Chicago, Ill., May 15.—Five Thousand Chicago workers crowded into the North Hall of the Coliseum Friday night, and pledged to carry on the struggle for the right to assemble. It was a protest demonstration against the action of the Melrose Park city officials who lined 150 unemployed workers against a wall and machine gunned them, exactly a week before. ## **Revolution Versus Counter-**THE socialist party recently refused a challenge to Norman Thomas for

unist Party of the United States versus the socialist program.

The New York central committee of the socialist party, which rejected a motion to take part in the debate by a vote of something like 29 for 41 against thus shows clearly its fear of giving thousands of workers who would attend such a debate the opportunity to compare the revolutionary proletarian program of the Communist Party with the "third capitalist party" program of Hilquit, Oneal, Claessens, Thomas and Laidler.

The action of the socialist party executive has created a considerable stir in the ranks. At the meeting of the New York City Central Committee of the socialist party on May 4 the following resolution was submitted by the delegate from the Staten Island branch:

"Be it resolved by the State Island branch of the socialist party at its regular meeting held May Third, 1932, that we hereby go on record as opposing the action taken by the Central Committee of New York in its refusal to debate with the Communists. We contend that it is a serious political error in party tactics to be unwilling to meet any and all political parties at any time in debate, that unwillingness to debate with the Communists implies a lack of confidence by socialists in their party's philosophy, in their party's tactics and in the ability of their party's

The members of the Staten Island branch show in their resolution the influence of social fascist theory very clearly. They accuse the social fascist leaders of lack of confidence in their party's philosophy, etc." They are quite wrong.

The social fascist leaders have entire confidence in the program of their party as a prop of capitalism with its foundations in the ranks of the working class. They HAVE confidence in their program and tactics as defense for capitalism against militant struggle by workers fighting the wage cutting and hunger drive of the bosses, as a major defense of the system of capitalism against the proletarian revolution.

But they do not want their program and their leaders openly and skilfully e xposed before thousands of workers in a public debate.

They are afraid of the exposure of their treacherous support of the war drive against the Soviet Union, a concrete example of which is their slanderous attack in the last few days, coinciding with the speeding up of the imperialist war against the Soviet Union, in regard to the question of political prisoners-not in the United States or any other capitalist country-but in the Soviet Union.

In the New Republic for May 4 there is a letter signed by Manya Gordon-Strunsky headed "Socialist Prisoners in Russia" in which the following statements, among other equally false and vicious, are made:

"The life of the political prisoners and exiles, who are very nearly all socialists, in the Soviet Union is unbearable. According to recent information, there are thousands and thousands of these unfortunates. The GPU imprisons not only those who prior to the Bolshevik revolution at one time or other belong to one of the socialist parties, but also their relatives and friends." Any "socialist" in prison in the Soviet Union is one whose counter-revolutionary activities have been uncovered by

"Thousands of 'socialists'" in prison under a workers' government is obviously confession of widespread anti-working class activities. Russian "socialists" are not workers and Russian workers are not socialists.

There is not a single socialist leader who dares to defend such concrete examples of the application of the socialist party program as the above before an audience of workers-especially in debate with Comrade

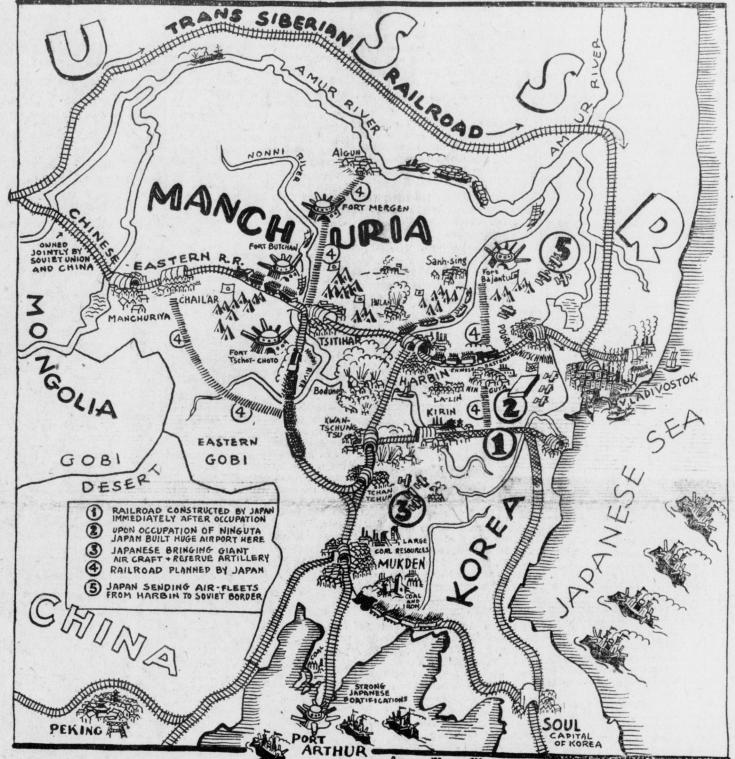

It is evident that the meeting of the New York socialist party city central committee was somewhat more lively than usual since the min-

"It was moved and carried that Comrade Claessens be sent to the Staten Island branch to enlighten the membership on the position taken by the central committee in not approving the proposed debate between Norman Thomas and William Z. Foster."

The Communist Party election campaign and its program of struggle against the war danger and the whole capitalist offensive is exposing the counter-revolutionary deeds of the socialist party.

The socialist party leaders dare not meet Communists in debate

Kill Japanese Premier; Where Three Huge Japanese Armies Are Driving Toward the Soviet Border

THREE huge Japanese armies are rapidly advancing ▲ toward the Soviet borders. At the left of the figure 5 on the map is the Sungari River near its junction with the Amur River, which forms the boundary between Manchuria and the Soviet Union. All available craft on the Sungari River have been seized by the Japanese for the transport of troops and heavy artillery to the Soviet border. This army has already advanced beyond the city of Sanh-sing and is continuing its progress to the Soviet frontier.

This army is within striking distance of the Trans-Siberian Railroad on Soviet territory, shown on the map. Imperialist press dispatches from the Far East admit that the Japanese aim to cut the Trans-Siberian Railway, and thus isolate the Soviet Maritime Province.

Directly above the figure on the map, is a section of the Chinese Eastern Railway, along which another Japanese army is being rushed to the Soviet border. This second army has already advanced beyond Hailun, thus violating the Japanese pledge not to use the railway to transport troops beyond Hailun.

To the right of the figure 1, in the triangle formed by the Korean-Soviet border, another large Japanese army is concentrating. Both this third and the second Japanese armies constitute a grave threat against Vladivostok, Soviet Pacific port and the entire Soviet Maritime province.

At Harbin and Tsitsihar, central railroad terminals in Manchuria, other large Japanese forces are concentrating for the attack on the Soviet Union.

WORCESTER, Mass., May 15 .- Edith Berkman, who had been kidnapped from Boston, was located today in the Central New England Sanitarium in Rutland, Mass. The sanitarium was forced to admit workers searching for the kidnaped textile workers' organizer. It was learned that Berkman had been forcibly removed by uniformed police from the Massachusetts Memorial Hospital at the orders of Secretary of Labor Doak and Boston Commissioner of Immigration Tillinghast.

Today is the eighth day of Edith Berkman's hunger strike. Although in a weak condition, she is more determined than ever to continue the fight for her freedom.

A fine demonstration took place this afternoon on Boston Common Ann Burlack, who led a delegation of workers to Secretary of Labor Doak in Washington a few days ago to protest against Berkman's illegal detention, spoke. A sharp resolution condemning Doak's strike-breaking and murderous action was passed.

There is very little chance of this strike sentiment crysother events in recent weeks must be tallizing into action if the workers do not see any capable leadership right in their midst. This was prove last week in the Youngstown Car negie mill where the men stopped work for a few minutes after the wage cut announcement and after listening to a fiery speech of a nonunion member, stated that they would willingly fight, "but who will lead us?" ## Means Mass Hunger For Steel Workers March to Begin Today

(By a Worker Correspondent) PITTSBURGH, Pa.-The 15 per cent wage cut for the steel workers to be put into effect today means more starvation and poverty. In Pittsburgh the unemployed and part-time steel workers are actually facing starvation or are living under "partial starvation" conditions.

The relief given out by the Welfare and charity organizations has been reduced to almost nothing. The "Family Help Family Plan" of Senator Harris, which has been lauded to the skies, has not solved the problem. The relief given out by the "Shepherd of the Jobless," Father Cox, is even less than the amount given by the Welfare agencies. The number of families asking for relief is being increased by over 250 daily. The part-time workers are liv-

Dear Comrades

During the discussion in our unit (a waterfront unit) a comrade, a seaman, made a very valuable suggestion in regard to the election campaign.

The seamen, not having permanent residences, are denied tha right to vote. This is a burning

## MACHINE-GUN FIRE IS THE BOSSES' ANSWER FOR BREAD

By BILL GEBERT

MELROSE PARK, northwestern suburb of Chicago, is a town of 12,000 population, of which 90 per cent are workers, the majority of whom are unemployed. A large percentage of these workers own little homes, which they bought on payment a few years ago. Now they are losing them. This year alone over 100 workers lost their houses.

The largest factory in the town is a factory branch of the American Can Company, which previously employed about 1,000 men and women and at present only about 200 are working there. Up till May 1st they worked 8 hours a day, receiving 30 cents an hour. On May 2nd a wage cut c. 10 per cent took place and the hours increased to 9 hours a day. They are working one and two days a week. There is also a founder which employs 100 men and some greenhouse employing about 50 workers. This is the entire industry in Melrose Park.

The workers in Melrose Park are actually starving. They began to realize that only by organ...ng themselves will they be able to force the buses to give them relief. On April 20th a mas meeting of unemployed was held. The Police and Legionnaires came to the hall and arrested the speakers. Berman and Griggs were thrown into jail. The workers did not go home from the hall, but marched to the jail and demanded the release of the arrested speakers. Under who pressure of the workers the Chief of has forced to release the speakers.

On April 27th another meeting of the unemployed was called, Over 600 workers, American, Germa I. Malian and others, crowded into the hall. Logionnaires also came to the meeting, allo; \_ of the Village Board were present They well the floor trying to tell the workers not to listen to the speakers from the Unemployed council.-that it is the American Legion that will take care of the unemployed. A woman from the charities spoke in the same light. The starving-methers answered them that up till now nothin had been done by the village administration and bosses. That is only now, when the Unemrloyed Council begins to organize workers, the bosses and village authorities speak about giving relief to the workers. But the workers would not believe the Legionnaires and charity workers and would not leave the Unemployed this meeting, relief was given to many vorkers, especially those who showed any signs of activity in the unemployed movement, in an attempt to bribe them. Workers who were previously denied a penny were given checks from 10 to \$20 and were told that they needn't worry, that the Legionnaires and charities would take care of them. The workers well knew the meaning of this policy of the bosses. The president of the village told the committee of Unemployed: "I know that there is misery and starvation in our village. But we will not tax the rich. We will not allow the Communists to come here to agitate these

The workers in Melrose Park prepared for the May Day demonstration. They sent a committee to the chief of police, Arthur Leeseberg, informing him that there will be an open air meeting on the streets. The chief of police answered the workers that the police will not interfere with the meeting of the workers. But on May Day, when hundreds of workers gathered on the streets, the meeting was attacked. Berman, an unemployed carpenter, was taken from the streets by police and Legionnaires, beaten up, taken for a ride and then thrown into a ditch outside the city, skull fractured. A railroad

worker, Cain, was also beaten up by the police and Legionnaires

Dr. Brust in Jail When Cain Was Beaten

Leading up to May Day the police, Italian priest and Legionnaires went from house to house of the workers, terrorizing them and telling them not to come out on the streets, and giving money to some of them. But in spite of this, more than 300 workers broke through the terror and came to the meeting which was broken up.

The workers in Melrose Park called an indoor mass meeting on May 1. They rent a Socialist owned an dcontrolled Lyceum Hall. A deposit was taken for the hall by the Socialists, but a day before the meeting the Socialists sent a telegram to the committee in charge, informing them that the hall had been cancelled for the meeting. In answer of breaking up May First meeting, the workers of Melrose Park called an indoor meeting on May 6th at Eureka Hall. The last minute the hall was closed.

Workers began to assemble around the hall on a vacant lot a few blocks away from the hall. It was about 2.15 in the afternoon when about 200 workers assembled in and around the lot. They were surrounded by a gang of police, legionnaires and Capone gangsters, armed with machine guns. They made a circle around the lot and started lining up the workers againnst a wall, and then opened fire. The machine guns made four rounds over the crowd. First they shot below, then in the legs, about the middle of the body and then above the heads of the workers. Nine workers were shot. The boss' controlled "Chicago American" reports on the massacre in the following manner:

"Seven men were wounded, three probably fatally, when Melrose Park police opened fire with sub-machine guns, shotguns and pistols on a group of 200 Communists attempting an unemployment parade this afternoon, No shots were fired by the Communists."

This attack on the workers was well planned and organized. Information was received by the committee arranging the meeting that a conference of Legionnaires, city police, gangsters, businessmen, under the leadership of the Village President, Brust, was called at which a cry was raised that "the Reds are coming to destroy property" and that the businessmen, "in order to protect their property, had to pay." They put up a tax on the businessmen and \$500 was raised. Then they hired gunmen and thugs, paying them \$5 each and giving them machine guns and ammunition and instructed them to be at the meeting Friday. In one case it was described to the meeting, his mother ran after him, clinging to him and crying that he should not go and turn against his fellow workers.

Melrose Park by Village authorities headed by Dr. Brust, tool of the American Can Co., American Legion, Capone gangsters by lining up workers against the wall and shooting them, has not been recorded in recent years. The workers did everything they possibly could do to protect themselves and to fight back. They rescued one worker from the hands of the thugs. They tried to group together to prevent being put against the wall and shot at. However, they were not able to assemble and defeat the circle of death which is estimated about 50 or 60 armed thugs against the handful of workers on the vacant lot who were lined up against the wall.

Such an outrageous murder as took place in

This bloody massacre on a peacefully unarmed unemployed demonstration in Melrose Park aroused the indignation of the masses in Melrose Park, Maywood, Bellwood, Belmont Heights and the city of Chicago as well as everywhere.

Toward Revolutionary Mass Work (THE 14TH PLENUM)

Hundreds of resolutions and telegrams have been sent to the village board and Governor Emmerson. Mass meetings are being arranged everywhere. So big is the indignation of the masses that some of the capitalist papers in Chicago began to whitewash the police, Legionnaires and Capone gangsters who participated in the bloody massacre of the workers. But these attempts are to no avail. The workers know the true character of events. The "Chicago Daily News" concludes an editorial on the massacre in

"The Melrose Park authorities and their volunteer aids played into the hands of the Communists by breaking up the demonstration and firing upon the demonstrators. They should consult Commissioner Allman of Chicago on the art of handling such demonstrations and retlirn to constitutional processes in defending Constitution of America."

Indeed the Melrose Park authorities and their voluntary aid, the Legionnaires and Capone gangsters have learned the "art" from Commissioner Allman and Mayor Cermak of Chicago of handling unemployed and employed wokers. They learned from Allman of Chicago who sends his policeto shoot and club peaceful demonstration of the Chihago workers in front of the Japanese Consulate. They learned from Mayor Cermak and Commissioner Alcock of shooting Negro workers on south side on August 3rd, 1931 when three Negro workers were murdreed by the Chicago police. And it is this "art" that the "Chicago Daily News" advises the Melrose Park authorities to follow.

Following in the footsteps of the "Chicago Daily News," the "Chicago Daily Times" writes in an editorial:

"We believe the Chicago police department has been steadily improving in morale and efficiency under the present administration and we hope that nothing happens to mar its record."

The editorial then proceeds to praise the martial law of General Wood during the steel workers' strike in 1919-1920 in Gary.

In line with the "Chicago Daily News," the Chicago Jewish Socialist paper, the "Forward," likewise praises the Chicago police for its "art o fdealing with the workers." And it is in line with this that a new police force has been organized in Cook County and under the direct personal leadership of Pat Roche, who is a 'Chicago Tribune' man. This regional police police of Cook County is actually the estblishment of the Cossacks. Army maneuvers are being prepared in which, according to plans, the U. S. Army to capture the city of Chicago. On June 12, the Chicago lodge of the Elks, together with the American Legion are organizing a day "to combat Communism" They attempt to stage a demonstration in Grand Park or Lincoln Park as Flag Day which is a mobilization of the fascist froces against the workingclass. It is openly declared so. The "Chicago Daily News'reports

methods. That statement clearly proves Mr. Richardthe Communist ticket son's inability to talk intellingently on Communism. Like the typical bourgeois that he is, Mr. Richardson is terrified bourgeois that he is, Mr. Richardson is terrified at the thought of violent resistance on the part of the toiling masses to the violence of the ruling-class. Yet the whole history of capitalism is one of bloody violence against the

working-class and the oppressed nationalities,

Crisis.

More and more openly today, the Negro bourgeoisie admit that they have a stake in the Jim-crow capitalist oppression of the Negro sses. They desperately seek to divert the Negro masses from revolutionary struggles against this oppression. They violently denounce the "violence" of the revolutionary workers at the very time that they defend the murderous lynch terror of the ruling class, as in the Scottsboro Case and numerous other instances of lynch frame-ups and class justice, against Negro toilers. They shamelessly bring forward their servile program of "refusal to struggle," of boot-licking "diplomacy." They urge the Negro masses to leave force to the

Karl Marx, the founder of scientific Communism, once wrote that "in actual history it is notorious that conquest, enslavement, robbery, murder, briefly force, play the great part. In the tender annals of Political Economy the idyllic reigns from time immemorial." Marx shows how the "rosy dawn of the era of capitalist production" was signalized by the extirpation, enslavement and entombment in mines of the aboriginal natives of the American continents, by the beginning of the conquest and looting of the East Indies, and the turning of Africa into a warren for the commercial hunting of black skins. He quotes W. Howitt, an authority on the Christian colonial system, who says:

"The barbarities and desperate outrages of the so-called Christian race, throughout every region of the world, and upon every people they have been able to subdue, are not to be paralleled by those of any other race, however fierce, however untaught, and however reckless of mercy and of shame in any age of the earth."

And Marx summarizes his conclusions in two short but brilliant sentences:

"Force is the midwife of every old society pregnant with a new one. It is itself an

economic power." Obviously we have here no horrified moralizing and foolish preaching about the evil of violence. Marx does not merely judge and condemn but supplies us a scientific understanding of the historical and revolutionary role of force. However, Mr. Richardson, apparently never having peered between the covers of a book by Marx, could hardly be expected to know anything about the immensely fruitful and historically illuminating conceptions of scientific communism. In fact, I believe I am going to astonish Mr. Richardson by telling him of a German Mr. Richardson who lived many years before the present Mr. Richardson. Being a German, his real name of course was not Mr. Richardson, but Duehring. But his ideas on force and violence were just as crude and timid and shallow as the ideas of our own Mr. Richardson in America.

Mr. Duehring-Richardson insisted that force is the highest evil and that its use demoralizes the user. Since Dehring was causing a lot of confusion among the German workers of that time, Frederick Engels, co-founder with Karl Marx, of scientific communism, found it necssary to show the utter hollowness of Duehring's position. I am sure Mr. Richardson will not object if I quote what Engels said about Mr. Duehring, especially since Mr. Richardson has been so busy defending his imperialist masters and the Jim Crow interests of the Negro bourgeoisie that he has had no time to read what the Communists themselves have to say.

"Acording to Mr. Duehring," Engels wrote, "force is the absolute evil. The first act of force is to him the first call into sin. His whole conception is a preachment over the infection of all history up to the present time with the original sin. He talks about the disgraceful falsifying of all natural and social laws by the invention of the devil. That force plays another role in history, a revolutionary role, that it is in the words of Marx, the midwife of the old society which is pregnant with the new, that it is the tool by the means of which social progress is forwarded, and foolish dead political forms destroyed,-of of that Mr. Duering has no word to say, only with sighs and groans does he admit the possibility that force may be necessary for the overthrow of a thievish economic system. He simply declares that every application of force demoralizes him who uses it. And this in spite of the moral and intellectual uplift which followed every victorious revolution. He says this in Germany, too, where a powerful and necessary uprising would at least have the advantage of abolshing the slavish snobbery of the national mind which has prevailed since the humiliation of the Thirty Years War. And this foolish and senseless sort of preaching is set up in opposition to the most revolutionary party known to history.

CUISTA

The question of force was raised in one of its many concrete phrases following the Revolution of 1905 in Russia. The discussion then revolved around the question of partisan war as a form of struggle during the period of revolution. With somewhat of the "moral" approach of Messers. Duehring-Richardson, the argument was made that partisan warfare tends to demoralize the revolutionary proletariat by bringing it close to the drunkards and vagabonds. And Lenin replied, illuminating in one short paragraph the wretched poverty of a point of view which seizes only on one side of every question and is incapable of viewing it in its totality. It is true, Lenin said, partisan war does bring the conscious proletariat close to the drunkards and vagabonds. "But from this only one conclusion may be drawn, that the Party of the proletariat cannot consider partisan war as the only, not even as the main form of struggle; that this form must be subordinated to other forms, must correspond to the main forms of struggle, must be ennobled by the enlightening and organizing influence of Socialism. But in the absence of the last mentioned condition all, absolutely all, forms of struggle in bourgeois society bring the proletarian nearer to various non-proletarian strata above and below it, and, if left to themselves, to the spontaneous course of events, they are bound to get worn out, perverted, prostituted.

Lenin here shows the true meaning of revolutionary force and struggle. He shows that it is not a question of force in the abstract but of a many-sided struggle animated and inspired by the fundamental aim of building a new socialist society. It is the existence and leadership of a disciplined Communist Party which stimulates and organizes the revolutionary energy and initative of the workers and oppressed masses and prevents them from degenerating and frittering away into a fruitless struggle.

Behind all the task of the Richardsons is the philistine fear that Communism means uncontrolled force and violence—as if capitalism itself is not the greatest example of untramelled force and violence and dismal chaos But what these gentlemen fail to understand is that it is only the existence and revolutionary activity of the Communist Party which raises the inevitable struggle of the oppressed Negro masses and white toilers to the highest level and guarantees that the justified anger and rage of the masses will be organized and inspired with a deep historical purpose.

The bourgeois mind cannot understand the tremendously progressive and ennobling role of revolution in the lives of millions of people who have been degraded, warped and shrivelled up with superstitution and race prejudice. The revoluntarily activity of the masses inspired by a Communist goal will not only change their conditions but will also change their own natures, as the gigantic achievements of the Soviet Union abundantly prove.

## "The Communist Party in Action"

(By A. Bittleman, Workers Library Publishers, 48 pages, price 10c) By EVA SHAFRAN

"The Communist Party in Action" fulfills the need of providing the new Party member with reading material on the Party, what it stands for, its problems and its activities.

The demand for such a pamphlet was evident at the time when we organized our Six Weeks New Members Course on the basis of an outline prepared by the Agitprop Department of the Central Committee.

The resolution of the 14th Plenum of the C.C. points out that we have a "hundred per cent fluctuation in membership." The problem of retaining the new members in our Party is of the greatest importance.

In this 48 page pamphlet, "The Communist Party in Action," Comrade Bittleman has made a conscious effort towards helping to solve this problem, and did it with much success. The main line of the pamphlet is directed to making the new Party members Party conscious, strengthening the ties that have brought the worker into our ranks.

The pamphlet is divided into eight chapters and sub-divisions. It starts with the discussion of the reasons why the new member joined the Party. The various experiences of the worker in

gle are discussed. The current phases of class struggle, miners strike, textile strike, unemployment, etc., are analyzed, politically enlightened and interpreted. This lays the basis for the presentation of all problems the pamphlet sets out to discuss.

Then comes an analysis of the existing political parties, Republican, Democratic, and Socialist Party. This is based on the experiences the worker had with the bourgeois parties. In this section the state and its role is taken up. Also the proletarian dictatorship and the role of the State.

This is followed with a discussion on the role of the Social Fascists and our struggle against them. From "A Discussion of the present World Economic Crisis and the Revolutionary Way out of the Crisis," as outlined by the XI Plenum of the Communist International and our own Party, we are taken into the section on the immediate Party tasks. The section on the quality of Communist work in the present period takes up concretely the problems of snop work, the "transmission belts," work in mass organizations, membership in the Communist Interna-

tional, and the main lines of struggle. Comrade Bittleman did well to have a special section dealing with "initiative, activity," and with "Become la conscious Leninist," "Theory

and Practice, where the tasks of each individual

Party member to prepare himself for leading Party work is outlined. Too often do we underestimate these tasks. And we should therefore remember these lines:

... The thing that must be emphasized in this respect is that theoretical Leninist education is a Party duty and task for each individual Party member ... " (Page 32).

Special effort was made in this pamphlet not to speak about the new Party member, but speak directly to, with the new recruit. It makes the new Party part of the problems discussed, and takes him into the solving of the problems. The pamphlet does not talk over the shoulder or head of the new recruit but "You have joined the Communist Party because you have seen it in action, you have realized ... " and so down the line.

There are of course some shortcomings in the pamphlet. For instance: It deals with the Negro problem only in the first pages where current phases of the class struggle are discussed

"...The American working class can not hope to liberate itself from the yoke of cap-italism unless it helps to liberate the oppressed

Negro masses from national oppression of this same ruling class..." (Pages -5).

These pages also point out the special tasks of the white workers "belonging to the dominating nationality" in the fight for the rights of the Negro masses and for the "final liberation... the rights of the Negroes in the Black Belt to self-determination, including the right of separation from the United States." However, in view of the fact that there is a great deal of unclarity on the Negro question, a special section dealing with the Negro problem is absolutely necessary.

Likewise the problem of Party organization and structure. While the pamphlet takes up the most important basic principles, it does not deal sufficiently with the actual workings (organization) of the Party. Even the basic principles, "democratic centralism" for instance, are not elaborated on. This is essential precisely because it is a pamphlet for new recruits.

"The Communist Party in Action" is a real contribution to the training of new Party members. The pamphlet should be read by the Party membership. As a text book for the New Members Courses it has the greatest value.

ists, in the interests of the masses of the workers and of all the toilers who bear the brunt of the sacrifice entailed by war, wage a persistent fight against imperialist war and strive to prevent imperialist war by proletarian revolution. They strive to rally the masses around their standard in this struggle, and if unable to pre-

vent the outbreak of war, they strive to transform it into civil war for the overthrow of the The first duty of Communists in the fight

against imperialist war is to tear down the screen by which the bourgeoisie conceal their preparations for war and the real state of affairs from the masses of workers. This duty implies above all a determined political and ideological fight against pacifism.

In the struggle against pacifism, however, the Communists must draw a distinction between the anti-war sentiments of large masses of the toilers, who are ready to fight against war, but do not as yet understand that the revolutionary way is the only proper way of combatting war, and therefore, become a prey to pacifist swindlers, and the swindlers themselves, the pacifists of various shades. The masses must be patiently enlightened as to their error and urged to join the revolutionary united front in the struggle against war. -But the pacifist swindters must be relentlessly exposed and combatted.

THE PARTY NAMED AND PARTY NAMED AND THE PARTY NAMED AND THE

The 11th Plenum of the Executive Committee of the Communist International called upon all the parties to popularize the teachings of Lenin on war, and the decisions of the Sixth World Congress of the C. I. on the methods of struggle against the war danger and the danger of military intervention against the U.S.S.R.

The Fight Against War Before Its Outbreak

We are reprinting below some excerpts from the Sixth World Congress resolution. Recently the Sixth World Congress resolution was republished. In spite of the great need that exists for this resolution, only one thousand copies were sold. This is an indication of the insufficient understanding of the importance of absorbing Leninist teachings in the struggle against war.

The two pamphlets by Lenin (The War and the Second International and Socialism and War) which were gotten out by the Little Lenin Library have the smallest circulation of the various pamphlets of the Little Lenin Library. We urge the comrades to study these pamphlets. It is particularly essential to increase the sale of our agitational literature against war.

In the mobilization of the masses against imperialist war, the sharpest struggle against pacifism must be carried on. In this connection we mention the pamphlet of Comrade Bittelman. "Revolutionary Struggle Against War Versus Pacifism."

We request the comrades to send in for this column brief articles dealing with their experiences in the mobilization of the masses in the struggle against imperialist war.

shall never permit another war," "no more war," etc. The Communists must not be content merely to "correct" these slogans theoretically, but must wage an active fight against this kind of propaganda by unmasking those who conduct it, and denounce this phrase mongering as a screen to conceal the preparations being made for war. The same thing applies in many cases today of the slogan: "War against war" that is advanced by the Social Democrats as a hypocritical means of raising unfounded expectations

To combat the proposals advanced by the "radical" pacifists for preventing war. Communists cannot content themselves merely with exposing these people as phrasemongers, who would do nothing to carry their radical pro-

but they must also point out to the masses that, as framed by these pacifists, these slogans are wrong and childish. They must explain to the masses the real circumstances under which war breaks out, the impossibility of limiting the struggle to certain fixed methods and the need for bringing into action all forms of the class struggle.

Energetically to combat and openly criticize all frivolousness in the ranks of the Communist Parties concerning the question of combatting war. This is particularly necessary at the present time, in view of the mistakes contained in press articles and parliamentary speeches. Under no circumstances should such mistakes be allowed to pass without criticism.
