Fascist Organization of the MASS UNITY MEET AT Unemployed

THE "block-aiding" system—the latest scheme of the Hoover-Gifford committee for enforcing slow starvation among the unemployed masses and shutting the mouths of workers who fight against it-IS NOTHING MORE OR LESS THAN THE INTRODUCTION OF FASCIST METHODS TO STOP MASS PROTEST. Al Smith and Hoover see eye-to-eye on

The scheme is to organize the unemployed under the supervision of the police department, the American Legion, capitalist organizations like the Red Cross, Boy Scouts, etc., to force weekly contributions from families where there is a member employed for a pooled sum which is to be paid to a stool-pigeon called a "block chairman," under the guise of "relieving the misery of the needlest family."

This is organizing the unemployed against their own interests. It is intended by this method to put the unemployed strictly under the control of the bosses and their various agencies, to keep out the Unemployed Councils. Especially is the scheme directed against the Communists who are the only section of the working class that organizes their fellow workers for militant struggle and expose the reactionary schemes of Wall Street-Hoover government and its local, county and

The block committees of the Unemployed Councils have now the task of organizing the unemployed to fight this latest fascist scheme

The Anti-Imperialist Struggle in China

THE stubborn defense of Shanghai by poorly armed and equipped Chinese troops has confounded the Japanese general staff and amazed the capitalist military experts of the whole world.

The resistance to the imperialist invasion of Manchuria, which springs from the ranks of the workers and peasants themselves, and which must be clearly differentiated from the bombast and traitorous pretentions of the militarist, has likewise upset all the forcasts of the imperialist military experts.

The Chinese today are a people in arms-led by the Chinese Communist Party and the Chinese Red Army. This is not always true in the strict organizational sense but it is true in that the heroic resistance around Shanghai to the Japanese advance is not led by Kuomintangthe official government of China-but by the workers and students who support the anti-imperialist revolution in China led by the Communist Party and the Soviet government of China-now including more than 80,000,000 workers and peasants in its territory.

Japanese imperialism and its 50,000 to 70,000 troops with all modern equipment, supported actively or passively by the other imperialist powers headed by America, has suffered disgraceful defeat at the hands of the

This is clear to anyone with a smattering of military knowledge. The Japanese government was sure of the support or neutrality of its fellow imperialists, but it did not understand what it means to meet AN ARMED PEOPLE LED IN THEIR FIGHT FOR LIBERATION BY THE COM-

ALL SUPPORT TO THE CHINESE REVOLUTION.

Stabilizing Pauperism

ERE is a new crop of proposals to "relieve" unemployment. They are being brought forward by the various capitalist agencies, lige Governor Roosevelt's unemployment commission, and the conference of governors of some six states, because the number of unemployed is increasing—while relief funds are decreasing

The number of totally unemployed is over the 12,000,000 mark today But every city, state and "relief" organization reports a decrease in the funds for feeding the vast army of hungry and starving workers and

The widely advertised "public works program" of Wall Street-Hoover government has blown up with a loud bank. The emphasis now is on conomy." Republican, democrat and socialist parties are united in declaring for "a reduction in government expenditures"-bow servilely as usual to the wishes of the big bankers.

The mass starvation in the United States, which exceeds anything ever hinted at by the official statisticians of unemployment and part time work at reduced wages, is being used to boost the fortunes of this or that capitalist politician This applies with especial force to the "unemployment insurance"

scheme proposed by the commission appointed by the governor of New York State. All these schemes have one thing in common-THEY MAKE NO PROVISION FOR THE MORE THAN 12,000,000 UNEMPLOYED WORKERS NOW IN THE UNITED STATES These proposals are to deal with "future emergencies." The way in

which they intend to deal with them is a question which the Daily Worker will take up in detail in a series of articles, the first of which will be published in na early issue.

Today we warn the working class that all these miserable schemes have but one purpose and that is to confuse workers and divert their attention from the struggle for federal workers' unemployment insurance at full wages, paid for by the bosses and their government.

At the same time these proposals, like that of the New York governor's commission, providing only for a maximum of \$10 per week for ten weeks of unemployment, are a brazen attempt to give official government endorsement to starvation wages now paid throughout the country and to put unemployment insurance on the basis of these starvation

But even on this starvation level no provision is made for the existing army of more than 12,000,000 jobless workers and their families. To qualify even for this pauper standard of unemployment relief-YOU HAVE TO HAVE A JOB.

This is the kind of fakery we have to expose and fight.

A. F. L. AGENT WHO JAILED FOOD WORKERS NOW HE'D FOR TRYING TO SELL STRIKE FOR \$1.00

NEW YORK. Feb. 19-Irving Enstein, labor faker and business agent of Local 302, A. F. L. Cofeteria Workers' Union and leader in the injunction fight against the Food Workers' Industrial Union last year in the Zelgreen Cafeteria, and who was responsible for sending hundreds of our militant workers to jail and be beaten up, was last night arrested for extortion and held without bail before Judge Gottlieb in the Night Court.

Epstein called a fake strike at the Seward Cafeteria, 149th Strer' and 3rd Avenue. After the strike was called and a picket line thrown around the cafeteria, he entered the shop and demanded \$1,000 from the boss on the condition that he would take the picket line off. He was promptly arrested for extortion.

Today his case was heard before Judge Mogulesky in the 6th District Magistrate Court. He was defended by the attorney for the Cafeteria Bosses' Association and held for \$2,500 bail for further hearing.

Workers can now see the utter corruption of the whole machinery of the A. F. of L., and especially this arch labor faker who is responsible for continuing the injunction campaign against the Food Workers' Industrial

American capitalists are warned in a confidential report that the revolutionary mass movement is developing in Japan on such a scale as to threaten the overthrow of the Japanese imperialist government. The confidential report, which is sent out by Whaley Eaton Service, under date of Feb. 16, 1932, states:

"COMMUNISM IN JAPAN: Reports are current in European diplomatic circles that Japan is suppressing news domestic Communist disorders, and that these disorders are so grave as to threaten the stability

Special TUUL Conference to Be Held February 27th

The Executive Committee of the Trade Union Unity Council has decided to call a special conference of the Trade Union Unity League on February 27th, at 2 p. m., at Stuyvesant Casino, 142 Second Ave. A main order of business will be the growing injunction menace. The growth of the TUUL unions, leagues and opposition groups, the increasing number of strikes led by the TUUL, the deepening of the struggle against unemployment, the rising discontent within the ranks of the American Federation of Labor unions, makes it absolutely necessary to call such a conference. The agenda for the conference is a

Make Solid the Ranks of New Members with a Stronger 'Daily'!

RUSH FUNDS!

Workers all over the country are gathering to protest the bosses' brutal murder of Harry Simms Seven of the Kentucky finers who brought Harry Simms' body at the Coliseum Tuesday Nite joined the Communist Party.

These are the answers of the workers to the bosses' murders. These and more answers like them will smash the bosses' terror wave. Who will keep the new recruits together? Who will train the new members?

To the Daily Worker, the workcrs' only English nationwide, daily paper, falls the task of rallying ever more and more workers and of training the workers for leadership. Yet at this period, when the task is greater than ever before. the Daily Worker is threatened, by financial difficulties, with suspensicn.

The Daily Worker Emergency Fund Drive is not going forward fat enough to overcome the danger of suspension. Only \$713.18 came in Tuesday.

This money represents heroic sacrifices on the part of many workers. But many thousands of other workers are able to help and have been putting it off from day to day. To these workers we want again to state that the Daily Worker faces a real danger of suspension, not next month, but in the next few days. To these workers we want again to state that the Daily Worker must not be suspended, or even reduced in size, in this critical period. To these workers, and to workers who have contributed in the past, we again rangal to rush funds to save the Daily Worker for leadership in the struggle against the bosses' wage cuts and murder campaign.

KNOXVILLE, Tenn., Feb. 18 .- The Workers International Relief was informed that the Knoxville Red Cross officials, accompanied by gun thugs, went to the railroad depot today and demanded that the freight clerk hand over to the Red Cross food and clothing that had been shipped to the W. I. R. from New York. There is no confirmation of this but the source of the information generally reliable.

Answering the call of the Communist Party and the Young Communist League, hundreds of workers jammed the railroad station ere at 9.21 a. m. long before the funeral train carrying the body of Harry Simms arrived.

This open fascist move against the N.M.U. is being accompanied by attacks against the Workers International Relief being made in Knoxville, Tennessee, eighty miles from the nearest point in the strike area. The W. I. This attempt of the billionaire coal operators to drive the N. M. U. underground is taking place simultaneously with moves on their part to ing Christ, advocating the destrucremould the United Mine Workers of America into an efficient strikebreaking weapon.

Workers Find Out About a "Liberal Magistrate"

TWO DAYS

NEW YORK .- Unable to break the Brighton strike through the use of open violence of Tammany police and thugs, the capitalist court tried their hand at it, using much subtler methods, however

On Monday 50 workers were to be tried on charges of "unlawful picketing" by Magistrate Sabitini in the Coney Island court. Sabitini at this time approached the workers with honeyed words of a liberal. He said in a dripping voice that he understood the conditions of the workers and went so far as to make a gesture of reproaching the bosses for keeping up prices when everything is with lying about the shooting of min- ion, and in proudly extolling the cheaper. Then he made a proposition. If the workers should settle of relief kitchens by Sheriff Blair's employment Insurance Bill, which the strike at 13 cents for two pounds assures a small part only, of the of bread he would dismiss the cases. The demands of the workers are five cents. Since they only buy one pound at a time the kind judge would have them pay seven cents. There can be

The workers were not fooled. They no doubt that the magistrate had this understand the capitalist court is no workers' friend. They were in court to test whether they had a right to peaceful picketing they told the judge and demanded immediate trial. Fur thermore they told him, they would not settle without the consent of all the workers in the strike.

Thereupon Sabatini dropped his liberal mask. He refused to give the workers an immediate trial and postponed proceeding until Feb. 29.

Today, 36 more workers were tried on the same charges. There was no semblance of the judge's "liberality" of yesterday. The judge came out in his true colors, without liberal decorations, as a servile servant of the bosses. He sentence four workers to jail. WIN RENT STRIKE IN BROWNSVILLE

NEW YORK.—In the last few weeks the Brownsville Unemployed Council has conducted a number of successful rent strikes.

On the block of Hinsdale St. between Livonia nad Riverdale Aves 32 houses with 279 tenants have won reductions in rent of 75 cents to \$1 per room, no evictions and recognition of the block committee. After a struggle which lasted three weeks the last two stubborn landlords were forced to come to the committee and give the same conditions that were in the rest of the block, in addition to paying \$15 for expenses of the strike

During the strike many demonstrations were staged before the landlords' homes and stores, numer ous open air meetings were held on the block and daily picketing was carried on by the tenants.

This block is one of the many ir the Brownsville and East New York where rent strikes are being conducted. At 83 Riverdale Ave. the landlord got an injunction against picketing and the tenants were ordered by the court to get out within the strike remained solid and the landlord had to call the committee for a settlement.

At 518 and 526 Pennsylvania Ave. the landlord is trying to break the strike by the use of the injunction In 521 Powell St. the Socialist Tenants League tried to get control of the strike and to get \$1.30 from each tenant, but the tenants were not fooled by the fine phrases of Gitlin the manager of the Tenants League and are continuing the strike with the Unemployed Council.

The Brownsville Unemployed Council is now located at 646 Stone Ave.

February 20, 21 and 22 are to be Tag Days for the Unemployed Councils of greater New York. All nembers should be out in the drive to build the Unemployed Councils and their official organ, "Hunger Fighters."

rallied to the parade. The parade ended at Cooper Union where a most enthusiastic meeting was held. Stamper, member of the International, was chairman. Grossman and Rosenberg, members of the International, explained the character of the fake strike. The call to go to the shop strike committees was hailed with intense enthusiasm.

A large number of rank and file workers from the I. L. G. U. participated in the discussion. They told of the hardships of the dress shops imposed upon them by the bosses through the assistance of the International officials. They exposed the fake strikes of 1929 and 1930, which were directly responsible for the terrible conditions in the trade. They called for a consolidation of a strong united front to smash the fake unions and win better conditions in the dress trade.

Ben Gold, secretary of the United Front Strike Committee, took the floor in the discussion. Following a scathing expose of the sell-out policy of the I. L. G. W. U., Gold called a strengthening of the united front for

Organizing to Smash the Injunction Menace

By JOHN STEUBEN.

A united front struggle on a mass scale against injunctions has to be organized!

In those industries where the militant trade unions of the Trade Union Unity League have developed their influence and activity, it becomes increasingly difficult for the bosses to put across wage cuts and to generally worsen the conditions of the

This is especially true of those trades and industries where the T.U.U.L. unions already partially succeeded to discredit the American Federation of Labor bureaucracy, like in mining, textile, needle, food, shoe, furniture etc. Numerous strike struggles took place in those industries, most of these strikes were led by the revolutionary unions.

Because of the class struggle program and militant tactics of our unions, these strikes were entirely or partially successful

BERLIN, Feb. 18.-Last night three trucks loaded with fascist storm detachments raided the village of Bankau in Upper Silesia.

Upon being refused information regarding the position of the house the Communist leader Adamietz, they attacked the crowd with clubs. A local fascist farmer led the raiders to the house of the Communist, Ernst Bassy, leader of at home. They shot and beat his father and then shot and beat to death his brother, August, although the latter was not politically organized, taking no active part in politics. The house was wrecked. The police arrested three fascists.

Fierce collisons between Communist and socialist workers against the fascists at Kottbus occurred last night. Four fascists were injured and one killed.

Last night the police raided the Homburg Communist locals searching for arms. As yet no report has been issued concerning the result, and the assumption therefore is that nothing was found.

Several Communist officials were arrested yesterday in Bremen and are charged with treason.

BULLETIN.

The Chinese soldiers and workers defending Shanghai yesterday answered hte Japanese ultimatum with a heavy bombardment of the Japanese warships in the Whangpoo River and the Japanese troops in the International Settlement.

The Japanese ultimatum demanded that the Chinese defenders of the South China city of Shanghai retire from Shanghai, leaving the Japanese and other imperialist armed forces in possession. The Japanese were supported in this demand by the United States, British and French imperialists. The Kuomintang leaders attempted to induce the Chinese troops to retire from the city, but the soldiers are standing firm with the revolutionary workers in continuing their successful resistance to the Japanese invaders

posal to the United States, British and French imperialists for the creation of an "independent" State control. The Japanese proposal is aimed at lessening the tension between Japan and the other imperialist powers over hie division of the spoils in the proceeding partition of China among the imperialist brigands. This tension has increased greatly in the past few days as a result of the huge mobilization of Japanese armed forces at Shanghai and the fear of the other imperialists that the Japanese intend to take more than their share in the looting of China. The proposal seeks also to establish a permanent imperialist war base at the mouth of the Yangtze River for the attack on the Chinese Soviet Republic in Central China. The proposal is supported by American and British interests in Shanghai.

The imperialist war base proposed would include all of the South China city of Shanghai and territory 25 miles west of that city. It would take in the other Chinese cities of Liuho, Paoshan and Woosung on the Yangtze, Quinzan and Chanju on the ritory as far as Sunkiang on the Shanghai-Hangchow railway. From this territory, which is the gateway to the rich Yangtze Valley, the imperialists would carry out a joint armed intervention against the Chinese Revolution and tis Red Army.

Two Worlds at War Today Armed intervention against the Chinese Revolution is a prelude to the proposed armed attack against war between two worlds-a war of desperation waged by dying capitalism against the rising and flourishing Soviet world. It is the most descapitalism to get out of the crisis

Today, it is being waged in China at the expense of the blood of the toiling masses. Today, armed intervention against the Soviet Union is being prepared at the expense of starvation and denial of relief to the starving unemployed millions in the imperialist countries. Only an awakened and alert working-class can prevent the new world blood bath which the imperialists are preparing against the workingclass. Workers! Organize for struggle against imperialist war. "My son, Harry Simms, was brutally murdered by the armed forces of the Kentucky coal barons. He dies for the cause of the working a worker and reared in the spirit liest days he devoted all his energy to organizing the workers, to enlightening them, to leading them in struggle for a better life and against the brutal forces of capitalism which crushes the workers of his country. He died on the battle field of the class struggle, while conducting activities on behalf of the exploited and oppressed Kentucky miners.

BRINGING LIFE TO THE UNITS

By L. D. (New York)

A few days ago, I attended a Unit meeting composed of new Party members, and almost all of them native Americans. At this meeting a number of very important points were brought out by the comrades who are new in the Party, as to their opinion of some of the weaknesses and shortcomings of our Party work. And in article, I want to take some of these criticisms and show how correctly the new memave estimated the situation in the Party, d what must be done in order to change this

In the first place, the comrades clearly pointed out that many of the old Party members are not able to give definite, concrete answers on questions that puzzle the minds of the new members. Especially questions of a political nature, questions that deal with deviations of a "right" or "left" character in our Party. This point is of the greatest importance, and shows again that our Party finds itself on a low political level, and that we must, without wasting much more time, begin to really politicize the activities of our Units to carry on some educational work, linking up the various, every day campaigns of the Party with problems of policy, wrong political conceptions, and what is the correct Bolshevik line on one or another concrete problem

The sound point that the comrades raised was the following: That we have not learned to distinguish between the work of the Party ganization proper, and the various mass organizations The comrades pointed out that for instance in the unemployment headquarters we find the same pictures of Lenin, and the other leaders of our Party in the International movement, the same banners, the same slogans, etc. that we find in the Party headquarters, and that workers who are not ready to be called Bolsheviks or Reds, but who come to our movement on the basis of every day struggles on the demands for Unemployment Insurance, immediate relief, reduction in rents, etc. are scared away from the headquarters of the Unemployed Councils because they have the impression that they have entered the ranks of the Communist Party. Large meetings of these mass organizations do not distinguish themselves from the Party meetings, and in very few instances have we drawn in broad masses of workers at these mass organization meetings. It is due to the fact that we have not learned to mobilize workers around one distinct concrete issue, and organize them for struggle around this issue.

It seems to me that this point raised by the comrades is of greatest significance to us. We must begin to go down to the roots of this very important ponit, see what are the causes

for this, and do away with it so that we can really mobilize masses of workers around the various activities that we are carrying on, without in any way antagonizing that section of the working class that still is prejudiced against Communists and the Communist Party, and only only the basis of struggle convince them of the correctness of our position, and draw them closer into our ranks.

Another point that the comrades raised was the question of wasting time in waiting around for meetings to begin. These new workers who joined the ranks of our Party are full of enthusiasm for the activities of the Party, and they feel that every moment counts, that every minute they can do something to develop the work of the Party, and yet they are forced to go to meetings that are called, and wait around for an hour, at times an hour and a half, and then be told that because only a few comrades showed up, th : the meeting is called off. They do not seem to understand such a sit-

uation, and they interpret it, and correctly so, as a lack of sincerity on the part of the older Party members in taking the campaigns of the Party in a real serious manner. If we were to check up on all the hours and days wasted on just waiting around for meetings, we would see that this point raised by the comrades is of greatest importance to our Party. We must begin to put into effect a system whereby, when a meeting is called for a given time irrespective of the fact of how many comrades show up, to begin this meeting on time. If we were to follow such a thing in a number of instances, then the comrades would be convinced that we mean business and we will not be in a situation where we will waste so many hours uselessly without any results.

These three points show very distinctly that the New Party members are alert and in bringing these criticisms to the Party do it in the spirit of really helping the Party to avoid some of the shortcomings that we face at the present time. It is of the greatest importance that we consider the opinions of the new Party members, that we discuss these problems with them, and really begin to develop a new inner life of our Units to a point where we really make the new and old Party comrades feel that we are a political Party that guides the workers in their every day struggles for improved condi-

In this light, we must take these criticisms seriously and unite all our strength and forces to shove aside these weaknesses that we are confronted with today, in order to make the full turn of our Party towards the shop work as its central activity, and towards the building of a real mass Communist Party.

For Political Decisiveness and Clarity in Our Anti-War Activities

By SAM DON.

PART L THE first condition for the mobilization of the Party for the struggle against war is merciless struggle against the underestimation of the war danger-particularly against the underestimation of the war danger against the Soviet

What is the main cause for the slow respon of the Party to the struggle against war, with consequent indecisiveness and lack of sustained activities in the mobilization of the masses in

the struggle against war? The cause is to be found in the very insufficient popularizing of Lenin's teachings on war, in the lack of a thorough political digestion and application of the resolutions of the Communist International. The result is that we do not develop a systematic and persistent struggle against opportunistic manifestations.

The absence of such a struggle in practice assumes the character of "rotten liberalism." which was so decisively condemned by Comrade Stalin in his recent letter.

We must, therefore, regardless of persons carry on a decisive struggle against opportunistic manifestations of a right and left character. In order to understand the seriousness and danger of these manifestations we must trace them to their source, that is, the bourgeois influences within the ranks of the working class and their reflection within the Party.

We will first of all very briefly state the line which gives the analysis of the C. I. on the war

situation With the continuous deepening of the crisis the bourgeoisie is sharply faced with the question of liquidating it. By what method? By a murderous attack on the standard 'living of the toiling masses, of the colonial peoples, and by the most desperate and feverish struggle for markets, for the armed redivision of the world, through a new imperialist world war. In sub-

raised from private sources will be exhausted by the 15th of February. Eviction cases in that city average 250 per day. In Cleveland the local relief funds are practically exhausted, while the need for help has substantially increased.

Green Looks for "Explanations" Mr. Green who helped to swell the profits of the big corporations by helping wage cuts, began to look for "explanations" when Congress handed these same bosses billions in government funds So Green said:

"No explanation can be made to hungry people and their sympathetic friends which would satisfy them as to why Congress voted billions to aid banks and corporations and would refuse to appropriate even a moderate sum to be used for the purpose of assisting the States and communities in supplying food, clothing and shelter to patriotic, loyal citizens who are suffering from unemployment."

Green wants Congress to give the workers "explanations" not relief. He wants the "relief" to go to "assisting the States and communities" -that is, to helping Jimmie Walker and Mayor Cermak make up their dwindling graft.

Drive Against Unemployment Incurance No worker should be fooled by the latest rantings of the A. F. of L. leadership. They are of the same cloth as the promises of Mr. Green and Hoover at the beginning of the crisis. They have the same end-a powerful drive to keep the workers from fighting for unempl ance and against wage cuts-so that the standard of living of the entire American workingclass can be lowered and the bosses profits (in which Mr. Green and the other 100-petition presenters have no little interest) be preserved.

The most effective answer workers can give is to build a powerful movement of the unemployed, rallying new millions in the struggle for the Workers Unemployment Insurance Bill; by speeding the movement within the A. F. of L. endorsing unemployment insurance to be paid by the bossses and their government at the rate of full wages, coming out of the fortunes and profits of the rich, and by strengthening the struggles on all fronts against the decaying capitalism which Green seeks to save at the expense of the lives of millions of workers.

minds of the people, the conversion of the whole of the working population of the country into conscious and active builders OF THE CLASS-LESS SOCIALIST SOCIETY." (From the Thesis

stance, this is the capitalist way out of the the dictatorship of the bourgeoisie and the dictatorship of the proletariat extremely intensifies the danger of military intervention against the U. S. S. R." (From the 11th Plenum Reso-

> lution of the C. I.) The present war in China, the growing open

acts of provocation against the Soviet Union strikingly confirm the analysis of the Communist International Under the pressure of the crisis, Japanese imperialism is waging war on the Chinese masses. The antagonism between the imperialist powers is sharpening over the struggle for the partitioning of China. There is only one force today in

China which can unify China, which can defeat the imperialist partitioning of China-that is SOVIET CHINA. And the very existence of the Soviet Union, the steady growth of socialism in the Soviet Union, is the greatest force and inspiration to the Chinese toiling masses in the struggle against an imperialist war for the partitioning of China.

Thus we see that within the sharpening of the antagonisms between the imperialists, looms the war of intervention against the Soviet Union and the various imperialist expeditions to crush Soviet China, to destroy the Chinese Red Army.

Japan clash over the Pacific Ocean. The struggle between Japan and the U.S. over the Chinese markets, the main market of Japan, for the control of the markets in the Pacific area, is growing daily. The Japanese war in Shanghai. threatening the interests of the imperialist powers in Central China, extremely sharpen the contradictions between the imperialist powers.

But America, while preparing to the minutest detail for war with Japan, is within certain limits willing to support Japan. What is the main basis for this support? It is the expression of the main line of American foreign policy-struggle for leadership in the anti-Soviet front, to ruin and interfere with the carrying out of the Five Year Plans.

The events in Shanghai must not blind one to the occupation of Harbin by Japan, to the attempts to seize the Chinese Eastern Railway. The growing rivalries between the imperialists in connection with the Shanghai events, the growing danger of an inter-imperialist world war, does not change the fundamental fact that the main danger of war today is that of armed intervention against the Soviet Union, does not change the fact, that there exists a united anti-Soviet, anti-Chinese Front of all imperialist powers.

We give here a few characteristic expressions from the capitalist press, which bring out the MAIN danger in the present war situation in China, and the LEADING role of American imperialism in the Anti-Soviet Front.

Thus the liberal World Telegram in its financial section (no accident) speaks out: "The Chinese-Japanese squabble, even though it develops into a war may not be as detrimental as it appears. It might even stimulate trade a bit, and if Russia becomes involved in a minor way, she may be forced to give up her Five Year Plan, which has caused no little concern in this country." (My emphasis.) Indeed the Five Year Plan has caused concern to Wall Street and Hoover.

What about the Second Five Year Plan, gentlemen?

The New York Evening Post, the organ of gan, who arranged the conference between ver and Laval, carried a dispatch from va, that for brutal frankness must be condered as a rarity in the capitalist pre s. Its

dept from Geneva wrote: "Why not state the truth, that Japan emerges victorious not only in far eastern battles, but here as well, because the great western nations, behind their League masks and under their diplomatic camouflage secretly want Japan installed upon the Asiatic mainland, a dependable sector of a protective ring around Soviet Russia! . . . What Finland, Esthonia, Latvia, Lithuania, Poland and Roumania do for conservative Europe in their function as buffer nations against Soviet Russia, it is argued-and settled for that matter-Japan intrenched in the Asiatic mainland

would perform at the gateway of the Reds' backyard."

A "Special Tribute"

The Rome correspondent of the N. Y. American of February 11, in cabling the account of Mussolini's reception at the Vatican, where the Swiss Guards were drawn up to receive the fascist murderer, goes on to remark that the Guards had laid aside their usual ancient halberds as follows:

"In place of halberds, were rifles with fixed bayonets, a special tribute to the visitor."

One is lost in admiration of the Pope, the representative of Christ, according to his own claim, who is thoughtful enough to keep a good bunch of "rifles with fixed bayonets" around to show that he's a real Christian. Particularly, in view of the fact that he was supposed to pay "a special tribute" to Mussolini, another Christian who just dotes on guns, by showing rifles with fixed bayonets, instead of halberds.

Rockefeller Enters Rug Business

Valdez, Colorado, The Colorado Fuel & Iron Co., co-operating with state board of vocational education, is instructing unemployed miners in the gentle art of weaving "genuine Indian" rugs. All work is to be done on hand looms, which, according to a newspaper account, can be "put" into the home for less than \$20.

The following jingle is used by the bosses to advertise this scheme:

> "Miner, miner, are you starving? Do you want 'good times' to boom? Just procure yourself a twenty-Buy yourself a hand-power loom."

With the eastern warehouses full of "genuine Navajo rugs" made in Hoboken, N. J., it is difficult to believe that the miners in the Southern Colorado coal fields will be able to dispose of their primitive rugs.

Presidential Timber

We notice that the boom of "Garner for president" is being spread far and wide. All kinds of "yes men" are yelping in chorus: "Garner is the man of the hour." Just why he is that, is not disclosed. Maybe he has a watch.

Of course, one thing claimed for him is that he comes from Texas and is supposed to be "a farmer" from "out in the sticks". But farmers should take not that he has lived in Washington, D. C., for twenty-nine years and wears a silk hat with the best of the Washington politicians. Also, whether he's a "farmer" or not would make no difference. He's a capitalist farmer, maybe. And his party is a capitalist party.

Aside from that, he appears to be eligible as a capitalist candidate for president, by reason of the fact that it has not been proven that he has had an idea, either new or second hand, for the last forty years. His heaviest political utterance of recent date is the remark, made while visiting the White House, that the silver door knobs indicated that there might be a funeral.

Kindly contrast, against this and other fossilized blockheads and reactionary clowns of Wall Street, even the second rate leaders of the Soviet Government. Then realize that what we say about th "decline and decay of capitalism" can be exemplified here in the person of presidential

the democrats are just as enthusiastic as the republicans in Congress, for the new way of putting over a general wage cut that is called a

Incidentally, as showing that incompetence is rewarded, the United Press dispatches of February 9 reported both the approval by the Senate of Ogden L. Mills as secretary of the Treasury, and the admission by Mills of a "treasury error of \$455,000,000 "

To make up for this mistake of Secretary Mills, Secretary Mills suggests a sales tax. And the democrats are all for it, too. Among the democrats who are cheering for the move to tax what workers eat, the Hearst service plays up Congressman Crisp of Georgia. After "explaining" that, for some reason he doesn't give, the rich cannot be taxed to balance the federal budget, and that it must be balanced by a sales tax, Crisp lets this out:

"Today some of your government bonds are selling as low as 85 cents on the dollar. If you continue to issue bonds-there will be a further depreciation. The premier security of the world today is the United States bond and if you do not stop issuing bonds they will show further depreciation and all industrial and comme cial bonds, stock, lands and everything else will depreciate."

Now, that would be downright bad, wouldn't it. Yet that is exactly what is going to happen, even if the capitalists do have their sales tax, from which they aim to extract a penny on every dish of baked beans, so to speak, that the workers consume. Yes, sir, that "premier security of the (capitalist) world", the U.S. bond, is going down below 85.

Why? Well, for one thing, when the masses wake up to what that sales tax is going to do to them, their opinion of the government will go down from 85 to 58 or maybe lower. Also, all such taxes are a limitation on production, and the more limitation the worse for the symbol of capi-

talist government strength, the price of its bonds. Moreover, in the first place, \$2,000,000,000 in additional paper bonds have just been approved by Concressman Crisp and all his little republican and democratic side-kie'rs, and that is pure inflation, which will have its effect on U. S. horde

Incidentally, it's all wrong what Crisp said shout II. S. hands being the premier security "of the world". He left the Soviets out, and the really best security is Soviet Government bonds. But even if you have been "hoarding", you can't buy them over here. That's a privilege that only Soviet workers have. The nearest thing to it that you can do is to join the Communist Party and thus join the fight for a Soviet Government right here. It's the price of beans, not bonds, that should interest you.

around the Soviet Union on the Eastern and Western Front. Within the growing conflicts of the imperialists stands out the united front of all against the Soviet Union.

(To be concluded)

By HARRY GANNES. IT would be hard to find a blacker page in all labor history than that written during the present crisis by the deeds of the leadership of the A. F. of L. against both the unemployed and

Mr. Green and Unemployment

Insurance

It is especially necessary to recount these deeds tacle of 100 overstuffed labor fakers presenting a petition to Hoover, asking for "federal aid" for the unemployed. The real intent of this petition can be understood only in the light of the breadsnatching and strike-breaking activities of the A. F. of L. officialdom,

Conference With Big Capitalists.

Right after the crisis threw millions of workers into the streets to starve, William Green, president of the A. F. of L., along with 12 other highpaid A. F. of L. officials, met with such individuals as Hoover, Walter Teagle, president of the Standard Oil of New Jersey; Alfred P. Sloan, Jr., president of General Motors; Owen D. Young, Samuel Insull (whose gun thugs are now shooting down miners in Kentucky); E. G. Grace, Bethlehem Steel Co.: Myron C. Taylor, U. S. Steel (both of whom later headed the wage cut-

ting drive for 1.000,000 steel workers). The purpose of the meeting was to prevent strikes and how effectively this was done is testified to in no uncertain terms by one of Green and Woll's best friends, the Wall Street Journal. The most hopeful sign this sheet could find for

capitalism for 1932 was the following: "One aspect of the business year which has lately passed out unwept, unhonored and unsung, is deserving of more than the casual mention it has received. It is doubtful whether so rapid and extensive a deflation of the wage earner's income has ever before taken place in the United States, with so nearly a total absence of open conflict between 'masters and men' . . . It seems a far cry back to the Homestead riots of 1892, to the Puliman and railroad strikes of two years later, or even to the Col-

orado mine disorders of 1914." Thus Wall Street pins a medal on the lapel of Mr. Green for the "rapid and extensive deflation of the wage earner's income.'

The results for the unemployed workers is written in the ledgers of the big corporations in the form of hundreds of millions in profits taken out of wages that would never have been paid had not the A. F. of L. officialdom not helped the bosses to hog-tie the workers.

Green's Promises to the Unemployed.

Green, however, as well as the rest of the A. F of L. officialdom did not neglect the unemployed workers in the Judas act. With the prospect of starvation for millions clearly pointed out by the Communist Party (and later even Green himself could not deny it), the A. F. of L. bureaucrats called on the hungry workers to have fortifude, to believe in promises, to go hungry for the preservation of American capitalism.

It is sickening to read, in the light of the present siuation, in the face of the present admissions of Green of wholesale starvation, his promises shoved down the throats of the workers back in 1929 and 1930.

Brazen Lying a la Hoover.

Workers were starving and lighting for relief. What did Green tell them? He said: (Nov. 22,

"We now find that pessimism is giving way;

that faith and confidence is being restored; and we all can look forward with renewed hope to an early resumption of increasing in-

There followed two months in which over 2,000,000 workers lost their jobs, most of whom have since never had work; many thousands of whom died of hunger. But when asked to express his views o fthe workers' future Green wrote (Jan. 2, 1930):

"The president's conferences (out of which the wage cutting drives sprang) have been effective in checking this drift toward pessimism These conferences recognize the interdependence of all industrial and economic groups The necessity of maintaining wage standards and keeping the workers employed was emphasized (and we know how well this was emphasized!) and co-operation of industrial executives forestalled the danger of serious layoffs. With the 'great back-logs' of prosperity assured by public service institutions and zov-

ahead with confidence." Thus spoke Mr. Green, and he was echoed by every other labor lieutenant in the A. F. of L. while millions of workers and their families faced starvation; while the Communist Party was mobilizing the workers to struggle for unemployment insurance, for relief to come out of the gorged pockets of the bosses who had been reaping heavy profits by the frightful exploita-

ernmental work as we enter 1930 we can look

tion of the American workers. Now suddenly we have Mr. Green singing a different tune. Not long ago at the last convention of the A. F. of L. in Vancouver the most prominent feature was a speech made by Green declaring the A. F. of L. was against any form of unemployment insurance or "federal relief" because it was undignified and not in keeping

with the morale of the American workers. After the February 4 demonstrations, Mr. Green with 100 other Wall Street agents in the officialdom of the A. F. of L., presented a petition to

Hoover calling for "federal aid." Why should these fakers who were promising the workers "prosperity", who were talking about co-operation with the bosses, who were preaching optimism, and decrying unemployment insurance, suddenly try to hide their two-year's of betrayal by a mass of phrases about the hungry millions? It is now to the greater interest of capitalism for Mr. Green and the leadership of the A. F. of L. to appear, like Father Cox, to be leading the growing movement of the unemployed

The bosses look to Green to do for the unem employed what the A. F. of L. was able to do for the employed in the matter of wage cuts. Mr. Green is now trying a new confidence game.

The A. F. of L. officialdom which for years was telling the hungry workers to rely on "local relief", said in its petition:

The local relief agencies in New York, Philadelphia, Chicago, Cleveland and Detroit have found the task too great. For instance, in New York 250,000 families are in immediate need of relief, while 100,000 are receiving assistance. In Philadelphia the number dependent on re lief has risen from 3,000 in December, 1930, to 43,000 in December, 1931. Philadelphia estimates its need at \$6,000,000 beyond that raised, and there is no more money in sight. Funds

In Chicago relief funds will be exhausted by

But what is the main obstacle that imperialism finds today in its way for the redivision of the world, for its capitalist way out of the crisis? It is the very existence of the Soviet Union, particularly now, when the first five year plan is being carried out in four years, completing the foundations for the building of socialism, and the Second Five Year Plan is announced.

Comrade Stalin gave a very clear answer to the above question. In his report to the 16th Party Congress he pointed out brilliantly why the imperialists consider the Soviet Union the main obstacle for their murderous and bloody capitalist way out of the crisis. He said: "I spoke earlier of the contradictions of world capitalism. But apart from these contradictions there exists yet one more. I mean the contradiction between the capitalist world and the U. S. S. R. It is a contradiction between capitalism as a whole and a country building socialisc. But this does not prevent it decomposing and shaking to pieces the very foundations of capitalism. Still more, it lays bare to the very roots all the contradictions of capitalism and gathers them up into one knot, making of them a question of life and death for the capitalist order itself. Therefore every time that capitalist contradictions begin to grow acute the bourgeoisie turns its gaze towards the U.S. S. R.: 'Cannot we settle this or that contradiction of capitalism, or all contradictions taken together. at the expense of the U. S. S. R., the land of the Soviets, the citadel of the revolution, revolutionizing by its very existence the working class and the colonies; preventing us arranging for new war, preventing us dividing the world anew, preventing us being masters of our own extensive internal market, so necessary for capitalists, particularly today in connection with the

economic crisis?" (My emphasis.-SD.) The Soviet Union is the living embodiment of the revolutionary way out of the crisis. The toiling masses throughout the world, the colonial peoples, look towards the Soviet Union in their struggle against capitalism, against imperialism An imperialist war, a war on the colonial peoples, in face of the existence of the Soviet Union, holds for the imperialists the danger of proletarian revolutions and colonial uprisings and revolutions. The imperialist powers therefore, whose contradictions as a result of the crisis sharpen to the point of armed struggle, who already today carry on wars on the colonial peoples, consider as the main aim of their foreign policy, military intervention against the

We therefore see the dialectic development of the following process within the imperialist camp: acute growth of antagonisms amongst themselves and within these antagonisms the development of the struggle for leadership for a united attack against the Soviet Union.

Thus through war on the Soviet Union, "removing the obstacle" which "revolutionizes by its very existence the working class and the colonies" and "prevents the arranging of a new war, prevents the dividing of the world anew." The pivot, therefore, of international relation-

ships today is the antagonism between the world

which is building socialism and the world of dying capitalism. This antagonism is rowing daily. The second Five Year Plan, in its epoch making announcement, most clearly demonstrates the growing antagonism between the two worlds. The significance of the Second Five Year Plan must be understood in the light of its main political objective: "The fundamenta political took of the second Five Year Plan is the final liquidation of the capitalist elements and of classes in general, the complete removal of the causes which produce class differences and explcitation, the overcoming of the remnants of capitalism in economy and in the

of the Second Five Year Plan.) (My emphasis. The developments in the world today must therefore be analyzed from the viewpoint that: "The growth of the antagonism between the capitalist world and the socialist world, between
