FOR eleven long months, almost a year, the Passalo textile workers have been battling against the millionaire mill owners of that city. For eleven months they have been fighting for the right to organize and deal collectively with the bosses. For eleven months they have resisted the attempts of the textile barons to slash wages and reduce the living standards of the textile workers. They have faced police clubs, tear gas bombs, jall, ley streams of water and starvation for themselves and their families. They faced these hardships without a whimper. With the surrender of the Botany Worsted Mills, they have practically won their struggle. They have stemmed the tide of wage cuts. They have opened up a new chapter in the history of the unorganized workers of America.

But the Passaic strike is but the beginning of the movement among the millions of unorganized workers in this country-in the rubber, textile, mining, metal, auto and large scale industries. The message of organization must be carried to them. It must be carried to the most advanced elements, to the most class conscious workers in these industries, to the militants, to those who will be the natural leaders of the movement for the organization of the unorganized-to the readers of The DAILY WORKER.

Shall The DAILY WORKER be forced to quit at this critical time? Shall The DAILY WORKER leave the field when the work has just begun? No honest, intelligent worker will permit this to happen. Do for The DAILY WORKER, the organ of the unorganized, what the Passaic strikers have done for the organized textile workers. Carry the message of Passaic to every unorganized industry. The Police in Labor Struggles HUGE

WHEN the secretary of a central labor body calls upon the police, with whom he has connection because of the support of open shop politicians of the capitalist parties, to aid in breaking up a meeting of a union regularly affiliated with the American Federation of Labor and the local central body, it is a matter of grave concern for the entire labor

Yet this is what Secretary Edward Nockels of the Chicago Federation of Labor did on Tuesday, according to reliable information which has come to us, in connection with a regular meeting of the Furriers' Union.

Even if this information were not in our possession the presence of the police at the meeting, the statements they made before the meeting to responsible union officials and their subsequent actions, are proof that they had been ordered to the scene by superior officers who had been advised of the meeting, knew of the purposes of the right wing and were prepared to co-operate with it to the extent of keeping the highest officer of the largest section of the union from speaking.

The unity of the right wing in the needle trades and other sections of the labor movement with the police is now a proven fact. Whence comes this unity with a "special body of armed men" who are the instrument of the enemies

of labor in every strike? Such unity can come only by reason of a compact with the bosses—bosses who realize that the worker-employer co-operation policy of the right wing is good for them and bad for the workers and as a consequence are only too willing to lend their police to aid in crushing the left wing and the Communists who are struggling to maintain the unions as fighting weapons of the working class.

Every sincere worker will repudiate the policy followed by the Chicago labor officialdom in breaking up a meeting of a union regularly affiliated with the American Federation of Labor and the Chicago Federation of Labor.

The police are the servants of the bosses and their gov-

Young Miners Boost the 'Save the Union' Ticket

(Special to The Daily Worker)

SPRINGFIELD, III., Dec. 15 .- Election day in the miners' union was a miners' holiday in this town. All day ong the men came in from the sixteen mines around the town and prowded into the polling places. The heaviest vote for years was cast in this election, and if any judgment can be made from the common talk around in the halls, no Lewis votes

came out of Springfield. The counting of the votes started immediately after the closing of the polls, which was at four o'clock in some locals and six in others. The sentiment here is entirely for Brophy Tumulty and the "Save the Union Slate." But the international and District No. 12 vote will not be known for a week or two yet-that is not settled in Springfield.

Sub-district Election Feature

What is settled in Springfield and mmediate vicinity is the sub-district election, in the important Sub-district No. 4, Springfield, which has itself ten thousands members. Here a split developed in both the machine forces and the progressive forces, the latter only partly closed by a last minute decision of The Coal Miner, which issued a statement in favor of Hindmarsh for sub-district president, and called on supporters of Wall, the other progressive, to fall in line for the most probable victor over the machine can-

HARVARD LAMPOON RUBS BOSTON FUR WRONG WAY: SAYS TO BURY ANCESTORS

CAMBRIDGE, Mass. - The Harvard Lampoon has made another bid for unpopularity. Close on the heels of its Princeton edition comes a "Boston Edition," satirizing the Hub of the Universe.

It says that, altho the popular conception of Boston is a codfish ball completely surrounded with beans, a more logical picture would be that of "a mummy surrounded by Its descendants." "Give them a history book and a piece of the Mayflower for a relic and they will work up more religious fervor that a whirling dervish on a six-day spin."

It gives the opinion that Boston has run too long on the reputation of its ancestors. "If they are not buried soon, god save the commonwealth of Massachusetts."

CALIFORNIA OFFICIAL GETS AFTER COMPANIES VIOLATING WAGE LAWS

SAN FRANCISCO-Labor Commissioner Walter G. Mathewson Is seeking to enforce strictly the semimonthly wage law, which he says Is being flagrantly flouted by many corporations, resulting in crews of workers being left stranded while their pay is illegally held up.

He cites the case of a crew of 91 workers in Shasta county, stranded, when \$7,000 in wages was due them: a crew of 25 in Plumas county, with \$2,000 in unpaid wages; 27 workers in Calaveras county with \$3,200 due: 34 men in San Mateo county from whom \$4,000 was withheld in wages; and five men in Sonoma county, waiting for \$1,500.

In all these cases, both civil and criminal actions are being taken by the labor bureau, and the commissioner will ask for Jall sentence in the case of several offenders who are "repeaters," having before left their crews stranded.

ing him still.

CHARLES McNARY, Oregon sena-tor, new head of the agricultural committee, has introduced a revised McNary-Haugen agricultural relief bill in the senate. It will be the basis for the most intense struggle in the present session of con-

In the old party political game of "give and take," every effort will be made to log-roll this relief measure, in some form, thru congress. The so-called farm bloc, the republican members of which have deserted their insurgency and accepted favors from the "old guard," must have something tangible to calm the discontent of the agrarian west. The Coolidge-Butler-Mellon regime fears the wrath of the "wide open spaces" that lie to the west of Wall Street, and may agree to a satisfartory compromise.

* * * Already the new McNary measure, successor of the McNary-Haugen bill, appears in congress shorn of

many objectionable features. The much fought over equalization fee, that was opposed by the Southerners, remains, but it is assessed against "each marketed unit" instead of against all producers. Chief opposition came from the South, but a compromise was reached. This was shown at the American Farm Bureau Federation gathering in Chicago, where the Southerners agreed to the equalization fee if the Northerners would consent to the private operation of the Muscle Shoals project. The horse trade was agreed to. The "tariff yardstick" and the 'fair and reasonable" price standards of the original McNary-Haugen bill have disappeared. The new bill contains no reference to price standards or price levels. It is proposed that there be an appropriation of \$250,000,000 for a revolving fund from which loans may be made to commodity stabilization funds in anticipation of collection of equalization fees. It is urged that loans be also made directly to co-operatives for handling the surplus.

The scope of support sought for the McNary bill is shown by the inclusion of five basic commodities to be benefitted, cotton, wheat, corn, rice and swine. Cattle and butter have been eliminated and rice appears for the first time.

The proposed measure has not yet been introduced in the house of representatives. Representative Haugen, heading the house agricultural over. It is declared, however, that the companion bill in the house to the McNary measure in the senate will be fostered by Representative Purnell (republican) Indiana, and Representative Fulmer (democratic) South Carolina. Thus the democratic south joins hands with the republicans north in boasted political 'non-partisanship."

The tendency of this legislation is to set up an agricultural monopoly or trust. The farmers have looked with jealous eyes on the huge profits taken by industry and commerce, with agriculture being plunged more and more into bankruptcy. The demand is made that agriculture be given the same assistance as industry thru the erection of a high tariff wall that serves two

(1.) Maintaining the home market exclusively for home grown products at high prices; (2) thus enabling American agriculture to compete more successfully with cheaper products in foreign markets. In this way it is hoped to dispose of the surplus crops.

It was this plan that Andrew Mellon, the secretary of the treasury, who piled up his many millions in the highly protected industries of the Pittsburgh district, declared

HUGE BROPHY VOTE CAST AT SPRINGFIELD

Young Miners Boost the "Save the Union" Ticket

(Continued from page 1) is divided as to the motives of Walker's action.

Machine Asleep. The feature of this election is the determined fight and intelligent acti-

vity of the young progressive miners. The machine seems to have been caught napping. Most of the industrious politicians in this election, the lads standing on the staircases, in couples, passing out marked ballots, the personal cards of candidates, or handing out tiny slips of paper with the sub-district candidates' numbers upon them, are progressives. Young Miner Busy.

The walls of the polling places are gay with the red Brophy-Stevenson-Brennan stickers. Hundreds of marked sample national ballots have been circulated during the last few days, mostly by energetic young fel lows, for the first time many of them awakening to the fact that they have a stake in the future of the union, and that honest elections and progressive votes guarantee that future Young Stands Alone.

The only member of the Fishwick-Lewis machine (built by Farrington and inherited by the other two) to appear very prominently on the scene in this election is the notorious "Jower" Young, present member of sub-district. In the miners' union a board member is a very important here. official. He not only acts in the board itself as a court of last resort for cases appealed from subordinate parts of the organization, but is one of the important negotiators deciding "cases' between employers and individual unionists with grievances. "Joker" decisions are favorable to the boss in Coolidge Aid for in 90 per cent of his cases.

Keep Off Challengers.

The sub-district constitution permits the candidates to maintain challengers at the polls to see that the sub-district ballot is properly counted. In spite of this clause, the officers of Old Citizen local union refused to edmit challengers. It is certain that there is a majority of "Save the Union" votes in this local, but, due to the treachery of a supposedly progressive teller, the machine captured the entire vote-counting machinery here, and apparently intends to steal the election. If they do their vote will be contested.

The machine is also expected to throw out on technicalities all the tayorable locals it can. The Springfield evening paper calmly prognosticates a complete victory for the present (machine) officials, state and na-

ALLIES EVACUATE RHINE IN JANUARY; LEAGUE WILL NOT CONTROL WAR ZONE

GENEVA, Dec. 15 .- A formula for meeting Germany's demand that military control by the allies in Germany be abandoned, has been practically decided upon, is report-The formula, which is being dis-

cussed in private conferences, is outlined as follows: 1. The present system of military control in Germany would cease in January.

2. Future control of the Rhinefand de-militarized zone would be taken from the league of nations and placed in the hands of the signatories to the Locarno pacts, which includes Germany.

3. Control of armaments in the remainder of Germany would remain in the hands of the league of nations under approximately the same conditions as outlined in 1924.

GENEVA, Dec. 9 .- The league of nations disarmament conference probably will not be convoked before 1928.

Sir Austen Chamberlin insisted upon minute preparation details being arranged, which will probably make it impossible for the conference to be held before 1928.

In his speech, Kameneff of the opposition dwelt on the "right drift" in the Communist Party of the Soviet Union and asserted that this right drift was manifesting itself in eulogizing the new economic policy in masking the class struggie, in underestimating the technical economic backwardness of the country, in estimating the role and the importance of the peasantry, and in negating the the national income that is typical of the actual period of the construction of socialism in the U.S.S.R. The international right drift was manifested in the attitude towards the Anglo-Russian committee, in the illusion that it could eventually be created as a center of a struggle against intervention. The speaker contended that the various aspects of the right drift were bound up with the theory of socialism in one country. We must face the difficulties of the transition period; the socialistic construction of the U.S.S.R. is possible but it must be with the help of the proletarian revolutions of other countries.

The speaker attempted to refute the charges against the opposition: the hegemony of Troskyism, the attempt to create a new party, and the question of practical price policy. He contended that the opposition never defended Trotskvism in so far as Tratskyism differed from Leninism; the theory of permanent revolution, the peasant question, etc. Kameneff claimed that the opposition was taking the initiative of restoring Leninist teachings in the party; he contended that some comrades were deviating most seriously from Leninism.

Opposition Summed Up.

Summing up the creed of the opposition, Kameneff stated: We demand a workers' and peasants' alliance is impossible without a definite pace of in- tional situation and the tasks of the dustrialization. The facts are demonstrating the

reverse: each new victory of the Cantonese forces is disintegrating the imperialist front. On the peasant question Trotsky is also wrong. The peasants of China are fighting in the national anti-imperialist struggle under the leadership of the proletariat. After the victory of the revolution there will take place the socialization of the chief branches of industry under the alliance of workers and peas-

ants. The opposition's slogan that the C. P. must leave the Kuomintang is wrong because it would mean the renunciation of the hagemony of the proletariat and the liquidation of the Chinese revolution.

Fiala, on behalf of the Austrian delegation, made a statement fully supporting the Communist Party of the Soviet Union and protesting against the attempts of the opposition to extend the struggle into all sec tions of the Comintern. The pessi mistic theory of the opposition is wrong and has a weakening effect on the world revolutionary struggle.

Duboff, on behalf of the Yugo-Slav ian, Bulgarian, and Roumanian Com munist parties, made a statement of full solidarity with the C. P. S. U. The Communist parties in the Balkan Federation will support fully the struggle against the opposition. The opposition has no followers among the Balkans parties, yet the doings of the opposition have caused some confu sion. The Balkan bourgeoisie was cherishing fresh hopes. The opposition in all sections of the Comintern must be liquidated.

The Russian workers' victory over the opposition, he stated, was INTERNATIONAL Chinese Communist Youth adopted the victory of the western European proletariat as well. The small opposition within the French party has also been defeated and the same will happen in all parts of the Comintern, despite Trotsky's and Zinoviev's attempt to extend the factional struggle to an international plane.

The opposition's arguments, Doriot declared, for the impossibility of build ing social together with the peasantry are social-democratic and the best for "left" social-democrats food Trotsky's assertion that Russia cannot build socialism owing to its backwardness ignores the importance of the proletariat, while Zinoviev departs from Marxism when his analysis fails to take into account concrete situa-

In conclusion, Doriot pointed out that the most reactionary social-democratic press was sympathizing with Zinoviev and Trotsky and expressing the hope that the opposition's factional activities will lead to the breakdown of the proletarian dictatorship.

HELLO, CHILDREN!

Dear Children:

You are reading this because your father or your mother or some of your relatives or friends are readers of The DAILY WORKER. That means that they are workers-and workers that know how to stick together and fight the bosses. Ask them about it!

You are workers' children; so are all of us who are reading this. Although our fathers work hard and produce a lot of things, they are poor; the bosses, who themselves do nothing, pay the workers miserable wages and keep for themselves what the workers make That's why the rich kids are so well off and have so many good things! Don't you think we workers' children ought to stick together and stick by the grownup workers and help them fight the bosses? Ask your father or mother about it!

The first thing to do is to get to know each other. And so The DAILY WORKER is giving you this space every week to print letters and stories sent in by YOU. Write us about things that interest yes Write us how rich and poor people live-especially the children. Write us about your school. Write us stories, puzzles, jokes, everything! Send us in drawings and pictures! Come on-this section is YOURS! What are you going to do with it?

The Manager's Corner

Proletarian Initiative.

One of the severest indictments of the capitalist system is the fact that it tends to stifle all initiative among the workers. The monotony of the repetitive processes of industry make for the stultification of new ideas. The inhuman exploitation and misery which are part of the capitalist system are also powerful obstacles to the growth of ideas among the workers. Society is thus robbed of the benefit of the thought of a large part of its constituents which should tend toward its betterment.

But fortunately the very oppression under which the workers groan acts as a stimulant to the more advanced elements to concentrate their efforts and their thinking upon the ways and means of ridding society of the capitalist menace. And the greater this oppression the greater the exploitation, the more virile and active these minds become, especially if they hit upon an outlet for their activity. The DAILY WORKER and the Communist movement in general offers just that happy combination which the more intelligent and militant worker is seekinga way out of the present exploitation and a field for the development of new ideas and proletarian initiative.

The promotion of The DAILY WORKER and the distribution of Communist literature has afforded an excellent channel for the display of proletarian initiative. Examples come to us from various fields of industry almost daily. We shall publish in this column from time to time the experiences of our field agents, the schemes they have devised, and the methods they have used to spread The DAILY WORKER and Communist literature to the workers. In fact the progress of our work depends to a large extent upon the contribution of ideas from our supporters in all parts of the country. We urge the sending in of suggestions and ideas from our army of supporters.

This is made clear by a dispatch from the home of John L. Lewis and the headquarters of District 12-Springfield, Illinois. The dispatch states that the results of the district election will not be known for six weeks and that it cannot be stated when the results of the election in the international union will be made public.

This means that the Lewis machine will claim election by an overwhelming majority from now until the convention of the U. M. W. of A. next February, altho it is well known that Lewis has been defeated by actual ballots cast in every election since he took office.

The New Drive on Militant Trade Unionism

ARTICLE I.

By WILLIAM F. DUNNE.

SERIES of recent events indicate in an unmistakable manner that a new systematic and well-organized offensive against the left wing in the trade unions has been launched.

The tone of the capitalist press, the ocialist press and the official trade mion press leaves no doubt as to the ntentions of the forces for which they peak. All are united in asserting that the Communist menace" in the trade nions must be destroyed. In the tone of these articles there is nothing new but in their volume and intensity there is evidence of a method, mutual understanding and termination that shows this campaign to be of sufficient movement between the "worker-employer co-operation" policy and the policy of class struggle.

THIS is not to say that all the ele-1 ments which support one side or the other are fully conscious of the policy to which they give allegiance. The contrary is true and in general t may be stated that only conscious reactionaries of the type of Lewis (United Mine Workers), Woll (vicepresident of the American Federation

Labor), Sigman (International Ladies' Garment Workers), underwing position, and only the Communists and the workers closest to them realize that the struggle is actually one for the maintenance of the trade

Introduction.

THE purpose of these articles is to show by documentary evidence, whose authenticity no one can impugn, that the campaign against all progressive tendencies in the labor movement which was launched at the A. F. of L. convention in 1923 has entered a new phase in which there is a more open combination than ever before of the trade union officialdom, the capitalist press, the employers and the government.

It will also be shown that the main motives which prompt the intensified attack, centering first on the Communists and second on the left wing, are (1) the desire of the capitalists to suppress all struggles which interfere with the development of American imperialist prosperity and either destroy the trade unions or force them to a general dead level of docility, (2) the desire of the trade union officialdom to force on the unions a policy which will make of them the docile organizations which the capitalists will accept, (3) the desire of both the capitalists and their labor agents to drive the Communists out of the unions and destroy their influence in the labor movement because they are the most conscious and best organized exponents of fighting unionism who are trying to rally all workers for struggle on a program of immediate and necessary demands.

Finally, these articles will show that the policy of the trade union officialdom, of which the latest attack on the left wing is a logical result. Is based on one phase, and one phase alone, of American capitalist development, i. e. Its present temporary upward swing, and that because of this neglect of other fundamental factors, can bring nothing but disaster to the labor movement.

The more "successful" this policy is, i. e. the more endorsement It receives from the masses now, the more disastrous will be the ultimate result. The Communists and the organized left wing therefore are fighting the battle of the whole working class when they resist to the utmost the new offensive of the combined forces of American capitalism which, in the period of imperialism, include with some minor exceptions the whole bloc of trade union officialdom.

The "Call to Action" concludes

The time has come when the preservation of the trade unions demands the expulsion of these elements from offices and control.

The unions must remain free from outside domination and from the interference of all political parties! Individually every worker may follow any religious or political creed, but the unions must remain independent of all.

We therefore call for war upon Communist disruption. We call for all workers in all unions to unite against the internal enemy, the disrupter, who is destroying the unions for the benefit of the 'external enemy, the capitalist. It is a common fight for all workers who believe that their protection lies in the preservation of their unions.

The division between the Communist adventurers and the trade union movement shall be definitely established! There shall be nothing common between these irresponsible elements and the trade unions. The labor movement shall lend no assistance to any undertaking which, directly or indirectly, shall include the Communists. It shall be war to their finish. Down with Communism! Long live the trade unions!

and says:

What has happened since the beginning of the cloakmakers' strike and what is happening in the Cloakmakers' Union now is but the inevitable outcome of the way in which the Communist Party plays trade union politics. It is the inevitable outcome of the initial sacrifice of industrial policy to politics.

"Justice," official organ of the Inernational Ladies' Garment Workers' Union, likewise devotes its whole editorial page to the strike and the right wing offensive. Speaking of a circular sent to all members of the union except known Communists and left wings by the General Executive Board, 'Justice" says:

It appears at a moment when our members, stunned by the terrific blow they have received as a result of the outcome of the cloak strike in New York, and boiling with indignation over the terrible mismanagement of the strike by its Communist leaders and directors, are searching for an answer to this calamity which has befallen their organization and are seeking light and guidance that would lead them out of the morass into which the political adventurers have dragged

But the new offensive of reaction is not confined to New York or to the needle trades and its official press. It was planned as a nation-wide movement and it is developing rapidly in

So much for the organizational preparation for "war"-it is the word used in the "Call to Action"-against the Communists and the left wing in the needle trades.

The Advance, official organ of the Amalgamated, devotes its whole editorial page to the Cloakmakers' strike

The searching analysis contained in the G. E. B.'s statement supplies this light abundantly. It lifts the curtain over the New York cloakmakers' tragedy and exposes mercilessly the hypocrisy, insincerity and blatant incompetence which its principal actors, the Communist camarilla, have displayed from the first day they became the masters of the destiny of the 35,000 cloakmakers involved in it.

THE stage having been set for an only some rank and file camouflage to allow the officialdom to appear as saviors of the union. A farcical "inrestigation" was held by the General board then met in solemn session and passed a resolution ordering the regularly elected members of the Joint Board strike committee to surrender Local union executive committees were removed from office and all positions filled by appointment by the G.

cruelly was his spirit wrung by the vision of Paul in Jail. And he, Bunny, running away from the trouble, loafing about and pretending it was a "vacation." He that thought he understood the social problem, and had an ideal, at least a glimpse of what was kind and fair. He broke loose from Vee's arms and began to pace the floor, storming, half at himself for a renegade, and half at the dirty crooks that ran the government of Sar Elido county, and stole the funds that were supposed to keep the jail clean and feed the prisoners. Bunny was twisting his hands together in his misery, and Vee watched him, startled; it was a new aspect of her Bunny-rabbit, that she had thought so sweet and soft and

She put her arms about him, but

he hardly knew she was there, so

"Listen, dear!" she broke in, suddenly. "Stop a minute and talk to me quietly. You know, I don't know much about these things."

"What is it?" "How can you be sure that Paul

hasn't broken any law?" "Because I know him. I know all his ideas. I've talked the thing out with him from A to Z-all about this strike, and how it's to be handled, the importance of getting the men to stand as a unit, how every thing else must be subordinated to that. That's what he's been doing, and that's why Verne has thrown him into jail."

"You're quite sure Verne has done

"Of course-he and the rest of the operators' committee. What are those officials in San Elido but office-boys for the oil men? Before Verne came in there Dad ran that county, I've seen him pay the money with my own eyes, and more times than one."

"And you don't think they may have evidence that Paul has been conniving at violence?"

"I don't know what evidence they've got. Verne as good as told me he had spies on that bunch, and I don't know what those spies may have planted—and neither does Verne know, for that matter. That's one of the damnable things about it. Another is-you see that charge, 'suspicion of criminal syndicalism.' What they call 'criminal syndicalism' means that you advocate overthrowing the government: but you notice they don't arrest you for that -they arrest you for 'suspicion' of it! In other words, you advocate some idea that some ignorant cop or some crook in office chooses to think may be dangerous, and then they throw you into jail, and there you stay-the courts are crowded. and they can keep you a year without trial or any chance at all."

"Oh, surely they can't do that, Bunny!"

"They're doing it right along. 1 know fellows it's been done to. They put the bail high on purpose, so that workingmen can't get it. And they think they're going to do it to Paul Watkins, the best boy friend I ever had, the straightest fellow I ever knew-yes, by God, and he went to Siberia and served in that war, and came out sick-that boy was as tough as a hickorynut before that, a country fellow, simple and straight, and with no vices. And this is the reward he gets for his services to his country-by Jesus, I'd like to see them get me to fight for a country like that!"

Bunny had to dash a tear out of his eyes, and he began to pace the floor again, and stumbled against a chair. Vee put her arms about him and whispered, "Listen, dear, I know some people that have got money, and I may be able to help you. Leave it to me for a few hours, and don't say anything to Dad about it-what's the use of worrying him to no purpose? If I can arrange it, he'll be able to tell Verne that he knew nothing about it, and that'll be so much better all round " She went off, and a couple of

hours later came back. Bunny was to wire Ruth that neither he nor his father could do anything, but a friend had taken an interest in the case, and the money had been deposited with the American Bonding Company, and their office in Angel City would obtain Paul's release. Bunny said, "How did you do it?" and she answered, "The less you know about it the better. I know somebody that owns some real estate in Angel City, and has a salary coming to them, and employers that are anxious to keep them happy and contented." Bunny said it must have cost a good deal, and he ought to pay it back, and Vee said, "Yes, it cost a pile, and you're going to pay in love and affection, and you can start right now." She flew to his arms, and he covered her with kisses, and it was like an orchestra that went surging up in their hearts. It is an extremely unsettling thing to have a whole orchestra inside
