Mayor of New Bedford Raps Children Clubs

NEW BEDFORD, Mass., May 7 .-As on the previous Monday the attempt of several mills to reopen their gates after an invitation to the strikers to return, resulted in a complete failure to disturb the solidarity of the ranks of the 30,000 workers fighting against the owners of 58 cotton mills who tried to cut wages 10 per cent last April 16. After keeping open several hours the mills acknowledged defeat and again closed their doors.

The great majority of the textile factories did not attempt to reonen, knowing the uselessness of such an attempt. But the attempted opening of several of the mills here is generally acknowledged to be a maneuver of the mill owners' association, even though members of this body have repeatedly denied any desire to "resume perations."

Workers Party Rallies Opposition

Details of further activities of Mayor ("Traction") Jimmie Walker, former Controller Charles L. Evidences of a widespread mass protest movement under the leadership of the workers' (Communist) Party were seen yesterday as a result of the announcement of an active campaign by district 2 of this party, which has been the only organized opposition to the fare steal. MASS PICKETING

Injunctions Also Fail to Stop Miners

ST. CLARISVILLE, May 5 (By Mail) .- Mass picketing will continue here despite the strike-breaking activities of the state police who have instituted a virtual reign of terror. Even the indictments against 25 men and five women because of violations of injunctions against picketing will not stop the miners.

Break Line.

A mass picketing line of more than two hundred men and women in front of the Florence mine of the Y. & O. Coal Company near here was dispersed Thursday evening, May 3, by a detachment of Ohio National Guardsmen who were summoned by the superintendent of the mine. Threatened with violence and a repetition of the wholesale arrests! which took place in St. Clairsville two weeks ago, the miners and their wives dispersed when ordered to do so by and Intervale Ave., Bronx; 138th St

A mass meeting of several hundred miners in St. Clairsville was also disrupted as a result of the Naional Guard activity on the picket line in front of the Florence Mine.

Steubenville, Ohio had returned indictments against 25 men and five women on charges of violating injunctions which forbid mass demonstrations in front of or near mines. The 30 indictments were returned out of a total of 125 asked against individuals by authorities in this vicinity All were charged with verbal and physical abuse of mine guards and non-union miners.

Negro Lynched After NAACP Report

MIAMI, May 7 .- An unidentified Negro was lynched by a posse of pursuers half an hour after he had shot and killed Philip H. Lee, chief of police at Hallandale. No motive support Al. Smith, cheif Tammany for the shooting was established.

The affair at Miami comes just the day after a report of the National Association for the Advancement of Colored People, through its secretary James Weldon Johnson, which stated that no lynching anywhere in the United States had been reported during the first third of the year 1928

the attorney for various traction lines held a meeting last Wednesday at which no members of the Board of Estimate were preesnt and there decided upon a plan which amounts practically to preventing the city from defending itself against the traction ring.

Closely Guarded.

Few details of this meeting were available but it is known that mempers of the Board of Estimate, the body which is the highest in authority to act for the city in the matter, have been aroused by the attempt to keep them out of the "deal" in which n other years they have always been permitted to share.

Joseph V. McKee, president of the Board of Aldermen, in particular is said to be up in arms. At the same time it is understood that whatever difference may exist is temporary and will not prevent Tammany from carrying out its original aim to hand the traction lines the increased fare

after election. Active preparations for a citywide campaign to preevnt the Great Fare Steal through the only way this can now be done, the rallying of the masses of workers and strap hangers have been going on under the initiative of the Workers' (Communist) Party, District 2. The Workers' Party, which has been alone in the fight against the fare steal, has already held a number of mass meetngs, but the campaign will actually begin in earnest with nearly a dozen mass meetings scheduled for tonight and dozens of others which are being

planned for this week and next. Meetings scheduled for tonight willbe held at Fifth Ave. and 110th St. 138th St. and Sixth Ave., First Ave. and 79th St., Second Ave. and 10th St., Rutgers Square and Union Square (south end); also at Steinway and Jamaica Ave., Jamaica, L. I., Wilkins and St. Anne's Ave., Bronx.

Among the speakers at the mee ings will be William W. Weinstone organizer of district 2; Bert Miller Juliet Stuart Poyntz, D. "Fight the Fare Steal" and "Organize a Labor Party" are the keynote slogans of the campaign.

In a statement issued by the socialst party yesterday, it was declared hat Tammany Hall had "defeated Hylan and imposed Walker upon the city." This was indicated as an evidence of the responsibility which Tammany bears for the fare steal. The statement, which was apparently directed to secure the favor of former Mayor Hylan, who has announced his candidacy for mayor in 1929, is taken in quarters to mean that the socialists may be willing to endorse Hylan. In other quarters, however, it is

thought that the socialists will again leader, as many of them did in 1924. particularly the socialist leaders in the needle trades.

Burgess Seeks Votes as Price of Permit

(By a Worker Correspondent) OLD FORGE, Pa., (By Mail).— The National Bonita-Moleski-Mendola Defense Committee held a very enthusiastic mass meeting here to protest against the verdict and the sentence of Sam Bonita.

Despite the fact that the sheriff of Lackawanna County and the police had made efforts to break up the meeting, and close the hall, the burgess of Old Forge who apparently is on the outs with the county authorities permitted the meeting to go on and ordered the state police and county authorities to get out of Old Forge. (Continued from Page One) York will be the chief speakers. To Break Into South.

For the first time in the history of the workingclass movement a determined attempt will be made to break into every state in the country. Such states as Alabama, Arizona, New Mexico, Georgia, Arkansas, Louisiana Mississippi, etc. will be represented by delegations of workers, who can expected to return to their states

Reactionaries Fight Communists. Numerous leading officials of some of these states including some governors, secretaries of state, and attorney generals have refused to reply to communications of the Party requesting information as to the procedure for getting on the ballot. In- ities stead they are making preparations to fight the Party by spreading rumors thru the press of the south in which they make all sorts of ridiculous charges. In one instance p. m. at 60 St. Marks Place. certain newspapers let the cat out of the bag by explaining how a letter addressed by the Workers Party to the secretary of state of a certain state found itself in their possession. The secretary of state had passed it on to the governor who passed it on to the democratic state boss who apparently is the owner of a chain of newspapers and thought it would

Defend the Chinese Revolution!

Any attack by Japanese troops in China is objectively an imperialist attack. This is true even though the present armed clash of Japanese troops at Tsinan-fu is with the troops of Chiang Kai-shek, the counter-revolutionist. The attitude and actions of the Japanese indicate a growing aggressiveness and confidence of Japanese imperialism in China. The same imperialist aggressiveness is shown internally in Japan by the government's attacks against the Communist Party and the militant labor movement, which internal incidents were in preparation for the aggression in China.

The latest facts merely go to prove that foreign imperialism is fast reaping the fruits of the betrayal of Chiang Kai-shek and the Chinese bourgeoisie.

The proposed general strike in Shanghai can have successes only if the Chinese Communist Party takes the leadership of it. Otherwise it will be strangled again by such vipers as Chiang Kai-shek. But if the Communist Party of China succeeds in taking over and aggressively conducting the leadership of the general strike, this can result in reviving the revolution for a new period; for the general strike cannot but be against both the Japanese imperialists and against the former nationalist bourgeoisie, which is no longer nationalist.

Regardless of the maneuvers which Chiang Kai-shek and his clique may undertake in this situation, any conflict between the troops under his command and the Japanese imperialists, the result is bound to be further betrayal of the Chinese revolution.

The only forces able and willing and actually engaged in struggle against foreign imperialism and its agents, the Chinese counter-revolutionary bourgeoisie, is the Chinese working class and peasantry, led by the Communist Party.

The workers of the United States should note that the Wall Street government is helping this Japanese imperialist attack. The arrival at Tsung-Tao of an additional division of six submarines from America to reinforce a division of five American destroyers already stationed in that port, indicates the determination of American imperialism to extend and strengthen its own have hung out the flag of imperialism "spheres of influence" in the province of Shantung. The United over the Rand School with the sign States no less imperialist in its aims, and no less a cruel enemy of the Chinese masses than any other, and in the last analysis will go further in ruthless violence than any other Power.

The American working class must not permit the American and Japanese imperialists in alliance with the Chinese bourgeoisie, first. to strengthen the oppression by foreign imperialism in China.

We demand of the American government to immediately withdraw all its military forces from China, and to keep its hands off China.

We call upon the American working class to render all possible support to the workers' and peasants' anti-imperialist revo-

Today the imperialists of America are more active than ever before in their offensive upon the workers and the workers' organizations. Scores of thousands of workers in the western Pennsylvania and Ohio coal region are engaged in a struggle for life and death against the coal barons and their agents in the union, the Lewis-Cappelini machine: for the coal barons know that if the Lewis machine succeeds in crushing the United Mine Workers' Union these workers would have no means for existence.

The attack of the capitalist class and their agents in the labor movement, Lewis, Hillman, Sigman, etc., upon the militant workers of this country must be answered with a counter-offensive from the working

THE "MINE GUARD"

John L. Lewis, who pretends to be president of the United Mine Workers Union, in reality serves as the chief reliance of the coal operators in trying to break the big mine strike. Therefore the rank and file mine workers raise the cry: "Lewis must go! Rid the union of company influence! The miners must control their own union!"

Years of Labor Party in Penn

Celebrate 100

All workers should rally to this centennial celebration of the Pennsylvania Labor Party, and make it a real demonstration for independent political action of the working class. In John Brophy, the leader of the militant rank-and-file miners in their struggle against the coal barons and the reactionary, corrupt, operator-controlled Lewis machine, we have, a candidate who has real significance for Pennsylvania work-

Real Labor Leaders.

It means that after a hundred years of the development of the Labor Party, in which the party has been dominated by the reactionary leaders of the A. F. of L., and been used as a tool of the old capitalist political parties, the politicians of the republican and democratic parties, the Labor Party now will put up candidates who are real trade unionists, who run on no other ticket but the labor ticket, and who, like Brophy and Thomas, have a fine record of struggle for the rankand-file against the bosses and the labor bureaucracy.

Maurer Allowed Sell-Out.

It is interesting to note that James Maurer, the candidate for vice-president in 1928 on the socialist party ticket, for many years the president of the Pennsylvania Federation of Labor, and an influential figure in the Pennsylvania Labor Party, has allowed the above sellout to go on without any struggle.
