# JAPAN WILL ATTACK SOVIET UNION IN LESS THAN EIGHT WEEKS, SAY REPORTS FROM PEIPING, TOKYO

## Terrorist Preparations in Boston Workers Shout Japan for War on the USSR

TERRORIST PREPARATIONS IN JAPAN FOR WAR ON I THE SOVIET UNION.

Fascist murders and open terrorism on an unheard of scale in Japan mark the drive of the military party of Japanese imperialism for invasion of the Soviet Union through Manchuria.

The difference within the ruling class of Japan as to war on the Soviet Union relate only to the time, and tactics of the military campaign against the Chinese people and

The Tokio correspondent of the Brooklyn Daily Eagle predicts war on the Soviet Union within two months. It may begin in two days!

The entire capitalist press is united in the view that the murderous terror in Tokio carried out by army and navy officers is the prelude to war on the Soviet Union.

Huge Japanese troop shipments into Manchuria are of daily occurrence. The Japanese imperialist forces now in Manchuria con-

tinue to drive toward the Soviet frontiers. Naval mobilization is being hurried in the vicinty of

Stop the shipment of al war munitions and raw mater-

ials to Japan! Boycott all shipments of every kind of goods to Japan! . Organize the most militant demonstrations before the

Japanese consulates and embassies! Force the expulsions of all Japanese diplomats and trade representatives from the United States!

Organize strikes in every factory making war munitions! Raise the question of the defense of the Soviet Union in every factory and shop. Raise this question in every union, every workers' fraternal and benefit society!

Organize protest meetings against imperialist war!

Show to American workers that American imperialism which starves millions of unemployed workers and cuts the wages of those still working, is a leading force in the organization of the imperialist war against the Soviet Union and the Chinese people's heroic struggle for liberation!

Expose the lie that war on the Soviet Union will bring "prosperity!"

Fight and defeat the war program and the support given to Japanese imperialism as the spearhead of the war drive on the Soviet Union by Wall St. Hoover government! Show by the fighting might of the American working

class that it refuses war jobs bought with the blood of the revolutionary workers and peasants of the Soviet Union and of China!

Smash the war drive!

Defend by every means the fatherland of the world's working class-the Soviet Union! Defend the anti-imperfalist revolution of the Chinese workers and peasants!

Make every factory a fortress against imperialist war and an unbeatable center of resistance to imperialist war on the Soviet Union!

## Win Elco Shoe Strike; Raise Lasters' Wage; Recognition

Encourages Andrew Geller and Paris Strikers, I. Miller Strikers Enthusiastic

NEW YORK .- The Elco Shoe Co. . strike has been won, under the leadership of the Shoe and Leather enthusiasm. The workers see in this Workers Industrial Union of the Trade Union Unity League.

After a three weeks' strike, the ers in struggle, but also to lead them firm was forced to call the shop back organized into the shops after committee to negotiate for a settle- the struggle.

Lasters Get Kaise

The terms of the settlement are: no discharge, no discrimination, equal division of work committee to decide on the matter of damaged shape. Developments are expected in day morning. This is the zero hour shoes, all prices to be settled by the the cutting department. The firm's in the opening of a general struggle price committee, the lasters to re- promise to some scabs that many throughout all the plants against ceive 2c extra on a pair for shoes workers would come back to work on wage cuts and the lock-out. Mass with tips, three out of the 5 dis- Monday, exploded yesterday like an resentment and joint action of

The strikers, as well as the Union considered the terms of the settlement for two days before a decision was arrived at. The Union weighed and measured the points in the settlement. When the final agreemen was made, it was clear that the question of organization was the main is sue around which the fight centered. On this point the workers won. # Fascist Reign of Terror Aims to Speed War Plans

BROOKLYN EAGLE CORRESPONDENT REPORTS CONSTANT MOVEMENT OF TROOPS TO MANCHURIA FOR USE AGAINST SOVIET UNION

UNNAMED PEIPING CONSUL PREDICTS JAPANESE ATTACK AGAINST THE U.S.S.R. WITHIN THE NEXT TWO MONTHS

The present terroristic campaign of the Japanese militarists, aiming toward the establishing of an open fascist dictatorship in Japan, is designed to start war against the Soviet Union within the next two months.

This statement was made by a member of the Consular Corps at Peiping, in a message to his Legation, according to the Daily Mail correspondent in that city, a United Press dispatch from London reports. The same statement was made in a dispatch to the Brooklyn Eagle from its Tokio correspondent.

The dispatch to the Brooklyn Eagle from its Tokio correspondent, Alfred E. Piers, admits that the fascist action points "with more definite ominousness" to an early attack against the Soviet Union. The Brooklyn Eagle prints the dispatch with the significant head-

## Berlin Socialist Police Bar Address by Mrs. Wright, Mother of 2 Scottsboro Boys

(By Cable to Daily Worker)

BERLIN, May 16.—The revolutionary workers of Berlin are making a flaming protest against the decree of the socialist police officials forbidding Mrs. Ada Wright the right to speak in Berlin, or to even attend the huge protest meeting arranged in her honor and for the defense of the nine inno-

cent Scottsboro Negro boys, facing legal lynching in Alabama. Mrs Wright is the mother of Andy and Roy Wright, two of the boys.

Thousands of workers gathered las

Thursday night in the Freidrichshain Hall to hear the Scottsboro mother. When told that the "socialist" authorities, at the behest of the American government, had prohibited Mrs. Wright from even appearing at the meeting, the workers were furious. Mrs. Wright had sent a rousing message to the assemblage. As soon as this was read and received with thunderous cheers by the workers, the police launched a vicious attack on the Versus Pacifism," by A. Bittelman, meeting, clubbing the workers and

#### Workers Everywhere Rush Funds to Save Berkman's Life!

# 200 Intellectuals Protest Against U.S. Gov't Aid to Japanese Attack on China

Ministers and representatives of the motion picture industry, writers, lawyers and artists are among the two hundred signers of a protest against the Japanese invasion of China and American aid to it, it was announced today by the Anti-Imperialist League of the United States and the National Committee for the Defense of Political Prisoners.

The protestors, who represent states as widely separated as New York and California, treat "the war in China as being not only as against that country, but also against the Soviet Union." They charge that Japan is acting as "the forerunner of financiers and capitalists of France, Italy, Great Britain and the United States."

"We feel that a war, which may

avoided only by the concerted action

of the people of the nations whose

imperialist purposes in China might

The statement in full follows For many years China has been at the morey of every imperialist nawomen who would lose husbands, tion and of Chlacse war lords. They, sons and brothers; the writers, docpaid and encouraged by the United States, England, pre-war Germany and Japan, have aided in the imthese people and all others to join poverishment, degradation and unspeakable exploitation of Chinese workers and peasants. Now, Japanese armies have boldly penetrated China itself. They have set up a dummy state, roughly comprising the territory of Manchuria, but with its borders, according to press reports, purposely left indefinite on the side that faces the Soviet Union. The whole war in China we regard as one of conquest and malappropriation. It has been distinguished by brutality and terror against the Chinese poor. It has been accompanied by the slaughter of women and children, the burning of homes and the destruction of the entire workers' quarter of the city of Shanghai. But, above all, we regard the war in China not only as being against that country, but also against the Soviet Union; and we see it as a movement undertaken not by Japan alone, but by Japan as the forerunner of the financiers and capitalists of France, Italy, Great Britain and the United States, of every country with imperialist aims. It was financial aid of the type already given by American capitalists to Japan that involved this country in the last Euro-

# THE WAR MOVE OF THE U.S. SENATE AGAINST THE

SOVIET UNION

INDER the cloak of a revenue bill an attempt is being made in the U.S. Senate to impose an embargo upon one of the major Soviet imports into this country. The planned embargo on Sqviet coal is manufactured so closely that it leaves little doubt of its real intent as a war move against the U.S.S.R.

The disgraceful log-rolling and trading between the various predatory groups for increased duties on many essential commodities with a view of pilfering the consumer has reached proportions that even the capitalist press is compelled to denounce as dishonest. But among all those impositions there is an import levy which has little to do either with revenue or with tariff but which is in reality but a disguised attack upon the Soviet Union.

Tite bill as introduced by the Senate Committee on Finance ostensibly is only one of a group seeking high tariff protection under the pretense of balancing the budget. It imposes an import duty of 10 cents on every 100 pounds of imported coal, anthracite and coke, or \$2.24 per gross ton. On closer consideration, the import duty on coal cannot possibly be intended and is not intended to increase the price of imported coal by \$2.24 ped ton. It so happens that in respect of coal it would be rather inconvenient for the Wall Street interests to attempt to rob the New England consumers of our coal of \$2.24 per ton, the simple reason being that the United States exports about fifteen times as much coal as it imports.

According to official statistics of the Department of Commerce the total U. S. exports of coal, anthracite and coke, amounted to over 13 million gross tons, while the total imports were less than 835,000 gross tons. There is very good reason to believe that the imposition of any duty on imported coal will result in retaliation by the affected countries and that those countries on their part will impose a similar duty upon coal imported by them from the United States. The financial and business interests controlling the coal industry in this country stand to lose about fifteen times as much on such a procedure as that which they may possibly gain as a result of the imposition of a duty on the slight coal imports of this country.

The import duty on coal is therefore planned in a manner to make it apply against one country only. It is merely a subterfuge to secure an emtargo on Soviet coal and this embargo is being sought definitely as a war move apparently closely linked with the events in the Far East.

The Anthracite institute has been in the front ranks of the various war mongers against the Soviet Union. This institute did not stop before the grossest misrepresentations and naked lies in order to cultivate war psychology against the Soviet Union. During the last two years it continuously spread poisonous propaganda against the Soviet Union

This institute has been making statements that the very existence of the American anthracite industry is threatened by the import of Soviet coal. It has maintained that Soviet coal is dumped in this country at ridiculous prices, that forced labor is being employed in its production, and so on endlessly, never ceasing to reiterate the same lies that were disproved over and over again by unchallengeable evidence derived from governmental politicians and even from publications of the anthracite industry itself.

All these charges were repeatedly made the subject of official investigations of the Treasury Department; they were sifted again and again and they have always been found to consist of a tissue of lies that will not stand the light of any investigation. Only recently Mr. Seymour Lowman stated that the total imports of Russian anthracite into this country "was about equal to one day's production of the anthracite coal fields in Pennsylvania." Furthermore, he also had to admit that the "Russian anthracite is an especially high grade imported only into New England and gets a higher price than American ccal" (quoted from an interview by Mr. Lowman in the Baltimore Sun of April 9, 1932).

So it is really not the competition of the Russian coal that bothers the promoters of the import tax. Because of its high quality, Soviet coal is selling in this country at a price of about \$1 higher than that of a similar kind of American coal. There is no competition involved. The hypocritical claim of desiring to protect the American workers comes with very poor grace when it is considered that the import of Soviet coal amounts only to about one-third of 1 per cent of the domestic production. Besides, as already mentioned, the law is so worded that it applies only to Soviet coal. Barring the import of the 217,000 tons of coal coming from the Soviet Union will merely result in replacing those imports by coal from countries which are not subjected to the tax.

It is important to note that the Anthracite Institute itself publicly stated that its only intention is to injure the Soviet Union. General Disque, the executive director of the institute, publicly stated that they have "no intention to injure Canada" and that they requested "the Senate Committee to so word the bill that coal from Canada and the British Isles should not be taxed" (quoted from the New York Herald

Tribune, April 28, 1932). It must be remembered that two-thirds of all the coal imports of the United States come from Canada and Great Britain, whose coal is not to be subjected to the import duty. In the New York Times of May 14, General Disque is quoted as asking whether "you prefer to give employment to Chinese and Russians" rather than Americans. Presumably the General mentions China merely to provide some camouflage for his real intention of pushing war preparations against Russia. Or is it because General Disque unwittingly betrayed the real intent of this move to encourage Japan in its war against China and its war preparations against the Soviet Union? For it must be remembered that not a single tons of coal is being imported to this country from China nor is there any likelihood of its being imported. A few tons of coal (not over 900 tons) have been imported last year from French Indo China, so the only intention of this import duty is to injure the U.S.S.R., to impose an embargo upon its coal as a move in the war campaign against the Soviet Union. It is well to remember that Assistant Secretary of State Castle recently declared that a trade boycott is a first step towards war.

The workers of this country, whom Wall Street is seeking to inveigle in a war against Russia under the pretext of protecting labor, must know a few elementary and important facts.

The Soviet Union purchases in this country about eight times as much as it sells here. Last year this country exported to the Soviet Union, according to official statistics from the Department of Commerce, goods to the amount of 103 million dollars. During the same year it imported from the Soviet Union only 13 million dollars worth. It does not demand any proof that imposing an embargo upon imports from the Soviet Union is bound to discourage Soviet purchases in this country. There is the precedent of Canada. Canada imposed an embargo on some imports from the Soviet Union and as a result lost all of its trade to the Soviet Union.

We have seen that according to the estimate of the Treasury Department the stopping of the imports of Soviet coal would not supply even one day's work to the miners in the anthracite region. But the jeopardizing of the exports to the Soviet Union will cost thousands of American workers their jobs. The United States Department of Commerce recently estimated that 1,400,000 workers are employed directly by the industries working for the export trade of this country and that another 1,400,000 workers are employed indirectly in connection with the export trade.

Since 4.3 per cent of the total exports of this country went in 1931 to the Soviet Union, no less than 60,000 workers were thus directly employed in the shops and factories manufacturing exports for the U.S.S.R. and about another 60,000 workers were employed indirectly in connection with Soviet trade. Hence, according to the estimate of the Department of Commerce. over 100,000 working-class families of this country depend for their living upon maintaining the Soviet American trade. Far from being intended to supply employment to American workers. The only possible effect of this war measure against the Soviet Union would be to deprive tens of thousands of American workers of employment and throw them into the ranks of the many millions of unemployed.

The sinister features of this embargo move against Soviet coal is that it is timed with the feverish preparations of Japan to invade the Soviet frontiers. The New York Times of May 14 reports that:

"It has been estimated that Japan's forces at all times . . . in Manchuria total nearly 100,000. In addition the Manchoukuo soldiers officered by Japanese number about 85,000 and there are 119,000 Marshoukue 'local police' under Japanese domination."

Japan has concentrated immense armies on the Soviet frontier. The imminence of a war attack by Japan on the Soviet Union is admitted by the bourgeois press and their competent militant observers. It is under these conditions that the Senate is urged to put an embargo on Soviet coal. The Finance Committee of the Senate has already put its seal of approval on it. The U.S. workers being dragged into war against the Soviet Union. The working class must be warned and must mobilize against these war machinations of American imperialism,

# How the Illinois Miners Can Defeat the Wage Cut

By BILL GEBERT

THE Illinois coal operators on April 1 declared a lockout against the miners in Illinois, closing the mines and throwing out of work about 40,000 part-time employed miners, which, together with unemployed miners previously thrown out of jobs, is over 65,000 miners, and their families in the coal fields of Illinois are actually starving. There is no relief given to the miners in any adequate form. From time to time some local union hands out "bean orders"-the Red Cross gives from time to time a sack of flour and this is about all the relief that 65,000 miners with their families receive at

the present time. The lockout of the Illinois miners is agreed upon by the officialdom of the U. M. W. A., headed by John Walker, acepting the lockout the officials didn't do a thing to organize the miners to turn the lockout into a strike. They went into the other direction, dividing the miners by permitting some small mines to work on the basis of the old wage scale, permitting the coal operators to fill their orders and therefore permitting them to continue their lockout.

The clear position of the U. M. W. A. was expressed by John Walker in a speech at a mass meeting in West Frankfort, Illinois, in which he declared: "Lord knows how it is going to come out," referring to the lockout of the miners. And, while this is the attitude towards the coal perators, John Walker, Lewis, Edmundson and others are busy working overtime to carry on a | the slower and demand to defeat the ware out

struggle against the growing rank and file movement against wage-cuts. In this respect they are very active in attempting to prevent the miners from turning the lockout into a strike and defeat the wage-cut.

"The Illinois Miner," official organ of the U.M.W.A., District No. 12, Illinois, carries with friendly remarks the resolution adopted by the American Legion of Illinois, which calls for the setting up of an arbitration board which is to approach the question of wage-cuts in the 'spirit of compromise." The American Legion proposes the arbitration board cut the wages and that "the board of arbitration should be composed of parties outside of either organization (meaning miners and operators) and among its members should be prominent professors of economics, judges and businessmen." In short, the American Legion proclaims its readiness to help the coal operators to put over the wage-cut by an arbitration board and the officialdom of the U. M. W. A. endorses this by printing this resolution in the "Illinois Miner" with friendly remarks towards the contents of the resolution which is headed: "Legion urges miners and coal operators to settle by conference."

Against this plan of breaking the resistance of the miners, against wage-cuts, the miners must mobilize the maximum of their energy to defeat it under the demands of turning the lockout into a strike, by electing strike com tees in every local union and every mine, under

Workers, free Edith Berkman from the clutches of this beast!

# Toward Revolutionary Mass Work (THE 14TH PLENUM)

# Guidance in Shop Work-Thru Personal Contact

By LENA DAVIS

IN preparing for the District Convention, the District Buro has correctly decided upon a number of meetings with comrades involved in various phases of mass work, in order to discuss with them, in line with the decisions of the 14th Plenum of the Party, the causes for our weaknesses, and isolation from the decisive sections of the workers in the U.S.

These meetings have helped us to draw in hundreds of comrades into the pre-convention preparation and discussion of our District, for the improvement of our work. These meetings have once again shown the correctness of the resolution of the Central Committee, especially as applied to our District. I want to touch a few points dealing with shop work, in this article, in order to show clearly what our basic weaknesses are, and what we must do in order to overcome

In the meeting that we held with comrades in shop nuclei, and those working in large shops, comrade after comrade got up and showed the possibilities of work inside the factory. At the same time proved that while a nucleus exists, that while a shop paper is being issued, neverinside the shop. Why is this so? It is due to the fact that we have very little experience in shop work, and that the experience we do have we do

and for adequate relief for the unemployed miners and minimum days work for the miners. This is the central task confronting the minres of Illinois.

While this is the central task of the miners of Illinois, the miners must fully recognize that they can win these demands only when they will defeat the machinations of the Walker, Lewis, Edmundson and others who are doing their utmost to prevent the miners from developing struggles. In Franklin County, the key coal-producing county of Illinois, the miners are on the move at the present. Mass meetings are taking place at which thousands of miners are attending. And the sentiment and spirit of these meetings is reflected in the above stated demands. This movement as yet is under the leadership of all kinds of fakers. Edmundson, it is true, is losing some influence among the miners. Nevertheless, as yet, he has quite a support among some sections of the miners. He is making speeches, claiming that the Communist Party has a militant membership, but the leadership of the Party is "no good." He follows the line of his political advisor, the counter-revolutionary Trotskyite, Jerry Allard, who has allied himself with the American Legion and Walker machine, who does his share to put over the wage-cut. Now Allard is put by Walker on the payroll as head of the relief committee. The miners can be sure that as long as Jerry Allard will be head of the relief committee it will be a committee of starvation for the miners.

Pat Ansboury, former member of the Illinois District Board of the U.M.W.A., is trying to get some influence over the miners by making radical and even revolutionary speeches and speaks about the united front of all the miners. The miners of Illinois would like to know where Pat Ansboury stands on the questions: (1) Of turning the present lockout into a strike and electing strike committees? (2) Where Mr. Ansboury stands on the resolution of the American Legion? (3) Where Mr. Ansboury stands on individual contracts? (4) Where Mr. Ansboury stands on immediate relief for unemployed miners? (5) Where Mr. Ansboury stands on the question of John Walker and John Lewis? (6) Where Mr. Ansboury stands on the question of defeat of the wage-cuts? (7) Where Mr. Ansboury stands on social and unemployed insurance at the expense of the bosses and the government?

These are vital problems confronting the miners. And Pat Ansboury, although he generally gives lip service to some of these questions, does not raise a finger to do anything for these problems. No one can sit on the side of the fence of the American Legion and the coal operators and be with the miners, who are on the other side of the fence. Therefore, Mr. Ansboury, are you with the American Legion, Walker, Lewis and Edmundson and therefore on the side of rators, or with the miners, who are I the starying families of the unemployed and

To check up on people, to check up on the carrying out of the work-IN THIS-and again-in this lies the key to all of our activities, of our entire practice.—(Lenin)

not popularize enough, and we reach a certain point in the work where we do not know what next to do. For instance, a comrade in a large textile shop involving 4,000 workers stated: "You will have to help us and tell us how to organize; what to do, because a few years ago we had a T.U.U.L. group there that was broken up, and we must approach the workers in a manner that they will understand us and will respond to the demands that we put forth."

What are some other reasons?

In the first place, in many instances, our comrades are only in one department of the factory, and the work of the unit is carried on in such a manner, that we do not broaden our activity, and we do not penetrate other departfail to discuss with the workers at the bench the issues that arise and the points which the workers may be interested in to carry on the struggle. We make our demands, not with the workers, but more in a spirit of "for the workers". Therefore, in many instances, we put up demands that the workers are not ready to fight for. We have not as yet learned how to even be-

gin to develop semi-legal methods of work in

By ROBERT FRANKLIN

IN looking upon the work in our coming election

we have to be aware of, as is pointed out in

Comrade Hathaway's article in "The Commu-

nist", is that of sectarianism. How can this be

Our comrades have the habit and tendency

gathering their forces to defeat the wage-cut

and for immediate relief. These questions will

have to be answered. Otherwise the miners of

Illinois will have to fight against Ansboury as

one of the worst demagogues. The miners can-

not depend on Ansboury. They must build their

own movement, their own struggle against the

ones who are against the demands of the miners,

which is, in short, defeat of the wage-cut and for

The outstanding task confronting the opposi-

tion movement in Illinois is to unite their ranks

on the program of struggle, and this cannot be

done by flirting around with Ansboury or other

semi-progressive elements, but by organizing

their own leadership for struggles. The present

lockout of the miners must be turned into a

strike and the strike can be won if the strike

movement will be put into motion. The miners

in Franklin County are on the move. It is very

necessary to consolidate this movement and give

it militant leadership. These are the problems

of the miners of Illinois. The miners in Illinois

can learn much from the struggles of the miners

in Pennsylvania, Ohio, West Virginia and Ken-

tucky, led by the National Miners' Union, and

also of the struggles of the miners in the an-

thracite coal fields, led by Maloney, where they

met defeat, because of the leadership of Maloney

It is against such elements as Maloney, Ed-

mundson, that the miners must open fire for

the purpose of winning the miners in struggle

for their own immediate needs. The unity of

the miners in the struggle in Illinois and In-

diana and other fields is essential. This unity

can be established only on the basis of struggle

against Lewis, Walker, Edmundson and Ans-

boury, on the basis of united rank and file

against the coal operators and their best allies.

Forward to the struggle of the miners to de-

feat the wage-cuts and for immediate relief for

the Walkers, Lewises and Edmundsons.

immediate rélief for unemployed miners.

tied up with literature work?

campaign, one of the biggest tendencies that

Mass Literature--Mass Approach

comrades are opposed to factory work, not so much because they are opposed to the line of the Party, but rather because we have failed to show them how to carry on the work, and at the same time to maintain their jobs. The experiences that we have had in our District in some of the important shops should prove conclusively that leading comrades should be assigned for full time work to one or another factory. In addition to that, the District Committee must review the situation in the particular factories as often as possible in order to prepare the next step for the mobilization of the workers in order to see that the shop nuclei, or the union groups that may exist, should not enter a stage of stagnancy, but have before them activities to which the workers will respond.

the factories, and in many cases, even our own

Our district will not be able to make the turn unless we take seriously this question of shop work, and go out of the District Convention with the consciousness in the minds of every comrade that this work is the basic work of our Party, and that our activities must be centered around

when we speak of guidance, it should not be a guidance in the sense of paper instruction, because every factory has different problems, different tasks. Our guidance should be through personal contact, through personal help, and in that way we will be able to solve the many issues that arise in the various shops and mobilize the workers around our shop nuclei for struggle. In one word, to really make the shop nucleus the real leader of the workers inside the factories

of believing that literature is the sole property

of the Party members and nobody else. One of

the means that we have to get out of our sec-

tarian position is that of mass distribution of

literature, of the reaching of outside workers

with our messages. Of course, this is a very gen-

eral and broad statement to make. Now, how

are we going to bring this down to the individual

of personal contact—solid personal contact with

individual workers. When we work next to a

worker in a shop, or when we belong to the same

union as the worker does, or in the same mass

organizations, or we live next door to him, the

best way in which to sum up our arguments and

our discussions is by leaving with him a pam-

phlet on that given topic that we are discussing

with him. This pamphlet in concrete terms, in a much more capable manner than most of us

could, finally gives the written words, the writ-

ten summation of our arguments; and we must

not underestimate the tendency of the average

worker to believe in the printed word. This leav-

ing of the pamphlets with the individual worker;

the asking him the next time we meet him how

he liked it; the discussion of the pamphlet with

him, makes for a more solid personal contact

than before. This is what we believe the Plenum

Resolution meant by personal contact with the

When we come in contact with workers who

have received a wage cut: with workers who

have had their relief cut down or denied alto-

gether; when we come in contact with workers

who are working on the stagger system, or who

are unemployed altogether; when we come in

contact with workers who are ex-servicemen,-

whatever the struggle of these individual work-

ers, whatever their immediate problem with re-

lation to their bosses -- we have the literature

which will clarify them on their position in this

The question of unemployment is on every

worker's mind. The fear of unemployment is in

every worker's heart. What better than that of

distributing hundreds of thousands of pamphlets

dealing with the unemployment question, deal-

capitalist system.

#### "Our" Noble Cops

A reader sends us a clipping of the Spokane, Washington "Press," containing an account of the trial and conviction of Tom Lambert, a local cop, on a charge of "carnal knowledge" of his 14-year old daughter. Our reader, we think, draws a bit too heavy on his imagination in trying to find social significance in this more or less common abnormality.

Another clipping of more social meaning is that sent us by Comrade T. M. of San Francisco, from the local "News," relating that Police Captain John J. O'Meara was pleasantly "surprised" when it was made public that Tessie Wall, notorious "queen" of prostitutes in Frisco's old Barbary Coast, had died, leaving him a \$50,000 estate, consisting of flat buildings.

"I was Tessie's advisor in many of her troubles," the Police Captain "explained." "Her will was probably her way of saying 'thank you' for the little favors I performed." Oh, how innocent are these cops of Frisco! Or New York! Or Chicago! Or-anywhere!

Only, it happened that another cop, Sergeant Rhodes, only last February drew a \$2,000 legacy from Harry Muller, a "king" of the underworld, and known "fixer" for prostitutes and gamblers. Of course, the Chief of Police "investigated" the affair, and (no doubt having some "connections" himself) dismissed the inquiry by saying that the cop and the crook were "close friends before Rhodes entered the department."

Compare this rather brazen friendship of cops with the underworld, to the "friendship" the same cops show toward strikers, then recall how Hoover came out with public praise for the police when his own appointed Wickers. Commission reported that police everywhere were brutal and lawless.

#### This Is So Simple

That we wonder the cartoonist Goldberg 'Never thought of that . . .'

For months the capitalist papers have been shouting cries of alarm at proposals in Congress supposed, somewhat fictitiously, to tax the rich

"The rich would put their money into tax free bonds!" is the "warning" sounded by every capitalist editor. As if that were subject to no

Our suggestion is to TAX THE TAX-FREE BONDS! That's simple, isn't it?

#### Idaho Potatoes

From the Boise (Idaho) "Capital News" we learn that Idaho is getting famous for other things than big spuds. There is being organized there a Farmer Taxpayers' League, and a gent named General Martin is making demagogic speeches to the farmers about what ought to be done.

This "General" was attorney general of the state when Bill Haywood was kidnaped from Colorado and the state of Idaho, with Senator Borah as prosecuting attorney in the Haywood case, tried to hang Haywood, Moyer and Pettibone, three leaders of the Western Federation of Miners, on a framed up murder charge. Martin at that time was not interested in reducing farmers' taxes by dismissing the costly attempt to carry out the murder of labor leaders for the benefit of the Mine Owners' Association

But now he is all hot for reduction of taxes. So is Borah. But by firing a lot of school teachers and-take note-abolishing mine inspection.

We advise Idaho farmers not to fall for the demagogs who talk for general tax reductions, but to themselves fight for abolition of taxes on small capital farmers, and increased taxes on all big capitalists, rich farmers, railroad corporations and other exploiters.

war upon the Soviet Union; we constantly remind them that in 1914-1918 millions of workers were crippled, maimed and killed. How about the distribution of our literature dealing with war? Isn't it reasonable to believe that our pamphlets showing the war in China the peace proposals of the Soviet Union, the only country that wants peace, etc., will have a tremendous effect upon the workers reading this for the first time?

In all our campaigns, and in all our material, we must again emphasize that our work will be haphazard and distant unless we bring that close, firm personal contact between the workers and ourselves. The Party members must forget that they are in a little chosen kingdom, off by themselves, watching and directing the mass of workers off in the distance.

All in all, we see that the immediate tasks of the Party can be made easier through the proper organizational distribution of literature. This work can be made much easier for the Party as a whole if every individual comrade realizes the position he is in-that of an individual organizer; that, with the distribution of literature he becomes an individual Party organizer; that with the proper distribution of literature he leaves with the worker the final summation of the whole controversy in this system.

If we want to make the coming election campaign a success; if we want to turn the signatures that we received into Communist votes, we must understand that this can only be done by the leaving of literature with this worker. Because in our attempts to get this worker's signature, our arguments may have been hasty and hurried, and may have been incomplete because our main desire was to get the signature. The piece of literature left may be just the necessary thing to turn this signature into a Communist vote, or even a member of a revolutionary or-

ganization or the Communist Party. Every Party member to sell no less than one pamphlet a day-every literature seller a Party organizer! Let us speak in terms of hundreds of thousands and millions of pamphlets. Raise the flood of discontent with a flood of literature!

### NOTICE TO ALL DISTRICT ORGANIZATIONS

The May Day issue of The Communist has been sold out in the first printing. A limited reprint is now being ordered, after which the type will be destroyed. Considering the urgent need of the May issue of The Communist in popularizing the decisions of the Central Committee Plenum, all districts are urged to wire in at ance whatever additional orders they may

ing with unemployment insurance, dealing with our immediate demands and the final solution
