STATE TROOPERS CRASH IN DOORS MINERS AND CLUB THEIR WIVES

Colliery Superintendent at Renton Bosses Job; Yells, "Beat 'Em Up Good"

By A. S.

PITTSBURGH, Pa., Oct. 12.—In the six months since the lockout of coal miners went into effect here in western Pennsylvania the state troopers have knocked the idea of class struggle into people's heads more effectively than years of propaganda could have done. It is not only the miners themselves who have shared in this instructin but their wives and children too.

At the Union Colliery Coal Company mines at Renton, in Alleghany county, the day the mines opened up and the first truck-load of scabs was nost brutal clubbing bouts of the lock-out occurred. Since the troopers not only charged the ground becomes brought into the camp, one of the up and threw tear bombs, but went on up to the miners' houses and broke in the doors and beat up the women and the children, who had stayed behind. The women and children know the full bitterness of the coal operators' war against the miners as well as the men themselves.

Ohio Officials of Mine Union Negotiate For A Separate District Truce

COLUMBUS, O., Oct. 12.-A proposal by the United Mine Workers' Union officials in Ohio, to be made to Ohio operators, suggesting that a truce in the soft coal miners' lockout be negotiated on a basis similar to the agreements between soft coal miners and operators in other states in the central competitive field, is under consideration, it was learned here today. The letter, proposing a conference with operators, has not yet been sent to the operators, mine union officials said, although a preliminary draft has been submitted to the various sub-district presidents, and will later be sent to the operators.

If this agreement goes thru, the striking miners of Pennsylvania, many of whom were not affected by the first lockout but have come out in solidarity to the rest of the union, will be further isolated.

Fifty Shops Settle With Union for 1928

Three pickets of the Retail Grocery and Dairy Clerks Union were assaulted by gangsters while picketing the Polinsky Grocery and Dairy, 170 Orchard St., yesterday noon.

Max Bobrow, one of the pickets, was slugged with an iron bar. Two of his teeth were broken off. Two stitches were taken in his cheek at a hospital. The face of Hyman Vacker, another picket, was painfully bruised from several blows. Injured Men Replaced.

A bone in the wrist of Julius Linder, a third picket, is believed to have been fractured by a blow with a club. Ten other pickets replaced the three injured men and the picketing continued with increased vigor.

According to members of the strike committee of the union the attack charged business agent of the union, and organizer Brown of the Furniture Drivers' Union. Linder reported that Patrolman No. 494 turned his

Tammany Hall Juggles Transit Propaganda But Bankers Direct the Act

Gov. Al. Smith has announced he would maintain a hands-off policy in the battle which is now ranging ostensibly between two traction plans but actually between the Morgan banking group and the Chase National Bank-Dahl-Chadourne gang over control of the New York transit lines.

Under the pretext that the Transit Commission officials are paid huge salaries to decide the issue the Morgan controlled Tammany governor of New York State has refused to act. Tammany Hall has gone further by playing up on the one hand Controller Berry's increased fare propaganda through the camouflage of his man, Charles W. MINERS CAN'T ARGUE WITH SCABS; CAN'T DEFEND HOMES IN COURTS

If Not Effectively Resisted No Big Strike Possible in Future

PITTSBURGH, Pa., Oct. 12.-Federal Judge Schoonmaker yesterday made permanent his union smashing temporary injunction granted the Pittsburgh Terminal Coal Co. Sept. 30. The injunction is the most sweeping and drastic in recent history, not only as to its provisions, but because of the grounds on which it is issued. The precedent established, if this decree is allowed to stand and is obeyed by the strikers against whom it is directed, will hinder or prevent any strike of any size in the future. The United Mine Workers of America is prohibited by Judge Schoonmaker from effectively picketing the property of the Pittsburgh Terminal Coal Co., because some of the product of that company is involved in interstate commerce.

The injunction also arbitrarily decides the question of the right of the company to chase its striking miners out of their homes by shutting off the water supply, tearing off the roof, or such other approved methods, by ruling that no funds must be collected or spent by the miners for lawyers, court costs, bonds, or in any other way appeal to the courts of the state for a decision to let them stay in their houses. This wanton refusal of the ordinary civil right of suing the employer in court, or defending a suit from him, is as welcome to the company as it is disastrous to the miners.

People employed in industries injurious to health and a few other categories (people working in outlying districts), get a longer holiday. A fortnight's holiday is the general rule. This is a minimum. Arrangements for longer holidays can be made in the collective or labor agreement. In quite a number of cases all the employes of an enterprise, including semi-skilled workers, get a four-weeks holiday. Regardless of collective agreements a month's holiday is given, as we already mentioned, to all adolescent workers, i. e. under 18 and also to apprentices in factory schools, works and private handicraft workshops, etc.

The right to rest is an inalienable conquest of the working class in the U.S.S.R. laid down in the labor Peasant Women was convened by the other sections and commissions of the code. DEVELOPMENT OF SOVIET FARMS.

Soviet farms are estates handed over to state organizations for exploitation. Apart from the purely economic aim: restoration and improvement of agriculture in the given district, Soviet farms must also be model

farms for the surrounding peasant population, their function being agricultural propaganda.

Statistics for 1926 give the following picture of the activity of Soviet farms.

The area of corn land ploughed by the labor forces of the Soviet farms of the State Agricultural Syndicate and the Sugar Trust was increased in the past year by 161,055 dessiatines.

The total production of Soviet farms also increased In 1925-26 it amounted in the same Soviet farms to 132 million roubles worth, whereas the total production of the current year is approximately estimated at 150 million roubles worth. In percentages this means an increase of 21 percent last year and 13.6 percent in the current year.

Compared with 1924 the average increase in the pro-

on of the chief cereals is as	follows:	
	1924	1926
Rye	43%	55.9%
Wheat (winter sowing)	59%	64.3%
Wheat (spring sowing)	19%	63.4%
Onto	9971	ec so

Production in some of the best managed Soviet farms exceeds the production of the surrounding peasant fields by 50 and more percent, and in average Soviet farms by 10 to 12 percent. Moreover, in years of drought. production on Soviet farms does not fluctuate as much as production on peasant farms.

In regard to cattle breeding, we get a similar picture In 1926 increase in the 39 Soviet farms of the state agri cultural syndicate was as follows:

Big horn cattle 6.0% 7.0%

Compared with 1924 milk cows gave 30 percent more

This development of Soviet farms was coupled with improved labor conditions of agricultural laborers and Fear Communist Gains with increased wages. This increase reaching on an average 25 precent since 1924 in the Soviet farms of the State Agricultural Syndicates.

This rapid development of Soviet farms had the following result:

In 1926 the peasant population was provided with 41,609 tons of seed. A great deal was done towards improving the breed of cattle. The peasantry was provided with over 22,000 heads of high breed cattle, and with 20,000 special breeding cattle.

Moreover, Soviet farms ploughed the land of poor peasant farms, supplied them with agricultural machinery and implements (24,000 tractor-days) and sifted tottering Pilsudski regime. British 7,194 tons of peasant corn.

Leningrad's Death-Rate Lower Now Than Before The War, Report Shows

MOSCOW, U.S.S.R., Oct. 12 .-Social organizations have investigated the state of health of the population of Leningrad. The results of this investigation are very gratifying in regard to the post-November achievements in this sphere. Morality in Leningrad has decreased from 21.9 per 1000 inhabitants in 1912 to 14.4 in 1926, i.e. 37 per cent. Infant mortality has decreased 38 per cent in comparison with the pre-Revolution period. Ninety-five per cent of the mothers have visited the Consultation Rooms which have attended, in the course of the year, to 1,500,000 children and 300,000 pregnant women. The network of medical centres, dispensaries etc. is calculated to attend to 45,000 cases per day.

Hydraulic Engineer Says Levee System Won't Stop Floods

1927 flood of the Mississippi River will be repeated, and even larger floods may be expected in the future.

The only method of preventing disastrous consequences in future years is to provide the means for handling the water in excess of the channel capacity at New Orleans by providing either additional channels to the gulf, definitely set aside for that purpose of sufficient lateral-storage capacity to detain the excess until it can be discharged through regular channels.

This was the keynote of an address delivered here this afternoon by Nathan C. Grover, chief hydraulic engineer, U. S. Geological Survey, of. Washington, before the convention of the American Society of Civil En-

Hydraulic engineers have repeatedly in the past, even before the disastrous floods of this year, pointed out that the impounding and spillway plan is the only feasible one for the Mississippi river. It is used successfully in the Nile valley.

But contracts let by the government to levee builders, such contracts always being in the nature of political "pork," and the prestige of the Engineering Department, U. S. army, a devotee of the levee system prevented any change. Neither is any contemplated by the government

The Panken Credo and Our Answer.

No more complete exposure of the anti-workingclass character of the campaign conducted by Judge Panken could be made than that furnished by himself to the press in a statement issued Oct. 11 and published in the New York Times for Oct. 12.

From this report it appears that the tone of the Panken reply to the Workers (Communist) Party offer of a united front against Tammany Hall reaction was decided upon, not by the socialist party but by the non-partisan campaign committee dominated by republicans to which the socialist party has entrusted the fortunes of its leading candidate.

Panken, therefore, and the other socialist party leaders, have reached the point where they reject a united front against reaction with a working class political party but enter into a united front with members of capitalist parties. More than this, they have allowed their campaign for Panken to be liquidated by a temporary organization of capitalist party politicians.

Panken does not mention in his published statement the vital issue of a labor party—a major proposal made in the letter of the Workers (Communist) Party.

United front with middle class and capitalist elements, rejection of the united front with workers-this is the policy of Panken and the socialist bureaucracy.

Panken goes further. He shows himself as an enemy of the American working class and an agent of the bosses by announcing his allegiance to "the principles and practices of social democracy," in the following categorical statement:

"I believe that whatever social changes are to be made in the United States must be the result of education and procured by the political instrumentalities at our disposal: By the intelligent use of the ballot." Coolidge will say amen to this credo.

The theory voiced here by Panken has brought misery to millions of European workers who followed the social democrats and is the greatest delusion prevailing in the ranks of the labor movement, one that is responsible in a large measure for the extreme political backwardness of the working class. Panken deliberately fosters this delusion and because he does he receives the support of elements which are essentially anti-working class in character.

It is still possible for office-seekers to ride into office on the basis of subserviency to capitalist "democracy" and Panken and the socialist party leaders are making the most of it.

Panken makes another statement which will be of great value because we had one just like it there to any workers who nurse the thought that Panken did not approve of the united front with the bosses, the police, the courts the attack started, I saw a policeman and the reactionary officialdom of the American Federation of run after a woman who had a little Labor, entered into in the labor movement, and especially in the child. I workers by this combination. These facts are too well-known to ran down to where my car was, to require detailing and explanation.

It is sufficient to point out here that Panken in his published I got near the old barn, I saw a statement joins the hue and cry of reaction against the Commu- trooper about to throw something. nist workers in the needle trades and by implication gives his per- didn't know what it was until he sonal approval to a pogrom carried on for months against the threw it toward me. Would Panken reject an endorsement crowd, so I told the oldest girl to from Judge Rosalsky?

According to Panken it was the Communists and the workers a friend near by and I went back. A who supported the left wing program, that made the united front with reaction and launched a terroristic campaign in the needle. Then I looked back toward the lane in the jail I never did know where trades. The fact that hundreds of Communists and left wing where I had sent my children, and a I was, and my wife and children workers were the victims of the pogromists means nothing to trooper was riding his horse down it didn't know about me either.'

And, altho the labor movement is so dear to him, his campaign and I couldn't see my children. I is in the control of a band of lawyers whose connection with the labor movement consists of addresses of union offices to which had got scared and run in different who now has a small business in

ORGANIZED labor thruout the world now has a total membership of 37,000,000 according to statistics published by the international labor bureau at Geneva. Of this number only 13,000,000 are affiliated with the International Federation of Trade Unions. The figures for Germany are 4,582,366 and for England 4,365,619. The American labor paper from which those figures are taken does not give the membership of the Soviet trade unions, but we can supply that deficiency. There are over 9,000,000 members in the Soviet trade unions, or as many as the total membership of the German and British unions.

IOHN (Dime) ROCKEFELLER'S slaves in Colorado are not very enthusiastic over their multimillionaire taxmaster's contributions to international charity. The coal diggers of the Colorado Fuel and Iron Company, a Rockefeller concern, are not paid for timbering, yardage in narrow work and for deficient work, as called for in union contract mines. John would rather give millions for a royal hospital in England or Roumania than return the money to the workers from whom he stole it. Rockefeller's philanthropy is at the expense of the workers who toil to make his millions breed.

THE allied propaganda machine made a big fuss about the execution of the British spy, Edith Cavell, during the war. While posing as a nurse, this woman was actively engaged seeking information of German army movements in Belgium for the British. We hold no brief for the German militarist murderers but we have considerably less sympathy for this imperialist stoolpigeon than we have for the thousands of men and women that were slaughtered by the British in India, Egypt, South Africa, Ireland and every other place where the pirate empire was engaged in crushing the masses.

THE French executed women spies, or suspected spies during the war. So did the British. So did the rest of the imperialist murderers. The French in the hospital until September 6, and liberty here. I have done nothing bombs at the crowd. They exploded then they took me to the county jail and now I'm in trouble. It would not and the gas got all around us. It got fulls of soldiers suspected of dissatiscause the British posing as the saviors of civilization used this incident as a means of arousing popular indignation while the British imperialists were robbing, killing and plundering the peoples of the Near East.

> > n all over the front of (To Be Continued.) CONGRESSMAN LA GUARDIA is a bright young man with bright ideas. He is a progressive as you are probably aware. He is against American imperialism so that you would notice it. He did not like the way American marines butchered the Nicaraguans in order to make it possible for the puppet Diaz to hold his presidential seat. The idea of military supervision of elections in Nicaragua by the United States government was repugnant to his democratic soul. So he suggests that Wall Street exercise civilian supervision over the elections. Now, the marine commander on duty Nigaragua can order suits of civies for his men and presto chango, democracy is satisfied. Indeed, we are glad to note that our worthy Secretary of State Mr. Kellogg was thinking the same that. Let our liberal editors rejoice! The Nicaraguans will be choked wit1 butter instead of killed by bullets i they only conduct themselves.

> > > ADMIRAL LATIMER, the gentleman who supervised the conquest of Nicaragua has been honored by a grateful government for his services. How much money his bayonets saved for the lumber barons and banana kings may not be computed for many years, but it must be considerable. The English have a custom of rewarding their chief naval thugs financially on their return from a successful buccaneering expedition. No doubt after J. P. Morgan, Dupont or Lamont becomes president, the government will not only pin medals on the conquerors' chests but endow them with estates confiscated from the vanquished, and money to live in the style compatible with their newlyacquired social status.
