Vol. IV. No. 105.

By T. J. O'FLAHERTY.

THERE are strong indications that Scotland Yard has presented the tory government with a nifty dilemma as a result of its spectacular raid on the headquarters of the Russian Trade Delegation. The London dispatches hint that Sir William Joynson-Hicks, Home Secretary, did not find the "documents" he promised the public, tho why Mr. Hicks should fail to produce the goods is not clear, since his forging apparatus inherited from war days and supplemented by experts from the exiled Czarists should be able to perform any task assigned to it.

WHETHER it is true that the Foreign Office was in the dark about the raid until after it broke into the press is a matter for skepticism. In all probability Sir Austen Chamberlain was in on the conspiracv. It is no new dodge in government circles to give the public the impression that there are divided councils in the cabinet so that in case of a mishap a section of the crew of the sinking balloon can be dropped to lighten ballast.

IT looks now as if the raid were a colossal blunder. In view of the general lack of confidence in the character of the Churchill-Hicks-Birkenhead wing of the tory cabinet Mr. Hicks will have to be very careful of United States there are people who Union and Great Britain. are afflicted with "redphobia," whose only cavail is that they don't get their plots often enough and gory enough. But there are hard headed business men in England whose fingers are ready to clutch nervously at the big, juicy contracts that the Soviet trade monopoly is dangling before their eyes.

IF the Arcos raid fizzles out as the news dispatches indicate not only will it mean the end of a few political careers but in all probability the defeat of the tories in a general election which is almost certain to dollow an anti-Russian flop. With the workers waiting for an opportunity to avenge the government for its be returned to power.

"Adjutant-General" Captain George L. Darte of the Military Order of the World War is still sleuthing.

He was the chief witness for the prosecution when The DAILY WORKER editors and business manager were brought to court under arrest for printing David Gordon's poem "America." He will no doubt be the state's greatest aid in framing the case against the paper, and also against Gordon who is to appear for a hearing this morning on the charge of producing an "obscene" and "unpatriotic" poem.

Darte is evidently still watching The DAILY WORKER as closely as ever for any technical violations of any sort; the more law suits he can fix up the greater his prestige as "Executive Officer" of his Military Order, and no doubt the greater the Order's weekly-or monthly-pecuniary expression of approval of

Under the executive order governng these summer half-holidays, the head of any department may require the civil servants under his charge to remain at work. In the Postoffice Department, only about 10 per cent of the clerks and letter carriers actually get the time off; the postmasters assert that there is not sufficient force to perform the regular work if many are permitted to leave early on Saturday. The union officers argue that the number permitted to go away could be greatly increased by right arrangement of schedules.

Now the real fun begins. On Friday, the 13th of May, we were haled to the Court of Special Sessions to plead against the infamous frame-up which is being cooked up against us. We were remanded for trial on May 27th. Needless to say, neither Darte of the Military Order of the World War nor Seitz of the Keymen of America were called upon to plead.

But Darte and Seitz and the capitalist system for which they stand will never be brought to justice in a capitalist court. But the workers can and will try them before a court of proletarian justice, in which thousands of workers throughout the country, will act as the judges.

Get American Ships Out of Chinese Waters!

Screeching headlines in the reptile press declare that three vessels, flying American flags, two warships and one merchantman, were fired upon by soldiers of Chiang Kai-shek at Nanking. The yarn goes that the firing started from Nanking and was followed by volleys from Pukow, across the Yangtze river, adding that the warships "replied with machine gun and rifle fire until the Chinese were silenced.'

Two damning points stand out in this story. Firstly, it is a confession that again American warships have indulged in a massacre of Chinese. How many were murdered is not known, and it is questionable if the number will ever be known.

Secondly, the motive for this new "incident," is plain to any one who understands the elemental facts of the conflict raging in Omina. We can say without tear of successful contradiction that if the firing started from the shore it was at the behest of the SHAMELESS RECORD OF UNPRINCIPLED OUTRAGES British agents who are charged with carrying out the policy of the Baldwin-Chamberlain tory government. OFFICIAL CALL FOR THE CONVENTION OF WORKERS [COMMUNIST] PARTY, JULY 10

The Central Executive Committee of the Workers (Communist) Party, with approval of the Executive Committee of the Communist International, calls a convention of our Party to convene on Monday, July 10, 1927. Details concerning technical arrangements, basis of representation, etc., will shortly be transmitted to the units.

The convention, already overdue, has become especially urgent in view of the unprecedented offensive of American imperialism in Central and South America and China; in view of the growing danger of world war; and in view of the offensive against the trade unions begun thru the attack upon the vanguard of the labor movement as represented by the left wing and the Party.

The problems created by this situation must be properly analyzed by our Party and the entire membership mobilized successfully to meet the tasks that they impose.

The Polcom will prepare theses on the above questions and other tasks before the Party and submit them to the membership for discussion. The Party must not slacken its work during the discussion period but must rather use the discussion period to intensify its work in meeting the task before it and in mobilizing the entire Party.

He slid ahead of me and, stooping, the crew.

I was extremely surprised that nothing in my room had been touched; everything was in its accustomed place. This was a good sign. Taking my cigaretts, I returned to the mess-room. I wanted to see what was happening on the other ships, so, complaining of a headache, I asked the captain of the guard for permission to mount to the upper deck for a few moments to get some fresh air. I was given polite permission and one of the watch was told to accompany me.

We mounted by the officers' trap. As soon as my head appeared above deck, a gust of wind splashed my face with cold. On reaching the deck, I looked around; at the first glance everything appeared as usual, the squadron was in the same position as during the day, the ice had not been broken and continued to hold the waters of the harbor in its cold fetters. As last night, ragged clouds tore swiftly across the sky and between them, in the dark and distant heights, shivered the golden splashes of stars. There was only one change: on the naked masts of all the ships, large and small, heavy and swift, glowed crimson lights. These told all—the border of the new era, joy and hope for some, tears and despair for others. To be sure, in the distance one glimpsed a mighty fortress, dark and silent; evidently there had been no uprising as yet Perhaps its heavy artillery was trained on our squadron. But could it stop the unbridled onslaught of revolution?

I glanced at my towers; all were turned so that the muzzles of their guns faced shore, all the cannon were trained on the iron-bound embankments. On the bridge passed the dark forms of sailors, looking through glasses. The ship was preparing for battle. Evidently all the squadron was

This year will be famous in sport s the year of the great "comebacks" of the athletic G. A. R. Ty Cobb and Tris Speaker have proven that altho the aged flesh might be weak you can still sock the ball with spirit.

Meanwhile old Grover Alexander, a pre-civil war old-timer who still carries a pack o' chewin' in his hip pocket, contrary to the rules of the new type of college intelligentsia ball player, is pitching in a style that makes us believe the old soup bone that earns his salary will never wear

Meanwhile Tilden, who has been ennis champ since Hector was a pup together with Hunter, has beaten the German Davis cup team and has put the Holland team in dutch. Looks as if his form means a possible Davis cup championship. Youth must be served, but when old Tilden does the serving, youth is in a helluva fix.

Which brings us back to the noble art of cauliflowering ears. Jack Dempsey is reported socking 'em for a row of ash cans in his training camp. Sports writers are reporting enthusiastically that the severe training Dempsey has gone thru has put him into shape that promises trouble for the present champ and marine recruiting agent. Wherever the elixir of youth has been found is a mystery. It must be that the big financial profits of modern professional (socalled) sport has put new vigor into petrifying bones.

A Soldier With Sex Appear

When Miss Mildred Wineland, freshman at Wittenberg College, Springfield, O., isn't occupied with her debating activities as a member of the first year team, she finds time to act as sponsor for the Ohio National guardsmen. She is wearing her sponsor's uniform, above.

In these times when the clouds of war are on the horizon, our capitalist militarists are using every means at their disposal to raise the war hysteria among the population. Sex appeal to the young men of fighting age is one of the means as is shown by the illustration. A few weeks ago Soviet property was destroyed in Peking and only the other day the Arcos Ltd., a Soviet institution was raided in London. The next step will no doubt be the raiding of the Soviet Institutions in the United States. All this is being done in order to provoke the Soviet Republics. Their growing power is felt by the Imperialists and every attempt is being made to thwart it. The United States is not innocent of all these maneuvers as we are gono shood full steam making preparations for war. Suffice it to say the growing propaganda and the strength "Where the hell do ya get that of the Army, Navy, National Guard and the Citizens Military Training Camps.
