Judge Rosalsky Is Merciless In Strike Cases

What are characterized as the most severe sentences ever given striking workers in the history of the American labor movement were pron yesterday afternoon by Judge Otto A. Offers to Surrender Its Chinese Concessions

LONDON, Jan. 28. — Charge d'Affaires O'Malley is reported to have made new proposals to the Cantonese government involving the surrender of the British concessions throughout China, including extra-territoriality and plans for new treaties supplanting the present unequal ones. Those who are justifiably suspicious of British diplomacy see in this move either a surrender to the inevitable or a trick to throw the Cantonese off their guard while the British forces were rushing to Shanghai. Reports state that the Cantonese will be in Shanghai before the British forces get there.

Bonafide Delegates Wild About Plan for Salary Grab: Dilution of Constitution; Barring of Howat

(Special to The Daily Worker)

INDIANAPOLIS, Ind., Jan. 28.—The convention here of the United Mine Workers of America, was again convulsed with a roar of protest from the bona fide delegates when International President John L. Expenses include the regular daily item of fare from Springfield, Ill., where Lewis nominally lives, to-Indianapolis, in which his offices are located.

Just as unpopular was the proposition to raise the annual salaries of vice president and secretary treasurer from \$7,000 to \$9,000. Both salary grabs were recommended by the constitutional committee, appointed by Lewis when the convention opened. They will not be ageed to without a struggle.

Rosalsky's Savage Sentences

Resultar's Savage Sentences

Nineteen cloakmakers were yesterday sentenced to long terms of imprisonment by Judige Rosalsky for pickring scab shops last summer during the course of a strike between members of the L. G. W. U. and the employers.

In imposing sentence on the defendants Judge Rosalsky made a record for himself that will not fail to endear him to the employing class and earn for him a reward from the manufacturers when the workingclass whom he is persecuting bring an end to his judicial career on some future election day.

From two and-shalf to five years in Sing Sing to three year probation terms were the two extremes of punishment inflicted on those workers for performing their union duty. The sentences are the most severe in the history of the organization.

When these aswage sentences were handed out by this judicial flunkey of the clothing bosses the families and friends of the sentences workers made a demonstration. Sigman-treen combination when entered into an animance with the blackest capitalist reaction in an effort to smash the closed ranks of the workers in their struggle for bettle? conditions for themselves and a better standard of living for their dependents. The conduct of the ibblical Judas who took the thirty pieces of silver for giving up his leader into the hands of the Roman taskwer for giving up has leader into the hands of the koman task-saters was decency itself compared to the role played by Sig-an and his blackhearted squad of sluggers. Judas at least had conscience that could be touched. He could not bear the sting his treachery so he went and hanged himself. Green, Sigman and the yellow socialist tribe that are chiefly

Lewis' First Defeat

The Lewis machine on Wednesday sustained its first defeat Lewis had to save his proposal to wreck the constitution in the matter of assessment control by faking the count and refusing a roll call. Even the New York Times correspondent's version of the event proves that the count was faked. This victory of the progressives in ralling a majority of the delegates for maintaining democratic forms in the union constitution is all the progressives in ranging a maintaining democratic forms in the union constitution is all the more important because it was achieved in a convention packed by Lewis with paper delegations and payroll votes. It shows that the progressive elements are putting up a militant battle at the convention and winning adherents as the fight continues. Back of the vote of the majority of the delegates Wednesday was the support of over 95 per cent of the rank and file. When people think they have the miners licked is when they really begin to fight.

McAdoo and Corruption.

William Gibbs McAdoo, former Doheny retainer who got badly

William Gibbs McAdoo, former Doheny retainer who got badly smattered with Elk Hills Bash and Teapot Dome oil, is now in a bid for the presidency on a platform of political purity.

The late Woodrow Wilson's Crown Prince declares that in flaunting the prohibition laws the United States is treading a peap to anarchy. This sweet breeze blowing thru the stinking political alleyways of polkics charges corrupt municipalities with politing to control national politics. No more idiotic outburst ever came from the mouth of a mountebank. What are politicans in business for, McAdoo included, except to control municipal, state and national politics in the interests of the capitalists on something better than a paltry commission basis?

on something better than a paltry commission basis? We suppose Mr. McAdoo is convinced that the masses have forgotten the story of his efforts to bribe or bludgeon the Mexican government line turning over its oil fields to Edward L.
