# NO PAPER FOR TOMORROW'S ISSUE!

All our print paper is gone. Without immediate payment of our paper bill we can get no more. There may be no Daily Worker tomorrow!

Unless a last-minute response to our appeal for funds reaches us before 8 p. m. tonight, there will be no Daily Worker Friday.

The Daily Worker you are reading was made possible only by the response of various branches of the International Workers Order, which brought in a total of \$215.59 to pay the minimum expenses late last night. Donations received by mail and in person added \$316.01 to this sum, bringing the total donations from last Tuesday to Wednesday noon up to \$531.60.

But our paper supply is gone. Trucking and postal charges must be met. The Daily Worker has no millionaire owners, as capitalist newspapers have, to subsidize it from profits wrung out of the exploitation of workers and farmers. The Daily Worker treasury is in your pockets It is the dollars of the workers! Turn them in!

Upon your answer depends the success of scores of class battles, where workers look to your Daily Worker for guidance. The wave of class struggle daily grows stronger, fiercer. The 'Daily' must not stop even for a day.

But the decision lies with you! You can keep it! You MUST keep it. Rush all funds by air, by wire or in person, today, now! To the Daily Worker, 50 East 13th Street, New York City.

It is within your power, and your power alone, to keep the 'Daily' alive. Tomorrow will tell the story of what you have done.

DAILY WORKER MANAGEMENT.

# **Fusion Socialists**

## (Editorial)

M<sup>R.</sup> Norman Thomas, presidential candidate of the Socialist Party, offers Mr. Morris Hillquit as fusion candidate for mayor of the city of New York. What is a fusion candidate? It is a candidate on whom all shades of political opinion agree as an "honest" man. A fusion candidate is to oppose corruption. He is to head an "honest" government for the people by the people.

This is how the capitalists speak of "fusion," and this is how Mr. Norman Thomas seconds his capitalist colleagues. The socialists want Hillquit for a fusion candidate. If he were elected he would be pledged to serve "all the people." But since the people are divided into exploiters and exploited, and since power is in the hands of the exploiters, Morris Hillquit would naturally be their servant and tool.

The chief purpose of a city administration under capitalism is to maintain "law and order." Norman Thomas offers a socialist candidate to maintain "law and order." Norman Thomas believes firmly that again Morris Hillquit is the proper man for the proper job. Perhaps he would appoint Mr. Waldman or Mr. Panken or Mr. Abe Cahan as chief of police. Mr. Hillquit and his "socialist" chief of police would club pickets, lug workers' demonstrations and pack into jail dissatisfied proletarians fighting for higher wages or unemployment insurance. Mr. Hillquit is ready to serve the capitalist masters in evicting unemployed who are incapable of paying their rent.

 $\mathbf{A}$ LL other functions of the city administration under capitalism that equally exist to protect the property of the rich and to keep the exploited down, city taxation, city education, housing laws, city sanitationto be a "good" mayor of a capitalist city, the mayor must do his utmost to help the wealthy squeeze out more wealth of the workers, and to make the workers-in the present crisis-bear all the burdens of an insane economic situation not of their making.

The socialists of America are ready to assume responsibility for capitalism in New York. They are thereby showing that they are ready to support and advance capitalism as such. They have manifested this in ers, these workers promised they would join the strike today. the few cities where they had power like Milwaukee, Wisconsin and Read-ing, Pa. They manifested this throughout the world wherever they were The Union calls upon its members to participate in the picketing and allowed by the capitalists to share in the capitalist government on behalf help to win this strike. The shop is of the capitalist system. located on University Street between

Norman Thomas throws out a life belt to big business in New Yorkand not only in New York. The Tammany administration is utterly discredited. A stench is rising from the very little digging that was done only on the surface of capitalist graft and corruption. The masses are disgusted. Their disgust is fuel on the fire of their revolt against wage cuts, unemployment, lack of relief, capitalist terror and imperialist war preparations. The masses are beginning to declare their dissatisfaction in unmistakable terms. Their upsurge may actually harm the capitalists of New York and the capitalists of the country. Along comes Mr. Norman Thomas and offers a ready remedy.

Let us unite-Hoover, Republicans, Roosevelt, Democrats and the Socialist Party-we socialists offer you exploiters our hand. We are ready to head the alliance. Unite for what? Fuse for what? For what other purpose will the exploiters join hands with the socialists? to effectively carry through the program of the capitalists. Give us power, say the socialists, and we will create a fiction of "honest" government to fool the masses. Give us power and we will keep the onrushing workers in check

Is it not clear that the socialists are assistants to the two major capitalist parties and as lackeys are serving capitalism in the crisis? Socialist workers, what do you say to this servility of your leaders?

though the Relief Marchers are scheduled to arrive at City Hall at 2, all workers are notified that the 150 N. Y. METAL time of the start of the March has been advanced two hours so that WORKERS STRIKE the Marchers will be outside of City Hall while the delegation is inside presenting the demands to McKee. This will necessitate workers Led by New Union: mobilizing at Union Square at 10

a.m. sharp instead of at their local Fight Wage Cut headquarters at 10 a.m.

It is advisable that this issue of NEW YORK .- The workers of the Rex Product Corp. went on strike yesterday under the leadership of the New York Local of the Steel and not be confused. # LANGSTON HUGHES SPIKES LIES ON NEGRO FILM

By MYRA PAGE. (European Correspondent of the Daily Worker.)

MOSCOW, Sept. 7. (By Cable).-The reasons for the postponement of the production of the film of American Negro life are of a purely technical nature, the Meschrabpom Film Company stated today in an interview with your correspondent.

Asked about the rumors spread by American capitalist newspapers to the effect that political reasons had induced the company to abandon the film, Meschrabpom officials declared that, in the first place, the film is not abandoned, but mercly postponed; and second, that there are no political considerations which cou'd persuade the Soviet film company to abandon this project. Work on the film will begin definitely next Spring.

Scoffed at Rumor Film Was Abandoned

JAMES W. FORD

Communist Leader and Candidate for Vice-President of the Uni-States who immediately ted branded as deliberately false the rumors spread by the capitalist press that Meschrabpom had given up its plans for the production of a film of Negro Life in America.

In the meantime, the scenario is being re-written. The Group will continue to redignation at the utterly unfounded races and peoples are free and have treatment and have received a corceive their full salaries as called for by their contracts.

By MYRA PAGE. (European Correspondent of

the Daily Worker.) MOSCOW, Sept. 7. (By Cabl) .- Langston Hughes, leading Negro poet and writer and a member of the Negro Film Group now in the Soviet Union today issued the following statement to the press:

"The film "Black and White," postponed on account of scenario difficulties, will be made in the Spring. Newspaper reports that I and other members of the Newro Film Group are adrift in Moscow without funds are absolutely un-Our contracts and salar'es true. with Maschrabpom continue to October 26. The return passage to the United States is guaranteed. Several members of the Group intend to remain in the Soviet Union. Many have already secured positions here. I plan to

# Illinois Miners' Struggle **Faces Great Danger**

THE tri-district conference of miners' representatives of I Illinois, Indiana and Northern Kentucky which met in Gillespie on September 1 decided to form a new union to be known as the "Progressive Miners of America." The conference was originally called at the suggestion of the Rank and File committee of the miners to unite and extend the fight of the miners against the wage cut, forced upon them by Lewis and Walker.

The rebellion against the wage cutting policy of Lewis and Walker and the formation of a new union expresses the will of the rank and file miners to break with the policies of the bureaucracy which has done untold harm to the miners. The miners have expressed their desire to repudiate and wipe out the policies of Lewis and Walker. We greet the revolt of the miners and the formation of a new union as a step forward in the struggles of the miners. We support the move of the miners to form a union of their own, capable of fighting militantly for their interests.

But the miners must be on guard now. They must keep a watchful eye that this move for a union does not become a means in the hands of some of the "progressive" leaders of the ne wunion to divert them from their immediate task the defeat of the wage cut. The miners want a union that will be a powerful instrument in the fight against wage cuts and not a device for diverting the miners from the fight against the operators, and thus a means to bring about the wage cut.

 $T^{\rm HE}$  danger is real as can be seen from some of the decisions of the conference. The information we have at hand indicates that the conference decided to discontinue mass picketing which was initiated by the rank and file miners themselves. The information we have at hand also indicates that the conference decided not only to organize a conference with the operators but to initiate and carry through temporary local agreements and settlements. Such a move would at this time result in breaking the backbone of the struggle. The miners and the new union would be in a position to ask for a conference with the operators only if the mass picketing is continued and the strike spread. In order to be able to defeat the wage cut and sign an agreement in the interests of the miners the operators must see that the miners are fighting and that the strike is effective. To initiate at this time local agreements means to abandon the fight for the District agreement which the miners had won through years of bitter struggle and which they can enforce with their present number and strength. \* \*

The main task of the Illinois miners and therefore the main task of the newly formed miners' union must be to carry on the strike, to organize mass picketing, to organize for the spreading of the strike, to unite the fight of the Illinois and Indiana miners to organize relief, to do everything possible to win the strike. This is the main task now. He who advises any let up in mass picketing and spreading of the strike is help-ing Lewis and the operators. In order to achieve this it is necessary to form in every pit in every sub district broad rank and file committees of the miners.

The miners must put the new leaders to the test. The attitude of the leaders to the organization and spreading of the strike, to the creation of broad rank and file committees which can lead the fight, is the real test of their willingness to break with the policies of Lewis and

\*

THE information we have at hand also shows that in the early part of October there will take place the constitutional convention of the new union at which a constitution and program for the new unoin will be adopted. Within sixty days there is to take place a referendum vote for the officers of the new union. The rank and file of the miners must insist that their new union shall be based on the principles of the class strug-gle, the test of which is to be found in the present fight. The miners must adopt a militant program. They must reinstate all miners expelled by Lewis and Walker with full rights in the new union. They must put forward and elect officers that are the best fighters and honestly represent the militant program which the union must adopt

The miners must be on guard against Lewis and Walker agents inside their ranks who through radical phrases which are not backed up by deeds will try to disrupt their ranks from within or put through such policies that will bring the miners back where they were before under the dictatorship of Lewis, and Walker. In this connection, it must be

# Scottsboro on the Radio

By J LOUIS ENGDAHL HOLLAND'S radio audience is served by two broadcasting sta-tions. One of these is V.A.R.A. (United Labor Radio Association) controlled by the Dutch Social-Democrats. It was a far cry from the Scottsboro meetings forbidden, broken up by the Socialist police in Germany, to the Socialist invita-

tion to Mrs. Ada Wright in Hol-land to speak over their radio. Thus the Scottsboro appeal was broadcasted through the air for the first time in Europe. TRY TO

CLAIM CREDIT It was clear that this maneuver of the Socialists in Holland followed closely on the heels of the

also. But we were used to them in Cleveland. Not one cop was good

enough to catch any of our old gang when we used to fill pails

and sacks with coal from the rail-

T last we all got together on a

A big lot near Federal Street.

There were thousands of fellows

and girls there and kids too. Singa said they were from Akron or Mon-

esson or Pittsburgh. We all stayed close together because it was some

thing new for us. The Toothless Wonder was pretty calm about it though. "Let's go there where the

fellow is talking." We went up and listened. The

speaker said the police had refused

to give us a parade permit. This made us sore. "Permit or no per-

mit we are going to organize our-selves in lines of six and march."

said the speaker. Everyone let out

a big yell. Lines were formed. We

saw the fellow and the girl who had

come to speak to us right in the front line. Toothless yelled, "Let's

get right back of them." We did. "THERE WERE

There were a lot of cops on horses and cars blocking the way

out into the street. We started to

march. 'The police yelled, swinging their clubs. "Stay back. You can't

march. You've got no permit." We yelled back. "We don't need a per-

mit," and went right on marching. Oh yes, the lots was full of pieces of scrap Iron, bricks, stones, etc.

That was our big break. The po-lice started to ride straight into

us on their horses. The lines broke.

But-did you ever hear of it rain-

ing cats and dogs? Well, those

cops must have thought it was raining bricks and scrap iron. The

air was black. We ran around try-

ing to keep out of the way of the

police clubs-still we stopped to

pick up something and chuck it at

LOTS OF COPS"

road yards and bring them home.

WHEN the Old Orange Avenue gang decided to turn respect-able and join the Hiram House, they had many new things to worry about. One of these was choosing a name for the club; "Orange Avenue Gang" was unfit for the Hiram House. Miss Tracy, the head leader, said, and she ought to know. None of us had ever been further away from the flats around Kinney Steel, where we lived, than Nine Mile Creek or Bedford Glens. So when Charlie Stormhall, who was a Swede, said we ought to call all over the world in small boats, ourselves the Vikings, who travelled a long time ago, we all thought it was a good name. It was pretty lucky for us that we took that name because right after we got our chance to do a little roving, and to find out a lot of new things. This is how it happened.

**"ONE GOOD DEED** A WEEK

We were having our regular meeting at Hiram House. Mr. Schultz, our club leader, had just finished telling us that one of the duties of every club member was to do one good deed d uring the week, and to tell about it at the next club meeting. For instance, earning a nickel or a dime, and giving it to the Community Fund; or taking a blind man across the street or something like that. Us fellows didn't think much of that kind of stuff; we were thinking of the good old days when we were a gang and went skating up Woodland Avenue on the backs of trucks. Just then we heard a knock on the door. Joey Esposito, who was pres-ident, said, "Come in."

## . .

FELLOW and a gir lwalked in. They were about 20 years old and seemed pretty nice, especially the girl. The fellow was O. K. also, not good looking, but he smiled nice. They came up to the table around which we were sitting.

"If you fellows will give us a few minutes of your time, we think we have something to tell you in which you will be interseted," the fellow said. Joey told him to go ahead. Mr. Schultz looked as if he didn't like it, but we didn't care. So the fellow started again.

"There's a lot of clubs from all around Cleveland and Pittsburgh and Detroit and Buffalo who are getting together and arranging what we call National Youth Day. In that day we will protest against bosses' war in which millions of young fellows are killed, ployment insurance, for free food against wage cuts and for unemfor children of unemployed work-ers. Do you think all these things

are worth fighting for?" Well, Toothless's father had lost an arm in the last war, and Jerry's big brother had been killed there, and almost all our fathers had just been laid off from Kenney Steel. Most of us would have to look for jubs when school closed and we knew we wouldn't be able to find any. So we all said they were all right to fight for. **"DOES A FISH LIKE** WATER?"

"Then how would you like to go to Youngstown with us? There's going to be a parade and a big msas meeting, baseball games, track meet, and movies. Will you Vikings be there?' Would we be there? Does a fish like water? The day came around, a fine day, and we all piled on a truck. There were lots of trucks ahead of us. Some excitement! It was 68 miles from Cleveland to Youngstown, and it looked like two years before we got there. But it really took us only two hours. Youngstown! Full of smoke and

precedented The response that swept over Friesland, the northern agricultural district of Holland, however, was a revelation. Friesland was one of the seven original free states of Holland. It is one-eleventh of the country with 400,000 population. As an independent free state it was the first to recognize the independence of the American colonies fol-lowing the war of independence against Great Britain, 1776.

tion of the Independence of the United States, 1785."

On Saturday morning I went into Harlan in the interest of the Elec-

The Reasons for the Maneuvers of the Dutch Diamond Exchange. The meetings at Delft and the Hague were un-

a cop. I'll bet many a cop still has a scar as a souvenir from a Viking. **O**NE cop on a big black horse struck a girl a crack on the head swinging his club downwards all his might. Toothless, who was standing beside me, picked up a big rock and flung it right at the cop. But we weren't the only ones. A lot of others had seen that cop hit the girl. Many rocks joined the one Toothless threw above the cop's head. Down he went off his horse!

The fight was on. But we couldn't stand against the cops all day. They had clubs and guns and blackjacks. We had to give up at last. Any-how the cops learned a good lesson,

we think. "WE'VE JOINED UP!" So had we. Next day on the way home in the truck we discussed the fight. We tried to figure out why the cops acted like that. An older fellow on the truck said the steel workers in Youngstown were mostly unemployed and even those that were working got very little.

clear to the miners that the Musteite elements, who once before engaged in forming a union in which Howat was the leading light, have have great experience in betraying the miners with radical talk. The main task of the Musteites in the whole of the labor movement is to carry on the treacherous work of the A. F. of L. leaders and save the decaying A. F. of L. organizations when the Lewises and Walkers are no longer able . . .

THE miners must examine carefully the proposals of the Rank and File movement and see how only the policies put forward by this movement represents their interests. The miners must insist that the new union shall tarry through joint solidarity actions with other miners' organizations, especially the fighting National Miners Union which has led the militant mass strikes in Pennsylvania, Ohio and Kentucky.

Above all the miners must be on guard against being diverted from their main immediate task-the winning of the strike against the wage

# Mr. Green's "Solemn" Burlesque

THE Labor Day Speech of William Green, head of the American Federation of Labor was filled with solemnities. He "solemnly" "warned" against more wage cuts. He "solemnly" demand, however, that what work there is be divided up-which means wage cuts down to new low levels.

Green also 'solemnly" announcd that the A. F. of L. would draw up and propose legislation for unemployment insurance. What precise provisions the A. F. of L., will propose, Mr. Green left utterly in the dark. He spoke of it only as "a measure," without saying how much or how little benefits in relation to wages the A. F. of L. "measure" would propose that unemployed workers be given. For whether the payments would be made entirely at the cost of the capitalists and their government, or stolen from the wages of the employed.

But it does not matter much, because Green's whole speech was merely a "solemn" pretense. The A. F. of L. does not favor any real unemployment insurance, and has no intention of making a fight for it. In the same speech, Green told how the A. F. of L is "still" "pressing" for the Child Labor Ammendment to the Constitution. Children have grown up and become grey through the decades during which the A. F. of L. has been "fighting" for this paper law, but never has the A. F. of L. carried through any effective actions to stop child labor but supported the capitalist parties and politicians who are themselves employers of child labor Neither does Green now propose that the entire working class be brought into action to force unemployment insurance at the entire cost of capitalists and their government-which is the demand of the Communist Party and the Trade Union Unity League.

Last October Green said unemployment insurance was "degrading," and on July 2, this year, he said "Labor abhors unemployment insurance." So all workers, and particularly the rank and file of the A. F. of L. should understand that what has bitten Mr. Green is not the bug of remorse but the serpent of deception.

Mr. Green and the entire Executive Council of the A. F. of L. are driven into a corner by the sweeping response among the entire A, F, of L membership to the appeal and leadership of the A. F. of L. Trade Union Committee for Unemployment Insurance and Relief, a rank and lile opposition that the Executive Council tried to, but could not kill.

Every A. F. of L. worker will understand that Mr. Green's speech was only a "solemn" pretense. To get unemployment insurance, the workers will have to set up a fighting united front, A. F. of L. and revolutionary workers together and A. F. of L. members will have to fight Mr. Green and all his kind.

ion Campaign and to arrange a unit meeting. When I started to leave, in fact had already gotten on the bus and it had started to leave, the In the news report of Amsterdam demonstration Harlan thugs boarded the bus, took me off and carried me before Sheriff instead of using the initials "I.R.H." (International Roods John Henry Blair, who introduced himsel by saying: "I am the sheriff you have heard so much about and am Hulp), Het Volk deliberately uses just as bad as the Daily Worker picthe initials "I.A.H." (International tures me, here's my card." He then handed me the enclosed card: "Fresh Arbeiter Hilfo, the German name and not understood in Holland).

T is significant that many of the I meetings in Holland were organized by Negro workers now living in Holland, but who had come

from Surinan, the Dutch West Indian Negro colony. A native of In-donesia, the Dutch East Indian colony, also spoke at many meet-ings, thus bringing forward the bloody oppression of colored peoples in the colonies of Dutch imperialism

The Scottsboro Mother's visit to Holland coincided with the wave of indignation sweeping the working class masses of the country over the police murder of the agricultural worker, John DeYonge, during a demonstration against wage reductions for agricultural workers. DeYonge was first wounded by the police and then fatally stabbed through the heart by a police sa-ber. Out of a town of 7,000 population more than 3,000 came to the funeral, with delegations from Amsterdam, Rotterdam, Haarlem, and other cities.

He said that the steel bosses didn't want their workers to see us young workers and kids march and talk about unions and organizing and fighting for better conditions. That would show the workers that they had support. So they gave the police orders to break up our parade. After we got back to Cleveland we elected Toothless president. Bpt Mr. Schultz isn't our leader any more. Because we've all joined the Young Pioneers and the fellow who took us to Youngstown is our leader. And he's one swell leader too.

Letters from Our Readers

workers. And we also appeal to workers to write to and visit their Max Schnapp is now serving a 20-day sentence in Welfare Is-land for leading a jobless demon-stration before the Home Relief comrades in jail once in a while. With comradely greetings, Max Solution Bureau recently.

Welfare Island, N. Y. Dear Comrades:

"It is impossible not to ask," Sir picket lines, as, for instance, Com-Alfred said, "whither does this trerade Morartis of the Food Workmendous procession tend? What, after all, is its goal? What its probers Industrial Union and Comrade Zaliski of the Downtown Unemable influence on the future of the human race?" ployed Council. Nobody comes to visit these comrades, nobody writes

Himself giving a true picture of the cursed capitalist system of so-ciety, Sir Alfred nevertheless finds not a word of criticism against the system. His reported speech fully proves the soundness of the analysis given in the article about the eclipse as to how science and the scientists workers to help save the Daily Worker by giving more and more are serving capitalism for its own' benefits at the expense of the workers in the way of speed-ups and unemployment.

BUILDING A MASS BASE FOR THE 'DAILY'

(Party Life)

#### The Daily Worker will regularly carry a column on Party Life. Party members, particularly from the lower units, trade union fractions and fractions in mass orbest or the first medium with ganizations are invited to contribute to this column. We especially urge the membership in the factory units to write of their work and problems. The column growth of the Party if the experican be made a living force in the ences in the practical mass work will find expression in it. Ad-

dress your contributions to Party

A<sup>T</sup> a Section organizers' meeting in District Two, which took place Sept. 1st, the question of the Daily Worker was discussed. The

discussion revealed that in most of the sections there is still a great underestimation of the importance and the role of the Daily Worker in the present day to day activities. Some of the statements made were quite inaccurate. For instance:

1. The Daily Worker does not reflect the struggles in the neighborhoods.

2. The Daily Worker is not the

which to approach shop workers. 3. Daily Worker Committees in the Sections are not necessary. One comrade will do the job. NEIGHBORHOOD NEWS Let us take the first question: Does the Daily Worker reflect the struggles in the neighborhoods? Certainly it does. Look over at least a few recent copies of the

Daily Worker and they will find full pages of news. Also the comrades forget that the Daily Worker is a national paper and cannot concern itself exclusively with New York news.

APPROACHING THE SHOPS

Can we approach shop workers with the Daily Worker? To this experience gives up only one answer, that if some comrades did approach workers in the shops, and did not get results, the fault lies in the way the comrade made his approach

Let us have no illusion that this is an easy job. It is very difficult. Only by persistent work, day after day, will we be able to develop the sale of the Daily Worker in the shops. We have begun this work

but this is only a beginning. One more thing should not be forgotten, worker correspondence. Comrades should understand that letters to the Daily Worker on the specific conditions in the shop are of prime importnace. Only

corresponding groups in the big shops will we make the workers read the Daily Worker, and make the

Daily Worker not only a Communist paper, but a mass paper of the workers.

### DAILY WORKER COMMITTEES

Are Daily Worker Committees necessary? What is the Daily Worker ap-paratus in the Section?

In most of our Sections one in-experienced comrade is assigned to the Daily Worker, and this comrade in most cases is piled up with other functions. As long as this attitude is taken to our Party Or-

activities is taken to our Party Or-gan, the Daily Worker will make little progress. What should be the apparatus of the Daily Worker in the sec-tions? This is, however, not only a section affair. It is the concern of every individual Party membra of every individual Party member

The section Daily Worker committee should be the co-ordinating group for all of the units and mass organizations in its etrritory. It should check up and see that the and are able to record some results. numerous opportunities for bringing the Daily Worker in front of the workers are used. It shall see that the units follow up every reader and draw him closer to th revolutionary movement. It shall assume responsibility for a shop them even a line of hope. What is the matter with our survey of its territory and see that the units carry on Daily Worker comrades? Since when do we for-

activities at these shops SUPPORTING GROUPS

This calls for every Party memmoney, not only because the Daily Worker is our only means of conber taking responsibility for the building of workers' groups in the mass organizations, A. F. of L. test with the struggle, but be-cause it is the leader of all of us unions, on a neighborhood basis, etc.; to support the Daily Worker.

To be able to interest workers in these groups means that we must correct our own atitude on the Daily Worker first.

"The struggle against militarism must not be postponed until the moment when war breaks out. Then it will be too late. The struggle against war must be carried on now, daily, hourly." LENIN.
