> Demonstration BULLETIN

YORK. - The American Committee for Struggle Against War is sponsoring a mass protest meeting this Thursday night at Irving Plaza Irving Pl. and 15th St. as part of its work of organizing effective anti-war actions against the imperialist wars now raging in South America and China and the growing danger of transition of these wars into a new world war. All workers and antiimperialist fighters, all persons op-posed to war, are urged to attend this meeting at which plans for further anti-war actions will be discussed by prominent speakers of North and South America.

The Nanking Chinese Government has denied the capture by the Japanese of Chiumenkow Pass, according to latest news dispatches from Peiping. The dispatches quote statements by Chinese military commanders that a fierce battle is now raging at the pass, with Chinese regular troops joining the volunteers in resisting the Japanese invasion of Jehol The Japanese forces are supported by tanks and bombing planes and are advancing on three fronts in a sweeping movement to envelop Jehol Province.

President Hoover is reported asking Congress to authorize an embargo on munition shipments. The em-bargo is apparently directed against the imperialist rivals of the U.S. and against China, the imperialists evidently fearing that their Nanking puppets may be unable to stem the rising mass anger and resistance to the partition of China by the imperialist bandits. Hoover's message calls for co-operation by the "principal arms manufacturing nations' to forbid shipments of arms.

PROTEST PING'S TORTURE THURS.!

Call Demonstration at Chinese Consulate

NEW YORK.—Scores of working class organizations in the city are preparing to mobilize tomorrow at 5 p.m., at the Chinese Consulate,

13 Astor Place, for a demonstration against the imprisonment and tor-ture of Huang Ping, Secretary of the Chinese Federation of Trade Unions. Because Huang Ping refused to betray his people and has been or-ganizing mass resistance against death and hunger, he is being seared with red hot irons, beaten and tortured by Chinese agents of the imperialists. He was arrested on January 4 in Peiping by Marshal Chang Hsiao-liang, the right-hand man of the Standard Oil Company, and dic-

tator of North China. The demonstration will be followed by a mass meeting at 8 p.m., Friday, at Irving Plaza Irving Place and 15th

Street.
At Friday's meeting, James W.
Ford, former Vice-Presidential candidate of the Communist Party, Louis Thompson and William Simons, sec-retary of the Anti-Imperialist League, will report on the results of their visit in Washington on behalf of Huang Ping. All three are in the capital now protesting to the Chinese

The demonstration and the meeting are sponsored by the Trade Union Unity Council, the International Labor Defense, and the Anti-Imperialist League.

WASRINGTON, Jan. 10.—A delegation protesting the imprisonment and torture of Huang Ping, seretary of the All China Federation of Labor,

of the All China Federation of Labor,, visited the Chinese legation in Washington today.

The delegation demanded the immediate unconditional release of Ping and Paul and Gertrude Ruegg, sentenced to life imprisonment several months ago for their anti-imperialist activities in defense of the Chinese People

People.
The delegation included William Simons, of the Anti-Imperialist League; James W. Ford, Communist candidate for Vice-President in the ecent national elections, Eddie Royce of, the Workers International Relief, Dohen of the International Workers Order, and Louis Thompson of the International Labor Defense.

NEW YORK .- Intent upon making the workers bear all volt is still spreading through- the burdens of the capitalist crisis, the bankers of Wall Street out Spain. The police and the have as their supervisor of fake relief activities in New York civil guard (militia) are unable City the craftiest representative of Finance Capital.

At the same time he permits corporations with which he is finment is concentrating all its energies on desperate efforts to keep the ers by the thousands. Gibson's finholdings extend throughou and metal workers in all key indus- the length and breadth of the land, In his speech at the plenum (full session) of the Central Committee of the Communist Party of the Sovtermination to safeguard every penny of the wealth he and his friends have taken from the workers, Gibson has helped to spread starvation and misery to all corners of the United States.

"Mental Honesty"

Gibson's leading associate in the fake relief campaign is a notorious agent of the power trust and the merciless enemy of the working class. As head of the Brooklyn Division of they know of in the workers' ranks the drive, John C. Parker delivers while concealing the losses suffered speeches to YMCA clubs on "mental honesty." Three months ago, Parker fired thousands of workers from the Brooklyn Edison Company of which he is president. In concocting the scheme to dupe

both the employed and unemployed workers, Finance Capital invoked the aid of its political wing in New York, the ruthless Tammany machine. And Tammany put forward for this task two of its tried and trusted henchmen, Frank C. Taylor and Edward

The groundwork for the conspiracy

to force the employed workers to provide all the relief for the jobless and the destitute of New York City was laid in the offices of J. P. Morgan and Company on August 26, 1930. To get a clear understanding of

this action, it is necessary to review briefly several significant happenings prior to the mentioned date. Soon after the Wall Street stock market woset, thousands upon thousands of men and women were thrown out of work in New York City to swell the surplus army of unemployed-an army inherent in the capitalist system. At once the capitalist crisis started

STAGGER SYSTEM ON GIBSON JOBS

Needle Trades Jobless in Hot Struggles Over Outrageous Swindle

NEW YORK .- The Gibson Committee, by a conspiracy with the garment bosses in which the corrupt officials of the Amalgamated Clothng Workers and International Ladies Garment Workers played a part, is putting through the stagger system, the 70-hour week and starvation pay, and discrimination against Negroes on its Red Cross cloth jobs.

The Gibson outfit secured 5,000,

000 yards of cloth to be worked on as part of its emergency work pro-

It immediately began secret nego tiations (which, however, were partially exposed) with President Du-binsky of the International, and Potoffsky of the Amalgamated. A gar ment boss named Katoff was appointed to officially manage the cut ting of the cloth. Dubinsky and Potoffsky propose

that they make the contract to provide the cloth, and run everything. Jobless Take a Hand

There the Needle Trades Unem ployed Council stepped in, defending the interests of vast numbers of un employed needle workers that the was leaving out in the cold while Dubinsky and Potoffsky used Gibson cloth to build their union machines

By repeated delegations and dem onstrations, by mass pressure, the unemployed council forced granting of jobs to about 250 workers.

Then it discovered the discrimination against Negro workers, and by another mass demonstration the next jobs to Negroes. However it was reported yesterday by the unemployed council that there is evidence of only one Negro worker get ting a job so far!

Potoffsky Grabs His

Meanwhile delegations of workers from Amalgamated controlled shops at 1316 East New York Avenue and other places working on jobs for the Gibson committee reported on slave conditions to the Needle Trades Unemployed Council. Workers in those shops are paid \$7 to \$9 a week for 48 to 70 hours' work. In addition, Potoffsky takes out of their pay enments and 40 ments more for dues.

Staggering Furthermore, four weeks after these jobs started, the shops began to fire five workers a day, saving it was "to make room for others."

It is clear that the bosses (and the Amalgamated) are getting the cream of the Gibson funds. The bosses are getting thousands of dollars of "relief money" for the rent of the shops. And the exploitation of the workers is terrific. At one of the seventeen Gibson shops, 28 Schermerhorn Street, Brooklyn, the work is done in a basement, If a worker com as in one minute late, she is docked half a day's pay. Workers are not allowed to talk to each other

in the shop. Yesterday General Organizer Hoff-man of the Needle Trades Unemployed Council went to the Gibson committee assistant manager, Apple ton, at 209 Sullivan Street, and protested the stagger system, the dis-crimination against Negroes, and the exploitation of the workers on this 'emergency work.'

Hoffman was told the Gibson com mittee knew all about the exploitation but "couldn't do a thing." As for the stagger system, Apple-ton bluntly stated that the Gibson

committee was going to put it through on the workers. Hoffman laid before the Gibson agent the demands of the unemployed council, for the workers now at work to stay on their jobs, and for the Gibson Committee to provide relief for the others, whom it

now proposes to "stagger."

Tomorrow, Thursday, needle
workers will demonstrate in masses
against the Gibson stagger system, for cash relief to single workers, for jobs for Negro workers, and for jobs for family men—without red tape or discrimination. The nstration starts with two mass meetings, at 2 p.m. . One meeting will be at 131 West 28th Street, and the other at 10 West 36th Street. From the mass meetings the denionstrators will march to the office of the Gibson committee at 23rd Street and Fourth Avenue.

Weinstock Speaks to Senate Committee

WASHINGTON, Jan. 10. - Louis Weinstock, in an hour's address be-fore the senate sub-committee on manufacturers, made a complete exposure of William Green and the officialdom of the American Federation of Labor and the Black Bill which they support. This was, according to newspapermen and others in the audience, the most impressive statement yet heard by the committee The Black Bill under the pretense of putting into effect the 30-hour weel really provides for the legalization of the wage-cutting stagger system.

Weinstock followed Lovell of the Brotherhood of Railway firemen, who predicted a strike if the Black Bill or a similar bill is not passed.

Would Frame Weinstock Senator Black, trying to shield the abor agents of Wall Street who are rying to put over his bill, closely questioned Weinstock in regard to his trade union membership. It was obvious that Black was trying to lay the base for action by Green and the American Federation officials against Weinstock to try to get him out of the union.

NEW YORK-Local 490 (paperhangerts) of the Brotherhood of ers did not, as stated by error in yesterday's Daily Worker, adopt the relief program proposed to it by its elected committee on unemployment

At its meeting Monday night, the Zausner and Shapiro machine was present and well organized, and the proposals were turned down and the whole question of relief left to the officers, who have never done anything for the jobless members, and never will unless they are forced to do so by the rank and file. The officials promise; the rank and file demand they keep their promise

The proposals were for unemployed nembers to register in the day room of the local, and for committees to take them to the Home Relief Bur-eau and Emergency Work Bureau and demand attention for them.

The Left Wing Opposition in this ocal points out to the rank and file that hereafter, unless they want the clique to put over things like the rejection of these proposals, all rank and filers must come to the meetings and be prepared to struggle for their demands.

PUTILOV PLANT TO MAKE PASSENGER CARS

The first plant in the Soviet Union to make tractors, the famous Red Putilov Plant in Leningrad, is now going to try its hand at making highpowered passenger cars. The new machine, designed by Russian en-gineers, has been named the L-1. It s a seven-passenger, eight-cylinder car with 100 H.P., and a top speed of 70 miles per hour.

It will embody the last word in modern automobile design, having compensated clutch, automatic synchronized transmission with silent second, and torsional vibration damper on the crankshaft. The springs will be equipped with driver-controlled shock absorbers.

The extent of the task is appreciated when we recall that a tractor has 700 parts, while the passenger car will have 5,500 different parts. The Putilov Plant will have to turn out new types of spring and silchrom steel and will have to do accurate cold-drawing of bar stock down to 1-100 inch in diameter in order to

handle this new job.

Pistons, differentials and other parts have already been made, while chassis, gas tanks and radiators are now under way. The annual capacity of the plant is estimated at 20,000 passenger cars.

This represents a new advance for Soviet technique in one of the most highly-skilled branches of metal acturing. Congratulations!

Stalin reviewed the striking sucsses in the creation of iron and steel bases, in machine construction, aviation, generation of electricity, etc., and pointed out that the result was the final, irrevocable ousting of the capitalist elements and the creation of socialist industry as the sole form of industry in the Soviet Union.

Summarizing the industrial results, Stalin said that the Five-Year Plan three months by 93.7 per cent, with the volume of production tripled in comparison with pre-war and more than doubled in comparison with 1928. In heavy industry the Plan has been fulfilled 108 percent. The failure to realize the full 100 per cent of the industrial plan was due to the fact that the "refusal of the neighboring countries to sign non-aggression pacts and the complications in the Far East made it necessary for us to switch a number of weapons of defense for the purpose of strengthening our defense." This switching resulted in the interruption of industrial production and affected the plan for months, ex-plaining the fact that the general

dustrial plan has been fulfilled only 93.7 per cent. On the other hand, Stalin pointed out: "This operation resulted in fully making good the defects in the defensive capacity of the country. By L. LEWIS. ERIE, Pa.—The Eric Press of Jan. 3 Dispatch brought the news that over four thousand families are facing eviction in the city of Erie. The Poor Board has announced that even the miserable relief which is now given out, amounting to 60c per week, per head, will be cut down and no rent money will be paid. \$400 Monthly for Dietician.

The city officials have now hired a special dietician to pay him \$400 month. His work will consist of vorking out a menu on how to keep the unemployed workers on a starving level and still keep soul and body together.

Of course this starvation diet is meant not only for the unemployed workers of Erie but for the employed workers as well. It aims to cut the vages to the bone and to show that they can get along on this starvation

The Unemployed Council is calling mass protest demonstration on Jan. 12 to protest this wholesale eviction and to demand relief.

vember 25, Mr. Flore, General President of the union, said " and the union has 65,000 members in the U.S." General Secretary Hasketh in the September issue of the Catering Industry Employee (Convention Proceedings, page 35) stated, "our membership April 30, 1929, was 39,394, showing a decrease during the period of three years of 11,339." In the same issue, page 10, we read, "on information received from the office of the secretarytreasurer of the International Union, June, 1932, that our memership at that time was 25,863 and the membership of the International Union was represented by accredited delegates at this convention is 15,042...." It shows a continuous decrease of the membership. Why then, does Mr. Flore exaggerate?

It is in line with the recent conention of the International at Boston that "we must be optimistic." The fact is, he is lying to cover up the explusion policies of the Cincinnati and local garas, against those who present a militant program against wage cuts, and against those who cannot pay the dues, despite the fact that many of them carry a membership book for 18-20 years.

In the hotel and restaurant industry, where there are over a million workers, only 15,042 were represented. Has Mr. Flore any excuse for that? Yes, apparently, In the same issue of the "Catering Industry Employee" ("President's Page"), he said, "To strive for a higher standard of living with millions of unemployed surrounding us would be almost a hopeless task. Mrs. Madge Argo, the Illinois International organizer, informed us in the October issue of the same journal (page 7) "I have found men working for \$1 a day, seven days a week, sixteen hours a day at cooking, washing dishes and porter work." Mr. Flore blames the unemployed for not having the industry organized. Mr. Flore, you are a liar! The unemployed, in spite of your sabotage, are organizing and are fighting. You are trying to convince the membership to take more wage cuts and not to ask for better conditions. But it seems, Mr. Flore has a

program for the unemployed, the bosses' program. In the same issue he said, "we are advocating the shorter workday and week in order that there may be employment for all." Mrs. Madge Argo, in the October issue, page seven wrote: found cases where they (the workers) just work for their meals." Moreover, the Illinois cook is to work eight hours a day, seven days a week and his wages will be 50 cents a day. The New York chambermaid who work for \$30 a month to be paid \$15 a month. Is it not the same program proposed by Mr. Teagle and is put in practice in the Manger Hotel (now Taft) where Mr. Flore stays when he comes to New York? But why does he speak about organization now? In the same issue of "Catering Industry Employee, he wrote, "workers and dependents cannot, and will not, stand idly by and starve while food and other necessities are in abundance around them. There is limit to their endurance. is worrying that the workers in the hotel and restaurant industry will organize, and if they organize without the Cincinnati gang-McDevitts Lehmans, etc.,—they will ask for a higher standard of living to come out of the bosses' profit, and not as he proposes that the workers must shoulder the responsibility of un-

Deported for Abandoning White Chauvinism

TODAY the U. S. Department of Labor will take August Yokinen, Finnish worker, put him on board ship and deport him from the United

Behind the deportation of Yokinen is a story of struggle lasting for a year and a half—a struggle of the militant workers against race prejudice within their own ranks, a struggle against the U. S. government which swiftly came to the aid of race prejudice and national hatred. The working class can draw three important lessons from the Yok-

The first is that the Communist Party is correct in its relentless fight on all chauvinism-feelings of "white superiority"-within the ranks

of the working class. The Yokinen case shows, also, that under the leadership of the Communist Party, white toilers can be educated out of the race prejudice with which the forces of capitalist education have imbued them and can become convinced fighters for complete equality for Negroes.

Finally, the Yokinen case throws a glaring spotlight on the Jim-Crow role of the U. S. government and, in this case, its Department of

August Yokinen is a member of the Communist Party. In March, 1931, he was publicly expelled for prejudice against Negro workers. Yokinen, as a member of the Finnish Club in Harlem, had failed to make workers welcome at a dance at the club. Later, he stated that he did not wish to associate with Negroes intimately and on terms of

The Communist Party decided to bring Yokinen to trial—a public trial that would educate the workers in general, and the Negro masses, as to the meaning of race-prejudice and that it would make clear the position of the Communist Party on the struggle for Negro liberation.

Several thousand people attended the mass trial which expelled Yokinen from the Party, until he could prove that he had overcome his attitude. By this trial, the Communist Party did two things. It made clear the anti-working-class character of race prejudice. Second, it showed that it will not tolerate any form of race prejudice within its own ranks and will fight tooth and nail to root it out of the working

At the trial, Yokinen acknowledged that in succumbing to the influence of race-prejudice, he had committed a crime against the working class. He pledged himself to the struggle for Negro rights. He began to study the problems of Negro liberation. A few weeks after his expulsion, he was one of the leaders of the first Scottsboro parade in Harlem.

The government answered Yokinen's pledge-with an order of deportation. The very day after the trial, he was seized by agents of the Department of Justice and held in jail. He was asked to repudiate his Communist views. He refused.

The U.S. Circuit Court of Appeals, in upholding Yokinen's deportation, said frankly that it was Yokinen's promise to overcome his anti-Negro attitude that led to his deportation. The decision said: "Yokinen was charged with white chauvinism and tried by a mass jury of his party, found guilty and expelled. It is enough that the alien Yokinen pledged himself to perform certain tasks prescribed by the Communist Party in order to secure reinstatement. On this ground the relator is

In November the U.S. Supreme Court upheld the Jim-Crow order of deportation. Thus the government and its courts showed themselves to be true upholders of the system of national oppression of the Negroes and of that race-prejudice whose purpose is to keep the workers divided.

COMRADE Yokinen since his trial has been persuaded by the Communist Party to reconsider his attitude, to study and to take active part in the struggle for Negro rights. And just before his deportation, Yokinen made the following declaration which gives the workers a splendid example of how a sincere revolutionist-admits and corrects his

"I have been ordered deported. Only after I had denounced the race hatred that capitalism breeds, and pledged myself to carry on a relentless fight against this race-hatred, did they find me an 'undesirable alien'. If I had been a coward or if I had gone contrary to what I believed to be true, I would not have been deported. On the contrary, the bosses would have received me with open arms.

"I am thankful that I have been one of the many millions of workers who have carried on a relentless struggle for the freedom of the nine innocent Scottsboro boys, whom capitalism wants to murder in cold

"The Communist Party wages a bitter fight against race hatred. The Communist Party will not tolerate race discrimination. A Communist must be true to his Party and carry out its principles n words but in deeds. I have carried out

would rather be deported than be false to them and lose the trust of my comrades. Without reservation, I trust and believe in the Communist Party and all its principles, including the principle of complete economic, political and social equality for the Negro masses. The deportation of Comrade Yokinen again shows in all its hide-

ousness the despicable policy of American imperialism in trying to force foreign-born workers to accept without protest or struggle its whole hunger and war program. The capitalist class and all its agents hate and fear the growing unity of Negro and white, foreign-born and nativeborn, employed and unemployed, men, women and youth in the struggle against hunger and wage cuts. They see in this unity the seal of their own doom and they fight against it.

In answer to this deportation there must be more determined united fights against deportation. Such outrages must be stopped and can be stopped by relentless struggle against capitalism and mass defense of its intended victims.

United Fight Against Labor Racketeering

THE fight initiated by the Negro workers in the American Federation of Labor locals against racketeering in the building trades is an emphatic repudiation of the lie that Negro workers are held back by fear from fighting on their own against the tyranny of the bosses and the abuses of their agents in the unions. This particular vile form of labor-faker racketeering—the extortion of money from workers under threat of depriving them of work, and the forcing of workers to slave below scale-aroused the Negro workers in Local 10 of the International Hodcarriers and Common Laborers, and started the exposure. While pretending, under mass pressure, to fight racketeering, it was evident that the A. F. of L. officials were trying to sabotage it and prevent a complete exposure, by hiring a lawyer who would do what he could to prevent the facts coming to light.

The workers, Negro and white, seeing this trick, repudiated him and came for aid and guidance to the Trade Union Unity Council. The results was the building of a united front against racketeering, against the rous and grafting officials, against the bosses and their Tammany

The fight is being raised to a higher stage and there is joint action gainst not only the racketeers, but against jim-crow practices and discrimination against Negro membership in the A. F. of L. building trades inions. The job on which this racketeering took place is the jim-crow arracks of the 369th Infantry regiment at 143rd Street and Lenox Ave., where there is to take place a mass demonstration at 8:30 this morning inst the whole program of jim-crowism and racketeering. On that sis, in the actual struggle, there is being cemented a closer unity of legro and white workers against the common enemy.

Scrip Plan Is Fought by C.P. in Milwaukee

By FRED BASSETT-BLAIR

LREADY the bath houses in workers' neighborhoods are beods; social centers will be "stag-gered" like the bath houses. Though ases of pellagra are appearing among workers on the relief list, though influenza and pneumonia are on the increase, the Health Department is cut. The "city of good sewers, clean streets and alleys," as Hoan used to praise it, has cut the appropriations for these items from 25 to 40 per cent. The budget slashes in all departments will be at the expense of the workers in them-the highly paid big officials will not suffer wage-

The health and living standards of Milwaukee workers cannot help suffering from such drastic cuts as are being put through in sanitation, health and other depart-ments; while their cultural and recreational facilities also suffer

The School Board is cut almost 10 per cent—meaning wage-cuts for the teachers, refusal to give free hot lunches and milk to the children.

NOTHER institution of "muni-A cipal Socialism" in Milwaukee is the city attorney's office—now run by Max Raskin, elected on the Socialist ticket. He has many other Socialist lawyers, including William Quick, whose son is a prominent Ypsel, assisting him in prosecuting unemployed workers for fighting for bread. The city attorney's office receives a raise of

Six million dollars of the budget goes to pay interest and principal on the city's bonded debt—to the "must be paid" by the Socialist leaders, who loudly shout at Wall Street-while they recommend, along with their non-partisan friends, most drastic cuts in items affecting the workers.

To sum up—the debate on the scrip system and the proposed city budget of Milwaukee for 1933, bring to light several important things for the workers:

The city government is passing into a state of bankruptcy-"Municipal Socialism" did not save it from the fate of other large

2) The Milwaukee bosses, through their Socialist-controlled city government, are preparing drastic wage-cuts for city employes, are intending to lay off thousands of public workers, are giving up all pretense of "unemployment relief." At the same time, they are linking up the attacks on the city workers with the attacks against the standards of living of all workers in Milwau-And the Socialist officials propose and carry through their

3) The health, living standards, cultural and recreational facilities of the working masses (the boast of Milwaukee "Municipal Socialism") are to be attacked for the sake of saving taxes for the big bosses and the wages of the higher

4) The city is going to dispos sess thousands of small property holders for delinquent taxes-to expropriate them brazenly in order to spare the big property holders and the high officials.

5) The bosses expect the workers to struggle against these attacks, and are preparing their forces of repression-police, courts,

6) But open terror will not be enough. The "beneficial influence" of the Socialist Party leaders, particularly Mayor Hoan, their most influential one, must be main-tained, and his salary even must not be touched, to make sure of his lovalty to the bosses

Upon the Milwaukee Communist Party rests the task of mobilizing the workers and small property holders against the infamous scrip system, and the intolerable conditions that are bound to result from the budget slashes in the items affecting the lives of the workers. The Socialist Party leaders, and the leaders of the A. F. of L. have completely accepted the bosses' program of starvation and terror. The bankruptcy of Milwaukee "Municipal Socialism" is now exposing itself.

Only the Communist Party will give leadership to the workers in resisting these attacks of the bourgeoisie and will carry out the task of defeating them. It calls upon the rank and file Socialist workers, and supporters of the Socialist Party, to desert the traitorous leadership" of Hoan, Raskin & Co., and join in a united struggle against the bosses and their agents to fight the budget cuts in social services to the workers, and the

Technocracy: Aid to Capitalism in Crisis

By BILL DUNNE.

TECHNOCRACY is peculiarly a I doctrine of the technically trained section, now largely disinherited by the economic crisis, of the middle class. Yearning for its former privileged position in industry and the social structure, a small group of the more articulate of these engineers have worked out a formula by which they hope to restore the economic bonds with the capitalist class. They seek to prove to capitalism that without more power being given to technicians, epitalism is in grave danger, that only the engineers can save capitalism. CREATE NEW ILLUSIONS

Technocracy today is chiefly valuable to the capitalist class in creating new illusions as to the possibility of peaceful ways out of the crisis towards a society of leisure and plenty. So acute is the capital-

ist crisis, so clear is it becoming that the capitalist solutions tried. have failed and others are doomed to failure, that the press agencies of capitalism and the ever hesitant but hopeful middle class are impelled to grasp at anything that seems able to postpone the day of final accounting.

This is today one of the points which make Technocracy of use to capitalism in the fourth year of the world crisis.

TECHNOCRACY leaps to and I holds the front page. Cartoonists of the capitalist and middle class press weave it into their drawings. Almost overnight it becomes "big news." All sections of the press of capitalism devote columns of space to the statements of its leaders, to dispute over it, to explanations of it, to support of or opposition to its analysis, predictions, claims and

Another point which makes Technocracy valuable to American capitalism is that it rejects, derides and slanders the only force which today challenges and is a menace to capitalism-Marxism-Leninism. It. performs the same service for American capitalism in regard to the only country in the world where Marxism-Leninism and its theory of the state has been victorious the Soviet Union-the only country where, in the building of Socialism, the unity of technicians and manual workers is being con-

AGAINST "ALL POLITICAL

In his official statement published in the Living Ave, Howard Scott, theoretical leader of Technocracy, comes out categorically against all political systems "beginning with Aristotle and up to and including In an article in the November

issue of the New Outlook (Al Smith's magazine) which gives an exhaustive description of the theory of Technocracy and quite obviously written with the approval of its publicity bureau, the statement is

"Our present system, it tells us, is fit only for the same museum in which are housed the pathetically inadequate political and economic theories of Plato, Marx and the great host of other diagnosticians and prophets who could not conceive of such a highly industrialized society as that in which we find ourselves today and Fascism, Communism and Socialism are likewise wholly inadequate to cope with our problem.' Further:

"Technological advancement in the past twelve years has definitely shattered all social theory, from that of the ancient Greeks through Karl Marx up to Veblen.' And again: "Russia, with its much vaunted

Communism (only liars or idiots claim that the system in Russia is Communism, which is classless society (B. D.) is but a slight variation of the American price system . . . with 92 per cent of its population tillers of the soil, with meager technical facilities and "more musicians than technologists." as Mr. Scott expresses to inaugurate an industrial era under a Communistic price system of production with insufficiently developed energy resources and inadequate personnel. It was forced to call upon the outside world for technical assistance to set up in Russia obsolescent factories from an obsolescent price

"Russia, in its Parthian retreat from capitalism," says Scott, "has scored but a Pyrrhic victory. It mistook the name tag of a phase of the price system for its entirety. It left the tag and took its essential mechanics. A social approach based upon the substitution of a Hegelian dialetic for an Aristotelian dialetic may be an interesting intellectual pastime but of no functional importance, an example of the recrudescence of philosophic futility of European tradition." (This is the language of paranoia. -B. D.).

Still again: "This physical concept and energy yardstick transcends all political doctrines. When applied to the North American continent they reveal clearly that communism, socialism, fascism and other political systems are entirely inadequate to cope with the needs of a new state of civilization."

ISSUE BETWEEN CAPITALISM AND COMMUNISM.

Since socialism is a transition stage to Communist society and fascism is a method of capitalist dictatorship it is clear the issue is between capitalism and Communism, that is, Marxism-Leninism, the Marxism of the period of imperialism, of "the period of wars and revolutions", as Lenin put it. It is clear that whereas, in the literature of Technocracy capitalism escapes with a criticism of its inability to take full advantage of technicians, "energy sources", and modern technological processes Communism and the Soviet Union receive the heaped up measure of scorn and, are the real target at which the Technocrats aim - with their aim given the greatest possible accuracy by such modern technological processes as are used in modern printing plants owned by capitalists.

THE contempt which Technocracy evinces for political systemsbut especially for the proletarian state,-a contempt implicit in all its publicity—is likewise a method of trying to discredit the Communist party program and tacticswhich point out and prove that the capitalist ownership of industry and natural resources is maintained by political power, that is, the capitalist state, "the executive committee of the capitalist class. (The state is nothing but a ma-

"THE BOLSHEVIKS ON TRIAL" BEGINS IN ANNIVERSARY ISSUE

THE first installment of "The Bolsheviks on Trial," a fascinating account of the methods the Bolsheviks when caught in the net of the czarist police, will begin in the Special Anniversary and Lenin Memorial Edition, this Saturday, Jan. 14. This edition will contain a num-

ber of important articles, including: "Leninism and War," by Earl Browder; "Nine Years of the Daily Worker in American Labor Struggles," by Bill Dunne; "Leninism and the Growth of Socialism in the Soviet Union." by M. J. Olgin: "The Socialist Press in the Service of Capitalism," by H. M. Wicks; and "The Study of Leninism in

America," by Sam Don. The special issue, which will be illustrated with photographs and cartoons, will also contain hitherto unpublished excerpts from "Memories of Lenin," by Krupskaya, as well as "Outstanding Events in the Life of Lenin," compiled by Alexander Trachtenberg.

chine for the suppression of one class by another-this, in a demoeratic republic no less than a monarchy-Engels "preface to Marx" Civil War in France.)

All revolutionary experience has proved that criticisms of capitalism accompanied by ridicule and denunciation of the Communist program and tactics-Marxism-Leninism—are merely disguised attempts to assist and strengthen capitalism. It is a method of demagogy used by both fascists like Hitler and social fascists like Kautsky, Hilferding, Bauer, Henderson, Brockway, Hillquit and Thomas to cheat the growth of Communist influence and preserve capitalist illusions among the working class forces.

This is necessarily so because Communism (Bolshevism) is acknowledged by the capitalist leaders themselves to be the only real enemy of their system

MARX POINTED OUT CON-TRADICTIONS OF CAPITALISM.

It was Marx and not Technocrats who first pointed out the inescapable contradiction of capitalism. In the Critique of Political Economy

"At a certain stage of their development, the material forces of production in society come into conflict with the existing relations of production or-what is but a legal expression for the same thing-with the property been at work before. From forms of development of forces of production these relations turn into their fetters THEN COMES THE PERIOD OF SOCIAL REV-

OLUTION. (My emphasis.) It is this revolutionary Marxian conclusion from increasing permanent mass unemployment, from the crisis and the misery, from the evidences of the decay and decline of capitalism, that the Technocrats are aiding the capitalists to hinder workers from drawing and acting

THE COMMUNIST PARTY has I no quarrel with engineers as engineers, but it will do all in its power to stop a campaign which is designed to set the engineers and technicians off from the working class, to enlist them permanently upon the side of the capitalists, to prevent their being won for the social revolution as many of them have been and others will be. But it must be said that while the engineers cannot make a revolution without the working class, the working class and its allies can make the revolution without the engineers. It would prefer to have them on its side but they are not decisive in determining the relationship of class forces. WHAT CAUSED CRISIS.

It is not the machine, electrical and chemical processes, or the marvelous technique of modern industry that has caused the worldwide mass misery in the United States and other capitalist and colonial countries. These factors are not responsible for the stagnation and decay of capitalism.

It is the ownership, bulwarked by the suppressive machinery of the capitalist state with its propaganda agencies, its police, troops, arsenals, etc., of these machines and the natural resources by the capitalist class, that is responsible.

To change all this is a political act to be carried through by the working class headed by its Communist Party. To change all this in favor of the working class requires "social revolution". Technocracy does not like Marxism because of its proletarian revolutionary content.

In trying to divert attention from these basic facts of the revolutionary struggle of the American working class by its sneers at "European political systems," meaning Marxist-Leninism, Technocracy serves capitalism well. This accounts for the way the avenues of capitalist publicity have been opened for even its most absurd statements.

(Articles on other phases of Technocracy will appear shortly.)

WHOLESALE LYNCHING IN THE SOUTH

"IM, you got him?" He nodded, gasping for breath. The wo-man pressed the blanket into his "Here, provisions. Be off, His eyes cast wildly around the "Whar's - whars?" Morgan shoved him through the doorway. "Safely buried ... Run, man, soon they'll have the bloodhounds. Make fer the havstacks till nightfall. We'll blur the trail.' As his foot-steps grew fainter. disappeared, the children and their elders smeared salt pork over the door-stoop and up the path in the

direction he had gone. "Now, Ellie, we'll make off." But it was too late. The sound of motor cars and barking dogs drew rapidly closer.

Charlie, Myrtle-you all we got If you love your Mammy, hide thar till I tells you to come out.'

Uncle Ben placed his shot gun on the kitchen table. As the mob surged around the shacks, Ma Morgan stepped out upon her door-stoop. "What you-all want?" she demanded. Her face was yellow, drawn, but her figure stood erect, "Mebbe you come to see what that Haines bastard did to my gal?" Pa Morgan stepped close

The crowd snarled, surged forward. Only a few wore masks. All of the business section of Greenville had been mobilized, as well as the mill and county sheriffs. "We come fer that nigger. Whar is he?" Two men in dress suits jumped on the door-stoop. "He ain't here, 'n he ain't been here,' she told them.

"That's a lie. You god dam nigger, we'll make you talk!" Pa Morgan raised his shot gun, but it was smashed from his hands, and twelve men bore him to the ground, kicking at his ribs, head, and sexual organs. As his wife bit desperately at the wrists of his assailants, a white man with a curse brought the butt end of his gun down against her skull. Screaming, Myrtle and Charlie rushed from the cabin, Grabbing his father's

banjo, the boy swung it to right and left. It jangled faintly as its battered sides were grabbed and tossed aside.

Whipping out his revolver, one sleek-haired youth fired rapidly into the four prostrate bodies. A half-dozen grabbed at his arm. "Wait, you fool. They shouldn't die so easy." Uncle Ben bound but not gagged was tied to the rear of a Packard. As the car tore over the road his body dragged, then jolted in the air. Curses and drunken yells broke upon the sleeping country-side.

"Hell, the woman's done fer, 'n the brats too ... Now fer the nigger." Those remaining behind ransacked the other cabins and swore at the dogs which found it hard to pick up the scent. A shack was fired, but the sheriffs soon smothered the blaze. "You blasted idjits Doan you know this here is mill property?!"

THE motor party, finally tiring of I their game, bore Uncle Ben's dying body to the woods-the very woods in which seven hours earlier he had stumbled on Martha's body. Should they hang him or him, they argued among themselves. Finally a rope was tossed over a limb and around his neck.
"Now pray, you gol dam nigger. Pray." Popped against the trunk, his eyes closed, Uncle Ben pressed his lips together. "Then dance, you black-faced devil." They drew their guns. When he did not move they fired at his legs, breaking his shins. With a moan, he tipped forward. "Here, quick, or we'll be too late." The body was tossed too late." The body was tossed aloft, and Uncle Ben Morganbanjo picker, mill hand, and storyteller-kicked feebly, then hung limp while bullets rained into his face and sides.

Jim, however, robbed the mob of their prey. When the dogs had once more picked up his trail, and he found fifty armed, frenzied men closing in on him, and his gun emptied of all but one shot, he turned the last on himself. "You'll never hang this nigger," he yelled,

'On the Chain Gang' -- a New Pamphlet by John L. Spivak

ON THE CHAIN GANG, by John L. Spivak. International Pamphlet No. 32. Price 5 cents. Reviewed By HY KRAVIF.

N his novel, Georgia Nigger, which was published serially in the Daily Worker, John L. Spivak gave us an unforgettable story, documented and containing startling photographs. Without resorting to the fictional medium, in a new pamphlet. On the Chain Gang. Spivak gives a first-hand account of conditions which he personally witnessed-and has evidence to prove-of the tortures Negro workers are forced to endure. It is the first pamphlet about the unspeakable chain gang. This old Southern institution is

used to keep propertyless Negroes -and whites too-enslaved under one pretext or another. They ar thrown into forced labor to the profit of the state, private landowners or industrialists. Once on the gang, sickness, disease, the killing pace, nothing is permitted to interfere with the execution of the labors assigned them. For "talking back," "fussing with meals," physical inability to perform 'task," or for any number of similar reasons, these workers, mostly Negroes, are forced to endure almost unbelievable tortures and are even murdered.

To some of these tortures Spivak gives graphic description when he writes: "I saw the Spanish Inquisition of 300 years ago. I saw men chained by the neck like galley slaves. I saw men with mon-strous bayonets riveted around their feet so they could not sleep without waking when they turned. I saw men trussed up like cattle ready for slaughter and ants crawling over their helpless bodies. saw men hanging in stocks such as the Puritans used in their cruelest days. I saw men broken on the rack as they broke them under the Spanish Inquisition.

"I saw these things and photographed them—not in a forgotten dungeon in ancient Spain, but in the United States—in Georgia this year of our 'civilization' 1932!" The sweat box stockades, the poisonous swamps in which the chain | City

tions which Spivak depicts are not peculiar to Georgia alone, a foreword by the Labor Research Assn correctly explains. They prevail throughout the South, an established institution of capitalism to hold poor Negroes in submissi-

Workers are aware of the fact that only the Daily Worker and other working class journals have ripped the lid off these horrors. The entire capitalist press, significantly, has remained silent in the face of Spivak's unanswerable evidence. On the Chain Gang, therefore, should be given the widest possible distribution. It is No. 32 of the International Pamphlets, 798 Broadway, New York City, and sells for only five cents. Bundle orders may be obtained from the Workers Library Publishers, Box 148, Station D, New York City.

The Story of Joe Abrantes, Tampa

CONDITIONS are hard for the tobacco workers in Tampa, Fla. Here is what happened to Joe Abrantes. Born in Cuba in 1895, he was brought to America by his parents one month later. He never left the U. S. until December, 1932, when he was deported as an "undesirable alien." Why? Because of his militancy which led to his being arrested twice, the second time in September, 1932, resulting in his deportation after three months in jail. He left behind him a wife and three children, one six months old, one six years and the third aged eight. They remain in Tampa supported by the few dollars which the other tobacco workers are able to scrape together for them.
