

Rush Funds, Must End Slump; 'Daily' Tag Days Begin Friday!

Tomorrow marks the beginning of the nation-wide Tag Days to save the Daily Worker. For three days in every city of the country, thousands of volunteers will collect from house to house, in the shops, in the streets and wherever the workers gather.

The Tag Days come at an unusually critical time for the Daily Worker. The tremendous drop in contributions during the past two weeks has brought the Daily face to face with disaster. Only successful Tag Days can avert this disaster and keep the Daily Worker alive!

This means that every worker, every reader must put all his energies into the drive during the next few days in order that the \$35,000 may be raised; it means that every workers' organization must give all possible aid.

The Tag Days must make up for the slump in the drive! In New York, Detroit, San Francisco, Pittsburgh, Cleveland, Buffalo, Boston and Baltimore plans have been worked out to enlist broad masses of workers in the Tag Day collections. Every city, big or little, must do likewise! Tomorrow, Saturday and Sunday the entire country must be flooded with collectors and thousands of dollars raised to

prevent suspension! Mass participation in the Tag Days must be the slogan! But the Daily Worker must continue to live until the Tag Day funds begin to come in. We need money TODAY to get out tomorrow's issue.

The striking miners must have the Daily to inspire and lead them in their struggle. Only you, fellow-workers, can give it to them. The Scottsboro boys must have the Daily if they are to gain freedom. Only you can give it to them. Collect on the Tag Days, and dig into your pockets today and rush your contributions to the Daily Worker, 50 E. 13th St., New York City!

WIN FIRST STEP IN FIGHT ON UMW-BOSS SCAB PACT

Protest Against the Slaughter of Striking Miners On Union Square at 5 P. M. Tonight!

Holes In the "Hoover Boom"

ONE must pay homage to the flood of propaganda of the new "Hoover Boom" that has sent stocks up—though not so far—on every stock exchange of the capitalist world. But all this fuss does not answer the questions: Does Hoover's "Plan" solve the crisis in Germany? Does it solve the world crisis? Workers must not forget the complications of the German crisis, where the present sharpness is caused by a reparations payment crisis on top of the economic crisis. Even with the reparations burden removed, the economic crisis remains. The crisis in Germany is not the same as the immediate post-war crises, where the very machinery of production was in part destroyed, and where there was a crisis in trade (1922-23) by reason of the collapse of the currency. The crisis is now an over-production crisis, an accumulation of commodities for which there is no market. Wednesday's papers quote Bruening as declaring that the recent "Emergency Decree" which robs the German workers of their last crust, will still be enforced! Against this decree barricades have already been raised in the streets of Germany. Bruening adds that the millions "saved" by postponing reparations payments must be used "otherwise" than to relieve the burden on the masses. That is, in paying interest on enormous loans made by Wall Street to private firms, cities and the Reich government of Germany. Between 1924 and 1930 these totalled \$1,216,000,000. And undoubtedly further loans are to be made as an auxiliary to Hoover's Plan. No one can borrow themselves out of debt. The Hoover Plan thus relieves only the big capitalist class of Germany from immediate bankruptcy, while not relieving at all the burdens on the masses, particularly on the workers, while it places Germany more than ever in the grip of Yankee imperialism as a field of contention with the other imperialisms—a tool, servile and dependent, of imperialist war plots against the Soviet Union. As the Soviet press states, "The proletarian revolution remains the sole hope of the German masses." But does Hoover's Plan mean a "solution" for the crisis in the United States? Will "prosperity" now come back? And the answer is: absolutely not! One must at once dismiss all the capitalist press jabbering about the "psychological effect" as so much rubbish and nonsense. Again, is it not ridiculous to claim that, if Germany does not pay the United States, this means "solving the crisis" both in Germany and the United States? The economic crisis, the over-production crisis remains in the United States just as it remains in Germany. And just as in Germany, the capitalists of America are throwing and will continue to throw the burden upon the workers: More wage cuts, more unemployment, more taxes, direct and indirect, upon the masses. And this again will cut down the possibility of these masses to purchase the over-produced commodities, sharpening the crisis and intensifying class struggle. Thus, leaving aside the sharpening of inter-imperialist rivalries already spoken of in this column, the boasted "Hoover Plan" cannot possibly "solve the crisis" either in Germany or the United States. Instead, the masses of both countries face further attack, and must reply to it with organized class struggle. Instead, the masses face a new and more immediate danger of war, particularly against the Soviet Union, and must reply to it with a tremendous Anti-War demonstration on August First!

Send Delegates to Anti-War Conference Tonight! Answer U.S. "5-Year Plan" For War

A United Front Anti-War Conference will meet Thursday, June 25, at Manhattan Lyceum, 66 E. Fourth St., at 7 p. m. All working-class organizations are urged to send delegates to this conference, which will be a rallying of the workers of New York for the mass demonstration against imperialism war on International Red Day, August 1. The names of all delegates should be sent to the Communist Party, 35 E. 12th St. WASHINGTON, June 24.—Next Tuesday the United States Navy will conclude what it calls a Five-Year Plan for war preparations in aircraft armaments. There will be a wa demonstration at the Anacostia Naval Air Station. The U.S. Navy then will have on hand, ready to plunge into war, 1,000 fighting planes. This so-called five-year war program was begun in 1926 and grows out of the Washington conference for "Limitation of Naval Armaments." The Navy has been scrapping its old planes and building newer, up-to-date fighting, bombing and other war planes. Land armaments are not lagging in the rapid preparations for the next world war. At Aberdeen, Md., Major General George V. Mosely, Deputy Chief of Staff, and a score of high officials of the U. S. army observed a demonstration of a new kind of tank to increase the effi-

TENS OF THOUSANDS OF MINERS READY FOR PITTSBURGH HUNGER MARCH

Police Chief Passes Buck to Stall Off Huge Hunger Parade of Miners and Families

Start to Pittsburgh Demanding Unemployment Relief From Many Points, June 30th

PITTSBURGH, Pa., June 24.—While Chief of Police Walsh of Pittsburgh and Director of Public Safety James Clark play a game of pass the buck and evasion in regard to the demand of the Unemployed Council here and the committee on unemployment of the Central Rank and File Strike Committee of the striking miners, as to whether the great Allegheny County hunger march will get a permit to concentrate in East Park, the various localities continue to perfect their plans to do just that.

CRISIS SHARPER SAY CHARITIES

More Hunger During Coming Winter

The workers of New York State can expect no improvement of the present unemployment situation but, on the contrary, it is quite certain that conditions will become much worse during the rest of the summer and during the coming winter. This is openly admitted in the report of the Joint Committee on Unemployment Relief of the State Board of Social Welfare and the State Charities Aid Association which was made public on June 23. The report further admits that the relief which the state and the charity rackets have been handing out to the unemployed workers has been wholly "inadequate."

In order to cover up the absence of any desire on their part to take care of the unemployed workers decently they list a number of failures in their own work. "Failure of proper preliminary investigation with resultant duplication of effort; the giving of help to those not actually in need, to the disadvantage of others in real distress but less urgent in their applications, and the waste of capacity for labor by failure to provide work as a substitute for direct relief." These hypocrites are worried because they did not "investigate" enough before they gave out the miserable little they did, because some hungry workers got relief while some who were even more hungry did not get anything and because some relief was given out without the forced labor that the charities now regularly demand as part of their relief.

400 STRIKE IN PAWTUCKET MILL

PAWTUCKET, Rhode Island, June 24.—Four hundred workers struck at the Royal Weaving Co. here at 2 o'clock today. The bosses locked the doors of some departments. Mass picketing was immediately begun under the leadership of Russak and Bullak, both of the National Textile Workers' Union. The whole mill is expected out Thursday.

Gov. Gifford Pinchot

Under the cover of "liberal" phrases, Pinchot is doing everything to aid the coal operators to break the militant strike of the Western Pa. miners.

CASE OF SIX WHO FOUGHT EVICTION COMES UP MONDAY

NEW YORK.—On Monday, 10 o'clock, the case of six unemployed and employed workers who were arrested last Friday for putting back the furniture of an evicted family at 93 Sheriff street, comes up in the Special Sessions Court.

Yesterday at 3:30 p. m. the Downtown Branch of the Unemployed Council held a mass open air meeting in front of the house at which the six workers were arrested. They called upon the neighbors to rally to the defense of the members of the Council and the others who were arrested. A collection was taken up in the neighborhood for the wife and five children of one of the arrested. A committee of three was elected in the neighborhood to bring this money to the family of the arrested. The workers were all urged to be at the mass protest demonstration against the murder of the striking miners in Pennsylvania to be held at Union Sq. today at 5 p. m. All workers are urged to be present at 10 o'clock in the Special Sessions court when the case of these six workers comes up.

"FIGHT MUST GO ON HARDER THAN EVER"

Striking Miners Look to You! Rush Funds for Food!

No Time Can Be Lost in Pushing Drive to Feed Strikers As Battle Sharpens

PITTSBURGH, Pa., June 24.—Immediate relief must be rushed to the 40,000 striking miners. The best expression of solidarity that all the workers can now show with their fellow workers now facing death, mutilation or hunger and starvation in the mine fields, is immediately contributing to the relief drive carried on by the Workers International Relief. There is no time to lose. Every minute counts. While a whole truckload of food arrived yesterday from the workers of New York, with Mike Obermeyer, leader of the Food Workers' Industrial Union, this is not enough. It shows the workers are already responding, but the response must be increased a hundredfold to help win this strike. A couple of cops tried to stop the truckload of food asking, "What the hell have the workers of New York to do with sending food to the miners—why don't they mind their own business?" The police are angry at any sign of solidarity of the workers. They know that relief will stiffen the militancy of the striking miners. In Cleveland the workers held a relief conference Monday night. Trucks will be loaded with food at the Public Square on Saturday, June 27th. All Cleveland workers are urged to bring food there for the miners. Every worker must do his share in this strike. Send your contribution immediately to the Pennsylvania-Ohio Striking Miners' Relief Committee, 799 Broadway, Room 614, New York City. See page 2 for other stations. Rush food and clothing to the miners!

Very Few Scabs Get By the Mass Picketing At Mines

Dreiser Comm. Arrives Pinchot Sends More Cops to Break Strike

PITTSBURGH, Pa., June 24.—The first round in the mass fight against opening the Pittsburgh Terminal Coal Corp. mines under the scab agreement with the United Mine Workers of America was won today, when a thousand striking miners picketed the Terminal mines this morning at Mollenauer, Castle Shannon, Coverdale, Horning, Avella and Large. Out of twenty five hundred Terminal strikers, only a few scabs got in. The Central Rank and File Strike Committee meeting today complimented the Terminal strikers and the Local Strike Committees in smashing, by mass picketing, the attempt to reopen the mines. It warned, however, that the fight goes on and that even the few scabs that get in must be pulled out by ever larger and more militant picketing. The Dreiser Committee, consisting of a group of artists and writers, who had volunteered to conduct a public investigation of the miners' conditions as demanded by the Central Rank and File Strike Committee, began its investigations at 3 p. m. today at its headquarters at the Seventh Avenue Hotel here by interviewing witnesses to the Wildwood and Arnold city murderous attack on striking mine pickets. The investigation will proceed to the field at the scene of the tragedy, investigating the living wage condition of the miners. The Central Strike Committee is also organizing a committee of strikers to join the Dreiser investigation committee. Seventy-five state troopers are stationed in the Pittsburgh Terminal Coal Co. area. Pittsburgh newspapers have uni-

Protest In Solidarity With Mine Strikers Tonight

Mass protest meetings have been arranged in all parts of the country to protest against the murder of striking miners in Pennsylvania by the company gunmen and to declare solidarity with the 40,000 strikers who are putting up a militant battle against starvation. The Communist Party and the Trade Union Unity League call on all workers to voice their protest against the murderous terror that has been launched against the heroic Pennsylvania-Ohio-West Virginia mine strike by demonstrating today (Thursday) at 5 p. m. in Union Sq. (Bullets, tear gas, clubs, terror of

every description is the answer of the coal operators and their agents to the fight of 40,000 miners and their families against hunger and for the right to live. Hundreds have been arrested, two have been killed and many wounded. The heroic struggle of these industry, desperate miners is the struggle of the entire working class. The terror unleashed by the state police and the hirelings of the coal companies is a terror against the entire working class. Every worker who has a spark of class-consciousness in him must be present on Union Sq. at the protest demonstration called by the Trade Union Unity League. Demand a halt to the coal operators' terror! Demand the immediate, unconditional release of all those arrested in the strike! Smash the injunction against picketing! Support the fight against starvation and wage-cuts of the striking miners!

N. Y. Workers Demonstrate Saturday Against Boss Court Lynch Verdict

(Special to the Daily Worker) CHATTANOOGA, June 24.—Judge A. E. Hawkins yesterday denied the motions for new trials for the nine innocent Scottsboro Negro boys, eight of whom were sentenced in his court in early April to burn in the electric chair.

General George W. Chamlee, attorney for the International Labor Defense, which has charge of the defense of the boys, immediately filed a notice of appeal to the Alabama Supreme Court. Filing of the notice of appeal automatically stays the execution of eight of the boys which was set for July 10. In the meantime, the International Labor Defense attorney is trying to have the eight boys removed from the death cells in Kilby Prison, Montgomery, where they have been confined. Demonstration in City Saturday. The mass fight to save and free the boys will continue with greater force. This Saturday, the workers of New York, white and Negro, na-

N. Y. WORKERS TO FIGHT CHEENY BILL

Open Air Meets to Hit Registration Law

NEW YORK.—Extensive preparations are being made by unions, fraternal societies and Workers Clubs to insure a complete success of the series of open air meetings called by the New York City Committee for the Protection of Foreign Born for June 25, 26, 27 as previously announced. The workers in these organizations are determined that everything shall be done to defeat the vicious registration bill passed by the Michigan Legislature and to prevent similar laws from being enacted elsewhere. These meetings will also serve as a means to rally the workers in protest against the Scottsboro frame-up.

TALBOT MILL IN LOWELL STRIKES

LOWELL, Mass.—About 250 workers of the Talbot Wool Mill, in Billerica, Mass., near here, have gone out on strike. The strike is being waged against the speed-up "point system" and for the ousting of the efficiency men. The workers in the finishing department initiated the walk out by refusing to accept the "point system." They immediately received the support of the other workers. The National Textile Workers Union sent Edith Berkman, organizer of the Lawrence district to Billerica. The workers, although not radical, had experience with the sell-out tactics of the U.T.W. and gladly accepted the help and leadership of the industrial union.
