ROOSEVELT'S INDUSTRIAL RECOVERY LAW ENACTED TO BEAT DOWN WORKERS' STANDARDS, INCREASE LAY-OFFS

Rose Pastor Stokes

The workers of the United States and their revolutionary Party have lost a heroic comrade and fellow soldier of the class struggle. Rose Pastor Stokes is dead. She died yesterday, after a long and painful illness, as the direct result of a blow of a policeman's club received three years ago in a demonstration against the American im-

perialist invasion of Haiti. This was a woman of the revolution. In the story of her life is mirrored much of the history of the modern labor movement of this country and of the formation and growth of that American revolutionary Party of the working class which is destined to overthrow American

After the formation of the left wing section of the Socialist Party, Rose Stokes was inevitably drawn into it and became a member of its executive committee participating actively in the struggle to win the rank and file of the Socialist Party for affiliation with the Communist International. In the organization of the Communist Party in September 1919, she became a member of the Central Committee of one of the factions of the then divided party. The prosecutions by the Federal Government, by which was attempted the destruction of the revolutionary Party, involved her, and she was the first American indicted under the war-time sedition laws. She was convicted at Kansas City in 1918 and sentenced to ten years in Federal prison, a sentence which was never served She was indicted again for participating in the formation of the Communist Party in 1919, and once more as a participant in the convention of the Communist Party in Michigan in 1922. During the period when the Communist Party was outlawed as an illegal organization, Rose Pastor Stokes functioned practically without intermission as a member of the Central Committee. From her earliest days in the revolutionary movement, Plese Pastor Stokes was a persistent and beligerent fighter for the bringing of the Negro masses into the revolutionary movement and for a struggle against the persecution of the Nego people. In the Communist Party she, in 1921, undertook this as her special work

The revolutionary working class of America and its Communist Parhonor the memory of our Comrade Rose Pastor Stokes. The history of the American revolution will give a splendid page to her.

But the lesson of Rose Pastor Stokes' life and death is a lesson of action, not of mourning. Let us not forget the way she died-victim of the murderous violence of the capitalist police of the metropolis of American imperialism! The lesson we learn from this revolutionary comrade is the lesson of courageous, persistent, unrelenting class struggle against that class which she hated and which the American masses will overthrow. On with the fight! Honor to our fallen comrade!

Yes, Raises, But for Whom?

It is only by accident often that the truth comes to light about how "wage raising" schemes will really work under the industrial recovery act. The New York Edison Company on May first actually raised wagesor rather salaries of its executives 40 per cent. But in order to keep the correct balance, envisaged by the Roosevelt scheme of things, the wages of the workers were slashed 8 1-3 per cent.

To keep matters even still further within the Roosevelt "plan" of (and higher profits for the bosses) tel main on a higher level than they were during the very hey-day of the so-called Hoover "prosperity" period.

The facts about this wage rise (for the fat-salaried executives) and the wage slash (for the workers) were not broadcast in the ballyhoo statements of General Hugh S. Johnson, chief director of the Industrial Advisory Board under the Industry Recovery Act. It is only indirectly that such things are made public. In this instance they were brought out through a petition presented to the New York Public Service Commission by the Retail Dry Goods Association asking for lower electric

The New York Edison Co. is one of the J. P. Morgan-Owen D. Young corporations, and we know that this policy will not be restricted to the electric company workers in New York The same bosses who thought up this balanced scheme of raising wages control the leading steel industries, oil corporations, have huge interests on the railroads. Their ramifications go on down into a large slice of other American industries.

New York Edison made \$5,000,000 clear profit out of this wage slash. In every industry, every shop, especially in the basic industries where schemes like this will dominate, under the guise of "raises" only vigilance, organization and resistance of the workers can ston them

The Staff for the Industrial Control Act

Under the provisions of the Roosevelt "industrial recovery" bill there has been selected a board that includes the recognized outstanding labor exploiters of the country. General Hugh S. Johnson, administrator of the act, is an army man, a former chief of the notorious labor hating Moline Plow concern. His chief advisers are people like himself. Among them are Alfred P. Sloan Jr., head of the General Motors Corporation, director of the DuPont Powder concern, the Pullman company, the Chase National Bank; Walter C. Teagle, head of Rockefeller's Standard Oil of New Jersey, one of those on Morgan's "favored list"; Gerard Swope, president of Morgan's General Electric company, director of the Radio Corporation of America; William J. Vereen, former president of the American Cotton Manufacturers' Association, and president of a cotton mill slave pen at Poulan, Georgia.

Each of these names and the concerns they represent conjure up pictures of ruthless use of police and gunmen against the workers. Company unions, spies and provocateurs, and the frame-up are some of the weapons they have all used and use today to try to crush every vestige of organization of workers to struggle against low wages, long hours, the speed-up. There is not any semblance of real labor organization permitted to exist in any concern any one of them have ever had anything to do with.

Also on the "labor" advisory board to enforce the industrial slave bill of Roosevelt are such people as William Green, president of the American Federation of Labor, who has used his position to fight on the side of the ruling class against all attempts of the workers to resist the hunger drive of the capitalist class and its government; Sidney Hillman. president of the Amalgamated Clothing Workers, who has for years been known for his class-collaborationist policies against the workers of the men's clothing industry. All the others of the "labor" section of the board are of a similar calibre

It would be ridiculous to imagine that these "labor leaders" will attempt to persuade the employer representatives of the most powerful finance capitalists in America to abandon their traditional policy of hostility to labor. On the contrary, their whole past is the guarantee to the employers that they will be loyal servants of the bosses and the goyernment in carrying attacks against the workers to more victous stages.

'Exemption of Minimum Wage to Learners Provides Loopholes to Exploit Negro Workers at Lower Wages; Widespread Share-the-Work System Will Follow the 40-Hour Plan

WASHINGTON, D. Jobless Scramble for Garbage A couple of roustabouts appeared with a barrell of garbage meant for the swine. Instantly a large crowd of homeless men made a grand rush for the mess. The homeless men made a move forward with old tin cans that they had salvaged on the circus grounds. All of a sudden one of the bosses appeared. "Hold on there," he yelled to the two men. He took a large pail of dirty dish water and dumped it into the dis-carded coffee. "What did you do carded coffee. that for?" said a spectator. "You ought to be ashamed of yourself." He went home with the under-standing that he was not to return to work until the next morning. But around 5 p. m. we grew busy, so the boss telephoned him to come to work He objected, stating that he had only five hours sleep in two days.

The boss shouted: "If you don't report within two hours, you needn't come in again. I can get hundreds of good men who would jump at the chance of getting your job."

Because he had a family to support, he came to work, looking very tired and wornout. During the course of the evening, the boss kept referring to the telephone conversation. Finally the worker could not stand it any longer, and when the anger that was keyed up within him surged to the boiling point, he became so outwardly infuriated that he grabbed the boss by his collar and shook him shouting, "Shut up! you slave-driving bastard. Out of this the waiters are paying 25 cents a day back to the boss, out of which the boss is paying the three bus boys as keep money. This leaves the 30 workers 8 cents a day, and the boss gets the balance of about 50 cents that is left

after he pays the bus boys.

The waiters must buy the coats of this restaurant, \$4 each, with no guaranteed length of time to have the job. Many of them are fired in a week's time. Our earnings are from \$1 to \$2 a day, mostly for 9½ hours of work, on Saturdays and holi-

days 12 hours.

The waiters have to wash the glasses, silverware, windows and cleaning for a number of hours with no extra pay. The food we get is rotten. At 11 a.m. we get a cup of coffee and a piece of bread, some days we don't get even that. At 2:30 p.m. we are served with a meal that is uneatable. Lot of us throw it

We ought to talk the matter over and organize to get better condi-tions. The Food Workers' Industrial Union is the organization that will back us in this fight.

> Wages Outside of the Coordinator Act One of the so-called concession made to labor in the coordinator bill was that wage questions would not be handled through the machinery set up by the bill, but would go through the regular channels of mediation and arbitration under the Railway Labor Act. The roads responded to the President's generosity in the matter of rebates and reduced interest payments by adding 71/2 per cent to their previous wage cut demands, which called for a 15 per cent slash in 1932. If the workers allow this question to go to mediation they will surely find themselves saddled with a cut considerably in excess of the 10 per cent "deduction" under which they are suffering at the present time.

Lay Offs In No Way Safeguarded The second "victory" which the railroad brotherhoods hailed in the amendments to the coordinator bill, was the fact that no more than 50,000 and have not only carried out their jobs could be cut under the coor-threat in the case of Godel, but were dinator in any one year.
