JAPANESE INSPIRE WHITE GUARD ATTACK ON SOVIET MANAGER AND OFFICES OF CHINESE EASTERN RAILWAY

MARY PEREZ, TAMPA DELEGATE, TO SOVIET UNION

May Day Must Be a Mighty Protest Against the Imperialist War

Junion, is openly threatening war. The capitalist press reported yesterday an interview with a spokesman of the foreign office in Tokyo in which he declared:

"Very serious consequences may result if there are further incidents such as the recent bombing of a Japanese troop train near Harbin," the spokesman said, adding that reports from the Consulate General at Harbin indicated that Russian Reds wrecked the train. (N. Y. World Telegram, Jan. 18).

The meaning of this declaration, of course, is not to warn the Soviet Union of the coming blow. The imperialists, before all Japan, are very far from such "sentimental prejudices." The real meaning of this open threat of war is to notify the imperialist bandits who are plotting in Geneva under cover of "disarmament," that Japan is ready for and determined upon this attack.

It is of no consequences to the imperialist that only 24 hours before General Araki, Minister of War in Tokyo, had admitted that the bombing of the train had no connection with the Soviets. This admission itself came only 24 hours after the first accusation had been made. Such accusations will occur daily from now on, to be followed with admissions of their falseness until the moment when Japan chooses to make the next drive upon the Soviet border. This moment depends completely upon the decision of the Japanese general staff, and the activities of its terrorist agents The statement quoted above simply means that the Japanese war against the Soviet Union can now begin at any hour, because a pretext is always ready.

We are witnessing the full realization of that which the Daily Worker has many times warned the workers and farmers of America.

Japanese imperialism has displayed unexampled cynicism in the preparation of every desired pretext for each move in its bandit war. The sudden emergence of the Chinese General Ma as again a "rebel" against the Japanese puppet state in Manchuria, and again moving towards the border of the Soviet Union, recalls even for the shortest memory that only a few months ago the same General Ma provided the excuse upon which the Japanese sent "a small punitive expedition" to Tsitsihar, a movement which quickly realized itself as complete occupation of the Chinese Eastern Railway and all of northern Manchuria.

General Ma is unquestionably another puppet of Japanese imperialism. He is described by the Soviet press as "a swindler serving the Japanese general staff." His moves on the Soviet border fit in closely with the war plans of Japan. It is revealed that the telegrams supposed to be signed by General Ma and sent out to various parts of China and abroad from Blagoveschensk, in the Soviet Union, appealing for military action against the Japanese, were sent by the Japanese Consulate in that city as diplomatic coded telegrams. The aim of this vicious fraud is clear: by making it appear that Ma conducts hostilities from Soviet territory it provided the perfect preparation, even if the fraud is exposed the next

day, for Japanese imperialism to begin its war against the Soviet Union. Simultaneously news reports tell of the mobbing by Russian White Guards in Harbin of the Soviet representative in the management of the Chinese Eastern Railway, Comrade Kuznetoff, who bearly escaped death at the hands of these rascals in Japanese pay. The railway line of the Chinese Eastern Railway connecting Harbing with Changchun and the South Manchurian Railway is being reconstructed by the Japanese to the narrow gauge. Japanese standard, and incorporated into the Japanese system to guarantee the transport of troops and ammunition.

Precisely at the moment when Japan completes preparations for war, the dirty intrigues of all the imperialist powers are coming to a climax in Geneva, where the representatives of all the imperialist powers are feverishly negotiating plans for redivision of the world, for new alliances and blocks, behind the mask of "disarmament." One common main aim binds together the imperialist bandits in Geneva-that is, the destruction of the Soviet Union. United in this common aim, the imperialist powers are at the same time fighting bitterly among themselves for the lion's share of the spoils, and manoeuvering for allies against one another.

The Japanese foreign office does not deny that it is "awaiting possible developments" in the alignments at Geneva, and in sharpening contradictions and antagonisms inside the imperialist camp. Among the sharpest of these antagonisms is that between Japan and the United States. But that does not prevent American imperialism from continuing to give support to Japan for the war against the Soviet Union. Behind the hypocritical manoeuvers of Washington, behind the pious declarations of "progressive" politicians and newspapers, Japanese and American ships continue to transport enormous quantities of war materials and amunitions to the Far East for the use of the Japanese imperialist armies. In the United States, as in every imperialist country today, in the midst of the almost complete collapse of industries generally, the business of supplying materials for war is working at full speed.

The imminence of war again emphasized the role of the A. F. of L. and the Socialist party as the agents of the capitalist class. The Second International is operating openly as an appendage and tool of the League of Nations. The burocrats at the head of the American Federation of Labor, with the same viciousness as their colleagues in Japan, are exerting every effort to mobilize the workers in support of war against the Soviet Union. The sharpest example of this, unprecedented even in the rich history of betrayal of the Second International, is the propaganda being made in the Illinois coal fields by the officials of the United Mine Workers of America that "the wage cut in the mining industry is in-

evitable unless Japan makes war against the Soviet Union before May 1." The workers, farmers and impoverished middle class of America must understand that the decisive hour has arrived in the struggle against the imperialist war which is prepared against the Soviet Union.

May Day, the international day of the toiling masses, must be a mighty day of protest and struggle against imperialist war, against the capitalist attacks upon the living standards of the workers, for the defense of the Soviet Union.

Stop the transport of munitions and war materials to Japan! Smash the two-face imperialist diplomacy of the Hoover-Stimson administration and its preparations for war!

Stop the robber war against the Chinese People! Defend the workers fatherland, the Soviet Union.

URGE MASS PICKETING IN DOCK STRIKE

MWIU Calls Strikers to Elect Rank and File Strike Committee

NEW YORK .- Joseph P. Ryan, head of the International Longshoremen's Association and the shipowners are exerting every effort to smash the influence of the Marine Workers Industrial Union and break the longshoremen's strike against a 10 per cent wage cut which began here Friday.

Over 1,000 dockers are now on strike. The docks effected are the ClydeMallory, Morgan, Southern Pacific and Savannah Line docks. The strikers all during the struggle have shown a determined and militant spirit and have declared that they will stay out until they win.

Yesterday Ryan, who sold out the dockers' strike in 1919 and only recently betrayed the Boston longshoremen into a wagecut, was on the waterfront urging the strikers against mass picketing. Surrounded by over 150 gangsters, Ryan called two meetings of the dockers at the Seamen's louse on West Street. At these meetings Ryan promised the strikers the support of the teamsters and spent the rest of his time denouncing the M. W. I. U.

The teamsters' support, however, was not forthcoming and while the bosses were bringing scabs to load and unload the ships, Ryan urged the dockers against mass picketing The strikers fought hard against the bringing of scabs to the docks. In one instance they turned over truckload that was sent to the Sav annah Line.

Thugs Dispersed

A sharp fight took place in front of the docks Saturday when Ryan's forces of thugs attempted to drive organizers of the Marine Workers Industrial Union off the waterfront. In this encounter several of the gangsters were beaten up and Ryan and two officials of the I. L. A. were driven to cover.

Urge Rank and File Control The organizers of the Marine Workers Industrial Union are ever present at the striking docks urging the dockers to take full control of the strike in their own hands through a duly elected rank and file strike committee. The longshoremen must beware of allowing Ryan or his self-appointed committee negotiate for them.

The government labor concillators are already on the job. The longshoremen must permit no negotiations with these government agents and must demand that their own committee, elected by the rank

10,000 Miners March In Mass Funeral of Murdered Comrade

CADIZ, Ohio, April 18.—Over ten thousand striking miners and their wives and children marched behind the bier of William Kimbell, of Bradley, militant miner. who was shot to death on the picket line by National Guard troops several days ago.

The masses of miners, sullen and determined, their faces gaunt with hunger, pledged to carry on to victory the great struggle against starvation in which their felow worker Kimbell fell.

proceeding to the cemetary there was stirring in the National New reenforce Guard camp. ments were rushed to the vicinty of the Somer's Mine of the Good. year Tire and Rubber Co. where Kimbell was murdered.

Before the funeral the miners held a mass meeting on the fair grounds. The march to the cemetary covered a distance of

TOKYO FOREIGN OFFICE ISSUES NEW THREAT AGAINST SOVIET UNION

Troops of Japanese Puppet Manchurian State Looked On While White Guards Attacked Soviet Official and Railway Offices

The Japanese war inciters yesterday moved rapidly toward active realization of their criminal plans for armed intervention against the Soviet Union and its successful Socialist construction.

Following quickly on the heels of the announcement by the Japanese Government of the dispatch of warships to Soviet waters off Kamchatka, Northeastern Siberia, and of the sending of additional troops into Manchuria toward the Soviet border, the White Guard allies of the Japanese yesterday attacked Soviet citizens in the Manchurian city of Harbin.

Manchuria looked on, an organized

Manifesto of United Front May Day Committee

Demonstrate May 1--12:30 p.m. at Union Sq.; March to Rutgers Sq.!

WORKERS! This May Day, is our day of unity and solidarity in struggle for unemployment insurance, against closing of Home Relief Bureaus, for cash relief to all unemployed without discrimination. The Tammany City administration and bankers conspired against our very lives. They are dooming hundreds of thousands of workers' families to starvation. Their Block-Aid is a hold-up, to fill the pockets o the Tammany grafters.

The bosses are trying to solve their crisis by taking the bread from the mouths of our children. The Hoover government is turning over billions to the bankers and trusts and pouring billions into the war machine, but refuses unemployment insurance. The A. F. of L. leaders support the whole Hoover hunger program.

Hundreds of thousands of us, working two or three days a week, already near the starvation level, find our wages cut without limit. The bosses government directs their attack on the living standards of all workers. The A. F. of L. and socialist leaders help the bosses put over wage cuts, break strikes, and split the unity of the workingclass. The bosses try to take away our most elementary rights; to organize and resist wage cuts and hunger. Injunctions and police terror is let loose

The boss terror is especially sharp against the Negroes, lynch terror, discrimination and oppression of Negroes is raging throughout the country. The bosses and their agents try to set up white against Negro, native against foreign-born, in order to oppress and exploit all workers. The bloody lynch verdict against the Scottsboro boys is a blow

Demonstrate May First-March! For the right to organize and strike, against police terror and injunctions, for the immediate release of Tom Mooney and the Scottsboro boys! On this May First, all workers will unite to fight against imperial-

ist war. The bosses want to pile up huge profits by plunging us into a fresh world bloodbath, by killing off the millions of unemployed. The imperialist war is already on against the Chinese People. The Japanese imperialist butchers are already at the gates of the Soviet Union. The Imperialist Powers are ready for bloody war against workers' Russia, only country that abolished unemployment, that is rapidly raising the living standards, and is building a new socialist life for the masses With slogans of "peace" the socialists and pacifists are helping the bosses draw us step by step into the world imperialist bloodshed, just as they did in 1914-18.

Fight the imperialist war! Defend the Chinese People and the Soviet Union! Stop the transport of munitions to Japan! Demand the billions in war funds for the unemployed! Out to Union Square May 1, against hunger, war and capitalism! March to Rutgers Square! Celebrate at 7:30 at the Bronx Coliseum, East 177th Street.

camp. Seven hundred and day, April 23th. guardsmen are stationed there. Those guardsmen are kept in contact this May Day City Edition should with the Goodyear Mine at Somers, reach the workers of the Metal, Oil, the concentration point of the attack, Marine and Chemical factories in by a hundred members of the Sig- our district. This May Day Edition

The town of Cadiz swarms with soldiers. The Custer Hotel is under guard and the whole country is being patrolled by troops.

For two days the Somers Mine has been fortified by a sandbag barricade. Machine gun nests and soldiers with fixed bayonets are scatered throughout the vicinty. Soldiers are garrisoned in cellars

Early yesterday morning seven hundred pickets advancing on the were met with rifle fire. Three miners were wounded.

The National Guard received orders yesterday to mow down all miners who advanced by car or foot near the zone of the Somers Mine. The best marksmen have been picked out for the job.

As this report is being written the enraged and hungry miners are reforming and rallying for a new advance. The miners demand emphatically the right to strike and picket. At present, all but eight of the Somers miners are on strike. Only fifteen men worked in the mine yes-

the mine early in the morning. The Somers miners say to hell with "National Guard protection"! They have declared their solidarity with the miners in other mines.

The war preparations in Harrison are whiring over head and more troops are held in reserve in Cadiz.

Despite all this terror the spirit of the miners has risen. One woman declared that the miners and their families will be worse than dogs if they do not get a union.

"They will have to drive us back with bayonets,' 'said one of the men, "to make us work in the Somer mine."

YCL Celebrates 10th Anniversary with Exhibition Apr. 24-26

The 10th anniversary of the Young Communist League U.S.A. will be celebrated in New York at the Central Opera House, 67th St. and 3rd Ave. on Friday, April 22, at 7:30 p. m. sharp. The celebration will consist of a short program and then a dance till 1 a.m.

Comrade Amter will greet the Y.C. of the District Committee of the Communist Party. The greetings will be answered by the graduation of more than 50 Young Communists into the Communist Party. In order to have plenty of time for the dance, the affair will begin at 7:30 p. m. sharp.

Further particulars will be printed.

Funeral of Comrade Sommie Weiser to Be Held Today at 1 P.M.

The funeral of Comrade Sommie Weiser will be in the Workers Center, 50 East 13th Street from 10 a. m.

until the time the funeral begins. Comrade Weiser was killed Sunday in an accident at Webster and Tremont Avenues, Bronx, on her way to the courthouse to bail out comrades who had been arrested in connection with the showing of a W. I. R. movie.

Comrade Weiser was a member of Women's Council 8, and was on the Executive Committee of the International Workers Order.

Women's Council calls on all worekrs to attend the funeral.

Comrade Richard B. Moore will deliver a speech full of facts, every one of them a dastardly crime committed against the workers of the Bronx by Boro president Bruckner, Building Commissioner Flynn and his aids, at the Open Mass Trial on Thursday, April 1, at 8 p.m. at Amassador Hall, 3rd Ave. and Clareont Parkway.

Negro and white unemployed workers will testify that they have been denied relief by these officials, who not only packet tens of thousands Call Workers to Take of dollars in official salaries, but are grafting hundreds of thousands of dollars besides.

Comrade Carl Brodsky, congressional candidate in the Bronx in the coming elections, will be the presiding proletarian judge. The mass jury, composed of delegates of workplans were laid for mobilizing the ers organizations, will deliberately weather the defendants are guilty or

> cent rent strikes of the Bronx will also attend this Mass Trial and will testify how these grafters have mobilized the police against the workers rent strikers.

> The trial on Thursday will prepare the workers for the big May Day demonstration to be held on

on Thursday, April 21, 8 p.m., at Ambassador Hall, 3rd Avenue near Claremont Parkway.

N. Y. ATHLETES HOLD HARLEM PROTEST RUN

Scottsboro Boys

NEW YORK .- Cheered on by hundreds of workers present, the Scottsboro protest parade through the the quick mobilization activity of streets of Harlem ended with a de- the Down Town Unemployment monstration at 110th Street and Fifth Council, the eviction of Louis Vas-Ave., Ben Tucker, of the Red Spark solarides, an unemployed ex-service A. C., led a field of 39 runners to man, from his apartment at 606 E. win the Scottsboro-Mooney Street 13th Street, was temporarily prerun on Saturday, April 12.

The run, planned under the direction of the Vesa A. C. and sanctioned by the Eastern District Counter-Olympic Committee, covered a stretch of approximately two and a half miles. So bruising was the competition that one of the competiters, a Negro athlete, collapsed at the finish, while Ben Tucker was forced to exert himself to sprawl across the finish line the winner. His time was 13 min. 26 seconds. G. Turkia of the Vesa A. C. came in second in 13.28, while MacGordon, of the Bronx Park Youth Club, finished

third in 13.29. A feature of the run was the offering of a club prize in the form of a silver cup to the club placing the and third club prives were won by the Yorkville W. C. and the Vesa A. C. Individual prizes were a gold medal to the winner and certificates of merit to second and third to fin-

important news, greetings, cartoons, and working class information, is assuming an importance that must be realized by every worker.

Only half of the \$50,000 Fighting Fund has been collected by various means for the workers' newspaper. The sale of May Day Daily Workers will be an important stage in the financial history of the Daily Worker.

Already 100,000 copies of the May Day Daily Worker has been ordered from only four or five districts-but these are provisional orders not accompanied with cash. The Daily Worker must have the cash with the actual bundle orders. With the assistance of workers everywhere there is no reason why more than 100,000 copies, paid for in advance, cannot be circulated into every workers neighborhood, factory, shop, mine, ship, farm!

Blanks for greetings are all out and are on the way to every branch of every mass organization in the country. If your branch has not received some, let the National office know immediately. In fact, greetings and some commercial ads have started to come in for the May Day edition. More than 30 Finnish branches have contributed. More than 20 TUUL unions! More than 25 IWO branches! More than 25 Ukrainian clubs! But the language organizations are not doing as well as they should, particularly the Jewish!

WORKERS! SEE THAT YOU ARE DOING YOUR DUTY, INDIVIDUALLY AND IN YOUR ORGANIZA-TIONS, FOR THE MAY DAY ISSUE OF THE WORK-ERS' NEWSPAPER!

ONLY THE WORKERS CAN SAVE THE DAILY

ONLY WORKERS CAN REALIZE THE IMPORT-ANCE OF THE ROLE OF THE DAILY WORKER, AND ACT ACCORDINGLY!

EYE-WITNESS ACCOUNT OF PILLARS OF "JUSTICE" U.S. INTERVENTION AGAINST RUSSIAN REVOLUTION

(Members of 339th Mich, Infantry in Archangel) DURING the first two weeks of August, 1918, an American force of 5,000 men embarked on the British transports "Tydeus," "Samoli" and "Nagoya" from Newcastle-on-Tyne, England, bound for Archangel, Russia.

The detachment consisted of the 339th Michigan Infantry, a battalion of the 310th Engineers, the 337th Field Hospital and the 337th Ambulance Company-all of us from the 85th Division. We were under the direct command of the British ... why, no one knew.

Before our departure the American commanders had been assured by the British that adequate medical supplies were on board for all American troops. Half the journey had been compeleted when influenza, which was actively raging throughout the world, broke out on board all ships. On the fifth day every bed was occupied by sick; on the sixth day a man's temperature had to be above 102 to get sickrating; on the eighth day all American supplies were exhausted and a call on the British command revealed that the British had "forgotten" (exact report) to put any medical supplies on board! On Sept. 4, 1918, the troopships carrying the American forces dropped anchor in the

Dvina River, opposite Archangel. By Sept. 6th the Third Battalion had been entrained and taken to Obozerskaya, sixty miles south on the railroad (Archangel to Vologda Railroad)

The First Battalion debarked at Bakaritza, across the river from Archangel, and went on board barges, being towed upstream on the Dvina to Bereznik. Many men of this battalion were too ill to walk and were carried on board the old barges, dying on the way. The Second Battalion was left to guard Archangel.

Colonel George E. Stewart was in command of the American forces in North Russia, but even he did not know where his troops were when the British "High (hic) Command" finished ordering us here, hither and yon, A friend of the writer states he does not believe the British G. H. Q. itself knew! (as my friend was a British officer on the G. H. Q. liason, he is qualified to judge)

We learned that, in addition to the American forces, there were 6,000 English troops, all the rank and file being Class 3-C men, who were rightly entitled to be home. The English G. H. Q. idea being to make the "inferior people do the fighting, their forces contained nearly as many officers as men!

There were also 1,000 French and several hundred each of Italians, Serbians, a few Canadians, and some "Cossacks" and "White" Russians...the total "white" forces numbering, finally about 13,000.

French Troops Balk

The French troops balked on hearing of the Armistice from the Bolshevik leaflets, threw down their arms and walked out. The Italians troops refused to fight from the start nor did they AT ANY TIME fight.

The Serbs savagely disliked the British and the British arrogance; against the Reds they held no enmity; they would have liked to fight the Italians (a holdover from the Western front) but their main desire was to go home.

The Cossacks most of whom were "Cossacks" by virtue of their uniform only, proved sickening "duds" and couldn't be trusted the length of a bayonet in a scrap against the Reds. first skirmish their speed was positively mardous!

Finally, the "numberless patriotic (sic) Russians" who were to spring to arms in defense of the fatherland-as interpreted by the British -showed up in battles some 10,000 strong and anything but strong at that!

Of these two battalions mutined in Archangel, and under orders again of the English Command, the Second Battalion Americans turned their guns on them while the "White" officers executed thirteen of the mutineers. This caused savage resentment among the Americans, including some of the officers, not only against fuch hangman's work asked of soldiers, but also against the English for not using their own troops. Afterwards we learned the English troops had refused to such work!

Three Battalions Go Red

battle equipment, brought up to the front lines. went forward in a charge against the Reds and kept right on going (after hoisting white flags during the charge) till they reached the Red lines and disappeared with much shouting and

Yes, indeed, they took all the equipment. ! ! On the arrival of the allied forces at Archangel the Reds had retreated to Pinega on the Right, to Onega on the left (each city about 40 miles from Archangel) and to Shenkursk on the South. The rivers flow northerly in this region to the White Sea and Arctic Ocean. Shenkursk was 200 miles from Archangel. This was the Front an inverted V-cone. The railroad ran due south from Archangel, midway between the Dvina and Onega rivers.

General Poole, the English commander-inchief, was getting the "Allied" forces into all sorts of predicaments with his "shavetail" officers. On one occasion the captain of the British monitor operating on the Dvina River, swaggered into the American quarters, and loudly

"Where are the bloody Bolsheviks, and which is the way to Kotlas?"

This officer had made himself particularly obnoxious to the Americans on all occasions, and he has promptly given the information he desired by the properly-impressed American sergeant in charge of that outpost (who promptly sent a wigwag to the Bolsheviks by some members of his company who had an old score to settle with this officer as well as a rapidlydeveloping sympathy for the Bolsheviks).

The noble Admiral steamed haughtily up the river and found the Reds: who promtpty heaved a shell into him amidships, killing seven, wounding 18...and His Noble Highness, commander of the one-craft battle squadron scuttled down the river as fast as his crippled engines and the current could carry him? When next wanted, he was tied up snugly-and immovably-far to

Shortly after this incident General Edmund Ironside, who had been "especially selected." replaced General Poole as English commanderin-chief. The Americans promptly named him "Old Tinribs." He was as stupid and haughty as

All winter the outpost fighting continued: there was never a regular pitched battle; we fought in groups of 5 to 150 men; we lost three or four men to each skirmish; the Reds lost more, due to the Springfields outranging their arms. The British G. H. Q. ordered us to take this or that point or village. Sometimes we did; often not. Nearly all the British officers and many of the American officers remained at Archangel-where 40,000 cases of whiskey were

Company L Refuses To Fight Back in Archangel, L Company, who had been sent back for a rest, were ordered to return to the front. They refused

A liason and G. H. Q. officer told me at this time many mutinies and near-mutinies were being reported but were immediately censored and ignored. It would be interesting to know how many actually occurred among the scattered detachments and units from Pinega to Shenkursk to Onega and back to the base at Ar-

In fact, by April 2, 1919 the rage and actions of the enlisted men as well as some of their officers had become so great that General Wilds B. Richardson, a former commander in Alaska, arrived to sound retreat. No shots were fired against the Reds after that...in fact, in many cases none had been fired for several months. In the next sixty days we were placed on ships and sent home, leaving over 200 killed,

and having 250 wounded with us and those who died of sickness, are, as usual, not listed in such little affairs. We learned many things that were unexplain-

able at that time. We have learned that the men we fought as enemies were our best friends. We have learned that those who sent us against the Reds were hypocrits, liars and cowards ! !in the pay of the millionaire class, or their blind dupes!

And . . . WHEN THE NEXT TIME COMES WE HAVE LEARNED MUCH . . . THAT WE SHALL NOT FORGET ! !

Lynch Law to Strengthen the War Machine in Hawaii

THE DEFENSE in a Honolulu court of the naval officer, Thomas H. Massie, his mother-in law, Mrs. Granville Fortesque, and the two sailors, Jones and Lord, on trial because they lynched Joseph Kahahawai, young Hawaiian, is a challenge to all fighters against American imperialism. The defense of these lynchers is a dramatic climax of a campaign to establish lynch law against the inhabitans of that American possession, which is regarded by the highest officials at Washington as the chief strategic military and naval outpost in the Pacific. The defense of these lynchers is a part of Wall Street's war preparations in the Pacific.

It is in accord with the demagogy of the imperialist ruling class that the services of Clarence Darrow, the much-advertised "liberal" and "humanitarian" should be enlisted as chief of defense counsel to put over its lynch policy in Hawaii. Darrow has of late become an expert, specializing in aiding lynchers. Only recently he aided the National Association for the Advance ment of Colored People in an attempt to disrupt and disintegrate the world mass movement in defense of the Scottsboro boys. He tried to aid the Alabama lynch gang in their frame-up to railroad these innocent boys to the electric chair, under the pretense of desiring to defend them in court. Now this same Darrow becomes the "star" .attraction .in .the .anti-climax of the tragedy that began with the bestial lynching of a young Hawaiian at the hands of a depraved naval quartet. In Alabama Darrow aided the lynchers in their attempt to drive out the International Labor Defense, because its activity threatened to defeat the lynch plot against the Scottsboro boys. In Hawaii Darrow now openly defends lynchers.

Darrow's first legal "skirmish" in Ronolulu was an attempt to bar Hawaiian and other citizens who were not white from the jury. He fought for a "lily white" lynch jury that would bring in the sort of verdict advocated by William Randolph Hearst's "New York American", of Friday, April 15, a jury "fixing the guilt upon him", that is to say upon the dead Hawaiian youth, Joseph Kahahawai. Darrow's second "skirmish" was to introduce into the case the story of the alleged assault upon the wife of Lieutenant Massie as related by her and totally unsupported by anyone else. It was because a jury refused to believe her story against Ka-

1932 in Boston and vicinity." This Curley stated the first week in April, when his campaign press. His lie is exposed by the agonizing sufferings of the tens of thousands of undernourished textile, shoe and other workers and

The state hunger march is exposing this and will do more before the Legislature on May 2nd. We must not have any illusions about this fake battle between different factions of the capitalist parties. Especially in this period, social demagogy is dangerous. The democrats, Republicans and Socialists are creating fake issues, using "left" phrases in order to cover up the real issues. They are trying to draw the workers away from the fight for unemployment insurance and into the fake fights of the capitalist parties. Thet three capitalist parties are planning a way of putting the burden of the crisis on the backs of the workers. Mr. Smith in his speech on April 13, presented 6 points to save capitalism. This is the same program that the Republicar Party

The Communist Party program in the coming presidential elections is the only working-class program around which millions of workers should be rallied. It shows the workers the only way

hahawai that Lieut. Massie and his his elegant mother-in law, Mrs. Fortesque plotted and carried out the lynching of the young man. Darrow fought to shield and justify the lynching by reechoing the traditional lie orginated by the slave holders of the South against their victims of lynch terror-"the sanctity of white womanhood is threatened." That slave holders' rallying cry for wholesale butchery of defenseless Negroes is the slogan of the imperialist fiends against the natives of Hawaii today, who want to make secure their rule of frightfulness in the Islands and strengthen their war position in the Pacific. "Honor of Womanhood Is Real Issue Before

Honolulu Jury," screeches the headlines of Hearst's reptile press. The Hearst editorial of April 15 continues:

"The real case before the court is the Cause of the killing of Kahahawai and not the killing

"Under the circumstances it is irrelevant to speak of the 'sanctity of the law'.

"There has been no sanctity of the law in Hawaii so far as it is concerned with the protection of white women.

"At least forty cases of vicious outrages against them have been reported in recent months and nobody has been punished. "That is to say nobody has been punished by

"What more natural than that the husband and the mother of the outraged woman should take the law into their own hands and thereby vindicate the sanctity of womanhood-"

The same dastardly lie, the same infamous slander has appeared, word for word, in hundreds of editorials defending the monstrous institution of lynching. The papers of Scottsboro, Huntsville, Birmingham, Chattanooga, Atlanta, said the same thing in regard to the frame up against the Scottsboro boys, against Willie Peterson, is used in the South (and in the North) to try to destroy the growing unity of white and Negro workers in the fight against the hunger and war-mongering program of Wall Street.

In Hawaii the same policy of fomenting lynchings and massacres is being introduced by the agents of American imperialism. Members of the Hoover cabinet, republican and democratic senators from the North and the South, have convicted themselves out of their own mouths of plotting to establish lynching as an institution in the Hawaiian islands, as a part of their policy of colonial frightfulness and to strengthen that important war base in the Pacific

Secretary of the Navy, Adams, stated at Washington on January 16 that he does not "wish it to be understood that the navy is satisfied with the present system of justice in the Islands." In reply to questions of Senator McKellar, lynch senator from Tennessee, Adams let it be known that he wanted definite assurances that naval interests in Hawaii would be "secure". Secretary of the Interior Ray Lyman Wilbur, whose department has jurisdiction over Hawaii, upheld Adams' views, "so officers and their families could safely be on shore in Hawaii."

Senator Bingham, the republican senator from Connecticut, and McKellar, the Tennessee democrat, attacked the Hawaiian jury system because natives, and other racial groups other than white, were permitted to serve on juries. Both those senators advocated the establishment of a system prohibiting any but whites serving on juries, the same system prevailing in the Southern states, which bars Negroes from jury service.

Congressman Fred A. Britten of Illnois, ranking republican member of the House Naval Committee, urg , changes in the laws to secure complete naval tyranny over the Islands. Britten

"Naval maneuvers in Hawaii are absolutely essential to developing the efficiency of our navy. Nothing should be allowed to interfere with them."

Senator Bingham, whose Committee on Territories, has jurisdiction over legislation affecting Hawaii, urges a virtual naval dictatorship and contends that:

"Hawaii is our chief strategic outpost in the Pacific. It is obvious that we must maintain large military and naval forces there at times and that the officers and men of the army and nay must be able to live at peace with the in-

habitants of the territory." Senator McKellar, commenting upon the lying sport of Rear Admiral Value Stirling, com-

sault cases had occurred in the Islands in the eleven months before the alleged Massie assault, also brought out the importance of Hawaii for

mandant of Pearl Harbor, that more than 40 as-

"We have one of our principal army garrisons in Honolulu, we have one of the most important of all our naval stations at Pearl Harbor, and I understand also we have t here a force of marines, yet, despite the present of these forces, apparently little, if any thing, has been done to correct a situation so grave that the government is afraid to permit our officers and enlisted men to go ashore for fear it may lead to bloodshed."

Can one read the above comments from Washington and doubt the intimate connection between the plot to establish lynch law in Hawaii and the preparations for imperialist war in the

But more damning still are the facts about the absence of assaults on women in Hawaii, Dr. Thomas Mossman, of the Honolulu city emergency hospital, which handles all assault cases, was reported in the New York Times of January 11 to have said:

"Any statement that gives the impression that we have had 40 cases of criminal assault here in the last eleven months is far from the facts.

"During 1931 we handled some 60 cases of the so-called sex type. Of these 20 proved to be absolutely non-intercourse incidents. There were approximately 20 cases in which females less than 16 years old were involved and 20 other cases involving women between 16

"It is inaccurate and unfair to classify any of these cases as criminal assault when there is every reason to believe they were not."

The case of Mrs. Massie, wife of the naval thug who, with his mother-in-law and two sailors, one of whom testified that he was always drunk, lynched the Hawaiian youth, throws a bright light upon "official life" in the upper set of the armed forces of Yankee imperialism. The Massies were participants in a drunken orgy at the home of another officer. Mrs. Massie wandered from the house in a drunken stupor and in the course of an hour or so made her way to her own home where she was found a bit battered and somewhat the worse for wear and tear. The Massie family later gave out the "assault" story to explain her escapade. This occurried last September. Later four young Hawaiians were arrested and tried for assaulting her. The jury disagreed because most of them refused to believe the unsupported word of a drunken wife of a naval officer. In January Massie and his mother-in-law, with the aid of two sailors, carried out the lynching of Kahahawai because the jury refused to carry out the wishes of the naval clique and legally lynch the

This is the specimen of "white womanhood" the agents of American imperialism are raving

This is the sum and substance of the case that is being used by the imperialist bandits to establish a naval tyranny over the Islands, to deprive the natives and other colored inhabitants of even the meagre rights they have hitherto been permitted to exercise.

This case is just as much a part of the war preparations as are the naval and military maneuvers in the Pacific; the mobilization of battleships, airplane carriers and cruisers in Hawalian waters; the "summer exercises" in Chinese waters; the announcement from the navy department that a "decision may be made to retain most of these ships in the Pacific for some time." because of the uncertainties of the 'Far Eastern situation."

Against this conspiracy the working class of the United States must wage the most determined struggle, and demand that all armed forces be withdrawn from Hawaii, from the Philippines and all Pacific "possessions" and that the inhabitants of those Islands be granted immediate and complete independence. This is an integral part of the fight against lynch law in the United States, the fight against the Hoover hunger program, the fight to free the Scottsboro boys, the fight against colonial tyranny and the struggle against imperialist war, the fight against the ravaging of China and the defense of the Soviet Union.

"The Soviet Union Stands for Peace," the great speech made by Comrade Litvinov, representative of the Soviet Union at Geneva, shows the peace policy of the Soviet Union and the war plans of the capitalist nations. One cont

The Boss Press Loses Faith in Ford

IN THE early part of March, 1932 Henry Ford, was hailed as the St. George who would kill the dragon known as "depression." It was announced in every paper in the country that Ford was striving to turn the tide of the present economic crisis of capitalism and he would lead the country out of the crisis. Here is what the papers in the early part of March said about it:

year; that he will employ more than 100,000 men in Detroit alone: that he will make \$16,500,000 worth of steel in his own mills, and will buy more than \$47,000,000 worth from outside steel makers: that he will spend millions for things like rubber and leather, and glass and castings, and lumber, and copper, and lead; and that he will make use of 236,000 inbound and 228,000 outbound freight cars." And we were significantly reminded that not Detroit alone or Michigan alone, or even the United States alone that would be affected, for, "looking over the world, Ford's plants will draw materials and finished parts from England, Germany, France, Russia Canada, India, Brazil China Mexico Japan, the Federated Malay States, and the Straits Settle-

And now, what are the results? The Chicago Evening Post reports on the results as follows:

"Thus what is reported to have been another bit of prosperity ballyhoo from Washington has had precisely the opposite effect. Instead of increasing confidence it has actually curtailed the normal spring rise in automobile sales for competitors whose new models are already in the market. The result of this curtailment is directly reflected in the low ratio of ingot output

The Iron Age, reporting on the further drop in steel and iron production declares:

"Not only has the Ford Motor company failed to fulfill its recent promises of large steel orders, but the delays in its production schedule have slowed up other automobile manufacturers to such an extent that steel mill schedules have been adversely affected.

The Chicago Tribune, reporting on the prosperity ballyhoo, put the whole matter squarely, that these announcements of Ford had been made for the purpose of pleasing the Hooves administration, stating very definitely:

. . . that the recent announcement of the new models by Henry Ford were made rather reluctantly, if not prematurely, because of insistance by the Hoover administration that it would help along the prosperity campaign."

These statements of the leading capitalist newspapers are very important as they are additional admissions that all the prophecies of improvement proved to be empty bubbles. They are admission that there is a further decline in production, further drop in prices, further growth of unemployment, and further development of the agrarian crisis, as well as a financial crisis. There are lessons to be drawn from this by the working class, that the only real way out of the capitalist impasse is the revolutionary way out-that is, the abolition of the capitalist system. This must be placed before the working class at this period in much sharper form than ever before.

The present crisis, which began in the middle of 1929, is steadily developing deeper and having a much broader effect. The whole burden of the crisis is falling on the shoulders of the masses, destroying all previous living standards of the working class by systematic wage cuts, and throwing out of work of new huge masses. The whole country is in a situation where the masses are impoverished more than ever, and the outlook is one of continued impoverishment as long as capitalism lasts.

This does not mean, however, that the capitalists may not find their own capitalist "solution" of the present crisis. The capitalists, recognizing this, are attempting to put the whole burden of the crisis on the working class, by lowering the standard of living, institution of the stagger system, and a very low ratio of relief for the purpose of lowering the standard of living and at the same time preparing for a war in which they attempt to stimulate at least the war

These are the conditions the working class faces under capitalist rule. The workers, however, must clearly understand that there is another way out of the present economic crisis of capitalism and that is, the abolition of the capitalist system and the establishment of a government of the workers and farmers. This becomes an outstanding issue and must be linked up as our perspective in the situation, together with the every-day struggles of the workers, employed and unemployed, Negro masses and masses of poor farmers.

Precisely because of this situation, the subjective factor, the action of the impoverished and exploited masses, is decisive, and therefore the organization of the workers in the shops, building leagues and unions of the Trade Union Unity League, development of opposition movements in the American Federation of Labor, building committees of the unemplooved, penetrating into the masses of farmers, raising to the forefront the slogan of national liberation of the Negro masses, self-determination and equality for Negro masses, becomes a burning issue of the day.

Failing to realize the importance of the situation today, our Party will not be able to fulfill its task of mobilizing the workers against capitalism.

On another occasion, three battalions, in heavy Ely on Curley-Curley on Ely

By T. WYNN

MR. Mayor Curley of Boston is a Roosevelt man. He is the fellow who is carrying out the policy of the Republican and Democratic bosses in the city of Boston and vicinity. He is a great demagogue, of the type of Mayor Mur-

Mayor Curley has carried out a hunger policy for the 100,000 unemployed and wage-cuts for the employed.

Curley is supported by the A. F. of L. State Federation, the Central Labor Union and the Socialist Party. His police are as brutal and terroristic as are the police of any Republican or Democratic mayor.

Mayor Curley and his courts have sent dozens of strikers and unemployed to jail for fighting against wage-cuts and for unempolyment insurance. He has recently helped to send I. Keith, organizer for the Young Communist League; Whither, Dalowich, Sanders and two other workers to Deer Island for a period of three to twelve months, for their unemployed activity.

Mayor Curley has always boasted that there are no hungry unemployed in the city of Boston. He says he is paying out over a million dollars a month for relief. His gang of the A. F. of L. always boosts him as a "friend of labor." .

Mr. Ely, governor of Massachusetts, is also a democrat. What is said about Curley holds good for Ely too. Ely is a Smith man now. He and David I. Walsh are the high hats of the Smith gang. Governor Ely is as ardent a defender of the present system as A. Mellon.

In January, 1932, Ely said he would not pro-

because he saw the immediate return of prosperity. In March this year Governor Ely proudly telegraphed to the Congress Committee, saying that there is no starvation in his state. The same Ely who did not propose any relief measure is, however, proposing a 20-million-dollar finance corporation to help the bankers and

Governor Ely helped to break the last Lawrence strike, as well as being active in all wage cuts in the state.

There are over 400,000 unemployed in the state of Massachusetts.

Mr. Ely is just as big as demagogue as Mayor Curley whom the revolutionary movement, under the leadership of the Communists, must expose before the entire working-class. To make it easier for us, let us put Governor

Ely on the stand against Mayor Curley. On April 13th, Mr. Ely appeared for the first time at a Smith rally. Attacking Mr. Curley, of the Roosevelt crew, he said: "My frenzied political opponent in this domestic struggle in Massachusetts, nightly paints the picture of episodesepisodes portraying human suffering, that is a daily occurrence, I might say an hourly occurrence, while Curley was away this winter for a two months' vacation in Florida." So tragic was the situation of the thousands of unempolved workers of the city of Boston and vicinity that the Mayor left for a vacation 1,500 miles away. The same demagogue, Curley, who told the Unemployed Council of Boston that there is no suffering in his city, is now in his dirty Democratic campaign, testifying against himself.

Let's put Curley on the stand against Ely: poss to the Legislature and measures for relief "More than 200 people stormed of lament to

began. Ely said there was no starvation in his state, but Curley comes out and throws a number of starving people in Ely's face, for certain fake reasons. The facts are that Mayor Curley is as big a liar as Ely. One lies on a city scale and the other on a state scale. The number of starving workers in the city of Boston is more than five times 200, and the undernourished children and unemployed workers who are a step from starvation, are in the thousands, Mr. Ely's lie is pinned by himself, by Curley, by the suicides which are so often covered up by the
