# NEW YORK WORKERS WILL SCORE SCOTTSBORO LYNCH VERDICT TODAY AT UNION SQUARE MEET AT 6 P.M.

# Pour Into Union Square!

Haywood Patterson, innocent Negro boy, is in the hands

They have decreed that an electric chair shock shall drive agony through his eyes and brain, burning out his life.

They have resolved that they will shatter the lives of the nine innocent Scottsboro boys with the chained lightning of the electric chair.

American capitalism from the industrial masters of the North to the plantation slave drivers of the Southern American Congo, bares its hideous brutality, declaring with ruling class arrogance "The bodies of these niggers belong to us, even as the bodies and souls of all the Negro people and toiling masses belong to us. Rise up against us if you dare."

The masses of humanity, the oppressed Negro people, the enslaved workers of the world are ready to accept this challenge of the ruling class masters! We fling back into their teeth our unconquerable resolution, "Haywood Patterson shall not die! The Scottsboro boys must go free!"

Today, at Union Square, named in commemoration of that bloody civil war which was to emancipate the Negroes from their slavery, we gather, black and white, in unbreakable unity, to shake in the face of the imperialist money lords the iron fist of an enraged people.

# The N. A. A. C. P. and the Lynch Verdict

THE savage verdict of the Alabama lynch court, which again sentences to death Haywood Patterson, the first of the Scottsboro boys to be retried, has aroused unprecedented fury among Negro and white workers. There is today an elemental upsurge to stop the hand of the executioner and liberate these boys who have already suffered two long agonizing years in the shadow of the electric chair.

The monstrous verdict has aroused thousands of people in the ranks of the professionals, the intellectuals and petty-bourgeois elements who add numbers and strength to the growing mass movements to free the Scottsboro boys. If ever there was or can be an issue on which can be mobilized united front action it is this one. The unsurge of the movement itself impels into united front action all honest elements, including many of those, who in earlier stages of the struggle, doubted the effectiveness of the International Labor Defense policy of mobilizing mass

sentiment and mass action to save the Scottsboro boys. But no demands for united action, no peril to the lives of these boys can cause the leadership of the National Association for the Advancement of Colored People to abandon their policy of doing everything in their power to aid Southern lynch justice carry out its foul plot to murder these No matter to what shocking extremes the rul in subjection the millions of Negro toilers they can always rely upon these, their good and faithful servants, to try to shield them from the blows

At a time when the whole world knows that these nine boys would long ago have been destroyed by bolts of chained lightning had it not been for the relentless struggle of the Communist Party and the International Labor Defense, the directors of the N. A. A. C. P. again come forth and repeat their attacks upon the defense.

The New York Times of yesterday morning reports that the N. A. A. C. P. feels that "a different verdict would have been obtained had not the Communist Party entered the case." Continuing, the statement says:

"It feels that the only remaining hope for the boys is to remove from the already overwhelming prejudices which militate against them the additional burden of Communism.'

Yes, such action would be a glorious victory for the lynch fiends! The N. A. A. C. P. proposes a "new" defense for the boys-one under their leadership, one of their kind. This is an effort to do what the white lynch gang has tried to do and failed-eliminate the one organization, the International Labor Defense, which has thus far prevented the murder of these innocent victims of one of the most monstrous frame-ups

The N. A. A. C. P. showed how well protected the boys would be under their tender mercies when they offered them the services of the notorious Southern lynch lawyer, Stephen Roddy, who urged the boys to plead guilty to the charge contained in the infamous frame-up. Had such counsel been followed there would today be no Scottsboro case-except that it would be recorded on the records of the legal lynchers that nine more Negro youths had been butchered. It would only have been another "incident" in the long record of systematic murder as a part of the ruling class policy of holding in chains and silence the millions of Negroes in this country, had not the International Labor Defense stepped in and called

The N. A. A. C. P. added to its other infamies praise of the "firmness and fairness with which Judge Horton conducted the trial."

Is any more damning evidence necessary to expose on whose side this organization of reformists really stands?

Those who defended the boys through two years' struggle, those who snatched them from the hands of the executioner are denounced, while the lynch judge who serenely sat and listened to the bestial ravings of

the prosecutors and who himself will pass the death sentence upon these victims of lynch justice is praised as a "fair man". The fairness of this Horton who put forth his jim-crow and lynch

policy to the jury in these hypocritical words: "We live together in peace and tranquility between the white and Negro races , . . but we want to protect the peace and tranquality of our section."

It is precisely from such a standpoint that the N. A. A. C. P. proceeds. They join Judge Horton in striving to maintain conditions of jim-crowism, lynch terror and suppression unaltered. It was William Pickens, field organizer of the N. A. A. C. P. who more than a year ago

came to the aid of the Southern capitalists with this infamy: "Let the white people of Alabama sit up and take notice: this Communist sapping through the densely ignorant portion of the colored population, while not immediately menacing to government it-

certainly menacing to good race relations." "Good race relations", says Pickens!

"Peace and tranquility", says Judge Horton! Herein we see unity in thought, in expression of the white lynch judge and the Negro capitalist servants against the toiling masses of Negro and white. A unity that is only concerned about inciting the blackest reaction against those who have shown that they alone are pursuing the only policy that has thus far saved and can finally liberate the Scottsboro victims-the organization of nation-wide and world-wide mass

As against this foul betrayal the Negro and white masses must close their ranks, work incessantly to bring into ever more decisive action all organizations and individuals honestly concerned with saving the Scottsboro boys and carry on the struggle until they are free

# W. Z. FOSTER ON THE I.L.D. to Seek Trial Delay DECATUR VERDICT

The following personal note from Comrade Foster to Comrade Stachel, acting secretary of the Trade Union Unity League, shows Comrade Foster's feelings upon the receipt of the news of the Scottsboro verdict. His statement, "By God, how I wish I were able to get into the fight," should be replied to by redoubled activity by all workers in the struggle to save the boys. Comrade Foster's note follows: "Dear Jack:

"Just two words on Scottsboro. That statement of Leibowitz (Patterson trial) was tragic, endorsing the chief lyncher Horton and condemning the Southern masses indiscrim-

"These statements will be used against us in the gigantic struggle ahead, both in the courts and among the masses. Surely our Party statements will disassociate us from that trash and put all these matters in their true light.

"By God, how I wish I were able to get into the fight. Never had the Party such a great opportunity. But it is just impossible. Again this morning I got a fresh jolt. I simply got deadly sick when Esther read me the Times story of the verdict. I dare not talk about the matter. All I could do was to flee at once from the house and go out on the boardwalk, where I am writing this. It goes to show that I simply must not try for the present to concern myself too closely with the fight. The excitement just overwhelms me. Isn't that hell after all these long months.

recommended. Perhaps it will steady my ruined nerves a bit. In spite of all I think I am making progress but it is discouragingly slow.

Yours.

HARLEM LIBERATOR TO ISSUE SPECIAL EDITIONS ON LATEST SCOTTSBORO CASE DEVELOPMENTS

By CHARLES ALEXANDER.
NEW YORK.—Beginning today, the Harlem Liberator will issue a series of special editions on the latest developments in the Scottsboro case and the tremendous upsurge of the mass defense movement evoked by the new lynch verdict against Haywood Patterson. Today's edition will give special attention to the rapid development of the defense activities in Harlem. It will deal in detail with the protest meetings and demonstration in Harlem and the growing mass sentiment for a mass march on Washington to present demands on President Roosevelt for the unconditional and safe release of the Scottsboro boys.

Other special editions will be issued as events develop. All persons interested in the fight for Negro rights and against the Scottsboro lynch verdicts are urged to report at the Harlem Liberator office, 2149 Seventh Ave., this evening, to help in putting the paper on sale throughout the City of New York.

The significa that the bank crisis is not over. It has proposed farm-mortgage and a home-mortgage relief bills. It has proposed a plan to "insure" bank deposits of Federal Reserve banks. The sum total of all the recent developments is that the administration has definitely indicated that it is planning to combine deflationary measures with an inflation program.

The administration calls its proposals "reflation." But the essence of its acts is inflation. The essence of the administration proposals is a forced expansion of credit through various financial and budget maneu-

that it is really inflationary. Where will the funds come from? They certainly cannot come from increased government income. The budget crisis grows, and the deficit is greater than ever. The money necessary to guarantee interest payments on these mortgage bonds, will ultimately require currency expansion.

The bill is loudly advertised as bewho is having his life savings wiped foreclosures, is to refinance his mortgage so that his interest payments "relief" program. The bill The small home owners are being crushed by mortgages. A real relief program would provide for complete cancellation. Roosevelt reduces the burden from 6 to 5 per cent, and guarantees the profits of the rich investors. This he calls a home relief to the capitalist class and an indirect attack upon the people.

The Roosevelt government also has proposed an issue of two billion in government farm-mortgage relief bonds. These bonds will be exchange-able for farm mortgages. The holdable for farm mortgages. ers of farm mortgages will be able but the act is directly inflationary

Meanwhile the preparations for inflation go on. At the same time that Roosevelt slashes the wages of Federal employees, because of a supposed drop in the cost of living, he makes plans to raise the prices of farm commodities through the farm allotment bill. The Administration has already indicated that it plans to follow its deflationary acts by a program of raising prices, or inflation. The Senate Agricultural Committee has already gone on record as favoring inflation.
