## OUR DAILY IN NEW YORK

By C. E. RUTHENBERG General Secretary, Workers (Communist) Party.

FOR three years we have been fighting to give to the American workers a daily newspaper which will give voice to their struggles against their capitalist exploiters. We have fought to maintain a daily newspaper which would not only lead these struggles, but would give them a program which would lead to the revolutionization of the American working class and prepare them for the struggle for power against the capitalist government and the abolition of the capitalist system.

We maintained this paper through the support and sacrifice of the conscious workers—the Communists and their sympathizers. In spite of all the great difficulties which a working class paper must face, we have thus far been victorious in this struggle through this loyal support.

Now The DAILY WORKER has come to New York to take advantage of the broader base which exists here and to create a better and stronger paper with the new editorial forces which are available here.

The immediate task before us now is to rally all the forces possible behind The DAILY WORKER, to build a secure base by securing tens of thousands of new readers and thus making our paper really the leader of the militant struggle of the workers against their exploiters. Build a more powerful organ of the workers struggle.

Build a stronger leader of the movement for revolutionization of the American workers.

Strengthen the workers' fight by strengthening The DAILY WORKER.

# Maneuver of Union Smashers Meets With Big Failure

Crowding seventeen halls to their limit, more than 24,000 workers joined in a huge mass demonstration against the disruption of unions by the A. F. of L. policy of expulsion in meetings called by the Joint Boards of the Cloak and Dressmakers' Unions and of the Furriers' Unions on Thursday.

The meetings were in the nature of a counter-demonstration against meetings called by the International, at which attendance was forced upon some thousands of workers, principally from the Amalgamated Clothing Workers. In spite of threats and browbeating, hundreds of workers left the Armories where the Right Wing meetings were held during the speeches of Sigman, Beckerman, and Hugh Frayne.

An unprecedented crowd answered the call of the two Joint Boards to the protest counter-demonstration. Although six halls had been engaged with four annexes in reserve, it became necessary to open up more halls for workers who were unable to gain admission, until finally meetings were going on simultaneously in seventeen downtown halls. Thousands of workers were unable to get into any hall, and had to be turned away.

"Then," asked the reporter, "you regard these defendants guilty?" "Yes," answered the judge.

"Isn't it assumed in law," asked the reporter, "that a defendant is innocent until he is proved guilty?" "That is the assumption," admitted Rosalsky. But he said his actions were explained by the fact that four of the defendants had entered a plea of guilty to a minor charge of third degree assault.

Six of the prisoners, however, have not taken the compromise plea and are maintaining their complete innocence. And these six are included in the list of ten that Rosalsky brands as guilty before trial, and whose bail he has raised to the unprecedented height of \$25,000 each for assault. The six include Joseph Goreazskay and Elias Marks, chairman and secretary, respectively, of the general picket committee during the recent cloakmakers' strike.

### Japanese Workers Extend Greetings

The DAILY WORKER has been the only daily in English that has recorded conscientiously the world significant, history-making struggle of the oppressed against its exploiting imperialist classes.

The struggle against the exploitation of the expropriators-no one can engage in a nobler struggle than this; and The DAILY WORKER ever since its birth three years ago, has faithfully participated in it. Every leaf of The DAILY WORKER is a priceless page wrought into the History of World Emancipation. No historians of the future can do without a file of The DAILY WORKER.

Today, The DAILY WORKER is the only daily in English that carries an unbiased account of the Nicaraguan, Mexican, Philippine. Chinese and other struggles throughout the world. It is this newspaper that gives a dialectically whole picture of seemingly disconnected events of the world. Without The DAILY WORK-ER, we are blind, and our movement becomes stagnant.

The comrades and workers of Japan extend their hands to greet the advancement of The DAILY WORKER into the world's greatest center of exploitation-New Yc-k City. Long live The DAILY WORK-ER!-San-ichiro Sasaki, for the Com rades and Workers of Japan.

# Build the Daily Worker As Mightier Weapon of American Working Class

The DAILY WORKER has arrived in New York City. With this "Special Edition" prepared for the Madison Square Garden "Welcome" on the occasion of the Lenin Memorial Demonstration, the only English-language Communist Daily in the world establishes itself in the home city of the imperialist oppressors.

It was just five years ago, in January, 1922, that The DAILY WORKER had its beginnings right here in New York City when the Workers [Communist] Party began the publication of the Weekly

Worker as its official expression. The great steel strike of the postwar period had taken place, but the struggles of the coal miners and the great shopmen's strike were yet to rage as labor's effort to combat the "deflation" drives of the open shoppers against the workers.

The United States government then, as now, claiming that every protest on the part of labor contending for the bettering of the conditions of the workers, was Moscow-inspired, directed what it thought was a crushing blow at Communism in this country, when it attacked the Communist Party's convention at Bridgeman, Michigan, and arrested and indicted its most prominent spokesman. Attorney General Harry M. Daugherty, of President Harding's "Ohio gang." heading capitalism's "department of justice" at Washington, proclaimed not only that Communism had been rooted out and destroyed in the United States. but that militancy had been ejected from the trade unions. The mouthpiece of the capitalist state thus boasted of the aid it claimed had been given the servile labor bureaucracy.

It was in this period that the headquarters of the Workers [Communist] Party were removed from New York City to Chicago. William Z. Foster had been placed on trial in Michigan. The jury disagreed, and the indictment is still in force. C. E. Ruthenberg also faced the capitalist courts. He was convicted. But this attack merely spurred the Communist movement and the left wing to greater efforts. The drive was launched for The DAILY WORKER. It met with a determined response that made possible the first issue of Communist Daily" three years ago this month, in January,

That was the answer of the Communists and the left wing in the American labor movement, not only to the dollar tyranny at Washington and the international financiers in Wall Street, grown more arrogant than ever because of new positions of advantage won as a result of the world war. but it was also a note of defiance against the expulsion policy first launched at that time under the regime of the late Samuel Gompers, but later continued by the Green administration in the American Federation of Labor.

Every issue of The DAILY WORKER, during the last three years, has fought the fight for a strong and militant labor movement. The challenge of the opposition in the coal miners' union is heard clearer than ever. It presents its program with a more determined spirit this coming week at the miners' convention in Indianapolis. To be sure the maddened

### IN THE CENTER OF WORLD CAPITALISM

By BERTRAM D. WOLFE.

Today The DAILY WORKER moves into the center of world capitalism. It comes to New York at a moment when the workers of the city are engaged in a struggle for the maintaining of the unions as fighting organizations; at a moment when Wall Street is using the armed forces of the American government to invade Nicaragua and Coolidge is threatening Mexico with war and sending a new fleet of battleships to China.

It stands alone as the only daily in the United States published in the English language which is fighting for the strengthening of the trade unions, for their amalgamation into industrial unions, for the organization of the unorganized workers, for the building of labor's political movement, for the unorganized workers, for the building of labor's political movement, for the giving of a consciousness, a backbone and a fighting spirit to the badly organized and politically undeveloped working class of our country. And to the oppressed peoples of the rest of the world ground down by "Uncle Shylock," it represents the only sure champion they have within the United States. Its tasks are big, its circulation and its editorial policy must correspond with its tasks. It has entered Wall Street's own city, the better to strike a blow at the heart of American capitalism. More power to its albow. May the blow he a thrust home. elbow. May the blow be a thrust home.

# **WORKER CONFERENCE** TO MEET JANUARY THIRTY-FIRST

The next meeting of the Daily Worker Conference will take place Monday evening, January 31st, at 8 o'clock, at Manhattan Lyceum. The response to the invitation to trade unions and other workingclass organizations to send delegates to a Conference to establish an English workingclass Daily here in New York has been good enough to justify making it a permanent institution. About fifty trade unions are already represented, and The voice of the workers had many others having signified their intention of electing delegates at their spoken, giving to the left wing a next meeting. If your organization has not yet done so you should see to it

The meeting on January 21st will be strictly a business affair.

By J. LOUIS ENGDAHL.

Lewis autocracy in the union is better organized, more carefully prepared, more vicious in its redbaiting than ever.

But that does not mean that the power of Lewis is greater. It merely indicates the strength of the entrenched reaction in its last ditch fight, that must be routed by the "Save the Union!" forces if trade unionism is to live in the mining industry as a force fighting for the interests of the coal dig-

"Amalgamation" again stirs the railroad workers, who realize the cause of their last bitter defeat. "Organization!" awakens the million auto workers, even as it must again rouse the steel workers, the rubber workers and labor in other great unorganized industries.

The Daily can claim an honorable share in the Passaic victorythe first successful attempt in recent years to organize a mass of unorganized workers.

But it is right here in New York City, at this present moment, that the reaction organizes and directs its most vicious blows against the upward surge of the broad masses of the workers. Years ofstudied attack on the part of the reaction finds the left wing in the needle trades more determined than ever to fight for those policies that must prevail if the trade unions are to live as effective organs of

labor in the working class struggle. It is not a far cry from Daugherty's attack on the Communist Convention in Michigan and Judge Wilkerson's injunction decree against the railroad shopmen, now more than three years ago, to the present day attack of the Morris Sigmans, the Morris Kaufmans and the Matthew Wolls, against the thinking sections of the International Ladies' Garment Workers' Union the Furriers' Union and the other organizations of labor in the needle industry in this city.

The Green-Woll combination announces as its ambition, the "preservation of the unions" and the safeguarding of the American government. This is an impossible stand. The labor officialdom that worries for the safety of the capitalist government, the instrument of the master class, thus indicates its bitter hostility to the progress and the rise to power of the workers as a class.

There is no power in the gift of capitalism that can turn back the march toward all power of the world's wage workers-the oppressed class of today. Intensified exploitation of labor at home. growing aggression of the dominant American imperialism abroad, as indicated in Nicaragua, Mexico and China, speeds that march toward power.

The DAILY WORKER establishes itself in New York City. where it is felt that it can better serve the American working class as a guide and standard-bearer. As the voice of Communism it strives to become the mass expression of the broadest possible sections of American labor. Every energy bends in that direction-To Build The DAILY WORKER to become the Mass Organ of those who must inevitably join the struggle for the abolition of capitalism and the building of the new social order that became flesh and blood when the mighty millions of workers and peasants thruout the former domains of the Russian czardom established the Union of Soviet Republics.

Here in New York City The DAILY WORKER calls to the workers of the nation to rally in its support, knowing that every strength gained by labor's "Daily" is new power won for the whole working class

# MOVE TO RECALL MINERS OFFICERS WHO CHOP BALLOT

at a series of

### Dist. 2 Reactionaries Took Opponents Off

CRESSON. Pa., Jan. 22. Recall petitions against Lewis administration officers in District 2, United Mine Workers, are being circulated by the progressives in the central Pennsylvania coal fields. The progressives charge Vice President Mark, Secretary-Treasurer Richard Gilbert, and six board members and an organizer with illegally barring rival candidates from the ballot in the district elections of last December.

By keeping the progressives of: the ballot these two district officers and the six board members and organizer were elected without real opposition.

### Won by Trickery

James Mark, running for district president, to succeed John Brophy who had withdrawn to take part in the national campaign, had no contest at all. His opponent, Pat Mc- RIGHT WING MEETINGS Dermott, was sweeping the district till he was removed on a minor technicality. McDermott, a labor party assemblyman and a working union miner was a highly popular figure and a staunch supporter of John Brophy.

### Log Rolling Politics

All the progressives were illegally harred, the petition states. McDermott was thrown out on the pretext that he was working in a mine over which his local union did not have jurisdiction. The facts are that Me-Dermott had taken a job in another union pit when his mine closed last summer but kept his card in the first local with the consent of the district efficers in order to combat a wage reduction move in that local.

Mark made a deal with the six board members in the McDermot' ease. For their votes ruling McDermott off Mark supported them in their own disputes. Their local onposition was taken care of in the same way.

### Overlook Machine Errors

For instance in the Broad Top territory south of Huntingdon and Alfour progressives. Edward Lynch, W. L. Abbott, Robert Hastings and David Grace, candidates for board member and organized were barred on the pretext that notices at some of the local unions nominating them had not been posted a week before the nominations and that one man who voted had not paid his assessment. Aside from the fact that the constitution does not make this sufficient grounds for disqualifying a candidate there is the fact that the same technicalities existed against Arthur Taylor and Ciarence Donaldson, the administration officers.

### Lie About Isben

working miner, and Brookwood Laballot for board member on the untrue accusation that he had not been in continuous standing for three years. In Territory 9 in Tioga County, August Anderson was likewise barred on the false charge that he was three months behind in his assessment. And similar false tech nicalities were used to keep men off the ballot in three more territories. Charges to Locals

The recall petitions ask the rank and file to eject Mark Gilbert, Tay lor, Donaldson, Levi McConnaughty, William Ackley, Tony Badiali, Syanley Hudzinski and Peter Ferrara. The district constitution says that the signed request of ten percent of the membership shall force the district secretary-treasurer to send a petition to each local union, with accompanying charges, for the recall of any district officer, board member or organizer specified. If within 30 days after the petition is sent out 30 percent of the entire membership send a request to the secretarytreasurer the district executive board shall call an election for the recall of the officers in question.

Progressives are confident of getting the necessary signatures quickly. Great indignation followed the barring of the many popular district candidates. The original recall petition was signed by Jerry Ford. Peter Mallon, Levi Troxell, Powers Hapgood, Mames McGonigle and S. S. Gutwald.

CRESSON, Pa,-Powers Hapgood is a delegate to the United Mine Workers convention in Indianapolis from the Cresson local union. The district executive board-a majority of which is controlled by Lewis-is attempting to have him expelled from membership. By a vote of 9 to 3 the board reversed the action of the Gallitzi local union which unanimously rejected the expulsion charges brought against Hapgood recently by International Organizer Ely. Hapgood has since taken a job in a Cresson mine and transferred his card.

Reactionaries Fail

Fittingly selecting for that purpose two armories of the New York National Guard, a body of armed men always relied upon to protect employers' interests in a struggle with labor. the reactionaries in the needle trades unions attempted Thursday afternoon to stage a demonstration against the progressives in the New York locals. The demenstration was officially styled. "against the Communists".

There would have been nothing to talk about at all if the international efficials had not provided for a stoppage of work at four o'clock in the afternoon, and if the Amalagamated Clothing Workers' officials, especially, had not arranged for pressure to te brought on their members to force executive board of the council. them to come to the meetings.

This vigilance of sters, was called in the New York newspapers, "breaking up an attempt by the Communists to raid the meetlings".

The chief speakers at the Seventyfirst hall were Hugh Frayne, viceresident of the New York Federaion of Labor, and Morris Sigman, president of the International Ladies Garment Workers. By the time Sigman rose to make his denunciation of the Communists, his audience was over half gone.

### Paterson Police Trailing One Karl Liebknecht!

PATERSON, N. J .- The "Intelligence" Department of the Paterson Police Department has a warrant out for the arrest of Karl Liebknecht! There are many workers who attended the Liebknecht Memorial meeting here who are convinced of this. Why otherwise, they say, should the law-maintaining gentlemen come snooping around "looking for that fellow Liebknecht!"

When the Liebknecht Memorial meeting was held, under the auspices of the Y. W. L. in Paterson, two dicks came in. They had with them Nicaragua-Liebknecht handbill, one of many distributed around the fac-

Port Bureau at 26 South St., New York, in the part of town where seamen congregate.

The Seamen's Port Bureau will be a club home for marine workers of all nations. There will be reading and writing facilities, a meeting center, a shipping office for employed, a place to store securely seamen's belongings and generally as much as possible to facilitate their convenience and welfare. The spreading among the seamen of knowledge to enlighten them as to the economic conditions and need of organization will also be one of its purposes.

The traitors must be defeated! Sigman's attack on the union is a chapter of treachery and betrayal; it is a black page in the history of the American labor movement.

Sigman is out to smash the O1ganization if he cannot control it.

At the outset Sigman figured everywhere as the head of the strike committee. The "Daily Forward"-Sigman's mouthpiece has done everything to stress Sigman's strike leadership.

Sigman was one of the speakers at the mass meeting at Madison Square Garden on June 29th, where 25,000 cloakmakers gave their authorization to the Joint Board to call the strike. At present. Sigman endeavors to cover his pogrom plans by the flimsy excuse that the strike was called without the membership being consulted.

On the 22nd of August Sigman stated as follows:

"Bosses shout Communism in order to befog the issue of the strike."

At present, Sigman is doing the very same thing that the bosses did then. He is dragging in the issue of Communism in order to confuse the minds of the members, and to impose his unwanted and despised leadership upon the Union.

The Cloak and Dressmakers are determined to rid the union of the underworld, sellow traitors, sluggers and gangsters. The fight requires money. \$250,000 MUST BE RAISED IMMEDIATELY. The above named organizations have already manifested their confidence in the outcome of the struggle and have subscribed to a considerable part of the loan. The full amount must be raised immediately. EVERY WORKER AND EVERY ORGANIZATION SHOULD SUBSCRIBE TO A BOND. The bonds are of the following denominations: \$25.00, \$50.00, \$100.00, and \$500.00.

### EVERY BOND IS ANOTHER BLOW TO THE TRAITORS.

Help make this fight a complete knock out to the enemies of the Labor Movement -the Sigmans, Beckermans, Ninfos, Dubinkys and the like.

Let the slogan be: "The Complete Amount of \$250,000 within the next two weeks."

Age-long oppression has stifled her oul. Nature made her the bearer of life; society has made her the bearer of burdens. The "slave of a slave," she has been shut in by the four walls of the home, among the pots and pans, the cooking and cleaning, the worry to make ends meet. Her husband comes home and vents on her the rage which the oppression of the boss stores up in his own soul. He chafes at the burden of the wife and children whom he must support. Often he breaks loose and deserts them, leaving the poor mother to struggle alone to bring up the little ones.

- That the League of Nations put up a statue of Chicherin in its main corridor.

That the Mexican Senate extend honorary membership to William Randolph Hearst. - -

That the Nobel peace prize for 1927 be reserved for Admiral Latimer. commander of the Yankee marines in Nicaragua. .

But as a social phenomenon the increasing large-scale operations of pretty 16-year-olds should not be overlooked. The thing ties up somewhere with what used to be the women's rights movement, though I don't know precisely where. The law still functions on the obsolete assumption that woman is a clinging economically dependent creature. Despite all the factories and offices filled with women, all the English Channels swum by women, she remains in the eyes of the law a weak sheltered creature. Her legal inferiority gives her an advantage in court. I should think that women would resent this advantage and join with the men in an equalrights-for-men movement. There are plenty of stirring slogans: Down with breach-of-promises! Down with eparate maintenance!
