C.W.A. TO SHUT DOWN MAY 1, HOPKINS ANNOUNCES

LaGuardia, Lehman Oppose Lewis Ready for 7 c. Fare, Wage Cut Agreement 18 Locals Represented at Opposition Meet

Dispute on City Jobs Patronage Does Not **Touch Bank Loans**

NEW YORK, Jan. 8 .- The Morgan-Rockefeller banks will have their City loans and investments carefully protected by both Governor Lehman and Mayor LaGuardia, all the latest indications in the present political debate re-

LaGuardia is ready to "get together with Governor Lehman anywhere, any time" to provide for plans to meet the City's payments to the bankers. These payments amount to \$136,000,000 every year.

Last night LaGuardia said that Lehman would agree with him that "we've got to do more than balance the budget. Any banker can see that -if you get what I mean."

These developments augur well for the bankers—but contain definite threats of wage cuts, increased sub-way fares, and curtailed relief and welfare work for the City's popula-tion and Civil Service employees.

Dispute Over Power
With all the preliminary heat of party wrangling swiftly subsiding, in which Lehman refused to agree to give LaGuardia the sweeping power he asked for, it became clear that the only point of dispute between the Mayor and the Governor is the pre-cise amount of power that LaGuardia should have to cut into the power of the Democratic Tammany machine which still has strong roots in the City apparatus.

Lehman feared that LaGuardia was trying to build up his own Fusion party at the expense of the Tammany stalwarts upon whose approval Lehman's power finally rests.

Agree on Bank Loans
On the major question of concern to the City's population, they both agree that the Untermyer Tax agreement that places all the City's revenues in hock to the Morgan-Rockefeller clique that controls the City's loans, should be carried out.

In his reply to Lehman today, La-Guardia pointed out that it was none other than Governor Lehman him-self who arranged for the signing of the present bankers agreement which ers, the firm of Governor Lehman now necessitates the slashing of City of New York which has a conemployees wages, the increasing of the subway fare, etc. 7-Cent Fare

ROOSEVELT has proposed a budget of \$10,000,000,000 to Congress, the great bulk of which consists of new subsidies to the banks and railroads and new grants for war purposes. Only \$500,000,000 is proposed for "relief," with an additional \$348,000,000 for the military reforestation camps, much of this will also go to the bankers and for war. The welfare of the unemployed must be considered in terms of "economy," but when it is a question of advancing funds to bankers and corporations, then Roosevelt does not hesitate to talk in terms of billions.

The National Unemployed Convention in Washington on February 3, 4 and 5 will bring together masses of delegates from all working class organizations to take up the fight against unemployment. We will demand that all war funds and subsidies to bankers in the tenbillion-dollar budget be turned over for unemployment relief and insurance. The unemployed will demand decent jobs for every worker without discrimination, or adequate relief, and the enactment of the Workers Unemployment Insurance Bill.

Three weeks are left before the convention. All working class organizations in every part of the country should elect delegates and raise funds to finance the delegates to and from Washington.

The National Committee of the Unemployed Council, in addition, urgently appeals to all organizations, sympathizers of the unemployed movement and liberals to rush funds to the National Committee, Unemployed Councils, Room 437, 80 East 11th Street, New York. These additional funds are needed to make arrangements in Washington since the government has refused to assist in any way possible the unemployed, who will formulate their demands and present them to the U.S.

"Back to Farms" "Where are those men going to be borbed?" a correspondent asked.

"In public works. A great many are farmers who will go back to their farming. A great many will be absorbed in seasonal industries." Hopkins evidently conveniently forgot that poor farmers actually are being forced off the land under the Roosevelt program of cutting production to boost prices received by big farmers—and that industrial em-ployment, even according to the American Federation of Labor bu-reaucracy, is decreasing faster now

than at any time since last January despite public works. Can Reduce Wages

Asked whether C.W.A. wage rates will be reduced when found to be lower than N.R.A. code rates, Hop-kins replied: "C.W.A. rates are where they are. Nothing is being done about them now."

"Then C.W.A. rates are subject to hange without notice?' Hopkins promptly answered: "They could be."

In the last year, only \$241,283,000 was collected in income and surtaxes from the rich, although the estimated total due from them according to the figures of income should have been at least \$2,000,-000,000 more.

The "ordinary" government budget, when examined, turns out to be nothing but a piece of financial trickery whereby the Wall Stret clique Tombs Court, Franklin and of finance capitalists are intensifying their robbery of the toiling masses.

1. To put the whole of capitalist industry into a position where it can become immediately available in case of war.

2. To absorb a huge portion of the total national income for the running of the capitalist State, with its police, military, etc., as repressive machinery to be used to crush the resistance of the masses to hunger and misery.

To guarantee the inner group of Wall Street monopoly capitalists, big capitalist landlords, against losses from the crisis, these losses to be shouldered by the masses through the agency of the govern-

ment budget. The Roosevelt budget, therefore, is expression of the needs of the Wall Street capitalists and big landlords! at the present time. It is the at-tempt of the Roosevelt government to place a new \$10,000,000,000 load on capitalist war plans, the guaranteeing of monopoly prices, the guaranteeing of bonds, mortgages, dividends, capi al from the blows of the crisis.

And, the culminating purpose of this Roosevelt budget attempt to protect the industrial capital investments of Wall Street is to keep the entir activities of the German I. L. PITTSBURGH, Pa.-The check-oft is one of the greatest curses for the miners. It is a legal form of robbery. In the period of universal part time employment and exceeding low wages as is the case today, the check-off ystem robs the miners of more than

The operator checks off for the store bill, house rent, supplies, fuel insurance, doctor, sports, smithing, funeral, etc. The high-salaried union officials, check-off initiations, dues checkweighman and most important defense of the miners a product of the N.R.A., provides fines and check-off for violation of the \$2 a day per miner. All of this is

What is the result of the check-off system? An empty pay envelope and many a time no bread in the house. Because of the mass opposition of the miners to the check-off, the following clause has been inserted in the "Appalachian Agreement" for its protection: "The United Mine Workers of America agrees to protect the Operator under this section."

Fight All Check-off

The right of the operator to checkoff for the company insurance, doctor sports, etc., is one of the conditions for the check-off of union dues. As dues he will insist on the right to check off for himself. The checkingoff of the union dues legalizes this right of the operator. The abolition f checking-off the union dues will lay the basis, strengthen the whole and make possible its defeat.

Every worker's organization, includng the U.M.W.A., is a voluntary asso-ciation. The membership in the organization is based on the principle of voluntary affiliation. Since this is he basic organizational principle of the U.M.W.A., it is but logical that ues payment must be based on the same principle, that is must be voluntary. The check-off is a form of compulsory dues payment. It is obviously clear, therefore, that checking off of dues is in contradiction to the basic organizational principle of the U.M.

Don't Attend Meetings

The check-off is one of the basic easons that tens of thousands of embers never attended union meet ngs and take no part in the life and truggle of the union. This narrows lown the union activity to a small group of individuals, quite a few of whom are active only because of personal gains, and always subject to corruption, which paralyzes the whole work of the union, and make it possible for the top officials to build for themselves a powerful machine for the control of the union. The aboliment of a voluntary dues payment, money order received. Mud in the Temple

IT'S only a few short years since all the good little 100 per cent critics, and hairy Bohemians of America looked down on the handful of red

We were supposed to be defiling the temple of pure and beautiful letters by entering with the mud of the street on our shoes. We talked, and wrote, and even more dreadful, agitated, for the cause of the working class. We were political. We were passionately interested in the economics of Marx and Lenin. We had a bad case of the "messiah-complex," so that beery champion of the status quo, H. L. Mencken informed his rabble of white-collared "supermen."

Yes, we had a more vital concern for society than for that small field of it which was our specialty. We said civilization was in decay, and therefore literature was in decay, and nothing could save the culture of the world except a working class revolution. Reform could not help; it had been tried, and only prolonged the agony and confusion.

We said many other such things in the limited space given us to say them. And the bourgeois authors, from bass-drummer Mencken down to the feeblest poetaster tootling his verse in Greenwich Village, dismissed us forever with all the stale dogmas of the art for art's sake cult

Well, well, how times have changed. Not the fear of God, but the unholy fear of the collapse of the system before which they salaamed has entered the temple, and all the authors now are dabbling in politics and econ-

Really, though it may be important as a sign of the period, it is also amusing. It is amusing to watch Archibald MacLeish and Ezra Pound and Gorham Munson, for example, all of them once as undefiled by political thinking as a nightingale or a hippopotamus, wrestle with the esoterics of the Major Douglas scheme of social credit. They look upon the Major with the awe some of their comrades once had for Gurdjieff, that sly racketeer in the Yoga. They have become mystic about exchange and currency. Nobody has informed them that Karl Marx demolished their particular experiment in utopian reformism some 70 years ago, in his answer to Proudhon, its father.

Cocaine Catholics

OTHERS go in for a decadent Catholicism, following the lead of esthetes like Jean Cocteau and T. S. Eliot, If the Catholic Church hopes to be aved from the advancing tide of a socialist and rational world by such champions, it is indeed in bad case. Cocaine addicts like Cocteau or hothouse orchids like Eliot bring only the germs of their own decay into any cause they espouse. The masses have an instinct for truth; the struggle for life forces them to such reality. The masses have an instinct for health; the law of survival demands sanity and health.

The politics of such neo-Catholics is a false and diseased thing, perverse to the core. Yet it is amusing to have arch-dilletantes and boulevard perverts like Cocteau suddenly turn pious, or to hear T. S. Eliot, who is the product of a plebian town in the backwoods of New Jersey, confess that he is a royalist and catholic.

This is politics with a vengeance, yet it is a logical development. The art of such men was always warped and limited, with no roots in the epic life of daily humanity. Too fastidious to live with mankind, it is natural that when they become political, it is to join the cares of the exploiters.

Literary Fascism

THERE is a current of Fascism setting in, too, amongst our literateurs. Fascism, which is a flank movement of the big industrialists using the impoverished middle class as their soldiers against the working class, enters a country by many devious channels.

One is familiar with the increased activity among the fascists, illiterate gangsters like Art Smith of Philadelphia, or the Nazi-subsidized Silver Shirts, or the racketeering outfit led by the swindler Major Frank Pease. recently kicked out of England for trying to fleece the widow of Joseph Conrad of her little estate.

All this is to be expected. Even when a cultivated and shrewd figure like Lawrence Dennis, formerly of the State Department, turns Ku Kluxer and joins with a former I.W.W. renegade, Harold Lord Varney, to organize another fascist group, one can readily understand what is happening.

These are the usual vultures who swarmed to fascism in Germany, Italy, Ireland and England. Broken-down adventurers who have often in the old game, they have nothing to lose and a great deal to gain by a gangster government. It is also the Napoleon complex at work in them, the basic trait of bourgeois man, the lust for power and easy money. These perverts smell a feast of death. They have no confidence in Nira, and know enough history to understand that, as the next step for the working class is Communism, so far capitalism it can only be fascism. So they are climbing on what they think is a new bandwagon. And Nira helps them. Every step taken by Nira means a destruction of militant trade unionism and a concentration of political and economic power in a few capitalist hands. The more one analyzes Nira, the more does it become plain that it is a strengthening of monopoly capitalism. Not only have the anti-trust laws been wiped off the books, but the governmental grants of aid only to large corporations and at the expense of the small businessmen, farmers and workers builds up to a fascist state.

The Primrose Path to Fascism

IIM MARTIN

WHAT MAKES

CHICAGO IS A

STOOL, JIM?

YOU THINK

AND many of our literary men, who would never accept fascism consciously, have succumbed to Nira. This is what is not amusing: this is where the danger lies. Fascism always begins like a "socialist" lamb, and finishes its career as a bloodthirsty capitalist ape.

A certain type of literary mind succumbed to this demagogy in Europe, as it is doing here, with the most socialist of motives.

It is really painful for instance, to read Sherwood Anderson these days. He writes for Vincent Astor's magazine that the Secretary Wallace, who administers Nira's agricultural program, is a lovely libertarian soul. What a dangerous naivete. Wallace is not a friend of the small farmer. He has always been identified with the bankers and wealthy farmexploiters. He is hated, with good reason, by the small farmers of the middle west and south.

He represents the present government at Washington, and that government's major task is to rehabilitate capitalism, at any cost. It is a class government, as definitely as was Hoover's. As fascism grows more conscious, Roosevelt will make one concession after another, as did Dollfuss in Austria, to the fascists, until he is converted to the

Has history no lessons to teach us, especially history as fresh as that of only yesterday?

Only the Working Class can lead on the historic way to Socialism. No coalition liberal regime has ever done it or ever will. But it takes the rarest of the elder men of literature, a Romain Rolland or Thomas Mann, to see this clearly and without muddled compromise.

Organized action is the proper answer to an assault on a worker's integrity as artist or artisan as well as on his means of living. It was the continual protest of worker on county jobs against the insult to their productive abilities in being forced to "scab against the steam shovel" that forced the government to put them on construction work, or to promise to do so. Let 'Us Hear From You!

THE DAILY WORKER extends its revolutionary greetings to the hundreds of class-conscious workers who helped reach fully 200,000 American workers and farmers with the 28-page, Tenth Anniversary-Edition of the Daily Worker. As a result many of these thousands made their first contact with our Bolshevik newspaper and with our revolutionary move-

The mobilization for Red Saturday and Sunday was one of the most impressive in the history of our "Daily" and of our movement.

To rest content with the mass distribution of our special edition, however, is not enough. It is necessery to know what experiences you had in approaching the workers and farmers with our Daily Worker so that we may use your experience as a guide in the future for getting our "Daily" to the masses

We want to know what you shock-brigaders who canvassed with the "Daily" think of the contents of the anniversary issue, and what you heard from workars and farmers about our paper

Let us know what the steel workers and coal miners say of the special edition; how the farmers in the Middle and Far West received the 28-page issue; what was the response of the Negro sharecrop-

This information will help guide us in putting out a still better Daily Worker that will truly become the mass organ of the American working class and the

Norman Thomas and PWA

THE SPEECH Sunday night in Chicago of Norman Thomas, leader of the Socialist Party, praised all of the basic features of President Roosevelt's Public Works Program. In fact, the only criticism he offered was that the "recovery measures increase the public debt" and that he himself favors limiting the P.W.A. projects to "self liquidating projects," financed through ssuance of non-interest bearing Treasury notes.

mas readily admitted that this is inflation. He posed these notes be stopped when prices have boosted "to the 1926 level."

The meaning of "self liquidating" projects is seen in the announcement of the Roosevelt administration yesterday that it is dropping the "slum removal" features of its P.W.A. plan. The slum removal is not good business. It is not "self liquidating." Those now living in slums could not pay the increased rents which would be charged. They cannot pay more than \$5 a month a room. Therefore the P.W.A. money will be put into better paying propositions. The dropping of even a gesture toward housing of workers is one more proof that the government is not going to give any funds toward the unemployed for relief housing or food, unless forced to do it by mass pressure. These are the P.W.A. "self liquidating projects" approved by Norman Thomas

Norman Thomas, the socialist leader, thinks the P.W.A. is "praiseworthy." The P.W.A. has given hundreds of millions for war purposes. The P.W.A. has given millions more to the railroads and bankers in easy loans. This is "praiseworthy" in the eyes of Thomas, who once more praises the war preparations of the U.S. imperialist Roosevelt government, as he has done before. Perhaps Mr. Thomas praises the P. W.A. "self liquidating projects" of building battleships, or of colonial expansion, which would pay the United States debts which worry Thomas-at the expense of the workers.

NORMAN THOMAS has nothing but praise for Roose-velt's inflation policy—which means high prices on workers' necessities for the masses. Norman Thomas finds the boosting of prices by the Roosevelt government, which amounts to virtual wage cuts, as "praise-

Norman Thomas, for inflation, for high prices, for the war preparations entailed in the P.W.A. and for the "self liquidating" projects of the P.W.A .- again proves himself the chief social-fascist lackey of big business. Mr. Thomas praises the P.W.A., the "recovery" measures which mean fascist attacks on the working class and suppression of their rights. He is a good servant of finance capital, and bootlicker to the

The Communist Party and the Unemployed Councils call on the workers to demand of the present session of Congress enactment of precisely those features of public works, the last vestiges of which have now pean abandoned by Roosevelt-public works which will be of benefit to the unemployed workers.

Demand, for example, slum clearance whereby the nousing projects will go to unemployed workers rent

The Roosevelt government, supported by the ocialist leader Thomas, seeks to evade any governnent appropriation for the unemployed, and to evade nactment of unemployment insurance.

Demand the enactment of the Workers' Unemloyment Insurance Bill, which provides for all war unds to go to the unemployed, and for unemploynent insurance funds obtained by tax on corporations nd by government funds.

AFL Heads View NRA

ON THIS THRESHOLD of the new year, the portly officials of the A. F. of L. survey the New Deal and tell the workers why they should be thankful.

The Green-Lewis-Hillman bureaucracy is so closely tied up with the government in all its actions concerning the workers that they find it eminently necessary to go to a very long detailed explanation of the results of the N.R.A. The greater part of the year's review of the New Deal is an apology.

What they strive mainly to achieve is to keep up the workers faith in the N.R.A., hold back strike struggles, and attempt to hold the workers firmly tied to the madly racing chariot of Wall Street's inflation and war program.

Here a little medicine man skill is required. No one will deny that Green is especially apt in this

The A. F. of L. economic medicine men hand the workers a few bitter pills to swallow, but then they sweaten their poison pellets so thickly they hope the worker will not realize how he was damaged.

Regarding wages, the A. F. of L. declares:

"In wages, there have been definite gains under codes for the lowest wage groups; but workers of average or higher wages have been forced to a lower living standard... Meanwhile, food prices are up 7 per cent and prices of clothing and furnishings are higher by 21 per cent, so that workers' real buying power is considerably lower."

The majority of the workers, according to the A. F. of L. official's report suffered actual wage cuts. And all workers had their real wages cut-"their real buying power is considerable lower.'

In short, through the working of the N.R.A. the minimum is becoming the maximum and the standards of living of the workers are being driven down.

WHO IS responsible for this? The A. F. of L. leaders do not even blame the usual straw-man. "the chiseling" bosses. The process is too widespread and covers every worker in the country. Those responsible are the Roosevelt government, acting in the interest of the dominant, ruling capitalist clique, with the aid of the A. F. of L. leaders, who helped break strikes and the workers' resistance to this smashing of their living standards.

Then the A. F. of L. claims that employment was increased. But the National Industrial Conference Board, surveying for hard-headed business men who do not want to fool themselves, declares that employment in October was no better than in June (when the N.R.A. was first passed).

On this point there is no agreement between these boss agencies, because each has a different purpose to serve. The A. F. of L. has to fool the workers, but the bosses do not want to fool themselves

The bulk of the A. F. of L. "review" is concerned with the question of inflation. On the face it appears as a trenchant argument against inflation. Let's

When it comes to huge subsidies for the banks, squeezed out of the hides of the workers, the A. F. of L. officialdom is for that type of inflation. For

"Government credit extended to business, banks, railroads and agriculture increased during the year by \$3,000,000,000. To this government credit we owe a large measure of our progress toward recovery."

Only a liar or a scoundrel could be guilty of such distortion. What the government subsidies account for is the "recovery" in dividend and interest payment to the parasites, because we already have the admission of the A. F. of L. that the general level of wages were lowered through the N.R.A.

The A. F. of L. supports the particular type of inflation that suits the big bankers and the Roosevelt regime. They declare: "There are various kinds of inflation, some constructive, some very destructive."

Of course "constructive" inflation is the one that best constructs profits and the capitalist system with its foundations deep in the vitals of the workers. That kind of inflation the A. F. of L. officialdom is for. While the fact is that every type and kind of inflation, no matter how disguised, slices the workers' bread thinner and steals food out of his family's

Green & Co. fully approve huge subsidies to the bankers and industrials, but are deadly silent about unemployment insurance. They say not a word about the colossal war subsidies while millions of workers starve, though the A. F. of L. officialdom in this document are again forced to admit more than 10.000,000 are without jobs. Unemployment figures in the hands of A. F. of L. fakers are volatile things. One time it is 15,000,000. Suddenly it becomes 6,000,000, and just as suddenly 10,000,000.

ASTLY, the A. F. of L. officialdom remember the huge strike wave of last year. Whatever they write or whatever they tell the workers they know that the conditions fo the workers are growing more intolerable and that there will be resistance, perhaps more than ever before. The danger now arises, they see, that the whole fakery of the N.R.A. will become clear to

So they begin to criticize the N.R.A. and "warn" of its dangers. "We may expect an era of artificial price-raising and limitation of production," they say. This would tend to check the rise of living standards for all through mass production and lower prices, and to divert wealth away from the workers to the hands

In short, this is a description of the growing crushing burden of advancing monopoly capitalism, stimulating and nurtured by the N.R.A. like a poisonous fungus growth.

How shall this be fought? Here is where the A. F. of L. officials show their true colors as the slimiest minions of big capital. They appeal for greater representation on the N.R.A. for the A. F. of L. fakers in order to keep struggles from developing down below, in the mines, shops, mills, on the railroads.

"If codes are to establish effective machinery for general upward progress in living standards, then workers who are producers and consumers must be represented on the policy making boards," says the A. F. of L. officialdom.

These gentlemen wrote their name to every code that lowered wages. They signed the "merit clause" open shop auto code. They signed every document of the National Labor Board that broke and betrayed the Weirton, Budd, Philadelphia taxi, and Ford strikes.

They are the ones who called the N.R.A. a "new charter of labor," and promised the workers all sorts of rights of organization. At the same time, they are those most responsible for the rapid growth of company unionism, the vicious assault against strikes by the government. Every new fascist attack against the workers receives the whole-hearted endorsement and most energetic support.

Against these betrayers who have succeeded in helping the bosses lower wages, every rank and file member of the A. F. of L. should direct his energy and

It is necessary now to build up the rank and file opposition groups in every A. F. of L. and independent union, to prepare for struggles against these crushing methods of lowering the workers' living standard, to defeat the strikebreaking within the ranks of the union, to transform the unions into organizations' of struggle that will protect the workers' rights.

Nazi Church Front Split Widens as 6,000 Pastors Defy Bishop

Opposition Fears Nazi Measures Will Expose Church Role

BERLIN, Jan. 8.—The split in the Nazi Church Front—"storm detachents of Jesus Christ"—widened yes erday with 6,000 Protestant pastors uniting in opposition to the Nazi Reich Bishop, Mueller, and defying his recent decree ordering discliping ary punishment for those agitating by word or mouth or printed matter against his authority.

A manifesto issued by the insurgent pastors to their congregations had the effect of a bombshell in the Protestant communities, which had been kept in the dark by the Nazi oress censorship on the crisis conconting the Nazi Church Front.

The insurgent pastors, while sup orting Hitler's atrocities against the vorking class, are opposed to Mueler's thorough-going fascist reorganization of the church, which they fear will weaken its influence over

Chautemps Cabinet May Resign as Result of **Furious Mass Anger**

BULLETIN

CHAMONIX, France, Jan. 8 .-Alexander Stavisky, fugitive head of the bankrupt Credit Municipal Bayonne, whose colossal swindles were aided by high French govern-ment officials, shot himself in the head today when trapped by police in an outlying villa of Chamonix. The financier was taken to the hospital where his condition is described as critical.

PARIS, Jan. 8.—Premier Camille Chautemps was reported ready today to present the resignation of his Cabinet under pressure of the furious mass indignation evoked by the exposure of the colossal swindle of thousands of small investors and insurance companies by the interna-tional gambler and adventurer, Serge

Following the failure of the bank last Wednesday and the disappearance of Stavisky with \$40,000,000 in currency and pledged jewelry, it was revealed that insurance companies had been induced to buy Stavisky's bonds by officials of the same government which recently put over, with the aid of Socialist leaders, a drastic wage cut against civil employes. Premier Chautemps, leader of the attack on the civil employes and on relief payments, is involved in the scandal with Albert Delimier, French Minister of the Colonies, and other high government officials.
