THE Geneva conference has blown up and our pacifists are quite disappointed. As if it mattered a damn for the cause of peace whether the If the great powers agreed it would bode no good to the workingclass and subject peoples of the world. The robber empires would then be in a more favorable position to parcel the spheres of exploitation, not already parcelled among each other. As it is possible that they may irrieach other by encouraging trouble in each other's colonies, just as England did in French Morocco and in Syria, in an effort to bring France to Downing's Street's policy.

AS we already predicted that the conference would turn out to be a fiasco there is no disappointment in our office. We did not make the prediction because Gibson chewed tobacco or Bridgeman wore a monocle, but because of the keen rivalry between British and American imperialism. The New York World is tearing its pseudo-pacifist hair because the so-called Anglo-Saxon nations have been unable to come to terms. BERLIN, July 31 .- The outstanding event in Germany's industrial life this week was the threat of an oil price-cutting war between the U. S. S. R. Mr. Hughes Steps In.

One of the ironic facts of history is the fact that Mr. Charles Evans Hughes, former United States supreme court justice, later secretary under the Harding-Coolidge-Daugherty administration and who was one of the most fanatic opponents of recognition of Russia, is now the attorney for the New York and Vacuum concerns. Hughes has long been a lackey of Standard Oil. While he was secretary of state the policy of Standard Oil was the same as that of the New Jersey branch-to carry on international intruges against the Soviets. That policy failed and the majority of the Standard group realizes the futility of longer fighting along the old lines. ANTI-WAR WEEK AUGUST 1 to 6

At the beginning of August, 1914, the European capitalist powers let loose the destructive forces of the conflict in which millions were slaughtered, many more were maimed and incapacitated for life, and billions of dollars worth of useful property was destroyed. It is now thirteen years since this terrible catastrophe, and the world still feels the deep-going effects of this mad orgy of destruction.

The last World War has taught class conscious workers a lesson which they will never forget. And therefore they have firmly resolved that the last imperialist World War shall be the last, and that never again will the workers be forced to shed their life's blood in the interests of Wall Street and the international bankers.

In this fight against a new World War, The DAILY NORKER will play an important role. It will be the leading voice of the workers in the struggle. It will be the workers' most effective weapon against the war mongers. The Dollar Patriots fully recognize this fact and therefore they are seeking to crush The DAILY WORKER through the Federal Grand Jury indictment.

We ask all workers to commemorate the week of the opening of the previous world slaughter by giving their utmost support to the GUARD THE DAILY WORKER FUND. Certificates have been sent to all subscribers and supporters. During this solemn week, it is up to every class conscious worker to do his bit against the recurrence of another world-wide slaughter. The best way to do this is to protect The DAILY WORKER the sharpest weapon against a new World War. Send in your contributions to the GUARD THE DAILY WORKER FUND.

Plan Probe Into Trust

WASHINGTON, July 31. - The Federal Trade Commission today ordered an investigation into the "close financial relationship" between the U. S. Steel Corporation, the General Motors Corporation and the E. I. Dupont de Nemours Company.

The inquiry was ordered on motion of Commission Abram F. Myers, following newspaper reports that the Dupont company had purchased a large number of shares in the other two concerns. The commission decided that under the law, it had a right to learn whether the stock negotiations were prefacing steps toward establishment of an interlocking directorate between the three companies.

Workers Sing "The International"; Police Arrest Three in Effort to Break Up Parade

Singing "The International," thousands of workers marched thru the streets of New York to City Hall Square yesterday afternoon and demonstrated before the City Hall in their demand for the immediate release of Sacco and Vanzetti. The march followed a huge protest demonstration, attended by ten thousand persons at Union Square.

Three workers were arrested as a result of the demonstration. As the parade swung into City Hall Square after marching down Second avenue thru the Lower East Side and the Italian quarter, police and detectives of the Oak street station broke into the parade, many of them swinging clubs.

The parade started at Union Square and proceeded down Broadway to 13th street where it turned into Second avenue. It continued along Second avenue to Chrystie street. It then started to rain but that did not have any effect on the marchers. From Chrystie street the workers proceeded to the Bowery, then to Grand and Mulberry street.

Harry Kaldis, 28, of 257 West 28th street and Joseph Horowitz, 18, of 245 East 13th street, were placed under arrest charged with organizing a parade without the permission of the policealtho it is well known that no such permission is required.

As the marchers, after leaving Union Square, turned into 13th street singing "The International" and waving banners, policemen stepped up and arrested Anthony Madrigon, a parade leader, 32, of 1672 83rd street, Brooklyn, a laborer. Madrigon, who was arrested by Patrolman Enjelman, refused to stop the parade.

After Madrigon's arrest, Marie Madregano took his banner and lead the marching workers amid loud cheers.

Shouts of "Save Sacco and Vanzetti" and "Down with Fascism" arose from the marchers as they swung down Mulberry street into the Italian

Throngs of workers lined the sidewalks on the line of march cheering the paraders. Many of them swelled the ranks of the marchers.

Fear Communists As Mass Leaders

HANKOW, July 31.-The political committee of the Kuomintang has become completely subservient to the military council and is carrying out its orders in every detail. The principal activity of this counter-revolutionary clique today is directed against the Communists who are the only wellorganized opposition to the betrayal of the revolution.

Plenary Session Called. August 15 is set as the date for the plenary session of the central executive committee of the Kuomintang at which time the question will come up for discussion regarding the future relations between the Kuomintang and the Communist Party.

It has been recommended to the plenary session to approve measures against the Communist Party pending the third congress of the Kuomintang. But these measures are to be

immediately effective. Counter-revolutionary Proposals. The demands of the reactionary agents of the militarists are that all members of the Communist Party who are at the same time members of the Kuomintang and who work in Kuomintang organizations or hold posts in the Nationalist government or army must leave the Communist Party, otherwise they will immediately be removed from office. Also members of the Communist Party must not carry on Communistic work under the cover of the Kuomintang. An additional demand is one prohibiting members of the Kuomintang joining any other political party under penalty of facing accusations of rebellion against the Kuomintang. All this is in direct violation of one of the principles of Sun Yat Sen that specifically stipulated that Communists should always have the right to work within the

Many left-wingers and progressives labor under the illusion that it is wrong to crticize the Lewis administration during the period of strike, even though they know that the policies being pursued leads, not to victory, but either to defeat or at best a demoralizing compromise.

New American Marine Base At Olangapo Has Strongest Pacific Unit

MANILA, July 31.-Olangapo, the site of America's new marine base in the Far East, is booming like a western village. One month ago it resembled Sleepy Hollow and today it resembles the center of a baby gold rush. Fifteen hundred marines were landed at Olangapo on their way to China. Sub-sequently about 1,000 of them were taken to Shanghai, but the important fact is that the government is building barracks and making other improvements which leave no doubt of its purpose.

Bars which cluster outside the limits of the new reservation are thriving; there is new paint on the swinging doors and the brass foot rails have been polished. Everything will be ready for the Marines when they return from China.

A total personnel of 2,500 men and officers will be stationed in Olangapo before the end of the year. Together with the personnel of the navy base previously established there, and the Filipino population of the town, there will shortly be a metropolis of some 5,000 or more.

Marines now stationed at Olangapo are the best equipped fighting unit ever brought to the Pacific. Aircraft, tanks, artillery and gas equipment are included.

off system in the anthracite. They refuse to set up relief committees, in spite of the fact that many miners' families are going hungry. They simply refuse to organize the real strength of miners for a fight. Under these circumstances, the struggle is twofold, the progressive must carry on a struggle in the union to compel the Lewis administration to carry on a real fight against the coal operators. Then the solidified organization must throw its complete strength into the struggle against the coal operators.

The "Save the Union" program which is also our program and which was endorsed by the majority of the members of the Miners' Union, can and will win the strike.

Coal miners demand action, you are facing a great responsibility. Now is the time to act.—Progressve Miners Committee.

American Doctor In Soviet Union Finds Health Bureau Good

LENINGRAD, July 31.—Dr. W. Horsley Gantt, a physician of Charlottsville, Va., has just finished a large two volume work on his medical inspection of the Union of Socialist Soviet Republics. Gantt finds that while there is an increase in the number of cases of tuberculosis and trachoma, and a wave of malaria is just now sweeping the marshy regions, other diseases show a marked decrease, due to continual improvements of the methods of the public health departments. The diseases thus markedly reduced are especially smallpox, typhus, cholera, and influ-

the workers of the world were confronted with the terrifying prospect of a World War. This war lasted for three long years, which cost us millions of dead and wounded, and heavy financial burdens placed upon the working class. August 4th has burned a lesson deep in our hearts. We have resolved that there shall never again be another August 4th, that never again shall the workers of the world become cannon fodder in the interests of the J. P. Morgan, John D. The news echoed thruout the world but it did not shake the convention, presided over by President William Green of the A. F. of L. A resolution of protest submitted by the Nicaraguan delegation was quietly brushed aside, a 'respectful petition" to President Coolidge being adopted in its place. Why? How is it that the convention did not take up a single important matter of practical trade-union co-operation on behalf of the workers of the Americas? What is this "Pan-American Federation of Labor" and how is it that reports of its convention filled the newspapers with attacks against American imperialism while the convention itself engaged in no uch attack? Gomez is secretary of the United States section of the All-America Anti-Imperialist League, having sections in twelve countries of the American continent. He attended every session of the convention and has been in close touch with the affairs of the Pan-American Federation of Labor for a number of years.

'The Russian Revolution" Coming to Cameo Saturday

Beginning next Saturday the Film Arts Guild will present for its American premiere at the Cameo, following the current showing of "Passion" sensational film-document, "The Russian Revolution," in which the actual events leading up to and the persons involved in the great upheaval which shook the world, are pictured. We see the roots of the revolt, and the tremendous uprising culminating in the foundation of the Soviet Republic. No part of the film is "studio." It is all actual, bona fide material taken by the omnipresent cameraman. This film will cause as much discussion as "Potemkin," and perhaps more because of its astounding realism.

On the same program will be presented another unique document, "The Log of the U-boat 35," which took a heavy, onimous toll in the last war. Alexander Trachtenberg, in his article on "The Marx-Engels Institute" in the November, 1925, issue of the Workers Monthly, showed how Eduard Bernstein, the German revisionist, had deliberately garbled Engel's Inmany that such a devout foe of the hand, tears in his eyes and repentance troduction to Marx' "Class Struggles in France, 1848-50." The object of this falsification was to create the impression that Engels had forsaken the path of revolutionary action, and had joined the reformist and pacifist camp.

Bernstein was placed in an excellent position to play this traitor role because he, with August Bebel, were made the executors of the literary heritage of Marx and Engels that had been placed under the guardianship of the German Social-Democratic Party following the death of the Engels in 1895.

Thus Kautsky, the renegade, descends to the level of the British imperialist agent who murdered the Soviet ambassador, Voikov, at Warsaw, Poland; he associates himself with the creature who threw two bombs, wounding scores in a Workers' Club in Leningrad; he becomes the ally of Chamberlain's provocateurs who caused a railroad wreck near Minsk, that resulted in the death of the provincial head of the "G. Concerning Kautsky's role in the present struggle, as revealed in his article in Vorwaerts, Pravda, the central organ of the Communist Party of the Soviet Union, points out that, in the face of the imminent war danger Kautsky has consented to become the mouthpiece, to voice the wishes of the British reactionaries, especially when he alludes to the necessity of an uprising against the Soviet Power.
