The capitalist press is now ready to admit that there is no justice in Alabama. This admission is wrested from them by the glaring events of the Decatur trials. They now declare that the trials were "so raw" that the U.S. Supreme Court will readily grant a reversal of the death verdicts. But this is an attempt to calm the angry masses, white and black, and build up anew the illusions among the masses in the "impartiality" and justice" of the capitalist courts. The Alabama courts are now discredited before the masses. The masses are therefore asked to place their trust in the U. S. Supreme Court, which they are told will see that justice is

HEARST AND THE N.R.A. Bronx, N. Y.

Comrade Editor There appears in the N. Y. Times full-page statements by Hearst about failure of the N.R.A. Mr. Hearst tries to cover up the real fascist program of the N.R.A. in order to blind the small business men

and the workers. I, as a worker, ask myself, how can the N.R.A. be a benefit to the workers and bankers alike. Since when do the bankers say to the workers, "I will raise your standard of living to a higher level at the expense of my own?" No. Mr. Hearst does not have to tell us that the N.R.A. is a flop. We can see

this clearly. Throughout the nation the workers are on strike, protesting against wage cuts. Workers are shot down and killed, arrested and framed up. Why doesn't Mr. Hearst tell the real reason that the N.R.A. fails? Because he is a capitalist newspaper owner and is himself an exploiter of labor. Books for Prisoner

OCCASIONALLY you will read in the American liberal press about the atrocious treatment of political prisoners in other countries. The tortures of men and women arrested for militant working class activity in Poland, Yugoslavia, Hungary, Germany, China have now and then been described by indignant visitors. Very seldom will you hear anything about the maltreatment of American political prisoners, unless you happen to read the revolutionary press.

Yet capitalism in the U.S.A. is no more tender than capitalism anywhere else. Behind the "democratic" pretenses, the New Deal, the "bloodless revolution," and the rest of the niratic hocus-pocus, the American bourgeoisie ruthlessly persecutes class-war prisoners.

Consider the following excerpts from a letter by Yetta Blum which came in this weeks' mail:

"Comrade Leon Blum, who was secretary of the Laundry Workers" Industrial Union, was framed in the course of a strike at the Pretty Laundry Company in the Bronx by the owners' association with the connivance of the Parole Board.

"He is at present confined in Great Meadows prison at Comstock, N. Y. He writes and tells me of the conditions there which he thinks should be looked into, and steps taken to remedy them there, as well as in other state prisons such as Sing Sing, Auburn, etc.

. "PECIFICALLY Comrade Blum completes about the prohibition of writing to those outside his family.

"He also complains about the limitation on literature. The Catholic Church has the power of 'education' for the prison inmates. The priest abuses this power infinitely. In many cases he prevents books that the state library sends over, saying: 'It is not necessary for him to read a book to prohibit it.'

"The prisoner above cannot fight such maliciousness. The Nation once helped Comrade Blum to get a book written by Tolstoy after it was refused him on the ground that Tolstoy was known as a socialist. But The National will go no further to expose these bigots unless we force them to the wall.

"Through the ignorance of this priest, Comrade Blum was able to get books by Marx and Kropotkin, but Gorki's will not go through, for he is more popular

Comrade Weinstein of the Furniture Workers' Union, now at Sing Sing, was even refused a money order sent him by the Trade Union Unity Council. And that faker of a Warden Lawes is supposed to be the most liberal' of all! Comrade Blum was transferred from Sing Sing for insisting on getting Labor Unity. Think of that!

These actions of the prison authorities in restricting reading matter for political prisoners should be severely attacked. It is our opinion that the John Reed Club is the right organization to do that work. I believe that some of its members would be found able and willing to do it. They can start the challenge by sending Gorki's 'Other Fires' and see what happens.'

VETTA BLUM, who lives at 1939 74th St., Brooklyn, New York, offers - to co-operate with writers of the John Reed Club and other organizations in making an issue of the right of prisoners to read what books they please.

This is an important issue, and for that reason I am reprinting part of her letter.

It is imperative that a vigorous struggle be made to keep political prisoners in touch with life through the right to correspond with the outside world and the right to read books of their own choice, rather than the choice of a Catholic skypilot serving capitalist political interests.

"It is a waste of valuable space in our only English workers' paper, the Daily Worker," writes B. Levine of New York, "to devote so much of it to a lengthy exposure of 'our Scribe' . . . A column of the type of 'What a World' in a daily workers' newspaper should discuss timely topics in concise and snappy form. The place for an article of the serial type you are writing is in the 'New Masses'

Arthur Garfield of Orange, N. J., writes: "Your beautiful and honest clarification of the Modern Monthly is a vow!" B. M., a Russian worker to has lived in the U.S.A. for the past 42 years, wri sian remarkable for its style, in which he advises me not to waste time on "the Max Eastman's and Don Levines," adding: "Who believes them?" Bruce Crawford, editor of Crawford's Weekly, Norton, Va., writes: "I have been interested in your articles on the 'Modern Monthly' slanders." John Turcic, a worker of Rocky River, Ohio, writes: "Your report about the Chicago World Fair stuck in our minds. 'Artists in Uniform and 'Stalin's Literary Inquisition' which you brought to our attention, also stuck in our minds as impotent counter-revolutionary ravings."

FRANK HOLTZ of Chicago writes: "Why did you in your first article on Soviet literature call Max Eastman 'by nature an honest and intelligent man?' All the subsequent articles in the series showed him to be the contrary. You were guilty of a misleading piece of liberalism. A man's 'natural' honesty and intelligence are irrelevant to his political actions. There is no way of measuring a man's sincerity; or, as Lenin once said, there is no such thing as a 'sincereometer.' You must know as we do that Eastman is as dishonest as he is anti-Communist. For years he has been an unscrupulous propagandist for the counter-revolutionary Trotzkyist elements in this country, and you should have said so. That was your duty to the workers who read your column."

A. B. Koralnick of Detroit writes: "In your column of Nov. 28 you said: 'If the Party neglected the literary field to the point where RAPP was able to indulge in harmful excesses . . . it was because the period of RAPP's domination coincided with the first Five-Year Plan, when the best minds of the country were busy day and night with the colossal task of building socialist industry and agriculture.' This statement is incorrect. It tends to create the false impression that during the First Five-Year Plan the Party neglected the cultural front. Your own articles subsequently dispelled this erroneous idea, since they showed that the Party gave a great deal of serious attention to cultural questions, about which a vast amount of material was published. All the more reason why you should correct the earlier misstatement.

"You ought to make it unmistakably clear that the First Five-Year Plan was not only a plan for industrial and agricultural construction, but also, parallel with this, a gigantic effort to improve the culture of the masses. The fact that the Party initiated and supervised a vast cultural program does not mean that RAPP'S mistakes represented Party policy. "You have yourself pointed out RAPP's great achievements, as well as

the mistakes for which it was criticized by the Party. But you ought not to leave uncorrected that the Party neglected the cultural front."

The comrades who think the series was too long may be right. Posably the points it made could have been considerably condensed. That, however, is a minor matter. The issues raised by Comrade Holtz and Koralnik are more vital; and I am grateful to them for calling them to my attention

I should like to make it clear that the phrase about natural honesty and intelligence was in no sense intended to divert attention from Eastan's political position. Objective actions against the working class must be sharply combatted and must not be confused by any irrelevant subnsiderations. In the class struggle what counts is not a man's ctive "nature" but his class position. His "nature" is primarily determined by his class position

The paragraph about the Party's neglect of the literary field was certainly an incorrect formulation. Comrade Koralnik is entirely right in his emphasis on the cultural aspects of the First Five-Year Plan. I hope that the last four or five columns of the series, which took up in some detail the literary activities and discussions of that period dispelled any erroneons notions which my earlier awkward statement may have conveyed.

Another Swift Lynch Verdict

WITH ghastly swiftness, the second Scottsboro verdict was handed down today at Decatur.

Now the young Clarence Norris has been sentenced to die.

The testimony of Ruby Bates, smashing so completely the whole frame-up perjury of Victoria Price and the other witnesses, the crude contradictions between almost every word of the prosecution's case, the naked, ugly, face of the frame-up, glaringly evident even to the most reactionary observers-all this made no difference to that lynch court.

The capitalist judicial machinery of Alabama no longer strives even to conceal its unity with the lynch gangs of the plantation landlords. They are unitedthat the limp, charred bodies of these innocent Negro boys must be flung into the faces of the Negro people and the toiling masses of the world as the grim symbol of their ruling class authority.

IN LITTLE more than six weeks, the Alabama rulers plan to strap these two innocent Negro boys to the electric chair and drive agony through their brains with the turn of the powerful, electric switch.

. .

Now, nothing stands in the way of the swift exccution of these lynch verdicts but the same power that has kept them alive ever since they were seized in Paint Rock, Alabama, three years ago, the might of world protest!

The ruling class of America, part and parcel of the whole lynch machinery of the South, part and parcel of the whole lynch incitation and Jim Crow system of oppression against the Negro people, is now attempting to play a new game to disorganize this sole, effective defense, of the Scottsboro boys.

The capitalist press is attempting to pour into the minds of the masses the insidious poison that it is now hopeless to expect "justice" of the Alabama courts, and that faith must now be placed in the "justice" of the United States Supreme Court.

The capitalist press, no longer able to cnoceal the too crude lynch savagery of the ruling class of Alabama Court, and too fearful of justifying these obvious frame-up lynch verdicts in the face of the world protest and indignation of the masses, now attempts to create the fatal illusion that Alabama is an "exception," that the Supreme Court will be "fairer."

Against this damnable strategy, against this attempt to disorganize the ranks of the Scottsboro boys' protectors, we must fight with the greatest fury and vigilance.

. . . .

THE Supreme Court is just as much part of the whole ruling class lynch machinery as the Court at Decatur! Its decisions, its actions, its members, are all at the service of the Wall Street ruling clique that organizes and profits from the lynch oppression of the

Whom Do They Serve? HE national officials of the American Federation of

Labor, in order to try to maintain leadership over a growingly discontented rank and file, have been stirring up a sham skirmish in Washington, "demanding" representation on the N.R.A. code authorities. 'They attempt to maintain a pretense of distinction of the A. F. of L. leadership from the N.R.A. apparatus.

The workers in a factory on strike might as well demand representation on a committee of the scabs.

The proposal of General Johnson to place John L. Lewis on the N.R.A. coal code "authority" is no risk to the employers. The American Federation of Labor officials from the start have been staunch supporters of the N.R.A., an integral and important part of its apparatus.

William Green said when the N.R.A. was first put into operation, "this law should do much toward putting business back on a constructive basis." He said that "labor is anxious to co-operate with industry" in the carrying through of the N.R.A. Lewis, who sold out the bituminous coal strike, is already a member of the National Bituminous Coal Industry Board. Edward McGrady, long an A. F. of L. misleader, is assistant secretary of labor and a leading figure in putting across the N.R.A. All of the A. F. of L. officials without exception indorse the N.R.A. In fact the strike of the soft coal miners of Pennyslvania was not only a strike against the steel trust, against the anti-union provisions of the N.R.A. coal code, but again the strikebreaking dictates of Lewis as well.

. . . .

THE N.R.A. is the governmental apparatus of finance capital, set up by the employers in order to save the capitalist system from the present crisis, by a wage cutting, unemployment, speed up, strikebreaking drive against the workers. The N.R.A. apparatus is the government apparatus through whose force and power finance capital breaks strikes. The N.R.A. has cut wages; it has speeded up the workers; it has attempted to outlaw strikes; it is trying to destroy all militant action of the workers, led by the really militant unions controlled by the workers themselves.

In carrying through this attack on the workers, the prosperous and highly paid labor lieutenants of the employers in the ranks of the workers, the A. F. of L. officials, are essential. They are now carrying through their traditional role of co-operation with finance capital and its government, the role played by Gompers during the world war. Gompers, the father of the class collaborators, acted then on the War Industries Board of President Wilson. Together with his colleagues, the Wolls, the Greens, etc., Gompers sold Liberty Bonds, and aided in the mobilization of the A. F. of L. unions to make cannon fodder of the workers and win markets for the bankers.

Gompers and his A. F. of L. aids then, as now, defeated and broke strikes, declared it "unpatriotic" to fight for higher wages, and outlawed strikes, through compulsory "arbitration" schemes, and government decrees, and the use of troops and terror. Gompers was the leading strikebreaker of his day.

ODAY, Green, Woll, Lewis, et al., are carrying through the same strikebreaking program. Their propaganda among the A. F. of L. workers against the right to strike, identical with that of Johnson and Roosevelt, exposes these men for what they are. The right to strike has been fought for by the workers of the United States for years in many bitterly fought struggles. The United States Government, the government of finance capital, has declared strikes outawed. They send out the Lewis's, the McGrady's to propagate the idea of "industrial peace," and to carry through the program of outlawing strikes for finance capital.

Yesterday's session of the conference was marked with a notable sim-mering down of the drive against the United States, for a moratorium on governmental debts owed American bankers, withdrawal of U.S. finance control over Haiti and against armed intervention in Cuba. The dominant position of the United States at the conference has been greatly undermined by the conference's invitation to Spain and Portugal to aftend as "mother countries," and by its decision favoring the League of Nations plan for "peace" in the Chaco war as against the United States plan.

There is only one voice that these capitalist judges can hear! That is the giant roar of world protest, of mass actions, of mass anger! That is the only language they can understand and fear!

It is this huge world protest that alone saved 'Tom Mooney. It alone can save the Scottsboro boys from execution. Nothing else can. All other ideas about the "fairness" of the Supreme Court have only one purpose-to put a brake on the present mass anger at the death verdicts in order to permit them to go through unhindered!

It is upon the International Labor Defense, the organization that first wrested the boys from the hands of the lynchers, and the organization that has so relentlessly fought for their lives, that the responsibility falls to stir the masses of America and the world to Instant action!

THE I.L.D. must galvanize the masses, Negro and white, into fury against these hideous murder verdicts.

Unceasingly, it must hammer home that the most able legal defense in the world is futile without the support of the oppressed millions! Behind its legal defense it must organize the real power of the defense-the articulate anger of the masses!

The lynch challenge of the Southern masters can answered only by the rising up of an enormous wall of mass anger, mass determination to step between the Scottsboro boys and the lynch executioners.

The country must rock with the activity of the masses in every factory, in every trade union, in every mine, street, neighborhood, and home, the workers of America must resolve that the lynchers will not massacre the innocent Negro Scottsboro boys, that the lynch challenge of the capitalist rulers will be answered.

IT IS the Communist Party, the revolutionary van-guard of the toiling masses, that must immediately become the lever to set these waves of mass anger into motion.

Immediately, the whole Party apparatus, every district, section, unit and fraction, must leap to action, organizing the protest against the lynch verdicts. Upon every Party member rests the direct responsibility for immediately responding with the maximum energy to the life and death task of saving the Scottsboro boys! The Party must go everywhere among the es with the burning call for organized protest against the lynch verdicts!

.. . .

THE Negro people and the toiling masses of the coun-I try, millions upon millions, must be organized by the Party and its fractions into the greatest United at army of the toiling masses, regardless of political affiliation, creed or connection, united for the right to free the innocent Scottsboro boys from the hands of their lynch executioners!

The ruling class masters call for the blood of the Scottsboro boys. They are unleashing savage, bloody terrorism against the oppressed, starving Negro masses, against the whole toiling population.

Scottsboro is their bestial challenge. We cannot to answer

The attacks of the employing class on the workers have increased. Finance capital makes more and more open use of the government apparatus (of which the N.R.A. is a part), in these fascist attacks on the workers. The increase of fascist tendencies in the United States, is accompanied by more and more reliance on the social-fascist A. F. of L. leaders to carry through these strikebreaking attacks-dictatorial outlawing of strikes, increased terror against the workers, intensified wage cutting and speed-up drive, mass unemployment.

IF THE strikebreaker Lewis is made a member of the code authority, it will be because he is needed in that position by the employers. If these A. F. of L. officials are given N.R.A. jobs, it will be to create the illusion that the N.R.A. gives "representation" to the workers.

. . . .

The workers inside the A. F. of L. must demand that their officials withdraw from the strikebreaking and wage cutting N.R.A. apparatus, from the committees of the employing class. We must through rank and file organization inside the A. F. of L., carry on the struggle for the daily demands and needs of the workers inside the shop, and inside the A. F. of L. unions. The workers can gain something but not by co-operation with the bosses; only through the policy of fighting against the employers for our demands, the policy of class struggle.

The Ultimate Aim of the Communist International-World Communism

"The ultimate aim of the Communist International is to replace world capitalist economy by a world system of Communism. Communist society, the basis for which has been prepared by the whole course of historical developments, is mankind's only way out, for it alone can abolish the contradictions of the capitalist system which threaten to degrade and destroy the human race.

"Communist society will abolish the class division of society, i. e., simultaneously with the abolition of anarchy of production, it will abolish all forces of exploitation and oppression of man by man. Society will no longer consist of antagonistic classes in conflict with each other, but will represent a united commonwealth of labor. For the first time in its history mankind will take its fate into its own hands. Instead of destroying unnumerable human lives and incalculable wealth in struggles between classes and nations, mankind will devote all its energy to the struggle against the forces of nature, to the development and strengthening of its own collective might."

A Victory of the USSR--A Victory of the World Revolution

LEADING EDITORIAL BY INTERNATIONAL PRESS CORRESPONDENCE ON SOVIET RECOGNITION

(The following is the leading editorial in the latest issue of the International Press Correspondence, Vol. 13, No. 51, November 24, 1933. -Editor's Note.)

"On the Sixteenth Anniversary of the October Revolution we have more right than ever to say that in the present relation of forces the balance is shifting more and more in favor of Socialism as against capitalism." (Molotov).

The last attack of the Ku-Klux-Klan, the American Legion and the leaders of the American Federation of Labor, with Mr. Green at their head, has failed, although it had the support of the most reactionary elements of world imperialism and fascism. On November 17 the Government of the United States granted de jure recognition to the Soviet Union The significance of this event can be fully appreciated only in its relations to the present world situation.

End of Stabilization With the end of the relative stabili-

zation and the beginning of a new revolutionary advance, an advance which has been furthered by the successes obtained in the Soviet Union in the building up of Socialism, the representatives of monopoly capital have resorted to fascism to an unparalleled degree in order to hold down the workers with a bloody civil war and to find a solution of the world crisis if in no other fashion than by a war to be carried on above all against the Soviet Union, the bulwark of the world revolution. Let us recall the first days of spring this year. The world bourgeoisie was making tentative efforts to find a solution of the crisis with peaceful means. The final preparations for the world economic conference were being made in London. Roosevelt era in the United States was being ushered in with drums and trumpets as a solution of the crisis on the basis of anti-Marxist socialism. But the chief trump of capitalism in its fight against the crisis, or rather the series of crises, was bloody fascism, the prospect of war. The vic-tory of Hitlerism in Germany was beginning to have foreign political results. National socialism Was making new conquests in Central Europe; it was advancing above all in Austria.
