Lunacharsky Reports to Tenth Anniversary Jubilee Session of Executive Committee

LENINGRAD, U. S. S. R., Oct. 17.—While the number of pupils in every Western European country has decreased, the number of pupils and educational advantages in the Soviet Union has increased greatly, according to the report of People's Commissar for Education Lunacharsky, presented at the jubilee session of the Central Executive Committee of the All Union Congress of Soviets today. The sessions are held in this city because the Bolshevik revolution started here nearly ten years ago.

Lunacharsky pointed out that the Soviet Union is the only land where, during these last years, public edudring these last years, public eduring the last years and years are last years and years are last years and years are last years. cation is progressing with such extraordinary rapidity. Whereas all the countries of western Europe show the number of pupils falling off, the Soviet Union counts sixty-three pupils in school per thousand inhabitants against forty in 1914.

Baltimore Unionists May Join Delegation To the Soviet Union

BALTIMORE, Oct. 17 (FP) .-- Andrew T. McNamara, member of the executive board of the International Association of Machinists' local lodge, and Charle Kutz, prominent in the Coopers' Union, have received invitations to join the party of trade unionists that is about to journey to Moscow to witness the celebration of the tenth anniversary of the Russian social revolution.

The invitations came from the Russian Trades Union Council at Moscow. One or two labor representatives from each state in the United States, Mcto go. Expenses after the guests have crossed the Soviet border will be borne in Garment House Fire by the Russian trade unions.

McNamara is inclined to accept the invitation, since he believes the offer relations between Russian and American bankers and manufacturers have ous business errands, and this trip downtown district early today. would enable American workers to judge of Russian conditions for them-

Davis and Coolidge Discuss Hastening Army Building Plan **GARMENT STRIKES** WASHINGTON, D. C., Oct. 17 .-

Secretary of War Davis and President Coolidge were in close conference today on the subject of a larger appropriation for building more barracks for the army. Major General Summerall visited Coolidge yesterday. It is reported that Davis complained that the new appropriation of \$22,000,000 was not available soon enough. 70,000 Out; Discontent in Other Industries

BERLIN, October 17 .- More than 70,000 coal miners in the brown coal mines in central Germany struck last night for a 61/2% wage increase. The extension of the strike to other mines and even to other industries like the dye and chemical trades is regarded

The miners in the brown coal pits, who work ten hours a day for \$1.50, walked out when their demand for a 61/2% wage increase was refused.

Nation-wide strikes in many of the heavy industries are regarded as likey in view of the discontent with the increase in working day, the lowering of wages and the speed-up system that attended the introduction of rationalization.

The Communist Party Stand. The Communist Party of Mexico after carefully studying the situation issued a manifesto supporting the candidacy of Obregon, based on the

following considerations: To treat the question of the presidential succession from the point of view of "re-election or no-re-election" is as absurd as to treat the present situation as a struggle of principles John Feraner, Flint, Mich.1.00 instead of a struggle of classes.

Every political struggle is a struggle for power of one class or another or of a determined faction within a certain class. For that reason the present struggle between Generals Gomez, Serrano and Obregon is a struggle of classes, a struggle to defend certain economic interests. Loretta Tebo, Flint Mich.1.00

City Engineers to Demand Raises at **Protest Tomorrow**

Municipal engineers through their union will protest the action of the New York board of estimate in setting aside what they characterize as an entirely inadequate sum for salary increases at a mass meeting tomorrow night at the Society of Engineers' Building, 29 West 39th St.

In announcing the meeting the unionized engineers said the \$600,000 voted by the Tammany administration for salary increases in the municipal engineering service would not amount to more than a 7 per cent increase even if equitably distributed, whereas even if equitably distributed, whereas the Civil Service Commission recently recommended a 35 per cent increase. The engineers' union is the Union of Technical Men, which is affiliated with the American Federation of Labor.

What Price American Institutions Now?--The Supreme Court Outlaws the American Labor Movement---The Soviet Union Establishes the 7-Hour Day

The United Mine Workers' Union has been outlawed in the state of West Virginia by a decision of the United States supreme

The decision is timed to coincide with a similar attack on the union in Pennsylvania where the UMWA has been prohibited from carrying on a strike against the Pittsburgh Terminal Coal Com-

Both decisions are based on the theory that the activities of the union in endeavoring to unionize these territories interferes with interstate commerce.

A precedent is thus established for outlawing all strikes of any importance and in effect puts the whole power of the federal government behind any employer whose commodities are shipped from state to state.

The decision means that strikes in basic industries are illegal. In portent, in the number of workers immediately affected and in the importance of the union involved, the supreme court decision in the West Virginia case is the most sinister ever rendered so far as the American labor movement is concerned.

The supreme court, acting as the agency of Wall Street government, has placed the entire strength of the federal power at the disposal of the bosses for use against the labor movement in every strike and organization campaign of any consequence.

But there is one aspect of this situation which the supreme court did not consider. It fails to see that this decision outlawing the labor movement of the United States, handed down just three weeks before the 10th anniversary of the Soviet Union, when the whole world is talking of the announcement of the 7-hour day DEAR Comrades, American workers: Ilyitch Lenin, we gained a victory tions will not be repeated in the Unithruout industry in a country covering one-sixth of the earth's surface, affords for the American working class the clearest basis August, 1927, at eleven o'clock in the You, American workers, at least the we working men and women of the it has yet had for a comparison of the Soviet power and American "Red Rosa" heard of that shameful leadership of those yellow leaders the following: Change all your Menimperialist government.

These declarations, by leaders of a labor movement whose strikes and organization campaigns have just been outlawed by that outstanding "American institution"—American imperialist as a whole, and for the American progovernment—will have a hollow sound to American workers.

Knowing that the official leadership belongs to them the capitalist class believes that the whole labor movement can be made part of the capitalist machine.

Where the labor movement cannot be corrupted it is to be

clubbed into submission.

We have said before that the strike of the United Mine Workers is a decisive event for the American working class. The decision of the supreme court proves it.

While the leadership of the labor movement brays in behalf of American capitalist government and tries to crush out all opposition to its betrayals, the capitalists and their government are

Their latest achievement—the outlawing of all strikes that affect interstate commerce—is a challenge to the whole labor

It must be understood for what it is-the most damaging blow yet dealt to the working class and the forerunner of more deadly blows yet to come.

The labor movement must be organized for resistance. In the face of the supreme court decision any labor official who opposes the formation of a labor party for the 1928 elections and mass violations of injunctions backed by the entire forces of the working class, strips himself bare of any labor character and

shows himself as an open enemy of the masses. The struggle for a powerful trade union movement in the United States is now a struggle directly against American impe-

rialist government. Those who do not realize this or who refuse to adopt and fight for a program based on this fact, can only lead the labor movement further into the prison American capitalism has pre-strengthening the political power of the masses, or it must bepared for it.

ALL is grist that comes to this mill and when the business manager visits the editorial rooms with a joke stowed away in his innards-not only do we welcome the phenomenon in an art for art's sake spirit but also because it helps us start a column on Monday, the toughest morning in the week in this business. Now for the story. Enter business manager looking in the direction of this writer as if about to announce a cut in his salary. Instead, he observes that the price of maple sugar has mounted in Vermont. What the devil has maple sugar to do with the world revolution? "Why?" asks a naive member of the editorial staff, and before the sound of the query died on his lips, like a kick from a mule came the reply: "Because the Sap refused to This is the first time the business office scored—this kind of a victory-over the editorial department. So there is raucous laughter on one side of the partition and the clicking of angry typewriters on the other.

SOMETHING must be done and done quickly about the tendency on the part of bank officials to embezzle funds entrusted to their institutions by trusting depositors. Increasing the salaries of the miscreants will not do, for the good reason that the guilty ones do not misappropriate money for their own personal use, but for the benefit of their various interests, whether they be oil companies, crap games or female affinities.
