Post Office Forced to Restore Daily Worker to Mails; New Provision Suggests Trick

## STRONG PROTEST FORCES FEDERAL OFFICIALS' HAND

Notice Evades Mention Of Real Reason For Barring Paper

#### Danger Still Imminent Labor Urged to Keep Up Support

Officials of the Post Office Department at Washington yesterday countermanded the order of the New York post office which Tuesday held up the big special election edition of the Daily Worker. In a wire signed by Postmaster General Harry S. New, several hundred thousand copies of the California and other special editions which have been denied the mails are restored to second class privileges.

At the same time certain new and peculiar specifications are laid down which indicate that the issue is by no means closed and may again be revived at any moment thought favorable by the govern-ment officials.

Employ Subterfure.

As was foreshadowed yesterday, post office officials have sought to camouflage the original reason for holding up the paper because it is the "organ of a political party" in the new claim that the paper was denied the mails because of a ques-tion over the failure to report the price at which the special editions

vised," the wire states, "to accept them (the copies of the special edition) at second class pound rates."

Then follows the significant pas-

"In similar cases in the future." the wire reads, "you should furnish your postmaster with evidence of purchase of copies and amount paid for them.' May Be Trick.

This new provision which may be interpreted in various ways according to the whim of the post office officials may at any time be used as the excuse again to bar the paper. The provision "evidence of purchase of copies" and the "amount paid for them" are obviously impossible of fulfillment in most instances since go paper can be expected to secure dvance evidence of purchase paricularly when the question of what constitutes "evidence" is to be de-

cided by the post office.

The added burden and expense which have been placed on the Daily Worker as a result of the new attack, as well as the unusual c ndition set down for it in the future Nearing to Speak At forces the paper to continue its appeal for financial aid to members of the Workers Party and its sympathizers. Workers are urged to and to send in contributions in order that a very serious crisis :: zý be

STATEMENT OF CENTRAL EXECUTIVE COMMITTEE OF WORKERS (COMMUNIST) PARTY. Workers! Comrades!

Only a few days remain before Election Day.

Every member of our Party must increase his activities ten-fold. We have to muster a big Communist vote. We have to prove that the Communist Party of America has roots in the masses of the working class. We have to prove that there is a challenge to the masters of American imperialism. We have to prove that there is a political expression of the working class in this country. We have to prove that there is at least one strong voice of protest against imperialist war. We have to prove that there is a fearless voice raised against the oppression of the Negro masses. We have to prove that there is a political party of the working class conducting an uncompromising fight of the proletarian class struggle. The last stage of the election struggle shows the climax of capi-

talist demagogy and hypocrisy. President Coolidge, the "president strikebreaker," declared in Fredericksburg that "under our free institutions and equality of opportunity the distribution of wealth is solving itself in accordance with natural laws." He is brazen-faced enough to maintain that "the mansion of the United States is not complete but is already the most comfortable habitation which a nation ever enjoyed."

Hoover, the "efficiency expert" of capitalist speed-up, main-

tained: "We, in America, are nearer to the final triumph over poverty than ever before in the history of any land. . . . Given a chance to go forward with the policies of the last eight years, and we shall on, with the help of God, be in sight of the day when poverty will be banished from the nation."

Ambassador Houghton, republican candidate for United States senator from New York, makes the following bold-faced statement: "If the process is neither checked nor thwarted, if we can go as far in the next few years as in the past few, we may be

sure that we are approaching that goal which Mr. Hoover has pointed out—the elimination of poverty, of unemployment, of under-nourishment, of fear, of cold, of ignorance." That Al Smith's right-hand man, Colonel Herbert H. Twenty-five thousand dollars of this fund was contributed by the Forward and an equal amount was pledged and in due time delivered by the Amalgamated Clothing Workers Union thru its bank.

Morris Hillquit and Norman Thomas, one the chief of the socialist party, and the other, its candidate for president in the coming elections, were both at the last convention of the right wing Interna-tional Ladies' Garment Workers' Union, held in Boston last May, where Benjamin Schlesinger received Hillquit's and Thomas' backing for the presidency of the union. Schlesinger's Price.

With the union a wreck because of the right wing's policy of fighting the left wing, who were at that time holding a conference in the same city to form a new national union, Schlesinger demanded of his backers, Hillquit, and Abe Cahan of the Forward, that he be guaranteed a fund of \$100,000 before he would take the helm in the reactionary drive against the workers in the industry. The fund was provided, even tho the socialist party leaders had to go to Tammany Hall to get it. The whole complicated deal of

Tammany Hall, the socialist party, and its trade union bureaucrats, was made at a time when the left wing struggle to build a new union was gathering tremendous headway nationally. It was put thru secretly, so that the work of tightening the chains of exploitation around the garment workers may be carried thru by the employers and their ma-Continued on Page Seven

#### Imperialist Invasion of Nicaragua

American marines, sent to Nicaragua to enslave the workers and peasants and defend the interests of Wall Street, are shown landing at Corinto, Nicaragua. These young workers, forced into the service by unemployment or deceived by fake promises of recruiting officers, are often forced to march thirty miles daily in the mud and thru jungles with a heavy pack, and to take the place of oxen in pulling artillery. The lives of many marines are sacrificed by Wall Street in the effort to crush the brave army of General Sandino, which is fighting for freedo against imperialist exploitation.

tribution of wealth in accordance with natural laws." Reality shows that there is no other country in the world in which there is such an abyss between the accumulated fortunes of the few and the accumulated poverty of the masses. Hoover brags about "the final triumph over poverty." Houghton coins phrases about "the conquest of poverty," trying to hide the basic fact of present capitalist society, trying to cover up the fundamentals of capitalism, which are poverty, unemployment, under-nourishment, cold, ignorance of the

Governor Smith and his democratic party pose as the opposition to the ruling republican party, but the democratic party does not oppose anything essential in the capitalist program of the republicans. It most emphatically declares that it has the same policies on tariff, on prohibition, on immigration. It denies the existence of the "Negro question." It takes a similar stand for the perpetuation of wage slavery. It assures big business that it will maintain under democratic administration all its present privileges and monopolies.

Mr. Hoover, in his New York Madison Square Garden speech accused Al Smith of having state socialistic tendencies. That accusation is, of course, nonsensical. Al Smith is at least as good a servant and defender of capitalism as Herbert Hoover or Calvin Coolidge themselves. And the merger of big business and governmental institutions manifested itself in an unprecedented degree under the republican administration as in no time in the history of

The American Federation of Labor bureaucracy wholeheartedly supports the capitalist candidates. The notorious class-collaboration policies of Samuel Gompers are cited by all capitalist politicians as model policies for the working class.

The socialist party of America announces its own "renaissance." because a "descendant of one of the world's richest men," young Frederick Vanderbilt Field, joined its ranks. Liberal professors and well-paid writers are endorsing the socialist ticket, because the socialist party has abandoned the last remnants of Marxism and has repudiated the proletarian class struggle. Republican, democratic, and socialist parties alike are for the maintenance of the present capitalist system, for the perpetuation of capitalist exploitation and oppression, for the continuation of wage slavery and racial

The danger of the next world war is looming up big. United States marines are still in Nicaragua to prevent "election frauds" at the same time that both capitalist parties here are trying to frame as many election frauds as possible. United States imperialism is making a new bid to conquer the vast Chinese market. The renegade Nanking government, smeared from top to bottom with the blood of Chinese workers, is appointing American financial and economic advisors. American imperialism is today advocating-of course only in phrases-the national independence and unification of China at the same time that it disenfranchises the Negro masses of the "Black Belt" of their right of national self-determination.

Only the Workers (Communist) Party of America fights for the interests of the working class, puts forward a program of social insurance, calls upon the workers to organize in new militant unions against wage cuts, against open shop, against all the evils of capitalist speed-up, for shorter hours, higher wages.

Only the Communist Party demands complete and immediate

Only the Communists struggle for the immediate withdrawal of American troops from China and Nicaragua.

Only the Communists expose the imperialist machinations and war preparations of the United States government.

Only the Communist Party dares to penetrate the "Solid South" with a program of full social, political, and racial equality for the Negroes, with the slogan of national self-determination of the Negroes, giving the Negro masses the right to establish their own state, to erect their own government in the South, if they choose to

Only the Communist Party is leading the strike struggles' of the miners, the textile and needle trades workers.

Workers! Comrades! Concentrate your energies in the last stage of the election struggle on the mobilization of the broad masses, The Communist Party does not conduct its election struggle for the purpose of grabbing offices. Our sole aim is the mobilization of the masses against the bosses. Parliamentary seats would serve us only as tribunes for our anti-capitalist, revolutionary propaganda. We want to utilize the institutions of American "democracy" for the purpose of exposing American democracy as naked capitalist dictator-

Interests Ignored.

There is practically no social legislation for the young workers in the United States. Their wages are far below the minimum standard set, even by the bourgeois agencies. The 8-hour day is non-existant for the mass of the young workers. They are employed in dangerous occupations, at overtime and night

As far as educational possibilities are concerned (and one must not forget that education in this country is capitalist class education) these are limited for the working class youth. Almost half of the children in this country do not even graduate from the elementary schools.

Hoodwink Youth Into War. The bourgeoisie is not satisfied working class youth. In the interests of new markets, a fresh redivision of the world is being prepared. ## **FAKE POLICIES** NO RELATION TO IDEAS OF MARX

Much Ado Over Nothing But Capitalism

By WM. W. WEINSTONE.

An extra show of the big circus that annually performs at Madison Square Garden was put on October 22nd, when Herbert Hoover delivered his presidential address to the New York "public."

Hoover found Al Smith guilty of the great charge of advocating a program of state socialism.

A little side-show of the circus was put on by Jacob Panken at the Hotel Astor when he declared that it is absurd of Mr. Hoover to charge Smith with being a socialist. Another little performance was put on by Norman Thomas in Syracuse, before the student body of the Syracuse University, when he declared that the most Smith ever did was to borrow a socialist sock or vest and that the planks of Smith are not socialism or good sense.

A Comedy.

Norman Thomas further declared that "there is an unconscious drift toward socialism which events are forcing on capitalist parties through a process of developing collective ownership and democratic management of what we collectively need for an adequate life."

The whole situation is a great comedy.

Hoover's charge against Smith of being a socialist is, of course, intended to frighten away the small business men to which Smith is especially catering by raising the cry that the property of the capitalist and in that way to secure the support of the small business inter-Belleville, Ill. The labor unions had never experienced Capeti. such open attacks against their very existence as they are experiencing now. Gompers, Green, Woll were against the immigrant because they did not like the militancy and the class-consciousness of the European worker. The Russian workers are now most hated by reactionaries like Woll because those workers have abolished capitalism. It is reaction that stands for restriction of immigration. These restrictions were put through during the years after the war when patriotism and Red hysteria ran high.

The socialist party, which stands for reaction in the labor movement, stands for restriction of immigration and for the infamous race-discriminating immigration quotas. The party that fights reaction, the Workers (Communist) Party, thru its platform condemns the present immigration laws and immigration quotas and stands for free immigration and for the equality of the foreign-born worker, as well as for the equality of all races.

Navy Day-Imperialist War Day

American imperialism selected October 27 as "Navy Day."

This means War Day. It means a day on which the masses of toiling population are psychologized in preparation for the coming imperialist wars of conquest for the benefit of the owners and rulers of this countrythe oligarchy of finance-capital.

The United States already maintains the largest military and naval forces it has ever had during any time of peace.

The Coolidge administration has sp t more than 11/2 billion dollars on the navy. The total amount spent for armaments by the United States in 1927 is the biggest spent by any country-nearly six hundred million dollars. From 1913 to 1927 the United States increased its military budget by 124 per cent; England by 65 per cent; Italy by 15 per cent and France by 2 per

In his address on Soldiers and Sailors Memorial Day, May 30, 1928, Coolidge said:

"Our investments and trade relations are such that it is almost impossible to conceive of any conflict anywhere on earth which would not affect us injuriously. Whether so intended or not, any nations engaging in war would thereby necessarily be engaged in a course prejudicial to us.'

American war plans show themselves in Europe, in Asia (the recent maneuvers with the Nanking government), in Latin America (crushing of Nicaragua), the vigorous hostility to the Soviet Union (refusal to recognize), sharpening of Anglo-American relations (the struggle over the size of the navy, the war debt problem, the struggle over oil and rubber). Captain Luke McNamee, one of the leading American naval strategists, recently said:

"History shows that war is but an ultimate form of economic competition. If we are to compete on equal terms we must have a navv able to protect our trade. 'He who controls the sea controls the world'-that is Mahan's dictum. We do not wish to control the sea but if protection means anything we are willing to fight for the freedom of that sea from the control of anyone.

". . . I wish to say a word about false propaganda against the army and navy. I am repeating no idle rumor when I tell you that much of this propaganda has a sinister foreign source, its object-the overthrow of our government and the ultimate dictatorship of the proletariat."

The American workers must be roused. especially at those times when the imperialist butchers are engaged in such drives as that of Navy Day. Especially in connection with our election campaign, we, the Communists, point to the war danger as the center of importance among issues.

The Communist election campaign is a campaign of class struggle. Therefore we call to the workers to mobilize on Navy Day -against the imperialist war plans!

The Workers (Communist) Party's election platform presents proposals in the fight against the imperialist war danger. It fol-

(1) Not a man, not a gun, not a cent for the imperialist army and navy.

(2) Down with the imperialist war against Nicaragua; defeat Wall Street's war in Nicaragua; marines sent to Nicaragua must refuse to fight against the national liberation army. American marines in Nicaragua and China, go over to the side of the Nicaraguan and Chinese revolutions!

(3) Immediate withdrawal of all American troops from Latin America and from the colonies in the Pacific. Immediate withdrawal of United States warships and marines from

(4) Complete and immediate independence for all American colonies and semi-colonies. (5) Hands off Mexico.

(6) Abolition of the regime of the United States customs control, or "supervision" of finances in Latin America. Withdrawal of support from the puppet governments supervised United States imperialism such as those of Gomez of Venezuela, Legufa of Peru, and

(7) Abolition of all extra-territoriality privileges of the United States in South and Central America.

(8) Abolition of the present mercenary army and navy and state militia, and struggle for a toilers' militia; selection of officers by the soldiers and sailors. Full right to vote and hold office for the members of the military

(9) Fight for the abolition of the whole system of infamous imperialist "peace treaties." Down with the Dawes Plan! Down with the Kellogg Treaties! Cancellation of all debts of the last imperialist world war. Immediate withdrawal from the World Court and refusal to enter into the League of Nations.

#### Hoover, Exploiter of Coolies, Serfs and Slaves .

John Sullivan, President of the New York State Federation of Labor, has issued a statement sponsoring grave charges against Herbert Hoover.

He piles up a whole series of facts to prove that Hoover got his millions out of the most ruthless exploitation of Chinese coolies, Indian slaves, and Russian half-serfs.

In India, Hoover, as chairman of the Burma Corporation, Itd., employed 20,000 men, whom official British documents called "compulsory free labor."

In China, mines operated by Hoover forced 40,000 coolies "with the bayonets and soldiers of your partner, the Empress of China, under conditions of semi-slavery."

In Tzarist Russia, Hoover was engaged in the operation of railroads, copper and sulphur mines, and "among the number of employed some 30,000 of them were serfs and convicts with cossacks using the whip and rifle to force compulsory employment in the financial interest of you and your partners, the Romanoff royal family."

These charges put forward by Mr. Sullivan are very serious, and throw a powerful searchlight on the activities of the presidential candidate of finance capital.

But Mr. Sullivan, as an experienced and notorious labor faker, does not tell the whole truth. He keeps quiet about the following fundamental facts:

1. That not only Hoover as an individual but the whole American master class is engaged in the same kind of ruthless exploitation of coolies in China, peasants in Latin America, and half-slaves in the various

2. That Hoover and the whole capitalist class of this country is exploiting not only Chinese coolies and Burmese slaves and Mexican peasants, but are with all their force and strength for the perpetuation of wage slavery in the United States and for the maintenance in virtual slavery of the Negroes of the South.

3. That Al Smith, Mr. Sullivan's favorite candidate, is by no means better than Hoover; that he, just as Hoover, stands for the exploitation and oppression of the toilers here in America.

4. That Mr. Sullivan and his labor-faker colleagues, the hole American Federation of Labor, are not putting up any resistance to defend the colonial peoples or the workers of this country against exploitation and oppression.

5. That there is only one political force, the Workers (Communist) Party of America, which fights for the liberation of the colonial peoples, for the overthrow of capitalism, for the abolition of wage slavery, for the emancipation of the Negroes.

The extension of the Communist election campaign to more than three-fourths of the states can be ascribed to the following: (1) The objective conditions which placed the Workers (Communist) Party in the forefront as the only revolutionary political party of the American working class; (2) the growing influence of the Party among the masses as a result of its participation in all the struggles of the workers during the past four years; (3) the enthusiasm and intensity with which the Party membership has thrown itself into the election campaign carrying along with it sympathetic elements that helped a great deal with the work; (4) the fact that the Central Executive Committee began the organization al work with regard to the election campaign as early as last spring and (5) the impetus which the election campaign received from the National Nominating Convention held in May.

Democracy Exposed.

American democracy makes it dif-ficult for a party of the working class to appear officially on the ballot. Numerous regulations are set up making it obligatory on a minor party to either secure a certain per centage of the total vote cast in preceding elections, or to gather and present to the state authorities a requisite number of petitions signed by duly qualified and registered

#### Communists Fight for the Negro Worker By OTTO HUISWOUD.

Terrorism! This is the answer of the capitalist class to the campaign for the mobilization of the workers for struggle against capitalism by the Workers (Communist) Party. In all sections of the country, the workers are being attacked, meetings broken up, speakers arrested,

The American legion, ku klux klan and other terrorist organizations have united their forces in an attempt to prevent the Communists bringing the message of labor solidarity to the masses, black and white. The forces of reaction are aroused and are leaving no stone unturned to stop the party from reaching the Negro workers with its slogan-"Full economic, political and social equality for the Negro race." Reaching Negro Masses.

The vicious and brutal attacks launched against our party, particularly in the south and southwest, are indicative of the effectiveness of our campaign in those sections of the country. That the Party is penetrating the "solid south" and is doing effective work among the Negro masses is attested by the fact that every issue of the southern Negro press is filled with news-matter concerning the stand taken by Communists on the race issue.

Not only this, but Negro workers are responding and attending the meetings at which the presidential candidates and other speakers of the Party appear.

In Houston, Texas, where Negro risitors to the democratic convention were cooped up in a wire cage and where Robert Powell was lynched a few days before that convention, a meeting of the Workers (Communist) Party at which its vice-presidential candidate, Benjamin Gitlow, was to speak, was raided by the police. The reason given for this raid was the invitation extended to Negroes to attend the meeting and the Party participated in the strug- the fact that they would be seated gles of the workers (needle trades, in the same hall with the white workvorkers enthusiastically responded however, in another hall with white

To hold him in abject slavery, to make him a "hewer of wood and a drawer of water," to keep him in a condition of poverty and servitude, to make him a docile slave, this is the program of the ruling class, supported by the republican and demo-

cratic parties. In spite of all these acts of terrorism and violence, resorted to by the lackeys of the ruling class, the Negro workers are more and more lending a willing ear to the Communist program. Meetings of the Workers (Communist) Party throughout the country are drawing ever larger numbers of Negro workers. In Kansas City, 400 Negro workers attended a mass meeting held by the Party. Everywhere Negro workers are drawn into the ranks of the only Party that fights against segregation, disfranchisement, lynching and for the organization of the Negro and white workers on a basis of
