Italian and French Imperialists Continue Naval and Army Armaments Competition

FASCISTS REPLY SHARP ON ANGLO-FRENCH TREATY

Both Powers Increase Armies and Navies

ROME. Oct. 8 .-- Italy's reply to the Anglo-French naval pact put this country on record as favoring limitation of total naval tonnage rather than reduction by classes, and declared that it would agree to reductions providing that its ratio was not exceeded by any other continental power, meaning France, it was disclosed today in an interview

with a United Press correspondent. The Italian reply proposed that each country be left free, within the total fixed tonnage limitation. to build the particular classes of ships most suited to its defense.

Italy thus upholds the American position as against the stand of the British and French. The British and French proposed to limit the larger classes of cruisers, essential to the United States with its lack of naval bases, and leave no limit on small cruisers and submarines. The latter are eminently suited to Britain, with her far-flung naval bases, and to France, whose coast line is easy to defend with subma-

Italy insisted in the note on the armaments limitation, and on the extension of aerial limitation to all countries, which is aimed directly at the tremendous French air fleet.

That feature of the note was rimed at efforts to limit separately cist march on Rome, and stress the the three classes of armaments, threats of the fascist leaders that rather than to take into account at they will hold similar demonstraone time all the land, sea and air resources of nations.

Sees Anglo-U. S. War.

ROME, Oct. 8 (UP) .- The Anglo-French naval compromise is the first symptom of a possible armed conflict between the United States and England. Commander Roberto Comolli said today in an article in the newspaper Lavora Italia. Comolli often is regarded as expressing the views of official naval circles.

He predicted that America might devote her immense resources to the creation of the largest navy in the world. Conflict between the two countries lying within the sphere of action of one or the other, he added, or almost the entire world.

There are also comments current relative to the tendency of the workers, who are judged in many quar ters to be too militant for the socialdemocratic leadership, especially those in the Shutzband, and Communism is at the same time being held up as a "danger."

Culinary Workers Start Drive to End Employment Agencies That Fleece Workers

OVER 500 ATTEND MASS MEETING AT BRYANT HALL

Committee Elected to Take Action

Over 500 food workers attended a meeting of the Conference of Culinary Workers yesterday afternoon Bryant Hall, Sixth Ave., near 41st St., to begin a concerted drive against the private "shark" employment agencies now operating by the hundreds in New York City.

The meeting, which was a protest gainst this abominable system of fleecing workers, discussed and formulated plans to fight against this evil. When the meeting began, shortly after 3 p. m., rank and

The drive, according to the secretary of the Amalgamated Food Workers, which initiated the campaign, is only beginning now. Other steps will be taken soon against the Four-Year-Old Frameprivate employment shark agencies by the culinary workers.

Yet strange to say 400 building trades workers answered Mr. Testin's call only to find that he did not need mechanics, but sub-contractors.

WHEN Mr. Testin attempted to explain to the unemployed workers that he did not need mechanics and that his English was far from perfect they could not see the joke and proceeded to cause a tickling sensation on his hide with their fists A policeman who watched the pro ceedings proceeded to come to Mr Testin's assistance and rushed him o cover. VOTE COMMUNIST!

WILLIAM Z. FOSTER

BENJAMIN GITLOW

Every Working Man and Woman Should Register and Vote!

Every effort is being made by the old parties of capitalism to poll a record vote for their two candidates—Hoover and Smith. As far as the much-vaunted American democracy is concerned those who vote for either Hoover, the republican, or Smith, the democrat, will only be exercising the privilege of helping decide which one of two agents of imperialism will head the imperialist government that serves the interests of Wall Street. No worker had any voice in determining whether these two lackeys of capitalism should run. They were chosen by the big capitalists who manipulate the old party conventions.

The socialist party candidate, Mr. Rev. Norman Thomas, was chosen by an aggregation of middle class politicians, with a sprinkling of labor fakers. To vote for such a party is to aid the most unprincipled enemies of the working class; a party whose leaders are among the most vicious strike-breakers and scabherders in the whole country. This charge is made advisedly, taking into consideration even the uniformed cossacks called the state constabulary in the coal and iron regions of Pennsylvania. Between Sigman gangsters in New York who support the socialist party and any other collection of enemies of the working class there is nothing to choose. In fact the yellow socialist outfit is worse because they pretend to be a part of the working class, while most of the other gangsters openly appear in their true colors as bought and paid for mercenaries of the capitalist class.

In order that those class conscious working men and women of the United States who are permitted to vote may be able to go to the polls in November and cast their vote for the one party of the working class, the Workers (Communist) Party, it is necessary to register.

Already thousands upon thousands of workers have signified their desire to see the Communist candidates, Wm. Z. Foster and Benjamin Gitlow, (the only candidates nominated by working class votes) on the ballot in their states by signing petitions to that effect. But in order to vote in November, even though one is a legal voter now and was properly registered before, it is necessary to register again.

Watch your local papers, no matter where you may live, regarding this important phase of political work and be sure to get all eligible members of your family and all your shopmates who are entitled to vote to register NOW so there can be a big Communist vote in November.

By this vote we will be able to guage the development of the sentiment among the working class for the party of the working class—the party of the proletarian revolution—under whose leadership alone the working class can achieve its emancipation from the tyranny of imperialism.

Owen D. Young-"Liberal"

The chairman of the General Electric and co-author of the Dawes plan, Mr. Owen D. Young, announces that he is for Tammany vAl and the democratic party because he is a miberal. The liberalism of this notorious tigent of the House of Morgan, who with wice-President Dawes carried out the plans the banking capitalists to impose the brand essi American imperialism upon Germany, conrill spe; in advocacy of greater imperialist agheir elisiveness for Wall Street under the guise Fostenternationalism.

"Our position in the world will be aided by e election of a liberal party now. Since the Phoar international progress has been largely 1, Tucade by liberal parties. division of the world between the great powers, but he appreciates good and faithful servants of imperialism wherever he finds them. Far from fearing the "socialism" of Ramsay MacDonald, the chairman of the General Electric welcomes him as a comrade in arms. Likewise he welcomes the "socialist" Herriot.

Mr. Young says, in fact, that the most useful servants of imperialism, under certain conditions, are the heroes of the second international, the comrades of the Rev. Norman Thomas and the millionaire lawyer, Morris Hillquit, the titular leader and the real leader of the socialist party of America.

To call the candidate of the Wall Street dominated democratic party-himself the product of and now the chief of a political machine whose very name is a synonym for corrupt politics and every form of graft, extortion, vice and gangsterism,-a liberal is the prerogative of such as Owen D. Young. It is his privilege to call other lackeys of capitalism anything he desires. Likewise it is the privilege of intelligent workers to laugh to scorn such crude propaganda de-
