Resolutions Indicate Wide Opposition to the Strikebreaking Clique

By BILL GEBERT

INDIANAPOLIS, Ind., Jan. 26 (By Mail).—Hundreds of local unions of the U.M.W.A. submitted 2,000 reso lutions in which they present before the 33rd Convention of U.M.W.A. their problems and how to solve them Of these resolutions, over 400 were printed in a pamphlet and submitted to the delegates; more than one thousand resolutions from all districts, bearing on scale matters, are not printed, but have been referred to the Scale Committee, which is to make a report to the Convention.

Through an examination of the

resolutions submitted to the Convention, one can easily draw a picture and understand the moods of the miners. The overwhelming majority of all the resolutions are directed against John L. Lewis and the International Board. The resolutions deal with practically every problem facing the miners and the American working class. #### Sharp Fight for Jobless Insurance at Mine Convention

By DAN DAVIS

Today's session of the U. M. W. A. Convention was thrown into a heated discussion when John F. Sloan, young militant delegate of Local 5509, Westville, Ill., urged the miners to endorse a resolution calling for enactment of the Workers Unemployment Insurance

Lewis, chairman of the session paced the floor as Sloan spoke and held hurried consultations with Phillip Murray, International Vice President. The Lewis machine proceeded then to introduce a substitute bill which would discriminate against the Negro workers and youth and which would give insurance for a period of only 15 weeks of the year.

### Senate Keeps Secrecy Part Of Gold Bill

"40 Per Cent Wage Cut," Senator Says

By MARGUERITE YOUNG (Daily Worker Washington Bureau)

WASHINGTON, Jan. 26.—The Senate neared passage of the Roosevelt inflation bill today as the Democrats —supported by the one Farmer-Laborite and the Republican Progressives—defeated the most important amendment proposed.

By a vote of 54 to 36, the Senate rejected an amendment that would have placed control of the proposed 2,000,000,000 stabilization fund in a board of five instead of solely in the hands of the Secretary of the Treas-

Action followed debate in which the Democrats unblushingly proclaimed the trade-war purpose of the measure as well as its other chief object, to increase prices and thereby boost the cost of living in the United States. This was the Administration's answer to a concerted attack by Republicans The latter poured out bleeding-heart protests against the effect the bill will have upon the middle classes and working people because the facts of this matter are handy political weapons at this point.

Although the real bone in the Republican craw is that the bill will also temporarily penalize certain creditors, as securities and big bond holders, the assault served to bring out that, as Senator Reed of Pennsylvania put it, "this bill is a 40 per cent wage cut."

Silver Inflation The silver-coinage issue came into the debate also, Senator Wheeler (Democrat, Montana) presenting his amendment proposing to add to the already tremendous inflationary provisions another to provide that the government buy silver up to a bil-

THE Eighth National Convention of the C.P.U.S.A. is called to meet in I Cleveland, Ohio, on April 3, 1934, and continue until its deliberations

Since the Seventh Convention, profound charges have taken place in the world, and in the United States. There have been also farreaching changes in the life and growth of the revolutionary movement among the American workers.

Our Seventh Convention in 1930 confirmed the Party's final rejection of the opportunist line of the Lovestone group, whose swift degeneration into the blackest forms of renegacy kept time with the swiftly deepening crisis of capitalism. By relentless struggle for the Leminist line, against the right opportuniss and Trotskyist counter-revolutionaries, our Party defeated and isolated these enemies of the working class. It placed the Party squarely on the road to the building of a mass Communist Party, which is organizing and leading the growing upsurge of the American workers against the catastrophic conditions of the crisis. This clear Bolshevist line, hammered out under the leadership of the Communist International, with the helpful participation of our great leader, Comrade Stalin, has enabled our Party, since se Seventh Convention, to organize and lead the most imortant mass strikes in the closing years of the Hoover regime, which put up the only serious mass resistance to the open wage-slashing campaign, forcing the bourgecisie to turn to the indirect attacks on wages of the Roosevelt New Deal, inflation, and

Our Party's work resulted in bringing into being in the past year a fighting indepedent trade union movement under the Trade Union Unity League, of over 100,000 members, as well as a larger number of unaffiliated independent trade unions. This work stimulated the rise of a new wave of revolt within the A. F. of L. against the intensified betrayals of the officialdom.

Our Party's work among the unemployed, beginning with the historic demonstrations of March 6, 1930, marked by the great National Hunger Marches of 1931 and 1932, by the building of a nationwide system of Unemployed Councils etc., was the most decisive single factor in forcing through relief measures, in compelling the A. F. of L. to withdraw its open opposition to unemployment insurance, and in welding unity of employed and unemployed workers.

Our Party has roused millions of oppressed Negroes to the beginning of a struggle for national liberation in unity with the white workers. These are but a few of the fruits of the correct Leninist line established at the Seventh Convention

Our Party has consolidated the Communist forces in the country. At the Seventh Convention our Party had 7.000 members, loosely organized and still suffering from the effects of the oportunist poison of Lovestone. Now, approaching the Eighth Convention, we have a solid membership of 23,000 weekly duespaying members with a rising proportion of native-born and Negro workers from the basic industries.

These achievements are the solid foundation for preparing our Eighth Convention.

THE coming Convention meets at a time of the passing over of the economic crisis to a world revolutionary crisis. Tremendous problems confront our Party, problems of organizing and leading the struggle for the daily needs of millions of workers and impoverished masses, and developing them to a conscious mass struggle against fascization and war, for a workers' revolutionary government, for a revolutionary solution

In the light of these tasks it is clear that our Party lags behind events. The task of rooting the Party firmly among the decisive strata of the American working class, of putting it at the head of millions of workers, have been placed before the Party in the Open Letter of the Extraordinary Party Conference. The 13th Plenum of the Executive Committee of the Communist International has laid a firm foundation

The Eighth Convention must open a new period of decisive advance toward establishing a mass Communist Party, on the basis of the solid foundation already laid down.

The agenda of the Convention will be: 1) The Struggle Against War and Fascism, and for the Revolutionary Solution of the Crisis; 2) Economie Struggles and Building the Class Struggle Trade Union movement; 3) Tasks of the Party in winning the Working Youth; 4) Seventh World Congress of Comintern; 5) Election of Central Committee.

THE Central Committee declares that a discussion period of 60 days is opened in all Party units and committees in preparation for the election of convention delegates and to renew the entire leadership of th Party from unit bureaus to Central Committee.

The basis of the discussion for the first 30 days is the Theses of the 13th Plenum of E.C.C.I. and the Open Letter to the Party, as applied to our concrete tasks. The second 30 days will be devoted to the Draft Resolution for the Convention which will be published on February 17th.

District Conventions shall take place on March 24th or March 31st.

FULL and free discussion shall be guaranteed in every unit of the Party. The discussion shall be led by the Party Committees, but no Committee has the right to issue binding instructions to units or conventions regarding their elections or decisions on the result of the

The basis of representation shall be: Units elect one delegate for each five members to the Section Convention. (This may be reduced by decision of District Committees for

large sections). Section Conventions elect one delegate for each 25 members to the District Convention.

District Conventions elect one delegate for each 100 members to the National Convention. Each Shop Unit shall be represented in the District Conventions

regardless of the number of its members. The number of members to be represented shall be determined by the average duespayments in Dcember and January.

Every Party member who joined before January 1st is required to

have a Convention Assessment Stamp in his book. In the composition of the delegation—the majority of the delegation must be shop workers, preferably from the basic industries, steel, metal, mining, railroad, auto, textile, marine; Party members from the A. F. of L., Revolutionary Unions and Independent Unions; mass leaders

of the unemployed movement.

Fraternal delegates: To the national, district and section convention the respective Party committees have the right to invite fraternal delegates from those unions or other mass organizations which have members or influence workers in the concentration industries and factories, with the understanding that their expenses be covered by the organization which they represent. To the national convention, the district committee, or convention, has the right to select fraternal delegates from the above described organizations.

A small commission of the District Committee with the District Organizer on it, should be made responsible for the reliability of all delegates to the national and district convention,

The aim of the convention discussion and elections must be, to clarify the problems of how to carry out the 13th Plenum Thesis and the Open Letter, to raise the political level and activity of the membership, to strengthen especially the lower organizations, units and sections, to improve the trade union and unemployed work, to refresh and renew the Party cadres by advancing to leading posts those who have distinguished themselves in mass work, to conclusively liquidate all remnants of influence of the renegades among the less developed Party members, to raise the fight against opportunism to a high political plane, and to turn the whole Party to Bolshevik mass work. ## The Wailing Woll

By JERRY ARNOLD

(Batting for Si Gerson) EVERYBODY knows Matthew Woll. Third vice-president of the American Federation of Labor, he is considered (by the bosses) as one of the greatest "labor leaders" in the

country, ranking second only to Babbling Billy Green himself. Matty of course, has more positions. For instance, he's acting president of the National Civic Federation, working together with Ham Fish, Ralph Easley and the rest of that

been re-elected president of the in his "Sportsmanship Brotherhood" to boycott the Spartakiade. And Sportsmanship Brotherhood.
What is the "Sportsmanship Brotherhood"? Well, the board of directors met last week in the Hotel McAlpin (where the Labor Sports Union doesn't have its headquarters) and very democratically elected offi-cers for the coming year. With Matty were elected Devereux Milburn, Preston Davis and Marshall Field, viceurer and Daniel Chase, executive director. We sincerely suspect that the

entire organization of the Sportsmanship Brotherhood in America much further than the But the Brotherhood is expanding. Backed by the resources of Woll's millionaire friends who, incidentally,

also support his labor racketeering and red-baiting activities, the "Sportsmanship" intends to widen its scope among colleges and "social and civic relationships in the business world." In England and Japan the Brotherhood annually conducts occer games, and now the "sports-nen" led by Woll have another enerprise in mind, far greater, far more

It is also very characteristic that the only organized opposition forces at the Convention are the ones led by the Communists and rank and file elements who are being supported by 200 to 300 antiunorganized.

The Musteites introduced through Local 105, Mt. Carmel, Pa., (Anthracite District No. 7) only two of a character that exposes the real role of Muste inside of the U. M. W. A. One resolution asks the Convention to substitute the words in the Constitution that miners are to receive "equitable share" of labor in wages to "full social value of their labor." How is this to be accomplished under capitalism? The and resolution of that local is for

The Convention, however, packed with the paid officials, appointees of Lewis and his strong arm the Labor Party. The need for unity of the miners in both unions has been made an issue in the Lance Colliery of the Glen Alden Coal Company. A Middlesboro, Ky., up to \$20,000 a year.

There is only one resolution which not satisfy the needs of the miners. Nobody should by any means have the impression that the 33rd Constitutional Convention of the U. M. W.

One more characteristic of it is that there are four resolutions introduced demanding and defending the right of the miners to belong to any organizations they please, including membership in the Commuthe U. The government announced a public works program last June, but this has been devoted almost exclusively to war preparations and subsidies to the railroads and big corporations. No more than 100,000 men are at work on federal public works. As a bridge to public works, the government, forced by the pressure of the masses of unemployed, instituted the C. W. A. program. Although there has been much propaganda about the federal government putting more than 4,000,000 to work on these jobs, this is untrue, Go for War Purposes Unemployed Demand responsibility of giving real relief and work on these jobs, this is untrue, and the great part of these workers responsibility of giving real rener and the great part of these workers were merely transferred from county employed workers.

# The Workers Unemployment Insurance Bill

Proposed by the National Committee, Unemployed Councils. (For Enactment by the U. S. Congress)

Resolved, that a system of federal government unemployment insurance be immediately established by an Act of Congress and made immediately effective, guaranteeing the average wages in the respective industries and territories in the United States. The unemployment insurance shall not be less than \$10.00 weekly for adult workers, \$3.00 for each dependent, to all workers wholly unemployed through no fault of their own, for the entire period of unemployment; and be it further

Resolved, that for all workers, no discrimination; that unemployment insurance be paid to every unemployed worker, adult and youth, whether industrial or agricultural, office employees, and all other categories of wage labor, native or foreign-born, citizen or non-citizen, white and Negro, men and women, and without discrimination against race, color, age, or political opinion. No worker shall be depraved of unemployment insurance because of refusal to take the place of strikers or to work for less than union rates of pay; and be it further

Resolved, that insurance shall be provided at the expense of the employers and the government; that the full funds for unemployment insurance shall be raised by the government from funds now set aside for war preparations, and by taxation upon incomes over \$5,000 a year.

In no instance shall there we any contributions levied upon the workers in any form whatsoever for this insurance; and be it further Resolved, that the unemployment insurance fund shall be administered and controlled by the workers through unemployment insurance commiscions composed of rank and file members of workers' organizations. Let us admit that the C. P. U. S. A still suffers from the traditional American sectarianism! But what a howling joke it becomes to think of Muste and his "Party" as the corrective. As a result of its leadership of struggle of the workers, the C. F U. S. Yes we criticize ourselves for not growing fast enough, for not having a party ten times as big—but compared with Muste, we are already a real mass movement of American workers.

And who are these "leaders" who call upon the workers to form a "new revolutionary party"? Muste in minister of the church who received a "call" to "go to the people." Now that even the most hardbitten, reactionary can no longer deny the immense economic victories which have been achieved by the Proletarian Dictatorship of the Soviet Union, those who wish to preserve capitalist exploitation are turning to new methods of blinding the eyes of the workers to the meaning of these victories.

What is there about the Soviet system of government that permits the workers and farmers of the Soviet Union to march steadily forward to higher levels of living, while the masses in the United States and the other capitalist countries are ex-periencing the suffering and misery

of the 5th year of the crisis? What is the difference between the Proletarian democracy of the Soviet system of government and urgeois democracy of the capitalist republics like the United

What stands in the way of a speedy end of the crisis and the abolition loyment and starvation amid plenty?

These questions are fundamental. That is why the defenders of capitalist exploitation are now exercising all their energy and zeal to confuse the minds of the American workers to the true answers. For the correct answering of these questions leads straight toward the revolutionary overthrow of capitalism and the setting up of a Soviet America!

Confusing the Workers. mind as one reads the leading editorial in last week's issue of "Labor," the official organ of the big Railroad Brotherhoods. The editorial states:

But to the "American mind" of a jobless railroad worker, the prospect of the working class seizing the railroads and all the big means of prostockholders, and the setting up of workers and farmers government appeals very much indeed

Whose "Mind."

This talk of an "American mind" is solely for the purpose of cloud-ing the essential class difference between the two forms of government. The editors of "Labor" try to explain the difference between the Soviet system of government and the Here is a deliberately tangled dis- capitalist as follows-they say: "Comtortion of the truth under the guise munism centers everything in the State, capitalist seeks this result by

The Soviet System of Government The editors of "Labor" cannot but admit that the Proletarian dictatorship in the Soviet Union is going economically upward, bringing ever rising standards of living to the workers and farmers. But they are careful not to draw the political lesson of this. It is that the Soviet sys tem of government where power is in the hands of the workers, is superior to the capitalist system, where power is in the hands of the owners of industry, the capitalist class.

What is the Soviet system of economy? Stalin again has given us the best answer: "The Soviet system of economy

It is these essential political differences between the Soviet Union and capitalist systems that the editors of "Labor," faithful to the in-terests of the big railroad stockhold-ers, whose dividends they recently helped to swell through the signing of the 10 per cent Chicago wage cut, are striving to hide from the rail-

### Is It Necessary for Mass Meetings to Be Disorderly?

Letters Show Necessity for Maintaining Proletarian Discipline At All Times

This column has dealt before with the problems of disorderly meetings, which is the subject of the letters printed here today. We do not know whether New York District is one of the worst offenders in this respect, but certainly the bulk of complaints about undisciplined meetings and demonstrations come from this district. This question should receive the special attention of the District Buro. Disorderly meetings can be avoided and proletarian discipline can be maintained, if organizational attention is given prior to the meet-

Meetings should be held with the ushers, impressing upon them the necessity of maintaining discipline, and above all a special appeal should be made to the Party membership at the unit meetings, and at the meeting or demonstration, to exercise proletarian discipline. When Comrades Foster and Am-

ter were released from jail, the meeting arranged to greet them was organized in this way, and a special boxed appeal appeared in the Daily Worker asking for the maintenance of proletarian discip-line. The meeting was held in Madison Square Garden, where it is particularly difficult to hold orderly meetings, but this demonstration was characterized by perfect order. There was no walking about the aisles; no talking; no attempts to overrule the ushers. As a result, the audience was able to hear the speakers and to give them perfect attention. Such meetings draw the workers to us. Disorganized, disorderly meetings drive them

Another proof that it is possible to have disciplined meetings was given in the Lenin Memorial meetings held on the same night, as the ones referred to in the following letters, at St. Nicholas Arena. Here, in spite of the fact that the microphone worked badly and it was not possible to hear all of the speakers, the workers were quiet and maintained discipline throughout the meeting. The following two letters are typical of the reaction of workers to disorderly meetings.

"I just returned from the Lenin Memorial meeting in the Bronx Coli-seum and am writing this to be printed in the Daily Worker very sharply "During the entire meeting there

"Naturally, those who were doing

most of the talking all the time were "old" Party and Y.C.L. members who it seems, 'knew' ahead of time what the speakers were going to say and therefore resolved to use the meeting as a place for reunion with their old comrades. The fact that workers, who never before attended such a meeting, were present, did not deter our 'older', more politically developed

comrades from making a gab-fest out of the affair. I feel quite sure that the two workers I brought down from my shop did not experience what I promised they would get out of this meeting. And I can say for any other comrades who succeeded in bringing to the meeting workers from their shop, that undoubtedly the meeting did not help them very closer to our Party. "Maybe our comrades who did their

part in disorganizing the meeting do not realize that it is possible to build the Party and break our sectariansm, and therefore acted as they did. I can see no other explanation for their actions than lack of understanding.

"I am sure this meeting was a very poor commemoration of Lenin, and in all future meetings I hope the comrades will live up to their membership in the Party of Lenin by showing some proletarian discipline and act as an organizing instead of a disorganizing force."

A Y.C.L. Member.

"Some friends and I went to the Lenin Memorial meeting yesterday at the Coliseum and I was never more disappointed. I'm sure that if Lenin arose from his tomb and witnessed it as I saw it, he'd want to die again What disorganization!

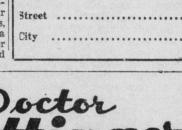

"Comrades were walking around and talking and shouting across to their friends while Comrade Krumbein was speaking. The audience didn't pay any attention to the speakers, and the speakers didn't seem to care whether or not the audience was listening. The ushers weren't self-disciplined, and didn't keep discipline. I believe, as those I've spoken to do, that this is certainly a very poor way of celebrating the memorial meeting for Lenin.

"I don't mean to be merely critical for the sake of criticism but I only think that if you want to make an impression on outsiders, then this is not the way.

"I've seen the Communist Party hold much more orderly meetings that were more effective and I sin-cerely hope that this condition will be remedied in the future. Our comrades know what discipline is. Why don't they practice it at meetings?

#### Greek Revolutionary Workers

I AM acquainted with some of the real working class Greek comrages members of the Spartacus Club, and the Fur Workers Industrial Union, and similar organizations. I know the brave and loyal qualities of these

The average American is prejudiced against Greeks, as he is against many nationalities. He has known only the bourgeois Greek restaurant proprietor, who is a mean, miserly exploiter like the bourgeoisie every-

But the Greek revolutionary worker is as generous, big-hearted and brave a human being as one could find. The life and death of Steve Katovis, a Greek worker, is still fresh in our minds. He was foully murgered by a New York cop on a picket line. His history has been written in a pamphlet by A. B. Magil and Joseph North. It is the story of a noble and unselfish comrade, whose whole life was given to the cause of the working class. If one were to write a novel about a Communist worker, one would not need to search for a better hero, than Steve

VET some time ago, it seems, I had a little paragraph telling about some I East Side Greek gangsters and dope-peddlers who ran a saloon where their gang did its dirty work. On the window of the saloon they had pasted the Blue Eagle sign, and the words, "We Do Our Part."

I thought this a piece of ironical comment on the hypocrisy of the Blue Eagle drive. Every sweatshop exploiter and gangster was using it to cover up has crimes. But a certain letter-writer construed this to mean that I had attacked the Greek race. Though he signs himself, "Comradely yours," I do not believe he is a comrade to have made such a mistake

I might have as easily have said, "Jewish gangsters," or "Irish or

We have, in New York, gangsters of every race, just as we find fascists in every race. It is not the task of revolutionary workers to defend gangsters and faseists, just because they happen to be of one's own race. On the other hand, it is one's duty to attack and denounce them; our loyalty is not to our treet, but to our class. The bosses and gangsters have no race; they kill workers of their own race without any conscience. Why hould we defend such people?

#### A Rather Sharp Letter

BUT listen to the letter of this person: Dear Comrade Editor: In the Daily Worker of Sept. 10, 1933, the paper the real Communists have learned to love, I and other comrades have noticed that the Jews is using the working men's newsaper for their greedy benefit. When they are writing about other people they emphasize their nationality. Greeks, that is, referring to the article by Michael Gold exposing the brothers, the so-called racketeers, emphasizing they

"Is it the regular teachings of Communism to try and knock the doing of wrong people as individuals or groups. Do we advocate that all people are equal or is that those running the destinies of the Daily Worker and the working class struggle sold out to a certain group that has always put their nose into everything for their own dirty greedy filthy hides to save?

"Comrade Editor, you may tell the so-called intellectual Michael Gold that his pen is full of filth and dirt and that he should not use it

to sway the destinies of the working class. "Comrade Editor, if this letter is not published that means the Daily

Works has sold out to that particular group. Comradely yours,

"A GREEK WORKER."

THIS is, of course, either the letter of a fool or of some undeveloped worker who is as far from Communism as he is from the moon. As a matter of fact, he has probably been worked upon by some fascist provocateur. It has always been the fascist method, in America, to

inflame the races against each other during strikes and similar working class activities.

We may be certain that stool-pigeons paid by the German Nazis are at work in various industrial centres, trying to rouse up race feeling and break the unity of the working class.

Communism is internationalist; it preaches the equality of all races. The Negro workers are the biggest group in America against whom the bosses and fascists have directed their hatred. But in the Communist Party the Negro enters as a comrade with full rights. He doesn't have to ask for these rights, or even be grateful for them; they are his hereditary due as a worker

But many undeveloped workers fail to understand why the Communist Party "allows itself to be dominated by Negroes," just as this socalled "Greek worker" thinks the Party is dominated by Jews.

The Communist International is dominated by no race. The French Communists go to prison for fighting for the rights of the Moors and Indo-Chinese and other races under the heel of French white imperialism. The Communists in California do the same and go to jail defending the Japanese, Filipino and Mexican workers of that state. In the South white and Negro comrades fight side by side in the I.L.D. and the Share Croppers' Unions.

It is the first duty of a Communist to fight against the imperialism and chauvinism of his own land.

This letter writer, who signs himself "Greek Worker" is not yet prepared to do this, for he thinks it necessary that he defend some cheap gangsters who would slug him down in a strike if paid for it by a boss of any race.

can one explain the peculiar irrationalism of all their statements? Yet they are crudely cunning, too, and this letter of a "Greek worker" shows the Nazi influence at work somewhere, in some mysterious forgotten place.

Today, in America, to succumb to race prejudice is to help bring on Fascism and the breakup of trade unionism and the end of all working class rights. Remember that, comrades, when somebody tries to prejudice 7:15 P.M.—Religion in the News—Dr. Stanley High

#### N. R. A. Sword-Rattling

NO BLUNTER admission as to the essential war character of the whole Roosevelt New Deal has appeared than the statement made yesterday by Assistant Secretary of War, Harry H. Woodring. Speaking before the Women's Patriotic Society, this leading war expert of the "liberal" Roosevelt government declared:

"It is interesting to note that a great many of the Federal agencies which have been established by the President in the present economic emergency find their counterpart in one form or another in our (i.e. the War Department's) contemplated set-up for in-

And then Roosevelt's army chief coolly informed his hearers that the War Department has already completed its plans to place the 15,000 largest industrial plants under immediate military supervision on the

So it is no longer a secret that the entire N.R.A. program is a program that is gearing industry for war production! That is why Roosevelt's N.R.A. codes are speeding the centralization and concentration of American industry, that is why the N.R.A. has taken pains to set up the strikebreaking Labor Boards.

It is a sinister fact for American workers that the War Department in its plans as announced yesterday by Woodring contemplates "a labor Administration to insure an equitable distribution and treatment of

These Labor Boards, which will, in time of war, make every factory a military prison for the working class, already exist in the N.R.A.!

We can already see in the strikebreaking N.R.A. the beginnings of what is meant by the "equitable distribution of labor." The workers can see it in the sharp wage cuts, in the brutal speed-up and spreading of misery through the spreading of hours of work. In war time, this oppression will be increased

Here in these industrial war plans, geared to keep the American working class at the factories and mines with the club of military-reactionary oppression, can he seen the brutally aggressive imperialist war plans

WALL STREET IMPERIALISM builds its war machine day and night. The tension between Japanese, British and American imperialisms grows.

Japanese and Wall Street imperialism both look with greedy and jealous eyes at the huge Chinese markets. They both itch for the domination of the Chinese masses, from whom they will be able to wrest the super-profits of imperialist-colonial exploitation. Roosevelt builds with imperialist aggressiveness a Navy "second to none."

Both the American and the Japanese masses feel the lash of the intensified exploitation of their "own" capitalist class, as both imperialist governments lunge closer to war for profits.

In this imperialist war, which the Roosevelt imperialist government brings closer every day, it is the millions of toiling workers and farmers who will pay the bitter price in blood and suffering, while the Wall Street monopolists will reap their swollen war profits.

the masses will not restore any of that mythical "prosperity" that the war mongers are already promising to the impoverished toilers.

It will bring intolerable rise in the cost of living. It will bring reaction and violent suppression of all strikes and struggles of the workers in the shops and factories for higher wages and better working conditions. It will bring untold suffering for the families

The Roosevelt government is letting loose a steadily advancing wave of jingoism, chauvinism, and war propaganda. We have not a moment to lose in our fight against it! The Roosevelt government cloaks its war preparations and objectives with clouds of pacifism. And then the war will explode "suddenly" out of some violation of "our honor" or "our

advance toward war must be met with bitter resistance! It is the steps we take now that will determine how we will be able to meet the war situation when it breaks out!

The way to defeat the N.R.A. industrial war mobilization is to fight for the right to strike, against the strikebreaking compulsory arbitration of the N.R.A. Labor Boards, against the N.R.A. stagger-plan. The fight for higher wages, for reduced working hours without any reduction in weekly pay, the fight for the safeguarding of the toiling masses from the unemployment and starvation of the crisis, is all part of the fight against the Roosevelt N.R.A. war plans. Because it is only by crushing the American workers that the Roosevelt government can prepare for war.

THE AMERICAN WORKING CLASS must not swallow I the jingoistic poison against the Japanese working class that is now beginning to pour out of the columns of the capitalist press.

We workers of America are united in international proletarian solidarity with the workers of Japan. We join with them in the fight against imperialist war, whether made here by our Wall Street exploiters or by the Japanese ruling class. It'is we, the international working class, against them, the capitalist imperialist ruling class!

Let the revelations of the Roosevelt war driv be made clear to every worker in the factories, particularly the munitions and transportation industries! Let us fight against the chauvinist poison against the Japanese working class! Let us raise high the banner of international schlarity against the imperialist war

#### Build the I. W. O. Into A Mass Organization

THIRTEEN THOUSAND FIVE HUNDRED new members have been recruited by the International Workers Order in a membership drive just concluded. This is a splendid achievement. It is a testimonial to the activities of the membership of the Order. At the same time it is another sign of the radicalization of the working masses in America.

In the past the American bourgeoisie has dominated the fraternal organizations in America. This bourgeoisie have used their domination to keep from the workers in the fraternal movement an understanding of the economic and political causes of their economic insecurity and their consequent need of protection through mutual and other insurance. They have dedicated the services of the many fraternal organizations to various religious and mystic cults, to nationalistic and patriotic purposes and to everything else except to those interests and needs of the working class which drive the workers into the fraternal movement. But now the crisis of capitalism is opening the eyes of the workers. Their ability to pay dues and insurance fees has radically diminished; their need for aid and insurance equally radically increased.

Now the purposes of the high-sounding phrases of bourgeois fraternalism are being penetrated by the workers. They learn that behind these phrases is hidden the effort of the bourgeoisie to prevent the workers from solving their problems at the expense of capitalist profits. Behind these phrases is hidden the purpose of preventing the workers from seeing the imperative need for Social Insurance.

Here the International Workers Order has a tremendous task. It must challenge this bourgeois fraternalism. It must replace it with fraternal efforts which will turn the workers toward class consciousness. It must establish a fraternal movement which shows the workers the facts of their capitalist enslavement. It must break down the barriers of nationalism, religion and race prejudices. It must teach them that only united efforts of the workers will solve the economic insecurity which makes them easy victims of the profithungry insurance schemes of the bourgeoisie. It must mobilize the masses of workers in the fraternal movement for Social Insurance.

THE NEXT TASK of the International Workers Order is to establish itself more firmly among the native American workers. At the same time it must develop within its ranks an ever-clearer understanding of proletarian fraternalism; it must make this proletarian fraternalism the content of the life of the branches and the members. It must make agitation and struggle for Social Insurance a most important part of this life. Only in the degree in which it can develop this life in the branches will the International Workers Order be able to fulfill its mission of developing class consciousness among its members.

With the need of working class service in the fraternal movement becoming more and more clear to the masses of workers, the opportunities for the growth of the I.W.O. become unlimited. The I.W.O. can, justifiably, speak of an immediate perspective of growth into hundreds of thousands of members. Its value as a proletarian fraternal organization depends upon this growth. This growth, in turn, depends upon the quality of its service as a proletarian fraternal or-

War, Navy Heads Admit Anti-War Propaganda in Armed Forces

TOKYO, Jan. 26.—Proposals for the speeding of war preparations against the Soviet Union and China and for adoption of a less antagonistic attitude toward the U. S., as a strategic necessity, featured yesterday's session of the Japanese Diet.

It was stressed that changing conditions in the Far East de-manded immediate action if Japanese imperialism is to succeed in its plans of conquest. What these changing conditions are was hinted in frequent but veiled refferences to the success of Societies construction in the Society cialist construction in the Soviet Union in converting what was formerly a backward agricultural country into a great industrial country, today the first in Europe and second in the world in industrial output. The discussion left the inference that if armed intervention against the Soviet Union segment the Soviet Union against the Soviet Union tervention against the Soviet Un-ion is to succeed it must be undertaken at once.

Amy and Navy leaders de-manded an air fleet equal to the combined air strength of the Soviet Union and China, and ex-pressed great concern over the Nanking government's air force which is being built up by the U. S. aid, and already includes over 100 modern combat and bombing planes furnished by U. S. companies.

TOKYO, Jan. 26 .- The Japanese Ambassador to Italy has been instructed to make a sharp verbal protest to Mussolini against his recent article attacking Japan's aims of conquest in the Far East.

In his article, the Italian fascist dictator made a chauvinist allusion to the "yellow peril," in an attempt to incite race hatred in support of italian imperialism and to slur over the essential imperialist character of the aggressions

of Japanese imperialism.

Mussolini's article and the attacks on Japan in the Italian press reflect the bitter trade war between the two imperialisms. During the past year Japanese pro-

World Communist Party Sounds Call for "Soviet Power" in Fight Against Crisis, Fascism, Imperialist War Danger, As World Revolutionary Crisis Matures, Pravda Says

the recently completed 13th Planum of the Executive Committee of the Communist International is given below in the editorial taken from "Pravda," official organ of the Communist Party of the Soviet Union. The full text of this important political document follows:

The 13th Plenum of the E.C.C.I., just ended, adopted a number of important decisions on the basis of the perspectives of the proletarian world revolution. The Plenum made a Bolshevist analysis of the fascisation process going on in the capifor the new world war and for the counter-revolutionary war against the Soviet Union by the imperialists. The Plenum pointed out the tasks of the Communist Parties in the struggle against fascism, against the danger, in the struggle for the Soviet power, for the dictatorship of the proletariat. The international situation, and the position of the whole capitalist world, is determined by the fact that in the capitalist countries the economic crisis has been raging for five years. When the first Exchange crash took place grants, subventions, and govern-U.S.A. and Germany, the Communist International, equipped with the mighty weapon of Marxism-Leninsm, pointed out that the world economic crisis was maturing. This fact it pointed out in face of all the ontimistic "prognoses" of the bourgeois extent. The wage robberies, the cut- Japanese military fascist clique has

Three years later at the 12th E. C. C. I. Plenum, the C. I., basing its conclusions on the increasing acuteness of the crisis and the aggravation of all capitalist antagonisms, pointed out the end of the relative stabilization of capitalism. And now, a year later, the objective situation of the capitalist countries confirms the obvious fact that the C. I. was right.

The whole era of relative capitalist stabilization, though awakening paci-fist and democratic illusions, was not a characteristic feature of the historical development of post-war capitalism—the "general line" of this development is decay, decline, disso-

Under the conditions given by the transition to a fresh series of revolutions and wars, the irregular and rapid development of the crisis has become increasingly marked. In all the capitalist countries the ruling classes are clinging convulsively to all possible measures for creating an grants, subventions, and govern-mental guarantees pour as if from a cornucopia into the pockets of the capitalists, in the hope of conjuring

The production of war materials at every joint. The Geneva Confer-has increased to an unprecedented ence is a corpse. In the Far East the

capitalist governments not only fail against the Soviet Union to restore the stabilization, on the contrary, they actually intensify the crisis of the capitalist system as a

tion, and the adaptation of industry and agriculture to the impending war are accelerating the outbreak of that war, and are a heavy burden on State finances. The expenditure for the State apparatus is increasing, especially the expenditure for army and police, in order that the revolutionary indignation of the masses come. The increasingly parasitic role played by the bourgeois state has never been so mercilessly ex-posed to the eyes of the toiling masses as at the present time. Hence the intensification of the economic war among the imperialists, and of all the international antagonisms of capitalism, is such as to indicate "the eve of a new imperialist war."
