BULLETIN.

(Special To The DAILY WORKER.)

PITTSBURGH, Nov. 28 .- President Coolidge's refusal to interfere in the coal strike is the cause of much rejoicing here on the part of the coal operators. "This means that we are to be allowed to carry on this fight for the open shop to a finish," said a spokesman of the Pittsburgh Terminal Coal Company today, "without any action one way or another by the federal government."

"We feel that this is a real victory for the principle that every American worker has a right to secure employment where and when he pleases and to work under any conditions he sees fit," said this spokesman, an attorney who helped to prepare the draft of the injunction application which legalizes evictions. "The decision of the president," he stated further, "upholds the right of private property by his tacit refusal to interfere in the eviction proceedings now being carried out against the members of the United Mine Workers who occupy company houses but who refuse to accept employment on the company's terms."

The coal companies are also demanding that the United Mine Workers reimburse them for all expenses incurred in evicting the miners and their families, including wages of the coal and iron police for shooting and blackjacking miners, their wives and children. The union must pay for the costs of the reign of terror established in the mining camps by the armed bands of the coal

barons, the companies contend. In addition to this the coal operators seek to recover damages on the grounds that they have been deprived of the use of their houses and that this interfered with the operation of their mines and curtailed production.

GAG FOR REMUS WHEN GRAFT IS TOUCHED UPON

Judge's Ruling to Hide Prohibition Scandal

CINCINNATI, Ohio, Nov. 28 .-The ruling of trial judge Shook in the Remus murder case here today, that no evidence relating to the conspiracy Remus charges against the prohibition agent Dodge and his wife can be admitted at present is said by observers here to indicate the formula of the court and the prosecution by which the former "bootleg king" will be prevented from making any revelations of government graft.

When Remus was first arrested for the murder of his wife he threatened to rock the prohibition service from top to bottom by "telling all about the bootleg graft" if he were placed on trial.

His plea of temporary insanity was relied as a means of presenting some of this, since he charges that the conspiracy between his wife and Prohibition Agent Dodge to steal his money from him was the cause of that insanity.

Can't Tell It.

But when Franklin Edwards Shaw a race-track timer began to tell of relations he had noticed between Mrs. Remus and Dodge, the state objected and was sustained.

"You must show independent testimony of a diseased mind before you can go into these things which you claim caused the insanity", said Judge Shook to the defense.

Jail Sixteen Indian Seamen for Refusing To Sail to America

LONDON, Nov. 28. - Sixteen East Indian sailors were sentenced to a month in jail for refusing to sail to America. The sailors did not learn that the British vessel Saverie was sailing to the United States until after they had signed papers.

When the foreman of the sailors demanded that he be sent to jail with the men, he was ejected from the court. The sailors declared that they could not stand the climate of the United States.

Window Cleaners On Strike Eight Weeks; 75 Pickets Attacked

The window cleaners' strike is now in its eighth week with all the modagainst the workers, according to officials of the Window Cleaners' Protective Union. They report that more than 75 sluggings and assaults on pickets have taken place since the beginning of the strike and that thousands of dollars have been spent for bail fees due to arrests of pickets which in nearly all cases have been dismissed.

There have been some settlements with individual employers and those men who are at work have volunteered to pay \$10 a week out of their wages for the support of the strike. This amounts to nearly \$1,000 a week. Donations from sympathetic labor unions also help to support the striking workers and their families. Recent donations have been received from Workmens' Circle branches 112, 443, 154, 196, 625 and 313; Bakers' Union, Local 3; Union of Technical Men, Local 37; Waterproof Garment Workers' Union, Local 20; Associated Musicians of Greater New York and many others.

LONDON, Nov. 28 .- Three hundred persons have lost their lives and 250,000 are homeless in devastating floods which swept North Africa over the weekend, according to an Exchange Telegraph Dispatch from Algiers.

Property damage estimated at 10,000,000 francs has been done in the regions around Mostaganem and Peregaux, which were hardest hit by the catastrophe.

All rivers in the devastated regions have overflowed their banks, sweeping away bridges, destroying

railroad lines, obliterating smaller houses and causing the collapse of larger structures by washing out foundations.

The Peregaux Dam, 500 yards long, 30 yards high and 40 yards thick at its base, gave way under the tremendous pressure of torrential rains and a huge wall of water plunged through the valley wiping out towns and villages. The apparent weakening of the dam

The resolution also cited the "needless length of time Greco and Carrillo have been in prison." They have been held without bail in the Bronx County jail since July 11.

"The two workers are innocent of the crime with which they are charged, as has been stated and proved in various New York newspapers," the resolution adds.

The resolution demands that the Bronx authorities give the two "an equitable trial from which all antilabor and fascist elements shall be rigorously excluded."

FIGHT I. R. T. ON **INJUNCTION MOVE**

IRT Working Conditions Described

> By ESTHER LOWELL. (Federated Press.)

While Interboro Rapid Transit Co. attorneys are putting the final touches on the briefs they will present to the supreme court this week in their application for an injunction against William Green and the 3,000,-000 members of the American Federation of Labor, the trade unions are organizing for more than a court fight.

Other local unions are expected to fall in line with the aid offered by the bricklayers, "Big 6" Typographical and Actors' Equity for the big fight for the right to organize free trade unions. The bricklayers' program of sending out all New York members armed with Amalgamated application blanks to sign up transit workers will probably be followed by the International Ladies' Garment Workers and other unions now planning action.

The I. R. T. injunction application will be heard Thursday before Judge Isadore Wasservogel in the supreme court.

Owing to the importance of the company union" issue and the fight of the Amalgamated Association of Street and Electric Railway Employes for the establishment and the recognition of the right to organize, most people have lost sight of the grievances under which the workers in the Interborough labor.

It can be said without exaggeration that no group of railroad workers in the country work as hard and get so little in return for their labor as the men and women employed by the Interborough. Boston pays its subway men from \$8 to \$10 a week more besides not handling one-fifth of the traffic of New York.

The conditions under which the employes work are undoubtedly the worst in the United States. The air is foul and thick with dust. The stations and cars are dirty. The lavatories are filthy. Owing to the overcrowding, morning, noon and night, the men get scarcely a minute to breathe. There is no relaxation.

Eyes Are Injure.

The constant glare of lights !mpair vision.

There is outside of a cement factory no greater breeding place for tuberculosis than the New York railway lines. Most of the red cheeked brawny looking men from the country districts and from Ireland, after a few years in the subways show the effect of these conditions. The low wages, averaging about

\$22 a week to all except motormen or engineers, contributes to the lowering of the workers' health. Often four or five share one room. The writer found instances in Manhattar and Brooklyn where traction employes boarded in houses so crowded that they occupied the beds by shifts day and light.

President Coolidge Pleases the Coal Barons

Coolidge has refused to do anything that would tend to help the striking coal miners and figuratively speaking has spit in the faces of John L. Lewis and officials of the American Federation of Labor who appealed to him.

The coal barons make no effort to hide their glee. A dispatch from Pittsburgh to the New York Times, dated Nov. 27, says:

". . . the operators, jubilant, declared they had anticipated such a decision and also that peace, consequently, was NOT in sight." (Our emphasis.)

The coal barons interpret the position of Coolidge correctly. He has said to them that they can proceed with their war on the union by any and all means, that any interference will be for the benefit of the coal barons.

Crowding closely on the wires the dispatch quoted above comes another stating that a damage suit for \$1,000,000 is to be filed by the coal companies of western Pennsylvania against the United Mine Workers of America. The coal barons demand that the union pay the costs of the campaign of terror staged by the coal and iron police against the miners and their families. Preparations for the damage suit began immediately after the state supreme court legalized evictions.

According to union officials, evictions are taking place faster than the union can build barracks to house the victims. Winter is here and food, clothing, shoes and money are needed.

Misery stalks in the mining camps of Pennsylvania and Ohio. What are we to say of union officials who met in an emergency conference in Pittsburgh on Nov. 14 and adopted a policy whose main point was an appeal to President Coolidge?

Did they believe that Coolidge, the errand boy of Andrew Mellon, the multi-millionaire who dominates the state of Pennsylvania in much the same way that Rockefeller dominates Colorado, would do anything to help the miners?

If they believed this they are fools who should not be trusted with the fate of the labor movement.

If they knew that Coolidge would do nothing but aid the coal barons, they committed a crime against the striking miners and their families, and against the labor movement, by creating hope which would be shattered and by strengthening faith in a Wall Street tool which is demoralizing.

Coolidge and the courts are even against charity for the among the group, hearing them talkstrikers. Coolidge, like the coal barons, wants starvation to do its ing international affairs: work and Pennsylvania courts have said that relief of any sort for the strikers is illegal.

Coolidge, the federal and state courts with their injunctions, the coal and iron police with their guns and blackjacks, the coal the industrial section of the Communbarons with their allies in Wall Street are tightening the noose ist International and the Russian about the necks of the United Mine Workers and its members and Communist Party.

With coldblooded calculation the coal barons watch winter "Cut out the international stuff, take its toll, they weigh with watchful eyes every ounce of food McFee said. "You're in America. that goes into the sums in the relief funds, they send their John Wobbly is in jail and we're here cossacks out to harass the hungry miners.

The governor of Pennsylvania is a stockholder in coal companies and an attorney for coal companies. He is the head and front of the drive against the union in Pennsylvania just as Coolidge is its head nationally.

If the official leadership of the labor movement is not convinced by this time that the government in all its branches is carrying out the program of the coal barons, then it is too incompetent and ignorant to guide the struggle.

If it knows that the government is the instrument of the coal barons and the rest of the capitalist class, then labor officialdom is aiding the war on the miners' union and the rest of the labor mond said. THERE is considerable food for amusement for the trained newspaper reader in the dispatches from London, Paris and Warsaw, which seek to belittle the importance of the Soviet notes to Warsaw and Kovno on the danger to the peace of Europe that would result from a war between the two countries. It is quite evident from the space given to the incident that the interference of Moscow on the side of peace in the long-drawnout dispute between Lithuania and Poland, is regarded very seriously by the imperialist powers and is the overshadowing political question on the continent of Europe today.

POLAND backed by France is waiting for a favorable opportunity to grab off Lithuania, having already taken Vilna with the sanction of the League of Nations. The Soviet Union warned Poland that such a step could not be ignored by it and behind the polite tone of the note, one could feel the potential sock of the Red Army.

THE imperialist bandits who will meet at Geneva in a few days to stage a fake disarmament conference will not have things as much their own way as they would have if there were no Soviet delegates present. The allies, thru the peace of Versailles, stripped Germany to the skin as a military power, which makes it possible for the Soviet Union and Germany to arrive at a common policy in Geneva, tho their ultimate aims are as far apart as the poles.

IT will be interesting to hear the indignant cries of the British and French delegates when Litvinoff throws his peace-bomb. In an effort to impair the effect of the Soviet proposals on the masses who fear war, because they are the chief sufferers from its ravages, the capitalist press agents are trying to create the impression that the Soviet proposals are not sincere, and only calculated to cause trouble in the ranks of the imperialist powers. The Soviet leaders know quite well that no smeere proposal for peace can come out of this lair of imperialist brigands, but the rejection of the Soviet proposals will help to expose the hypocrisy of the imperialists.
