NEW YORK. - Tammany Hall and the whole parasite

Two weeks ago the Emergency week 2,000 were laid off and now these still left on the lists are cut

The building program of \$231,-

1. To cut the \$5 food cards of 125,000 families 10 per cent. 2. To drop 56,000 families from the relief lists. 3. A 40 per cent cut in the daily outlay for food, light, heat and rent. 4. To completely close down all relief by June 1.

It is clear that Tammany Hall wants to spare the rich by "econom\_ izing" at the expense of thousands of starving unemployed. The Block Aid campaign, organized by J. P. Morgan and "socialist" Norman Thomas is part of the Tammany program to put the "economy" plan into effect.

> NEW YORK .- Marching in disciplined ranks, 2,000 workers of the lower East Side yesterday held an antiwar parade, marching through many proletarian blocks which had never before meen the scene of working class demonstrations. The United Front Anti-War Committee and Section One of the Communist Party were the leaders of this spirited demonstration in which many mass organizations participated.

The parade was led by the Drum and Bugle Corps of the Workers' Ex-Servicemen's League. The workers listened with close attention to speakers from the Block Committees the Young Communist League, the International Labor Defense, the Workers Ex-Servicemen's League and the Communist Party. As they began the march from Seventh St and Avenue A, the workers militantly shouted slogans of "All War Funds for the Unemployed!" "We Demand Unemployment Insurance!" To the Workers, Peasants, Negroes, Indians, Exploited Farmers, Revolutionary Students and Intellectuals and to all Oppressed of the Americas: Brothers! Sisters! Comrades!

The Communist Parties of the Americas appeal to you to rally with all your might to the struggle against the imperialist robber war upon China and for the defense of the Chinese people and of the Soviet Union. Japanese imperialism has cut off Manchuria from

China and is establishing there its plundering colonial rule under the guise of an "independent" state ruled by a puppet government. The Japanese imperialist murderers are proceeding to turn Manchuria into another Korea, the same as Yankee imperialism is doing in the Caribbean through its own puppet governments.

This so-called new Manchurian state has already become a base of war against the Soviet Union. Armed bands of Russian White Guards are being equipped and mobilized by Japanese imperialism for attacks upon the Soviet-Manchurian frontier. These bands are already making incursions into Soviet territory (Blagovestchensk) followed by flying expeditions of Japanese airplanes. Large numbers of Japanese troops are concentrated and massed along the Soviet frontier in Manchuria and Korea for war against the Socialist Fatherland.

All imperialist robbers, the League of Nations and Yankee imperialism, are taking part in the partition and further subjugation of China and in the preparations of war against the Soviet Union. World imperialism is seeking a capitalist way out of the crisis by a new war for the redivision of the world and especially by a war against the Soviet Union, while intensifying the attack upon the standards of living of the toiling masses in all imperialist and colonial coun-

Beware of "Pacifist" Maneuvers. Brothers! Sisters! Comrades! Do not be deceived by the pacifist maneuvers of the imperialists and their "socialist" and anarchist supporters. Thepresent "disarmament" conference in Geneva and the "peace negotiations" between Japanese imperialists and the Koumintang traitors under the hegemony of the League of Nations and Yankee imperialism, are designed to nide from the masses the war against people and the war preparations against the Soviet Union. These pacifist gestures are also intended to hide from the masses the sharp struggle between the imperialist bandits themselves (Japanese, Yankee, English and French) for the largest share of the Chinese spoils in their common drive for the further enslavement of the Chinese people and for the beginning of war against the Soviet Union,

Do not be deceived by the pacifist poison of the "socialist" parties of the Second International, the anarchist and anarcho-syndicalist leaders and the whole tribe of social-fascist supporetrs of imperialism. Arthur Henderson, leader of the Second International is chairman of the Geneva "disarmament" Conference which has rejected the true disarmament proposals of the Soviet Union made by Comrade Litvinov. Paul Boncour, leader of the French "socialist" party, represents French imperialism at the same Conference which is trying to cover up the partition of China and the war preparations against the Soviet Union. Remember also the Pan-American Federation of Labor, which, under the hegemony of the socialfascist leaders of the American Federation of Labor, is functioning as an instrument of Yankee imperialism for the further enslavement of the peoples of Latin America and for inciting war against the Soviet Union. Remember also the Yankee Fellowship of Reconciliation and its social-fascist partners, Norman Thomas and Muste, which are aiming to reconcile the oppressed Latin American peoples to the rule of Yankee imperialism by means of pacifist phrases.

Imperialists Consolidate Rule In Manchuria Finding its drive from Shanghai into the interior of Central China seriously retarded and, at least, temporarily checked mainly by the self-sacrificing struggle of the Chinese masses and the world-wide protests of the revolutionary proletarian and the colonial movements, Japanese imperialism is now turning its attention more fully to the consolidation of its robber rule in Manchuria and to the utilization of Manchuria as base for immediate war against the Soviet Union.

Yankee imperialism, which is parading hypocritically as a "friend" of the Chinese people, is seeking to halt the further expansion of Japanese power in China in order to establish there its own domination, as it is doing in Latin America, by driving towards war against the Soviet Union and against the Chinese Revolution. The Yankee puppet governments in Latin America are making ready to support their imperialist master in the war, by placing their countries on a war footing and by the wildest white terror against the masses and their revolutionary organizations. The Mexican and Cuban governments have already openly declared their allegiance to Wall Street and the Hoover government.

French imperialism works hand in hand with the Japanese imperialist murderers against the Chinese people and the Soviet Union while feverishly building up the anti-Soviet intervention front in Europe. British imperialism, the chief rival of Yankee im-

perialism in Latin America and ene world over, is fighting to maintain its colonial possessions in China, is partly supporting Japanese imperialism against Yankee imperialism, and is driving towards war against

Second Day Reveals Deliberate Plan of French Puppets to Disrupt Soviet-German **Diplomatic Relations** 

The Daily Worker today prints the reports of the second day of the trial of Judas Stern and Vasiliev before the Military Collegium of the Soviet Supreme Court. The trial of these imperialist tools who tried to involve the Soviet Union in war shows the steeled determination of the Soviet Union to maintain peace.

At this time when the imperialists are rapidly moving toward armed intervention against the Soviet Union, when Roumania and Poland are admittedly preparing to attack the Soviet Union on the western front at the same time that the Japanese attack on the Soviet Far Eastern border, the trial of these two plotters and war provocateurs against the Soviet Union is of tremendous significance to the workers of the whole world.

The Daily Worker is the only paper which is publishing the full report of the trial. Watch the Daily Worker for the detailed reports of this trial by our Moscow correspondent.

MOSCOW, April 5.—The first day of the trial of Stern and Vasiliev completely disclosed the circumstances and motives behind the attempt to assassinate the German Ambassador to the Soviet Union. Behind all the lies of Stern, his role was fully established as a weapon in the hands of a counter-revolutionary, terrorist group. This group was directed by certain foreign circles which aimed by this attack on representatives of countries maintaining diplomatic relations with the Soviet Union, particularly Germany, to cause political complications between the U. S. S. R. and western powers, thus hoping to provoke war against the U.S.S.R.

this small group on the charge of assault, is to cover up the bloody attacks of the police and the support of Japanese imperialism by the U.S. Government. The bourgeois press admits that the attack on the peaceful demonstration was prepared in advance by the police through their agreement with the Japanese Ambassador Debuchi. The fact that a detachment of police was hidden in the basement of the embassy for the purpose of attacking the demonstration from all sides and attacked the demonstration brutally, is further proof of this agreement.

In the first trial of the nineteen arrested workers, the police were forced to admit that this attack on the demonstration puts the Hoover

FIRST SOVIET TALKIE AT THE ACME THEATRE

"Road to Life," the Soviet talkie that tells the story of Russia's homeless waifs is now playing at the Acme Theatre, 14th St. and Union Square, The picture, Russia's first talkie, has received more high praise than anything that has come from foreign studios in many a moon. Although produced entirely for distribution in the Soviet Union, the system of suout inthis country has made the picture entirely understandable to all. Nikolai Ekk, director of the film, has overnight become a world-wide celebrity as a result of his first motion picture work, and just received permission from the Soviet authorities to accept invitations to address cinema artists in Berlin, Paris and London. On the same program the Acme is showing as an added feature, "Art and Culture in the U.S.S.R." showing a factory orchestra, the Leningrad Ballet, Kharkov House of Culture Chorus and Caucausin music.

Ringling Bros. and Barnum and Bailey's circus, the "greatest show on earth" opens at Madison Square Garden Friday night, to inaugurate a season of over three weeks. Here are some of the big features this

season: "The Man from India"-a myster feature, a breath-taking thriller-but what he does cannot be otld here. The girl who is shot out of the cannon-La Belle Zacchini, wife of the human projectile of the last few years. Clyde Beatty, the youth who has forty performing lions and tigers. Alfredo Codona, triple somersaulting star. Luicita Leers, single aerial feature of the show; the noted Rieffenachs, family of bareback riders; the Royal Ubangis, monster-mouthed disc-lipped women who offer lips to the view of eager throngs as large as the mouths of crocodiles. Then of course there are the Indian and African elephant., the 1009 menagerie animals and 700 horses with the greatest show on earth, the 240 clowns and 800 arenic artists.

### Thousands Attend Needle Workers Anti-War Meets

NEW YORK .- Several open air meetings were held in the various garment markets this afternoon to mobilize the needle trades workers for the anti-war demonstration. Thousands of workers attended the meetings where the war plans of the bosses were exposed and the workers were called upon to fight against the coming

## HUNGRY NEGROES BEATEN, SLUGGED

## Harlam Bureau

Sixty Negro workers, men and women, were slugged, beaten and driven away from the Home Relief Bureau at 257 W. 133rd Street today when they came to ask for relief promised them and protested the new

teeth in the starvation program. The bureaus had been nursing the workers along with promises for weeks, in some cases for months. Then suddenly last week the supervisor announced that the city had no more funds for relief. A limited number of workers receiving the measly sum of \$4.50 a week to support a family found their relief cut to \$2.50.

The bureau announced that it would stop paying rent thrusting hundreds of workers face to face with the prospects of immediate eviction. With the burning problem of hung-

ry children at home, their own empty stomachs, the landlord pressing for rent, the gas and electricity cut off the workers decided to appeal to the supervisor Miss Mason and the answer of the government to the hungry workers was as described above.

The workers of Harlem are at high pitch by this treatment and the Unemployed Council is conducting a campaign to organize the unemployed of Harlem, Negro and white for a mass struggle for relief directing their anger into insistent demands for immediate cash relief and unemployment insurance.

## THOUSANDS HEAR | Foster Calls for Mass Action LA. DEPARTMENT to Free Frank Borich

only militant mass action will free Frank Borich, secretary of the National Miners Union, from jail where ment for deportation to fascist Yugoslavia, Wm. Z. Foster issued the following statement calling on the workers to fight against the whole monsterous deportation program:

The Department of Labor sleuths have seized Frank Borich, general secretary of the National Miners Union. They are holding him in the extravagant ball of \$10,000, for deportation to fascist Yugoslavia. Only mass action on the part of the workers can save Comrade Borich from being sent to this hell hole of capitalism, where not only his liberty but his life is threatened.

This outrage by Doak, secretary of Labor, is a further attempt to break up the National Miners Union, to terrorize and demobilize the miners in the face of the wave of wage cuts that is now taking place throughout the sofe coal regions, and to re-establish the reactionary UMWA in the coal districts. It is in line with Doak's strike-breaking tactics during the Pennsylvania-West Virginia - Ohio strike of last summer, when he called national conferences between the operators and the UMWA officials for the deliberate purpose of smashing the strike and forcing the workers back to work under the UMWA and with heavy slashes in their wage scales.

The arrest of Comrade Borich is the latest in a long series of similar

NEW YORK. - Pointing out that | attacks upon the revolutionary unions. Among such were the deportation of Comrades Devine and Murdoch, secretaries of the National Textile Workers Union, the arrest and threatened deportation of Comrades Berkman, Giambatisti, etc. The Department of Labor is determined evidently to illegalize the revolutionary unions.

> Mr. Doak further considers it as a main task of his department not only to deport tens of thousands of foreign born workers and generally to act as strike-breakers-inchief, but to give the direct support of the government to the AFL officials wherever they are threatened by the opposition of the workers. In Local 28 of the Sheet Metal Workers in New York, when 35 workers recently took out a court injunction against their racketeer officials, Mr. Doak sent his government agents to "investigate" and to try to terrorize them into submission. Doak's arrest of Borich is part of this general reactionary program.

> WORKERS, demand the release of Comrade Borich! Fight against the deportation of Berkman and Giambatisti! Fight against the whole monstrous deportation program of the government! Adopt resolutions of protest in your unions and other organizations. and send them to the Department of Labor, to your congressmen, and to the labor press. ### Vote for Communist In Grand Rapids Is Greatly Above 1928

GRAND RAPIDS, Mich., March 9.—In the municipal primary elections held in Grand Rapids on March 7, the Communist Party mayoralty candidate, Arthur J. Briggs, polled 671 votes. This number represents a substantial gain over the number of votes cast (119) in 1928 when the Party last participated in elections.

In addition to the fact that the vote cast for the Communist candidate surpassed that of another posses' candidate who only received 622, it is clear that a big number of votes cast for Briggs were thrown out as over 1.000 votes were unaccounted for in the number of votes officially cast and the election returns. In addition on the night of the elections with a number of precincts not recorded the count for Briggs was 717 but the following day had dwindled to the official 671.

That the vote cast for Briggs is no indication of the influence of the Party becomes more apparent when it is mentioned that it was theresult of a few weeks election campaign activity.

## PREPARING NAVAL OFFICERS FOR ANOTHER NOBLE EXPERIMENT

By R. B. HUDSON

IN the April, 1932 issue of the U.S. Naval Institute Proceedings, a publication of the Naval Academy for the exclusive consumption of Naval officers, an article has appeared which is of special interest to American workers. The article is entitled, "Russia" by Rear Admiral W. S.

Appearing at a time when war hysteria is

again being inflamed, when provocative attacks against the Soviet Union become more sharper, this article, by one who openly advocated intervention in 1917, is a vicious attack against the Soviet Union and advances the old arguments for armed intervention that were used in 1917. Crosley, who was the naval attache to the U. S. Embassay in Russia in 1917, states that prior to August, 1917 he was urged "by many Russian naval and military officers to take command of Russian bodies of officers and clean up Russia." Crosley was willing and anxious to be the leader of the White Guards, but he also wanted well-trained troops, with foreign backing, who were not yet contaminated by Bolshevism, therefore "I cabled the U. S. Navy Department, urging that the battalion of U.S. Marine stationed in Pekin be transferred to Petrograd because any well-disciplined unit of foreign troops could be the nucleus of a powerful force for order that would be joined by as many patriotic Russians and its commander

Foreign troops were used for intervention purposes on many fronts, but the imperialists were unable to carry through Crosley's plan entirely and he remarks: "At any rate the experiment would have been a noble one and I am still sorry that it was not carried out."

The imperialists are now preparing feverishly to carry out this "noble experiment" of armed intervention, and Crosley is doing his share by writing this article. Crosby realized the value of the Kerensky government to the imperialists and later on "when it become apparent that Russia could not be kept in the war (Because the workers were going Bolshevik) I recommended that foreign "advisors" be supplied the Provisional government of Kerensky."

A beautiful picture of the White Guards is painted by Crosley when he says: "The White Guards were described to us by a Russian as follows: "The Red Guards were organized to murder us all and the White Guard was formed to prevent this.' I did not find a better explanation while I was in Russia."

Writing for Naval officers who are being prepared to lead the naval forces in armed intervention again, Crosley informs them that the Soviet Union is a hell of a place because

intensified onslaught of journalistic and

s aw enlisted men visiting the barracks or naval officers and removing the side arms of these officers; we saw enlisted men with swords piled on their arms as one stacks wood to carry it. One officer committed sucide that day rather than surrender his arms to the men."

Throughout this article Crosley tells how little respect the Russians had for the Tsarists officers and weeps because this disrespect was even extended to officers of other nations. He relates: "It is a fact that Mrs. Crosley and myself were ordered, in writing, to shovel snow in the streets of Petrograd." And this barbaric demand was resented so much that it was reported in writing to the American Ambassador.

The indignation heaped upon these parasites by the Russian workers were so great that "we had fudge and Scotch whiskey to retsore our somewhat distrubed nerves." This naval officer had better get a good supply of fudge to calm his nerves, because he is going to get an awful surprise one of these days when his own men go

Naturally one who uses fudge for a sedative would do a lot of worrking about God and Art and he states "After hearing choirs of Russian priests singing, I became fascinated with that and never expect to hear anything so inspiring again." Also he was much impressed by the Ballet and states "that the present productions are very inferior." Crosley concludes his paragraph on God and Art with the wail, "It would be a shame if all that great art were lost."

Yes, and the bosses say that it would be a shame if they were forever denied the right to exploit Russia again. Therefore they intensify thir intervention plans, and this article which openly advocates intervention in the name of a "Noble Experiment" in the name of God and Art, and ofdisrespect to naval officers, is written for the purpose of mobilizing the precious tools of imperialism, the naval officers, for the coming

These naval officers will head the Naval forces and also the Merchant Marine, which is a high subsidized Naval Auxiliary. Plans have already been completed that will place the Merchant Marine under the command of the Navy, and the marine workers whose wages are being cut, conditions worsened, and thousands being thrown into the army of unemployed, will be asked to transport troops and munitions, in order that the Soviet Union be crushed, and the shipowners profits increased.

Workers! Smash the war plans of the bosses. Marine Workers, do not load or transport troops or munitions in bosses' wars. Join the Marine Workers Industrial Union and strike against wage cuts. Defend the Soviet Union. Demonstrate April 6th.

## The Fight of Japanese Proletariat Against the War ond-hand clothing. Wonderful! But what has this to do with "Freedom" or "Justice," let

The Japanese proletariat is still very young. It grew up and developed under conditions of an absence in the country of any social conflicts, in fact of any striving for freedom worth mentioning. The stifling atmosphere of a monarchistreaction has in the course of a number of decades stamped even the proletariat with a certain conservatism. Only a small percentage of the workers have been drawn into any organization. The Communist Party has existed only 6 to 7

years and is forced into conditions of strict ille-

gality. Revolutionary traditions are only now being craated in the country.

The faithful lackeys of the Japanese monarchy, the social democrats, are striving with all their powers to stir up the chauvinist feelings of the masses and to persuade them to support the robber-war in China. They are endeavoring to divert the feeling of discontent and despair among the disinherited masses into the channel of war fever. Whilst the workers and peasants are fighting affainst the war, the social democrats organized a demonstration in front of the premises of the Mizul concern under the slogan: "Against foreign-exchange speculation, the profits of speculation to be applied for war purposes and for the support of the soldiers at the front." They thereby wish to make use of the bitterness of the masses against inflation and high prices for the purpose of war-incitement. Not content with supporting the slogans of the bourgeoisie, "socialist" slogans in the service of chauvinism. They want to prove that "the intervention in Manchuria is not an imperialist act, as even a socialist Japan would have to fight for the necessary raw material for its industry," that "these materials are, however, in the hands of America, England and Russia." The Japanese social democrate wish to use the desire of the masses for socialism in order to justify the plundering of China and the preparations of intervention against the Soviet Union as well as war against America and England.

In order to arrive at a correct estimation of the anti-war mood in Japan, one must bear in mind that an outspoken military and policeabsolutism prevails in the country, Any poor person can be arrested by the police without ado and held in police custody for months. The police cells are the terror of the propertyless. Years of imprisonment are nothing in comparison with one week's confinement in the police

The social democrats help the police in every way. They are in open alliance with them, which is all the firmer as it is to their mutual advantage. Here are a few facts: In the year 1931 there took place the Congress of the Left Peasant League, "Dseno." The delegates sympathizing with the Communist Party formed the majority. There thereupon took place, obviously at the request of the social democrats, the arrest of all Left delegates, which circumstance was then used by the scial democrats, who were left without any opponents, in order to get the Central Committee of the League into their hands. This Central Committee, which came about thanks to the help of the police, then decided to expel all the arrested delegates from the Central Committee and the League.

The advance-guard of the proletriat, the Communist Party of Japan, has adopted a correct attitude in regard to the question of the war, the protection of the Chinese people and of the Soviet Union. Various mistakes and omissions cannot alter this fundamental fact. Already before Japan's attack on China, the Communist Party of Japan warned the masses of the people. The organ of the Communist Party of Japan "Sekki" (Red Flag) published on July 5th last year an article entitled: "Fight against the war preparations"!in which it wrote:

"The whole of the bourgeois press is making propagnda for the idea of the special importance of Manchuria and Monoglia as an impulse to a new revival of Japan, It is agitating for war. ... Workers and peasants! Refuse to pay any taxes! Refuse to pay the blood-taxes for the interests of finance capital! All our forces in the service of the fight for emancipation from the capitalist yoke."

On August 1st, the Party carried out a number of strikes and demonstrations against the war. As an answer the police arrested more than 1,200 workers.

In the issue of November 28, we find a number

den, the Communist Party issued a Manifesto to "The workers, peasants and soldiers!" in which it stated: "The bourgeoisie and the landowners have already robbed you of work, bread, land and freedom. The war serves their interests. It will increase your sufferings still further and bring .you utter ruin." The manifesto called for the fight: "For the immediate withdrawal of the troops from Mukden and all occupied districts, do not ttransport a single soldier. Resist all warlike actions of Japanese imperialism, enter into an alliance with the Chinese workers and peasants. Organize strikes and mass demonstrations against the war and for your demands!" The Party declared that "the fight for peace without a revolutionary fight at the same time for

"down with imperialist Japan, for Soviet The fact that the number of strike struggles and peasant outbreaks in Japan have increased and continue to increase in the period of the war is of very great importance. The anti-war and anti-government character of the fight of the workers and peasants is expressed particuraly clearly in the fact that nearly all the strikes and peasant outbreaks are accompanied by fierce street collisions the workers have the sympathy of the neighboring inhabitants and are directly supported by the latter. In the rural districts,

peace without a revolutionary fight at the same

time is an empty, lying phrase." Its slogan is:

the peasants render aid by supplying food. The bourgeois and the social democratic press maintain complete silence regarding the direct actions against the war. It was obviously only due to an oversight that a bourgeois newspaper published a report of a strike at an aircraft factory which is engaged on war work. If, however, we take a glance at the five numbers of the illegal newspaper "Musani" Simbun" which has come into our hands, we find in every number numerous reports from workers correspondents of anti-war actions in various parts of the country. The issue of October 18 gives reports of a number of demonstrations against the war, which took place on October 7th:

"The demonstrations took place at the following places: at building works and at the Labor Exchange, at the pump factory etc. Delegate conferences were held on October 5 in the following undertakings: in the tramway depot, in a department of the electricity works, at the Labor Exchange, the textile industry, at the tobacco factory; on October 6th, at a chandelier factory, at an iron works, in a musical instrument factory, in a rubber factory, in a woollen factory, in the printing works, in a tobacco factory (another one), at two Labor Exchanges. Further, delegate conferences were held at an iron works where the workers are on strike, at an electro-technical factory and elsewhere; slogans against the war in Manchuria and Mongolia were issued, namely: hands off Manchuria and China, down with the imperialist government of Japan, support the unemployed instead of spending money on the war."

The issue of November 15 published a report, still incomplete of the demonstrations on the occasion of the October Celebratons, and writes:

"On November 7th demonstrations under the slogans, Long Live the 14th Anniversary of the October Revolution! Down with the imperialist war, protect the Soviet Union!' took place in the following towns: Tokyo-in Kudan, in the tramway depot, at the Tokyo railway station, in the imperial and in the Vased (university). In spite of the fact that more than 200 comrades were arrested before the demonstrations, more than 2,500 persons took part in the demonstrations in Tokyo. On the same day, many thousands of leaflets were distributed. In Kudan, 400 workers (unemployed, railway workers, and printers) took part in a demonstration. More than 500 workers took part in a demonstration at the Tokyo railway station. Here over 100 persons were arrested. In the universities of Tokyo and Vased, demonstrations attended by more than 1,000 students took place. Over 100 workers demonstrated at the big printing works Sujesija. A meeting of over 400 strikers was held at the textile mills. Unemployed and factory workers took part in demonstrations at the 3 Labor Exchanges."

There follow further reports of similar demonstrations against the war in a number of industrial centers: Osaka, Yokohama etc.

of reports of anti-war demonstrations which took place in many villages. One such report made as

"In the prefecture of Toyama a meeting was organized which was attended by over 500 peasants, who were thereupon marched in a demonstration procession. At the collisions with the police the demonstrators called out: When we have a Soviet government, you (the police and nationalists) will get short shrift.' On the following day, the police, out of fear of an attack by the masses, were compelled to release the five persons they had arrested." In the same number we find the following communication from a correspondent:

"At a meeting of working men and women of the textile mill 'Tokyo-Moss', which was convened by the reformist trade union, a working woman quite openly declared: 'The war in Manchuria is an imperialist war to enrich the capitalists at our cost; our work becomes harder every day; we are in constant danger of dismissal and wage reductions; the leaders (reformists) do nothing for us. We are absolutely against the war.' She was handed over by the reformist leaders and the management to the police. At the mill, signatures of the workers to a protest against her dismissal were collected with great success." The issue of December 19 reports:

"The workers of seven factories in Tokyo who were on strike organized on November 28th a joint demonstration under the slogans: 'Down with the imperialist war,' 'down with the dismissals.' At this demonstration a joint strike mittee was elected."

At a locality in the provinces a conference of the local council and of the peasant organizations adopted a decision calling for the fight. against the imperialist war and the immediate withdrawal of the troops from Manchuria. At this conference there were present 14 delegates

elected by the members, as well as 4 guests. What are the most outstanding facts in these communications from worker correspondents on the fight against war?

The anti-war movement is springing up from below. The activity in developing and spreading the anti-war movement.

Not only workers but also peasants are particinating in the movement. It is impossible to overestimate this fact.

The anti-war movement already bears the active character of street demonstrations and meetings, economic strikes, and actions of the peasants against the big landowners.

The continued anti-war demonstrations of the poor students bear witness to the anti-war feeling of the lower strata of the population. According to the latest reports dated February 11th, a fresh students demonstration against the war has taken place.

The anti-war feeling is finding its way into the citadel of Japanese imperialism, into its army, where things have already gone so far that the soldiers are refusing to fight and demanding to be sent home. These actions of the soldiers against the war show that the ferment among the soldiers is already widespread. This is confirmed by an American paper, which refers to the bad morale of the Japanese army.

The number of immediate fighters against war does not, for the time being, extend beyond a few thousand. But there are workers, peasants and students who demonstrate against the war although they know that their fate may be the torture chamber. There are soldiers, who refuse to fight although they know that they will be court-martialled for doing so. Each one of these workers and soldiers, peasants and students expresses the inward hopes and strivings of many hundred of thousands who have not yet reached this height of heroism, but soon will.

The anti-war movement in Japan shows that the war against China and the Soviet Union is becoming more and more unpopular among the great mass of the working population of Japan. In Japan we have an extraordinary favorable situation for the fight to convert the imperialist war into civil war, for the people's revolution against the war and the bourgeois-landowning monarchy, for the fight for rice, for land and liberty, for the workers and peasants govern-

To help swell profits of American capitalists a bill has been passed in the Senate and House directing the Secretary of War to pur-chase or contract for articles of AMERICAN growth, production or manufacture ONLY, even though such goods cost more, provided the excess in cost is not "unreasonable." Simther had fet 1965.

### Three Papers: Three Misleaders

Obliging comrades have sent us, by chance at the same time, copies of three papers which set forth three ways to change the world-all bad. But all appealing to the deep aspiration of the exploited and oppressed masses for security and emancipation, and, because of that, worthy of our attention The first one, called the "Dawn of Equity."

propagates, if anything besides snivelling none sense, a reversion to handicraft labor, and is reactionary from that point of view basically. It is publisshed in Los Angeles, and says 18 advocates "Freedom, Justice and the Welfare of the Unemployed." It is the organ of the "Industrial Exchange Association," which claims to be "for all civilized people of the Earth," but has so far reached only seven chartered branches in It is worth while to see what those branches

are doing, since the Association claims to set out to "organize a real cooperative plan including all kinds of workers" and "do away with the interest or profit for the lazy rich." On the other hand, it wants to "avert the social dangers which may arise from a constantly increasing class of unemployed" and "to lighten the burdens of charitable institutions-aims with which Hoover himself is in full accord. To do all these things, it serves as an exchange

for members who make odds and ends of commodities by hand labor, naturally the unemployed. Quite an accomplishment is reported from Topeka, Kansas, where—"A young man made and sold a dozen small shelves to a local

In Los Angeles, the general organizer of & branch reports the wonderful victory of "collecting laundry," it being stated as an added victory that the laundry owner has joined the Association, thus amending the theory of the vulgar economists about workers getting rich doing each others' washing, by the practice of enriching the laundry owner only. The same branch has dried fruit for said and intends to sell secalone the "welfare of the unemployed"?

The second paper is the "Liberty Bell," which "Announces a Second Declaration of Independence" in the name of W. H. ("Coin") Harvey, who, like the toad that lived 100 years shut up in concrete to hop out again, has come to life after hibernating since about 1894 at Monte Ne, Arkansas, with his ancient scheme, so appealing to the debtor class of petty bourgeoisie, of demonetizing gold, the free coinage of silver, paper money by the barrel, a moratorium on debts, nationalization of banks and "public" ownership of utilities, etc.

All this is the program of Harvey's "Liberty Party"-which is going to "place statesmen of unselfish wisdom in charge of the affairs of state," thus abolishing—not capitalism—but what Harvey calls "usury," and saving capitalism, which Harvey calls "civilization." All without revolution by the workers, which Harvey looks upon as "the death of civilization."

Among the "statesmen of unselfish wisdom" gathering round thhe Liberty Party, are noted "famous evangelists," a "merchant and fine gentleman," a "Tacoma attorney," a "real estate man" of Idaho, a "prominent promoter," andsmelling of mold-"a man of the Daniel Webster ype" and another "of the Andrew Jackson tyype." But the latest and best is none other than the fascist "Father Cox" of Pittsburgh, (By the way, what does Upton Sinclair mean by endorsing Harvey, who in turn endorses the fascist Cox?)

Neither the "Liberty Bell" nor the "Dawn of Equity" has discovered the Soviet Union, with all its lessons showing the only successful way out of capitalism for the toilers. But the third paper, the "Industrial Democrat" of Leesville, Louisiana, has. Indeed it leans heavily on Worker frequently.

But for what purpose, the editor keeps under his own hat, since he seemingly deliberately avoids even mentioning the Communist Party, and on the contrary appeals passionately for the formation of One Big People's Party"-a party which, if formed, could only help fascism by opposing the Communist Party.

Perhaps this is as nearly consistent as an anarchist who goes in for politics can be. But those who hold up the Soviet as an example. and who speak respectfully of Lenin for the results of his work, should in all honesty contrive to avoid perverting Lenin's teachings into their opposite. To hold up the results of struggle led by Communists, then to reject the Communist Party, is what is known as "left" social fascism.

## Hurrah! Hurrah!

"Another man has found a job!" So writes a Chicago comrade, enclosing a clipping from the Chicago Daily News, revealing the glad tidings that, "although his home at 5518 North Normandy Avenue was in ruins from fire, George Johnson was happy today" because "he returned home with the glad news that he had found work in a junkyard at 50 cents a day."

Perhaps if he got the chance to listen to some neighbor's radio, he would have been plumb tickled to death to hear J. P. Morgan saving: "Now, you give a dime, and I'll give a dime; then we'll all be bearing the burden equally."

Too Much Mush Already.-His name is Me-Campbell, but even if he isn't Scotch, he would still be a capitalist politician. What did he do and who is he? He's a member of the New Jersey legislature, a democrat, and in a recent speech he told how angry he was when a man with eleven children said he needed \$25 a week to keep his family. "We spoil our poor," said McCampbell. "Now I eat corn mush for breakfast, and when I'm in town I go without my lunch until I get home." Added to corn mush. this mush is too mush mush.

The Army Engineer Corporation wants coolie wages for the next war, if recent testimony of Major General Lytle Brown is any indication of the army position. At a hearing on the wages paid on a job of Mississippi levee work, let by the Army Engineers to a contracting company, he was asked if 1216 CENTS AN HOUR was not a low rate for a laborer. He replied contemptuously, "He probably isn't worth more." Major General Brown contended he had never found a contractor whose was wage was unfairly low and thought that the prevailing rate of wages in the lower Min-

ing Russia," measuring 15-16 inches high. This yarn was written by an unnamed "eye-witness." Why the number was not made a million I cannot say, except that the "1,000" fitted in perfectly, typographically. Why the unnamed 'eye-witness" could count off an even thousand without getting shot in the eye is another story.

Sherwood Eddy does his bit in this "moral offensive." In an article in the March 16 issue of "The Christian Century," he tells us, "In Nanchang I visited the capital of the province which is forming the center of a Communist U. S. S. R. which soon expects to unite five solid central provinces, with a population of nearly 100,000,000 people, into a widening Soviet Republic." Of course this pride of the Christian Century cannot stand for this sort of thing. So he protests: "For one thing, we must do everything in our power to help save China from the abyss of communism, with all the suffering and loss of life that accompanies it in this most unhappy country." As with so many Christians in this most Christian Century, Eddy puts the cart before the horse. It is the suffering and loss of life that accompanies capitalist exploitation that is driving the masses from the abyss

of capitalism to the heights of Bolshevism. Of course, all this is a part of the war preparations against the Soviet Union. Press and pulpit are being aroused as never before by Wall Street to get the people in a mood to intervene against the Socialist Fatherland.

The Divinity School of the University of Chicago is "housed" in a heavenly mansion known as Swift Hall, "donated by the notorious laborhating Swift family of Swift & Co., packers. The connection of this "Divine" crowd with John D. requires no recollection. The professors of "Divine" hocus-pocus at this "holy" shrine boast that they are liberal. And they are: they are always ready to liberally supply religious opium about the sacredness of defending capitalist institutions.

In the "Divinity Student" of February 15 is an article by Riichiro Hoashi of Waseda University, Tokyo, Japan, with some typical "University of Chicago Liberalism." This proponent of Japanese imperialism is warning the preachers about the impending loss of their jobs if "communistic ideas" prevail. After slobbering about the fact that the people are tired of the "otherworldliness" and do not fall so readily for pulpit gas, this divine student lets the cat out of the

"Another anti-religious tendency is involved in social-reconstruction movements. The cry for democracy of a decade ago is now superseded by the cry for socialism, especially of the Marxian type. Stalin's successful regime finds an echo in Japan with its proletarian dictatorship and its slogans for anti-imperialism, anti-capitalistic government, and what not? It grips most seductively the heart of the rising generation. The dissemination of communistic ideas is not due particularly to high pressure propaganda but rather to the universal fact of social discontent and maladjustment coupled with numerous cases of scandal among high officials."

You will notice that the Reverend Mr. Hosshi is not trying to sooth the pulpit pounders about any "impracticability" of Communism. That is for the preachers to tell their dupes. Notice that he frankly tells the reverend liars that communism is "successful." Of course working men are not expected to read such a "refined" periodical as the "Divinity Students"
