# SCOTTSBORO PROSECUTOR SAYS HE'LL FIGHT TO CARRY OUT VERDICTS ON JUNE 24-MASS PROTEST MUST GROW!

# JAPAN POURING TROOPS

Another Japanese Army Advancing Over Chinese Eastern Railway; Threaten Soviet Maritime Province

Huge Troop Concentration at Tsitsihar and Harbin; Third Army Advancing Toward Korean-Soviet Frontier

Bourgeois press dispatches from Harbin, Manchuria, tell of feverish Japanese military activity in the vicinity of the Soviet borders. The Japanese are reported to be rushing all available troops to the Soviet frontiers. These moves are interpreted in foreign and Chinese circles as indicating an immediate attack on the Soviet Union. A Shanghai dispatch to the New York Times says that betting is brisk "up and down the coast of China concerning the date of the outbreak of the expected war between Japan and Russia."

The Japanese are reported to "have more than doubled" their forces in Manchuria "since April 15. There is a large concentration in the regions of Tsitsihar and Fancheng, on the Sungari."

and Munitions to Japan!

yesterday published ex-

back against the police.

iet Union.

White Guards At

The Japanese 14th Division is reported to have "entered the field with remarkable speed." This division arrived at Darien, Manchuria, only on Tuesday, after being withdrawn from Shanghai, South China, about three days before. It numbers about 24,000 men, full war strength.

The bulk of the division already arrived at Harbin on Thursday, and is being rushed by train to Hailin, on the Chinese Eastern Railway. These troops are intended to back up the reinforced column of General Yoda. General Yoda's column has already advanced beyond Hailun, thus break-Government not to use the Chinese Eastern Railway to transport troops beyond Hailun. This pledge was given several weeks ago, when the Japanes requested permission to use the railway on the pretext of sending troops "to protect Japanese lives and property" in the Imienpo region. General Yoda's column is now only seventy miles from the Soviet border in the region of Vladivostok, and is reported sontinuing its advance!

To the north of Hailun, a huge Japanese army is moving down the Sungari River towards the Soviet border. Bourgeois press dispatches interpret this advance as directed at cutting the Ussuri Railway in Siberia and isolating Vladivostok and the Soviet Maritime Province. A Shanghai dispatch to the New York Times frankly states:

If the advance down the Sungari Valley should continue, the Japanese would be in a position to cut the Ussuri railway, running along the northern and eastern borders of Manchuria, thus isolating Vladirestok and the Russian Maritime

The same dispatch further reports: "Japan's army is progressing down the Sungari River with every available craft, from modern gunboats to ancient sailing junks, according to dispatches received from Harbin. They tell of feverish military ac-

This Japanese army has already passed Fangcheng and is now advancing on Sanhsing, close to the Soviet border. At the same time, a Harbin dispatch reports that the entire Japanese Tenth Division left Harbin yesterday for Fangchang. This is intended as reinforcements for the already huge army proceeding by river craft toward the Soviet frontiers. Fangcheng, a strategic city dominating all roads down the Sungari River, is strongly occupied by the Japanese. Heavy artillery and bombing planes are reported to have arrived at Fangcheng on the way to

the Soviet border. Another Japanese army is rapidly concentrating in the triangle formed by the Soviet and Korean frontiers.

UNEMPLOYED COMRADES All unemployed comrades must report at Section 2 headquarters at 301 West 29th Street today from 11.30 in the morning to 1 in the afternoon. VERY URGENT.

THE need of the struggle against imperialist war TODAY, I for the defense of the Soviet Union and the Chinese people, which is determined by advanced stage of the war preparations, demands the most intense organization of ACTUAL STRUGGLE AGAINST THE WAR DANGER, combined with the widest agitation and exposure of the war Preparations and the whole program of war aims of the

demands, for higher wages, that it is now useless to appeal to the international solidarity of workers, but only to their immediate interests and that the war can best be fought against by the bringing forward of the wage demands of the workers, is fundamentally wrong. Such a view is nothing BUT THE REBIRTH OF THE TROTSKY THEORY OF 1927, ACCORDING TO WHICH THERE IS NO SPECIAL

## Chicago Daily News Says Japanese Troop Movements Show War Against Soviet Union Is Near

THE immediate threat of war against the Soviet Union is again openly admitted in the bourgeois press. This time 1 it is the Chicago Daily News, May 12, which states:

"THE WITHDRAWAL OF JAPANESE TROOPS FROM SHANGHAI AND THE DISPATCH OF A NEW ARMY TO MANCHURIA IS INTERPRETED IN CHINA AS THE FIRST MOVE IN A WAR BETWEEN JAPAN AND THE SOVIET UNION. COMPETENT OBSERVERS, SUCH AS THE DAILY NEWS CORRESPONDENT IN PEIPING, NOW ARE CONVINCED THAT THE LONG-EXPECTED CONFLICT IS NEAR."

This further confirms the confidential information sent by the Whaley-Eaton finance service to its banker clients under a Washington date line of May 7, that:

"IN MILITARY CIRCLES THE OPINION IS EXPRESSED THAT JAPAN," WITHIN THE NEXT FEW WEEKS WILL ATTACK RUSSIA IN MANCHURIA."

On May 10, the Whaley-Eaton service followed this up with another confidential letter declaring that the above opinion was fully confirmed by "important European military circles."

This should show to every worker the necessity of workers immediately mobilizing every ounce of strength for struggle against imperialist war on the basis of the slogen put forward by the Communist Party in its election platform:

"AGAINST IMPERIALIST WAR: FOR THE DEFENSE OF THE CHINESE PEOPLE AND THE SOVIET UNION!"

imperialists-American imperialism first of all. Preparations for extending the imperialist war against the Chinese people. These preparatons include moral, political and technical

The use of the funeral of President Doumer of France for Russian white guard demonstration against the Soviet Union as reported in the capitalist press yesterday, is only one incident in a whole chain of war measures. The latest huge Japanese troop concentration in Manchuria is another.

Especially in the United States, where war preparations are Proceeding under the cover of "peace" maneuvers by the state department and side by side with a movement ostensibly for recognition of the Soviet Union which has as its purpose (as in the Scripps-McRae papers and the demagogic speeches of Rainey, democrat party floor leaders, and other congressmen and senators) the covering up of the implacable hostility of American imperialism to the Soviet Union, the Chinese people and their heroic struggle for liberation.

American imperialism must not be allowed to get away further withits hypocritical pretenses of a desire for peace and its so-called "neutrality" in the Japanese advance toward the Soviet frontiers, a neutrality which is actual support of Japan as the spearhead of the imperialist

The "friendship for China of the Hoover government "pretense under which the counter-revolutionary Kuomintang, backed by the imperialist powers, headed by America, is carrying out huge military offensives against the Chinese workers' and peasants' revolutionary struggle, must likewise be exposed.

The socialist party and Mustette "friendship for China," and the Chinese people is nothing less than a screen for American imperialism's penetration of China. Sherwood Eddy's denunciation of the Chinese Communist Party which leads the workers' and peasants' revolution because they oppose the missionary agents of the Standard Oil and other American corporations is an outstanding example of the real position of

the socialists. "We must show the masses how important it is for the imperialist war makers today TO GAIN TIME and set the war machinery running as noiselessly as possible so that the mass of the people will, as far as possible, not notice this, and show how the above-mentioned "friendship for China" hypocrisy directly serves its purpose. We can and must convince the masses that the point now is not to give the imperialists the peaceful period for the development of their war machinery which they and their social fascist agents are striving for, but pre-

ferably to wade into the imperialists rather today that tomorrow.' In the struggle for the defense of the Soviet Union and the Chinese people, which is at the same time the central struggle of the whole working class against the capitalist offensive, because this imperialist war is against the working class and their allies the colonial peoples and oppressed national minorities, we must be able to combine in the most concrete manner the struggle for the economic demands of the working class, employed and unemployed, the struggle against all forms of terrorism and suppression directed against workers, the struggle for the liberation of the Negro masses, with the central struggle against imper-

We must be able to show the inseparable connection between the ruthless drive against the working class in the United States on all fronts with the imperialist war aims of the ruling class, the connection between this and the attack on the Soviet Union and the Chinese people. Mass resistance to the new wage cut drive must be organized.

We must be able to organize an absolute check on the manufacture and shipment of all war munitions and armaments in and from this country. We must be able to organize strikes and demonstrations right in the industries against these war measures.

We must correctly combine the economic struggles on issues arising daily out of the capitalist offensive-the hunger drive of the bosses and government-with the central struggle against war.

"The conception that today one cannot move the workers in the factories (and especially those previously unemployed who have now found employment as a result of the extension of war production) for against through the sharpening of the general class struggle."

".....It stands to reason that the struggle against the war must not be separated from the daily struggle of workers for better conditions, but it is equally obvious that, a Communist Party desirous of being worthy of the name can never renounce, under any circumstances, the revolutionary education of the masses, especially now, of all times."

Raise in every factory, on every railway terminal and dock the question of the struggle against war, of the character of the war, of the capitalist offensive against the whole working class, raise the question of working class unity and struggle against war, for the defense of the Soviet Union and the Chinese people.

Expose the war preparations under the guise of "keeping the peace of the world." Organize a proletarian check-up on all war manufactures and shipments.

Build the united front of the working class for revolutionary struggle for defense of the fatherland of the world's working class, of the heroic struggles of the Chinese masses, for the defeat of imperialist war pre-

Organize in the decisive industries for the defeat of imperialist war by the solid fighting battalions of the working class advancing victorlously over the shattered ruins of capitalism to a workers' and farmers' government ending imperialist war for all time!

take their appeal to the United States Supreme

Attorney General Thomas E. Knight, Jr., of Alabama, yesterday announced that he would oppose the taking of the appeal to the United States Supreme Court. Knight's announcement follows on the heels of the admissions in the New York Times that the United States Government was exerting diplomatic pressure on the German government to break up the tour of Mrs. Ada Wright, mother of two of the Scottsboro boys. Mrs. Wright is at present in Germany, where she has

already spoken to several huge meetings of German workers. As a direct result of the United States intervention, one German worker was killed and two fatally wounded by police. who fired into a demonstration at Chemnitz, Germany, on May 7, International Scottsboro Day.

The southern bourgeois press has made a big splurge of Knight's statements, and are attempting to give the impression that the International Labor Defense is doing nothing to push the appeal. This lying slander campaign that is being built up is part of the campaign of the bosses, supported by the N. A. A. C. P. miseaders, to disrupt the mass defense around the boys.

NEW YORK .- William Z. Foster and James W. Ford, proposed presidential and vice-presidential candi dates, respectively, on the Communist Party ticket, yesterday denounced the block the appeal to the U.S. Supreme Court. Foster, in a wire from Pittsburgh to the Daily Worker, called upon the workers to intensify tenfold the mass fight to free the Scottsboro boys. His statement follows:

the Alabama Attorney General to oppose the petition of the Scottsboro boys to the U. S. Supreme Court is part of a foul plot to murder these innocent boys without giving them even the chance to take the customary legal steps. We call upon the workers, white and black, to rally to their defense and strengthen tenfold the mas fight to free them. The white workers must take the lead in this struggle against this murderous legal lynching of the nine innocent Negro boys. The Communist Party in its election campaign will expose and fight this vicious oppression by the Alabama lynchers, who are determined to do these nine boys to

death in order to strengthen their oppression of the Negro people." The following statement was also issued by James W. Ford:

"This new move is one more act of the lynchers to strengthen the yoke of oppression on the Negro masses, particularly in the South. We call upon all Negro toilers to give the most vigorous support to the struggle for the defense of the Scottsboro boys. The Negro workers must join hands with the militant white workers to strike downthe hands of the lynchers in this latest act in the murderous Scottsframe-up. This proves how false is the advice of the N. A. A. C. P. and other misleaders when they counsel us to have faith in the bosses' courts. We urge the Negro people to support the Communist Party in the election campaign as the only party fighting for the freedom of the Scottsboro boys and for equal rights for Negroes."

The national office of the International Labor Defense pointed out yesterday that a certified record of the Scottsboro case has been forwarded to the U. S. Supreme Court. The fee of \$105 has been paid that court as the fee of inspection as required. The I. L. D. has also paid to the United States printer the sum of \$1,450 for the printing of the certified record of the case. Walter Pollak has been retained by the I. L. D. to lead the fight in the U. S. Supreme Court against the lynch verdicts.

#### Carpenters To Meet Today, At 1 o'clock

NEW YORK .- A general membership meeting of the Carpenters Section of the Trade Union Unity League will take place today, at 1 p.m. at 5 East 19th Street. This meeting will take up many problems of vital interest to all car-

penters who are urged to attend it

(Radio to the International Labor Defense.)

BERLIN, May 13 .- The Catholic Cologne Government prohibited Mrs. Wright, mother of two of the Scottsbore boys, from addressing a meeting in that city.

Three huge meetings were held instead in Dusseldorf, Solingen, and in the Lower Rhineland. Both Mrs. Wright and J. Louis Engdahl spoke. The militant Scottsboro protest movement is growing rapidly through-

# FARM WORKERS

Wages Lower Than in 1902; Unemployment Great

Wages paid to Alabama farm workers are today lower than they were in 1902, according to the Alabama Economic Review. Wages in April of this year were only \$9.50 a month. Before the war they were \$13.56. Besides these wages, the workers receive some miserable beard, which amounts to very little in cents.

Unemployment among farm workers is so great that, the publication says, "farm labor appears to be very plentiful in al parts of the United States, supply being practically twice the demand. In New Jersey and Rhode Island the supply of farm labor was reported in April to be only slightly more than 50 per cent greater than demand. On the other hand, in the West, where farm labor usually is scarce, supply is reported to be over twice the demand." In South Carolina wages are even lower, \$8.75 per month.

One of the chief causes of this unemployment may be traced to the unemployment in cities, with Workers Union and by real solidarity workers going to the fields hoping help the shoe workers to build a to find jobs. mighty mass organization and to de-Alabama, where these unheard of

STOP HIM WHILE THERE IS TIME!

# HONOLULU AND SCOTTSBORO

COUR white imperialists, Lieutenant Massie, his mother-in-law, Mrs. Fortescue of New York, and two seamen, were recently on trial in Honolulu for the murder of a colored Hawaiian worker, who is charged with having "assaulted" and "raped" Mrs. Massie. Lieutenant Massie confessed the shooting to death of the Hawaiian. He and the three other whites were convicted of manslaughter, which bears a sentence of one to ten years.

Nine Scottsboro Negro boys were accused of having "raped" two white prostitutes in the south -in Alabama. With a crowd howling outside the courthouse, with no evidence but that of the white prostitutes, the nine Scottsboro boys were convicted, despite their denial, which could not be shaken. They were sentenced to die on the

The colored Hawaiian has been shot to death the two white prostitutes are still alive, plying their trade, inflicted on them by the vicious boss

While the jury in Honolulu was out, and it became clear that although of mixed color-seven whites, three Chinese, two Hawaiians-they would bring in a verdict of guilty, steps were undertaken to have the white defendants freed. A bill was introduced into the U.S. House of Representatives by Congressman Crisp, Democrat, of Georgia! This bill reads in part:

"Therefore be it enacted by the Senate and House of Representatives that Lieutenant Thomas H. Massie, Mrs. Granville Fortescue, Albert G. Jones and E. K. Lord, be and they are hereby

granted a full and complete pardon for the offense of manslaughter based on the charge of the unlawful killing of Joseph Kahahawai, for which offense they were recently convicted in the Territorial Court at Honolulu.

Representative Thatcher, Republican, of Kentucky () introduced a petition "imploring" Governor Judd of Hawaii to pardon the four white murderers. Congressman Delaney appealed to Hoover to pardon them, Senator Logan, Democrat, of Kentucky; Senator, Lewis, Democrat, of Illinois; Senator Borah, Republican, of Idaho, favored the bill! The Brooklyn Women's Constitutional Hoover-Curtis Committee demanded that Hoover and the U. S. Congress "set aside the verdict and hereby render justice and remove the 'degradation' placed on the United States flag in the territory of Hawaii."

Before the verdict was brought in by the jury the New York American, in a vicious editorial, product of the slave-driving mind and practices of William Randolph Hearst, declared that the murder not only was justified, but that, although "the husband of Mrs. Massie does NOT deny the avenger's role", it is NOT murder. "His acquittal," it says, "will have sanction in the decision of the Supreme Court of the United States." This was because Massie is a white, a lieutenant of the U.S. Navy, and Kahahawai is a colored Hawaiian worker. The shooting of colonials and Negroes is not only a practice, but is "sanctioned in the decisions of the U. S. Supreme Court." "Hawaii is not a white man's country," says the ew York Evening Post, because Massie has been convicted of manslaughter on his own confession.

And the result of this white chauvinist propaganda and planning of the United States government to put Hawaii under strictest military control, in view of the mixed population of the island, and the growing danger of war, which makes Hawaii a most important outpost of U. S. imperialism? The result was clear: In a foul trick allegedly to carry out the verdict of the jury, the four whites were sentenced to ten years imprisonment at hard labor. But before sentence was pronounced, Prosecutor Kelley announced that Governor Judd of Hawaii "agreed to commute the sentence to one hour"! !! And this too plan! The law was "vindicated"-but the prisoners went scot free!

Murder of colored people in Hawaii and in the United States is not only not penalized, but is made the occasion of an orgy of protest and fury against the colored people. Instead of taming the white imperialists, who use guns against the natives of Hawaii, the regime in Hawaii will become harsher and openly fascist-to teach the colored people their place in the system of U. S. imperialism.

Now turn to the Scottsboro Negro boys! Convicted in the lower court of Scottsboro, appeals were taken to the Court of Appeals and the State Supreme Court of Alabama, and have been rejected. The U.S. Supreme Court is now deliberating whether it will review the case. No Congressman or senator has raised his voice or introduced a bill. No-only workers' organizations, white and Negro, through the activity of the Communist Party, International Labor Defense and the League of Struggle for Negro Rights, were roused to protest and demonstrate against their death sentence. And for this the workers were brutally clubbed and jailed by the police and courts!

Thus go the law and practice of U.S. imperialism-pardon to white murderers-death to framed-up Negro boys!

And let us look into the defense. Stephen Roddy, hired by the National Association for the Advancement of Colored People, a ku kluxer and drunkard, "defended" the Scottsboro boys and helped to railroad them to death sentences. Clarence Darrow, chief counsellor for the N.A. A.C.P., was asked to go into the case by the International Labor Defense-but REFUSED. The same Clarence Darrow, the "great humanitarian", became the defense lawyer for the white murderers of a colored boy in Hawaii. After Massie, the murderer, admitted the killing of Kahahawai, Darrow in court, pointing to Massie and his accomplices in his summary, exclaimed: "My God, what are these people doing here." They were there because they were murderersself-confessed; but in your mind, Mr. Darrow, to murder a colored worker is NO CRIME! You are a prostitute to and tool of the imperialist class and have done your dirty work!

Even in the capitalist court, the farce had to be gone through, to save the face of "American capitalist justice." The four whites were charged with murder, were convicted of manslaughter, sentenced to ten years—and pardoned! The Scottsboro Negro boys were convicted, the capitalist press howls against them, the Communists are viciously attacked for mobilizing the Negro and white workers to force their release, one court after the other upholds the conviction!

This is Honolulu and Scottsboro-today! Thus again U. S. imperialism reveals itself!

Republicans and Democrats in the U. S. Congress alike, both reactionary and so-called progressives, have taken the same attitude on the Hawaiian case. They are mute on the Scottsboro case-determined to help white capitalist "justice" go through in murdering the Scottsboro Negro boys as another warning to the Negro and

The A. F. of L. officials are silent on the Hawaiian case; the socialist party and "liberal" press "criticize" the procedure in the Hawaiian court. The A. F. of L. officials attack the Communists on Scottsboro; the socialists, the "liberal" and part of the Negro press, assail the Communists.

The lessons of Honolulu and Scottsboro must be understood by the working class.

# KARL MARX

On the occasion of the 114th anniversary of Marx's birth the Daily Worker carries today a special sup-

VCHILLERA

We are reprinting an excerpt from the biographical sketch by Lenin on Marx. It appears in full in the Lenin pamphlet, "The Teachings of Karl Marx," issued by the International Publishers. Price 15 cents.

The June issue of The Communist wil carry Lenin's speech on the 100th anniversary of Marx's birth.

By V. I. LENIN

Karl Marx was born May 5, 1818, in the city of Trier, in the Rhine province of Prussia. His father was a lawyer-a Jew, who in 1824 adopted Protestantism. The family devoted most of his time to history and philosophy.

of this magazine, entitled Deutsch-Franzosische Jahrbucher (German-French Annals) appeared. It was discontinued owing to the difficulties of distributing the magazine in Germany in a secret way, also due to disagreements with Ruge. In his articles published in that magazine, Marx already appears as a revolutionist, advocating "merciless criticism of everything in existence," particularly "criticisms of the wea-

pons," and appealing to the reves and to the proletariat. In September, 1844, Friedrich Engels, who from then on was Marx's closest friend, came for a few days to Paris. Both of them took a very active part in the seething life of the revolutionary groups of Paris (where Proudhon's doctrine was then of particular importance; later Marx decisively parted ways with that doctrine in his Poverty of Philosophy, 1847). Waging a sharp struggle against the various doctrines of petty-bourgeois Socialism. they worked out the theory and tactics of revolutionary proletarian Socialism, otherwise known as Communism (Marxism). For this phase of Marx's activities, see Marx's work of 1844-1848. In 1845, at the insistence of the Prussian government, Marx was banished from Paris as a dangerous revolutionist. From Paris he moved to Brussels. In the spring of 1847 Marx and Engels joined a secret propaganda society bearing the name Bund de Kommunisten (Communist League), at whose second congress they took a prominent part (London, November, 1847), and at whose behest they composed the famous Manifesto of the Communist Party which appeared in February, 1848. With the clarity and brilliance of genius.

this work outlines a new conception of the world; it represents consistent materialism extended also to the realm of social life; it proclaims dialectics as the most comprehensive and profound doctrine of development; it advances the theory of the class struggle and of the worldhistoric revolutionary role of the prletariat as the creator of a new Communist society. When the February, 1848, Revolu-

tion broke out, Marx was banished from Belgium. He returned to Paris and from there, after the March Revolution, to Cologne, in Germany. From June 1, 1848, to May 19, 1849, the Neue Rheinische Zeitung (New Rhenish Gazette) was published in Cologne with Marx as editor-in-chief. The new doctrine found excellent corroboration in the course of the revolutionary events of 1848-1849; as it has subsequently been corroborated by all the proletarian and democratic movements of all the countries of the world. Victorious counter-revolution in Germany first instigated court proceedings against Marx (he was acquitted February 9, 1849), then banished him from Germany (May 16, 1849). He first went to Paris. from where he was also banished after the demonstration of June 13, 1849. He then went to London, where he lived to the end of his

The life of an emigrant, as revealed most clearly in the correspondence between Marx and Engels (published in 1913), was very hard. Poverty weighed heavily on Marx and his family. Were it not for Engels' self-sacrifice in rendering financial aid to Marx, he would not only have been unable to complete Capital, but would inevitably have perished under the pressure of want. Moreover, the prevailing theories and trends of petty-bourgeois and of non-proletarian Socialism in general forced Marx to wage a continuous and merciless struggle, sometimes to repel the most savage and monstrous personal attacks (Mr. Vogt). Standing aloof from the emigrant circles. Marx developed his materialist doctrine in a number of historical works, giving most of his time to the study of political econ-

Hillquit "Improves" on Marx . . .

omy. This science was revolutionized by Marx in his Contribution to the Critique of Political Economy (1859) and Capital (Vol 1, 1867). The period of the revival of democratic movements at the end of the fifties and the beginning of the sixties again called Marx to political activity. On September 28, 1864, the International Workingmen's Association was founded in London -the famous First International. Marx was the soul of this organization, the author of its first "appeal" and of a host of its resolutions, declarations, manifestoes. Uniting the labor movements of the various countries; striving to direct into the channel of united activities

# International

The ultimate aim of the Communist International, to replace world capitalist economy by a world system of Communism. Communist society, the basis for which has been prepared by the whole course of historical development, is mankind's only way out, for it alone can abolish the contradictions of the capitalist system which threaten to degrade and destroy the human race. Communist society will abolish the class division of society, i. e., simultaneously with the abolition of

ish all forces of exploitation and

will no longer consist of antagonistic classes in conflict with each other, but will represent a united commonwealth of labor. For the first time in its history mankind will take its fate into its own hands Instead of destroying innumerable human lives and incalculable wealth in struggles between classes and nations, thankind will devote all its energy to the struggle against the forces of nature, to the development and strengthening of its own collective might.-From the Programme of the Communist International.

oppression of man by man. Society

zini, Proudhon, Bakunin, liberal unionism in England, Lassallean Right vacillations in Germany, etc.); fighting against the theories of all these sects and schools, Marx hammered out the common tactics of the proletarian struggle of the working class-one and the same in the Various countries. After the fall of the Paris Commune (1871)which Marx analyzed, as a man of action, a revolutionist, with so much penetration, pertinence and brilliance in his work The Civil War in France, 1871-and after the International had been split by the Bakuninists, it became impossible for that organization to keep its headquarters in Europe. Liter the Hague Congress of the International (1872) Marx carried through the transer of the General Council of

the International to New York. The

First International had accom-

plished its historic role, giving way

to an epoch of an infinitely accel-

erated growth of the labor move-

ment in all the countries of the

world, precisely the epoch when

this movement grew in breadth and

scope, when mass Socialist labor

the various forms of non-proletar-

ian, pre-Markian Socialism (Maz-

parties were created on the basis of individual national states. On December 2, 1881, his wife died. On March 14, 1883, Marx peacefully passed away in his armchair. He lies buried beside the graves of his wife and Helene Demuth, their devoted servant and almost a member of the family, at the Highgate Cemetery in London.

## Capitalism Is Choking in Its Own Surplus

By FRIEDRICH ENGELS On the one side immeasurable

wealth and a surplus of products which the purchasers cannot control. On the other, the great mass of society proletarianized, turned into wage-workers, and just on that account become incapable of taking possession of that surplus of products. The division of society into a small, over-rich class and a large, propertyless working class, causes this society to suffocate in its own surplus, while the great mass, of its members is scarcely, or, indeed, not at all, protected from extreme want. Such a condition of things becomes daily more absurd and unnecessary. It can be abolished; it must be abolished. A new social order is possible, wherein the class differences of today will have disappeared and wherein-perhaps, after a short transitional period of materially rather straitened circumstances, maybe, but morally of great value—through the systematic use and development of the enormous productive forces already in existence (with equal obligation upon all to work), the means of life, of enjoying life and of developing all the physical and mental capabilities, will be at the equal disposal of all in everinereasing fullness. And that the workers are becoming more and more determined to win this new order for themselves will be amply proven on both sides of the ocean tomorrow, May day, and next Sunday, the 3rd of May.

(From introduction written in 1891 by Friedrich Engels to "Wage, Labor and Capital"

## WHO IS A LIAR, MR. DOAK? By M. B.

WORKERS' delegation saw Secretary of A Labor Doak in Washington on Tuesday. The delegation demanded the immediate release of Edith Berkman Edith Berkman is held for deportation by the Department of Labor because she participated in last year's struggle of the Lawrence textile workers against a wage cut put through by the American Woolen Co.

'The workers' delegation told Secretary Doak that his department though allegedly representing the interests of labor in the administration, is in reality the administration department of strikebreaking and workers' deportation. The delegation pointed out to Mr. Doak that his position as Secretary of Labor in the Hoover cabinet is characteristic of Mr. Hoover. It told the Secretary, that as a mine manager Mr. Hoover had discovered that men were cheaper than timber, and that as president he had discovered Doak as Secretry of Labor.

This simple statement of facts aroused Mr. Doak to fury. The press reports him as shouting: "I don't care what you say about me, but you are not to tell lies about the president."

Unfortunately for Mr. Doak his outburst is not rooted in facts. The facts speak so loud that the accusation of liar out of the mouth of Secretary Doak are thrown back to his ears as an unwelcome echo.

According to Mr. Doak it is a lie to say that Mr. Hoover discovered that miners' lives are cheaper than timber. We will let Mr. Hoover himself speak on that subject.

Mr. Herbert C. Hoover, in a paper read before the Institute of Mining and Metallurgy in London on July 19, 1902, declared:

"The disregard of human life permits cheap mining by economy in timber, and the aggrieved relatives (of the miners killed because of the saving of timber M. P., are amply compensated by the regular payment of \$30 (Mexican) per

Mr. Doak, Secretary of Labor, representative of called the workers' delegation liars when they told you about Mr. Hoover what they knew out of the mouth of Mr. Hoover himself. Will you

now apologize to the delegation? Of course we know that in approved imperialist fashion you will contend that Mr. Hoover only spoke about Chinamen. Yes, Chinamen, Mr. Doak, Chinamen, but men, human beings, workers, as useful as you, and more so, as good as

men not white, like yourself, Mr. Doak (We suppose that you consider yourself white) we will tell you that Mr. Hoover did not differentiate between white and yellow workers. When Mr. Hoover is not dealing in nationalist phrases for demagogic political purposes, when he is just a promoter, he only recognizes two kinds of people in the world. Those who are devoted to "the great science of getting the most money out of other human beings," and those "idiots who parted with it" (their money M. B.) These are Mr. Hoover's own words. As a plain capitalist Mr. Hoover divides the humans in two classes: Those who make profits for the workers, black, white, yellow ,etc., whose duty it is to produce the profits for the capitalists. And the workers Mr. Hoover treats rough, irrespective of the color

The records of the Australian government are full of evidence to the effect that Mr. Hoover's motto as a mine manager there was: men are cheaper than timber. One of Hoover's subordinates in Australia indignantly wrote to him that all his firm was interested in was dividends and that therefore no timber is being provided

In China and in Australia, Mr. Hoover's motto always remained: Men are cheaper than timber. Incidentally, as Secretry of Labor and chief deporter of alien workers from the shores of the United States you should also know that Herbert Hoover in Australia was the most persistent advocate and practitioner of importation of cheap foreign labor against the native Australian miners.

to every good American, yet, you Mr. Doak, should not remain ignorant about the antecedents of your present chief. If you persist in nursing your evident ignorance about these things your accusation of liar to people who tell the truth about President Hoover will continue to confront you with the embarassing question: WHO IS A LIAR, MR. DOAK?

you, Mr. Doak and better. Recognizing your imperialist contempt for all

to maintain the mines safe for working.

While ignorance is supposedly a privilege free

#### was well-to-do, cultured, but not revolutionary. After graduating from the Gymnasium in Trier. Marx entered first the University at Bonn, later Berlin University, where he studied jurisprudence, . it

In the autumn of 1843, Marx went to Paris in order to publish a with Arnold Ruge (1802-1880, a Left Hegelian; in prison, 1825-1830; a political exile after 1843; a Bismarkian, 1866-1870). Only one issue

# Before the Conventions of Our Enemies

# The United Front in the Election Campaign

THE ELECTION CAMPAIGN must also be based upon a wide application of the united front. There are huge numbers of workers in this country who, while not yet ready to join the Party as members, can nevertheless be drawn into active support of it in the election work. But to accomplish this the tactics of the united front must be skillfully used. Here again we must be very much on our guard to avoid the sectarianism and formalism that the Central Com-

mittee's resolution so sharply warns us against. In the campaign it will be possible for us to set up broad united fronts of workers generally in support of our whole election program. Here the question of the united front in the shops plays a central role. If we are systematic in linking our election campaign with the burning grievances of the workers and making it a part of their daily struggle it will be easy to make them understand the value of supporting our ticket through "Vote Communist" committees in the shops. But if we try to develop such united front committees simply upon a loose and general propaganda basis we may be sure the results will be virtually nil.

Moreover, it will be possible for us to develop a whole series of united front committees and movements based on various individual categories of workers, farmers, etc. Such united fronts, taking as their starting points the most burning grievances of these groups, must be developed and extended so as to draw these masses into support of our ticket and activities gen-

We must, for example, show to the foreignborn workers that if they want to fight against the deportation outrage they must unite behind the ticket of the Communist Party, and the same with other categories. On this basis wide united front movements can be developed among the unemployed, the Negro masses, A. F. of L. unions, poor farmers, women, the youth, radical intellectuals, etc., which draw huge numbers of these masses and their organizations not only into the support of our ticket but of our activities in general. In the same manners we can make individual issues of our six platform demands, such as unemployment insurance, release of Mooney and the Scottsboro boys, defense of the U.S.S.R., etc., the basis of solid united front election work.

Build the Party and Mass Organizations The election campaign must develop as a huge recruiting campaign for our Party, the YCL and the non-Party revolutionary mass organizations. With the tremendous radicalization of the workers and the desperate efforts of reactionary demagogues of every social fascist and fascist hue to get the leadership of them, the question of our drastically strengthening our organization becomes a life and death one. Our present organizational weakness is absolutely intolerable in the face of the readiness of the masses for struggle and their growing sympathy for our program. We must at all costs build our organizations and this election campaign provides the best opportunity we have ever had.

The Party must launch an intense recruiting drive. This must be kept up all through the election period with the utmost vigor. It must permeate and saturate every phase of the work. It must be based on the shops and the building of shop nuclei. The question of drawing new members into the Party must never be lost sight of for a moment in our thousands of election meetings, demonstrations, etc. It must be by far the greatest membership drive we have ever

The opportunity is now here to triple or quadruple the Party membership easily and to make our Party a major factor in the class struggle. And what I have said about the Party goes doubly for the YCL. It is criminal the way we neglect the organization of the youth. We are surrendering the young workers offhand to the fascists and social-facists. The present election campaign must put an end to this fatal ten-

dency and build the YCL into a strong and

growing body. By the same token all the revolutionary non-Party mass organizations must be built. All of them-Trade Union Unity League, International Labor Defense, International Workers Order, etc. -should, during the campaign, carry on the most active recruitment of members. They should draw in many thousands of members and they can do it easily. If they do this, if they carry on real struggle, then their non-

Party members will easily see the advantage to them of supporting th Communist Party in the election. The will see that it means not only helping the Party but their own organizations. This is a fundamental lesson that they must

A Bolshevik Election Campaign It is along the foregoing lines as brought out

in my three articles that we must develop our election campaign. In this manner we can make it a real Bolshevik election fight. Our past campaigns have been little more than demonstrations, weak parades of our forces. This one must be a great struggle. It must vastly stimulate the fight of the workers on every front. It must result in enormously strengthening all organizations. It must root our Party in the big factories, among the decisive sections of the proletariat and in the basic industries.

In the campaign it musn't be a case of liquidating the activities of the various mass organizations into a vote-getting campaign for the Party. On the contrary, the Party can prosper in the election only if the activities and struggles of these organizations are united and strengthened to the utmost in every direction. If this is done the non-Party workers in these organizations and others that we contact will have a practical and effective demonstration of the real leading role of the Party. They will more clearly understand why they should support our Party and vote its ticket.

In the election campaign it is by energetically and intelligently applying the principles of mass work laid down in the Central Committee resolution and so otfen reiterated by the Comintern that we will get results. They will enable us best to expose and combat the demagogy of our social-fascists and open capitalist enemies and to give the workers the most possible political education. They will bring about the maximum strengthening of all our forces. They will split the workers away from the three capitalist parties and enable us to muster the largest possible vote in the elections. Let them therefore be our guide in all our election work. If we apply them correctly and determinedly we will come out of this election campaign with the greatest victory that our Party has ever won.

## Marxist Study Courses

systematic study of the theory and practice of the revolutionary labor movement from the Marxist-Leninist viewpoint is ready at hand in the Marxist Study Courses now being published by International Publishers, 381 4th Avenue, New York. Two courses are now being made available: Political Economy and History of the Working Class. Each course is to consist of twelve lessons, each published in pamphlet form at intervals of about two weeks. Each lesson is complete with easily obtainable references and questions and answers and can be used either for individual study or for group study.

Political Economy is a study of the economic structure of capitalism and the conditions and forces which lead to its inevitable breakdown. It explains the Marxist theory of volue, the causes and results of crises and the impossibility of solving them within the framework of capitalism and exposes the theories of the Socialist Party concerning imperialism and democracy.

The History of the Working Class. four lessons of which have already been published, takes up the most important events in world history since the Great French Revolution as they affect the working class. The first half of the course confines itself to the bourgeois revolutions of the first half of the 19th Century and the final lessons take up the course of the working class movement through the World War and the post-war period to the foundation of the Communist International.

Both these courses are of the greatest value to a real understanding of Marxism-Leninism and give necessary equipment to workers for the carrying on of their struggles. The lessons sell for 15 cents each and can be obtained from all workers' bookshops or direct from Workers' Library Publishers, Box 148, Sta. D. New York.

# The Ultimate Aim of the Communist

anarchy in production, it will abol-
