Foster Exposes All Three Boss Parties in Speech

Speaking before 20,000 workers at Madison Square Garden yesterday afternoon, William Z. Foster, Communist candidate for president, said

This demonstration is the climax of the greatest election campaign that the left wing movement in this country has ever conducted. The campaign emphasized the coming forward of the Workers (Communist) Party as the organizer and leader of the workingclass, and the Party will undoubtedly draw the biggest vote in its history.

The day will surely come when some Communist will stand at the head of the government in America. But we are under no delusions as to the nature of that government. When a Communist is elected president of the United States he will be the head of a Soviet government of the workers and poor

The socialist party has been for ten years in a process of decline and degeneration and the present campaign marks its lowest point. It has adopted completely the program of the bureaucrats and has become the party of the petty-bourgeoisie. And its organizational degeneration proceeds as fast as its political degeneration. The socialist party will go down to oblivion unhonored and unsung.

The two big parties have come forward with a program more brazenly capitalistic than ever before. The democratic party platform is identical in essentials with the republican platform. Workers and farmers can look to it for no relief of their present unbearable conditions. Instead of the Ku Klux Klan of Hoover, the democratic party offers us the catholic church of Al Smith

Smith's labor speech in Newark the other night was, if possible, even more reactionary than Hoover's. It was a brazenly openshop speech. He tried to give the impression that the democratic party is against injunctions. Yet it was during the Wilson administration that under the instigation of the infamous A. Mitchell Palmer, there was issued the most drastic injunction in the history of the country-the one against the United Mine Workers. And it was with Al Smith as governor of New York that during the cloakmakers' strike two years ago one almost as bad was issued.

Smith and the democratic party have nothing to offer the workers. Workers who vote for the two big parties are voting against their own interests. And labor leaders who endorse the capitalist parties

are betrayers of the workers. "The bureaucrats of the American Federation of Labor, who are supporting Hoover and Smith, have entirely abandoned the struggle against the bosses. The workers of this country must free themselves from this parasitic misleadership and carry on a militant struggle against their

Workers (Communist) Party is the only revolutionary party. We tell the workers frankly: not by reforming capitalism, but by overthrowing capitalism will your emancipation be achieved. And in this campaign we have laid the greatest emphasis on the Negro question. The Party has taken up the cudgels in behalf of the Negro and has declared war against every form of Negro persecution.

And we tell the white workers that the semi-enslavement of the Negro workers is a blow against all the workers. We demand complete social and political equality for the Negroes. And, moveover, for the first time in this country, we have raised the slogan of the right of self-determination for the Negroes.

And what of the socialist party and the Negroes? Well, Norman Thomas made a speaking tour in the south and throughout that tour he never said a word for the

War Danger.

There is the problem of the war danger facing the workers of this country. It is my opinion that never since the signing of the Versailles treaty has the danger of war been so imminent. The conflicts among the imperialist powers are leading inevitably to a new and more terrible world war. And they are counting on the socialist parties of the world to remove the opposition of the workers to this war and to lead the workers to the slaughter.

But in this they will, I think, be doomed to defeat. For since the last world war the Communist International has been organized and the Communist Parties of the world will not only oppose the next imperialist war, but will put into effect the policy of Lenin and of the Communist International and convert the imperialist war into a civil war against the capitalist class.

Must Organize for Fight. Out of the last war there emerged a Soviet government in one country. Before the next war is over there will be a whole string of Soviet governments in the world. Today we celebrate the 11th anniversary of the revolution that created the Soviet Union. Despite the imperialists, despite their efforts to crush the only workers' and peasants' government-efforts which still continue-the Soviet Union lives, the Soviet Union is marching from

victory to victory. Just as the small Communist Party of Russia overthrew Russian czarism and capitalism, the Communist Parties will overthrow capitalism in every country. Here in the United States we are now asking the workers to pave the way for that overthrow by voting the Communist ticket in the elections. And, what is more, we ask you to join the Workers (Communist) Party and organize for the fight that will strike the death blow to American imperial-

It has now been definitely proven that Sacco and Vanzetti were innocent. The article that appears in The Outlook has definitely proven what the masses of the revolutionary workers always have maintained about Sacco and Vanzetti. They have always maintained that Sacco and Vanzetti were innocent and were the victims of a frame-up on the part of the capitalist ruling class of this country.

Fuller-Murderer.

The article shows that Governor Fuller had in his possession the evidence proving their innocence, and he now stands once more revealed as a murderer. And equally guilty with Governor Fuller is the whole capitalist class and its agents.

The Workers (Communist)
Party declares that the workers of the United States and of the entire world will not forget the murder of Sacco and Vanzetti. There will come a time and it will come soon in the United States when those guilty of this murder will be baled before the revolutionary tribunal of the workers and will have to answer for their crime. \$12,000,000 For Boss Parties.

During the Harding administration we witnessed the Teapot Dome oil scandals. The oil grafters are 100 per cent Americans and they are free. But if a starving worker takes a loaf of bread to keep himself from dying, he is put in jail as a criminal. How do you expect the government of the oil grafters to send the oil grafters to prison? And how do you expect the gov-ernment of Wall Street to take

action against Wall Street's robber activities?

"Proud To Be Bolsheviks."

The Workers Party points out the class character of the American government. We tell the workers that only the revolutionary struggle against Wall St. can overthrow it and its government.

The government is engaged in extending the influence of capi-talism, of intensifying exploitation. In pursuing its imperialist policy, it is coming in conflict with other imperialist powers, leading to world war. Only the Communists are fighting this war in true Bolshevik fashion. And we are proud to be Bolsheviks.

We are proud to learn from the

experiences of the Russian workers and peasants. We must go forward to the organization of a mighty revolutionary party of the workers in this country if capi-talism is to be overthrown.

Over 1.000 Militants Present

At Irving Plaza Hall, Irving Pl. and 15th St. on Friday evening, over 1,000 women workers, engaged in various industries, listened to leading women militants expose the antiabor role of the democratic, republican and socialist parties and urge all women workers and workingclass housewives to support the class struggle program of the Workers (Communist) Party.

Inthusiastic applause greeted the neeches of the women Communist campaigners, each of whom is playing a leading role in the fight of vomen workers against exploitation. Speakers representing several industries outlined the struggles in their respective plants which opened the eyes of the workers to the necessity of carrying on a bitter class struggle against the present capitalist system.

The meeting was opened by Ray Ragozin, Communist candidate for assembly in the 23rd District of Brooklyn.

The speakers were Gertrude Welsh, organizer of workers in the food trades, who briefly brought out the anti-working class nature of all the candidates but those of the Workers (Communist) Party; Rose Wortis, who spoke of the needle trades workers; Grace Campbell, Negro woman militant, who was greeted enthusiastically by a spontaneous singing of "The Internaers and the trade union bureaucracy: Rebecca Grecht, running in the 5th Bronx assembly district and active in workers' struggles for retary of the United Councils of head electrician. WORKERS (COMMUNIST) PARTY

For the Party of the Class Struggle! Against the Capitalists!

A Campaign for the Revolution

The Communist election campaign, wind-. ing up the tours of Foster and Gitlow with an unprecedented working class parade in New York streets Saturday and the stirring meeting at Madison Square Garden Sunday, was in sharp contrast to the campaigns of the other parties.

The Garden meeting, to a degree, symbolized the entire campaign. For one thing, it was one of the biggest election meetings ever held by any party in New York. Its character was in sharp contrast to the scenes a few hours earlier when the Wall Street-Tammany candidate, Al Smith, in the same hall, indulged in his customary clowning while evading every issue, or the scene of a few days earlier when Herbert Hoover, the sublime flunkey of imperialism, delivered one of his masterpieces of sophistry. In place of an array of multi-millionaires and corporation lawyers, the platform at this enormous meeting was occupied by leaders and rank and file members of the working class; instead of evasiveness on every vital question facing the masses of exploited workers and farmers, the revolutionary challenge of Communism to capitalism reechoed throughout the vast auditorium crowded with workers. Instead of the futility of Norman Thomas and the yellow middle-class elements who mock the name of socialism, there was put forth a definite, comprehensive program of working class struggle against imperialist despotism.

It was the penultimate of what is by far the greatest campaign ever waged in the United States by the revolutionary political party, a campaign that was carried to the farthest parts of the United States and that evoked the combined hatred of the ruling class. The problem of unemployment, of wage-cuts, of speed-up and terror against the working class was met by the Workers (Communist) Party. Countless thousands of workers realize now that only the working class party offers a solution for their ills. Our Party has come decisively forward as the sole champion of the working class, as the sole champion of the poor farmers, exposing the pretenses of all three capitalist parties-republicans, democrats and socialists. Ours is the one party in the United States that fights on every sector of the class struggle, that stands unequivocally for the racial and social equality for the Negro masses, that protects the foreignborn workers, that fights for the organization of the unorganized workers and that leads the masses on the road to the revolutionary overthrow of the capitalist system.

The great Madison Square Garden at which our candidates for president and vice president and our principal state candidates presented the plaftorm of the class struggle, although it is the last great meeting of the election campaign, is by no means the end of the Communist drive, but only an outstanding incident. It is a landmark from which we proceed to take advantage of the wide influence we have gained among the exploited masses in order better to be able to continue our fight to generate that accumulation of energy, that continuity of resistance and concentration of force that will deliver the final blow to the rule of the imperialist capitalist class of the United States and establish in its place a workers' and

farmers' government. You, fellow workers, you, comrades of the workshops, factories, mills, mines and farms-go to the polls Tuesday and Vote

Communism in the Schools

Not only does the capitalist class pollute the minds of children in the public schools in the hope that they will become loyal lackeys of imperialism, but they suppress with fury every attempt to bring the real facts of life, especially the facts about the class struggle in modern society, before the pupils. That the teachers whose job it is to misinform the pupils with capitalist ignorance and prejudice are unable to meet the arguments of the Pioneers of the Young Workers League is evidenced by the recent expulsion from Junior High School, the Bronx, of Harry Eismann and Bernard Kaplan. This expulsion was the culmination of a campaign of terrorism against the Pioneers that has been going on since the beginning of the term. The principal, a selfstyled liberal, admitted that he suspended them for carrying on agitation against overcrowded schools, demanding an annex, a cafeteria and discussing working class strug2 gles in classes.

This suspension in New York is one of a series of attacks against the Young Pioneers by the combined forces of the state-the courts, the police, the press, the schools. In Los Angeles the headquarters of the Young Workers League was raided and the leaders of the movement jailed. In New Bedford and Fall River the police are stationed at headquarters and do not permit the children to enter their own halls.

Of course, this is another means of trying to stifle the Communist movement in this country, by striking at the Pioneer movement. But no attempts of the school authorities, the courts, the police, the American Legion, Veterans of Foreign Wars or any other agency, can crush these Red youngsters. Rather the attacks against them will steel them in the struggle and assure the future of the Communist movement in this country.

Behind the Pioneers stands the vanguard of the proletariat of this country, the Workers (Communist) Party, under whose guidance many youngsters in their early teens are able to expose and ridicule the shabby pretenses to learning of the teachers and professors turned out of the best schools of capitalism. • The Pioneer movement is rapidly growing and no studied terror can stifle

The alliance between the leaders of the C. R. O. M. and the A. F. of L. strengthens the penetration and control of American imperialism in Mexico. The A. The majority of the old revolutionaries have vested interests now. They have become landowners, proprietors and partners in industrial enterprises. Thus the leaders of the petty bourgeoisie have ceased as a revolutionary factor and their remaining power would not only be useless but prejudicial to the working class.

General Calles, the outstanding leader of the middle class, has just raised his flag before the generals and politicians of the reaction. His resolution refusing to remain in power any longer leaves the destinies of Mexico to a group of reactionaries. The government of the petty bourgeoisie has been a buffer government between the right and left-between the forces of reaction and the revolutionary elements.
