Borah Fooled.

Senator Borah, chairman of the Senate Committee on Foreign Relations, and sometimes an advocate of less imperialism and less bullying by the United States of the small Latin-American countries, announces that the final suppression of Nicaragua by the marines is all right, if a "real election" is held. In commenting on the Stimson action, he said:

"This entire settlement turns upon the question of the election. If there is assured to the people of Nicaragua a fair and free election, I would regard this settlement as probably the best that could be had under the cir-

Nicaraguan Bitter. When he heard of Stimson's ac-

tion, Dr. Vaca, representative of the constitutional government of Nicaragua, not recognized by Washington, but recognized by Mexico and various other countries, pointed out the absurdity of any fair or real election in a country policed by foreign troops, who have already actually taken the field to suppress one of the parties in the election. He said:

"The armed conflict in Nicaragua is about to be ended. By dictate of the president of the United States the liberal forces have been ordered to disarm, and at this moment the marines are moving toward the headquarters of the liberal armies.

"The end of the Nicaraguan epi-sode leaves in the hands the Central American nations a life or death problem they can no longer pretend to ignore. The buffer state of Nicaragua is like crepe hanging at the (Continued on Page Two)

Four separate investgations to determine the cause of the accident on persons lost their lives and forty others were injured, are under way following the publication yesterday of a report by Peter C. Spence, chief

of the Bureau of Fire Prevention. Faulty building materials, causing a structural collapse, were held responsible by Spence, who announced his findings after a two-day investigation. He said his conclusion was based on the fact that absolutely no evidence of fire, such as must inevitably have preceded or followed

an explosion, was found in the debris. "It was not a reinforced concrete building" Spence said. "All that braced the concrete were a few quarter-inch rods. The building fell in of its own weight. A new scandal, involving the previous city administration, is developing, unless the findings of the investigators are not made public, for the criticism of Spence was released following an attempt by rederick C. Keuhnie, chief inspector for the Department of Buildings, to exonerate the contractors who erected the structure and the Building Department agents who approved it, of suspicion of laxity or absolute dishonesty.

Keuhnie, after an incomplete in tigation, announced that the construction of the building was entirely according to regulation and that there was no evidence of violation of MASS DEFIANCE building laws. This statement was received with considerable scoffing and skepticism by opponents of the Tammany regime.

The connection between John P. Sinnott, secretary to former Mayor John F. Journalistic Ethics of Boston Post May Cost Paper Sum of \$400,000

BOSTON, May 8 .- The ethics, such as they are, of the capitalist press received a frightful blow here when the Atlantic Monthly filed suit for \$400,000 against the Boston Post for pirating the Governor Smith's statement that the pope won't rule America if Tammany's hero is elected president.

The Post, it is charged, bribed employes of the firm publishing the Atlantic Monthly in order to get a copy of Smith's statement, for publication before the Atlantic Monthly was off the press.

The Post claimed a big "scoop" in beating other newspapers by several days in letting the world know about Smith's defense against the anti-catholics. The Atlantic Monthly asks \$1 for each copy of the Post containing the

Injunctions were the sole topic of of the convention of the Cloth Cap, Hat & Millinery Workers International Union which has been meeting for the past eight days in Beethoven Hall, East 5th Street.

There was of course no opposition to the passage of a resolution condemning injunctions, but before the "ayes" were taken the whole problem of injunctions, which have been recently so widely used in labor disputes, was thoroly surveyed by a number of speakers.

Injunctions were pointed to as a growing menace which must be fought vigorously by all trade unionists. Not only is this so-called legal weapon being resorted to during big strikes, but it is being tried frequently in shop strikes where the employers hope it will not attract much attention, and may possibly slip thru and be made permanent.

Sydney Hillman, president of the Amalgamuted Clothing Workers' Union, who addressed the convention declared that injunctions were illegal and that the only way to meet them was by mass defiance. Men are to be picked for office as superintendents are picked by the boss in a factory.

Conceal Class Struggle.

The result is that the electors are intrigued into discussing all sorts of fake issues with which the citizens and workers have really very little concern. The most miserable piffle is trotted out to the voters as "issues." There is hidden the fact that the candidates belong to certain major political parties which have definite platforms and principles hostile to workers and friendly to employers. There is hidden the fact that the interests of the workers of one city are closely bound up with the interests of the rest of the workers throughout the state and nation. There is hidden the fact that the election campaign is only another form of the class struggle.

In the Passaic election the Communist Party has completely exposed this sham and fraud. In a municipal campaign they have raised national issues as well, such as hands of China, against the Watson Parker 10 .- The cessation of all forms of Bill menace, against the laws against Soviet Russia and the establishment Party. The cloak shop of Fishelberg Brothers, at 222 West 27th Street, was again the scene of an attack by right wing gangsters upon the left wing pickets. Turk Member of 35,

During the picket demonstration, several workers who had been scabbing at the Hogo Dress Company in this same building were persuaded not to go to work. This was the second day of mass demonstration at this building following the discharge, the reinstatement, and the re-discharge of Henry Turk. He had been singled out not only because he refused to register, but because he is a member of Sigman's own local and was active in opposing his gangsterism in Local 35.

During the demonstration at Fishelbergs, Edward F. McGrady, head of the A. F. of L. Reorganization Committee in the Furriers' Union, came by and was recognized by the

McGrady Booed.

"Squealer, squelear," cried the workers as soon as they saw him. And followed by these cries, and by the whole two thousand workers he hastily retreated from 27th Street. It is very hard for these reactionary right wing leaders to maintain their dignity when they come face to face with the workers who know what they really are.

Powers Prepare for New Assault Upon China.

The fact that the imperialist butchers in China have abandoned the idea of joint action in an effort to crush the nationalist liberation movement with the "Nanking incident" as an excuse does not mean that they have had a change of heart in the Orient. It only means that they will devise other means to strive to achieve the same end.

Great Britain, desperately striving to hold together its one mightiest empire, was in favor of using force to the limit. So well organized was the British machinery in China that all the other interested powers, including the United States, were playing the game of pulling British chestnuts out of the fire. The fourthrate corporation flunkey, Mr. Kellogg, at the head of the American state department, joined Britain and the other powers in the first note to the Canton government, solely on the basis of misinformation furnished by the American minister to China, Mac-Murray. Immediately after the dispatch of the joint note the American imperialists called a halt on such blundering diplomacy. The administration then turned against MacMurray and refused pointblank to participate in a further joint note to China.

This refusal on the part of the United States, the imperialist giant of the world and the banker of the world, could have but one result, the collapse of the British proposal for further joint action. Japan, in spite of the fact that its new cabinet under Tanaka came into power because of its avowed determination to take an aggressive stand on the question of China, abandoned the idea of further joint action (at least openly) and practically reverted to the policy of the cabinet it had turned out of office. This action was followed by disavowals on the part of Italy. Then Britain, herself, and finally France announced a change of policy to conform with the attitude of the United States.

Apologizers for the Coolidge administration are now lauding berg the Workers (Communist) Par-dence in the case has convinced labor to the skies the triumph of American diplomacy. Two Day Strike of Hodcarriers Gives Them \$2 Wage Raise

(By A Worker Correspondent.) A strike, lasting less than two days. was won by the local building laborers union (hodcarriers) increasing their wages from \$8 to \$9 a day and gaining the five day week.

The strike was short, sharp and sweet. Beginning last Tuesday morning all the bosses were signed and men working Thursday morning. It was one of the "folded arms" strikes. No picketing or demonstration of any kind were held.

This would have been impossible if scabs were imported or there was an oversupply of local labor.

The strike created considerable interest in labor circles and similar strikes are expected in surrounding towns. About 100 workers are the gainers.

Fight the American Black Hundreds

In Czarist Russia, ruffians and underworld characters were enlisted in a reign of terror against the populace. Ruthless suppression and terrorism were carried on in the name of loyalty to the Czar, Christianity and the peoples' rights. In America, we have our own Black Hundreds parading under such high-sounding titles as the "Keymen of America" and the "Military Order of World War Veterans." While these elements are not yet in a position to carry out the excesses of Czarism, they have begun their campaign of suppression, with the attack upon The DAILY WORKER.

Any success in this attempt will encourage these dark forces to further efforts. If they succeed in crushing labor's most militant voice, their path is clear for further attacks upon the labor movement.

We must fight the efforts of the American Black Hundreds. We must recognize the true character of these enemies of society in spite of the mask of respectability under which they hide themselves. We must defend The DAILY WORKER from their attack.

Our duty is simple and clear. Against the powerful resources which the bosses are able to mobilize in their attack upon The DAILY WORKER, we must mobilize the full strength of the most militant and class con-

scious workers, who realize the significance of the present attack. The defense of the paper requires funds for lawyers and other legal fees. We ask that such funds be collected immediately by all friends of The DAILY WORKER and rushed in to our office with all possible speed.

THE SIGNIFICANCE OF THE PASSAIC **ELECTION CAMPAIGN**

By EMIL GARDOS.

The present election campaign in Passaic is the logcal continuation of the great school the textile workers went through during the more than a year long strike. The brutal use of the state power against the strikers, who went out to fight for purely economic demands gave a good political education, laying the basis for this campaign, in which our party, for the first time in its history is a real factor, a real mass-party in the Leninist sense of the word.

The formation of a powerful labor ticket was unfortunately prevented by the treacherous attitude of the local trade-union leaders, who, following the old slogan of "rewarding your friends and punishing your enemies," hurried to the endorsement of the opposition candidates, the manufacturer Cabell and the detective-captain Turner, both republicans of course. We therefore decided to have a Communist campaign, bringing forward our full program, including the fight for a Labor Party, under the banner of our party.

Expose Election Fake.

The campaign for the election of five city commissioners is conducted on a non-partisan basis, one of the many fakes of the present democratic system. The candidates are running on the basis of the individual fitness to administer the business of the city, hiding their party affiliations as much as possible. The nailing down of this lie, the linking up of the other candidates with the parties of Coolidge and Wall Street and the bringing forward of the Workers (Communist) Party by endorsement was one of our main tasks.

Great Enthusiasm.

The campaign became especially significant, when Albert Weisbord, the strike leader, was put up to be with S. E. Bambach, a textile worker and Simon Smelkinson, a garment worker, the standard bearer of the party at the election. The most beloved man of the workers and cursed by the bosses came back after an absence of more than six months to represent the party in this second phase of the struggle. What will be the effect of his coming back?-many of us asked. The strike is over. the workers gained their partial victory, the union recognition, through many sacrifices, the unemployment is big and so is the misery. How will the workers react, what is their answer going to be to the man who led them into the struggle? The wonderful reception given to the strike leader at his first meeting held April 13 gave a clear answer. A meeting called in two days, not advertised by leaflets with about 4000 workers packing two halls to the overflow, giving a tremendous demonstration to the man and to the party he stands for, was enough to show, that the workers do not forget. Yes, the workers don't forget the struggles they went through, the leadership they had and are ready to rally around the same leadership in spite of temporary setback, in spite of rumors, accusations, which may affect the weaker section of the working class, but not the class as a whole. The workers did not forget that the leadership did not come from an individual, but it came from the leader of class struggle: the Communist Party. This fact was stated very little before, but they knew it just the same. Those who were present at the meetings, who heard the applause whenever our party was mentioned, will certainly agree with what one of the millowners said about the strike: "It is a school for Com-

Just a few instances: Weisbord spoke at the Rubacky Mamadshan and it was naturally that rally for less than 10 minutes. Over two thousand people, mostly Polish workers gave him such an ovation, that he was interrupted several times by their applause. Preiskel, who is endorsed by the club, was booed by the audience. When Weisbord got through, the majority of the audience left with him. The Saxe rally, held at the aristocratic Passaic Park section, showed that even the petty-bourgeoisie is receptive to our principles. Without minding the hecklers, not using the favorite method of personal slandering of the other candidates, Weisbord gave a constructive Communist talk on the problems of the city, the unemployment, the need of a Labor government, and the crowd left deeply impressed not only by the fearlessness and sincerity of the candidate, but also by the solution he had to offer to the present situation. We expect to poll a considerable vote from the small business-men, office-workers and other sections of the petty-bourgeoisie, who also learned something during the strike.

The few days left over until May 10, the election day, will be utilized for open air rallies, for the distribution of several leaflets and The DAILY WORKER by five thousands and for a very extensive campaign for campaign workers, for watchers at the polling places, to reduce the usual stealing of votes to as low as possible.

Fight Still Goes On. What will the election bring to us? The candidates will certainly get a very high vote (some even say that would not it be for the stealing of votes, there is even a chance for election) -- but this is not the big thing. The real achievement of this campaign is and will be, that the workers of Passaic, whom the bosses have considered defeated, showed very clearly, that the strike was not fought in vain. The strike is over, the fight is still on. Fight on the political field, against the strikebreaking state-power and against the fake opposition candidates of the Cabell and Turner type, showing the ing itself more and more strongly in WORKERS! FEUDISTS' CRIME TALE TOLD

Fear of "gang vengeance" and a desire for revenge, are believed to be the motives which led Harry Thomason, 19, serving a sentence of from 10 years to life imprisonment for robbery, to confess to the murder last Dec. 12, of Mayor Joe Adams, of West City, Ill. In his confession Thomason says he and his brother Elmo, 17, now dead, received from Charlie Birger, feud leader, \$50 each for the three shots fired at Adams. Thomason further confessed that the murder was planned at Birger's cabin, where Birger's lieutenants, Art Newman, Connie Ritter and Harvey Dungy, also, were present. He named Ray Hyland as the driver of the death car. These four men, along with Birger, have been indicted for murder. Elmo Thomason was killed when Birger's cabin was dynamited and officials believe Lory Price, state highway patrolman, was abducted and later killed because he would have connected Birger with the crime. The two girls, above, Jackie Williams and Pearl Phelps, testified against Thomason when he was on trial. After his confession, Thomason was sentenced to life imprisonment.

DANGER OF WORLD WAR

By D. BENJAMIN.

THIRTEEN years ago, in April 1914, very few people in Europe and America dreamt or realized that a war was to come upon them which would result in 10,000,000 dead, 4,000,000 missing and 20,000,000 wounded.

Today, April 1927, very few people realize or dream that there is a danger of another world war, only on a larger scale than the last one. The source of danger for the entire world is imperialist aggression in China. The great imperialist powers with their hundreds of millions investments in China; with hundreds of millions of people to exploit on a tremendous scale-wages of skilled workers in Shanghai are but \$180 a year and afford opportunities for superprofits, with a potential market unrivalled in the entire world, an avenue of escape for the surplus of European and American capitalism-these imperialist powers are waging informal war upon the Chinese people, are ready to start a war against Soviet Russia and will fight among themselves for the rich prize of China.

Passaic is not dead, no, it is alive! The militant struggle of more than a year, which has put this little textile city on the map, was not fought in vain. Just as the strike was a great event of the American labor movement, showing the way to organize the unorganized, so is this election campaign a historical event, showing the connection between the economical and political struggle,

With a strike closing down the younger miners are taking advantage of their leisure to go in for athletics, and in the coal district at this time of the year, this means-baseball. Union organizers point out that it is essential to keep the young fellows busy, in order to maintain their morale, and keep them from drifting to the nonunion fields or to the cities. In such a situation it would be an excellent thing to organize, not only union teams, but leagues, that will stimulate and provide inter-local competition.

Wants News.

With the organized labor movement taking a growing interest in the development of sports activity within its ranks, as evidenced by the spread of union baseball teams, the problem of labor sports publicity comes to the front. In this connection, Labor Sports Union is putting out a press service which is issued weekly, without charge, to cover 100 labor papers. However, a press service must have correspondents and these the Labor Sports Press Service badly needs. It will be glad to receive news of any trade union sports events. Such news should be sent in to 453 North Ave.,
