## **BRAZIL COFFEE** CAUSE OF U. S.-BRITISH FIGHT

Importers Try to Break Price Monopoly

SAO PAULO, Brazil, Oct. 9 .- A new British-American shuffle for South American business has broken out, this time in the coffee business of Brazil, the chief coffee producer in the world. The trade war promises to assume a critical stage in view of the fact that 190,000,000 British dollars are at stake and profits of American import firms are threatened.

The whole matter is now being seriously discussed in the Brazilian press and was brought to the attention of the public by the dedision of American importers to boycott Brazilian coffee, or at least buy just enough to meet home demands until other markets are monopolized This action was taken in an attempt to force the Coffee Institute of Brazil, financed by British loans, to lower its prices on coffee.

Brazil Monopoly.

The coffee industry of Brazil has developed by leaps and bounds during the last few years until it has become the chief coffee source of the world. The coffee growers, as soon as their industry assumed worldwide importance and became the chief source of income in the state of Sao Paulo, assured a monopoly price on their products by organizing the Coffee Institute, which is said a "nigger" was as good as a nothing more or less than a trust white man ought to be lynched. ## **BRITISH WORLD** OIL CARTEL IN WAR ON USSR

Deterding Links Up Eastern Firms

Reports circulating from the offices of British oil companies here make the reported combination of the leading British oil concerns against the Soviet Oil Syndicate, with the momentary cooperation of the United States Standard, almost a certainty.

The British oil cartel includes the Royal Dutch Shell, the Anglo-Persian Oil Company and the Burmah Oil Company which are all interlocked by the mutual ownership of shares and representation on the directing boards. Sir Henry Deterding, director of the Royal Dutch and a sharp enemy of the Soviet Union, has declared his intention of isolating the oil industry of the Soviet Union and to carry on, as he did in the past, a wide political campaign against the government which expropriated oil fields which he at one time pos-

(By a Worker Correspondent) KENOSHA, Wis. (By Mail) .- The attempt of the Allen-A mill bosses to frame the striking hosiery workers here was scored on Thursday by Alfred Hoffman, an organizer of the Federation of Full Fashioned Hosiery workers.

VOTE COMMUNIST! For Vice-President WILLIAM Z. FOSTER

BENJAMIN GITLOW

For the Party of the Class Struggle!

### Negroes! Do Not Be Political Footballs! Defend Your Race and Class!

A more open and brazen bid for the support of the detestable ku klux klan in the South than that made in the Elizabethtown speech of Herbert Hoover would be difficult to imagine. In discussing federal civil service appointments the republican candidate assured his audience that he believed "appointive offices should be filled by those who deserve the confidence and respect of the communities they serve." Such language is well understood in the South. It means the exclusion of Negroes from appointive offices on the ground that, because they are discriminated against as a race and exploited as workers and poor farmers they do not deserve the respect and confidence of the "lily whites." It is equivalent to a promise not to appoint Negroes as postmasters and other such jobs.

This republican campaign against Negroes was supplemented by Senator Moses when he addressed the women's national republican club in New York on Monday. This New Hampshire senator, one of the very front line politicians of the Mellon-Coolidge-Hoover machine, spoke contemptuously of a Negro official "dictating to a white stenographer of he female sex.'

Thus the republican party, the party that or years has claimed the support of the Negroes as a race because they were alleged to oppose the avowedly anti-Negro policies of the democratic party in the South, publicly avows its determination to discriminate against Negroes

What difference is there between Herbert Hoover, Senator George H. Moses and the democratic governor, Byrd of Virginia, who keeps a white woman in jail as a measure of protecting "the purity of the white race" because she married a Negro? What difference is there between Hoover and Al Smith who was nominated by the democratic convention in Houston at the identical time a cowardly mob was lynching a Negro in the vicinity and who never so much as mentioned the atrocity? Hoover would prevent Negroes being appointed to federal office no matter how competent they are just because they are held by the southern bourbons to be inferior. Smith was so anxious to appeal to southern hatred of the Negro that his Tammany machine prevented Negroes being sent to Houston for fear it would endanger his

chances of nomination. For every crime of the republicans against the Negroes, there is a crime by the democrats to match it. Both old parties are enemies of the Negro.

Negroes! Do not be fooled by either of these parties!

Do not support those parties who bid for ku klux support and defame you as a race, exploit you as a class, belittle your ability, and treat you as though you belonged to an inferior people. To be consistent you cannot support the parties that protect the lilywhites who burn alive and hang your sons, ravage your daughters and treat you worse than beasts of burden!

Oppressed as a race and a class the Negro masses should support the one and only Party that demands full racial equality-economic. social and political-the one party that fights to scourge from the face of the earth the dastardly crime of lynching.

Only the Workers (Communist) Party fights relentlessly against jim-crowism; fights to wipe out laws prohibiting intermarriage; fights against every form of

segregation. The Negro who supports any party other than the Workers (Communist) Party aids the master class keep his race and his class In monstrous thralldom.

Negroes! Refuse to be political footballs! Defend your race and your class!

The working class of Austria must realize that the prerequisite for the defeat of fascism is the extermination of those other agents of capitalist reaction, the social-democrats. Chicago this year, opera is in for a bad season. In former years the vendors of beer and booze were the principal supporters of that form of entertainment. But a prolonged war is a heavy drain on even the best of gangs so the prohibition profiteers who used to clutter the stage with florial contributions to the stars and the box office with their money have spent so much money buying up the government that there is not much left to subsidize higher forms of art. The cost of burying the dead is an additional burden, the gangsters being anything but pikers.

A \$10,000 coffin will bear the remains of Micky Schatz, Brooklyn gangster to his last resting place. By the time this appears in print the pastor of the Church of Our Lady of Peace in that borough will have given Micky the correct religious send-off and no doubt will recall his may benefiencies to the bearded patriarch in the sky. "It is an all wind that blows no good" and whatever may be said against the gangstering profession, it certainly does not hurt the mortician's business. What war is to the munitions manufacturer racketeering is to the undertaker.

THAT was a neat trick pulled off by, the Berlin Communists on their social-democratic rivals. There being a referendum going on against the approval by the socialist ministry of the building of several cruisers, the Communists wished to secure the use of the government broadcasting station for the propagation of their views. The socialist government decided that a Communist was as dangerous on the air as on the ground so a certain Herr Schwartz, editor of the socialist paper Vorwaerts was given permission to speak on "world peace."
