WE MUST CONTINUE AND INCREASE THE AMOUNT OF WORK DONE IN SUPPORT OF THE KEEP THE DAILY WORKER CAMPAIGN IN EVEN A GREATER RATIO THAN SHOWN BY THESE FIGURES.

The end of the month of December is approaching and The DAILY WORKER has again faced accumulated and heavy obligations. It will require \$3,000 of contributions to the Keep The DAILY WORKER fund in addition to the regular Income of The DAILY WORKER to meet these obilestions.

Aitho we have been carrying on the campaign for the \$50,000 fund to Keep The DAILY WORKER for three months, we have only railied half the strength of the party to the support of the campaign. That is shown in the fact that on the average only one out of every two party members have raised the \$5.00 quota of the Keep The DAILY WORKER Fund which they were asked to raise.

CAN WE DEPEND UPON THE OTHER HALF OF OUR PARTY MEMBERS-THOSE WHO HAVE AS YET DONE LITTLE OR NOTH-ING TO KEEP THE DAILY WORKER-TO NOW TAKE UP THE JOB OF CARRYING FORWARD THE KEEP THE DAILY WORKER CAM-PAIGN TO A SUCCESSFUL CONCLUSION?

To raise \$3,000 during the balance of the month means that sixty comrades must raise or contribute their \$5.00 dally.

On December 10 we published a statement showing that 4,800 members had contributed on the average \$5.00 each and that 5,200 were still to be heard from. Today the figures are reversed, 5,200 have contributed on the average \$5.00 each and 4,800 are still to be heard from.

WE ASK 600 OF THESE 4,800 TO CONTRIBUTE OR RAISE \$5.00 FOR THE KEEP THE DAILY WORKER FUND BY THE END OF THE

Mrs.Kahn of California Wants More Guns

(Special to The Daily Worker) WASHINGTON, Dec. 21,-The three congresswomen, Reps. Kahn (R) of California; Norton (D) of New Jersey and Rogers (R) of Massachusetts, have joined forces with the "big navy" jingo group in the fight over naval appropriations. Each expressed the usual hope that there "will be no more war" while at the same time they expressed sentiments sure to be highly applauded by the aged butchers in the war college.

"I am behind the naval affairs committee in its fight," said Mrs. Kahn. "I am not a militarist, but I don't want to be bound hand and foot when any one assails us."

"Pave Way For Communism." Pacifists were denounced by the California congresswoman as "paving the way for Communism thru their misguided efforts."

"I am especially interested in seeing hat our aircraft program is carried to fruition," said Mrs. Kahn. "I believe the citizens' military training camps are the best school of citizenship for the youth of the country in that they are taught to respect constituted authority, a respect in which the youth of today is sadly lacking."

Charge Coolidge Is Betrayer.

WASHINGTON, Dec. 20 .- Charges that President Coolidge "betrayed" the house naval affairs committee in his "bargain" with Chairman Butler on the construction of warships produced a sharp concussion in congress. Coolidge talked Butler into virtually endorsing his stand against construction of more ships at present by promising to consent to "authorize" the construction of ten 10,000-ton cruisers -provided that the present congress refrain from appropriating any money for the building of the three cruisers already authorized under the 1924 program, and that the other ships be not built without approval of the presi-

NEGRO CONGRESS HERE **MAKES STRONG PROTEST** AGAINST POLICE RAIDS

Strong protest against the indiseminate arrests of Negroes and wholesale raids on homes and places of business in Negro districts by Chicago police was registered by the Chicago branch of the American Negro Congress at its meeting Sunday. The police raid staged last Wednesday on the south side in which some 500 were arrested as "suspects" in the slaying of a policeman, and in which homes were broken into and other outrages committed, prompted the action of the congress.

A resolution was drawn condemning the action of the police department in this raid and similar ones and demanding that such conduct cease. Copies of the resolution, to gether with a strong letter from the organization, are to be sent to the mayor, police chief and councilmen.

Wednesday's raid on the south side was one of the most vicious committed by the police here and city-wide protest has been made against such tactics.

'Machine' Tramples on **Election Rights**

The largest local in the Chicago Amalgamated Slothing Workers' organization, Local 39, held elections for local officers and joint board delegates, Tuesday, Dec. 21. Not much anxiety is felt by candidates running, as far as the returns are concerned because there was virtually no opposition to the machine endorsed slate

The executive board of the local, which also acts as the examining board for the candidates, took it upon en to upset the bargain by compelling also, ordering elections before giving the membership an opportunity to get acquainted with the candidates.

Violate Constitution.

The constitutional requirement for any member to run for office is that they be in the organization for one year in good standing. This they possessed. The board could not reject them on constitutional grounds, so they went into questioning them regarding their affiliations, political and paternal. Also as to their knowledge of the joint board rules governing the issuing and distribution of literature This failed to bring out sufficient cause to prove that they should not be on the ballot. Finally they demanded that they sign a statement that virtually calls for a blanket endorsement of the present administration, its policies and tactics, and calls for a repudiation of the progressive group and its program. This the refused to do. First, because on constitutional grounds. The constitution does not provide for a member who is a candidate for any office to sign statments; secondly because these members are opposed to present administration and its policies Particularly did they refuse to en dorse the administration's conduct of the last few days-in breaking up meetings that were called to discuss amalgamation and the assistance of the New York striking cloakmakers.

The executive board, disregarding the constitutional provision, refused to place these members on the bailot on the excuse that they refused to sign these statements. The removal of these candidates assured the administration a 100 per cent victory in this election.

INDUSTRY CUTS WAGE TO EMPLOYEES AND MELON FOR INVESTOR | OVER

(Special to The Daily Worker) WASHINGTON, Dec. 21. - According to labor statistics, employment in manufacturing industries was cut 1.2 per cent in November, as compared with October, while total payrolls were cut 3.2 per cent.

In contrast, U. S. Steel has cut a melon in the form of a stock dividend of 40 per cent. This has led financial dopesters to look over the list of big surpluses to see where further melon cuts may be expected. In figures of millions, the following large accumulations are cited: Southern Pacific, 358; Standard Oil of N. J., were the victims of an over-crowded craft built to ship only half as many persons as were on board.

Sixty-two workers stamped their feet and swung their arms on the bleak wharf in the North River district yesterday waiting to be transported across the bay to the oil refinery at Edgewater. The Linseed King hove up to the wharf and the men jumped aboard, filling the small single entranced cabin to capacity while others were forced to crowd the limited deck-space. As the launch pulled away from the wharf, three or four men made leaps that barely brot them over the low gunwhale to swell the over-crowded deck.

The arbitration board itself revealed its hand when it took the liberty of rebuking the left wing strike leaderhip and referring to the "long and ostly strike." With Sigman, the arbitration board entirely ignores the fact that only because of the hard-fought strike are the employers now making the concessions that the New York cloakmakers walked out to enforce.

Sigman, thru the capitalist press, is making much of the award and referring to it as a signal achievement for the cloakmakers' international and "victory for sane unionism." A meeting of the Sigman supporters ratfied the award on Monday night.

Aims Blow at Electrical Workers

John P. Miller, commissioner of the department of gas and electricity, backed up by Mayor Dever, is threatening to turn the work of maintenance over to a private concern to thwart Local No. 9 of the International Brotherhood of Electrical Workers.

There are 432 members of the union now in the employ of the city, and they filed with the commissioner a new wage agreement, calling for an average increase of \$14 per man. The city has refused to sign the agreement. Now comes the threat to negotiate with a private company to take over the work of maintenance. The supply of electrical current is not involved, as that is already supplied by the sanitary district.

"It is at the bottom a scheme to eliminate a large number of old employees, under the civil service, who are getting toward an ege when they would be retired under a pension,' said I. Knott, organizer for Local No 9. "A good many of the younger men

Job Fight Breaking Up Wreck of Nonpartisan League in North Dakota

By J. LOUIS ENGDAHL.

DISINTEGRATION is rapidly developing in the Frazier-Nye-Sorlie wing of the republican party in North Dakota, just as it is destroying what is left of the LaFollette movement in Wisconsin.

The biggest shattering factor is the struggle for jobs, with every loyalty to principle thrown completely overboard.

In Wisconsin the LaFollette movement, under the "Bob" LaFollette-Blaine leadership, commonly dubbed "the Madison gang," has scuttled the middle class LaFollette program, with which it attracted worker and farmer elements, and has put place-seeking first upon the order of

The same is true in North Dakota that gave Gerald P. Nye to the United States senate as a non-partisan league senator. Nye has not startled the nation with any fight for the workers and farmers. He revealed his real political character. however, when he descended on Coolidge in the White House and demanded he be allowed to appoint the United States marshal for North Dakota as part of his political machine.

After the death of the elder La-Follette, the LaFollette family made its alliance with Governor John Blaine. It was a compact based on the distribution of jobs. "Bob" La-Follette, Jr., was to be allowed to fill out the unexpired term of his father. Blaine was to be promoted to the senatorship, thru the defeat of Lenroot this year. The program thus far was carried out to the letter. The break came over the governorship. Fred Zimmerman, secretary of state, originally a LaFollette follower, broke with "the Madison gang," came out as candidate for governor and defeated the La-Follette-Blaine candidate, Attorney General Ekern. The result will be that the foe of "the Madison gang," Zimmerman, will occupy the governor's chair in Madison next month while LaFollette and Blaine are marconed down in Washington, far from their home political fences. It is not difficult to foresee the disaster that will overtake those fences.

The divisions within the Frazier-Nye-Sorlie section of the republican party in North Dakota, that styles itself the nonpartisan league, are also based on the senatorship fight, forcing civil war between the Frazier and Sorlie factions. The senatorship is a much more desired plum than the governorship.

Both Frazier and Nye have always considered themselves republicans, but they spread their nonpartisan league sails to catch the discontent of the farmers with the republican rule of the bankers, landlords and grain gamblers. If the protest had been strong enough and crystallized itself ultimately in a farmer-labor

party, they would doubtless have gone along, only to betray the movement at the most propitious moment. Four years ago, in Washington, at the first conference of the people's legislative league, organized by the late Senator LaFollette, I asked Senator Frazier what he thought of the prospects of the farmer-labor movement in North Dakota. "Let us wait and see," was his answer. The late LaFollette, himself, took practically the same position, yet it was he who issued the statement in June, 1924, bitterly attacking the national farmer-labor movement. The period of waiting had come to an end and the action taken was as expected.

In North Dakota, as in Wisconsin, the LaFollettes and Blaines, the Fraziers and Nyes, are now completely repudiated by all honest farmer-labor elements, who turn their backs on the fraudulent effort to "purify American politics inside the old parties." They are learning that bad bankers and wicked railroads, robber landlords and bandit grain corporations cannot be made "decent" thru legislative enactment under the capitalist system.

The Minnesota farmer-labor party has had its many experiences with similar elements. It will be compelled to do battle against these disruptionists and betrayers in the future, many times.

An encouraging note for independent political action is sounded, however, in Minnesota, in the call for the farmer-labor conference to be held at St. Paul, Jan. 17-18. It is

"The state campaign of 1926 was the most critical in the history of the movement and put it to the real test. It has come thru purged of disrupting and antagonistic elements and is now unhampered by political traders and self-seekers."

It is significant that the name of the farmer-labor senator from Minnesota. Hendrik Shipsted, who is charged with succumbing to the wiles of the Coolidge administration, does not appear upon the list of those signing the conference call.

The statement that the Minnesota farmer-labor movement has been freed of "political traders and selfseekers" is somewhat overstated. Such elements flock about every movement of protest like flies around a sugar barrel. Rather should the city and land workers in Minnesota pride themselves on the fact that they have been fairly successful in combatting such elements in the past and resolve to do even better in the future. The Minnesota experience should help teach the workers and farmers in Wisconsin, North Dakota and other states, where splendid opportunities await the struggle for the independent political action of labor.

IS GARIBALDI A BRITISH SPY?-IS LONDON QUERY

The Sunday Worker Unravels Secret Skein

LONDON, Dec. 5 .- (By Mail.) - In its current issue the Sunday Worker, left-wing labor weekly, asks the question, "Was Garibaldi a British Spy?" in connection with a story from its Paris correspondent who has been closely following the examination of the grandson of the Italian liberator, Ricciotti Garibaldi on trial in the French capital for complicity in fascist plotting against France. The correspondent writes:

French paper "Humanite," to which I am able to add some details, the reason why the case has been so much hushed up of late, after filling columns of all the papers every day, has as much to do with the interests of Great Britain as it has with those of Italy or France.

The first Indication of this was given in a letter published by the president of the Italian League for the Rights of Man, which bluntly asserted that, in addition to taking money from the Italian revolutionaries for fighting Mussolini, and from the Italian police to betray the Italian revolutionaries, Riccioti Garlbaldi was in the pay of another power.

At first this was taken to mean France. But, altho Garibaldi is said to have had half a million francs from the French war office under the Herriot ministry, it is generally admitted that this money was in settlement of a claim for repayment of expenses alleged to have been incurred in founding the Garibaldi legion which fought KELLOGG WAITS

It was discovered that, thru his mistress, Madame Della Rosa, Garibaldi had been in touch with Procope and Latapie, two Frenchmen lying in jail on a charge of having double-crossed the French intelligence service and worked for a foreign power. It was further recalled that Madame Della Rosa has for the past ten years been under observation by the French counter-espionage department as a British secret agent.

Accidents Occur

By MARION L. EMERSON (Worker Correspondent)

NEW YORK, Dec. 21. - For eleven weeks 2,500 paper box makers of New York have been on strike for the 44 hour week and the establishment of minimum wage scale.

The average pay for 46 hours is from \$15 to \$20 for girls and \$25 to \$30 dollars for men. The shops are in the worst section of the manufacturing district and the workers are forced to toil by artificial light under extremely unsanitary conditions.

The cutters generally work in cellars where dampness causes rheumatism and poor light ruins the eyes. Tuberculosis develops in many cases work.

WORCHESTER, Mass., Dec. 21. In its campaign at influencing public opinion in behalf of Judge Webster Thayer, the presiding judge in the Sacco-Vanzetti case, the Worcester County Bar Association, at its annual meeting held at the court house here, resolved that "This association hereby records its confidence in the good faith, high character and personal integrity of Justice Webster Thayer, and deplores the attacks made upon him."

Gives Him Flowers. Upon the opening day of the superior court session, at which Thayer presided, this legal body presented a basket of flowers to him which elicited from Judge Thayer, a speech of thanks couched in fine phrases, which, a pledge to the open shoppers of Massand push Sacco and Vanzetti on to the

The gathering of the Worcester County Bar Association was scheduled to be a demonstration counter to those in behalf of the victims of the open shoppers' wrath. The sponsors of this affair admitted that this gathering was held in order to counteract Square Garden, New York, under the auspices of the Sacco-Vanzetti emergency conference.

Calls Attacks "Shame"

Disregarding the outspoken resentment on the part of the entire labor movement as well as public denounciation of both the judge and the biased manner in which the case has been handled, Attorney Frank B. Hall, former chairman of the republican state committee, speaking on the motion to adopt the resolution said in part as follows:

"It is a shame that when one of the best judges of this commonwealth is being besmirched that we should hesitate, even for a moment, to stand back of him, every minute and every inch, and show that we are a body of men with something else in our backbone beside a lead spring.'

CAPITALIZATION OF NATIONAL CITY BANK ALONE IS ELEVEN TIMES THAT OF ALL U. S. LABOR BANKS COMBINED

By LELAND OLDS, Federated Press.

That David with his sling standing up to the glant, Goliath, wasn't in it with the labor banks is brought home by the announcement that the National City Bank of New York has raised its capital to \$140,000,000 by a \$25,000,000 increase in its outstanding stock. FALL-DOHENY SENATOR'S FIRE

Fall Faces Court with Sinclair Next

By Federated Press.

WASHINGTON, Dec. 21. - The vindication that Fall and Doheny felt was theirs as a result of their acquital by a jury which was out 19 hours and which at one time stood six to six for conviction proved short lived, when Senator Heflin, of Alabama, delivered a violent attack on the entire trial, including the jury, several hours after the verdict was made known.

No Spenders. The attack on the floor of the sen-

ate was not aided by any of the other senators, except Senator Walsh, of Montana, who rose to defend the judge who presided at the trial, but the failure of senators to reply to the harsh indictment Heflin drew revealed an undercurrent of resentment that may break out in more violent form almost any day. It is clear both from what has been said and by what remains unsaid that the verdict is considered unfair in face of the evidence that was submitted, evidence which Federal Judge McCormick considered sufficiently indicative of a conspiracy between Fall and Doheny to order the cancellation of the oil leases.

While the condemnation of the proceeding voiced by Heflin in the senate and privately expressed by others is of little value so far as affecting the dict already rendered is concerned,

trial is coming, in which Fall ... stand accused with Harry F. Sinclair of a similar conspiracy relating to the transfer of the Teapot Dome reserves. Reason for Silence.

It is not considered unlikely that should the attacks on the verdict continue in the senate the attorneys of Fall and Sinclair will endeavor to take advantage of them by charging that they have created an atmosphere n Washington decidedly unfriendly to the accused, and demand a change of venue and such other legal advantages as the law enables one who has a corps of able lawyers to make use of. That may be one reason why others are remaining silent.

In the same court, but before a different judge, a motion was made today by the attorneys representing Fall and Sinclair to quash the indictment against both defendants on the ground that certain changes made in the method of appeal in the district of Columbia have impaired the rights of the defendants. Attorneys for the government will oppose the motion.

Democracy in "Dixieland"

4,300,000 Negroes are disfranchised in southern states.

This fact is now in the records of the United States senate and. it is no longer possible to gloss over this shameful suppression of the racial unit which does the hardest, dirtiest and most necessary work in "Dixieland."

The details are at hand. They have been exposed as a result of one of the internal struggles of American capitalism and Negro organizations, aided by the labor movement, should make known to all the world the denial by force to the supposedly free members of the Negro race of the elementary right to take part in local, state and national elections—a right that is possessed and exercised by the millions of mentally unfit white persons over 21 years of age.

According to statements made in the senate on Monday, and to which no denial was made, Alabama has disfranchised 400,000 Negroes; Arkansas, 300,000; Florida, 200,000; Georgia, 600,000; Louisiana, 300,000; Mississippi, '300,000; North Carolina, 200,000; South Carolina, 350,000: Tennessee, 400,000; Texas, 800,000, and

It is 61 years since the Civil War ended, yet Negroes in the southern states are not citizens. They are ruled by a hostile race and class against whose cruelties they have not even the right of protest by ballot. They are robbed, tortured and murdered with still less pretense of legality than prevailed in the days of feudalism.

The magnificent periods of the capitalist and official labor spokesmen, the sonorous tributes to American democracy, the flagwaving and patrioteering, are meaningless enough to the white working class of this country, but they are pure truths to them compared to the total lack of their practical application to the life of the southern Negro masses.

The American labor movement cannot hold up its head as long as this condition prevails. Still more to its shame is the fact that it still supports the candidates of the democrat and republican parties who—except when the rivalry for one reason or another is more HERE we have an almost perfectly not very far apart. The New Drive on Militant Trade Unionism

ARTICLE. VI. By WILLIAM F. DUNNE.

THE dangerous doctrine which right wing leadership and capitalist spokesmen join in preaching is our old enemy, "identity of interest of labor and capital," now put forward as 'worker-employer co-operation," or in a still fairer guise as "union-management co-operation."

In the December issue of the Amercan Federationist, an editorial by President William Green entitled, "Company Unions" (in which the head of the trade union movement puts forward reasons why capitalists should deal with the trade unions rather than form company unions) makes the fol-

lowing statements: Under various systems of unionmanagement co-operation, workers have felt a responsibility and a partnership in the industry which has stimulated intellectual effort AND BROT SUBSTANTIAL BENEFITS TO THE INDUSTRY, Prevention of waste, saving of materials, better production methods, EVEN INVEN-TIONS OF MACHINERY TO IN-CREASE EFFICIENCY have been part of the workers' contribution. Introduction.

THE purpose of these articles is to show by documentary evidence, whose authenticity no one can impugn, that the campaign against all progressive tendencies in the labor movement which was launched at the A. F. of L. convention in 1923 has entered a new phase in which there is a more open combination than ever before of the trade union officialdom, the capitalist press, the employers and the government.

It will also be shown that the main motives which prompt the intensified attack, centering first on the Communists and second on the left wing, are (1) the desire of the capitalists to suppress all struggles which interfere with the development of American imperialist prosperity and either destroy the trade unions or force them to a general dead level of docility, (2) the desire of the trade union officialdom to force on the unions a policy which will make of them the docile organizations which the capitalists will accept, (3) the desire of both the capitalists and their labor agents to drive the Communists out of the unions and destroy their influence in the labor movement because they are the most conscious and best organized exponents of fighting unionism who are trying to rally all workers for struggle on a program of immediate and necessary demands.

Finally, these articles will show that the policy of the trade union officialdom, of which the latest attack on the left wing is a logical result, is based on one phase, and one phase alone, of American capitalist development, i. e. its present temporary upward swing, and that because of this neglect of other fundamental factors, can bring nothing abut disaster to the labor movement.

The more "successful" this policy is, i. e. the more endorsement it receives from the masses now, the more disastrous will be the ultimate result. The Communists and the organized left wing therefore are fighting the battle of the whole working class when they resist to the utmost the new offensive of the combined forces of American capitalism which, in the period of imperialism, include with some minor exceptions the whole bloc of trade union officialdom.

THE garment workers secured an Increase of \$3 per week and in addition a reduction of hours from 44 to 42 for the first half of the life of the agreement and a 40-hour week for the last half. Neither are the garment workers bound to any arbitration scheme—the union has retained its freedom of action.

For a trade union this is funda-

We see that The Times' estimate of the two events is sadly lacking in veracity. The garment workers, even tho led by the left wing to "an admittedly disastrous defeat," did considerably better than the trainmen and conducors in spite of the privileges granted these key workers by an anxious imperialist system.

BUT The Times is, ilke the official trade union leadership, concerned with "peace in industry" and "partnership in industry." Cassius-like, it pretends friendship only to stab. As we have seen, The Times professes to be worried greatly by the dissension in the union, but its greatest grief is reserved for the passing of the submission of the New York Joint Board to the governor's commission. It says:

The principle of arbitration, and beyond that, of CO-OPERATION FOR THE PROMOTION OF PEACE AND THE WELFARE OF THE IN-DUSTRY, SEEMED TO BE WELL ESTABLISHED. . . . A noteworthy advance had been made TOWARD THAT PARTNERSHIP IN INDUS-TRY WHICH UNDERLIES THE SANEST THOUGHT among both employers and workers.

WE can be certain that The Times will agree that the "sanest thought" in this direction among employers is voiced equally well by President Green.

The Times is for "partnership in inlustry."

So is the American Federationist. Both publications, one typically captalist, the other typical of the official trade union press, denounce the Communists and the left wing because they warn the workers of the danger of the policy expressed in this phrase to confuse issues by an analogy which and organize them for a policy of struggle.

country, especially the European, of the net that is being laid to trap the foreign workers into American industries as strikebreakers and to lower the American living standard, whenever the bosses decide that the time for lowering wages is ripe.

The powerful influence of the labor press in Europe must be mobilized for this purpose, our revolutionary comrades in the foreign parliaments must use every opportunity to raise their voices in condemnation and protest, warning against these sinister designs and conspiracies of the American industrial magnates. This question is by no means only

an American issue, it is an issue which concerns the whole world's proletariat.

Bloom Threatens to Force Ford to Prove Charges Against Jews

WASHINGTON, Dec. 21 .- If Henry Ford does not appear voluntarily to substantiate his charges that "the Jews control government finance, the federal reserve system, as well as international banking," Rep. Sol Bloom, New York, will force him to come before the senate, Bloom threatens. The New York congressman introduced a Ford's charges against the Jew, which formed of the character of their com- portunity of reading the statement every Council for the Protection of be investigated.

So the time passed pleasantly. Until at last Vee had got to feel perfectly at home in her Appie's conception of royalty; she no longer had to ask questions, nor to stop and think, but knew instantly what to do-and forever after, in all her entrances to and exits from Holly wood society she would be a little of a Harvard instructor's Princess of Patchouli. She was impatient now, wanting to see the sets, and to hear Tommy Paley call, "Camera!" Bunny also was loaded up with answers to all possible exam questions, and ready to get back and unload them on his professors. Dad had run down to Toronto, and signed the last of the papers for his Canadian corporations; he had telegrams from Verne almost every day-the strikers, having held out for nearly four months, had learned their lesson, and the Federal Oil Board had written them a letter, advising them to go back to work as individuals. and promising there would be no discrimination against union men.

Then one day the steamer brought a telegram signed Annabelle, addressed to Bunny, and reading, "Spring lamb for dinner, come on home." He explained what that meant, the strike was over; and so the occupants of the camp packed up, and Mr. Appleton Laurence went back to his fair Harvard, with woe in his heart and a packet of immortal sonnets in his suitcase, while Vee and Dad and Bunny and the secretary made themselves luxurious in compartments on a Canadian-Pacific train bound west.

> CHAPTER XVI. The Killing.

Bunny passed his examination. and was duly established as "grave old senior" in Southern Pacific University. And then he hunted up his friends-and such a load of troubles as fell onto his shoulders! Literally everybody had troubles! Rachel and Jacob Menzies had come back from their summer's fruit picking, to find their two younger brothers, the "left wingers," in the county jail. The police had raided a Communist meeting and arrested all the speakers, and the organizers, and the literature sellers, and all who had red badges in their buttonholes. They had raided the Communist headquarters -determined, so the newspapers announced, to root every Moscow agent out of the city. They had sorted the prisoners, and fined a few, and were holding the rest, including the Menzies boys, under that convenient universal charge, "suspicion of criminal syndicalism." These foolish boys had made their

own trouble, said Rachel; but still it was an outrage to arrest people for their beliefs; and it menting to think of your own flesh and blood shut up in those horrible cages. Bunny asked the bail-it was two thousand dollars per brother. He began explaining his troubles with his father, and his own impotence; and Rachel said of course, she understood, they couldn't expect him to bail out the whole radical movement. And yet that did not entirely restore his peace of mind.

Then Harry Seager, whose busi ness college was on the rocks. The boycott had wrecked it, and Harry was trying to sell the debris. He was going to buy him a walnut ranch; it would be harder to boycott walnuts, you couldn't tell the "red" ones from the "white"! And then Dan Irving, whose labor

college was in almost as bad a way The orgy of arrests had frightened the old line labor leaders completely off. The college was still going, but it was in debt, and the head of it hadn't had any salary for several months. Bunny wrote a check for two hundred dollars, and went away debating the question that never would be settled-to what extent had he a right to plunder his father for the benefit of his father's ene mies?

From Irving he learned that Pan had got out of jail, and was in Angel City, together with Ruth. It was a dirty deal the oil workers had got, said Don; the operators had made one last use of the oil board, to trick the men into a complete surrender. They had promised the oil board there would be no discrimination against union men, but they had never had the least intention of keeping this promise. They had kept all the strikebreakers at work, and taken back just enough of the strikers to make up their needs. All the active union fellows were begging jobs, and the oil industry was a slave-yard of the "open shop."
