UNLESS the working class of Europe, and particularly those of England, France and Germany are in a position to block the conspiracy of the war-crazy imperialists against the Soviet Union, we are on the eve of another conflagration which may bring about the birth of a new social order or reduce the workers of the world and the oppressed colonial peoples to a new low level of exploitation.

THE tory government of England, driven to desperation by the uprising of the people of China and the gradual loss of her world trade sees in the destruction of the Soviet Union and the re-establishment of a diluted czarism, with her agents running the show, her only means of salvation from the doom that faces her. This is the explanation of her mad desire to forge a ring of hostile states against Russia preparatory to waging

LET no one make the mistake that there will be no war in the near future because the capitalist powers have not yet fully recovered from the last war. This is a delusion. England does not seem to think that she is incapable of waging war. If she is able to placate Germany at the expense of France; if she is able to throw a bone to Italy without endangering French interests; if she is able to satisfy the clashing ambitions of the small and large bandit powers in Europe and thruout the world, there will be a war against Russia. England will stake her all on it and only the workers of the world can prevent it.

T is reported that Chiang Kai-shek, the former Kuomintang general who betrayed his cause and joined the imperialists, is about to appeal to the United States for recognition of the Nanking regime. He denies that he will join Chang Tso-lin, the polygamous Manchurian bandit, who is now ruling at Peking with the aid of the executioner's sword. The papers barely give a word to the Hankow regime, but judging by past silences it is safe to assume that the revolutionary armies are making headway and that as soon as Lindbergh gets out of the city we will hear good news.

TALKING ABOUT DISARMAMENT AND PEACE

Today, at four o'clock, in Geneva, the Coolidge "disarmament" conference will meet. England, U. S. and Japan will be officially represented; France and Italy will be represented only by "observers." The conference will be partly for the purpose of forcing France to cut down her submarine fleet so that England can smash her when necessary to stop her competition in steel and check her progress in the Balkans. The U. S. capitalists rely on their superior wealth, and ability to build ships faster than European countries, and therefore took the initiative in calling the "disarmament" conference.

Making a plea for a Nationalist revolution in Albania and the overthrow of the large feudal landowners who have handed over their country to Great Britain and England, Bishop Fan S. Noli, former premier of the little Balkan state and a graduate of Harvard, has signed the manifesto issued by the Albanian Committee for National Liberation. The manifesto says in part:

"Albanians: Those Nationalists who for some time past have proclaimed that the suppression of the caste of reudal beys-lords of medieval lands -is the first step toward the emancipation of our people, are absolutely right. The last two years of the regime of feudal beys, with Ahmed Zogu at their head, have proved this in an irrefutable manner. In the course of these two years, Albanian independence, created after so much struggle and sacrifice, has again fallen into a servitude, both political and economic, still more terrible than any known hitherto in her history.

"Below we ennumerate the calamities which our people have been made to suffer at the hands of the feudal beys, the usual instruments of foreign domination.

Coolidge's Black Hills Fishing Expedition.

the Black Hills as did the Indians in days of yore, bent upon recording every gesture of the president of the United States who is lines of his report. spending his summer on a fishing expedition in those parts. His first day's catch of seven trout, with worms as bait, aroused the majestic scorn of Senators Borah and Reed. The Idaho senator, commenting upon the possibilities of a presidential order for a special session of congress, frankly admitted that he was puzzled. "There's no tellings what a man who will catch trout with a worm will do," said Borah. "Any trout that would lie on the bottom and for Negroes to obtain fair settlements from their landlords. They bite at a worm is a degenerate trout," affirmed Reed. The general impression is that it is unpardonable to use worms to catch trout, and certain sceptics suggest that they probably were catfish instead of trout and that Coolidge doesn't know the difference.

Be that as it may, the republican national committee is doing a bit of fishing on its own hook and is not averse to using one whom as vice president it regarded with the disdain usually accorded worms. While Cal uses worms as fish bait, he is himself in turn used as political bait. Perhaps his republican and democratic detractors will insist that only degenerate politicians will bite at such bait.

On the same day the president performed his incredible feat with worm-biting trout, State Senator Robinson came to the summer white house and assured Cal his loyal support. Robinson is one who opposed the farm relief bill that Coolidge vetoed and knows that his game is up as far as reelection is concerned. Perhaps he will get a federal lame-duck appointment in case Cal remains in the white house another term. But the Robinsons are comparatively small fish; a judicious fisherman would throw them back into the stream. But there are better catches than Robinson.

For instance William Hale Thompson, recent victor in a spectacular Chicago mayoralty election, is to be one of the summer visitors. Thompson is the dominant figure in Illinois politics. And Illinois is the home state of Vice President Charles G. Dawes, candidate for president and his stalking horse, Frank O. Lowden. The chief capitalist newspaper of the Middle West, the Chicago Tribune, has for years reviled Thompson, while supporting Lowden and Dawes and other darlings of La Salle street.

It is not unlikely that "Big Bill" as Thompson is affectionately called by the Chicago hooligans who constitute the back-bone of his corrupt political machine will, for a consideration, agree to deliver the Illinois delegation at the 1928 republican convention to Mr. Coolidge, which would be a stinging rebuke to Messrs. Dawes and Lowden. "Big Bill" is fair bait for the farmers also. As a tions. HOW THE CHINESE WORKERS PUT THEIR TRADE UNIONS TO WORK

Among the triumphs of the Chinese Nationalist movement during the past five years, none is more remarkable than the demonstrations of labor solidarity and the amazing capacity of the Chinese to use the weapons of the western labor world. A short but successful strike of over 5,000 factory and shippard workers in Hong Kong in 1920 gave a great impetus to organization and unions of all kinds began to be formed. Later, in January 1922, the great Seamen's Strike, of seamen at Hong Kong and Canton, lasting 56 days

The recent quiz into professional wrestling has brought to light facts of crookedness and dishonesty startling to even the most suspicious fans. It seems that back in 1917 Lewis, Mukden troops (Chang Tso-lin's) to Caddock, Stecher and Zybyzko combined into a trust to make money out of tossing the title back and forth Over 41 bouts were staged between these men and the title changed hands with the same frequency as the weather. Since 1917 the trust has been in control and pretty nearly every bout of any importance has been fixed beforehand.

So damning have been the exposures made, that pro-wrestling in and around Chicago has been discontinued. A match featuring Strangler Lewis has been cancelled. A bill has been presented before the Illinois legislature, aimed at corruption in boxing and wrestling. It has commercialism in sports is so deep rooted that it is impossible to eliminate it by more legislative action.
