Nazi Secret Letter Proves Van der Lubbe Nazi Tool

Ex-Nazi Agent Says Spanknoebel OK'd

NEW YORK .-- Proof that Marinus van der Lubbe, young Dutchman on trial with four Communists for burning the Reichstag, is a tool of the Nazis is contained in the secret letter from New York Nazis to their superiors in Berlin which was read into the record of a Congressional inquiry in Washington yesterday.

The Daily Worker published a photographic copy and translation of this letter on October 7.

Despite its damning character, the whole capitalist press maintained complete silence about it for three weeks.

The text of the letter which was sent out to the press in Washingon yesterday omits various portions of the original, including reference to the Nazi plot to inoculate the four Communist defendants with syphil-

National Office, U. S. A. At the order of the head of the National Office, Heinz Spanknoebel Keep Absolutely Secret!

Uschla Berlin Alexanderplatz

In reply to your letter of September 5th:

The development of the special division cannot take place as rapidly as you desire, since conditions here are more difficult than you suppose We are being watched and must be careful. Count Sauerma is out of the question for the proposed position, as he lacks experience. It is better to employ him for the Bunaste. Count Norman returned from Berlin, bringing his brother with him. Dr. Spanner asks energetically that the General Electric representatives in Germany be watched, as they intend to carry on espionage there. The General Electric stole his invention, and he is now going to take steps against them. As his brother in the Medical Center has done a lot for us,-for instance, he has won two of the profesfors there for our cause,—we request that Dr. Spanner's business affairs speeded up and given protection

Send us a young lady of good appearance, who is very reliable; it is best if her father and brothers are S. A. men (storm troopers). She should speak some English and Russian fluently and must take the place of our agent in the Amtorg. She should come over on the Europa or Bremen as a hairdresser, then we'll send another person back to Germany on the ship, thus evading the immigration authorities and avoid a checkup by Untermeyer.

I cannot find a place for van der Lubbe here; it is best if you throw im overboard into the ocean while en route to another country. Whom o you intend to hang in his place in Germany? I agree with you entirely hat it would be good to give the damned Communists in Leipzig an inection of syphilis. Then it can be said that Communism comes from yphilis of the brain

Send us a new code; we believe that the old code can be read by Untermeyer.

Spanknoebel has just entered the room and sends you his best wishes He would like to have a physicist assigned by the Office for Exchange Students, to do a few little jobs for him. Theremin is lazy and wants too much money, and what is more, he seems to be half a Jewish swine himelf. The man betrays his own country and therefore we cannot trust im, despite all assurances. And the little Katja-that is how Count Sauerma calls Konstantinov-is a dumb and conceited girl, who is doing good work on the whole, but is always crying now; therefore I think she vould be better taken care of over there. She could be used for Russian

Let us know how things stand with the Hitler book. We must distribute many of them free; we'll have considerable success with it. It is child's play to make good anti-Semites out of the Americans. Please work fast in the Spanner affair-lots of money for us depends

Hathaway Called to Testify Before House Committee Mysterious Witness

Says He Knows Haag Typewriter Was Used

By SEYMOUR WALDMAN

WASHINGTON, Nov. 14. -The Daily Worker's now famous publication of the secret letter exposing the American murder and terror arm of the Berlin Nazi organization, published on Oct. 7, was the feature of today's opening session of the sub-committee of the House Immigration and Naturalization Committee meet ing to investigate Nazi propaganda activity in the United States.

The introduction of the "Daily's" exposure came fittingly upon the heels of a prelude of a large group composed of secret service and uniformed police, private detectives, photographers and newspaper men who were not admitted until the conclusion of a nearly secret session of

Samuel Dickstein, chairman of the immigration subcommittee investigation group, introduced a mysterious "Mr. X" as the first and only witness of the morning public session. Dick-stein introduced "Mr. X" as an expert who would testify as to the au-thenticity of "a letter from Werner Haag of the Nazi Friends of New Germany," to the Berlin Nazi head-quarters. He pointedly neglected, however, to say that letter appeared first in the Daily Worker. "It is a letter," he said, "which appeared in the daily papers of October 5." After Mr. X informed the committee that, 'I saw the original letter in the possession of Clarence Hathaway, editor of the Daily Worker" and that ne had compared the mechanical type writer text to his complete satisfac Dickstein announced that

"Hathaway is ready to present the original letter to the committee.' Hathaway Called It is understood that Hathaway or his representative is to appear tomorrow moning before the committee at what was announced would be the

Representatives Eugene Crowe Indiana and Benjamin K. Focht of Pennsylvania, were the only members of the subcommittee of eight besides Dickstein, at the hearings. Congressman John J. Delaney of Brooklyn who is not a member of the investigating group, appeared to have his picture taken with the committee. "Publicity. He's got a big Jew district in New York," exclaimed one of the newspapermen.

last open hearing of the week.

A. Dana Hodgedon, chief of the Visa Division of the State Department, sat in as an observer at the

"I have traced the authenticity of this letter to the point where I ascertained the genuineness of the let-terhead and the typewriter which was used," Mr. X explained to the committee in beginning his testimony.

"This typewriter, which was in the possession of Haag up to five days ago, has disappeared, ostensibly for repairs. The letter was written by Spanknoebel!" (wanted by the federal authorities for violation of State Department rules covering official foreign representatives) whose initials

The A. F. of L. fur union, which
was deserted by its members after a
history of corruption and betrayal, is
seeking to gain an injunction compelling these workers to come under ite racketeering control again. This drive, which has been characterized by intimidation, coercion, violence and murder, was instigated by the fur bosses who control the A. F. of L. Union Members Will 28 Organizations Join

Indicating his willingness to throw the force of the state behind the bosses and their A. F. of L. allies whose hired gangsters have proved incapable of forcing the fur workers back into the "company union," Judge Gavegan gave it as his opinion that an agreement signed between the bosses and the A. F. of L. officials was a "collective agreement" even though the A. F. of L. union at the time of the signing had no members, and even though it has no fur worker members today

During the afternoon, when counsel for the fur workers introduced proofs of violence and intimidation pro-ceeding from the "right wing" officialdom, Gavegan was seen to doze on the bench. He had already an-nounced that he would turn over all rounced that he would turn over all evidence of violence, on either side, to the federal prosecutors who are bringing suit against the Needle Trades Workers' Industrial Union.

Irving Potash and Jack Schneider were two of the fur workers' leaders

who testified during the afternoon.

Potash told of being attacked by a
gang armed with knives, who were
later defended in court by Markowitch, member of the law firm which represents the A. F. of L. plaintiffs in the present trial. Schneider told of a series of frame-

up cases in which he had been arrested and prosecuted by the plain-tiff's attorneys, in every case the charges having been finally dropped. Null, plaintiff's attorney, brought out the fact that Schneider is under de-portation charges. When the De-fense Attorney Boudin protested on the grounds that this had no bearing on the case, Judge Gavegan de-clared: "I consider it of great im-portance." Later, however, when portance." Later, however, when Boudin showed that the deportation

charges are part of the persecution campaign against leaders of the militant Industrial Union, he was silent.

Mrs. Mollinari and Ben Young, fur workers, testified to beatings and court frame-ups that were given them as part of the bosses' strikebreaking and terror campaign to drive the workers back into the A. F. of T. workers back into the A. F. of L.
Great interest has leen shown
throughout the trial among the fur
workers. Every day the court is workers. Every day the court is packed with furriers watching the latest attempt of the bosses through their courts to break their unity and beat down their conditions.

Blum Delegation to Go to Albany Nov. 16

NEW YORK .- On Nov. 16 a delerepresenting 16,000 workers will meet Mr. Poletti, Governor Leh-man's secretary, at Albany to demand the release of Leon Blum, framed laundry strike leader. The delegation consists of repre-

sentatives from the International Workers Order, the Shoe and Leather Industrial Union, Metal Workers Union, the Trade Union Unity Council and the International Labor De-Two attorneys, Jacques Buitankant and Edward Kuntz, will go to Albany with the delegation. On Nov. 2 an elected committee visited Poletti and forced him to make

the date for the meeting with the delegation. Leon Blum is in Great Meadows

jail, Comstock, N. Y. He was framed in the Pretty Laundry strike in the Bronx a year ago. He was charged with the intimidation of scabs, although the scabs themselves repudiated the charge in open court Blum was secretary of the Laundry

Workers Union and one of the leading figures in the struggle against the furious exploitation of the laundry workers. The Laundry Association, in conjunction with the N. Y. State Parole Commission decided to get rid

Demand Inquiry in Murder of Anthony

NEW YORK .- New York workers are demanding an open investiga-tion into the death of Paul Anthony, anti-fascist fighter and member of the Greek Spartacus Club, who was found murdered in the lavatory of the Pennsylvania station two weeks ago. Police are blocking an investigation with the claim that he died of "heart faildespite the fact that his face was beaten to a pulp and his body was covered with bruises.

Anthony, who was unemployed and homeless, had been pasting up Communist election slogans the night before his murder. It is believed that he was attacked in the Pennsylvania station while pasting up these slogans. He was 36 years old and an active member of Section Two of the Communist Party.

Nat'l Shoe Union Renegades Out to Smash Shoe Union

Furnished Scabs to Bosses at Outset of Strike

NEW YORK .- Plans to take control over the shoe workers in New York City and drive out the Shoe and York City and drive out the Shoe and Leather Workers Industrial Union are being made by certain self-styled leaders of the National Shoe Workers Association, an organization with Association, an organization with a

workers in New York city in the early the Cousins Shop, where they supplied scabs and failed to accomplish

against the shee workers.

At the most critical period of the strike, the Lovestoneite renegades. Bixby and Zimmerman, are calling a mass meeting of shee workers at Irving Plaza Wednesday night, under the ball now. Watch Tatro, the guard. There now. This is going to be off the workers and an "amalgamatic technical". the smokescreen of an "amalgamation" call but actually to continue the same scabbery they were guilty of at the outset of the strike.

The announcement by W. H. Buckley, another organizer, that the National Labor Board settled the shoe strike was branded as a lie, by Fred Biedenkapp, union secretary, who declared that the strike is not yet settled. The "amalgamation" slogan of the renegades is not for amalgamation with the workers, but with the bosses, Biedenkapp declared.

The real rank and file movement throughout New England for amalgamation, he stated, receives the hearty support of the rank and file workers in New York and the Shoe and Leather Workers Industrial Union will participate 100 per cent with all other shoe workers throughout the country for the building of one National Industrial Union on the basis of the Shop Delegate System, with rank and file control. Shoe workers of New York will teach these renegades a lesson so that they will know that there is no room for them amongst honest workers, he declared. Shoe employers in New York ap-

plied to the National Labor Board for a reinterpretation of its decision calling for a reinstatement of all strikers The Board, which functions in their interests, readily granted their request and ruled that all scabs be per mitted to remain in the shops.

At a membership meeting at Arcadia Hall Monday, the shoe strikers voted to continue their fight against discrimination in the shops and to go to the bosses with their demand for reinstatement of all strikers.

Knitgoods Meeting

Knitgoods Department of the Needle Trades Workers' Industrial Union will hold a meeting tonight, right after work, of all shop chairknitgoods trade, at 131 W. 28th St.,

of South Chicago. Because some of the workers had ideas that the N. R. A. would help them, a committee was formed to visit the local N. R. A. of Mexican, Negro, white and for-

We arived at the N. R. A. office and were given an interview with Mr. Adamson. We stated our case to him very carefully, pointing out to him about the stories in the papers about what the N. R. A. was going to do about bringing back prosperity. We then asked him what the N. R. A. is going to do about the lay-offs.

Relief Cut Off Mr. Adamson replied that in a couple of months the N. R. A. was going to enforce the steel codes, but if the steel mills did not have orders it was necessary to lay off the the steel bosses laid off workers and let them keep their brass check, because as long as they carry their brass check they cannot get help from the relief station. He stated control of the N. R. A., that he would send us over to see Mr. Cock of the Department of Commerce.

Mr. Cook told us the steel mills could not keep men on the payrolls if they did not get orders for steel. One of the workers told him the U. S. Steel Corporation was still paying dividends on their preferred stock with money that was ground out of the toil of the workers. Mr. Cock denied this, stating that he was a pledge being given, there is the most open violation of the "minimum stockholder in the U.S. Steel and he did not get his dividends. Can you imagine a stockholder in the U. Steel Corporation holding down miners are concerned. The code pro the job of enforcing the steel codes on this corporation.

Will Go to Washington

Mr. Cook's only recommendation was to send a telegram to Mr. Roosevelt, and we told him we would send a delegation down to Washington to see the President. This delegation will bring the report back from the N. R. A. to the workers' mass meeting on Friday night.

The important thing about this visit to the N. R. A. administrator was to expose the N. R. A. to the workers as a lot of bunk. The Steel \$2 (in the case of inside work) below the "minimum" supposed to be "guarand Metal Workers' Industrial Union is calling on all workers to be at the Thursday, Nov. 16, to organize a fight for relief of the unemployed

POVERTY, DEGRADATION OF NEGROES AND WHITES TO BE **EXPOSED AT PUBLIC INQUIRY**

"DailyWorker" and L.S.N.R. Prepare Facts for Saturday's Hearing; Anti-Lynching Conference in Baltimore Sunday to Take Action

EDITOR'S NOTE-This is the fourth of a series of articles in which the Daily Worker is exposing the facts and the background of the wave of lynch terror which is sweeping over the Santh, and centers at this moment around preparations to lynch the Scottsboro boys, their attor-

The Daily Worker will publish further exposures in this series

background of the recent lynching sents a picture of bourgeois states of George Armwood, Negro farm la-manship gone to seed. ern Shore of Maryland?

The Daily Worker and the League of Struggle for Negro Rights sent an ture later than those of Tidewater, investigator into the region, who obtained a vast amount of evidence in regard to the lynching and its background, for presentation to the com-mission of inquiry of the Baltimore Anti-Lynch Conference, which will sit on Saturday, the day before the meeting of the delegated conference.

Report on Mass Misery with the general economic and social situation of Negroes and poor whites,

s given below:
To the political bosses of Maryland, Shore is that it must be carried in election to carry the state. For this purpose, the blacks and whites are carefully divided by a consistent campaign of lynch-propaganda. Sops are thrown to the poor whites to keep them "contented" with the misery and degradation, second only to that of their Negro neighbors, into which they are forced.

liams and Euel Lee were in effect such "sops" thrown to them by the political machine of Governor Albert

and left to decay in its isolation. In those nine counties, covering 3,400 buildings went, the whites in each buildings went and the whites we will be a subject to the whites and the whites are the whites and the whites are the whites and the whites are the whites a square miles, with a population of ccunty owned more than \$5,000,000 200,000, there is no railroad and only worth, while the Negroes in each one main highway, running north county owned between \$200,000 and and south. A single road and four \$300,000 worth of property. In other slow and ponderous ferry services are the sole connection with the main-

Lynch Belt Most Isolated

Most isolated of all is the so-called ynch-belt, where two years ago Matw Williams was taken from a hospital by a blood-thirsty, ruling-class mob, and lynched; where the legal lynching of Euel Lee was engineered; where attempts were made to lynch him and his attorneys; where George Armwood was stabbed, flogged, hanged and burned.

The territory known as the lynch-belt lies south of the Choptank River, four counties on the furthermost tip set, Dorchester and Worcester. The 22 per cent of the whites. Negro bourgeois writer, H. L. Mencken, reschools only run for eight months a "Plans to broaden the scope of this inquiry on a national basis, and to publish the findings in order to expublish the findings in order to expublish the whole world the bulk of the whole world the bulk of the world the world the bulk of the world the

Threaten Negroes, Communists About a year ago, one of the natives of Talbot County, in d'scussing the Euel Lee case with a visitor, remarked: "All the niggers and all the Communists ought to be hung." visitor replied: "Don't you want to kill everybody else, too?"

Two hours later his informant brought a gang of twenty men to atock the stranger and drive him out. tion figure in the health records-It is perfectly true, of course, that always with a greater percentage in the hearings before the Interna-tional Committee investigating the Eastern Shore are the most completely years, with the drop in farm prices, isolated and ingrown. For Negroes the closing of many of the seasonal and poor whites, this isolation from industries and the falling off in the main stream of modern industrial oystering and crabbing, the struggle arrested thus far, four of them the basis for the development of a broad, organized campaign against called "county families," however, medical care, to shop or to see the reaching consequences, is seen in the and for the death penalty for all races, and they send their children

"Old Families" in Control

Most of the books that have been written up to now about the Eastern Shore stress the fine old southern work and romantic tradition. joy the fishing and duck-hunting seasons in an atmosphere removed from sharp industrial struggles.

Some of the old familes, who re-ceived their land-grants back as far as 1662, have managed to maintain themselves on their ancestral lands, though many of them have been obliged to sell. They still have all the clannishness of an isolated caste, with ties made stronger by much intermarriage. However poor they may be, even ruined completely in a num ber of cases by the recent bank failures, these old familes continue to have great prestige and to control all the leading offices of the county There is a great deal of cracker-box politics in this region, which produced so many leading statesmen of revo-

facturers' Association proposing a 48hour week and wages of 36 cents an hour was rejected by the representatives of the Furniture Workers' In-dustrial Union at the hearing last week. Letters From Readers About the Daily Worker

Kansas City, Mo.

As a Daily Worker seller I naturally come in contact with a number of workers. The paper is liked very much and it is really a shame, as Comrade Browder points out in his speech, reported in the Daily Worker, Oct. 21, that the building of the cir-

culation of our paper goes along at such a slow pace This is our fault, who are in the field, and we shall have to buckle down to much harder work to get subscriptions, to get worker's correspondence, to show more openly the face of the Daily Worker at all

workers' meetings and gatherings. One thing some of our readers call attention to is that there is in the columns of the Daily Worker a lack of, or an insufficient explanation of, what is the real remedy for the crisis we are in — how the workers can get away from hunger and want.

The workers know pretty well about their own situation and they can see plenty of food and clothing and lots of empty houses. How are they going to get hold of these necessities? What is the solution, the way out? What do we as Communists propose any-

the practitioners as a pharmacist.

By Joseph Freeman

This summer I happened to be in California. There were a series of fruit strikes in the Santa Clara valley.

One evening I picked up a local paper in Oxenard which carried in heavy type a sensational headline. It seems that the California strikes were subsidized and directed by Moscow.

When a dog bites a man that is not news. But when starving workers fight for a living wage it is always news-in the capitalist press-that they are subsidized and directed by Moscow.

From the beginning of the socialist movement that has been the stock accusation of the capitalists.

Why do workers organize, strike for economic improvements, battle for political rights? Because they are exploited, underpaid, underfed, oppressed? Heavens, no! "Our" workers would be perfectly happy except for the machinations of foreign governments. Everybody knows that. Who subsidized Marx to "agitate" the German workers? The French. What enabled Lenin to lead the October Revolution? German gold. What finances strike movements in America? Moscow gold.

Why Men Strike

Yet the fact remains that the vast majority of the Santa Clara workers know little about Moscow and have no contact with it. These Mexican, Filipino, Italian and native American fruit-pickers have been so ground down by the crisis that they struck.

It is not necessary for German gold to subsidize a revolution in Russia or for Russian gold to subsidize strikes in America. You cannot "make" revolutions or strikes. These can only be the result of conditions created by capitalist exploitation and oppression.

But do not imagine for a moment that these silly charges about "Moscow gold" are confined to Oxenard. Do not think it is only stupid or unscrupulous capitalists who spread such lies.

This oldest of counter-revolutionary slanders can now be found in the intellectual world. It is being spread by "thinkers" who make it their profession to libel the Communist movement.

Thousands of writers, scientists, teachers, architects and other intellectuals have in the past few years "swung to the left," as the phrase goes. In one degree or another, they support the Communist movement. In one degree or another, they are attempting to adapt their literary, artistic and scientific talents to the services of the revolutionary movement.

Why Artists Go Left

Why do they do this? Is it because the crisis has shattered their economic base? Is it because the decline of capitalism and the rise of Soviet economy has profoundly altered their views of society? Is it because the values of capitalist culture have lost all meaning for them and they have begun to grasp the meaning of Communist culture?

Heavens, no! "Our" poets and painters and novelists and critics would be happy except for the machinations of Moscow. They would still be ig love lyrics in the style of the nineties but for Moscow gold. They still be preoccupied with their own petty sensations except for "Stalin's literary inquisition." So, at any rate, say the professional enemies of the Communist movement in the field of arts and letters.

A Lesson of the World Fair

During the month of August I visited the World Fair in Chicago. It is a fitting monument to capitalist culture in America. One or two of the buildings reflect the high technical development of American economy its magnificent machines, its extraordinary industrial processes.

The bulk of the exhibit is a glorified Luna Park, garish, tawdry, vulgar. It is plastered with sales slogans. You are asked to buy Coca Cola, Chrysler automobiles, Camel cigarettes, and the other million and one products of privately owned American industry.

The poet E. E. Cummings, after a brief and confused ten day visit to Moscow, described the Soviet Union as a vicariously infantile land of slogan. A renegade Communist critic who has not been to the U.S.S.R. for ten years applauded him in the pages of an anti-Communist magazine. Both these gentlemen are blind to their American environment. No country is as slogan-ridden as the U.S. A.

But there is a profound difference between Soviet and American slogense a difference inherent in the basic difference between the two

In the U.S.A. private capital urges you to BUY Pepsodent so that it may make profits for the shareholders of the Pepsodent company. In the U.S.S.R. collectively owned economy urges the workers and peasants to USE tooth-paste because it will preserve their health.

Apart from the vicariously infantile commercial ballyhoo, the fair was filled with vicariously infantile pornography. There were over a dozen shows of hula-hula girls and fan dancers. The Fair and the American press created a new "heroine"—Sally Rand, who dances nude behind huge fans. I have heard no complaints about this from E. E. Cummings or the Modern Monthly. That is quite natural.

Artists and the Crisis

Outside the Fair grounds I saw a striking scene which explained why American artists, like American workers, do not need to be directed or subsidized by Moscow in order to protest against capitalist culture.

On the sidewalk just outside the Fair, ironically enough near the Chicago Art Institute, 300 artists were peddling paintings and drawings. They varied in talent. Some were amateurs; some were extremely capable painters, who before the crisis were very successful. There were men who three years ago got \$1,000 a canvas from the plutocrats on the Gold

Now the artists were unemployed. They were broke. The bourgeoisie, which always pretends to love art, and which claims that art dies under Communism, was permitting these painters to starve.

Three hundred artists were standing outside the costly monument to capitalist culture crying their wares like peddlers. They begged passers-by to purchase a painting or a drawing for anything from 25 cents up.

An Artist Explains

One of them, a famous artist in Chicago, said to me:

I am no bolshevik, but this is worse than hell. I had money, I had reputation. Now I am down and out. I do not know where my next meal will come from. Worse than that, I have no audience.

"For whom am I to paint? Nobody wants my stuff. And there is something still worse. I no longer believe in my stuff, Nearly all my friends are out of work. They are broke. They are starving. I see the unemployed sleeping in rags and newspapers in the public parks. I see them desperately searching for crumbs in the Chicago garbage cans.

"How can I paint flowers, and moonlight, and pretty society ladies amidst all this misery? It doesn't mean anything. It's a foul joke. I don't know what to believe. But I know that I can no longer believe in the old

This artist expressed the views of most of the 300 whom I saw peddling their art. It was this mood of theirs which made the John Reed Club artists the most popular group in the open air exhibit.

The John Reed Group

Some of the John Reed group are excellent painters. Their technical achievements have won them the respect of all the Chicago artists. Gilbert Rocke, Mitchel Siporin, and Jan Wittenber are acknowledged even by the bourgeois critics to be very capable artists.

But these young people have something more than technical equip-ment. They have something to say. They have found a way out of the chaos into which the decay of capitalist culture has plunged all honest writers and artists.

They are on the side of the revolutionary working class. They draw their themes from its daily life and its political struggles.

That is why their paintings and drawings, portraying strikes, hunger marches, political demonstrations, battles with the police—stood out with such striking power among the feeble flowers and nudes of the artists who had lost their way.

Cops and Critics Agree

V. 0

The 300 unwilling peddlers of art gathered around the John Reed Club group. They asked questions. They discussed the N.R.A. They learned omething about the relation of art to the class struggle.

No wonder the police and the park commissioner evicted the John sed Club group. But not before a number of the 300 artists had joined it. As for the police, it is well known in Chicago that the head of the Red Squad is a blackguard, who some 30 years ago was a member of the Socialist Revolutionary Party in Russia. He reads the anti-Communist press avidly. His animus against the John Reed Club artists is comprehensible. He must have read about the "artists in uniform" and "Stalin's literary

His cops persecute in the flesh the writers and artists whom the anti-Communist hacks slander in theory.

BLAST, No. 2, Nov. and Dec., 1933. By GRANVILLE HICKS

Such magazines as "Blast," "The Anvil," "Left Front" and "Dynamo" are, whatever their shortcomings, the joked with the supers, nor was he hope of proletarian literature at the present moment. The new generation of revolutionary writers have had. unlike the p-called fellow-travelers, neither the advantages nor the dis-advantages of a literary apprenticeship spent under bourgeois guidance. They are expressing literary impulses that from the first have been nurtured by revolutionary convictions. Though they have not completely escaped bourgeois influences, they have avoided most of the conflicts and confusions to which the typical felow-traveler is subject. Now the question is whether they will receive a training comparable to that the bourgeois writer gets. Will their poorer work be weeded out and their better work given a chance to reach the public and the critics? The responsibility is largely on the shoulders of the editors of the proletarian magazines, who not only have the power to determine what work shall reach the public but also have uncommon opportunities to exert a sympathetic

and intelligent influence. The second issue of "Blast" is, like the first, filled with stories of misery and despair. Three of its stories end with a man murdering starving members of his family; three are sketches of men who have been hopelessly peaten by the depression; one is a study of a small business man cracking under the strain of the crisis. Only a single story, "No Work, No Rent," by the editor, Fred R. Miller, introduces a militant note, and even here the militancy seems almost ac-

Now it can be said in defense of the contributors to "Blast" that the short story is necessarily fragmentary, and an author can seldom indicate all the implications of his theme. The writers in "Blast," almost overwhelmed by the misery about them, try to render the poignancy and downright horror of that suffering. They feel, and quite rightly, that it is better to bring home to the reader a stunning realization of the bru-tality of contemporary civilization than it is to feed him slogans.

But, even if we grant that the short story must be fragmentary, the question remains why we are given only fragments of this particular kind. No one wants Comrade Miller to print stooge fiction, as Mike Gold calls it, in "Blast"; but can he not find somewhere writers who can put into short stories the real militancy of real workers. From Japan, China, and Germany have come short stories of the workers' struggles, just as fragmentary as the stories in "Blast," but revealing other elements in the contemporary scene and supplementing the kind of fragments we find in "Blast." These anecdotes—they are often little more—do suggest the the full development of proletarian the great Soviet republic.

well indeed. C. H. Schillinger's
"American Scene," though its climax is too abrupt to be wholly convincing, exhibits extraordinary powers of characterization, especially in the portrayal of the elder Donavan. In Bruno Fischer's "Another Evening," the Marxian point of view effectively reveals tragedy where a Sinclair Lewis would find only ridiculousness. Alfred Morang in "The Eviction," even more sharply than in his story in the first issue of "Blast," evokes a scene of squalor that, merely in itself, is almost adequate as an indictment of the kind of civilization in which we live. And such talents are by no means to be disregarded. After all, proletarian literature must be based not only on an understanding of militant revolutionaries, but also on an understanding of the masses of un-class-conscious workers. 'Blast" gives us only half a loaf, but it is a great deal better than none.

Kollwitz Exhibition at Chicago Workers' School

CHICAGO — An exhibition of drawings and etchings by Kathe Koll witz, German revolutionary artist, has been arranged by the John Reed Club at the Chicago Workers School, 2822 South Michigan Ave. This is the first in a series of similar exhibitions to be presented by the John Reed Club as features in the survey of revolutionary art and literature, a lecture and dicussion course, offered by the School. The galleries are open every evening from 7 to 11 p. m.

IT HAPPENS EVERY DAY

Relief Bureau Investigator as told to HELEN KAY

The following series of short stories are actual experiences of different Home Relief Bureau Investigators in New York City. They are tiny bits of sordid reality showing the degradation, the powerty, the horror and misery of life among the unemployed workers. They show the bankruptcy of charity, the falseness of metropolitan relief, and the need to strengthen the fight for Unemployment Insurance.

Grim -- But No Fairy Tale

joked with the supers, nor was he too friendly with the chief clerks.

He would shrink with horror at the mere thought that some of the investigators didn't even trouble themselves about visiting the homes of their clients. He knew that many of them left their tickets at the grocers and didn't even bother to deliver the goods themselves. He also knew that many of the investigators got a rake-off on the food tickets. He considered this a criminal act. For he knew that their few pennies of graft often took the milk out of a baby's

He frowned on the intimacies of the other investigators with their superiors. Their friendly chats and jokes, sickened him. For he knew that this friendship was based on "little presents" on flattery, and on a mutual agreement to mock and scare away needy clients.

He was a timid soul. He did his

work, and tried to keep to himself. One week, the hatchet was placed over his head. At one of the meetcalled by the supervisors, it was explained that there was a shortage of funds, and that im-

Special cuts were to be made in the budgets of Negro and Italian families. In addition as part of the program for curtailing expenditures, a number of investigators were to be released from their

Our investigator had a wife and four children. And terrified lest he lose his job, he worked even harder and more faithfully. He knew that should he lose his position, he would find himself in the identical situation of his clients He would face hunger, eviction, and

One day he was called to the main office. His face was pale. His hands trembled. He was explained that his services were no longer desired. "But, why," he asked. "An explanation is not necessary. We have no contract with you, and

owe you none," they told him. The super softened. "I'll advise you. You haven't been very friendly with the office staff. But there's nothing we can do for you now." He turned away. His family's future graphically portrayed by the experience of his work.

WEDNESDAY, NOVEMBER 15, 1933

What Now, Mr. Dickstein?

AFTER a month of dawdling, the Dickstein House Committee finally opens the investigation into the Fascist plottings of Hitler Nazi agents in this coun-

But it is a fact of extraordinary significance, and remarkably revealing as to the sincerity of the investigation, that Mr. Dickstein shows no eagerness to have the Daily Worker, who originally exposed the Nazi plots, through the now notorious intercepted Nazi documents, come before the Committee.

And this all the more remarkable when one considers that the authenticity of these damning documents, which have withstood the most searching investigation and examination, were again authenticated only yesterday morning by a former leading Fascistwhose identity the Dickstein Committee carefully conceals under the name of Mr. "X."

DICKSTEIN has played a deliberately evasive, and contradictory, role with regard to the Daily Worker's

On one occasion, Dickstein expressed his willingness to call the editor of the Daily Worker to testify before the investigating committee. At another time, he angrily refused to commit himself on this point.

And on still other occasions, he asked the Daily, always through a third party, if it would agree to send a representative to appear before the committee.

The manner of these "invitations," has always been peculiar. Yesterday, for example, after having many assurances that the Daily would be ready to appear before the Committee, Dickstein again asked the Daily if it would be ready to appear before the Committee.

It is not too much to say that, without the testimony of the Daily Worker, in whose possession are the original documents, and whose revolutionary initiative actually forced the whole matter into the open, the Dickstein investigation will not only be an ineffectual gesture, but an actual whitewash of the mass of Nazi plotters!

Mr. Dickstein, it appears, sees fit to narrow his investigation to the activities of a single individual, Spanknoebel, who has been forced into hiding by the Daily Worker expose

The Daily Worker knows that Spanknoebel was only one small cog in a larger Fascist machine, a machine which is not only connected with the German officialdom in this country, but which has the active support and cooperation of a Congressman, Ham Fish, such prominent red-baiters as Ralph M. Easley, of the National Civic Federation, and others.

Why don't you go after these American agents of the Nazis, Mr. Dickstein? If you are really interested in putting an end to Fascist plotting here, why don't you ask Mr. Ham Fish some questions? And Ralph Easley?

The Daily has printed a letter from Easley, a document as authentic as its Nazi document, proving Easley's connections with the Fascist plotters here. What about that, Mr. Dickstein?

To disregard the evidence of the Daily Worker, to limit the presentation of evidence, already authenticated beyond any doubt, is to protect the real Fascist plotters, and to hide the true extent of their

It is, actually, to block a really deep-cutting investigation under the pretense of an investigation!

You know, Mr. Dickstein, that your own private investigators have confirmed the authenticity of the Daily Worker Nazi and Easley-Whalen documents to

Just what is it, Mr. Dickstein, that makes you so fearful of using them?

Follow This Example!

NEW YORK workers set a splendid example of devo-tion to the Daily Worker when 1,000 of their representatives brought a total of more than \$1,600 to the Daily Worker Banquet in Irving Plaza last Sunday.

Receiving less publicity than any similar affair in the past, it was nevertheless the most successful. Why? Because more than ever before workers see the Daily Worker as their principal and most effective instrument for gaining victories on the picket lines. in the struggle for unemployed relief, in the fight against the N.R.A. hunger-codes, in the fight for bread and freedom. The New York workers said vigorously that they will keep their main weapon sharp and

TO KEEP our Daily Worker alive an additional \$15.647 must be raised. This will put the \$40,000 drive over the top, an absolute necessity to the life of the "Daily." New York workers will not rest with their splendid achievement, but will intensify their activities to raise the remaining \$9,000 of the \$20,000 quota. The International Workers Order can help achieve this by conducting its end of the drive in a more vigorous manner than before and raising its full share of \$8,000, of which about \$2,000 has been realized so far.

THE achievement of the New York workers is an example workers in Chicago, Philadelphia, Detroit, San Francisco and in other American cities can follow with fruitful results. The \$40,000 drive shows, thus far, comrades, that workers will give willingly out of their meagre earnings to save their and our Daily Worker when approached and acquainted with the purpose and need of our Bolshevik paper.

They will be ready to give until it hurts capitalism on November 24, 25 and 26, the Daily Worker National Tag Days, if we mobilize all our forces for these days and approach the masses of workers.

But before the Tag Days take place much work remains to be done. The drive must be organized in a better manner, placed on a quicker tempo. The Tag Days should not only complete the Drive, but result in passing the \$40,000 quota.

New York workers show what can be done. Follow this example, comrades, and put the drive over the ton. It means life to our Daily Worker.

Another Financial Crisis

THE spectre of financial crisis even more devastating than the bank crisis of last March now faces the Roosevelt government.

through all the efforts of the Roosevelt publicity to

Within the last two days, three leading capitalist organs of business opinion, have definitely admitted that the Roosevelt government, faced with the failure of the N.R.A. to solve the crisis, is heading with accelerating speed toward deeper financial crisis and towards wild, uncontrolled, currency inflation.

Listen to the Washington correspondent of the New York Sun in yesterday's papers:

"We are in the midst of a financial crisis, the gravity of which cannot be overestimated . . . the evidence is overwhelming that American capital is fleeing to Canada, to Europe; that dollars are being sold . . . till the inflation panic is

And the financial writer for the Evening Post: "Coming together as they do (bond selling

and flight of capital out of the country) they must be interpreted as a forecast of severe monetary and credit collapse.'

And then the confidential Washington Kiplinger

"Roosevelt must plunge ahead on dollar depreciation . . . the course toward inflation seems to us likely . . . "

THAT Roosevelt is being swept along toward the Niagara of financial, inflationary crisis, is thus admitted by the most reactionary press.

It is a development that the Daily Worker has been predicting ever since the Roosevelt government The financial crisis is only the reflection of

the fact that American industry is now entering a new, profounder stage of economic crisis. After six months of the Roosevelt N.R.A. program, it is now clear that the N.R.A. has actu-

ally intensified the crisis through the added piling up of huge supplies of manufactured goods for which there is no market.

Roosevelt's farm measures, in addition, have actually intensified the extraordinarily deep agrarian crisis

The Roosevelt price structure, perched dangerously on high ground without the slightest real foundation in economic fact, sustained artificially only by Roosevelt's desperate inflationary pumping, is showing signs of impending collapse.

And it is this which drives Roosevelt irresistibly toward printing press money.

But even profounder is the basic intensification of the whole economic crisis.

Steel production and general business activity have been dropping steadily for three months, so that now the whole summer inflationary, seasonal boom has been completely erased. And this drives Roosevelt toward desperate inflation as a solution, a solution doomed to

THE financial crisis, the Roosevelt inflation will mean mass misery and starvation, mass ruination and pauperization, such as the country has not yet known.

It will mean hell for the city workers whose meagre wages will melt before the rising prices and the cheap-

It will mean the completion of the ruination of the small farmers, who will feel the weight of new huge taxes to pay for the paper currency. The Roosevelt inflation and the financial crisis

means that the drive toward war as a solution for the crisis will be redoubled The workers can meet this Roosevelt money cheap-

ening of their wages by a relentless fight for higher wages, for the abolition of taxes for the workers, for reduced living costs.

proletariat and under its leadership, must fight for cancellation of all mortgage debts, and taxes, higher prices from the monopolies and lower prices to the

Fight against the Roosevelt inflation which slashes the wages of the toiling masses! Fight against the Roosevelt inflation which turns dollars into pennies! For higher wages to meet inflation prices!

The Union and the Jobless

THE important role of the revolutionary unions in organizing the unemployed workers was sharply brought forward in the New York District convention of the Steel and Metal Workers Industrial Union. The reports and discussion emphasized that lay-offs face thousands of steel and metal workers in the New York district in the coming weeks. Thousands are already

The policy of the International Association of Machinists and the Boilermakers' International, like all A. F. of L. unions, is to desert the unemployed. They are fired out of the A. F. of L. as soon as they lose their jobs and cannot pay fat dues to the officialdom. The refusal to organize and lead the unemployed, the splitting of the unemployed and employed, is an integral part of the whole strikebreaking policy of the A. F. of L.

The district resolution of the S.M.W.I.U. says: "Our union has completely failed to carry through any work among unemployed metal workers . . . We should work in the direction of building up a powerful metal workers' Unemployed Council which shall lead the struggle for unemployment relief and insurance paid for by the bosses, the state and the federal government."

THE discussion and decisions of the district convention of the S.M.W.I.U. show that the union is aware of the rapidly growing problem of unemployment in the metal and steel industry. But in this union, as well as the other revolutionary unions, only beginnings have been made. In practice, in the day to day work of the revolutionary unions, the unemployed work is sometimes forgotten. Several millions of the unemployed in industry will never get jobs again. The unemployed are used by the boss and the A. F. of L. officialdom to split the working class and use the unemployed as a club over those still having jobs, to lower wages and break strikes and unions. Millions of part time workers get pitiful pay and need relief and insurance.

leadership of preparations for the National Unemployed Convention to take place in Washington Jan. 13, 14, 15 is one reason why the national campaign is lagging against Roosevelt's whole program of relief cuts and forced labor (a wage reducing scheme) and for adequate unemployment relief and social insurance. All of the revolutionary unions have the task of immediately intensifying the campaign against unemployment especially in the view of the rapid sharpen-ing of the crisis and the cutting off of relief.

The slow reaction of the revolutionary unions to the

Recall of Welles as Cuban Ambassador

U. S. Representative's Hand in Counter Revolt Exposed

WASHINGTON, Nov. 14.—Unable longer to conceal the fact that U. S. ambassador Welles led the counterrevolt last week in an attempt to es-tablish a more reactionary Cuban regime, Senator King of Utah called at the state department and "requested" the withdrawal of Weiles.

Senator King's conversation which state department officials were kept secret. But undoubtedly details were given of Ambassador Welles engineer ing of the armed uprising in an effort to replace the Grau regime by one headed by Cespedes. What Sen-ator King told the state department, of course, was not news to it, be-cause it has been in close touch with Welles and has supported his counterrevolutionary maneuvers.

Senator King advised the recognition of the Grau government as one which would protect American investments and business. Otherwise, he said, the only step was direct armed

The Grau regime, whose hand has been strengthened by the collapse of the Welles-A.B.C. directed counterrevolt, is now bidding for American support, justifying this by sharpened attacks against the workers and peasants and by more determined sup-pression of their organizations.

The demand for the ousting of the American ambassador, representative of the bankers and American exploiters in Cuba, which comes from the masses has been taken up by the Grau-Batista government for its own ends. With Welles already implicated in the movement of the former Machado officers and supporters, it is difficult for President Grau to

justify relations with him.

Reports from Cuba show that the American business men are now favoring recognition of the Grau regime, as the best means of stopping a strengthening of the workers' and peasants' revolutionary forces and ac-
