# **WORKERS COMMUNIST PARTY CABLES** REPLY TO COMMUNIST INTERNATIONAL TO GREETING TO FIFTH CONVENTION

Pledging the Workers (Communist) Party to fight more effectively for the defense of the Soviet Union and the Chinese Revolution and against the war danger, the Fifth National Convention in session here has sent a cablegram to the Communist International in reply to the greeting received and read at the opening session.

The cablegram also declares that the party will also resist more effectively the offensive of the capitalist reaction and the reactionary trade union bureaucracy against our Party and the militant section of the American working class. The cablegram

"The Fifth Convention of the Workers (Communist) Party greets the international leader of the working class, the Communist International. Under its leadership and with our own firm and unanimous determination to unify our Party, we will overcome the tremendous difficulties in the path of building a mass Communist Party in America. The Convention recognizes fully as Party's task the winning of the American proletariat for the revolutionary struggle against American imperialism.

"In the execution of this task we are inspired and guided by the principles of Marxism and Leninism, by the experiences of the victorious struggles of the Russian proletariat and the heroic battles of the exploited and oppressed masses of Europe and Asia. The Convention and the incoming Cenral Executive Committee pledge themselves speedily to eliminate all remnants of factionalism and to unify the Party as a prerequisite for the further success of our work.

'We pledge the unification of our Party and to fight more effectively for the defense of the Soviet Union and the Chinese revolution and against the war danger as well as to resist more effectively the offensive of the capitalist reaction and the reactionary trade union bureaucracy against our Party and the militant section of the American working class.

"The Convention is spurred by a full consciousness of its duty to recruit the toiling masses of America for relentless struggle against American imperialism.

"Long Live the Soviet Union! "Long Live the Communist International!

"Fifth National Convention. "Workers (Communist) Party."

The Convention continued the discussion last night on the trade union report of William Z. Foster. An effort was being UNION INTERFERES AS BOSSES TRY TO FORCE made to conclude the Convention.

In the fight to save Sacco and Vanzetti the cartoons of Ellis appearing in the DAILY WORKER attracted wide-spread attention. These truly inspired drawings were reproduced thruout the country and in Europe. Collected in one large (9x12) book they make a beautiful tribute to the memory of the two brave workers who gave their life for Labor. Here is also a propaganda book to give to your shop-mate—send a dollar for four copies. Only one cartoon on each page (16 pages) — YOU CAN FRAME every page. In the fight to save Sacco

## Cosgrave Runs for Several Offices; **Defections Worry**

DUBLIN, Ireland, Sept. 5.-President Cosgrave of the Irish "Free" State has placed himself in nomination to run for the place made vacant in the Dail when James J. Walsh, postmaster general and leader in the Sinn Fein party, dramatically left the government, a few days ago. Cosgrave is determined to be elected, as is evidenced by his running simultaniously in three different districts, Cork, Carlow and Kilkenny.

It is admitted that Cosgrave and his pro-English backers will have a harder time because of the recent tendency of many elements in their party to leave it. Walsh resigned and left the country, others have merely placed themselves outside the reach of governmental vengeance, without saying anything. The elections are on September 15.

The government is trying to make capital of the proclamation of the Fianna Fail (De Valera's party) that they regard the compulsory oath of allegience to King George as a mere formality. Cosgrave agents appeal to the Catholic superstitions of the people by saying, "Don't let the perjurers win.'

Cites Suppression of Sacco-Vanzetti Protest

Flagrant instances of violent suppression of free speech and unexampled police brutality in connection with Sacco-Vanzetti protest demonstrations in many cities thruout the United States are contained in a statement just issued by the American Civil Liberties Union.

New York, Boston, Chicago, Los Angeles and a number of other large cities are mentioned by the organization as scenes of legalized violence on the part of the police department. The statement follows:

While the eyes of the world were focused on the central figures of the recent tragedy in Massachusetts, the police authorities of many of the larger cities in the United States engaged in activities which, summed up, constitute an all-time all-American record for the ruthless violation of constitutional rights of free

In Washington, D. C., two outstanding instances reveal the trend of the official mind on free speech and civil liberty. Representative Albert Johnson, Chairman of the House Committee on Immigration, issued a warning that aliens who participated in Sacco-Vanzetti protests would be arrested and deported. Mrs. Lenora II. Jones, a Quaker, 59 years old, was indefinitely suspended from her position as a tourist guide in the Capitol Building, because she remarked that she would be willing to die herself to save the lives of Sacco and Vanzetti and the honor of her country. At present about 50 per cent of the British steel industry has as modern equipment as any in Germany or America, while 20 per cent more could be brought up-to-date. The rest must be scrapped.

Editor, DAILY WORKER: Justice Crucified.

On Sunday last I was irresistibly drawn to the little central group of devoted defenders of Sacco and Vanzetti, whom I had never seen, but to whose cause I have contributed my mite for several years.

I Joined the long line that passed through the flower-lined rooms and looked upon the thin, exalted faces of the martyrs, worn by their long suffering to the fineness of chiseled marble, and later walked with the thousands in their funeral procession. It was no spirit of triumphant "law and order" that hung over Boston that day. That spirit perhaps existed, concealed in club rooms, churches and rich dwellings. The attitude of the silent crowds that lined the streets was a combination of sympathy and questioning wonder, tinged with the gloom of the funeral atmosphere.

Calling at the little office of the defense committee, I read upon the door this eloquent statement:
