Welcome Home!

SIXTEEN American workers' delegates to the Soviet Union will be returning this Sunday. These delegates were sent by the American working class to see at first hand the tremendous achievements in socialist construction in the land where the workers rule. They were elected by workers in American shops and factories.

The American workers' delegates were welcomed by the Soviet masses and their government in the spirit of Comrade Stalin's declaration at the First All-Russian Conference of Workers in Socialist industry.... "The working class in the U.S.S.R. is a part of the working class of the world. We have achieved victory not only through the efforts of the working class of the U.S.S.R., but also through the support of the world proletariat. Without that support we would have been torn to shreds long ago."

They were given every facility to acquaint themselves with conditions in the Soviet Union. They spent several weeks traveling throughout the Soviet Union, visiting the new giant factories and the huge collective farms, holding discussions with the workers in the roaring Soviet industries - industries all owned and controlled by the workers them-

The American workers' delegates were able to see with their own eyes the rapid and tremendous improvement in the material and cultural conditions of the Soviet masses, and to compare these, in sharp contrast, to the growing misery, mass starvation and frightful suffering of the working-class in the richest capitalist country-the United States.

In the United States there are 15,000,000 unemployed workers and ruined, impoverished farmers. In the Soviet Union unemployment has been totally abolished. The difference between town and country life is being wiped out. A classless society is being erected. In the United States increasing deaths by starvation, suicides of desperate workers, a starvation level of existence for the unemployed and for increasingly large sections of the employed. In the Soviet Union ever higher standards for the workers, new increases in wages, social insurance, vacations with all expenses provided. In the United States, persecution of workers, lynch-terror against the Negro toilers, propagation of race hatred and prejudice as part of the bosses' attempts to split the working-class and defeat their struggles against starvation. In the Soviet Union, a workers and peasants government, the wiping out of race hatred, equal rights, including the right of self-determination for the former oppressed minorities and nationalities. In the United States frantic preparations to plunge the working-class into a new world slaughter in the effort to find a capitalist way out of the crisis. In the Soviet Union the firm struggle for peace and the building of industry and agriculture.

The American workers' delegation will make their first report to the American working-class at the Anti-War Demonstration on June 12, World Solidarity Day Against War, at the Starlight Park. Their report is of the greater significance at this time when the Japanese imperialists egged on and encouraged by American imperialism, are steadily driving toward armed intervention against the Soviet Union and its victorious Socialist construction. The American workers, looking to the Soviet Union with sympathy and hope and brotherly solidarity, will welcome the delegation at the pier and in hundreds of meetings throughout the country. The reports of the delegates must be spread among the entire working-class. These delegates are the duly elected representatives of sections of American workers. They have seen with their own eyes the victorious advance of Socialism in the Soviet Union. The message they bring is a message of working-class achievements against tremendous difficulties. To the American workers and ruined farmers groaning under capitalism, they bring a message of struggle against the capitalist hunger, terror and war offensive, of revolutionary struggle for the overthrow of

Welcome home-worker delegates to the Soviet Union!

The Courts and Union Racketeers

THE recent decision of a capitalist court in matters concerning the internal life of the trade unions, is of the greatest significance to the revolutionary trade union movement. The pages of American labor history are filled with the violent actions of the capitalist court against the union membership and the workers' organizations. The use of the injunction against strikers is well known to all workers.

But the recent decision of Justice Hammer of the Supreme Court in favor of a group of members against the racketeer officials of the International Union of Operating Engineers, Local 125 appears on the surface to be a departure from the practices of the courts of assisting the labor bureaucrats to maintain their grip upon the militant rank and file. In reality, however, the decision of Justice Hammer is a new and more cunning method of attack upon the workers made necessary by the development of the class struggle and the rise of the revolutionary trade union movement. The true intention of the ruling of Justice Hammer against the union racketeer Fay is contained in the following statement:

"Official oppression makes the membership the prey of those pseudolabor groups who in times of distress are keenly active in attempts to lead the workers away from those safe moorings recognized in the expression in the ideals of union men by the leaders past and present of the American Federation of Labor."

What the honorable judge means by all of this legal verbiage is that the bureaucrats of the A. F. of L. should continue the policy of throttling all genuine rank and file opposition, but where some notorious grafters go too far and overdo their grafting and too obviously expose themselves, it would be well to keep them in check and if Mr. Green and Co. are slow in doing it, the courts will help out.

Why is the decision of the court directed against the excesses of some labor bureaucrats? For the same reason that Wall Street is interested in cleaning out some of the "excesses" of Tammany Hall politiciens so as to make Tammany a more reliable instrument in the hands of finance capital agginst the workers. The Seabury investigation directed against the Walker administration and the decision of Justice Hammer against certain racketeer labor leaders are both inteded to strengthen the domination of capital and to carry through a further fascization of state apparatus.

The decision of the court establishes a precedent that makes possible for the government to step in and over-ride the wishes of the membership and fasten more firmly the bosses control over workers' organizations The "cleaning" out of some of the most notorious and self-exposed racketeers is therefore for the purpose of making the unions more reliable instruments against the rank and file.

But the workers must realize that the replacing of a Jimmy Walker by an Al Smith or some other capitalist politician and the replacing of the racketeer Fay by say, such respectables as Hillman, is surely not in the interests of the workers but "tactics" made necessary whenever the bureaucratic rule is threatened.

There must be no illusions about the "good will" of the courts. The answer to these court actions, to the racketeering and the capitalist attacks, must be the creation of a genuine rank and file opposition in the A. F. of L. unions, the strengthening of the red unions and the forging of a united front from below, to liquidate in the labor movement not only the influence of the Brindells and Fays, but of the more dangerous tools of the bosses, the Greens, Wolls and Hillmans.

Commodore Strikers Picket Scab's House; **Gangsters** in Retreat

NEW YORK .- Commodore Laundry strikers and workers in the block demonstrated yesterday before the home of a scab, named Ben Gilbert at 712 Fox St., Apt. 2D. Moretzky brothers, gangsters for the Commodore, and four carloads of thugs came down to break it up, but when they saw its size and militancy, beat a retreat.

Twelve Commodore strikers have been framed on various degrees of simple and felonious assault in this strike. The two latest are John and Michael Bokosh.

LATVIAN WORKERS DEMAND SCOTTSBORO BOYS' FREEDOM Workers of Riga Latvia vesterday smashed the windows of the American Legation in that city, in protest against the attempt to legally murder the innocent Scottsboro boys. A RED NAVY MAN

ON THE ROAD

(By a Worker Correspondent)

Northwestern freight yards in Minneapolis at night. Raining and cold. A bunch of fellows are waiting for a southbound train. There she is and we make the first empty. So long Minneapolis. To hell with Blackjack Andersons hungerprogram. Never again the soupline. Hit the road that's the way. Three in our gang, but the empty is soon full of human beings. Where are you all fellows going? Nobody knows. Nobody cares. The same all over. No jobs. No eats. Nothing. So all there is to it is to ride and get of when hungry.

Some of us are laying down in the car trying to sleep. The train is shaking so its impossible. We get aquainted with the boys and inquire about the ways of the road. Where to eat, sleep. Hows the travelling? Easy or hard? Tough, cant be any worse—says an oldtimer—to many on the road. Maybe half the country is bumming around. That's the way it looks to him. But there is one thing-they declare in unison-we all got to eat or we will take it. They do it in the big towns already.

Mile after mile-hour after hour and Mankato lays ahead is in the morning. Get of and aim to try our luck at bumming. Around the cerner a sign:

"NO HOBOES ALLOWED-NO BUMMING-TEN DAYS ON THE ROCKPILE"

Thats hard-from the ashes right into the fire. Ride her out again or stay? Stay and Main street is getting hell. Door in and door out but the same old story. Nothing doing. To many of you fellows. We don't ask for much. The baker: stale bread or rolls. The butcher: meat that does'nt smell so good or any buts or ends he cant sell. Over ripe fruit. Better get back to Minneapolis before we die of starvation.

We meet another traveller and go with him up to a catholic hospital where a nun or sister feeds us coffee and bread at the kitchen door. Had to sort potatoes for an hour in the basement. NO WORK-NO EATS.

IN THE JUNGLE

Ride the blind out on an eastbound train. Dont worry about being alone. A gang of boys on the deck before us. Talking about wheat cakes and coffee. All get off in a small town. Whats up? A good town one says. Good jungle and the stores O.K. We follow the crowd and uptown we collect assorted eatables. Down to the jungle. A small army is ahead of us. Young and old. Even a family. Seven of them. They are from Penn. Miners out of work. Going to friends in Duluth. Have an old truck to travel in. Not so very hot.

The campfires are burning. Everybody busy. Cooking - frying washing-mending. Tin cans to cook in. We have a swell meal. Bacon french fried-black coffee and rolls. No wonder when one of us used to be a \$50 a week chef. This is the only way to live—the best way says one camper. No job to worry about-no rent-nothing at all to worry about. My buddy pipes up: "What a hell of a live. He must be a professional bum. Me for a good job, nice clothes and a nice girl. All are talking. Politics-conditions around the country. Most of them are very radical. Only a few see it the capitalist way. We get good information about the ways and life on the road. Where to sleep and where to eat. The best time to bum. How to spot a railroad bull. About good towns and bad towns. Floop in a boxcar at night. The floor is very hard. Our backs are broke and limbs very stiff in the morning. Mr. Hoover got hell that morning.

WATERTOWN, WIS.

Get to Watertown, Wis. and aim to take in the sights but a certain gentleman is down at the depot and tells us to stay where we are on the train. A blackjack in one hand and brassbuttons on his coat. If this is the way all over we are bound to live and die on the trains.

Madison and visit the Transients Rest. A bed and three s.k. meals a day is waiting for us. HARD LUCK. The headflunkie hands me a broom. I says-Keep your job-I did'nt come all the way from Minneapolis to take your job. He gets excited and the meals and bed fades away. My buddles stick with me—solidarity. Johnny pokes him in the nose and we make the yards in a hurry. To hell with Pfil's home for transients.

Next day Blair from Milwaukee spoke at the U. C. hall. Good meeting and we felt refreshed.

Janesville-eating hard-and the police station for sleep. Cement floor and bedbugs by the million. Hoover got hell that night. Ten o'clock in the morning the bulls came around. Loaded us in the Black Marie and dumped us on the highway 7 miles from town. Not a thing for breakfeast. Dirty bastards. Hoover is sure about being hanged in the sour old appletree when the revolution comes. Farmhouses for breakfeast. Gosh, we hate the dogs they got there. Big ones. They snap and growl. Dangerous many a time. At the backdoor. Cookies and milk. Good milk, Taste funny to us. No milk for a long time. Drink all we can. Swell. Hiking. Try to hitch a ride. No use. People only wave at us and laugh. Keep on tramping. Sore feet. Hot. It aint so funny to live, to be on the bum, O, well, Axel says, Soviet America will be soon,

ROCKFORD

Union Gospel Mission must have a chapter. Brother H, truly a God's man, in preaching. What a sermon! GUNS, DOPE, BOOZE, JAILS, JESUS, and everything is mixed up. It reminds me of an Irish stew in a jungle. He shouts and prays. For two long hours. One fellow is dozing off. The dear brother hollers out: "Wake him up; he must be a professional sleeper. And then the flop, lousy, down in the basement. Breakfast. More praying. Then black coffee. Not a thing more. Dinner. First mop the floor as good soldiers and then praying and then stew. What a stew! BURNED-NO GOOD. Jesus got hell this time. Hell

Major Stjernfeldt, a nobleman from Sweden, at the Swedish Salvation Army, must be given due credit for the attention he gave us. He was all full of smiles, but no food for our bodies. Only Jesus. After 15 minutes conversation, he had a job for one of us. On a farm. Room and board. Twenty-eight cows to milk. We all explained we never worked on a farm before so he couldn't send us there. He was very sorry on account of this. Big fellows like us would be fine on a farm. FOR ROOM AND BOARD. Well, hell-we didn't come to U. S. A. to work for our r. & b. May as well go to work for the county In the county jail. After some more heavy talking, he gave us a dime apiece and told us we could have a good dinner for it. Where can you eat for a dime in Rockford. Stjernweldt must know. We don't.

The only bright spot in Rockford is 704 7th Street. That's the hangout for the reds. A good bunch of fellows. This is written up there. Revolutionary greetings!

Arms Plant Prepares for Mass Production As Part of War Plans

NEW HAVEN, Conn .-They are shipping munitions from the Winchester plant here every day.

During the past two weeks the factory has gone on short time again. A large number of workers have been laid off.

I enquired about the activities of the plant of a large number of workers who are employed in the cartridge and gun departments. They told me that they are working full speed on dies, jigs, fixtures and everything that goes for grand mass production. In other words, a grand rush is coming in a few days. It is plain to be seen here that the Wall Street government is preparing for war.

JOBLESS FORCE RELIEFFROM CHI. CHARITIES

Unemployed Council Wins Relief for 14 Families

(By a Worker Correspondent)

CHICAGO.—The charity relief staion at 1701 String St. since it moved from Stanford Park has deliberately refused to recognize the committees from the Unemployed Branches up to last week. A delegation of 22 went there with 14 families demanding relief. At first the delegation was told to get back in line and wait for their turn. The delegation refused and insisted on seeing the supervisor. This was denied, so the delegation decided to find the supervisor themselves. They began to look from one room to another. Some of the watchmen tried to stop them, but were shoved aside by the delegation; one of them even had to be knocked down in a

When the delegation came to the supervisor's office, the supervisor refused to speak to them. The delegation refused to move until the supervisor spoke to them and heard their demands. After a determined fight every family was taken care of.

On the way out, our delegation spoke to the hundreds of other workers waiting there, that this victory Unemployed Council and urged the when taking a walk on the Malakhov wormy meat. workers to join.

A Pleasure to Work In a Soviet Auto Plant, Says American

There Is No Depression in Nijni Novgorod or Any Place in the U.S.S.R.

More Production Means More Wages, Less Hours Per Day

Fellow workers, employed and unemployed, as many of you have heard by this time, that I am in the Soviet Union working in Autostroy, the gigantic automobile factory for building Ford type of cars.

I was "canned" by the Ford Motor Co. on March 9th because I sympathized with the hungry workers that marched on Ford's on Bloody Monday, March 7th, when four unemployed workers were murdered and dozens of others were injured by the machine guns of Ford's Dearborn police, assisted by Murphy's Detroit police.

the city and county is wasted.

FARMERS QUIT

I shall never forget this bloody day when hungry men were given bullets instead of bread. I was shown the spot at Leningrad, when I was there, where hundreds of workers were shot at in front of the Czar's winter palace, for demanding the same thing-IN SAINT PAUL BREAD.

But these murderous attacks on the working class is a thing of the past! in this land now. This very working Low Paid Workers Get class that was kept in poverty and ignorance for centuries now is the ruling class in Soviet Russia. And one must be in this country to vizualize it. I have been in this country about three weeks now and I can hardly believe myself when I step into ST. PAUL. Minn.-Now that St. the factory.

No slimy servicemen around, no Mayor it is of special interest to the slave-driving bosses ordering you workers to note the actual conditions around, giving one all kinds of hell of the people. To begin with a wage- and humiliation. None of that nerve cut of 10 per cent was put through wrecking speed-up and continual fear in the city departments of govern- of being sent home or fired and ment. We see that in the Civil Ser- above all, when a worker comes to vice Department those girls who for- this factory he stays here all day merly received \$58 a month are now and works all week.

getting \$48 a month. The employes He is not sent home after a couple in the city that had been getting of house nor does he work a day of \$150 a month will now get \$145 and two a week because there is no work, those highly paid officials who made like thousands of us have been doing \$300 a month will now get \$297.25. at Ford's. There is no depression here Thus we see that the wage-cut falls at Nijni Novgorod auto plant nor heaviest on the lowest paid workers. anywhere else in the Soviet Union. Elected officials have not received On the contrary there is more work a wage-cut. There are still some than they have skilled workers for. workers in St. Paul who do not be- Everybody that wants to work is lieve that Mahoney, the friendly busy. Everywhere one goes, one ses mayor, is responsible for this act tremendous activity. Factories, mills, because he will take office a week mines, new railroads, new homes for the workers. All kinds of buildings. Let us not be fooled. Mahoney's Yes, new hospitals, sanitariums and Labor Party, voted for this wage-cut, we have these things in America, but and they are councilmen of the last for whom? For the rich, for those administration. There is no doubt in that hire the workers and get profits the minds of those militant workers and dividends from their labor.

A Pleasure to Work

-Mahoney will betray the workers during his administration, and this I will say a few words about this 10 per cent wage-cut is the first gigantic factory where I am working. It is indeed a pleasure to work in a The situation in St. Paul will not real modern factory like this one; plenty of light, and space between The 10 per cent wage-cut means the machines and work benches. untold of sufferings on the part of Every machine brand new and shiny. the women typists and office work- On the walls are big red banners ers who can hardly make a living and posters and a huge picture of with their salaries. The Union

The union here is an important institution. What it says, goes. If a certain working condition is bad, the workers affected take the matter up here and the administration sees to it that it is changed or they PAYING TAXES sees to it that it is changed or they must give a satisfactory reason why it cannot be done immediately. At these union meetings not only the ters pertaining to production, efficiency, safety, etc. It probably sounds strange to an American workers to CINCINNATI, Ohio. - Recently I tion at a union meeting, when these discuss efficiency and more produc-"Georgy Pobedonossets" turned back. a very dissatisfied people, taxes high, the boss. (Statement of the Central Committee, Communist Party, U.S.A.)

THE House of Representatives passed a bill embodying the vicious fascist proposals of the discredited Fish Committee. The Dies antiforeign-born bill threatens all militant workers with deportation. The bill is directed in the first place against the Communist Party, the revolutionary leader against the capitalist offensive.

The deportations of Strike-breaker Doak are now to be sanctioned by capitalist law. The coalition government of the democrats and republicans has forged a new weapon for the capitalist onslaught on the standard of living of the toiling masses-for the capitalist way out of the

The Dies Bill is an integral part of the war preparations of the tools of Wall Street. The greatest obstacle in the carrying out of the murderous war plans of the Hoover regime is the growing resistance of the masses to imperialist war. In the leadership of the Communist Party, Wall Street faces the only force which rallies the toiling masses to defeat the imperialist war plans, to postpone war against the Soviet Union.

Promises, lies and demagogy are by no means sufficient to crush the growing resistance of the masses. Brutal terror is the beloved weapon of the ruling class. The civil rights of the workers are being trampled on. The Dies anti-alien bill exposes bourgeois democracy as the veiled dictatorship of the bankers, manufacturers and landlords. The bill sponsored by Matthew Woll, the strike-breaker, Doak, the Tammany Hall representative Dickstein, will aim to outlaw the struggle against wage cuts, the struggle for unemployment insurance. The bill attempts to outlaw the militant working class organizations and their leaders who stand in the front ranks in the struggle against hunger, capitalist war and terror. The struggle against the Dies anti-alien bill is a struggle for bread, a struggle for jobs.

THE capitalist program of returning prosperity by means of hunger and war is meeting growing united opposition on the part of the Negro and white workers, foreign born and native born workers. The Dies bill aims to divide the working class. "Divide and rule" is the slogan of the capitalist exposers. "Unite and defeat the bosses' program of hunger and war" must become the battle cry of the starving millions. Native born workers must move into the front ranks in the struggle for the protection of the foreign born workers.

The march of the veterans to Washington has created panic amongst the capitalists who are responsible for the present crisis. The present vigorous election campaign developed by the Communist Party challenges the bosses in their unlimited greed, the "right" to exploitation. It exposes the demagogy and lies of the bosses' political parties. It rallies the toiling masses in the cities and countryside for struggles in

defense of their right to live. The Dies anti-alien bill is aimed to deprive the workers from the right to participate in revolutionary election struggles. Mr. Dies, in support of his bill, said, "Now the time has come when we ought to stop putting on our ballots any Communist ticket in decent American elections." The Dies-Fish bill aims to deprive the workers from participating in elections in the struggle for their demands. Workers answer this attack with a hundred fold support for the workers' ticket-candidates of the Communist Party! Against the candidates of the bosses!

In support of the bill Congressman Stafford said, "I would not like to see a law passed that would give the right to immigration officials to deport socialists." The bosses know who are their friends and who are their enemies.

The masters need their flunkey-the Socialist Party. Terror, fascism and the Socialist Party are the weapons of the bosses in carrying out the program of hunger and war. The Socialist Party paves the way for fascism. To defeat the bosses' plan we must drive from the workers' ranks the capitalist agents—the social fascists,

THE struggle against the Dies bill is the struggle for the right to strike. The fight to stop the deportation of the strike leaders Edith Berkman, Frank Borich, Vinvent Kemenovich, and August Yokinen (the white worker, a fighter for Negro rights), is a struggle against the Dies bill. The slightest attempt on the part of the Wall Street flunkey, Doak, to terrorize and raid workers' organizations, and deport militant workers. should call forth the most indignant protest that will stay the hand of this Wall Street tool.

The mass pressure of the workers defeated the Michigan anti-alien bill. The mass pressure of the workers can defeat the Dies bill before it is passed by the Senate.

The fight against the Dies bill is a fight for the rights of the workers. It is a necessary part of the fight against hunger, of the struggle against imperialist war. Defeat the Dies bill!

For the protection of the foreign born workers, for the unity of the toiling masses!

For the defense of the civil rights of the workers, for the defense of the working class organizations!

For the right to strike, or the right to fight for bread! Down with bosses' terror-defeat-the imperialist war plans. Demonstrate and pass resolutions against the Dies-Fish bill! Flood the Senate with protest resolutions and telegrams!

CENTRAL COMMITTEE, COMMUNIST PARTY, U.S.A.

"HEROES" of 1917 HERDED LIKE CATTLE IN 1932

Mr. and Mrs. E. R. Wright and their son Clyde, who cae all the way to Washington from Los Angeles in the great bonus march against hunger, are forced to live in an open air camp along the Potomac. The Workers Ex-Servicemen's League demands adequate housing, food and medical attention for the veterans and their families.

Taps are sounded announcing the familiar "lights out." But there are no lights to turn out in Camp Camden. The government has suplied no covering for the weary, hungry worker veterans either who have come to Washington to demand their back pay. Over 8,000 war veterans are now in the Capitol; thousands more are on the way.

HOW IT WAS DONE--A BLOCK COMMITTEE BUILT IN STRUGGLE

By E. CARROLL.

FOR more than two weeks the Unemployed Council tried to call together and organize the workers in the Negro territory of South Brooklyn into a block committee. Not until Mrs. Pederson, a colored woman of 426 Warren St., was given a dispossess notice by the landlady did we succeed. Mrs. Pederson and her husband are both unemployed. Mrs. Pederson has blisters on her feet from looking for work and her band can hardly walk,

When Mr. Pederson declared that he cannot work, because he has no place to work, and that he cannot pay his rent because he has no money, the landlady, a Mrs. Holtz, a fat white woman, told Mrs. Pederson that she is a "dirty nigger" and that she will get every "dirty nigger" out of her house. The landlady owns several houses on the block and paid for them with the sweat and blood of these Negro workers who live here and pay her as high as \$15 and \$20 for a shabby apartment.

A few members of the Unemployed Council came down to see Mrs. Pederson and offered her aid in fighting the eviction. She, and especially her husband, were frightened and suspicious in the beginning. However, when we old them that we promise them no money, also that we cannot perform miracles for them, that we would fight side by side with them and if any one would dare to insult or strike them, they would have to strike, us too, Mrs. Pederson shook hands with us and said that she recognized us as friends and was willing and happy

to work with us. The next morning the block was visited with petitions, to which 34 workers signed their names (within one hour), demanding a stoppage of the With these petitions a committee of white and Negro workers went to the Brooklyn Bureau of Charities. There they were told that this institution is out of funds and was unable to help any one. The secretary of this farce charity institution also made every effort to break up the committee. However, they did not succeed. The committee stuck solidly together and returned to the block where the workers anxiously waited for the news.

During the day more petitions were gathered and more sentiment was worked up against the eviction. An open-air meeting was held in the evening and a larger committee went down to see the alderman of the district. The alderman

was not in, but the story was related to the other politicians. When these politicians saw the unity and determination of the white and colored workers, they made a promise to call on the marshal and stop the eviction temporarily. When the committee returned it was close to 11 o'clock, but the workers on the block waited to hear the report.

The next evening an open-air meeting was held. Negro and white workers stood together on the platform and called for unity and struggle against this and all eviction of unemployed families. Four Negro and two white workers spoke. A vote was taken of "all those who were ready to support Mrs. Pederson in her fight against the eviction" and all hands went up-There were a few landlords present. When they saw the unity of the workers, they were afraid of it and also voted against the eviction. A committee of eleven workers, four white and seven colored workers, marched down to the alderman of the district.

When the alderman saw the size and determination of the committee, he made a promise that he would see to it that the eviction would not take place. All the workers were very enthusiastic and everyone realized that the alderman took this step, not out of kindness, but because of fear and pressure of the block. Every one realized that in the same way, through unity, determination and struggle, many victories can be won by the workers.

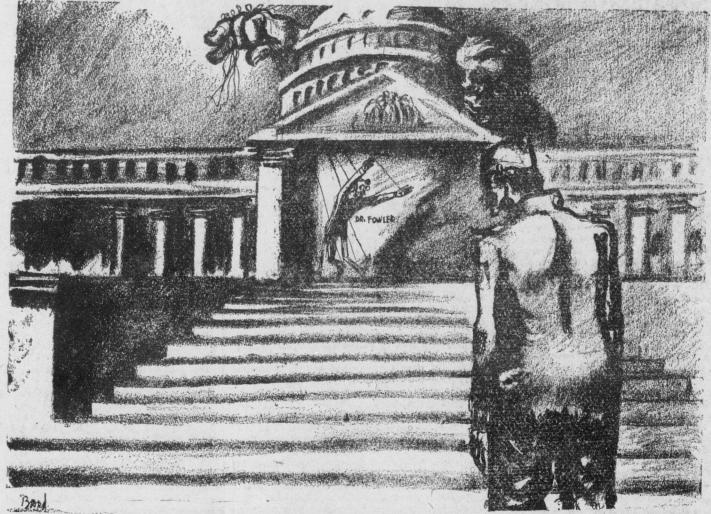

Upon return to the block the entire committee met. Everyone spoke up and declared himself ready to build a strong block committee which would, with the aid of the Unemployed Council, defend and fight for the interests of all the workers there. A chairman and a secretary were elected. A committee was also elected to draw up a leaflet. A time was also set for a larger meeting, at which the block committee would report on its work. This meeting will be held in a large yard in the rear of one of the houses owned by the same landlady. Everyone volunteered to canvas the houses on the block.

When we parted everyone was enthusiastic-There was no trace of the suspicion which existed in the beginning. Everyone felt part of a large family and expressed the desire to meet

This shows that only on the basis of struggle can we build a solid united front to overcome the suspicion and build a strong and united front of Negro and white workers.

Toward Revolutionary Mass Work (THE 14TH PLENUM)

Sectarianism and the Danger of Social-Fascism

OUR District has not reacted sufficiently to the danger of social-fascism and we have not really exposed in our every day work, that social-fascism—that the influence of the Socialist Party, and AFL bureaucracy and the Musteites-is the main enemy which prevents us from winning the decisive influence over the workers. I call attention to the sentence in the resolution of the Central Committee which says as follows:

"This confronts the Communist Party with the task of increasing, sharpening and improving its fight against social-fascism, as the main enemy in the struggle for the successful mobilization of the masses in the fight against the bourgeois offensive and the war danger."

Deep in the ranks of the Party this is not yet felt and in my opinion we did not carry on any real organized struggle against social-fascism For instance, we have in our district varied forms of social-fascism: we have the Socialist Party in Wisconsin, as not just a party in the sense it is throughout the rest of the country, but a government party. In Milwaukee there is not only a Socialist mayor but the majority of the city council; also in Racine, despite Swaboda's being expelled; and also only last month a Socialist mayor was elected in West Allis where the large metal plant of Allis-Chalmers is located. Then we have the variation of the social-demagogs-LaFollette, and in each part of the district we find one or another expression of this.

In the steel region of section six the Socialist Party is now holding mass meetings and taking up the struggles for the unemployed. In Indiana and particularly Terre Haute, our movement is in difficulties because of the influence of the Socialist Party, conscious or unconscious inside our ranks. Some of our own membersof whom there are many good workers-still have certain democratic illusions and influences from their past in the Socialist Party. Others very consciously, inside the Party, are working with outside bourgeois elements, preaching the program of the Socialist Party and trying to bring its influence into our Party. Our movement in Terre Haute is going through a crisis today which is brought about because of this influence of social-fascism inside the ranks of the Communist Party in Terre Haute. This explains why we have a factional fight in Evansville and Terre Haute. There are no roundedout political platforms, but it is the influence of the Socialist Party being felt inside our own

Understanding Social-Fascism.

In the city of Chicago in connection with the counter-Olympics whom do we find put on the executive board? Carl Borders, member of the Socialist Party, secretary of the League for Industrial Democracy, and also head of the Workers Committee for Unemployment. In the Young Communist League, as Comrade Kling reported, we have in our anti-war work, members who have been in the League a long time, but who say that in order to get a broad united-front against war we cannot bring in the Soviet Union.

In Wisconsin there, as in many other places, our main task is the concrete exposure of the Socialist Party. We have excellent opportunities to expose the Socialist Party. For instance as was reported to me in Milwaukee, Hoan campaigned in Milwaukee on the slogan "Elect Socialist Supervisors because workers will then be able to dictate the question of control of unemployment relief", and no more than one day after this, these same socialist supervisors came out with a proposal for forced labor in the city of Milwaukee. Only two or three days ago the council voted for a six-hour day for all city workers. But actually the workers understand this and are against it because it means in plain words the stagger system, cutting of wages of the

How about Melrose Park: I do not think we sufficiently exposed the fact that the hall which was rented to us for May Day and then denied to us and resulted in the massacre, is owned by the Workmen's Circle in Melrose Park which is controlled by the Socialist Party. This plainly shows the connivance between the Socialist Party leadership there and the boss government. Here we have an excellent opportunity to expose the Socialist Party, not only in Melrose Park, which is a small town, but here in Chicago and all over. Particularly the comrades in the Jewish field, in the Workmen's Circle, who tend to think we have finished our work among the Jewish workers because we built up the

Concrete Struggles to Defeat Social Fascism.

In Southern Illinois, certainly the main enemy is Pat Ansbury. In my opinion he is the new Edmondson. Edmondson is discredited and that is why Ansbury is there. He makes nice speeches but he does not take a position on the basic issues confronting the workers. I am sure that there are some hesitations and illusions amongst our own Party members with reference to the role of Pat Ansbury.

In the South Side of Chicago we have to carry on a sharp struggle against the Negro reformists who are very active against us. But specifically in connection with the war situation-we see the Garvevites increasing their activity manifold. They have hundreds of meetings. Particularly dangerous are the well-trained Japanese orators lecturing under the auspices of the Garveyites, talking of Japan unifying the darker races for struggle against whites. Imagine, imperialist Japan with its imperialist offensive of Corea; its slaughtering of Chinese masses; its war in Manchuria, becomes the champion of the darker races, with relation to white imperialism and we are not exposing them.

The point I am emphasizing is that we have a tendency to think that the social-fascists have no influence, because in our sectarian isolation we do not see what is taking place. But when the City Council of Chicago holds an open hearing on unemployment relief, we find Carl Borders is on the job with reference to his fake unemployment relief. But neither the Communist Party, Unemployed Council or Trade Union Unity League is there with our program. We find the Borders' led "Committee for Unemployment" is growing today.

We are able to win workers over from that movement when we make a real effort. When we take the miserable little May Day parade of the Socialist Party, we nevertheless can see that there was one division of 20 American workers under the leadership of Borders who all came from this movement.

I think that we underestimate the influence of the Socialist Party press. The Socialist Party press in the District is larger than the Communist Party press. In our District we have the "Leader" in Milwaukee, the "Socialist Campaigner" in Wisconsin, which is given away free. The "American Guardian" which is a direct spokesman for the Socialist Party, is getting finances and subs here in the city of Chicago and throughout the district. We do not come in contact with these activities in our every day life and activity, and we feel and know that we are the vanguard, and the Socialist Party are social-fascists, and therefore we satisfy ourselves with that knowledge. The most we ever do is make a nice speech about it, but we do not develop concrete forms of struggle to defeat social-fascism.

This direct activity of the social-fascists-this influence that they have through their pressdirect organizations and indirect organizations. the influence which the Chicago Federation of Labor has right here in the city of Chicago where it is stronger proportionately than in other cities of the country, must not be underestimated as at present. And therefore we must raise sharply, in connection with the breaking of our isolation, the entire question of struggle against social-reformism and specifically against the Socialist Party influence throughout the dis-

Dollar Journalism in Europe

By J. LOUIS ENGDAHL,

THE two American newspapers, the New York Herald-Tribune and the Chicago Tribune, maintain editions issued in Paris characteristic

One of the biggest news stories in Europe today for the American masses is the tremendous response to the appeal of the Scottsboro Negro mother, Ada 'a light, not only for the lives of her own two s. . s, but for all the Scottsboro Negro boys.

Luropean labor raised the Scottsboro demand on May First and again on May 7, Scottsboro day, in the face of police attacks resulting in mother arrived in Hamburg, the Social-Democratic police denied her the right to speak in that city and threw a police guard around the American embassy in Berlin. In fascist Hungary, young workers have raised the cry for the liberation of the Scousboro boys before the American embassy in Budapest. In Vienna, the American ambassador is the invited guest of the social-democracy at the opening of the municipal housing project dedicated to George Washington, but is compelled to listen to workers demanding the release of the Scottsboro boys, leaflets are scattered carrying the same demand, and the police claimed the dollar ambassador in flight had his automobile stoned and there are 20 arrests.

This growing upheaval of European labor, fighting for the lives of the Scottsboro Negro boys, acclaiming the Scottsboro Negro mother wherever she goes, does not exist for the Parisian boulevard editions of Wall Street's mouthpieces in New York and Chicago.

To tell the truth would be to unmask the European capitalist allies of lynch mob justice in the United States, especially the European social-democracy, the socialists of Germany, Czecho-Slovakia, Austria, Switzerland, France. in a year when floods of social demagogy are being let loose in the United States in the effort to hold the working class voters for the parties of capitalism, including the American Socialist Party that has again nominated the preacher, the Reverend Norman Thomas, as its candidate for president

Much was said about Mothers' Day but nothing about the Scottsboro mother. The biggest story is not the fight for the living Negro children but the finding of the dead Lindbergh baby. Columns and pages are devoted to the military reception given by Wall Street's army heads in Paris to the so-called "Gold Star Mothers", the victims of dollar imperialism's participation in the last world war. But there are no Negro mothers in this delegation. The race line is sharply drawn as if no Negro worker victims fell in the world war.

The Negro mother crossing the Atlantic to build the unity of labor in its struggle against class and national oppression, and the response she has received, far oustrips in significance, in fact comparisons become odious, with the crossing by airplane of an Amelia Earhart. Yet the latter becomes the center of an avalanche of

It has remained for the Paris edition of the New York Herald, however, to start a discussion on what self-styled "mothers" of pet dogs should do at the cinemas. The original contribution started off with this paragraph.

"The other night at a cinema, I had the most annoying experience. I always go everywhere accompanied by my child (an adorable pekingese) and the film was absolutely ruined for me by the barking of the other dogs," and concluded with, "even when we returned home, my pet was so upset by the vulgarities of the intruders at the cinema that he kept me up all night." Side by side, however, with this discussion,

there is the parallel acclaim that is supposed to have greeted an editorial calling for "Fascism In America". This is dollar journalism in Europe.

The Bosses' Sport Organizations

By SI GERSON

THE bosses are overlooking nothing in their attempt to develop the wave of political reaction against the workingclass. Particularly at this time are they beginning more and more to utilize the sport organizations under their control for strike-breaking, anti-labor purposes. In America this is a relatively new thing. In Germany, for instance, this process has reached a high stage of development. With the formal dissolution of the fascist Storm Troops, the physical backbone of the German fascists have become their sport organizations, of which they have thousands. These sport organizations help to broaden their base-among the youth in par-

In the United States the boss class has begun more and more openly to use the sport organizations under their control for their anti-labor purposes. It is not our purpose to deal with this at length in this article. We merely wish to give a few cases to prove the point.

Some Examples Case No. 1 .- In the fall of 1929 the militant National Textile Workers Union was leading a strike at a woolen mill in Leaksville, N. C. The entire mill struck with the exception of the company basketball team. They formed a strikebreaking nucleus and helped to demoralize the

Case No. 2.-In 1931 there was a strike of shirt workers in the Lesnow factory in New Haven, Conn. Almost the entire mill struck with the exception of the girls company team,

which scabbed. Case No. 3.-In 1931 there was a strike of dock workers in Duluth. The local Y.M.C.A. recruited strike-breakers.

Case No. 4 .- On March 6, 1930, a band of athletes from the University of Wisconsin were gotten together to break up the unemployment demonstration held by the workers of Madison, Wisc., the neighboring town. These athletes, together with the local leaders of the American Legion, etc., finally managed to break up the peaceful demonstration.

Case No. 5 .- Only a few months ago militant students who were on strike against the expulsion of Reed Harris at Columbia, the editor who supported the student delegation to Kentucky, were beaten and mauled by a band of the college athletes.

Case No. 6 .- In the week preceding May 1 1930, Father Walsh, anti-Soviet liar par excellence, spoke at a meeting of 500 at the New York Athletic Club, openly incling them to come down to Union Square to break up the workers May 1 demonstration. (As it happened, the N.Y.A.C. members thought better of it, re-

collecting, no doubt, that the New York work-

ers had put up a fairly good scarp on March 6). The above are just a few cases, chosen almost at random. The above cases, however, taken together with the vicious jingo and antilabor, anti-Soviet propaganda with which most of the boss controlled sports organizations reek, show a whole tendency. If any doubting Thomas still feels skeptical the remarks of Avery Brundage, rich Chicago building contractor and president of the Amateur Athletic Union of the

United States, should quickly dispel his doubt.

Says Mr. Brundage, in appealing to his fellow-

capitalists for money for the American Olym-

pic team (Chicago Tribune, 5-27-32): "It is remarkable that in this unprecedented period of financial and industrial distress there has been practically no disturbing disorder or social unrest. Undoubtedly this is due in a large measure to the training our boys and girls have received on the field of sports.

"For this reason, if for no other, our program of amateur sport, with its high ideals ('Be a good, loyal strike-breaker'-S. G.) and with its lofty standards of sportsmanship, merits the support of every patriotic citizen."

We are disposed to agree in some respects with Mr. Brundage. The capitalist-controlled sports organizations, unfortunately, still have a great influence on the masses of working youth. For Workers Sports

It should be clear to every militant worker that it is necessary for us to have our own workers sport organization. In the United States this organization is the Labor Sports Union of America. This organization should receive the unqualified support of every worker-something which it doesn't as yet. Workers should recruit for it, particularly in their shops. In every shop there are workers who like sports. Tell them about the L.S.U. Point out the difference between a workers sport organization in which workers actually have a chance to develop themselves and the boss-controlled organizations where the masses of workers are sacrificed so that a few "stars" may develop.

Particularly at this moment is it necessary that workers support the International Workers Athletic Meet, to be held at Stagg Field, Chicago, July 29, 30 and 31. This meet will be the wind-up of the Counter-Olympic Campaign, led by the Counter Olympic Committee, the honorary chairman of which is Tom Mooney, the framed-up worker.

Workers - whether sportsmen or not-should give this meet their utmost support!

(Workers interested in getting more information about the International Workers Athletic Meet should write to the National Counter Olympic Committee-799 Broadway, New York.)

Own Progress By GERTRUDE HAESSLER. COMRADES who have been touring the United States recently for various organizations, and

The Soviet Union Relates Its

especially those comrades who have penetrated into the small industrial towns where we as yet have no organizational contacts, report the eagerness with which the workers listen to in-

formation about the Soviet Union.

The rank and file workers, unclass-conscious, inexperienced in the working-class movement, nevertheless instinctively beginning to look upon the Soviet Union as their fatherland. Although many of them do not yet realize that the revolutionary way out of the crisis is the only way for workers, yet they do feel that the Soviet Union holds out a definite hope for them-

as well as those who ar ready beginning to follow us organizationally, look upon any pamphlet about the Soviet Union as something to treasure. They are eager for the information the pamphlet contains and are willing to spend their few pennies for them.

Recently a whole series of pamphlets about various phases of life and activity in the Soviet Union have been published by the Co-operative Publishing Society of Foreign Workers in the U.S.S.R., and are being made available to the workers in the United States by the Workers' Library Publishers, and by the Friends of the Soviet Union. Three of them are dealt with in this article and others will be described within a short time-

"Where the Workers Are In Power." This 58-page pamphlet by D. Zaslavsky gives a remarkable picture of the Five-Year Plan in the course of its development. The contrast between declining capitalist economy and develop-

The auto factory "Stalin," formerly called the "Amo," in Moscow on the eve of May First. The slogan on the banner reads: "The First of May In The U.S.S.R. Is The Celebration of Victorious Socialism," and on the First of May the best shock brigades join the ranks of the Communist Party of the Soviet Union.

ing proletarian or Socialist economy is vividly portrayed. The writer's style is picturesque and

"When the perspective of the Five-Year Plan was first outlined in the Soviet Union, the beurgeois economists split their sides with laughter, so singular and unexampled did this steeply-ascending line seem to them. The ears passed by, and during these years the ther broke off and the smiles froze on faces. The actual curve did not follow

that of the projected graph, but climbed more steeply, almost at right angles-the Pyatiletka in four years, the Pyatiletka in three years, in some branches of industry it was the Pyatiletka in two and a half years. This is not an ascent, but a winged flight, the curve of a banner raised aloft, the curve of youth and prosperity, the curve of hardy manhood, a line of strength and growth."

The chapter headings tell their own story Two Curves, Two Classes, Two Worlds.

From the Old Russia of Thatched Hovels to the Iron and Steel of the Soviet Union. 3. Socialism in the Fields.

4. The Rulers-Work for All.

Equal Wages, Equal Status for Women. The Production of the New Man.

"The Basis of the Technological Economic Plan

of Reconstruction of the U.S.S.R." Lenin said: "Communism is Soviet Government plus Electrification for the whole coun-This is the basis for this 32-page pamphlet by G. M. Krzhizhanovsky, in which he analyzes the three elements that go to make up this formula. It is a theoretical analysis of the forces making for the realization of this formula. The worker who buys this pamphlet must be prepared to do some careful thinking in order to master what the author wishes to convey, but, when he is through with it, he will have a theoretical understanding of applied philosophy; that is, Marxian philosophy applied in

struction in the Soviet Union. "The Fight for Steel."

practice in the development of socialist con-

N. Mikhailov, a worker in the "Hammer and Sickle" metal works in Moscow, writes this 40-page pamphlet on how lack of discipline, laziness and sabotage were overcome in his plant. He writes in the conversational style of a worker. telling the simple story of the struggle to overcome these weaknesses in production-a true 'fight for steel." How the workers themselves planned to harness their own plant into the swift moving chariot of increasing production demanded by the Five-Year Plan is the story.

"The country needs metal. It's quite clear we can't just work any old way. Let's improve the work in the shop by methods of competition." This was the strain of the brief speeches made in the five meetings held to discuss the question of socialist competition.

The rest of the pamphlet, in fascinating narrative, relates how Socialist competition did finally bring about the necessary efficiency. It is the story of a shock brigade in the Soviet Union of workers consciously competing with each other to bring production up to the level required for the security of their country, their workers' fatherland. It is not a story of monotonous successes-it is a story of struggle against difficulties, the sabotagers were at work, the inertia of pre-revolutionary Russia was a terrible drag. But it was also a story sprinkled with lively accounts of holidays, of dancing and singing, of records reached and records surpassed. They have more than completed their quota of the second year of the Five-Year Plan. And the pamphlet ends with this sentence: "The third year begins tomorrow! Forward!"

All three of these pamphlets, imported from the Soviet Union, sell for ten cents.

The next pamphlets to be described will be: HOW WORKERS BECOME ENGINEERS IN THE U.S.S.R., By V. Druzhinin, 10 cents.

THE SOVIET PATENT LAW, 10 cents. THE NATURAL WEALTH OF THE SOVIET UNION AND ITS EXPLOITATION, by I. M. Gubkin, 20 cents.

SOCIALIST RECONSTRUCTION AND THE STRUGGLE FOR TECHNIQUE, by N. Bukharin,

Learn to Answer Questions of Wokers in the Election

Campaign

THE collecting of signatures for placing Com-rades Foster and Ford on the ballot provides us with an excellent opportunity of learning to know the conditions and thoughts of the workers.

When the comrades collect signatures they should never tire of convincing the worker why he should vote for our Party. Our six main demands should be explained. We should learn to listen patiently to every argument of a worker, why he might be against signing our petitions, why he hesitates. We will also find workers who will sign, yet not be ready to vote for our candidates, some who will even be sympathetic but not willing

We urge the comrades to send in their experiences in collecting signatures, the ideas and arguments of the workers that the comrades face and have to answer when they collect signatures. The collective exchange of experiences will help to improve our agitation. We will learn to know how to meet the arguments of the workers.

If we will learn to know and ANSWER the doubts and objections of the workers in signing our petitions or voting for our candidates we will improve our agitation and methods of struggle in the election campaign-WE ASK THE COMRADES TO SEND IN THE QUESTIONS PUT TO THEM BY WORKERS SO THAT WE CAN ANSWER THEM IN THE DAILY WORKER.

We also suggest that discussions be developed in the units on the experiences in collecting signatures. This will help to develop political life and initiative in the units. Of course, it will help in improving our struggles in the elections.
