The Labor Bureaucracy Meets FEAR FULLER MAY Political Disaster

The Labor Movement Must Be Prepared to Defeat the Coming Drive of the Bosses

The sharpening of imperialist conflicts, with China the principal sector in the world battlefield, shown by the clash. of British, Japanese and American interests in Geneva over the question of naval supremacy, and the growing instability of capitalist relationships marked by recent kaleidoscopic developments in European politics following the new offensive against the Soviet Union, is accompanied in the United States by important signs indicating a tightening up of the offensive machinery of capitalism all along the line but particularly in the field of production and still more specifically in heavy

American capitalism is speaking in a much sharper tone to important sections of the working class and is not hesitating even to announce to its agents in official positions in the labor movement that they are expected to prepare the workers for still heavier burdens.

American capitalists are getting ready to make new demands upon the masses and to reject even the very modest requests which the labor movement makes thru its official spokesmen.

Important steps in this direction have been taken already. We have already pointed out the meaning of such decisions as that of the Supreme Court in the Bedford Cut Stone company case and the increasing use of injunctions, extending even to minor wage disputes.

We have stated also that the drive against the United Mine Workers of America and the prolonged resistance of the bosses in the needle trades (assisted by the right wing) to effective union organization expresses the true policy of American capitalists.

That this basic policy of destruction of all organization except completely servile company unions has been disguised by the attempt at popularization of the worker-employer cooperation theory engaged in jointly by the official leadership of the union and the bosses, we have stated time and time

It has had as its main purpose the weakening of the unions to the point where they would have neither the morale nor the organizational strength to fight a winning battle against more open attacks upon the right to organize, the right to strike and picket and upon wages and working con-

That purpose has been made clear by some recent devel-

(1) The public declaration made by Daniel Willard of the Baltimore and Ohio Railroad for the 10-hour day.

The significance of this statement can hardly be overestimated. It knocks the props from under A. F. of L. officialdom which has sponsored the notorious "B. and O." plan and leaves it without argument of the "good employer" which, it must be admitted, was used with some effectiveness among wide circles of workers.

The "B. and O." plan, in the light of Willard's statement, is seen in its true character as the first step in an attack on the workers' standards and their unions all along the line.

(2) The refusal of the mediation board set up under the Watson-Parker law to accede to a wage increase for conductors and trainmen on 55 western railroads.

The Watson-Parker bill is in essence the incorporation of the unofficial "B. and O." plan in the law of the land-it is, as we pointed out in recent articles on the British Trade Union bill, an important step toward the "governmentalization" of the unions in the United States.

Cal Will Be Christened Chief Still Water; They Don't Always Run Deep

RAPID CITY, S. D., June 26 .-Silent Cal Coolidge will be officially adopted as a chief of the Sioux Indian tribe on August 4th, it was learned today.

It is rumored that he will be given the name Still Water. Chief Yellow Robe explained that the Sioux attach a great deal of significance to names-but probably the Sioux have no proverb about still waters running deep. Mrs. Coolidge will be named Laughing Water.

"A dignified name must be given him," said Chief Yellow robe in an interview. "He is the president of the United States and is entitled to respect and dignity."

COMMUNIST TRIAL AT BEAVER ENDS;

Jones & Laughlin Police Bribe Witnesses

PITTSBURGH, Pa., June 26. -The four Woodlawn Communists, tried on trumped-up charges of "sedition," were found guilty last night after a two hour jury session.

Although defense attorney Wilson had pointed out in the course of the trial that the police force of Jones and Laughlin, giant steel corporation, was backing the prosecution, that the captain of the force had attempted to bribe witnesses and that certain evidence has been altered and forged by the Woodlawn police, the steel barons succeeded in convicting the four on

three trumped-up sedition charges. After filing a motion for a new trial, the defendants were released on \$5,000 bail apiece. Wilson summing up for the defense pointed out that the prosecution had failed to prove single point of the indictment.

Disregards Law.

In his appeal to the jury, prosecuting attorney Craig demanded the conviction of the men on the ground that they were Communists. Completely disregarding the technologies of the law, he made the issue one of Communism versus capitalism.

Pete Muselin, one of the defendants, faces a new trial tomorrow on a framed-up liquor charge, which is the result of the general campaign of terror waged in Woodlawn by the steel barons.

THE LABOR BUREAUCRACY MEETS POLITICAL DISASTER

(Continued from Page One)

It is hardly an accident that within a period of a few days the capitalist sponsor of the "B. and O." plan and the official machinery of the Watson-Parker law follow the same linea line which indicates infallibly the imminence of a new drive against the labor movement and the working class.

Nor is it an accident that these developments coincide with the increasing international tension and the threat of new bloody imperialist conflicts.

The 25 per cent drop in the filing of permits in the building industry (one of the important bases of American prosperity) the terrific competitive struggle in the automobile industry, the spotty character of steel production, etc., all point in the same direction, i.e. that the American workingclass faces a period of new struggles.

Our party must prepare to meet the demands that will be made upon it and to fulfill its responsibility to the masses.

It must realize to the fullest extent the basic importance of the fact that the concrete evidence already at hand as to the real purpose behind the elaborate campaign for workeremployer co-operation schemes and "efficiency unionism" constitutes a major political defeat for the trade union bureaucracy and their socialist allies.

The left wing in the trade unions, must be encouraged and stimulated with renewed energy, it must be broadened organizationally and given political direction which will enable it, without any neglect of the daily struggle of the workers, to make clear to the masses the direct connection between the signs of a new offensive against them and the danger of a new imperialist war.

Now is the time to strike telling blows at the reactionary leadership of the labor movement whose advocacy of the worker-employer co-operation doctrine, drive against militant trade unionism and propaganda and expulsion campaigns against the Communists and the left wing have left the labor movement in such a weakened condition that the capitalists, seemingly without anxiety as to the outcome, have thrown a challenge to the whole American workingclass and its living stand-

We went first to meet Comrade Maria Illitchova Ulianov, the sister TOLDO OF Lenin, who is the responsible secretary of the Editorial Board, meaning that she has an influential place in shaping the editorial policies of the paper. She also gives considerable attention to the development of worker correspondence. In fact it was in the office of "Rabochya Krestyanskaye Correspondent"-(The Workers' and Peasants' Correspondent) that we all had our pictures taken at the end of my visit, the camera, ever present, being considered one of the most valuable aduncts of every Soviet publication. Workers' Gifts Everywhere. But this is getting ahead of the story. Comrade Illitchova was not in when we first arrived at "Her Room." This gave us an opportunity to look around a bit in the most attractive editorial office that I have ever seen. Here I felt the intense interest that the workers and peasants take in their press. Fittingly arranged about the room were many of the gifts that had been received by the paper from its readers. There were only a few, however. Most of them had been sent to the Museum of the Revolution, for safe keeping
