Herald Tribune Admits Growing Resistance of Parade Under NTWU Negro Masses to Unparalleled Poverty, Mass Leadership Is the Misery and Unemployment

Harlem Described as the "Hungriest, Unhealthiest, Most Depression-Ridden Section in Greater New York"

By CYRIL BRIGGS

With its Negro population segregated and victimized by rent-gouging hite and black landlords, discriminated against in public construction work and other jobs and in relief, Harlem is admitted by the Herald-Tribune (Sunday, Oct. 8) to be "the hungriest, unhealthiest, most depression-ridden section in Greater New York." In Harlem "there is more misery and despair than may be found in any other neighborhood of the city." Of its

total Negro population of over 300,000 only 12,000...are at present employ-ed." With unemployment has come "the attending evils—infant mortal-ity, disease, undernourishment — the same evils that poverty brings to white people, but in greater degree." What are the reasons for these ad-

missions by the capitalist press which habitually hide the misery and oppression of the Negro People? The answer is: the political awakening of the Negro masses, the growing influence of the Communist Party in Harlem and the increasing radicalization of the Negro masses, responding to the correct leadership and program of the Communist Party of ruthless struggle against all forms of discrimination. The Herald-Tribune fearfully admits the growth of Communist influence in Harlem:

"... the Communists have met a considerable degree of success. Educated and uneducated Negroes alike are becoming more vocal in their demands for professional, and in many cases, social equality."

Fills Bosses With Dread

It is this that fills the Herald-Tribune and its masters, and their Negro tools, with fear. They see the toiling Negro masses and many members of the professional classes resng to the revolutionary program of the Communist Party. They see huge crowds attending the Com- ment at 2330 Tilden Ave. cheering rallies.

Situation Tense As Police Continue Terror Against 18,000 Striking Cotton Pickers; Strikers Plan Mass March

TULARE, Cal., Oct. 11 .- The cotton pickers' strike is tense today as six strikers have been murdered on the picket lines and twenty strikers wounded including two women. Two strikers were shot down in Porterville, three in Bakersfield and one in Arvin by the large farm owners and their gunmen. The shooting occurred after the strikers defied the threats of the armed owners and their night riders

by mass picketing and parades. Joaquin Valley cotton pickers are determined to win their demands. The slogan of the strikers is "not an ounce of cotton for less than a dollar a hun-dred pounds." The pickers are now receiving starvation wages of sixty cents a hundred pounds.

A mass march of three thousand striking cotton pickers to Bakersfield, the county seat of Kern County demanded relief for the strikers from the county and immediate release of the prisoners. A mass march will take place today on Visalia, Tulare county seat, to demand the release of twenty strikers arrested and charged with first degree murder. The strike stands solid in the face of the district attorney openly calling for lynch law and calling on the large farm owners to take the law into their own hands. Relief is urgently needed the strikers.

William Carlos Williams

WHEN somebody writes the future history of the pioneer beginnings of proletarian literature in America, I am sure William Carlos Williams will be somewhere large in the table of contents.

We have hitherto taken a sectarian attitude toward such writers, I believe. They have had no breath of Communism or revolution in their work. Williams has never written about a strike or a labor union. What he has done, however, is to reflect as in a faithful mirror the raw powerful force of the unorganized American worker, and the horrors of the slum life he leads. You feel this violence and chaos in the poetry of Dr. Williams .

It is realism of the most severe kind. This author has been a practising physician in New Jersey for many years. He seems to be a specialist in the delivery of babies to proletarian families. He writes of all such tragedies with the scientific eye of a physician.

What separates him from the revolutionary writer is that he has no sense of organization, and no profound vision of the future. He sees the American worker as he is today, and can't believe that this is not a vision of eternity. But even the rocks change, and the American worker is chang-

Some critics (bourgeois) call this propaganda, other critics (proletarian) realize that to do this and yet retain the whole truth is one of those feats of balance possible. only to the greatest artists.

Dr. Williams has recently been changing and seeking new paths for literature. He is acting as a kind of godfather to a new magazine of proletarian short stories, called "Blast."

A sketch of his, "Jean Beicke," leads the first issue. It is another clinical report on proletarian bables, a study in the poor sick abandoned brats who are left on hospital doorsteps these dark depression days.

This doctor has an immense pity for these kids:

"One poor little pot we have now with a thin purplish skin and big veins standing out all over its head had a big sore place in the fold of its neck under the chin. The nurse told me that when she started to undress it, it had on a shirt with a neckband that rubbed right into that place. Just dirt. The mother gave us a story of having had it in some sort of home in Paterson. We couldn't get it straight. We never try What the hell? We take 'em and try to make something out of them.

"Sometimes, you'd be surprised, some doctor has given the parents a ride before they bring the child to the clinic. You wouldn't believe it. They clean 'em out, maybe, for twenty-five dollars they maybe had to borrow, and then tell 'em to move on. It happens. Men we all know, too. Pretty bad. But what can you do?"

That is just what affects Dr. Williams-what can you do? Many younger writers look up to William Carlos Williams-in certain Parisian groups he ranks with Gertrude Stein and James Joyce-and any judge of the honest and solid event in literature must concede the primitive integrity of this man's reporting....

But what can you do? He has seen the proletariat at their worst But what can you do? He has seen the proletariat at their worst and if life is to go on like this, he hates life. But he knows there is would the dung of a dinosaur, which, under chemical analysis, could reveal

Pipe Lines, Bayonne

There are other good things in this new magazine, the best being, I think, a skech of Bayonne, by a young writer whose name I've never seen, P. T. Turner. It is short but has a revolutionary bitterness and realism. Its values have that clear-cut authenticity you recognize at once. This author knows what he wants and what he hates.

Just another picture of capitalism at work in its attempt to stop change. A Communist organizer has been shellacked by oily Rockefeller's police. Spitting blood in the flush bowl of his cell, the young organizer reflects on a statement by Norman Thomas:

"If everyone could present his cause with charm and grace, there would be less bitterness and more clear conflict. War of the mind, courteously conducted, is the great need of our days."

It amused H., the young organizer. He reflected. Charm and grace -the political bedroom method of struggle. "Bayonne, town of oil pipe lines, carried blood and oil in pipes that morning on the 29th of December last. And H. spat heavily into that flush-bowl because he would organize the hungry."

Not a great story-only another brick in the big skyscraper of proletarian literature all of us are building.

"Blast" looks as if it might become a good magazine. It needs to cheer up somewhat, less of the passive despair and drabness, more of the fighting spirit. Life may be tragic, but for a revolutionist it is never drab.

THURSDAY, OCTOBEE 12, 1933

Irrefutable!

T is now five days since the Daily Worker published its startling exposure of Nazi murder plans and espionage under the leadership of "The Friends of New Germany," the central Nazi organization in America.

Up to the present moment there has been no affective attempt to prove that the charges made by he Daily Worker were not true.

The capitalist press is united in suppressing the contents of the letter of "The Friends of New Germany," which discussed plans for infecting the Communists now on trial in Leipzig with syphilis germs and for hanging someone else in the place of the Dutch imbecile tool, Van der Lubbe.

The New York Times on Tuesday saw fit to mention, in passing, the Daily Worker expose. But, as we have already pointed, only for the purpose of seeking to throw doubt on the authenticy of the document. Nowhere were the contents of the Nazi letter described!

Even the Broadway columnist, Walter Winchell, writing in the New York "Mirror," observed yesterday that he "can't understand why none of the gazettes here didn't borrow the Daily Worker scoop of the other day-and reprint that amazing letter intercepted from Nazi agents here ...

Perhaps Winchell can't, but we can understand

As the Daily Worker has revealed, Albert H. Wiggins, former chairman of the board of directors of the Chase National Bank - one of the two largest banks in the world-at a recent meeting of bankers (not reported in the press, of course) urged financial ssistance to Nazi Germany. Wiggin had recently returned from Germany, where he had gone to arrange for guarantees for American investments in German bonds.

Thus we are given an insight into the mainsprings of the U.S. government policy toward the Nazis, and this policy is, of course, reflected in the capitalist

THE NEW YORK TIMES on Tuesday declared that Heinz Spanknoebel and Werner Haag, Nazi leaders here, "denounced in detail as a forgery and libel a

letter circulated by the Daily Worker." Where are the details? What is the concrete proof that this letter is a forgery? Why doesn't The N.Y. Times publish this proof?

Both the letter published on Saturday and the one which appeared in yesterday's Daily Worker are authentic. Let there be no question about that! We have presented our evidence of the hideous Nazi murder plans and their espionage activities. It is up to those who challenge the genuineness of these letters to prove their case-a task which will indeed be impossible.

Today we publish a document showing : w the bloody hands of the Nazis have extended to the united States, and how they are conducting a campaign to mobilize German workers employed in this country in the slave Nazi "unions."

These documents are authentic-and unanswerable!

COMMUNISTS do not have to resort to forgeries to expose the terror regime of the Hitlerites. Even the "Brown Book of the Hitler Terror," gotten out by a non-Communist group on the basis of painstaking investigation of Nazi activities, has also been denounced as a "forgery." This is the reply to be expected from the bestial Hitlerites and their apologists.

Hillquit was a Socialist Party leader of the type of Kautsky, theoretical leader of the Socialist Second International. His political development from Centrism, which is merely the protecting of opportunism under the cloak of revolutionary phrases, to downright counter-revolutionary hatred of the Soviet Union, to participation in organized movements in opposition to all true revolutionary action of the working class, parallels almost exactly the similar degradation of Karl Kautsky.

Until his degradation from revolutionary Marxian Socialism reached its culminating betrayal in his service to the counter-revolutionary White Guard oil well owners, in his historic visit to the White House in April, 1933, where he praised Roosevelt for his "fine" handling of the unemployment problem, in his praise of the N.R.A. slavery codes. In one of the very latest things that he wrote, in

the 1933 official election handbook of the Socialist Party, he said of the N.R.A. slavery trap:

"It gives the workers a chance to raise wages reduce work hours and increase employment. It facilitates collective bargaining with the employers, tends to check fraudulent company unions, and outlaws the infamous yellow dog contract "

It is no wonder that the capitalist class found Hillquit of such great "usefulness."

Hillquit preached to the workers that they could not hope to go the triumphant revolutionary path of the Russian Revolution. He tried to dupe and blind them with talk of the "peaceful transition to Socialism through democracy." He preached to the American workers the same doctrines that led in Germany to the temporary victory of Fascism, the doctrines of worship of capitalist legality and parliamentarism, the doctrine against proletarian dictatorship.

It is for his fight against Communist and the Soviet Revolution that the capitalist press found him so 'useful."

On the Russian Revolution, Hillquit said: "It is the greatest calamity that has ever hap-

pened to the international Socialist movement." In 1917, in a signed article in the New York Times Hillquit soothed the fears of the American imperialist government, preparing for war to protect the loans of the Morgans:

"Socialism in the United States will not handicap the government by strikes. If the army is raised by conscription, of course, we will have to serve as other citizens. I do not believe that Socialists will advocate any general industrial strike to handicap the country in its war preparations."

This is how Hillquit offered himself and the workers to the Wall Street war government in 1917.

Such "socialists" as Hillquit, the rulers' like. Because they are part of the political machinery to keep the workers from the revolutionary fight against Fascism, against imperialist war, against the overthrow of capitalism and the setting up of a workers' dictatorship over the capitalist class,

The Right to Strike

"THE plain stark truth is that you cannot tolerate the strike..."

Who said that? Was it Hitler? Or Mussolini? Under German and Italian Fascism, the right to strike against oppression and exploitation has been crushed by the naked military force of the capitalist State.

Ostensibly, the American working class still has the right to strike.

. But the speech that General Hugh Johnson, military keeper of the N.R.A. Blue Buzzard, made yesterday to the assembled burocrats of the A. F. of L. at the swanky Willard Hotel in Washington, is nothing less than an official outlawry of all strikes, and a threat of increased State military violence against the working class, if it dares to rise in strike struggle against capitalist employer exploitation. The speech that Johnson made yesterday was the

speech of a conscious agent of the Wall Street industrial monopolies, giving grim warning that the Roosevelt government, like the Fascist dictatorship of Hitler, or the Fascist dictatorship of Mussolini, is fully prepared to crush with brutal, military savagery, the strikes of the American workers against the intensified exploitation of the hated N.R.A. codes.

"Labor does not need to strike under the Roosevelt plan," Johnson said yesterday.

And by that he meant that the working class is forbidden to strike under the Roosevelt plan.

AND what is this Roosevelt plan, which is beginning to bear so remarkable a resemblance to the Hitler

Wall Street Banks Pay Government Checks After Mella Massacre and Surrender of Officers Prove Regime Is "Safe"

HAVANA, Cuba, Oct. 5 (By Mail.)-On the surface the city is quiet. But below it boil class antagonisms and factional differences of the bourgeoisie. Even such a thing as a hurricane reveals them. For two whole days a hurricane wasted the island. But even in the worst hours shooting was going on. A.B.C. members cruised the city of @

Yankee imperialism, In compensation the government sent which at the birth of the existence it new furniture and 1,000 chairs, the thought to intervene, evidently changed its mind when it saw that this government handled the workers vorse than did Machado.

It has been learned from authoritative sources that all Wall Street banks-the First National, Chase National, First National, Chase National, First-National of Boston, etc., began paying government checks for the first time only after the events of the 29th, when workers were killed and after the capitu-lation of the officers. Today 30 delegates of revolutionary unions went to the Secretary of State to demand re-opening of all centers and the payment of damages for smashed and destroyed furniture, records, etc.

Here and there in Havana strikes are again beginning and in the in-terior extending in spite of the worst sort of terror. The government is trying to disrupt the revolutionary organization before it is unmasked by its inability to improve the conditions of the country and of the toil-ing population. Its attack will fail. Already it has been forced to release some workers and students arrested because of mass pressure and fear of mass struggle.

The general situation is getting worse each day. Unemployment and hunger are growing. The attacks are growing. workers are increasing and lowering their conditions of labor. In many places the bosses just state that they signed because of fear and will not pay the new scales. When workers reject this then the Army is called against them.

But the soldiers also do not wish to fight against workers. Those that do are doped by propaganda of who say that the Communists want to destroy Cuba and give it to im-perialism. A Useful Citizen

OT so long ago, a class conscious working class revoitionary fighter declared:

"When capitalists begin to praise me, then I begin to suspect that I have done something wrong against the working class."

It was Eugene Victor Debs, fighter for the revolutionary overthrow of capitalism, who said that, These words of Debs are, perhaps, the most fitting

epitaph for Morris Hillquit, leader of the Socialist Party, who has just died. It is the capitalist enemies of the working class

who praise Hillquit. And they praise him not in tribute to a fallen enemy. They praise him as a friend.

Roosevelt, most cunning capitalist demagogue. hypocritical and devoted agent of the Wall Street rulers, whose government now drives the workers deeper into suffering and poverty, whose bayonets and machine guns, at this very moment, face the embattled coal and steel strikers in Pennsylvania, fighting against hunger wages and exploitation-this Roosevelt, no less, sends his sympathy and praise for Hillquit.

. . . . BUT is perhaps Governor Lehman, of New York, the man who recently broke the milk strike of the New York farmers, the man whose family controls Lehman Bros., one of the most powerful of Wall Street banking houses, who found the word that expresses most exactly what the ruling class thought of Morris Hillguit. Said Lehman yesterday:

"He was a man of unusual usefulness....* What was there in Hillquit's political life that was and Mussolini plans? It is the plan to increase employers' profits at the expense of the workers-a plan against which over 100.000 coal and steel workers have risen in tremendous

strikes. The recent Roosevelt "command" to the 100,000 coal miners of Pennsylvania to return to the mines of their coal masters, to the mines of the Morgan-United States Steel trust-this is the actuality behind the N.R.A. hypocrisy of "collective barmaining."

The murder of coal and steel pickets by State troops

-and now the threat of blunt, military outlawing of all strikes-these are the deadly ruling class realities that the working class can now see coiled within the trap of the Roosevelt N.R.A.

There is good reason why Johnson addressed his strikebreaking speech especially to the American Federation of Labor officials.

He did that because the leaders of the A. F. of L. the Greens, the Wolls, the Lewises, have already shown themselves to be willing agents of the whole N.R.A. strikebreaking machinery.

Johnson's strikebreaking speech was already anticipated, thanks to the carefully timed machinery of the whole strikebreaking Roosevelt propaganda apparatus, by Green's recent speech, warning the workers to be "cautious" in the use of the strike weapon.

OHNSON'S speech to the assembled A. F. of L. burocrats was a call to them, as past masters of betrayal and treachery, to strangle the enormous strike struggles of the American workers, now rising to new tremendous heights.

A.

It was a desperate call to them to head off the growing movement of the American workers into the sphere of the revolutionary trade unions, a call to them to throttle the fast rising rebellion of the rank and file A. F. of L. workers, a rebellion which even the steam-roller tactics of the A. F. of L. Convention could not wholly restrain.

"I implore you to acquit yourselves like ... Amererican leaders in this great crisis... You are like the boy at the Holland dike with his finger at the crevice ... You are the principal props against collapse."

And the Greens, the Wolls, the Lewises, all the corrupt and venal apparatus of A. F. of L. officialdom, listened with pleasure and understanding. They know what Johnson, talking for the big monopoly capitalists, expects of them. And their applause shows that they fully intend to fulfill the high hopes the capitalists place in them.

The Roosevelt government, successful in tightening the group of monopoly capital, but facing the failure of the vaunted N.R.A. to provide jobs, to alleviate hunger, to solve the hideous capitalist crisis, prepares for more open class war.

In every A. F. of L. local, in every revolutionary trade union, in every factory, mine and mill, where workers gather, this Roosevelt-Johnson threat to outlaw the strike weapon must be met with the answer of trade union organization increased a hundredfold for the resolute defense of the interests of the working class, for the right to strike against capitalist robber

HOWEVER, the development of events now depends nearly entirely upon the revolutionary movement and its leadership, the Commu nist Party of Cuba. If a determined reaction of workers against terror is organized, if mass strikes and demonstrations continue and intensify, the "unity" of this government will be destroyed and its basis weakened. Raising the slogan of "all power to workers and peasants aided by Sail-ors' and Soldiers' Committees," the the Party is leading the workers and the toiling masses in general towards the anti-feudal and anti-imperialist revoution.
