The above workers of the Consolidated Gas Company received medals and paper testimonials for bravery from the company. The gas workers in New York are practically totally unorganized, and work under conditions of constant danger at low wages. Heroic acts are all in the day's work for these workers, but the bosses give them pieces of metal or paper as rewards instead of decent wages and conditions. The formation of a huge power trust, of which the Consolidated Gas Company will be a member, has just been reported. Thus all the power companies will unite against the workers who are rendered helpless by their unorganized condition.

Into the snow and the freezing wintry blasts have gone over 100,000 miners and their families (small children, too) in Pennsylvania, Ohio, and Colorado. The coal operators thought that this would bring the miners to their knees, but they did not reckon on the hardihood of the miners, their wives and children, born of generations of suffering. Scabs now occupy the company shacks shown above, using what were once the miners' homes for brothels and gambling

# AFTERWAGE-CUTS IN MASS. MILLS

Five Textile Firms Increase Profits

BOSTON, Mass., Feb. 15.-Just as the outstanding news from the New England industrial centers has been marked for the past few weeks by almost daily announcements of new wage cuts in the textile mills, so have the dispatches of recent days been full of stock dividend declarations by these same mill owners.

Others Follow Suit.

In addition to the statements issued by some of the mills in New Bedford, which showed profits of over \$700,000 for 5 mills, a further number of corporations followed suit yesterday. The Blumenthal Company's balance sheets declare profits of \$1,056,104. This firm owns and operates the Shelton Looms. Belding, Hemingway Company announces dividends amounting to \$521,952. The profits of the Pilgrim Mills of Fall River were \$180,-The Butler Mills of New Bedford declare earnings of 111,008, and the Boott Mills of Lowell had \$1.77,-

Proves Statesments False.

Along with the posting of every wage slash notice in the plants came an explanation that this step was unwillingly taken by the employer. The bosses said that they were compelled to take reduced wages in order not to run their factories at a deficit.

While it is true that the manufacturers succeeded in putting over a very little organized resistance from the operatives, the smoldering resentment evident may easily be fanned into a flame by just such announcements as these, in spite of the

# PICKETERS BRAVE STATE COP GUNS **NEAR ACME MINE**

Union Organizer Fails to Aid Struggle

BENTLEYVILLE, Pa., (By Mail). -I am sending this letter so you may know what is going on at Bentleyville DAILY WORKER.

The miners at Bentleyville in a joint meeting decided to mass-picket the mines that are now working on an open shop basis. The first mine to be picketed was the Acme Mine, owned by the Bethlehem Steel Corporation. On the 16th of January, sixty-four men and about five women appeared at the Weaver Station. At 4 p. m. they lined up two by two and marched toward the Acme Mine. The superintendent of the mine was the first to see the marchers and he ordered the only one of the Coal and Iron police present to meet the strikers. But he only stood by the mule stable so that no striker should take a mule as they passed the mine.

So the strikers marched past the mine without any trouble, showing the scabs that they were still on strike. When the strikers saw that their picketing was good work, they turned back and marched past the

IN GALSWORTHY PLAY Neighborhood Play-

With Cleveland Orchestra

"Israel," Ernest Bloch's symphony will be one of the important parts of the production which the Neighborhood Playhouse in conjunction with the Cleveland Orchestra, will make at the Manhattan Opera House the first week in May.

The arrangement for the stage was made by Irene Lewisohn and Nikolai Sokoloff. The preparations for this translation into plastic terms of the elemental dramatic idea of the composition will go forward immediately. Writing of this symphony and the

suggestion of a stage arrangement, the composer said: "I chose 'Israel' because my roots come from that soil. But it is not Israel alone in which I am concerned. It is the whole of humanity. And this is what ought to be made evident in any stage performance, no matter what surroundings or gestures or costumes you may choose." Earlier this season Nikolai Sokoloff directed his orchestra in the playing of the symphony here, in concert form, at Carnegie Hall.

Arthur K. Reading, attorney generalof Massachusetts, prominent in the frame-up which resulted in the legalized murder of Sacco and Vanzetti, is accused in the supreme court here of having accepted a secret fee of \$25,000 from the Decimo Club, Inc., which was at one time investigated by him in Massachusetts, and of having sought to prevail upon the Attorney General of New York to drop proceedings against the club. The charges were made by H. B. Monjar, founder of the club.

Reading was also accused of having obtained stocks and bonds worth several hundred thousand dollars from "HOBOKEN BLUES" OPENS Monjar by threatening him with AT NEW PLAYWRIGHTS TOcriminal prosecution.

Monjar is suing Reading and the present board of governors of the club to restrain them from disposing of the bonds. Supreme Court Justice Delehanty denied a motion by Reading's lawyer to suppress the papers filed in the suit by Monjar, on the ground that they "impugned the honesty of a public official." The Decimo Club has been under investigation in several states. It claims to be a "fraternal and social club" with initiation fees as high as \$100, and aims to secure for its members reduced rates for merchandise by means of special arrangements with dealers.

# TO SPEAK SUNDAY

Lewis Gannett, just returned from Havana where he attended all the important sessions of the Pan American Conference, will speak from the same platform as Socrates Sandino and various American trade union leaders, at the All-America Anti-Imperialist League conference here Sunday, 1:30 p. m., at the Labor Temple, 243 East 84th Street.

Gannett is an associate editor of The Nation and was sent to Havana Relief is cooperating with the comto report the Pan-American activities of the United States government for that publication. While there he interviewed many of the delegates and pseudo-delegates of Latin-American governments. His address to the antiimperialist league conference on Sunday will be his first public speech since his return to this country a few days ago.

#### For Permanent Body.

The conference is called to consider ways and means of meeting the Nicaraguan situation and to set up a permanent New York local branch of the All-America Anti-Imperialist League. It will be a delegate conference of representatives of labor and anti-militarist organizations thruout the city. The general public is also invited to attend.

Credentials thus far received at the league headquarters, 39 Union Square, indicate that a large proportion of the delegates will be from labor organizations, it was announced yesterday by Robert W. Dunn, secretary of the New York provisional committee.

Manuel Gomez, national secretary, has issued a statement calling attention to the fact that the conference in New York will be followed by similar local conferences in all parts of the Workers' International Relief. the country.

# WOMEN CLUBS BUY

The campaign of the Joint Defense and Relief Committee of Cloakmakers and Furriers in the selling of membership certificates in the Workers Self Defense is developing successfully, according to report from the Joint Defense office.

In addition to the pledges made at the meeting of the dressmakers' section of the Trade Union Educational League several branches of the Working Women's Council have already bought a number of the \$10 membership certificates.

These certificates entitle the buyer to membership in the Workers' Self Defense, an organization composed of workers who are willing to loan monev to see that the left wing wins the struggle in the needle trades, and succeeds in again establishing strong unions. Especially urgent is the need for the money with which to pay for the legal expenses involved in the furriers' Mineola case. Even if the appeal on this case is granted, the expense of a new trial must be met.

#### "The Reds Alone"

"The one exception" says Mr. Julius Henry Cohen, open shop leader and chairman of the sub-committee of the American Bar Association, which offers the new anti-strike law proposal-"the one exception" to the unanimous approval of the effort to hamstring the labor movement, "is the organ of the Communists."

And the New York Times writes in a headline; "Reds Alone Oppose Labor Peace Plan."

These labor-baiters have said more than they realize. Of all forces in the labor movement, the "only" opposition to a measure proposal of major importance concerning the life and death of the trade unions, is voiced by the Communists. Does not this mean a little something more than the open-shopper, Mr.

Julius Henry Cohen, realizes? The treacherous officials of the labor unions join with the most reactionary employers in proposing a law governing the lives of the trade unions from the benches of federal judges. This means that so far as these "fat boys" are concerned, the workers without leaders, or rather are with the aid of those leaders, being led into the trap. Mr. Cohen says that only the Workers (Communist) Party thru its central organ, The DAILY WORKER is offering leadership against the anti-labor law. This is food for thot for millions of American workers.

But Mr. Cohen makes one little mistake. He does not follow out his reasoning. He forgets the "little" fact that the American working masses will be compelled to oppose the anti-labor law. The logic of life itself will compel them to fight, and they, as well as Mr. Cohen, will see that the reactionary trade union bureaucracy supports the anti-labor law that strangles them, and that "the Reds alone" give the ringing call to battle against it.

Therefore it will not continue to be "the Reds alone." It will

be the Communist Party and the masses.

Being "alone" in refusing to betray the workers, "alone" to take the lead in attacking the workers' enemies, means to be with the masses when those masses move in their own interests.

#### Lincoln and Revolution.

That pompous ignoramus and defender of American imperialism, Senator Reed Smoot of Utah, utilized a Lincoln Day address at Washington to make a tirade against Bolshevism. Revealing his utter incapacity to deal intelligently with his subject he lumped Communism, liberalism and ultra-pacifism together in the general category of "internationalism" and demanded their suppression. The Utah senator, in attacking pacifism, is unappreciative of one of the most malignant supporters of imperialism and widertly is not aware of the fact that Communists are the only real destroyers of pacifist illusions and that specific form of reaction that passes for liberalism.

Smoot must also be ignorant of the publicly expressed opinions on revolution of the very man whose anniversary he utilizes to vent his spleen against all who are not old guard republicans or he never would have chosen such an occasion for his outburst. We are quite sure that Smoot and his ilk would never approve the following:

"This country and its institutions belong to the people who inhabit it. Whenever they shall grow weary of the existing government they may exercise their constitutional right to alter or amend

Those are the words of Abraham Lincoln, uttered on the occasion of his first inaugural address. It is a Lincoln quotation that is studiously avoided by those imperialist orators who know of its existence. Certainly, in view of such an utterance in one of his inaugural addresses, it is ridiculous for Smoot and the other supporters of Wall Street rapacity to try to invoke the Lincoln tradition as justification of their crimes against the working class | My dear Leo Davidovitch, of the United States and their savage butchery of colonial and semi-colonial peoples.

#### He Didn't Lie This Time

The British imperialist propagandist. Sir Phillip Gibbs, has, for some strange reason spoken a few words of truth - that "America is the most dangerous nation in the world today." But he gives a confused reason. The real reason is that the Wall Street Empire is the most capable of depredations on the rest of planets. the world, capable of strangling weaker nations, capable of fastening slavery upon exploited class and peoples, capable of taking the lead in the next world war for the redivision of the world for exploitation. # The Letter of A. Joffe

EDITOR'S NOTE-A Joffee, for many years a member of the Communist Party, recently committed suicide in Moscow, leaving a letter in which he attacked the Party, the Communist International and the Union of Socialist Soviet Republics from the point of view of the pettybourgeois class, citing among other things the money contributions which he had made to the Party at a time when he was a prosperous petty bourgeois, remarking (from the class point of view of the petty bourgeoisie) the fact that the Revolution of the Russian working class had confiscated his property, and renouncing the teachings of Lenin in favor of those of Trotsky.

Mutilated and "edited" versions

of this letter has been published in this country by various enemies of the working class. Not only including the capitalist press, but also the "New Leader," organ of the socialist party. The latest of these mutilated versions was published by Mr. Max Eastman, the renegade "Communist," in a recent number of "The Nation." In that version Eastman omitted certain portions of the letter which most clearly showed the moral breakdown and petty-bourgeois whining

The DAILY WORKER will publish the full text of the letter, the first part of which appears below. Joffe's letter will be followed by an article commenting upon it by J. Yaroslavsky. The Joffe letter is as

This has been illustrated in the performance of The Daily Herald, an organ of the British imperialists in he guise of a labor paper.

The Daily Herald seems to believe Simon commission was due mainly, if not solely, to misunderstanding, and misrepresentation of Labor's attitude towards the commission. The Herald's theory is evidently based on the assumption that Indians set a great trust in the labor party and hoped to gain much from it.

The labor organ is preaching to Indians "on the need of being a little more realistic in their interpretation of their slogan about getting their Swarajy by their own strength."

## The Trend in Colorado Labor

By A. S. The officials of the Colorado Federation of Labor have been, for some time now, more interested in their own political interests than in economic and political interests of the workers of the state. Their policy, of course, has been orthodox—helping their "friends" and "punishing" their enemies. Really, their political activities have taken up so much of their time that they haven't been able to any more than notice that the cab drivers of Denver should have been supported positively in the organizational effort they made sometime ago.

They didn't have time to organize the miners throughout the state, let alone effectively oppose the wagecuts that were imposed upon them in 1925. The packing house workers, the shopmen, the tramway men, all of them, not only suffered defeat under the leadership of Mr. Gross and Mr. Hoag and Mr. Howard and Company, but also no genuine effort was made to organize them again.

Too Busy With Bosses.

The bureaucrats were just too busy to take any part in the workers' economic struggles! They did take part in their political struggles, or rather, in the political struggles of the republican and democrat parties, which is as much as to say that the workers were not in on the political struggles at all!

Officials Benefit-Workers Lose. The federation officials probably penefited, but the rank and file workers did not. There were wage-cuts in the mining industry, wage-cuts in the steel industry, wage-cuts and speed-up for motormen and tramway conductors, unions were smashed right and left, strikers were treated brutally, their strikes being put down by the use of steel and lead.

Mr. Howard of the Colorado Federation represents also the farmers, or at least, pretends to! In Weld county especially, agriculturalists once effectively making-a-go-of-it. once have had to abandon the farms they used to own. All they have faced recently have been debts, duns, mortgages, bankruptcy, depression and disappointment. One used to read a good deal about the farmers' cooperatives of Colorado; but these, for the most part, are just mere names at present, the cooperatives as actual, existant economic forces in

Shoup, a republican, was governor in 1920 when tramway strikers were murdered in the city of Denver. Waterman, a republican, was "tickled to death" the day the Columbine massacre took place, because (the reason was in the back of his head) he foresaw this coming fall a republican victory.

#### What Is Future Policy?

Will the organized labor of Colorado elect republican and democrat candidates this coming fall? After having concentrated their efforts more on the democrats than on the republicans and being considerably responsible for the election of Sweet as governor, Stapelton as mayor, and Adams as governor (it must be borne in mind that the wages of the miners were cut while Sweet was governor and Stapelton has worked hand in glove with Adams while the present that the Indians decision to boycott strike has been going on), will the officials of the Colorado Federation endorse again a republican or a democrat capitalist politician?

### A Gain In Knowledge.

The workers and farmers in Colorado know what the two old parties mean to them, if they ask for better living conditions. They know that the agents of either of those illusions were they not effectively umbine massacre is fresh in their dispelled by the labor government minds. The prejudiced opinion as to when it merrily fell in line with the the legality of the strike, the opinion bureaucracy in India and sanctioned of Attorney General Boatright, is not forgotten. The hostile attitude ward the strikers of the state indusrial commission is vividly remem bered. Farmers know their enemies by now. Capitalist class politicians capitalist class parties are their

Conflicting Interests.

President Hoag gets his crumbs in the city hall of Denver, Secretary Gross and Mr. Howard are not need. It may not be to their interests for the workers to have a party of their own. But the workers, those who have minds with which to think, will want a Labor Party, and they will make it known at the convention of the Colorado State Federation of Labor when it convenes next June. The farmers, who have minds with which to think, will also demand a party, of which they will make their cooperatives and other organ
