while in number of miles covered in commercial and postal aviation it exceeds that of any other country.' Thus the United States of Amer-

ica prepares against the day when the capitalist armistice will be broken, the dogs of war again unleashed and the world again turned into a welter of human blood and agony, for the glory of profits.

The 40 miner M. P.'s have been conscripted by their union and sent into the coalfields to get the men out again. According to capitalist sources 200,000 miners out of 1,000,000 have returned to work but the vigorous campaign of the union has checked the breakaway. It is becoming evident the government and employers, hard pressed by the economic repression, that the miners are still a long way from defeat.

When the miners council of war was announced the government sent special police on its heels. At the same time the Tory papers attacked Secy. A. J. Cook of the miners, urging his arrest. They seized on his statement that the miners must win "law for no law," as an excuse.

STRIKE STRATEGY By WILLIAM Z. FOSTER

ARTICLE XIII DRAMATIZING THE STRUGGLE

An essential of good strike strategy under present day conditions in the United States is to lend a dramatic character to strike and organization campaigns, especially those among unorganized workers. These see in a dramatic strike did it dramatically by taking a spectacular mass strike theless it is timely to state a few of the general principles a living strike, and they are not far wrong. This dramatization may be accomplished in many ways, such as mass picketing in the face of police terror, mass violations of on and in rallying them into the struggle. injunctions, free speech fights, marches such as those of the Kansas and West Virginia miners, spectacular exposure of the workers' poverty and the employers' riches, militant resistance to violence, transfer of strikers' children from the strike district, nation-wide relief 'campaigns, national and local protest meetings, state investigations, parades, pageants, tag-days, etc., etc.

Good strike dramatization is closely related to militant fighting on the offensive. Classical examples of dramatic of a national conference of packing house workers in the strikes were those of the steel workers in Homestead in near future to formulate demands to be presented to the 1892, of the Colorado coal miners and Lawrence Textile workers in 1912, and the present struggle in Passaic,

The legal committee is also essential, but the left wing must always be careful to hold the lawyers in check. They have a rather fatal habit, once they are engaged, of trying to run the whole strike as well as their legal department. If they succeed in this they soon strip it of all militancy and reduce it to a state of impotent legalism.

The publicity committee is very vital. The celebration of the Russian Revolution was more enthusiastic than in many years. The district committee prepared a fine program, especially distinguished by revolutionary tableaux staged and arranged by Sadie Amter, to poems read by Mr. Leteira. The effect was tremendous and the applause overwhelming.

The Freiheit Singing Society and Freiheit Children's Chorus, the Ukrainian Singing Society and the Hungarian Workers' Chorus furnished the music part of the program, together with soprano solos by Mrs. N. Gross.

Is Inspiration to All.

Comrade I. Amter, district secreary of the party, called upon the workers to realize the importance of the Russian Revolution, not merely as an achievement of the Russian workers, but as the inspiration of the workers the world over. The Chinese problem is an American problem and until the American workers understand that they will continue to be exploited as they are today. Together with the colonial peoples, the workers of this country will have to fight for emancipation.

One central employment bureau hires the men for all the mills. If you ever go there to get a job try not to look intelligent. No one suspected of having brains is ever hired. When you enter the employment bureau you generally find the place crowded with 'job seekers" of all nationalities. One look at their faces tells you they are wage slaves, waiting at the mouth of Moloch to be devoured. An inner door opens and out comes the employing agent. The men crowd around him like a lot of hungry children, while he looks them over to see which ones of them look the least intelligent.

River.

Submit to Inquisition.

The ones picked by him are given a slip of paper and are sent into the inner office, or inquisition booth, as it should properly be called. Here the prospective employee is questioned at length. Special inquiries are made about the applicant's church affiliation. Now, do not ever make any mistakes about this question. It is necessary that you believe in some form of superstition or another if you want to get your job. This is one of the great secrets of getting a job in the J. & L. If you are a member of a certain church, you are given what is called a rating. They know just what your mental capacity amounts to and how much exploitation you will stand for and how you will vote.

If you are a member of some flock they know you will stay put. Few have any idea about the influence the local mass houses exercise over the people of Woodlawn, When you work in the mills and have seen the intolerable conditions under which the steel men slave you really wonder why it is that they do not revolt. A look at the masses on Sunday answers your question. They swarm to the churches like bees around a honey comb, to listen to that ancient lullaby "Pie in the sky by and by." It is said that the best way to get a "good" job at the J. & L. is to get a letter of introduction from father Garney or that orthodox priest, the one with the billie goat whiskers. Any of the protestant clergys' O. K. will do just the same, however. They are all John and your attention to the pie in the sky just as well as the other. Yes, this is a goose step town. Unless your feet are guided that way, don't come here.

Wilkinsburg, Pa., Nov. 11. - A tall, ragged worker, paralyzed, tells the following story:

"I worked 18 years in the Carnegle Steel mill in Duquense, Penn. One evening, after taking a bath, I went to bed. The next morning i could not get up. My one side was paralyzed, I went to the doctor in Wilkinsburg. 'The only hope for you is God,' said the doctor. 'Pray and pray hard until you get cured.' The doctor told me this, after taking as his fee \$500 that I had saved in 18 years. It was all the money I had for working in front of the furnace for 18 years.

"My wife died. I have three children who are with my sister in Ohio. And I-well, you see what I am-a beggar." There were big tear drops in his eyes when he concluded his story.

We must build our own Altho an admission was clearged to

hear the lecture yet the audience donated liberally when a collection was taken up.meas

Before the meeting began a young dy from Cleveland, Ohio, who is York:

His place was taken by Harvey Manning, who was no longer able to stand up, but sprawled over a chair, and in a voice of the deepest injury declared, "I wanna know whoze been tellin bout me!'

"Telling what?" asked Bunny.

"Thatz what I wanna know, What they been tellin?"

"I don't know what you mean, Harvey."

"Thass it! Why don't you know? Why don't you tell me? Mean say I ain't askin straight? You think I'm drunk-that it? I say, I wanna know whoze been talkin bout me an what they been sayin. I gotta take care my reputation. I wanna know why you won't tell me. I'm gonna know if I have to keep askin all night." And accordingly he started again, "Please, ole feller, what they been tellin you?"

But just then the Chinese spectre flitted past, and Harvey got up and made an effort to catch him, and failing, caught hold, of a lamp-stand, slightly taller than himself. It was not built. like lamp-posts that he was used to clutching on street-corners; it started to fall, and Bunny leaped and caught it, and Harvey cried in alarm, "Look out, you're upsettin it!"

Then a funny thing happened. Bunny had noticed at the dinner-table a well-groomed man of the big Western type, polite and unobstrusive; the superintendent of the estate, and one of, the few who kept sober. Now it appeared that among the duties of superintendent at a monastery was that of the old-fashioned "bouncer" of the Bowery saloon. . He came up, and quietly slipped his arm about Harvey Manning; and the latter evidently having been there before, set up an agonized wall, "I d'wanna go to bed! I woan go to bed! Dammit, Anderson, lemme lone! If I go to bed now, I wake up in the mornin and I can't have a drink till evenin and I go crazy!"

Against that horrible fate poor Harvey fought frantically; but apparently the material inside the shoulders of Mr. Anderson's dresscoat was not the ordinary tailor's padding, and the weeping victim was helpless as in the grip of a boa-constrictor. He went along, even while proclaiming loudly that he wouldn't. "I'll get up again, I tell you! I woan be treated like a baby! I woan come this damn place again! It's an outrage! I'm a grown man an I got a right get drunk if I wanna-" and so his weeping voice died into the elevator!

"Mr. Ross," said Vee Tracy," there are two cries that one hears at Hollywood parties. The first is, I don't want to go to bed; and the second is, I do.'

When Bunny made his appearance on Sunday morning, he had the Monastery all to himself. He breakfasted, and read the papers, which had been delivered from the nearest railroad station; then he went for a stroll, and renewed his acquaintance with the "reds" in the eagle cage. He walked down towards the ocean, and discovered a combination of fire-break and bridlepath, leading over the hills along the coast. He followed this for couple of miles, until it led down to a long stretch of beach. The owner of the Monastery had erected a barrier here, with signs warning the public to keep out; there was a gate with a spring lock, and on the inside a board with keys hanging on it. and instructions to take one with you, so that you could return. Bunny did this, and continued his walk down the beach.

Presently he came upon a Rhine castle, set upon one of these lonely hills; and in front of it, coming down to the water, a series. Garment Workers' Union; John P. of terraces and gardens. An amazing spectacle it must have afforded, at night when all the lights were turned on-and no one to behold it but seals! Yes; Bunny looked out over the sea. and there was not a sail in sight; but close to the shore were clusters of rocks, and on these the seals sat waiting to see if he were going to unveil the statues, and bring back the merry days before prohibition ruined America! He turned to the beach, and walked on. The sun was high now, and the water tempting; there were more rocks with seals on them, and green-white breakers splashing over them, not high enough to be dangerous, but just enough to be alluring. Bunny made sure he was alone, and then undressed and waded into the The attention of the seals became riveted upon him, and with each step that he took, one of them would give a hump, hump, and get nearer the water's edge. Some of them were yellow and some a dark brown, little ones and big ones, each of them enormously fat-having consumed his own weight in fish in the course of a day. As Bunny swam near, they slid silently off the rocks, politely yielding place to him; when he clambered onto the rocks, they would bob up and form a circle a few yards away, yellow heads and brown eyes staring. They were strangely human, a circle of foreign children, watching some visitor who

WRITE AS YOU FIGHT!

WORKERS WHO WANT TO LEARN TO WRITE SHOULD BE AT CLASS TONIGHT

Every worker in Chicago who wants to get training in writing, and who has not attended the first two meetings of the worker correspondence class, should be at the meeting of the class tonight at 8 c'clock. The class meets In the editorial rooms of The DAILY WORKER, 1113 West Washington Boulevard (third floor.)

Every Friday night Chicago workers who realize the power of the labor press and of publicity in winning the struggles of the workers gather there to learn how to write stories of general interest that they discover in their shops, factories, union affairs, etc.

The class is open to all workers. The only qualification is that they have desire to learn. Practical work is given the members of the class in writing. The discussion method is used, so that each worker can get the most out of the class.

Be there tonight at 8 o'clock sharp.

Many of the unions are sending delegates to, a conference, for the relief of the Passaic strikers, which was organized by "Mother" Bloor for the task of soliciting funds and clothes from various unions.

She also announced that the conference has decided to have the "Passaic strike" film shown in Denver during the month of December. On Monday, Mother Bloor went to Colorado Springs to speak to a mass meeting arranged by organized labor

A Dictatorship for the Philippines

The United States government has established a dictatorship in the Philippine Islands.

There is no other conclusion possible from the news that by an executive order Governor-General Wood has abolished the Board of Control, consisting of the president of the senate and the speaker of the house of the Filipino congress.

Manuel Quezon and Manuel Rexas, both leaders of the move- lished group having as its object the foreseen and have been realized as ment for Philippine independence, are president of the senate and suppression by force of the ultimate soon as the necessary conditions were with commercial and diplomatic rela- Afghanistan, merely signifies that the time at that. It is understood that the decision abolishing the Board of Control has been upheld by the advocate-general of the army and by the attorney general, Sargent. They declared the legislation authorizing longer possible to form an unbroken by the most important states of Euthe board and determining its powers was illegal.

All powers formerly vested in the Board of Control are now the powers of Governor-General Wood. He is a dictator. The elected representatives of the Filipinos can exercise no check on his activities.

THE DAILY WORKER

The Soviet Union and the Imperialists,

In the first article, Yavorsky recounts the difficulty with which the imperialists maintain their alliances in both Europe and the Far East. But despite their own conflicts, England and France, the European imperialist leaders never cease their activity against the Soviet Union. They attempt to form ever larger alliances of the smaller states near Russia into blocks against the Soviet Union. While Britain and Japan are at loggerheads in the East, their common enmity of the Soviet is still a big factor.
