Anti-Lynching Meets In Canton, Other Cities

PHILADELPHIA, Dec. 11 .-A half hour protest strike against the Decatur lynch verdicts was voted by a meeting of 500 dyers, members of several A. F. of L. locals, at the Garrick Hall, 507 South 8th Street, last night.

The strike is set for tomorrow (Tuesday) and will take place between 1:30 and 2 o'clock. The strike cote is the first of its kind in the history of the long Scottsboro struggle and is a gauge of the furious indignation aroused among the workers black and white, by the farcical De catur trials and new lynch verdicts against Heywood Patterson and Clar-

ence Norris.

The strike call was sent to 2,000 members of the Dyers' and Cleaners' Union, by the Executive Committee after William L. Patterson, National Secretary of the International Labor Defense, had stressed the need for unity of white and Negro workers in militant action for the release of the Scottsboro boys, Tom Mooney and other class war prisoners.

Scottsboro protest meetings will b held in all the shops controlled by the union, for the adoption of resolution to be sent to President Roosevelt and Governor Miller of Alabama demanding the release of the Scottsboro boys. The union will also send a letter to other A. F. of L. unions, urging their support for the struggle.

1,500 Coal Miners Strike, Demanding Pay for Dead Work

laws" Strike; Jobless Pledge Solidarity

By TOM MYERSCOUGH

JOHNSTOWN, Pa., Dec. 11.-Fifteen hundred soft coal miners in five mines of the Reich Coal Co. in Somerset Co. (Central Pennsylvania) laid down their tools and struck Friday morning, when the company re fused to provide them with supplies (rails, props, etc.) with which to work in safety. "Dead work" with-out pay and arbitrarily imposed docking for "dirty" coal are also listed among the miners' grievances. U.M.W.A. Leader Would Break Strike

The company brazenly declares: violation of contract" will not be olerated, but ignores its responsibilits refusal to agree to supply the men with these essentials to mining coal, although both the State Mining Law and the N. R. A.-U. M. W. A. agreement both provide that this is a company responsibility.

Supporting the company position is Dave Watkins, the "floating" U. M. W. A. organizer, who works every-where (for a while) except in Ohio (But this kind are known best in their home bailiwicks). He declares that the strike is "outlaw" and threatens a fine of \$1 for each day men, are on strike.

Rank and File Proposals

There is every justification for this rike. It's only fault is its lack of preparation, but this can be overcome if immediate steps are taken to sol-idify it and spread it, if deemed

necessary.

BOSTON, Mass., Dec. 11.—The con-ention hall at Hotel Bradford was packed with shoe union delegates rom New England, New York and other cities, as the first session of the convention, called to form one big union of shoe workers, got under way at 2 p. m. today. Some 250 delegates are estimated to be present, although the official count has not yet been announced. The first session was marked by great disorder and confu-sion as to procedure, indicating that the convention will be a stormy one

Although some elements in the con ention attempted to side-track pro posals from the floor for a credentials committee representative of each par-ticipating organization, this was defeated in the actual vote of the rank and file delegates. It seemed clear that some effort was being made to keep the Industrial Union delegates off the committee. The rank and file voted to elect a representative of each organization on the credentials delegate, from the Shoe and eLather Workers Industrial Union, from the National Shoe Workers Association of New England and St. Louis, Shoe Workers Protective Union and the Salem Shoe Workers Union.

WORLD PROTEST AGAINST FASCIST MURDER AXE ON DEC. 19 TO SAVE WORKERS' LEADERS

Only a few days remain for mobilization on December 19, of the widest international protest day against the impending fascist murder of the four defendants in the Leipzig frame-up.

The Leipzig trial is speedily coming to a close. The most infamous trial in the historic period of decaying capitalism unveils the degeneracy and rottenness of the German bourgeoisie, fighting to maintain its last position. The murderers of the German working class who have been exposed, whipped, and defeated by the fearless exposure made by Dimitroff, Torgler, Popoff, Taneff, who tore down the mask of the degenerate Coering, are thirsty for more blood.

The axes of bloody fascism, still dripping with the blood of the four Hamburg and six Cologne comrades, are again being sharpened to silence the voices of these other heroes of the German working class, of the world

TERROR DRIVE FAILS

Through a monstrous wave of terror, fascism tried to crush the struggle of the masses to strike a deadly blow to the heroic Communist Party of

In vain! The vanguard of the working class, anchored among the masses from which so many heroes are rising, that steels itself in the daily struggles and has the support of the revolutionary movement all over the world, cannot be crushed.

Comrades: Workers and Farmers, Negro and white! Forward in the struggle to stop new death sentences, to save D'mitroff, Torgler, Taneff and Popoff for their class! These heroes are ours! They must not die!

There must not be any delay. We must act at once in the most energetic manner. The workers of the U.S. must show to the representatives of the decadent German bourgeoisie that the toiling masses of this country are soul and body with the oppressed, toiling masses of Germany that we are determined to save the lives of the innocent, the lives of such fighters as Dimitroff, Torgler and the other champions in the struggle against fascism, whose heroic attitude inspires the struggle of the working class all over the world.

ACTION IS VITAL!

In every workers' organization, in every shop, in every union, among all enemies of fascism and lynching, in every part of the United States we must build the broadest united front to stop the ax of the Nazi murderers. We must cut at the root of the rising heads of the fascist hydra in this country. The fight against the growth of fascism in the United States, against lynching, must be mobilized in defense of our German brothers. In fighting against the fascist murder threat in Germany we will strengthen our forces in the fight against fascism in the United States.

BOSTON, Dec. 11.—The prize for the most humorous observation of this crisis year will unedly go to Cardinal O'Donnell, who yesterday warned Cath-olics of the danger of being "unjust to the rich."

"There are plenty of men, leading bankers, who are honest as the sun," he said. "Let us be careful not to make our appli-cations too sweeping just because a man happens to be at the head of a large banking establishment. Do not attack him as though he were a criminal. That is not just.

"You cannot be unjust to the rich and just to the poor. The great work we have to do is to convince those who deal with money to deal with it honestly, as most bankers do."

NE of the amendments to the columnist's constitution provides that whenever you run a letter criticizing your stuff you observe that it is printed and commented upon not because you want to defend yourself but because it "represents a tendency." Fundamentally the amendment is sound. It is a pity that its frequent abuse has made me an advocate of repeal.

This is an indication of how rapidly the process of permanently eliminat ing workers has been going on. Green One fact is constantly left out of consideration by the capitalists and school has been increased from five cinema under the direction of the reach the age when they must sell to ten. The school library is being John Reed Club. their labor power to live. They bebuilt up speedily. It will consist of books, magazines, pamphlets and a over \$150. This fine response more are not counted as unemployed because they never had a job. Of these alone, since the crisis, there are around 8,000,000 without work.

Permanently Out of Work

We can say now that the permanent unemployed army in the United States, no matter how high the level of production may go, will remain be tween 15,000,000 and 17,000,000. Furthermore, the entire working-class must face the perspective that larger and larger number of its ranks will be driven into the ranks of the permanently unemployed through speed-up, improved machinery, shorter hours (with lower wages, of course) and through the general increase in echnological unemployment.

Understanding these facts, we can appreciate the warning sounded by Comrade Gussev in his article on Tasks of the American Communist in Organizing the Struggle for Social Insurance." In that article Comrade

"It is necessary, above all, to instil the most complete understanding into the whole Party that the campaign for social insurance, alongside and including the struggle against wage cuts with the shortened week (irrespective of whether such a short week is adopted) and the struggle for immediate aid for the unemoloyed, touches vitally, in addition to the anti-war campaign, the most urgent and burning interests of the proletariat, and that this campaign at the present is the chief link to be seized to tug the whole chain, that this campaign demands the mobilization of all party forces for the whole period of indefinite length, and that a planned unbroken, every-day persistent conduct of this campaign is necessary."

New Factors What has happened in the United States since this was written? The N.R.A. and the C.W.A. have come into existence. These have more closely connected the struggle lief with the struggle against war. The Roosevelt regime has mobilized all of its forces to struggle definitely against unemployment insurance. For example, on Dec. 8, Harry M. Hopkins, director of the C.W.A., declared that the C.W.A. would become a permanent feature of the Roosevelt regime as against unemployment in-

surance. "We condemn as a deliberate lie the statement of the Borders-Trojar leadership, that we have joined the Workers League, an organization workers League, are organization." It might easily lead to a scheme, he said, "of using civil works as a device for permanently providing work on important public projects for the unemployed. The country is not going to be kindly disposed to unemployment insurance in terms of men going to a window to get a dole." Re-Employment and Unemployment

Now with the failure of even this plan, we find Roosevelt spokesmen reverting to talk of the 30-hour week. General Johnson in a recent speech declared that the 30-hour week would be necessary in order to take up existing unemployment.

The sooner i knows the probable truth about such a condition, the better. Nothing is gained by having it camouflaged." Yet we must say, despite all these admissions, despite the obvious fact that very, very few have received work, that the great mass of unem-

ployed is as great as at any time dur-

ing the present crisis, the struggle

for unemployment insurance has lagged woefully. The issue of the

ing class is not raised sharply enough Comrade Gussev pointed out that throughout the entire crisis this campaign has gone on by fits and starts. For the first three years, the Communist Party initiated, led and was the main force in the campaign for ocial insurance. Later reformist elements entered the struggle, confusing the workers. But the Party was not able to organize the unemployed, in unity with the employed, to over-

come the confusion and demagogy. Roosevelt Demagogy.

Now the situation is still more complicated by the Roosevelt demagogy and action. Roosevelt has been a skilful maneuverer for the bosses, in addition to the reformist demagogy that was let loose against the unemployed. He has introduced forced laannouncement that for the few who ployed. For example, the New York bor. He has aroused great hopes receive jobs, millions face the prospect Herald Tribune, on December 10th, and illusions among many of the unemployed, which all the capitalist propaganda agencies have not failed to exploit to the full. At this very period, our organization of the unaployed and employed in the strugglei for unemployment insurance has greatly lagged when we required the greatest firmness and persistency.

Then when the great strike struggles broke out, we lost sight of the main, fundamental basis in the struggle for unemployment insurance, unity of employed and unemployed. We did not sufficiently raise the demand for unemployment insurance in the strike struggles, and where it was raised it appeared in a mechanical and purely propagandist form.

Now the CWA is creating some confusion. We do not sufficiently raise the demand for unemployment insurance against it, though Roosevelt, as we see in the speech of Hop-kins, loses no opportunity to raise the CWA against unemployment in-surance. Besides the concrete desuch as jobs for all workers, guaranteed 36 hour week and full weekly wages, clothing, etc., out of all these struggles the major demand should be unemployment insurance.

F. of L. under the direction of the N.R.A. conciliator, Mr. Moore, who just arrived from Gallup, New Mexico. The vote was as follows: For the company union 1,026; for the A. F. of I ion, 602.

It is significant to point out that about 1,300 workers in the plant were members of the A. F. of L., the International Association of Machinists. Why did over half of the workers vote in favor of the company union in the plant in preference to the union of which they were members? It is because of a mysteriou rumor that got started while the election process was going on, that if the vote was in fayor of the union, the management would shut the plant down. It is to be regretted that we Communists did not see the possibility of such a rumor and warn the

This Party is a cross between the I.W.W., S.P., and S.L.P. It is led by an individual who goes by the name of Silver, who has a small group of ex-I.W.W. members. They institute a sect, and have only one object: to attack and slander the Communist Party. Who pays their expenses, since they have no mem-bership, is a doubtful matter. It is not known either how they differ in principle from the S.L.P. This outfit claims that they stand

for industrial action; that is, for organizing the workers into industrial unions, and organizing a general strike in order to support the attempt to take control of the state by voting the industrial unions into power in the legislatures and government generally. They claim to differ from the I.W.W. in advocating parliamentary action. They claim to differ from the S.P. by standing for industrial unionism and the general strike. This sectarian clique organized by shady elments who are most likely stool pigeons, unite with the S.L.P. in pposition to immediate demands. They call the Communist Party a reformist Party because, as they say, the Communist Party wants to save capitalism by advocating and fighting for Unemployment Insur-ance and Relief. DETE Garvey, an Irish seaman, is indignant because in these columns recently I compared the Soviet Red Army to the Puritan troops of Oliver

"I wish to inform you," he writes, "not as a member of any religious organization, but as a truth-seeker, that Cromwell was the most inhuman monster that Mother Nature ever whelped. He was the Devil's pimp of tyranny, landlordism and imperialism.

"He came into Ireland and confiscated the land from the original owners, made them the slaves of British exploiters. To do this he massacred every man, woman and child in Droheda. He had his soldiers cut the unborn babies out of their mother's wombs and stuck them on the points of bayonets, shouting, 'these nits will not become lice.'

"He made a desert of Ireland, which had been known as the Garden of Europe. He put Irish civilization back for three centuries. Remember, sir, I am speaking as a man who voted for Robert Minor in the late election. I have also helped your paper, but after today I am finished

"Only a liar or a bigot would mention a dirty louse like Cromwell among human beings. Is it any wonder that the liberal government, when it came in power, dug up his body from the grave and severed the head from the body and stuck it on the spire of the Tower of London? "I have only mentioned a few of Cromwell's deeds-the rest of his acts are too immodest to print."

England's First Colony

WELL, Comrade Garvey, you are fully justified in your attack on Cromwell. It is true that he was a butcher and imperialist, and is still rightfully loathed by every Irish worker.

It is not my intention to conceal the crimes of Cromwell against the Irish people.

But we must also look upon these matters in the historical light. As compared to feudalism Cromwell represented a progressive force in the world for a time. He struck one of the first blows in the bourgeois revolution that spread to country after country, including the great French Revolution and that destroyed feaudalism. His army was made of the British masses, Roundheads they were called in contempt by the Royalist cavaliers.

The Royalists could not believe that they, with all their traditions of gallantry and chivalrous courage, their experience in war, could be beaten by a psalm-singing "rabble." But they were beaten, and beaten badly, and their King lost his head.

Cromwell was a necessary step in the world's progress from an agrarian feudalism into the bourgeois machine age which created not only the millionaire, but also the revolutionary working class.

This bourgeois revolution, which fought for liberty for mechants and hopkeepers, and which in the voice of great spirits like Milton, expressed noble ideals of free speech and democracy, also ushered in its regime by the conquest of Ireland, which Engels has called "England's first colony."

The conquest was achieved with all the heartless brutality Comrade Garvey points out. The greedy British landlords were as capable as Hitler of any atrocity. Cromwell Ushered in capitalism, along with its boasts of democracy and free speech. The mother of parliaments, England, has always posed as a complacent and law-abiding person at home, but beyond her doorstep has openly been a filthy, thieving and cowardly killer. She began her career in Ireland, continued it in India, and is still

busy in Egypt, Palestine, Mesopotamia, and similar places.

The Red Army

T WOULD have been better had I not compared the Soviet Red Army with Cromwell's troops. This Red Army is something new in the world and not to be compared with any in the bourgeois past or present. It is really a great university, where millions of boys are taught an international viewpoint. It is no imperialist army, but the vanguard of the workers' armies that will fight imperialism everywhere. The enemies of a free Irish Workers' Republic are also the enemies of the Red Army and

Beis only because Cromwell represented a revolution, as did Danton and Robespierre, that his troops beat the Royalists at home, Had I compared the Red Army to the French people's armies that defeated royalist Europe my comparison might have seemed less offensive. But like any analogy it still would have limped.

Anyway, Comrade Garvey, you cught to get hold of books like James Connolly's "Labour in Irish History," or the fine pamphlet by Ralph Fox, "Marx, Engels and Lenin on the Irish Revolution" and acquire a broader historical slant on these issues.

We are through with being so indignant over the past that we forget the present. The only forces today that fight against the British imperialism that began with the ushering in of capitalist rule by Cromwell are in the Communist movement of Ireland, America, England. When you stop helping the Daily Worker you are really helping the bloody heirs of bloody Ofver Cromwell.

The Irish Workers

After the drive for funds for the Daily Worker is finished, I plan to propose a fund in this column to go toward the establishment of an Irish Workers' weekly in this country

Meanwhile, visit the Irish Workers' Club at 304 W. 58th St., and help them lay the basis of a strong organization.

I wonder if it is widely known that Marx and Engels thought the Irish question so important that Engels, with the encouragement of its great collaborator, worked for years gathering material for an economic history of Ireland. His death interrupted the work, which would have had a profound importance.

Engels was married togan Irish girl named Lizzie Burns, an ardent Fenian, and made three visits for research and study to Ireland. His wife was an active worker in the Fenian cause. Engels contributed heavily of his own funds to that movement, sheltered the exiles, and agitated in the press for Irish freedom. He studied Gaelic, and could read and speak it.

Strachey Lecture On 'Culture and Fascism' Sunday

NEW YORK. - John Strachey, toted British critic and author of the "Coming Struggle for Power" and "The Menace of Fascism," is entering the arena of the present conflict between advocates of the Marxist approach to literature and their liberal, bourgeois adversaries.

In his coming lecture before the John Reed Club on "Culture and Fascism," Fascism," Strachey will examine from a Marxist viewpoint the literary theories and practices of the leading bourgeois critics, Max Eastman (the Scribe of Joseph Freeman's recent polemic in "What a World"); Henry Hazlitt, literary editor of "The Nation"; Archibald MacLeish, celebrated bourgeois poet, hose recent "Frescoes" is an intellectual landmark in the shift of America's ruling class to a Fascist position; Joseph Wood Krutch, au-thor of "The Modern Temper"; Allen Tate and the new cratic Southern school of critics, will be among the exponents of bourgeois and liberal thought whom will discuss.

This will be Strachey's only lecture on a cultural subject in New York City, and in view of the growing interest in his subject it is expected that very many will want to hear him when he speaks on Sunday afternoon, Dec. 17, at 3 p.m., at the City College Auditorium, 23d St. at Lexington Ave. Tickets are on sale at the John All seats are reserved.

These memories, which give an in-

timate portrait of the great leader of the international working class, are taken from Volume II of the "Memories," published by International Publishers. Yesterdely's installment dealt with the arrival of Lenin in Paris in 1999, the publication of Lenin's "Materialism and Empirio-Criticism" and his fight against the "God-creators and God-

Book Store. also arrived. But he did not come to attend the conference. According o French custom our comrades took nim to the cafe where he and Shulvpeer. But Shulyatikov could not stand the drink; he suffered from hereditary alcoholism. The beer he drank caused a severe nervous fit, and on leaving the cafe he suddenly attacked Shurkanov with his walking stick. Innokenty and Golubkov barely managed to retstrain him. They brought him to our house. I remained at home with him while they went to look for a doctor, and a room for him somewhere in the suburbs. They found a room on the Fontenay-aux Roses, where Semashko and Vladi-

mirsky lived. For two hours I stayed with the sick Shulyatikov in our bare living room. He tossed about nervously jumped up, and had visions all the time of his sister who had been hanged. I tried to calm him and to distract his thoughts. I held his hand and this seemed to have a soothing effect. No sooner would I tive instruments, a dance from the take my hand away than he became ballet "Don Quixote," by Asa and restless again. I waited impatiently Sulamith Meserer and a group of for Innokenty and Golubkov to come for him.

the need for theoretical training; moreover, this was a time when the immediate struggle had died down and there was time for this sort of thing. The workers went to Capri to lay the foundations for a new fraction. And so, the enlarged meeting of the editorial board of "Proletarii" passed a resolution condemning the organization of this new fraction. Bogdanov declared that he would not submit to the decision of the meeting and was expelled from the fracion. Krassin came out in his defense. The Bolshevik fraction split.

In the spring, even before the meeting of the editorial board of "Proletarii," Maria Ilyinishna fell sewas very much larmed. Fortunately the disease was checked in time by an operation perneeded a rest outside of Paris in the The conference put a great strain

upon Ilyich, and when it was over it was necessary for him to go to the country for a rest, away from the curmoil and squabbling of emigre life. Hyich began to scan the French

ewspapers for advertisements of heap boarding-houses. He found a poarcing house in the village of Bon Bon in the region of the Seine and Loire which only charged ten francs per day for four persons. We found the place very convenient and lived there about a month.

Ilyich did no work at Bon-Bon, and we tried to refrain from discussing Party affairs. We went for walks every day and almost every day cycled to the Clamar forests, 15 kilometers away. We also observed French ways of life. Most of the guests at our boarding-house were office employees, shop assistants, etc. One was a saleswoman at a fashionable store, who was staying with her husband and daughter. Another was a valet to some Count, It was quite interesting to watch this petty-bourgeois crowd with its strongly marked petty-bourevening; "La Forza del Destino," question discussed at the meeting was that of the Capri school. Social-Democratic propagandist great gusto. But that did not pre-school for workers. A worker named vent her from speaking longingly o vent her from speaking longingly of the time when she would lead her daughter Marthe to her first commu-nion, how touching that would be, etc., etc. Of course, to a large degree, this mediocrity bored us. It was a good thing that we were able to keep aloof from them and live as we wanted to. On the whole, Ilyich had a good rest at Bon-Bon.

> In the autumn we changed our quarters. We moved to an apartment in the same neighborhood in Rue Marie Rose. We had two rooms and a kitchen-our windows looked out on a garden. Our "living room" now the kitchen, where all the hearto-heart talks took place. By spring Vladimir was eager to set to work. He established a certain routine, as he called it. He would get up at 8 o'clock in the morning, go to the Biblio-theque Nationale, return at 2 p.m. He also did a lot of work at home. I tried to keep people away from him. We always had many visitors, crowds upon crowds, especially at this time when, owing to the reaction raging in Russia, and the trying conditions of work, emigration from Russia in-creased very considerably. People ould arrive from Russia and relate with enthusiasm what was going on there, but soon they seemed to wilt, They became submerged in the daily effect to earn a living and the petty

worries of life.

Capri school invited Ilyich to come to Capri to lecture there. Ilyich caterefused. He explained to them the fractional character of the school and asked them to come to Paris. Within the Capri school, a fractional struggle flared up. In the eginning of November, five students there were twelve in all) including Vilonov, the organizer of the school, officially declared themselves to be staunch Leninists and were expelled from the school. This incident proved better than anything else how right fractional character of the school. The expelled students came to Paris. formed by Dubouchier. Her convales-cence, however, was rather slow. She with Vilonov. He began to tell us about his work in Ekaterinoslav. We had frequently received letters from worker correspondent in Ekaterinoav, who signed himself "Misha Zaodski." His letters were very intersting and dealt with the most vital uestions of Party and factory life. ich towards Michael and they had a ery long talk that day. In the evening of that same day Ilyich wrote to Gorki as follows: "Dear Alexey Maxmich: All this time I have been fully onvinced that you and Comrade Michael were the staunchest champions of the new fraction, and with hom it would be absurd for me to attempt to speak in a friendly way. Today I met Comrade Michael for the first time. We had a heart-toheart talk about affairs and about yourself and I realized that I had been greatly mistaken. By gad! Phi-losopher Hegel was right: life progresses in contradictions, and living contradictions are much richer, more varied and profounder than the human mind can at first grasp. I regarded the school merely as a center of a new fraction. This proved to be wrong—not in the sense that it is not the center of a new fraction (the school has been and is such a center) but in the sense that this is not comolete, it is not the whole truth. Subjectively, certain persons were mak-ing the school such a center; objec-tively, it was such a center; but in addition to this, it drew from real working-class life real advanced workers." And what an ardent conidence is expressed in the strength of the working class at the end of the letter where Lenin writes that the working class must forge a party out of elements of every kind and every calibre. "No matter what happens," he writes, "an excellent, revolutionary, social-democracy will be forged in Russia much sconer than astometric, social-deniceracy astometric, in Russia much sconer than organized in Russia much sconer than so fond of the revolutionary music-state seems to us looking at from the angle of this thrice cursed state of half singers who poured ridicule on half singers who poured ridicule on the election campaign. Facts and Ballyhoo

ATEST unemployment figures for New York State put another hole into the badly leaking ship of the Roosevelt ballyhoo about re-employment. Elmer F. Andrews, state industrial commissioner announced Monday, that from mid-October to mid-November, 3 per cent of the employed lost their jobs. While employment dropped 3 per cent, wages dropped 4 per cent. Those employed got an average cut of 1 per cent for this month alone.

In unemployment figures, New York is a weathervane for the whole country. Throughout the whole Hoover period, when the federal government reported employment increases, the New York figures showed decreases, reflecting more nearly the actual state of

Smaller drops were shown in iron, steel, brass, copper and aluminum. But in all leading industries the state there was a steep drop in the number of employed. Translated from percentages to living workers, it means that tens of thousands lost their jobs, with no prospects of earning a living, faced with decreased relief lists, with a few O.W.A. jobs, for which there are millions waiting vainly.

One of the vicious facts admitted by the New York State industrial commissioner is that the increase in employment, though usual during October, is greater this year than usual.

The rise in unemployment—and the greater rise to come-should be the greatest stimulus to the movement for unemployment insurance.

These facts of rising unemployment should be used to the full to mobilize for the national unemployment convention to be held in Washington, D. C., January 13, 14 and 15.

A Revolutionary Duty

AFFILIATED in the Trade Union Unity League there are unions with over 100,000 workers. Furthermore, in the A. F. of L. there are many opposition groups, working closely with the revolutionary trade unions in all the struggles of the workers for increased wages, union recognition, and against the attacks of the em-

All of these workers, and many more thousands under their influence, and following their leadership, have been in the crux of the major strike struggles that swept the country this summer and fall.

Especially in the basic industries, such as coal and steel, where the revolutionary unions have been leading the struggles, the workers have learned of the principles and program of the Communist Party. They have seen its leaders in action. They have learned many lessons of the role of capitalism, and its state power,

To these workers, who have been in the front lines of the class struggle, we appeal to join the Communist Party. Join the Party of your class. Join the Party in the vanguard of the struggle against capitalism on

YOU workers who have shown your militancy and courage in the face of the mobilization of all the gunmen and thugs of the steel and coal trusts know that it is the Communist leadership that has been most stalwart and unflinching in the struggle. You also know that in your economic struggles, in the fight for better living conditions, against the drives of the bosses, all of the political forces of the bosses were brought into action against you.

Many of you have the greatest respect and sympathy for the Communist Party. You have seen it in action and know it is fighting for the overthrow of capitalism and the victory of the American toilers. We appeal to you to lend your force to the Communist Party. By entering its ranks and swelling its numbers, it will be able to speed the work of ending capitalism.

We appeal to you now to join our ranks, to become a member of your Party, and to take a more leading part in the struggle against capitalism and for a revo-Iutionary way out of the crisis.

MANY of these workers we know feel close to the Communist Party. But there was not that conscious driving force necessary to enlist them into the Party. This becomes the task of the Communist fractions within these unions. Those trade union leaders in whom the workers have faith and confidence, precisely because they are Communists, are the ones who have the greatest responsibility in actually recruiting these workers.

Especially in the basic industries where the Party must be rooted have we seen the lack of this conscious recruiting among the workers in the great struggles that have taken place. We have not sufficiently been conscious of the necessity of mobilizing these workers into our Party, as pointed out by the Open Letter addressed to the Party membership by the Extraordinary Party Conference held last July, just before the outbreak of the huge strike wave. At that time, the Open Letter declared

"It is idle chatter to talk about the revolutionizing of the working-class by the Party, unless the Party conquers a firm basis for itself among the miners, metal and steel workers, railroad workers, auto, marine and textile workers.

"The working-class will be in a position to fulfill tis role as the most decisive class in the struggle against finance capital, as the leader of all toiling masses, only if it is headed by a Communist Party which is closely bound up with the decisive strata

To you workers in these decisive industries who have been engaged in struggle and are convinced of the necessity of overthrowing capitalism, we appeal-Join the Communist Party!

To the leaders of the revolutionary trade unions and the leaders who are helping the opposition forces in the reformist unions, we say-recruit for the Communist Party! Build the Communist Party into a mass proletarian revolutionary Party of the American

The S. P. As Roosevelt's Financial Adviser

THE Socialist Party, in a statement signed by Norman Thomas and Louis Waldman, yesterday, declared that it is opposed to the Roosevelt inflation policy.

This will come as a surprise to many workers who have been reading Norman Thomas' articles in the Socialist paper, the New Leader, in which he has been for months advocating a program of "controlled inflation." and a program which he called "partial

The Socialist Party leaders in all their proposals have one thing in mind-the best ways to preserve the capitalist structure, under which the Wall Street monopolies make their huge profits. Their proposals are never the revolutionary class proposals of the proletariat directed against the Wall Street rulers.

Instead, their proposals are always peculiarly adapted to the special needs of the capitalists at each stage of the advance of the crisis.

Concretely, their latest program, allegedly against inflation, is the specific program that, at the present time, plays right into the hands of the Wall Street monopolies. It fits right in with the whole Roosevelt program of driving down the living standards of the masses, of assisting the Roosevelt government to protect the monopolies from any heavy expenses in caring for the unemployed. It is a program peculiarly adapted to permitting the Roosevelt government to continue its subsidies and support to the Wall Street bondholders. And all this is disguised behind "radical"

N THIS statement Norman Thomas declares:

"The few advantages that might be gained from inflation and the changes sought to be accomplished by those who advocate it could be achieved by sounder methods without incurring the dangers involved in inflation."

Then Norman Thomas outlines a five point program which he offers in place of inflation:

1. Reduction of interest on all indebtedness, including farm mortgages, to 2 or 21/2 per cent.

2. The reduction of the capital structure of all business and utilities affected with a public interest, representing a form of liquidation of the excess financial burden now borne by the nation.

3. A capital levy scientifically assessed and ap-

4. A steep increase in inheritance taxes, the proceeds from which would be used primarily for the retirement of government bonds. (Our emphasis-Ed.) 5. The issuance of currency to finance the public

works program . . . a polcy of financing the public works program, which the next Congress may have to enlarge, by the Asuance of currency instead of bonds . . . (Our emphasis-Ed.)

WE WILL analyze it step by step.

The first paragraph: "the changes and advantages sought by the inflationists can be achieved by sounder methods." That is what it says, doesn't it? Now what does this mean? It means that the Socialist leaders, that Norman Thomas, and the others, are not offering any opposition to the "changes and advantages" sought by the Roosevelt government. They do not attack or criticize the objectives of the Roosevelt inflation! Not one word of criticism of these objectives is mentioned in the document. They merely advise Roosevelt that the same "advantages and changes" can be accomplished by "sounder"

What are the "advantages and changes" that Roosevelt is deliberately trying to accomplish by his N.R.A. and inflation policy? It is the cheapening of the buying power of the masses through depreciated paper money in order to protect the profits of the Wall Street monopolies. This has already resulted in a 10 per cent slash in the real wages of all wage

It is the intensification of the exploitation of the workers, the assistance to Wall Street imperialism to drive outward against imperialist rivals, the assistance to Wall Street monopoly capital in the swifter centralization of monopoly control of industry. Already, Roosevelt's objective, WHICH THE SOCIALIST STATEMENT DOES NOT CRITICIZE, BUT ACCEPTS AS PRAISEWORTHY, has given the monopolies a 450 per cent increase in profits in the last six months!

Look at article 5, for example. An analysis of this proposal reveals that the Socialist Party leaders, behind all their talk against inflation, are in reality, now urging upon the workers the very inflationary proposal which is the logical development and continuation of the present Roosevelt inflation program. They are, in fact, urging upon the workers, that kind of open, crude inflation that Roosevelt himself has not yet dared to foist upon the masses!

Thomas, in this article, urges the workers to accept as wages on another public works program, floods of new, cheap, paper currency! And it is precisely this kind of inflated currency that has already raised the living costs of the workers, and will send prices soaring still higher, still further reducing the buying power of the workers! This is exactly what Roosevelt is heading for!

The Socialist leaders, behind a fraudulent "opposition" to inflation, are preparing the way for Roosevelt's next inflationary attack against the American workers. They are the advance publicity for this next Roosevelt inflationary flood of cheapened cur-

They propose to reduce the interest debt of the small, ruined farmer from 5 to 21/2 per cent. They are very careful to avoid the proposal to CANCEL the mortgages held by Wall Street! They are very careful to avoid touching the sanctity of the private investments of the Wall Street banks in the mortgages of the ruined farmers! They propose a reduction of interests, the better to enable the mortgage holders to keep their investments, the better to break up the fight of the impoverished farmers for COMPLETE CANCELLATION OF THE WALL STREET MORT-GAGE DEBTS!

The Socialist leaders propose an inheritance tax. But for what purpose? To provide unemployment insurance for the workers, perhaps? Not at all. BUT TO PAY OFF THE GOVERNMENT BONDS HELD BY THE WALL STREET BANKS AND INVESTORS! They say so themselves, without any shame.

They propose a reduction in capital structure. But this will not reduce the wage slavery, the capitalist expicitation of the workers by the Wall Street monopolies one jot! Actually, this is a proposal that also fits in with the present needs of the Wall Street monopolies in order to keep them from bankruptcy!

And the proof of that is, that only two days ago. one of the biggest Wall Street banks, the National City bank, reduced its capital structure in order to be in a position to receive a \$50,000,000 subsidy from the Roosevelt R.F.C.! It is to protect the capitalists from bankruptcy that the Socialist leaders make their "radical" proposals!

SO HERE we have the Socialist program against inflation! It turns out to be deliberately calculated to fasten the chains of the Roosevelt Wall Street inflation program upon the masses. It is the program which serves not the class interests of the workers in their fight against Wall Street exploitation, but which attempts to prepare the road for the workers' acceptance of just this Wall Street program.

Here the Socialist workers can see the truth of the Communist Party charge that the Socialist Party is in reality a Party for the preservation and strengthening of the capitalist system, a Party which tries to solve the problems and difficulties of the capitalist

Huge Canal to Connect Moscow With Caspian Sea

MOSCOW .- A canal which will involve almost as much work as the Panama Canal and more than seven times as much as the Baltic-White Sea Canal, and which will open direct water routes from Moscow to the Caspian and eventually to the Azov and Black Seas, is now under construction over a distance of 81

The project is scheduled for comeletion by the end of 1935. When it is finished, Moscow will be encircled by a deep, wide river. Upon approaching the city, the canal will branch in two, to the east and northwest, forming a circle around Mos-cow deep enough for steamers carrying 18,000 tons of cargo. By HARRY GANNES

NEW YORK .- I have just

returned from Havana, where U. S. Ambassador Benjamin Sumner Welles is preparing new counter-revolutionary armed up-ricings to install another form of the Machado regime under the hegemony While in Havana I learned of two mportant documents showing Welles implication in all of the armed uprisings, and particularly his connec-tion with the Machado armed forces in their struggles to smash the Cuban workers' and peasants' organizations. These documents will be available

One of these documents is a letter signed by Welles himself to a friend in New York. The other, supporting Welles' imperialist, bankers' counter-revolutionary policy, is a let-ter written to the same person in New York by the ABC leader Juan Andres Lliteras.

Both of these documents are being cublished in Havana newspapers. They have been printed in leaflet orm by the Communist Party of Cube les in order to fasten more firmly the bloody rule of American bankers

Never before, since the butcher light on many of the dark deeds of the Roosevelt regime in this strategic war base and Yankee colony.

These documents will make a furor in Ouba. Every worker should read them to see how the American bank-ers maneuver with the army of Cuba preparing to shoot down striking workers and wipe out the revolutionary organizations of the workers in sea of blood.

With one of the figures in the Grau regime, Secretary of War and Interior Guiteras, mentioned in these documents, the AmericanAnti-Imperialist Delegation had an interview. Guiteras is a left faker, parading un-der the demagogy of a struggle against imperialism, in order to wring Wall Street recognition for his regime On the one hand, he openly attacks Welles. On the other, he crawls on his knees to Welles for recognition, Guiteras told us that though he knew Welles plotted with the ABC in the National Hotel and Atares Fortress uprising, he had no documentary

that Welles urged the ABC to seize

port of the American bankers.

These documents will make history in Cuba, and no one should miss obtaining a copy of the Saturday's is-sue of the Daily Worker to read the private opinions of Wall Street's am. bassador in Cuba and the policy that guides Roosevelt's bloody attack on the Cuban masses, to be exclusively printed in the Daily Worker.

Communist Position on Anti-Nazi Boycott

Against Nazi Murderers

This is the conclusion of an article by Comrade Bela Kum, which is of special importance to the American workers. The recent conention of the American Federation of Labor adopted a resolution to boycott German goods as the method of struggle of the American workers against German fascism. attitude of the leadership of the American Federation of Labor and the American S. P. on the struggle against German Fascism is part of the same treacherous line as that of the entime Second Socialist International. Comrade Bela Kum gives the Communist position on the boycott movement and presents working class revolutionary methods of struggle against German Fascism and the Fascism of their own bourgeoisie. -EDITOR'S NOTE.

By BELA KUM Member of the Presidium of the Executive Committee of the Communist International

(PART II) Revolutionary workers, anti-fascist oilers, whether they are non-party, or are still members of the class-betraying bourgeois labor organizations, can in no event allow themselves to be placated by the Social-Democratic and reformist deceptive maneuvers concerning the merchandise boycott gainst Fascist Germany.

The international struggle against the bloody fascist dictatorship of finance capital in Germany can be conducted successfully in each country, only if this struggle is directed imultaneously against one's own

imperialist governments, in whose government, against one's own auranks we find neo-fascists like Mar-thorities. These include the Socialquet. Marcel Deat and others, who openly aspire to the fascization of leaders in such countries as Czecho-France, who have entered into a reactionary united front with their own switzerland, which daily violate the

rade unions and the Austrian Social-Democracy which actually support the Heimwehr-fascism which relies pon Italian fascism, as being the lesser evil?"—what else is it if not participation in the action of the Dollfuss government and the Heimwehr-fascists? This joint action of the Austrian bourgeois and Social-Democratic parties is apparently di-rected against the German fascists, but, in reality, against their own working class in the general course of suppressing the proletarian revolu-tion in the interests of the defense of Austrian capitalism.
