WARNS OF DANGER OF IMPERIALISTIC ATTACK ON U.S.S.R.

The Third International Appeals to Workers

MOSCOW, June 5.—The plenary session of the Executive Committee of the Communist International has adopted a manifesto addressed to the workers, peasants and soldiers of all the world, and all oppressed peoples, wherein it points out the growing danger of a new war. It says:

"In China the worker and peasant masses are rising against unrestrained foreign capitalistic exploitation. The Chinese revolution is drawing capitalism from its condition of temporary stabilization and deepening the

Five Hundred Dollars Fine, "The Limit of the Law"

This is the sum which must be immediately raised to pay the fine imposed by the capitalist court upon our DAILY WORKER. In addition there is the heavy expense involved in the appeal of the case of William F. Dunne, who was sentenced to thirty days in jail, and Bert Miller, who received a jail sentence of a week. The term may appear short, but the fact that a conviction stands against the members of The DAILY WORKER staff, is far more important than the length of the sentence. These convictions must be reversed in order to protect

Action on the question of our mailing privileges still remains to be seen. We are not in a position to judge just what action the postal authorities are going to take, but we must be prepared for anything.

Industrial Unions and a Labor Party, Advice of Australian Visitor

WASHINGTON, June 5 (FP)-If American labor really wants to secure legislation and administration that will safeguard its industrial rights and rapidly advance its conditions, it must establish and build up a labor party, in the opinion of Miss May Matthews, an attache of the Australian Industrial Delegation to the United States. She gave this advice to an informal group of questioners after she had spoken at a dinner in her honor given by the Wo-men's Trade Union League in Washington. The Delegation, sent by the conservative federal government of Australia to study economic conditions in America, includes several members of the Labor Party, of which Miss Matthews is a leader in the city of

State Department Swaps Agents to Safeguard Investments; Feng May Upset Plans

Appeal for Funds to Aid Wounded Troops; Mme. Sun Yat Sen Heads Red Cross Drive

WASHINGTON, June 5.—The successful drive of the Nationalist armies on Peking has forced the state department once more to change its Chinese policy. In a statement issued to the press yesterday, Secretary Kellogg indicated that should Chiang Kaishek's troops capture the Northern capital, Washington would extend the same form of recognition to the right wing Nationalists as has hitherto been extended to Chang Tso-lin.

This change of front is in line with the policy of American finance capital which is anxious to see some group unify China so as to guarantee the "open door" and American investments. Chiang Kai-shek's treachery and the imminent fall of the Northern strenghold has given the state described to the state of the state ern stronghold has given the state department an opportunity to swap its Chinese agents. The role played by President Sigman in the 1926 strike is not widely understood. His repeated denunciation of the conduct AFTER the strike are completely belied not only by his activity in the strike but by his published statements during the strike. Join the National Guard and Fight the Bolsheviki Recruits Told in Boston

BOSTON, June 5 .- Follow the ead of Captain Charles Lindbergh, Join the national guard and fight he "reds."

This was the advice given here ast night by Lt-Col. Dana T. Gallup of the 110th Cavalry, during his talk as chief speaker at the recruiting dinner given by Battery H, 211th Coast Artillery at the cadet armory.

Gallup asked the recruits to folow the lead of Capt. Lindbergh, nimself a national guardsman and fight the efforts of "American polsheviki to overthrow the instituions of the country."

Gallup did not mention that Senator Lindbergh, the aviator's father, was repeatedly denounced as a "Red" and almost mobbed for opposing U. S. entry into the World War.

It is a continuation of the policy already initiated with the note to the Soviet Union in February, and continued with the diplomatic outrages, arrests and murders at Peking, Tientsin and Shanghai. It is part of the same policy that is training the naval guns on Hankow to smash the Chinese National government, and ernments should be close and insisforcing the Trade Union Bill through Parliament at breakneck speed to throttle the British workers.

The combination of this attack on all three fronts at once means that British Imperialism is throwing all every side, like a raging wild beast, agitation against the Soviet Union, Soviet Union, whose existence and by country against the rising forces on all sides that threaten it with decline.

What are the immediate factors beonce by open violence.

In 1911 the seamen of Great Britain struck against wages as low in some cases as £3 per month. It was the signal for a mass movement w'ich later involved the carters, railwaymen, dockers, tramwaymen, etc. Wilson was given credit for leading the seamer, and no doubt was determined enough, at that time, to win; but it was Comrade Tom Mann who was called to Liverpool, the storm centre, together with other militants, to help prepare for action. The strike came and all except the tramwaymen benefited greatly by this mass action.

The hearings thus far have brought out a number of astounding developments in which Mr. Chadbourne, Mr. Dahl and Mr. the Civil Service Association, has the Wiggin of the National City Bank collaborated:

1-The Interborough Rapid Transit company actually is obtaining above 16 per cent on its capital stock and above 22 per Associations will either have to becent on money paid in by its stockholders.

2—In spite of the fact that the B. M. T. is paying its regular dividend of \$6 a share on its preferred stock and close to \$7 on its common stock, Mr. Chadbourne was definitely planning to bring this to \$8 by using his powerful influence to secure an increased fare from the vast army of toilers who use his lines daily.

3—Stockholders of the Interborough put in \$21,620,000 and drew out the enormous sum of \$65,625,000 between 1905 and 1919. 4—The city was \$67,000,000 behind on the 8.76 per cent it and the Federation of Professional

was supposed to get on its own \$100,000,000 contribution. 5—At the identical time the traction octopus was cutting the wages of its already underpaid workers 10 per cent on the lying pretext that it was to "save the road," the officers raised their own salaries and paid thousands of dollars to the notorious dispenser of apologies for thieving corporations in the guise of "publicity.'

Mr. Chadbourne shows his utter contempt for the investigation by leaving the country. He and his crew have everything fixed with the Tammany Hall corruptionists whom they support by lavish campaign funds. His support of the presidential aspirations of Governor Al Smith assures him immunity from the Tammany courts. After flatly refusing to answer certain uncomfortable questions put to him, he departed for Europe in the midst of the investigation, promising that he would return if notified

the class interests of the workers, and to turn them into innocuous and unpolitical organizations for mutual support under control of the government, that is to say, to turn them into enemies of the working class. . . The chief mistake of the leaders of the trade unious is, in my opinion, their refusal to mobilize all the

forces of the working class in a struggle against the conservative government for the protection of the elementary rights of the workers and their unions. At this moment the bill is a class criterion. All those in favor of fascism are in favor of the bill. All who are opposed to fascism are against the bill. The grouping of forces must now proceed along these lines.

What do we see in reality? The General Council has not rallied the forces of the working class around itself. Just as before, a campaign is being conducted against the Communists and the revolutionary minority movement for their expulsion from the trade unions. The trade union leaders refuse to discuss their proposals, they humiliate themselves and carry on the struggle ngainst the left while all forces should be concentrated against the right, against the offensive of capitalism. and the Civil Service Association at the mercy of the "regulations" to be issued by the Treasury (and not to be submitted to the House of Commons).

In short the bill says to Civil Servants: You have already no right to

the House of Commons, which is your employer. You shall not associate with out-

side workers, even tho their conditions are cited against you whenever you try to improve your own.

You must place yourself completely in the hands of the government, which will do with you precisely as it pleases.

THE Civil Service, if it can be controlled properly, is a valuable, in fact an almost indispensable part, of the capitalist machine. Like the army and navy, the civil servants constitute a permanent section of the capitalist state and it is a striking commentary on the instability of British capitalism that the ruling class finds it necessary to attempt to enact such stringent measures for separating these workers from the rest of the working class and the labor movement. That it does not hestitate to make this attempt, at the price of a Civil Service Associations to sup- rousing widespread opposition, is

The meeting amid wild cheering and applause adopted a resolution demanding the withdrawal of American marines from China and the recognition of the Soviet Union and the People's government at Hankow. Wolfe pointed out the divisions in the imperialist ranks in relation to their policy towards China and why Amerlea is now following the same path in that country as England.

"America is not in favor of a policy of complete intervention at the present time," asserted Wolfe, "but if the Chinese masses continue to go to the left and gain control of the entire country, endangering imperialism, then the United States will reverse its policy and come out in favor of complete intervention."

The steady advance of the armies of the Hankow government was mentioned by Wolfe. He told the assembled workers that Chiang Kaishek was only pretending to fight against the northern warlords at the present time.

Wolfe emphasized the importance of the Peking and London raids as reflecting the policy of England to solate the Soviet Union.

Federal Employees May Join International at San Antonio Convention

WASHINGTON, June 5-(FP)-Discussion of possible affiliation of the National Federation of Federal employes with the International Federation of Civil Servants and Teachers will take place in this year's convention of the Federal Employes, meeting in San Antonio. Secretary McNally of the N. F. F. E. says that the executive committee will make no ommendation when it lays before the delegates the invitation of the International to join that organization.

Precedent for such affiliation is affiliated with the Postal International for the past four years. Twentyseven countries' postal employes are represented in this organization, whose general secretary is J. W. Bowwith headquarters in London.

National Security League.

The League functions through its national headquarters with a general secretary, a speakers' bureau esecretary, and an educational department under a civic secretary, Miss Etta V. Leighton, a former school teacher. The speakers' bureau furnishes patriotic antiradical and anti-pacifist speakers to organizations on request, conducts street meetings in New York against radicalism, and sends out debaters especially to colleges where the radicals and pacifists are thought to be active. Frequent speakers for the League during 1925-26 were Joseph T. Cashman, a New York lawyer, and J. Robert O'Brien, a professional anti-radical soap-boxer now lecturing chiefly before Rotary, Lions, Kiwanis, and other business men's clubs in an effort to show the Communist origin of all trade-union strikes. During 1926 he gave valuable assistance in strike-breaking at Passaic, N. J., being well compensated by certain of the

The educational department sends out quantities of study material to teachers in schools and colleges. Chief among the pamphlets are a study program of American history, a "Catechism of the Constitution of the United States," and some printed speeches of former Solicitor-General James M. Beck. The object of this work in the schools is to instill a knowledge of the form of government and a reverence for the Constitution in order 'to offset ignorance, radical criticism and apathy."

The League's program is specific as to its conception of Americanism and constitutional government. It ad-

overthrow of the American government. "Laws to control immigration so as to permit the admission only of the right kind of raw material for

American industrial progress. "The promotion of 100 per cent American shops and factories . . . through employees' meetings to explain

American ideals and expose radical fallacies. "The assurance that foreign-language newspapers shall at all times actively and faithfully support the Constitution.

"The prohibition of the use in all public and private schools of any language other than English as the basic

medium of instruction." It also advocates universal military service and a bigger army and navy.

Typical of the League's concerns was its agitation upon the discovery in 1923 of a boy of 11 in New York who was a member of the Young Workers' League, a Communist organization. Leo Granoff had been arrested wandering around late at night, because his mother had gone to a show and had forgotten to give him the key to the house. His membership card in the Young Workers' League, found on him, raised a storm of indignation from the Security League officials, Mr. Solomon Stanwood Menken and Miss Etta V. Leighton. Said Miss Leighton:

"The pity of it is that Leo doesn't stand alone. All over the country bright boys and girls are victims of the reds, who lose no chance to preach vile doctrines that destroy personal morals and civic probity. How long are these fiends to be allowed to exploit the souls of little children? How long are they to be left free to warp the lives of our little children and teach them hate of the land that offers them freedom and oppor-

Leo was of course released by the Children's Court. But he was not forgotten. His heresies were made the basis of a very touching appeal for the Boy Scouts signed by Franklin D. Roosevelt.

The educational and propaganda work of the League is indicated by the list of its publications in the bibliography of this volume.

Professional Patriots New Literature in the Soviet Union

"IN THE FOOTSTEPS OF CHANG TSO-LIN"

The "Pravada" on the Raid on the "Arcos."

Moscow, 14th May, 1927.

THE leading article of the "Pravda" this morning entitled, "In the Footsteps of Chang Tso-lin," points out that the events in "Asiatic" Peking have repeated themselves in a town with a thousand years of "European" culture. The laurels of the bandit Chang Tso-lin, declares the "Pravda," have been captured by Joynson-Hicks.

The connection of the raid with the general intensification of the international situation and the events in China is beyond question. The raid on the "Arcos" is nothing but a link in the chain of Chamberlain's provocative game, in the swash-buckling policy of sabre-rattling which might have such fatal consequences for the peace of the world. The British imperialists are provoking and challenging the Soviet Union. The provocation in Moorgate Street was perpetrated because the provocation in Peking had failed in its object. The Conservatives are not satisfied with the hanging expedition to China alone. They are doing their utmost to provoke an artificial conflict between Great Britan and the Soviet Union although neither the people of Great Britain, nor the people of the Soviet Union are interested in such a conflict. The conservative robbers have not even been able to think of any halfway reasonable grounds for their action. The onlyexcuse is that a search is being made for some "document" or other. This excuse could be used to justify any sort of meanness. If the police spies have been given instructions to find documents, then they would certainly find them, for such things as forgeries are not unknown to the world.

It is clear that the raid had been carefully prepared. According to the reports of the British press many conservative leaders knew previously of the intended raid. The raid was proceeded by a furious anti-Soviet campaign on the part of the reactionary press. The events in London clearly show the difference between the robber policy of British imperialism and the peaceful policy of the Soviet Union, the state of the workers. We, declares the "Pravda," conclude treaties of peace and non-aggression; they, military conventions and criminal military blocks. We are in favor of a better life for the workers of all countries; they suppress the Working Class Movement and pass anti-trade union laws. We are in favor of the emancipation of the oppressed peoples; they charge the international situation with explosives. We want peaceful trade relations, and they do their utmost to undermine this neaceful work with their handit raids. We are in favor of a policy of consolidation of friendly relations, and they are step by step preparing a break with the Soviet Union. We are for peace and they are for war! The workers of the whole world must recognize this. The British conservatives are sowing the wind, they must not be astonished if they reap the whirlwind.
