# 75,000 MINERS AND THEIR FAMILIES NEED STRIKE RELIEF AS KENTUCKY STRIKE SPREADS TO TENNESSEE COAL FIELDS

### A Brand New Plot for New Year

WITH a frenzy that is typical of the desperate police officials, urged on by the whole pack of jackals of the capitalist press, every effort is being made through what has every appearance of a manufactured "bomb plot" involving fascist officials in the United States, to stir up unparalleled "red raids." The New York News reports that "the combined police resources of the nation were in arms" as the result of the explosion of a bomb in the Easton, Pa. post office which killed one postal clerk and a "bomb expert" working for the police authorities. The police departments of all the large cities have many of these "bomb experts" whose jobs would disappear if they did not regularly find bombs ometimes in the exact spot in which they had previously placed them.

Under the cover of this "bomb plot" the capitalist press is deliberately stirring up a general provocation for attacks against the entire working class movement and especially the Communist Party, leader of the mass struggles of the workers against hunger and starvation, against wage cuts, and the growing misery of the workers. No yarn is too fanciful for these capitalist liars whose object is to stir up a fascist drive against the militant workers, to answer the demand for unemployment insurance by wholesale jailnigs, and frame-ups. The New York Mirror, speaking the language of the police provocateurs, yelps:

"The greatest anti-fascist, Communistic, and anarchistic assassination plot in the history of the world is now under way." They invent a "king of terrorizers" who "is said to have come directly from Moscow and to have carried orders from Josef Stalin, the 'Red Czar of Russia' to annihilate certain personalities."

Every lying editor of the capitalist press, every police head, every running dog in the Department of Justive is well aware of the fact that the Communist Party, and the Communist International repudiates methods of individual violence and terror. The Communist Party rallies the great masses of workers for a militant mass struggle against capitalist nisery and terrorism.

The fascist henchmen of Mussolini in the United States are past masters of the Czarist art of manufacturing "plots." Mussolini periodically conjured up some plots against himself whenever the wage of anti-fascist resentment in Italy reached a high pitch. The economic crisis in Italy. involving the economic and financial structure of fascism, has driven the fascists to desperate measures. The trip of Grandi to the United States showed the mass resentment among the workers in this country against Mussolini and his satelites. The desperation of the American officials in the light of the miserable flop of Grandi's visit to the United States expressed itself in the savage sentence of two years against a young worker in Philadelphia whose crime consisted in crying: "Down with The fascists, trained by Mussolini, are the most famed exponents of the program of individual violence, terror and assassination. The murder of Mateotti is a sample of the fascist savagry.

The capitalist press has been playing up a series of such "bomb plots" on a world scale. The most famous was the Austrian train-wrecking plot which for days was blazoned across the capitalist newspapers as a 'Communist plot" of world wide importance. Many trains were bombed, and Communists were arrested. The solution of this "plot," which was used as a lever against the Communist Parties, received obscure notice in the capitalist press. The plotter was a respectable businesman. He

The Italian fascists inspired the "bomb plot" against the King of Belgium in connection with the recent royal marriage in order to lay a basis for wholesale attacks against the anti-fascist movement in Belgium.

The American police have been itching for some dramatic event to set off a series of new Palmer raids. The alertness of the working class, the exposure of the capitalist methods, thus far has frustrated any such attempt. Now the police are growing desperate and will go to any lengths in an attempt to frem up militant workers.

Only the further organization and mobilization of the workers behind the Communist Party, in the struggle for unemployment insurance. in the struggle against wage cuts; and the whole rotten capitalist system will be built up the security of the workers against the constant stream of policemade "bomb-plots" and provocations

### BOSSES ATTEMPT | Bosses' Liars Active with New Year's "Predictions"

NEW YORK .- New Year's Day was again filled with the crude promises of the capitalist spokesmen about a "revival" in industry and about the "approaching end of the crisis." In 1930 and 1931 the same bunk was spread copiously. For example the New York Evening Post on January 2, 1930, sum-

marized the reams of "promises" of the end of the crisis as follows: "Nation's leaders forecast business upturn in the New Year." In the "New Year", millions felt the "upturn" by being thrown out on the streets to starve. Not content with this attempt at lying, the Post in 1931, declared: "Depression prepares way for business recovery in 1931."

Now we have Robert P. Lamont, pent its force" and "recovery will soon be here." This job is usually left to President Hoover and Secretary Mellon. Both have lied so often that their statements about an "end

Is Prelude to Cut of Entire Shop

Working in close conjunction with the manager of the William P. Gold-Comrade Gaugh has done in the man clothing shop, the Amalgamated quotations taken from his letter Clothing Workers officials effected a , 15 per cent wage cut for the vestmakers as a prelude to a general cut I quote, in part, Comrade Gaugh's in the entire shop. The immediate pretext for putting over the cut was an arbitrary order given by Monatt, political views, as well as social, are manager of the vestmakers local of directly opposite and each adheres the A.C.W. for the workers to accept to his own opinions and ideas; just a 15 per cent reduction on a "special" as it is impossible to have any com- lot of vests that came through this

> The wage reduction was put through without even the formality of a shop or local meeting, and the workers indignant and resenting it. were not permitted to voice their op-

Bosses Demand More Cuts

Rosenberg, manager of the shop, ad previously demanded a flat tweny per cent wage reduction for the enire shop, and workers see in the A.C.W. move an opening wedge to comply with this.

Workers in the model shop had their wages levelled down to that of production work.

The insistence and demands of the vestmakers and workers in other departments for a shop meeting to discuss the wage cutting campaign and prepare to resist it was curtly rejected and stifled by the Amalgamated officials.

The Amalgamated Rank and File Committee yesterday called on the Goldman shop workers to prepare to resist a general wage cutting maneu ver and to join the rank and file

(Author of Labor and Coal)

unemployment and cut wages still lower in order to raise their profits, stood out with special clearness in the discussions at the Third International Conference on Bituminous Coal, held in Pittsburgh last month. In the 56 plans presented for "saving" the coal industry, outstanding aims were limitation of production, control of prices, and increased consolidation of coal companies. But the desire for competition-freedom from strong interests to destroy weaker interests-was in sharp conflict with any polite agreement on

production and prices. Collective bargaining and arbitration to prevent strikes were the only recommendations on labor relations. Most of the operators' plans include no reference to the workers, except that they would involve more unemployment, more speed-up, and more

No Decision Reached. Instead of coming to a decision, the conference gave the following possible points for consideration by operators and the governors of coal states: 1. A commission appointed by governors to consider solutions. 2. low cost operators. 3. Discontinuance of the sale of coal below cost. 4. Appointment of a dictator to run the industry. 5. Some kind of federal

### OUR PAPER

The door of the immigration detention cell clanged. A foreign born worker joins the scores waiting deportation to their home lands. The basis he was picked up?

"Oh, he is a Communist." "Another political." "Born in --They know these men, the Communists, these victims of capitalist terrorization. They have several already in their midst. The reasons for their deportation and what they must do when they reach their homelands has been made clear to every one of them by the comrades.

The time these workers have spent in the detention station has not been lost time. Their misery and its cause is no mystery. Let them be "Look out, Mussolini-look out Venizeloes-look out all of you fascist murderers. We are coming back and we are going to fight with the Communists. We have learned. The American boss has taught us and our comrades have made us graduates. We are coming to fill our place in the ranks of the proletaire.'

But even where one learns so much the routine must go on. "How much have you got, comrade. The court which supplies us with tobacco.

He has three dollars. That is the sum usually levied on newcomers. BUT-"It is not mine, comrades," he protests. "It is money that I must pay to the Daily Worker."

"Then this court cannot take it from you, we would not live off of

Calls Workers to Fight

(By a Worker Correspondent) form of "relief" that the city is giving in this town is forced labor of the man, a friend of the editor, had his all the coal miners. HORN AND HARDART CO.

Besides being humiliated and browbeaten, the workers who are unemthe worst manner.

One of the workers in the forced labor company here, being unable to speak English good, was cheated out of the small sum alloted him for two days work. He worked five days and Food Workers Industrial Union Calls on Work- on receiving his pay he found that he was only credited with three days work. He immediately called the 'relief" official's attention to the fact that he was short two days pay. The PHILADELPHIA, Pa.—For its last fiscal year, ending tisfied with what he got. The official eptember 30, 1931, the Horn and Hardart Baking Co. of Phila- told the worker that no one saw him work the other two days.

> The workers in Steger should wake up and organize into the Unemployed Council to fight for real relief and unemployment insurance at the expense of the rich capitalists.

> We have just began to organize the Communist Party here and gained 10 members in three weeks.

# **VEGAS DAM JOB** Rationalization at

Boulder Dam Swells Jobless Ranks

(By a Farmer Correspondent) LAS VEGAS, Nev .- The Six Companies are straining every effort to substitute machines for the workers Already the original estimate of the number of workers has been drastically reduced, and groups of men are constantly being laid off to join the ever growing army of unemployed. This mania for rationalization

ems to be sweeping throughout all American industry and is especially and ominously significant at this time of unparalleled unemployment. Now I have nothing against ma-

chines as machines. In a socialist state it would merely mean a lightening of the burdens of the workers, and shorter hours with the same or increased pay. Its effects in the capitalist state

we can plainly see in the ever growputting more men to work. The ing army of permanently pauperized men and women. This country, as highly developed as it is mechanically, can easily be made into a paradise for the American workers. The real fact of the case is that

The workers, however, will have to organize into strong revolutionary unions and into the Communist Party day by day.

## Lumber Co., which laid off their saw Miner Urges More

## Whole Mich. Mining Town Jobless; Form Unemployed Council

Miners Who Toiled for Years In Copper Face Starvation

Assemble In Mass Meetings; Demand Social Insurance, Relief

(By a Worker Correspondent)

PALMER, Mich.-Palmer, a small mining town, is today in a situation where all of the workers are unemployed. With the closing of the Isabelle mine, all of the miners, who for years have toiled and produced huge profits for the Cleveland-Cliff, find ourselves in the army of starvation. The fate of the jobless miners, is the same as those 12,000,000 already unemployed and on the brink of starvation.

On Dec. 7th, these workers gathered in the Township Hall, for the purpose of discussing the problem of unemploy-

ment facing us, and our families. A &committee of the unemployed was elected, to further carry and make ROB WORKERS IN preparations for a broader meeting and struggle. Another meeting was called for the 14th of December. But what do we see? During this time the mine officials with those of the village had gotten together and made decision that the unemployed workers could not have the Township Hall for their meeting. This Head House Keeper trick by the bootlickers of the mine barons, was only an attempt to crush the rise of the struggles of the min ers, who refuse to accept the bosses program of starvation.

Nevertheless the plans of the workers remained unchanged and despite the refusal of the hall the unemployed gathered in front of the hand in hand with the bosses, in refusing the open the doors, where the workers could assemble for their meetings. The workers were deter-

On Dec. 23 the jobless workers, rethe demands of the workers and er" reviling the Hunger March would condenning the bosses and superdo credit to the Ku Klux Klan or visors of their recent actions in retion carried the demands of the unemployed, for immediate relief. A committee of three was elected at of demands to the meeting of the at the time of the meeting. The demands were rejected by the Board Give such counter-revolutionists as and the matter of getting the hall would not go on the breadline, that presentative of the laws of the bosses refusing the building.

But we will not accept the decifor greater fights. The bosses atmet by a broader and stronger ployed Councils and unemployed sorts of hours which oft times inmmittees and the fight will go on, clude Sundays and holidays.

### The Federal Government's Slave Traffic

By SAM ROOL.

WASHINGTON, - The Federal Government, setting the example for the capitalist class which it represents, is quick to take advantage of hungry and homeless workers in order to get its work done as cheaply as possible. This furthermore, is admitted proudly by the government in a press release issued by the United States Forest Service from its regional headquarters at San Francisco. The Forest Service begins its state-

ment by saying: "Camps have now been established and are in operation in two of the northern California National Forests in which single, unemployed men will do productive work this winter in return for their food and housing, and more camps are contemplated, particularly in southern California, at an early date, according to a statement made today, by Regional Forester S. B. Show of the U.S. Forest Service. Subsistence in the camps is being furnished by the state. Transporta-tion of the men to the camps is being supplied by local municipal agencies. Medical attention is also being supplied from this source. Equipment, bedding and supervision of the

The bosses' starvation drive will not stop hte workers from subscribing to the Daily Worker. The following letter from a worker in Hillside, N. J., is typical of the attitude of thousands of workers, who are ready to subscribe if they are given a chance, Get after them with subscription books.

"Enclosed you will find a money order for three dollars for another six months' subscription. I am sending only three dollars because I'm darn near broke and had to scrape that up too. It is not indication that I'm not interested in the class struggle. I sure do admire your work and I'd hate to miss the Daily Worker at any

work is being furnished by the U. S. Forest Service." (My emphasis S.R.) In this single paragraph, in an of-

The following letter from Pocatello, Idaho, speaks for itself. There are thousands of comrades like the writer of this letter. Reach them with the Daily Worker subscription book.

"I am sending a dollar and a half to renew my sub. We are working eight days a month and believe me we are all flat broke. Most of us are trying to exist on Railroad Shop Family League Relief, and it's hard to get, and not enough to relieve a sparrow. I was able to borrow this money, and as in the past I'll try my utmost for the Daily."

ficial Federal Government press release, we have it publicly admitted It is 5.30. that federal, state and local governengage in forced labor, wherein men must work for nothing, or starve. Showing how profitable this sort of slavery is to the capitalist governments, the statement goes on like

"According to Mr. Show, the probems of housing, sanitation, subsisence, and clothing for camps of men working in mountain regions during the winter will be solved as fast as possible with the object of increasing the number of men and camps as rapidly as proves feasible."

Workers! You must not be misled by capitalist ballyhoo about the capitalists' "can't help it" excuses in times of economic crisis. In a frantic effort to save itself, capitalism must suck the blood of the working class in larger quantities than ever in a pitalists are able to hide their exclass under the mask of wage slavery. but as the crisis deepens, this wage Chattel or Feudal Slavery!

# Lenin on the Role Lenin and the Daily Worker The Daily Worker

The first issue of the Daily Worker came off the press Jan. 13, 1924. This date, however, is not she beginning of the history of the Daily Worker The conception which finally led to the publication of the Daily Worker dates back to July, 1921.

Just before the Third Congress of the Communist International the two American Communist organizations which resulted from the split step to take towards creating the or- une for the national exposure of the of the socialist party in 1919 had ganization we desire, the factor tsarist government, and it is our duty united into the Communist Party of America. The Third Congress of the Communist International, therefore, had one united delegation from the American section. This unity, however, was not yet well founded in a uniform conception of policy.

> Our American Party suffered intensely from the infantile disease of leftism. Our Party had taken over from the left wing of the socialist party the inheritance of abstractness and of lack of direct connection with the working class and its struggles. The decisions and resolutions of the Second Congress of the Communist International contributed greatly to a better understanding of our revolutionary tasks, yet the poison of leftism was still virile enough to interfere with, if not almost hinder, the process of ideological bolshevization. The poison of bourgeois influences manifested itself then in a vicious form of American exceptionalism. This exceptionalism repeated again and again that the decisions and policies laid down by the Second Congress of the Communist International were absolutely correct in principle-but that because of peculiar American conditions they could

The delegation to the Third Congress of the Communist International was invited by Comrade Lenin to confer with him and talk over the night, we met in the buro of Com-

GREETINGS FROM THE BRITISH DAILY WORKER TO THE AMERICAN DAILY WORKER ON ITS EIGHTH ANNIVERSARY

LONDON, Jan. 1.-Greetings to our elder brother whose mass fight spires our work. Your fight against American imperialism for unemployment insurance helps the struggle of the British workers. We are confident you will achieve bigger success in your fight leading the American workers and Negro masses. The Daily Workers of both countries will forge unity between the American and British workers against the warring imperialists

English very well.

It will be of historic and political value for our Party to reconstruct It is this importance which keeps me comrades who were at that meeting task? and who can still be reached. To my knowledge, only Comrade Minor and in the United States who parsucceed in producing a collective reconstruction of events and arguments in that conference I will confine myself here merely to some general

In 1921 our Party operated underground. The mass attacks and deportations of 191, and 1920 had reother hand, prevented an immediate This conference took place toward istance of the Party. The disease

tion was there in full force. The dis- gress with Comrade Lenin the buildcussion was carried on in the Eng- ing of a mass Party was the basic lish language. Comrade Lenin spoke subject. The issue of struggle for legality was part of the problem of building a mass Party.

Comrade Lenin's theme in the the discussions in this conference. conference from beginning to end was: How can we build a mass Party now from a detailed reproduction of in America; what are the conditions this conference. It will be necessary for the building of such a Party; to check up carefully on everything what are the conditions of the Party by consulting the memory of all itself for the carrying out of this

There was a very serious objection on the delegation to any efforts of and myself are now in our Party building a mass Party. The guardian of the infantile disease of leftism in ticipated in the meeting. Until we the American Party, Comrade Hourwich, was at the conference himself to watch for the welfare of this disease. He objected most strongly to any proposal that might bring the Party in contact with the masses of workers. His fear of the Party's contamination with the backwardsulted in a practical state of illegal- result of real contact with these ity. Lack of experience on the one workers was so great that he impahand, and lack of a broad mass tiently interrupted Comrade Lenin movement around the Party on the ever so often when the latter formulated possible methods of approblems of the American Party. struggle for the right of the legal ex- proach to these workers. Finally, the end of the Congress. 403 Months of Daily Worker

Subs on Thursday Assures

Record Week in Campaign

THIS week is the first week in the campaign for 5,000 12-month

toward the end.. On Thursday, 403 months of subscriptions came

in, which is about the same as Wednesday, and which is better than

the first two days of the week. This shows that the workers all

over the country are pitching in and are INCREASING their efforts.

This also shows that the big events of the week, the preparations

for the Kentucky strike, the preparations for the national demon-

stration February 4 for unemployment insurance, the widening class

struggle all over the country are having their effect in drawing in

NEW YORK led on Thursday with 232 months of subs, but Chicago

40 monhts, and Philadelphia with 31 months. If the other districts

had done their bit the total would have been a record for a day's

work. The other districts must redeem themselves next week and

MEXT week will be even a bigger week in the revolutionary workers'

arations for unemployment insurance day, the celebrations of the

Daily Worker eighth anniversary celebrations, call for every ounce

of effort in the Daily Worker sub drive. More Friends of the Daily

Worker Groups, more house to house canvassing, more neighbor-

hood squads, wider socialist competition are in the order of ti

day. The drive is succeeding. Smash forward now with all you've got.

mounting struggle. The Kentucky strike, the intensified prep-

slipped back with only 19 months. Detroit did pretty well with

not It a few cities do all the work.

subscriptions to the Daily Worker that did not show a let-down

There is much excitement. A com- Salvation Army where the food was gress to present the Unemployment dicks. We march back to the Salvation Army for lodging. Dirty floors. lousy straw mattresses, no water in the huilding. The misery of Salvation Army putrid "damned souls all about us-we are a host unwelcome

Dec. 7th, 10 A. M. The Army of Hunger is lined up for the last lan Determined faces, serious, stern. Exservicemen carrying placards and the uniformed band in front. The whistle, and we storm the Capitol. a clear way. Tunes of struggle. cheering the Hunger Marchers.

We are on the Capitol Hill before the Congress. Machine guns, gas bombs, riot guns, a policeman and detective for each Hunger Marcher. The Army and Marines are held ready in barracks for emergencies. They take no chances.

Our band plays the "International." The hymn of struggle and unity of the workers of the world roars over the Congress from thousands of threats. A committee of 24 Hunger Marchers are escorted by a strong police force to Congress. They return. Silence!!!! One held shoulder high by husky ex-servicemen reports through a megaphone: "Your Committee was not admitted. We will now elect a committee of three. The new committee is being taken to Congress. 1,670 Hunger Marchers shout the cadence: "We want Unemployment Insurance!" repeating this for two minutes. The voice of the million hungry workers thunder the ears of the ruling class. The three return. Dead silence . . . Policemen fidget. They hold their clubs tighter. Again "We want Unemployment Insurance!" roars over the Congress. Once more the "International" and on to the White House.

Down With Hoover About an hour marching and we are at the White House. Hoover refuses to see our committee. "Down with the Hoover starvation program!" thunders from the throats of the Hunger Marchers.

"A. F. of L. members in the front!" command is given. Two hundred of them step forward. We march to the headquarters of the American Federation of Labor. The building is surrounded by a wall of police. A committee of A. F. of L. members is admitted into the building. They interview Green.

"The workers don't want unemployment insurance," says Green. There are a handful of Communists who are causing all the noise."

The committe, in the name of the working-class of America, tells Green to go to hell, "Down with the American Federation of Labor, the betraver of the working-class!" roars from the throats of the indignant Hunger Marchers and the workers of daily instructor, guide and help, in Washington.

We march once more to Washington Stadium. The march is over but hunger is still on. The fight for in inner party work as such. These It is absolutely essential that our

districts, sections and units (especially

units in outlying sections) know that

statement is needed, they should

always be able to go back to the

Daily Worker file, get the needed in-

formation and use it properly. This

will save the comrades time in having

to hunt up facts, themselves facts

that are already compiled; having to

work up slogans themselves (often-

times bad slogans) slogans that were

already printed in the Daily Worker.

This will really establish the Daily

as our political and organizational

guide and instructor, in our mass

work as well as in inner Party ac-

tivities, only this way, will we make

the proper use of the Daily in our

day to day work.

Guide in Our Every Day Work

for a demonstration, mass meetings, etc. Many times comrades have to spend hours in looking for material on the S. U.; on unemployment on wage cuts, etc. Still we know that almost every day the Daily Worker carries stories on all these points. These stories, calls and statements are absolutely lost to our comorder, not preserved.

Furthermore. Sometimes comrades and guidance, when this is necessary

not only our collective agitator propagandist and organizer in organizing the masses, but also our the every day work of our Party organizations. In fact there is too little of a margin between using our Daily as an agitator, propagandist Unemployment Insurance now starts and organizer and using it as a constant guide in our every day work

How many districts, sections and units make real use of our Daily? How much help can the Daily Worker unemployed starving workers demand | really be in our every day activities? and quake before the But still we see that our Daily is not are kept, and when the comrade being made real use of, is not being are faced with a problem of policy. sufficiently utilized to direct our information, a certain

every day struggles. The comrades in the sections, districts and units read the Daily Worker (when there is time, of course) read it and throw it away. On very few districts, units or sections would we find a file of the Daily Worker to which the comrades could refer back and use the many important articles, statements and resolutions as a basis for the various activities that the Party sections and districts are to carry on. Still this is very important.

Oftentimes comrades have to sit down and work for hours on slogans rades when they are not kept in

from the field write in and say: please give me such and such material When we look back we find that just the material the comrades ask for appeared a day or two ago in the Daily. Many times we find that comrades make serious deviations from the general lines of the Party largely because they don't pay sufficient attention to our Party's central organ. And if they do pay attention to what the Daily says while reading the article, they forget it pretty soon, and have no back numbers to refer back for information

We find, for example, that the last outline for the six weeks Circle for New Members uses the Daily Worker frequently as reference material. And many comrades from the field are already writing in saying: "Why didn't you mineograph the material for us? Do you expect us to have files of the Daily Worker?"

The Daily Worker must become

The miners of Kentucky and the surrounding territory have learned that the Daily Worker to help keep their ranks solid in the big strike of 18,000 that is to

The following letter from an Illinois miner shows how the miners all over the United States are realizing how much they need the Daily Worker.

start next week.

"I am out of a job for 11 months," writes a miner from Coello, Illinois, "have a big family, practically on slow starvation now, and still no hope for the mine here to start up soon. We all are in a hell of a shape. Please do all you can to send me one copy a day, and I will pass it around to the comrades here. We just can't be without the Daily. It is the only way we get any working class news, and it gives us fighting spirit which we need badly. Will also write more for the Daily Worker in the future so the workers will know what is going on in Franklin County, which is ruled by the coal operators, like Harlan, Kentucky. Best wishes to all comrades."

### BAYONNE JOBLESS ORGANIZER SEVERELY BEATEN BY POLICE

Brown, Coming for March Permit, Is Seized and Held in Solitary for 72 Hours

With deep cuts in his face, broken covered from two different angles by Council of Bayonne, N. J., came up William Z. Foster, secretary of the to the office of the Daily Worker. with huge splotches of blood testified to the brutal beating that Brown had received at the hands of tional Miners' Union, tells what the the police of Bayonne whom he had approached for a permit to hold a for the unemployed.

Together with representatives of the Rentpayers & Taxpayers' Profront fro the demonstration had been established Brown went to the police headquarters on Monday morning with a written request for a permit.

After waiting a little while they were called into a room where 5 burly men faced them. Instantly questions were fired at them: "Whats your name, where do you live, where do you work?" Two of the committee were shoved out and Brown was left with the five men including the chief of police, O'Neill. O'Neill immediately started to push Brown around and beat him up. Then the leader of the unemployed was taken upstairs to be fingerprinted and photographed for the Rogues Gallery. On the way up a slip was pushed into his hand with the words 'Wanted for Murder" on it. An attempt was being made to frame him

for killing a man and a woman in

Indiana. Brown demanded a lawyer

and for doing so was punched in the While this vicious treatment of the worker was taking place hte "public" hearing on the budget at City Hall was being prepared. The officials of this Standard Oil town were out to keep the leader of the jobless from smashing their plan to put across the biggest budget Bayonne has seen without any relief for the starving workers. The Donohue administration has been deceiving the workers by saying that there are only 5,000 out of work. But there really are 12,000 jobless in this small city of 86,000 total population and the activity of the Unemployed Council has struck deep roots. The plot to keep

Brown away was admitted by the Bayonne Times of Tuesday. Thrown into a basement cell Brown was held in solitary confinement for 72 hours. For the first 24 hours he received no food or water. The food on the other two days amounted to two undrinkable cups of coffee and two rolls with a slice of bologna in each. Tuesday at mid-night, Brown suddenly heard the cries of anguish, of agony and pain of John Kasper. Kasper had come to inquire about the arrest of Brown on Monday evening. He also was arrested without warrant and for no cause. Kasper is

At 1 a. m. three cops without nose and left eye almost closed Paul Jackets entered Brown's cell and Brown, organizer of the Unemployed proceeded to beat him for about ten minutes with brass knuckles, bare fists and blackjacks. When they left there was a pool of blood in the cell which grew larger for 4 hours. Two jobless workers who were spending the night in the jail managed to get some water on bloody handkerchiefs and applied them to the wounds.

Through the excellent efforts ci the I. L. D. a habeas corpus hearing was obtained for both workers and the case quashed. Nevertheless Brown was taken back to the cell and held to Thursday morning with only some Listerine mouth wash as medical attention.

Without a leader, Bayonne workers and poor home owners took part in the greatest demonstration the city has ever seen. At the meeting in front of City Hall, M. Tomash of the Unemployed Councils of New York was arrested and is still held on

\$2,500 bail. Although the judge when releasing Brown, battered with a possible broken rib and other injuries warned him "Leave the town at once. We don't want such as you around here," the anger of the masses will be expressed at a huge meeting in Bayonne during the week end. Already one meeting has been held at the Vroom School auditorium, which was packed to capacity.

### To Exhibit Photos of National March

Complete Story of the Hunger March

The complete story in news pictures of the National Hunger March as recorded by workers' cameras will be on view at the Workers International Relief Center, 16 West 21st St., for two weeks commencing Sunday, January 10, 2 p. m.

The Workers Film and Photo League, which made this graphic record of the Hunger March in both motion pictures and still photos, is sponsoring this public exhibition Admission is free.

More than 125 news pictures tell the story of the great demonstration from its origins in the thousands of Unemployed Councils to the smashing climax on the steps of the National Capitol where 1,670 delegates demanded that Congress pass an act

for Unemployment Insurance. The Workers Film and Photo League is composed of militant workers. Many of whom are technically advanced film and photo cameramen

#### still in bed with severe internal Hold Open Air Meet at Robinhood Shop to Fight Sellout

A splendid open air meeting in which hundreds of workers participated was held in front of the Robinhood Hat Co., 65 W. 39th St., where the misleaders of Local 24 have carried through a sellout against the trimmers, members of the Industrial

The speakers exposed the sellout and called on the workers to unite on the basis of the struggle for union conditions in the shops. All millinery workers, members of the Industrial Union as well as the members of Local 24 are called upon to support the strikers, to fight any attempt on the part of Local 24 to send up scabs to replace the girls who have been on strike for the past 10 weeks against the lockout.

#### Moore Speaks Sunday On Revolt of the Colonial Masses

NEW YORK .- Comrade Richard B. Moore will speak this Sunday night at 7:30 o'clock at Lafayette Hall, 165 W. 131st St., on the present revolutionary movement in the colonies. Events in Central Africa India, China, South and Central America, etc., are developing rapidly. The oppressed colonial masses are in the midst of gigantic struggles against the imperialist bandits.

What is the duty of the Negro masses and white workers of the United States in this situation? How can they help the oppressed nationalities in the colonies in their fight against imperialism and for eman-

Negro and white workers are invited to attend this meeting Sunday night and participate in the discussion on the above questions. The meeting is under the auspices of the Harlem Workers' Forum.

A. Markoff, director of the Workers School of New York, will be the speaker at the Workers Educational Association forum, held every Sunday night at the Northern High School, Woodward at Clairmont, at the Sunday, January 10, session. Markoff will speak on the "New System of Educa-

tion in the Soviet Union." Herbert Newton of Chicago will speak on "Why the Frame-up in Scottsboro against the Nine Innocent Negro Boys?" at the January 17 ses-

### Relief to the Striking Kentucky Miners— A Main Task of American Working Class

in Kentucky before the strike began. Now that the strike has started the starvation is more widespread, more agonizing than before.

Immediate relief, plentiful relief must be shipped to the fighting coal miners of Kentucky if they are to wage a successful struggle against the slave and hunger system of the coal operators. The relief must come from every section of the country. This struggle of the Kentucky miners has a direct effect on the lives of the American masses

If this strike against the most powerful lords of capitalism is won, it will be a major victory for the working class. It will be a blow against the wage cutting drive of the capitalists that has sliced more than ten billion dollars from the wages of the American workers in the past year. It will be a blow to the hunger system of the capitalists that has sent 12,000,000 workers on the streets without jobs and kills 1,000 workers a day of starvation.

The duty of supplying relief to the Kentucky miners must become one of the main tasks of the American working class. The workers must go into every shop, every working class neighborhood, every working class meeting to collect relief for the miners. Solidarity between the miners and the rest of the working class must be built up in every section of the

The medium through which this relief must be collected is the Workors International Relief, the only working class relief organization. In Kentucky the Red Cross has openly ators.

The strike started in a heavy, cold

rainfall. The poorly clad miners,

Scattered reports from the mines

(CONTINUED PROM PAGE ONE) | told the miners that it will provide "relief" only on condition that the mniers return to work.

> The relief campaign for the Kentucky miners must be instituted on the broadest possible scale. A. F. of L. locals, fraternal organizations workers' clubs must be drawn into the collection of food, funds and clothing. A constant stream of relief must start flowing into the strike front immediately. A broad collection movement upon the basis of mobilizing masses of workers into the Kentucky Strike Relief Volunteers must be established.

The Workers International Relief has already started its campaignthe Kentucky Striking Miners Relief Campaign-for relief. A mass demnostration in support of the striking miners will be held on January 8th in the Star Casino.

This demonstration must be rousing answer of solidarity to the striking miners. On January 17th the Workers International Relief is holding a relief confernece at Irving Plaza, 15th Street at Irving Place at 11 a. m., January 17th, to which all New York locals of the A. F. of L., all fraternal organizations, all shop committees and all Unemployed Councils have been invited to send delegates.

Every effort must be made to make this conference a success. Machinery must be set up at this conference that will insure the mobilization of hundreds of working class organiza tions in the task of collecting relief The workers alone can defeat the

starvation weapon of the coal oper

danger of total immersion in economic struggles, said: (in connection with these quotations it must be remembered that social democrat and social democracy were still revolutionary terms in the period in which they were written):

"Take the type of social democratic circle that has been most widespread during the past few years and examine its work. It has 'contact with the v orkers'; it issues leaflets in which abuses in the factories, the partial attitude of the government towards the capitalists and the tyranny of the police are strongly condemned, and contents itself with this. At meetings of workers the discussions usually do not extend beyond such subjects. Lectures and discussions on the history of the revolutionary movement, on questions of the home and foreign policy of our government, on questions of economic evolution . . . and the position of the various classes in modern society, etc., are extreme-

Unfortunately these words can still apply with considerable force to very many of our Party units. There is a mechanical connection between theory and practice and an extremely formal application of the line of the Communist International and the Central Committee of our Party. This reflects itself in innumerable ways, but principally in the weakness of the mass work of our Party and its great shortcomings in building, leading and extending the mass organizations. This is especially true of the trade union work of our Party and after eight years of work and struggle the Daily Worker, as the official organ of our Central Committee, is still open to severe criticism in this respect. . . . It does not sufficiently make the necessary connection between the daily struggles and the broad revolutionary aims of our Party.

Beginning its eighth year the Daily Worker must remedy this defect as the principal means of overcoming its weaknesses as "the collective organizer" of the Party and the working class. The Daily Worker and its entire staff must now take with the utmost

teacher and organizer of the revolutionary trade union movement in the United States. It must become the teacher and trainer of the new leadership of the mass combat organs—the red trade unions . . . that are now being built in the course of many militant struggles like those now in progress in Kentucky. The Daily Worker must become, in a much more definite and decisive manner, a paper to which the new young leadership of the mass struggles in the United States looks to for direction, guidance, for the correct solu-

tion of the thousand and one problems which it faces The Daily Worker in this tremendous period of class battles, when millions of the working class are questioning the right of capitalism to rob and oppress them, when the growing millions of unemployed are becoming more and more resentful of the terrible miseries they are forced to face, and when huge battalions of the working class are moving forward into struggle who must and will be organized into the revolutionary trade unions, the mass base of the fight for power, it is more than ever necessary that the Daily Worker should be able to train the new hundreds and thousands of young proletarian leaders to become the type of leader which Lenin defined a

"The ideal of a social democrat should be not merely to become a trade union secretary, but to be a tribune of the people, able to react to every manifestation of tyranny and oppression, no matter where it may take place, no matter what stratum or class of people it may affect; he must be able to group all these manifestations into a single picture of police violence and capitalist exploitation; he must be able to take advantage of every petty event in order to explain his socialistic convictions and his social-democratic demands to ALL, in order

explain to ALL and to everyone the world historical significance of the struggle for the emancipation of the proletariat."

To carry out this major task, the Daily Worker will require the daily assistance of the Central Committee and of the entire Party.

### THE BOSSES PLAN A "HUNGER MARCH"

WITH the further deepening of the crisis, under pressure of the growing resistance of the working class to the capitalist offensive, the bourgeoisie is compelled to resort to all sorts of reformist maneuvers and demagogy in order to deceive the masses, prevent struggles against wage-cuts and unemployment and spread illusions among the workers as to the ability and willingness of the capitalist class to lessen the burdens which the crisis has thrown upon the shoulders of the workers, and solve the evil of

The increasing mass struggles for unemployment relief and insurance in particular, leading to the National Hunger March to Washington, D. C., has brought about an increased use of such methods in the bosses' attempts to check the development of militant class actions under revolutionary leadership.

Thus we find, in Pennsylvania, the spectacle of the arch-demagogue, Governor Pinchot, waging a sham legislative battle on unemployment relief, appearing before the workers as the "lesser evil" among capitalist politicians. while in practice he carries through in full the starvation program of the bosses. We have had, in Western Pennsylvania, the organization of various charity relief drives, to attempt through crumbs of charity to dampen the workers' spirit of class battle on the basis of the program of the Unemployed Councils.

And now, as the latest maneuver in this stronghold of coal and steel, we have "Father Cox's Hunger March" to Washington, engineered by the bosses, supported by the church, widely advertised in the capitalist press.

Recent months have seen increasing mass activity in the Pittsburgh district in the struggle against unemployment. Thousands of workers have been mobilized to fight for immediate relief through three county hunger marches in Western Pennsylvania, through numerous local demonstrations in mining and steel towns, led by the Communist Party, the revolutionary unions and the unemployed committees. Concessions have been forced from local governments leading to increased distribution of relief. The Unemployed Council in Pittsburgh has been growing in influence, winning new masses for the fight for unemployed insurance. Over 130 delegates from the coal fields and the steel centers were sent on the National Hunger March

In face of this developing movement, the capitalist class has brought forward James R. Cox, a Catholic priest, to show the workers a "patriotic" way out for the unemployed, which will safeguard the interests of the employing class. Two years ago this tool of the bosses opened his church as a meeting place to the striking taxicab drivers of Pittsburgh only to worm his way into their midst and assist in their betrayal "with prayer," as the workers Today he is heading a movement openly directed against the working class in their battle for unemployed relief and unemployed insur-

This same Cox, who now pretends a tremendous solicitude for the starving unemployed masses, fights against any struggle for adequate housing for the homeless unemployed, demanding that they be content, for example, with the wooden makeshift shelters, scarcely large enough for a man to turn around in, looking like dog kennels, which he has allowed unemployed workers to set up in a lot near the church-the infamous "Shantytown" of Pittsburgh, object of amusement for curiosity seekers, but a striking testament to the degradation which capitalism forces upon the working class.

Cox is opposed to unemployment insurance, to unemployment relief from the government. Such demands, he claims, are "unconstitutional." "unpatriotic." Instead, he is organizing a "hunger march" to Washington to ask Hoover for jobs. While factories and mines continue to close down, while industrial production sinks ever lower, Cox proposes to ask for jobs from the capitalist class which has thrown over 11 million workers out on the streets to starve! While the public works bubble exploded a long time ago with the complete collapse of Hoover's much advertised "prosperity" public works program, Cox now proposes to solve unemployment

By MYRA PAGE.

(Foreign Correspondent of the American Daily

OUR train, which our group of worker-dele-

"Our International Wagon," rolls steadily south-

ward. Baku, our next stop, is three days and

three nights' travel from Moscow. As brown

rolling fields, partly covered with a fine drift-

ing snow and dotted with ever-greens, give way

to our first view of the Caucasion Mountains

and Caspian Sea, we sing labor songs, and

through various interpreters make friends

among ourselves, exchanging experiences on the

crisis of capitalism in our respective countries.

All feel very happy. Why not? We have

come from countries where the struggle and

terror are fierce. From Germany, Spain, Eng-

land, Austria, America, the Orient. We have

come to the one country where the toiling

masses have won their freedom. We feel at

home, relaxed, stimulated by our international

solidarity, by the comradeship and power of the

Russian workers and peasants building socialism

The first morning on the train the delegation

held its organization meeting. A committee of

three was elected to draw up a general plan of

our trip, what aspects of Soviet life we are most

interested in studying here, what types of fac-

tories we especially want to visit, and so on. The

A. F. of L. fakers and their "socialist" friends

like to repeat the capitalist lie that foreign

workers in the Soviet Union have a chance to

see the "show places" only. This is nonsense.

The Russian comrades traveling with us urge

and the workers' struggles there.

across the face of this vast land.

gates from many countries have christened

Our International Wagon

by a new public works scheme, which at best can give work only to a very small number of the millions of unemployed, serving most to enrich the contractors and provide fat sources of graft for capitalist government officials.

The National Hunger March to Washington, led by the Unemployed Councils, brought to the forefront the struggle of the workers for unemployment insurance through taxing the rich. Cox's fake "hunger march" proposes to fight against unemployment insurance, and is intended to delude the workers with promises capitalism cannot fulfill. The National Hunger March exposed the government, before broad masses of workers, as a tool of the capitalist class. Cox's "hunger march" aims to maintain the wavering faith of masses of workers in the bosses' government which, at the very time when it refuses to take any action to provide adequate funds for unemployment relief and insurance, presents the profit-swollen millionaires with an income tax refund of \$65,000,000.

The National Hunger March to Washington was a march of workers' delegates representing an organized militant working-class movement, supported by millions of employed and unemployed workers throughout the country. It was a march initiated and led by workers, a march in which the workers acted as spokesmen all along the route of march, mobilizing the workers throughout the territory covered to rally behind the struggle for unemployment insurance. Cox's march belongs to Cox himself and the bosses whom he represents. The workers, who are forced to march under threat of being thrown out of "Shantytown" and having their relief withdrawn from various agencies, the workers who are misled into voluntarily joining the march, will be muzzled, guarded by spies, thugs, state police. "I will be the only speaker on the march," declares Cox-fearing that the militant voice of the workers will be heard on the march raised in the demand for unemployment insurance, and prepared to crush such

Cox's "hunger march" is an attempt to smash the fighting program of the Unemployed Councils, the Communist Party and the revolutionary unions. Workers distributing leaflets around "Shantytown" at Cox's meetings, calling the masses to fight for adequate housing, for unemployment insurance, are arrested and thrown into jail. The entire plan of Cox is a maneuver backed by the bosses and the government to counteract the tremendous effects of the workers' National Hunger March and to try to put a brake on the developing movement for unemployment relief and insurance.

It is necessary in the Pittsburgh area to carry on a wide campaign to expose this maneuver before the workers, through leaflets, mass meetings, through the organization of workers in 'Shantytown" itself to fight for adequate housing and relief. We must not underestimate the influence of such bourgeois reformist maneuvers upon the workers, but, on the contrary, must intensify our struggle against all forms of bourgeois and social fascist demagogy. This must take the form not only of an agitational campaign, but of definite organization of mass struggles on the basis of concrete demands for local relief, against evictoins, for free food and clothing for the children of unemployed workers, and so on. This applies not alone to the Pittsburgh district, but to the country as a whole.

The National Hunger March to Washington on Dec. 7 has advanced the entire unemployed movement to a higher stage. We must now continue the struggle for unemployment insurance through the widest campaign for signatures for the unemployment insurance bill, for adoption of the bill by workers' organizations. As against the fake march of Cox, we must rally the masses of miners and steel workers in Western Pennsylvania behind the unemployed demonstrations on Feb. 4-national day of struggle for unemployment insurance. As against the unemployment "cures" of Cox and company, we must intensify our campaign to develop among the workers a clearer understanding of the inability of capitalism to solve unemployment, of the revolutionary way out of the crisis and the misery of unemployment through uncompromising struggle against the capitalist system under the leadership of the Communist Party.

Federal aid must be given to the unemployed in order not to endanger our American institutions, said Edward McGrady, representing the American Federation of Labor at the hearings on unemployment relief held by the La Follette Committee.

# "Solve" the Unemployment Situation

By T. KETTLE.

T a special meeting of International Printing A and Assistants' Union, No. 51, the officials railroaded a proposition which was given them by the bosses.

The proposition is of considerable interest, not only to pressmen, but also to all workers, and particularly A. F. of L. members, who must fight every day against the agents of the bosses within the union. To the workers knowledge, no similar proposition has even been submitted to a labor union, and we expect such "solution" and propositions in many other A. F. of L. unions. The unemployment situation in the union is

quite serious. Out of 3400 members (about 400 not working at trade, being supply men, superintendents, employers, etc.) only about 500 work full time, the majority of the latter being working foremen. About 700 members are totally unemployed, and about 1,800 work part time. Little has been done by the officials towards helping the unemployed and the benefit handed out is \$9 per week, from which the unemployed worker has to return \$2 as unemployment assessment. On January 1, 1932 the bosses as per contract,

committee appeared before a union meeting and pleaded poverty, and asked that the dollar raise be waived. The union officials went into conference with the bosses and finally hatched out the following scheme for helping the unemployed. Each boss is to deduct every week 15 per cent from the wages of those employed, and keep it in a special fund, and when he has enough money in the fund he is to hire an extra pressman, who is to be paid at the rate of \$8 per (The union rate will be \$10.90 after Jan. 1st.). These extras are not to do any productive work, but be at the disposal of the "cooperation" of the bosses, extras shall not receive 50c extra per day as at present, the \$1 raise due on Jan. 1st, 1932 shall be waived, and the union further agrees that on April 1, 1932 it will reopen the existing contract, to run until Sept., 1932).

The existing contract on the matter of wages expires and the union will then negotiate with the League Wage adjustments in line with conditions existing on that date.

The officials attempted to put over this bosses' scheme at the union meeting and did not accept any counter propositions but did not dare to vote upon it at the meeting by referendum, for which everything was already prepared at that meeting. Instead they railroaded through a motion that this proposition go to a referendum of the entire membership on a day to be determined by the officials. They hoped by means of those practices which are common among the bureaucrats to put it over. They hope to set the unemployed, but in this they were uncussessful, and are now compelled to withdraw the proposition on account of the workers' indignation both among the employed and unemployed.

The acceptance of this scheme by the officials of No. 51 was a rank sell-out, and was most likely accompanied by an actual cash pay-

What this scheme is in essence: That a certain amount of work would be done, but at 15 per cent less wages. No more work would be created, and as the leaflet issued by the rank and file committee of Pressmens Union No. 51, correctly pointed out "can you imagine an extra being given a job for three days at \$8 a day and told not to produce-just stick around and be a good fellow and get paid for it? The extra would, of course, have done productive work and here is where the scheming bosses and their agents wanted to kill two birds with one stone.

The whole tendency in the pressroom is towards mechanization and speed-up, and the employers want that the feeders handle more press-The previous officials of Local 23 (the feeders local) which gives the right to the bosses to reopen the whole question about more press es per man. The feeders vigorously objected to being eliminated and to being speeded-up more

But the officials of No. 51 saw in this "unemployment solution" proposition an opportunity to help the employers, and so the extras would actually have been used to watch presses and

than now.

# Pressmen's Officials The Reign of Terror in Ireland

By SEAN MURRAY (Dublin)

CAUGHT in the threes of the economic crisis Cand confronted with a revolutionary upsurge among the toiling masses, the Free State Government has dropped its constitutional mantle and donned the Steel Jacket of military Dicta-

The Coercion Act passed through the Dail abrogates every vestige of bourgeoisie democracy so far as the toiling masses are concerned.

Military Tribunals-No Appeal

The new act abolishes trial by jury for political offenses. A military tribunal of five army officers is set up, from whose sentences there is no appeal, and whose trials may be held in secret. Coroners inquests are even abolished over "Political" corpses.

The police have power to arrest any person on suspicion of committing, having committed, or being about to commit an unlawful act. The military tribunal cannot be criticized in

the press. It has power to inflict the death sentence on anyone who is a member of an unlawful association.

An unlawful association is any body which advocates or encourages the overthrow of the State by force or promotes or encourages "the attainment of any object of a treasonable or seditious character" or promotes, etc. "The nonpayment of monies payable to the central fund or any other public fund," or the non-payment

The issuance of literature of every description on behalf of an illegal organization is prohibited, drastic penalties including imprisonment and confiscation are made against Publishers and Printers. Power is given for the suppression of public meetings. The Governor General is given power to suspend Parliament for a month at a time and to appoint deputies without election, etc.

Since the passing of the act the government has proclaimed as illegal 12 organizations, amongst which are the Revolutionary Workers Groups, the forerunners of the Communist Party, the Working Farmers Committee Movement the Friends of the Soviet Union, and the Irish Labor Defense League.

The new Republican Workers and Peasants Party, Saoire Eire and the I.R.A. (Republican Army) are put under the ban.

The Government has got down in earnest to the work of suppression. Arrests and raids have been carried out all over the country. Meetings are being proclaimed wholesale, the first to be banned being that of the celebration of the anniversary of the Russian Revolution.

The Deep Economic Crisis The bourgeoisie explains its terror legislation by its concern for the sanctity of life and the protection of religion and morals," but these vestments fail to hide the cloven hoof of the

The trade returns for the nine months ended Sept. last reveal a fall in exports calculated in money of over 20% compared with last year

to eliminate the feeders.

The bosses put one group of workers against the others and due to the crafty sell-out tactics of the officials were rather successful in the past. But the men are beginning to see that bosses are licking them one group at a time. There have been several un uccessful revolts against that Fascist Berry (the International President) and he would like the check-off system introduced) making him independent of the membership, and this bosses' proposition would have guaranteed it.

The borses feel that wages in the printing industry are entirely too high. This 15 per cent wage cut would have been an entering wedge to force down wages all along the line in the organized crafts. In the unorganized shops wages have been slashed from 30 to 50 per cent. In the company union (Edition bookbinders shop) the bosses want 10 per cent wages cut now in spite of the fact that men earn as little as \$20 a week and girls \$10 a week.

There is only one way for printing workers to fight against their worsened conditions, by joining with the Printing Workers nternational League, section of the Trade Union Unity League. which organizes against wage cuts, and which creates opposition groups to fight aganist the betrayals by A.F.L. bureaucrats, who in league with the bosses are trying to still further worsen. the conditions of the printing industry.

and in imports of 15%. A fall of over 30% is shown on the total external trade figures. The share of the agrarian crisis in this position is revealed by the live stock exports for the month of Sept. These figures show a fall in volume and value of 23% and 25% respectively.

For the first time since 1926 the adverse trade balance figures have made a right-about-wheel. By its policy of protective tariffs and its drive against the standard of living of the working masses the Free State Government was able to progressively reduce the adverse balance from £19 millions in 1925-26 to £10 millions in 1929-30 or nearly 50%. But the slump in agricultural exports has given the death blow to this process in 1931; an increase of 21/2 million or 25% is now recorded.

The trade slump has brought about the severest crisis on the railways where the companies are engaged in the most terrific drive against the workers. In Dublin a third of the railway shopmen were recently laid off while the traffic grades are suffering wholesale dismissa's through the closing down of branch lines and rationalization generally. The government has not been slow to respond to the cry of the railway magnates-they are given a derating bill and a new traffic Act will favor their position at the expense of the workers and the smaller competing road concerns

Armed with the new dictatorial powers the preting the economic meaning of its terror act to the workers and peasants. A farmers deputation called to see the Free State President. The deputation assured Cosgrave that they were as near to Rome and as far from Moscow as he. and if only he could give them a moratorium on Land Annuities, or alternatively a derating bill, there would be no danger of their dropping their religion or taking to Communism With withering bluntness the representative of Irish Capitalism told them they "must pay their debts" and that derating was out of the question. A still worse fate overtook the Civil Service deputation representing 10,000 signatories. Cosgrave point blank refused to see them.

But the bourgeoiste are not relying solely on their police, jails, military and bailiffs in the battle for the maintenance of their rule of hunger and oppression over the toiling masses. The Church is moved into the front trenches of the class fight. "The ruin o fall that is dear to us in history, religion and country" is threatened. The wildest anti-Soviet orgy of propaganda streams forth from press pulpit and platform. The fury of the crusade is a measure of the nervousness of the bourgeoisie and the extent of the crisis.

Britic's Imperialism is also obliged to come directly to the aid of the Cosgrave dictatorship. A sham attack is made in the Imperial parliament on the powers of the Free State Constitution and a "victory" is staged for the Free State Government.

The "Statute of Westminster"

Through the "Statute of Westminster" the impoverished Irish workers and peasants learn that they are nationally free with "full Dominion Status." Small wonder that the only bonfires to great the new "Declaration of Independence" was the burning of a Union Jack and a copy of the Free State Constitution by the Dublin workers.

The forces of the Free State Government, the catholic priecthood and the British imperialists are reinforced by the Fianna Fail and Labor parties. The class organizations of the workers and peasants are declared outside the pale of the conditution. It is at this juncture the Fianna Fail Party declares itself completely converted to the constitution. For several years DeValera's Party declared the Free State Constitution as the main obstacle to Independence. Now that it has been abrogated for the workers and peasants it has become the main instrument of Independence!

The outlawry of the workers and peasants by the Free State Government is supplemented by the ex-communication edicts of the priests. This is the moment chosen by De Valera to de clare for an "Irish and Catholic way of solving our difficulties" for invoking the Pope's Encyclical and setting his new daily paper the task of popularizing Papal "Social Theories" as an alternative to the policy of a revolutionary class struggle for national and social freedom.

New Important Struggle These pronouncements, made at the Fianni

#### Ways and Means

New York folks who want to push the Daily Worker along, have no end of chance to do that, hese days.

First off, do you know that there's a two veeks' exhibition on at the John Reed Club, 63 West 15th Street, of the originals of the best of Jake Burck's cartoons and drawings. They're there to be shown-and sold, and they're dandy for framing or just tacking up on the wall of the old tepce. The proceeds go to the Daily Worker.

Then on Sunday, Jan. 3, you don't want to miss that big blowout at the Bronx Coliseum, in celebration of the Daily Worker's eighth birthday. The shooting is SUPPOSED to begin at 2 p. m. But you know these New York Communists, they seem to think it's a right deviation to begin anything on time.

And that reminds us of a third thing. You might subscribe to the Daily instead of grabbing it off news-stands-and sometimes missing it. It's cheaper for you and better for the Daily. The reason we were reminded of this by that notion that everything must be begun late, is that the Circulation Manager was all steamed up because the comrades who have charge of the Daily in the District here, sort of let the campaign get started first before they thought it was necessary to do something about it.

And the said C. M. rudely states that it's because they are firmly convinced that nobody will subscribe, so they got the idea that there was no use bothering to try to get subscriptions. Won't you put a crimp in that notion by subscribing? Hop to it.

#### Surprised Without Reason

Comrade Boris S. writes us:- "Surprised to see your appeal for physicians to help the unemployed. Are you not informed of our doctor who consults workers who cannot afford to pay free of charge? Whenever New York comrades unemployed or strikers, are ill, they always go to our comrade. He is poor himself, but he is a saint, a modern revolutionary saint. No need of giving his name—he would be angry at me if I did. We all know him. A living and splendid example of solidarity with the proletariat."

Well, this is interesting, but scarcely informative. We, personally, know off-hand at least three of such saints. But this is a Communist movement, and that means ORGANIZATION. And all these saints should be organized, or else their kindness is just so much hidden gold, accessible only to the few who know them.

What we approved of was the proposal of Dr. Maximillian Cohen, that dentists and doctors who sympathize with the revolutionary movement should make themselves known to the local secretary of the Unemployed Councils (Carl Winter, 5 East 19th St., in New York) so the services they give to unemployed (who must bring a note from their Unemployed Branch or Council) be organized sensibly, so that a jobless worker in the Bronx don't have to go to a Brooklyn dentist, or vice versa; and also so no one "saint" is over-taxed. Further, it breaks monopoly of those who "all know" this particular devoted comrade.

We are kind of skeery of saints; but we think Comrade Boris is sadly lacking in organizational sense and is doing his medical comrade no good by this somewhat slushy panegyric (that's a \$2 word, but it just fits).

### A Little Late for Humans

The local New York papers the last week have taken up a hue and cry bumming folks for their old clothes "for the needy". Of course a "dole" would degrade the unemployed but if the boss who fired you will be kind enough to leave his old pants at a police station the J. Y. papers tell us that the cops will soon give you the delightful feeling of presenting you with your exboss' trousers.

Strange to say this idea only occurred to our "humanitarian" bosses about New Year's day. but on our desk is a clipping from one of our local papers of back in October. It is headed: "Blankets for Horses" and says:

"Blankets for horses of owners too poor to supply them will be furnished before cold weather sets in Mrs. Jacob M. Ehrlich president and founder of the eHorse Aid Society of New York. announced today."

How solicitous our capitalists and their newspapers are for dumb animals!

Fall Congress, show the political differentiation now developing as a result of the sharpening of the class issues.

The Congress marks an important stage in the evolution of Parliamentary Republicanism towards more definite forms of collaboration with the national-imperialist counter-revolutionary blcc. It also marks a stage in the break of this party with the militant republican elements within the I.R.A., where De Valera's influence was hitherto strong. The Republican Leader makes clear his reasons for his present line of policy:

"Everyone must realize that there would be a serious danger if men with arms in their hands were to attack themselves to a special class movement to use them for class purposes against another section of the comm

Thus do the workers and peasants find themselves deserted by their "national heroes" the moment they take up their own class fight.

A general election is now being prepared in the Free State. Cosgrave, De Valera and Labor will urge the respective merits of their different forms of capitalist rule.

The forthcoming all-in workers Conference in Dublin will raise the class reply to the capitalists and their national and social reformist agents. The fight for the demands of the unemployed, resistance to economy and reductions in wages, will not be shuffled out of the world by the psalm singing altar boys of the bourgeoisie and their juggling with oaths of allegiance and Constitutional trappings.

The Revolutionary Workers Groups will challenge the class enemy in the election and thus but forward the political alternative to the parties of Capitalism-the organization of the Communist Party as the successor of Connolly, the leader of the Irish toilers in the battle for liberation from Irish capitalism and British imperialism.

us to speak out what we want, it is up to us, they will help in every way possible. One delegate is anxious to see automobile workers and conditions in auto plants. All right, either we will re-route our trip back to include the Tractor works at Kharkov or we will visit Amo auto plant in Moscow, the first thing when we return. Another is interested in workers' hous-
