By a Metal Worker Correspondent) ington with a minimum wage scale NEW YORK .- I am an auto meover 13 years. Now I'm working in one of many repair shops, a branch of the General Motor Car Company. All their works now are based on piece work. Before this piece work system, in 1924-25, we used to work on an hourly basis. Mechanics used to get from 75 to 90 cents per hour for 8 and 9 hours a day. For example, on a job of eight cylinder V type grind in valves, those who could make this job in two days were considered

After introduction of the piece work system, \$12.80 flat was paid for the very same job. If the mechanic would work on the job one day or three days he would ge \$12.80, and that is all. Then th osses installed the piece work system to get workers to compet gainst each other. One man made that job in 12 hours, another one in 10 hours, some one else in 9, and on. Men forgot about lunch sandwiches right on the job, while draining water out of the radiator. No one would think about or men-tion organization. The bosses abolished the gang foremen (slave driv-ers) because the slaves drove them-

Prices Cut

Furthermore, the bosses found exuses to reduce the piecework prices, which rolled down full speed unti reached the bottom of \$4.14 from \$12.80, the previous price for the very same kind of work, plus cleaning and adjusting carbureton spark plugs, etc.

Before the boss used to supply the necessary tools for certain jobs, such as on the carbon and valve job. Now men buy their own.

And now we haven't got enough work to do for the boss. If there was something to do or not, you have to come to the shop every day at a.m., punch your time card, register yourself on the board by the bosses office and sit down so he can see you all the time. Sometimes we sit all day long without a minute's

Many days, especially in winter time, we have to come to the shop, spend our earfare, and go home without a cent made that day, because the boss pays us only for actual productive work "piece work." If we get no job that day it is our hard luck. If for some reason we come later than the regular time to work, we have to go to the boss of one later than the regular time to work, we have to go to the boss and explain why so late. the auto workers, but for no reason gave it up. I suppose for lack for funds and experienced forces.

Then all of a sudden Mr. Roosevelt's N. R. A. was introduced with brilliant promises of better condi-tions. The bosses were "compelled" to reduce the working hours from 48 to 40 hours per week and increase wages from 63 to 69 cents per hour as you see in these two productive time tickets of mine. But the piece work system remained to better conditions for the bosses.

By increasing the wages, bosses decreased the time allowance on piece work. For example, adjusting our-wheel brakes. Before that used be .7 of an hour, now only .6, or or Jobs where these were 1.2 (76 cents) now only 1 (69 cents). But, the enthusiasm and hope among the workers was great.

Bosses of "Sales and Service" short which ordinarily used to employ 4 mechanics now put to work 70 mer But, by increasing the amount of mechanics, they could not increase the work for them, only divided the same jobs of 40 men among 70 men on the same old piece work basis Refore, 40 men used to make a average of about \$20 per week of A now 70 men get only about. Benny Gets A Job

CITY COLLEGE (N. Y.) has never been a major power in the football world. In recent years the team has been losing more often than winning. During the 1933 football season City College had its poorest campaign, since 1923, losing five, tieing one and winning only one. Such a record makes it a close rival to Cooper Union and Brooklyn College for the honor of being the worst team in the city.

no official repudiation, and since there has been no such repudiation. we must accept this as the official (the "influential" alumni, I they want to put City College on the mean) didn't like the way the football map. The money will not come out of your pockets. The alumni of C.C.N.Y. is taking care of the complete cost.

"There will be no general drive mong the alumni of the college," recorts Jacob Holman (class of '04, sectors Jacob Holman (class of '04, sectors of the Alumni from 1916 through 1920). "The money will be guaranteed entirely by a small group of prominent graduates, and most of it has already been subscribed."

All that is needed is Dr. Frederick (Umbrella) Robinson's official approval. And approval from the agile Parasol-Wielder for any act of the "prominent alumni" is always forthcoming. Witness the recent expulsion and suspension of 31 students for demonstrating against the R.O.T.C. Witness the suspension last year of 19 students for protesting the ousting of Pro-fession Ockley Johnson. All Fred-erick B. needed was a little hint from the "influential" graduates that the "red menace" must be for-ever climinated from the fair name of City College.

Friedman will replace Dr. Harold J. Parker as coach. The latter will stay on at City as an instructor in hygiene. Parker had his day once, too. When he came to C.C.N.Y. in 1022 he coached the freshman team. 1922 he coached the freshman team In 1924 he took over the varsity and Amter also minced no words about gave the Lovender the best team it ever had. But times have changed, and so have football coaches.

Benny's record is a more speccular one. After he got out of colege, where he starred as a quarterback, he didn't have much trouble finding a job. He joined a profes-sional football team in Cleveland and then the New York Giants. He ended crimination right here in the U.S. his playing career (so he says) with capitol."

UNDOUBTEDLY there is something doep in the minds of the "promialumni and President Frederick Barnacle Robinson. They will never reveal their true intentions as

Y. graduates can't get into medical colleges because they have no "per-sonality," and no "social training." He even advised against applying for admittance to medical schools, leaving the graduates to their practically only other alternative soda-jerkers.

But Robby and the Alumni are wise. Benny Friedman, as coach, will attract students to the college who have more "social training" and better "personalities." That will raise the level of City College among the other universities of the country.

There will be a new influx of athletes all wanting to get the benefit of Friedman's expert gridiron tutelage. It is hoped that these new students, too, will be more dependable in the way of helping out the admin'stration in breaking up demonstrations, etc. Athletes as City College now are pretty punk, not only on the gridiron where they don't win many games, but on the campus itself, where their aim in throwing eggs and tomatoes at student gatherings is more or less askew. Some of them even refused to help the R. O. T. C. Colonel against the student body. Some of 'em even lined up with the militant

But leave it to Benny, the "prominent" alumni and Frederick Baclanova Robinson. They'll see that the situation in the future will be emedied-maybe.

New York Readers!

MEMBERS of the Pen and Hammer Club are calling at the homes of many DAILY WORFKER readers living in Manhattan, Brocklyn and the Bronx to secure information which will help the 'Daily" sell more advertising. These authorized investigators will present a letter of introduction from our editor on DAILY WORKER stationery and will have a regular printed questionnaire which we ask that you fill out.

CERTAIN readers may find one of these DAILY WORKER questionnaires in their mail box, or under their door. This means that a member of the Pen and Hammer Club has called during your absence. It will, therefore, help us if such readers will fill out the questionnaire and mail same to the Business Department of our paper.

IT IS EXTREMELY IMPORTANT that this survey of New York readers of the "Daily" be completed just as quickly as possible. A number of firms are waiting to see the results of this survey before deciding on advertising in our paper. REMEMBER—your name will not be used! We will simply tabulate the information so that we can show percentage figures, etc.

WATCH FOR NEW ADVERTISERS! Patronize such firms! Tell them that you saw their ads in the "Daily." It will also help us tremendously to receive postcards from our readers informing us of purchases they have made from DAILY WORKER advertisers.

Solid, United Ranks Will Win the Taxi Strike! Build One Independent Union!

STATEMENT OF THE NEW YORK COMMITTEE, COMMUNIST PARTY-

BY THEIR remarkable militancy and organized action, the hackmen now on strike in New York City have shown they can win. Victory is within their reach now, if the ranks remain solid, and if every effort to smash the unity of the strikers is staunchly and flatly rejected.

The taxi strikers must not for one instant permit their united, organized struggle to be tampered with by any move of the bosses, working through their politicians. Already various efforts are being made by the cab owners to split the ranks, to start a movement back to work before the demands are won. They figure that any trickle back to work will break the morale of the strike and defeat the golden opportunity the hackmen now have to build a powerful organized weapon to insure not only the immediate demands of this strike but their future wage and working conditions.

Only by sticking to their demands, depending on their own organized might and struggle can the demands be won.

The LaGuardia city government, acting through its mediator, Morris L. Ernst, is interested, as the lawyer Ernst said, "To get the cabs rolling as quickly as possible." That, without the men having won their demands is the talk of a strikebreaker.

Mayor LaGuardia's "mediator" has done more. He is already raising the most dire threats against the strikers. His slogan is: "A cop on every cab if necessary to get the cabs rolling!"

PHE hackmen have already rejected his phony settlement proposition and are sticking for 100 per cent of the nickel tax to go the men. The men, furthermore, know from bitter experience of blacklisting, discrimination, and having to meet the boss individually, that this strike must lead to the organized power of ONE-unified, independent union.

To prevent the men from achieving this goal, the bosses' newspapers are already spreading the most vicious stories of splits, of violence, of the "public" being injured. They are spreading the vilest capitalist propaganda against these striking workers in order to prepare public sentiment for strikebreaking in the event the LaGuardia outfit is not able to break the strike through "mediation."

The lies of the boss press should be spiked. These vile filthy sheets of the rich parasites who dread any organization of the workers should be answered by the strikers through knifting their ranks more solidly and working in cooperation with all workers for a victory in the strike

Especially the hackmen should be beware of the capitalist political maneuvers of the LaGuardia machine. They should beware of becoming the butt end of the political plottings and struggles between the La-Guardia machine and the Tammany fakers.

The road to victory for the hackmen lies in their independent action

THE Communist Party, and its official organ, the Daily Worker, the only English language working class daily newspaper in the United States is 100 per cent for victory in the hackmen's strike and is mobilizing all its readers, all of its sympathizers and supporters to battle side by side with the strikers.

The Communist Party supports the following demands and will use every effort to help the strikers win them:

1) 100 per cent of the nickels collected by the fleet owners to be returned to the hackmen; 2) the extra nickel on the collector to be turned over to the hackmen in the future; 3) garage committees of hackmen to be elected to distribute the money; 4) No discrimination against Negroes; 5) No settlement to be made by the united strike committee without the approval and vote of the men; 6) Recognition of a united, independent hackmen's union.

To win these demands, certain action is now necessary to strengthen the strike and guarantee the best results of organization.

A central mass meeting of all strikers should be called to enlarge the strike committee so that all, or nearly all of the garages has its representatives on the strike committee. This mass meeting can then take the actual steps of mobilizing the united, independent union. It can vote on the demands, and unify the hackmen around these demands, giving the lie to all the talk of split, and all the efforts to sow and spread confusion among the ranks.

rspecially, we must sound the greatest warning against the LaGuardia boss political trickery and the smooth ways of Morris L. Ernst, socalled "mediator." This same Ernst defended the right of the German Fascists (Nazis) to come to this country and speak and act freely, even against the American workers. These Nazis are the ones who destroy strikes in Germany by gunfire and bloodshed. They have destroyed the workers' unions, arrested and executed many of their leaders. This Ernst has not shown himself to be any friend of the workers, but a friend of

The talk about "safeguarding" the interests of the "public" is so much popycock. The great majority of the "public" are the New York workers, tens of thousands of whom have themselves been on strike, or are now preparing for strike to win wage increases, better conditions and union recognition. Their interest lies with the taxi drivers.

The "public" the capitalist press is concerned about is the rich parasites who hate and dread to see any victory of the workers; who specially are repelled at any idea of union organization by the workers. Taxi strikers! Keep your ranks, solid and united. Build one, united ndependent union! Organize for mass picketing to keep the scabs off the streets! By sticking together, by rejecting all efforts to split your forces, but holding out all together, the strike will be won and a powerful union established to safeguard your interests!

As phone Co. a move to conserve the funds of the association, the System Board some time ago, ordered the downtown office closed and removed to Miller's home. Since then he has been collecting \$20.00 a month from the association for "office space" in his basement, and has employed his daughter as stenographer at \$40.00 per month. Miller's salary and "expense account" totals up to about \$350.00 a month while the men he is supposed to represent get a bare subsistence wage.

The Soo Line shopmen are all fed up on Miller and the company union. They now realize that the whole outfit must be blasted wide upon and thrown on the scrap heap. They fur-ther realize that in order to scoure recognition from the company, restore working rules and improve conditions on the job, it is necessary to reor-ganize themselves into a bona fide union, controlled by the rank and file and carry out the program of the Railroad Brotherhoods Unity Movement to build a united front of all railroad unions to secure the return of the 10 per cent cut and general improvement of conditions in the railroad indus. v.

"Yes," replied Ernst, "You can go back. New York has enough police to put one policeman on each car and keep every cab rolling."

Ernst, in a short speech to this roup, unwittingly revealed the real ature of the LaGuardia strikebreak-

"You are cutting each others hroats," declared Ernst. "When the coss makes no money, you make no money. You guys are starving. A lot of companies have no money; not give you the tax money. I want to give the public back something through the Consumers Monday. If you and the bosses are smart, you will cash in on it."

Ernst would give the men only 50 per cent of the back tax due and 40 per cent of the tax from the day of settlement. They will have to wait for this fund until the case is cettled in a control of the tax from the day of settlement. settled in court.
The Concumers' Monday would cut the fares by one-third on Mondays,

and the drivers would get 40 per ent of the gross. Ernst attempted to point out to the drivers that this would increase the number of fares and that "the riders would no doubt, in view of the plight of the drivers, give them the full fare, a third of which they could keep for themselves.

A Sensible Letter

My dear Dr. Luttinger:

"I wonder whether you would care to print in your column the experience of one who, despite the removal of tonsils and adenoids and an operation on a deviated septum, is susceptible to frequent colds. Your article in the Daily Worker on mouth antiseptics is the cause for my writing this letter.

"I have found that gargling with Dobell's solution as soon as the first symptoms of a sore throat appear produces almost certain relief. I make up my own solution by dissolving two grams of sodium bicarbonate, As an example of how they boast about defeating the workers, I read in "Steel" magazine recently how they said they managed to keep their to make their own (which I recommend) one gram of either bicarbonate or borax is about that quantity which can be piled up on a dime (some of us still have a dime). To measure the carbolic acid is a little more difficult. Phenol is usually purchased in a drug store either as a 5 per cent or as an 88 per cent solution. One gram of phenol is contained in about 2/3 of a fluid ounce of the 5 per cent and in about 30 drops of the 88 per cent solution.

"I have found that Dobell's solution makes a fairly good mouthwash too. It is rather inexpensive if home-made. I know that it is not particularly germicidal but it tastes good and is not extremely toxic, which is about all one can say of most of the commercial mouth washes.

esteopaths. I know their limitations, but I believe that they also have some useful function. Massage and other measures of physical therapy are sometimes useful and necessary. Too often the medical practitioner is too far above the use of his hands on a patient, and more often he hasn't the ability. The osteopath then has his uses. I agree that he should not attempt to cure all ills by massage, etc., but neither should the physician try to cure everything without it. The growth of osteopathy is probably the fault of the lazy physician and the attitude of the A.M.A. Perhaps when we have state medicine we will have the ideal division of duties among the various types of healers too.

INTO THE CHURCHES Chicago, Ill. From Sunday to Sunday there are about 15 of us on a committee to work in the churches. We started very well. The three of us that are people; 5,000 mothers and babies—altogether 610,000 people who are in vorking together we went to one church Sunday and our speaker spoke from the I.L.D. and we had the tem may be kept believing that this League of Struggle for Negro Rights. which did not get the floor. > The I.L.D. rep was Toney Rednade. He made a nice 15-minute outline on the scattered 15,000,000 Negroes in this country, which is doubly op-pressed. After the I.L.D. rep spoke, the Rev. H. L. P. Jones backed up every word that the I.L.D. had said. He said at the Scottsboro demonstra-tions of about 20,000, over half were white, and he said we must cooperate

> with them sooner or later.
>
> The collection ran up \$8.52 for the Scottsboro case, and they told us not to make it our last time. This Reverend is the only Reverend that would turn his church over to us when Negro women went on strike. All the other churches told us they couldn't do nothing like that in their churches So after this Sunday we are going to try to have something every week, on what the churches is doing. And

every nickel that is given us come out in the paper, so we can show them where the money is going. Help fight the menace of war

FROM "THE PLAYGROUND OF THE WORLD"

"GREETINGS from the 'Playground of the World.' That is what the capitalistic papers call Miami. But from a worker's viewpoint let me correct that wrong impression

"With dozens of other northern fellows-many of them good comrades-I am employed at the very exclusive and expensive 'X' Hotel at Miami Beach. A supposed to be high-grade Kosher place. To work there is simply hell. Every time an order has to be brought to a table it means climbing up and down 19 steps each way. The guests treat us with disdain and rottenness. They have been led to believe that the average waiter is simply a down-and-outer, who ought to feel privileged to wait up on them.

"Our steward really should be the leader of a chain gang. He has all the qualifications. He makes life as miserable for us as is possiblealways threatening to discharge the waiters, without any notice. In Florida, owing to the terrible existing laws, it is possible to pick up almost anybody for vagrancy and in this state that means the chain gang-and the chain gang means torture, so the fellows swallow his insults, simply because they are 1,500 miles from home and desperately need the tips. I say tips, because while they get \$20 a month—there is a kick-back of \$20 for room and board. Now here is a typical breakfast for the help:

A stinking cereal. A cup of left over coffee. A dried out piece of bread.

"A small breakfast for the guest is as follows: "Waiter, bring me a large glass of orange juice; a baked apple with heavy sweet cream; oat meal with cream; French toast with honey; a couple of mediumboiled eggs; hot milk; hot coffee-and please see if you can't find some cookies." But woe betide any waiter caught eating an orange or an egg. He is fined 50 cents.

"Our lot is hard, yes indeed. But the poor Negroes know what tyranny really means. A colored man hasn't a chance in this country. The dishwashers are colored chaps who know how to work the electrical washers. They go to work at 7 in the morning and it is often 10:30 when they are through. Now when we have a midnight supper, you can imagine the time they get home after working from early in the morning. So they asked for a little more money and this is what they got: 'You lousy black swine-let me hear you make another yelp about more pay in this kitchen and I'll have you both arrested for creating confusion and noise in this hotel kitchen.' Naturally that scared the poor devils, for they know the little chance of a square deal for a colored man in this country—but the next morning they failed to

"The waiters in the north woke up-they are not asleep down here -simply biding their time in every big hotel here in Miami. You will hear from us shortly."

"EVEN A HORSE"

THE comrade waiter who sent the above letter also enclosed a mimeographed leaflet of the Resort Hotel Workers Union, calling for a general strike. They ask for a nine-hour day and a six-day week, with no charge for room and board, an \$11 a week minimum wage, and recognition of the union.

"President Roosevelt has emphatically stated that every American working man is entitled to a living wage," says the appeal. And it also contains this remarkable slogan, the keynote of the demands: "EVEN A HORSE HAS A DAY OFF."

Can you beat that combination of slogans?

THE MASQUE OF ANARCHY

"DEAR MIKE: We happened to come across the poem by Shelley entitled 'The Mask of Anarchy.' Would you please review this poem for us. "Comradely, "Two Pioneers."

Answer: Shelley was one of the great poets of that revolution which overthrew the feudal system and established capitalism. In its first years many people thought this revolution would free the world. Shelley thought it would help the working masses, and his poem expresses these feelings. Today we know that Shelley's hopes were betrayed, and that the workers are still in chains. Today the young proletarian Shelleys call for a working-class revolution. Yet Shelley is well worth reading, if you can remember his historic background. Keep it up, Pioneers! Read Robert Burns, too; he is my favorite poet of that revolutionary century.

FROM A GREEK WORKER

READING the letter from "a Greek worker" in your column of Jan. 27, I want to say this: No real Greek worker will take such accusations seriously. Why didn't this 'worker,' if he had any real charges to bring, say something about it at the meetings of the Spartacus Club? Surely he must be a member, if he is a Greek and a worker! Otherwise he must be a member of that racketeering club of the "National Herald",' that Greek daily which fights against the working class, and that organized the infamous Local 70 to break the strike of the fur workers in 1926.

"No, a real revolutionary worker does not write such a letter as this. Our newspaper, Empros, our Spartacus Club, and all our other Greek working class groups will unite with the Jewish, Negro, Japanese, Turks, and the rest of the revolutionary workers to build a better and brighter world .- J. T., a Greek Worker.

REFERRING TO THE SAME

"IT WAS unfortunate that in that answer to the letter signed 'A Greek Worker' you didn't make it clearer that many of the wall Greek restaurant keepers are often supporters of the working class movement I know several who are very sympathetic. "Also you say something about the German bourgeoisie being patho-

logical because of the war and inflation. Far from it. Theirs is a very sane, cruel and desperate striving to hold power by any means: lies, insane statements, provocations-any tool that comes to hand.

"One effective way to combat the fascists is to expose their complete failure to solve the economic crisis in their lands. To say they are lunatics isn't enough. Some of them undoubtedly are; but the American worker can't be convinced by our simple say-so. What counts with him is, does it work? Does it better my condition? If it doesn't, to hell with it. And he'll say to hell with Hitler if we show him what has happened to the workers over there. "Comradely, "Kenosha, Wis.

SOCIALISTS LAUD "AID TO FARMERS" WHAT'S ON On Jan. 8 Mr. Krysinski, chairman

of the Socialist Party, addressed a mass meeting here in Baltimore at Workmen's Circle Hall. It seems that the best they could scrape to-Tuesday gether was 150 persons by actual count. Only one Negro was present. And they sure gave him plenty room, a whole row in fact. His talk of about three-quarters of

an hour was entitled "What Is the New Deal?" Most of the time was taken up showing how the farmers are getting all the breaks from the N R. A. His attack on the N. R. what the theatrical trade-papers called "foreign propaganda films." Since then the lower middle-class has taken a terrible beating, and the contrast between the fright and despain of capitalist countries with the hope, vigor and actual accomplishment of revolutionary Russia has become so striking that not only workers but intellectuals and professional people have come to look at the followers of Marx and Lenin with an interest that ranges from respectful curlosity to acceptance and participation. It is natural, therefore, to see this general movement express itself finally in the ourgeois theatre. Now it begins to seem as if no Broadway playwright feels his work is really up-to-date unless it includes at least one Commu

NRA Spurs Company Unions

COMPANY unions, "yellow dog" organizations formed especially by the biggest trusts of the United States to terrorize the workers, and tie them hand and foot to the unions of the bosses, have been given powerful impetus and support by the N. R. A.

The "right to organize" under the N. R. A. has turned into the travesty of workers being forced by the vilest and most brutal threats and intimidation into the shackles of company unions

Now President Roosevelt takes a hand by issuing an executive order which the capitalist press and the A. F. of L. officials first interpreted as an "attack on

It now turns out, however, that the executive order of President Roosevelt is one of the strongest supports for the furtherance of company unions and the smashing of genuine workers' unions

On February 1, Roosevelt signed an executive order giving the National Labor Board authority to hold elections to give workers the right to choose their own

Mr. William Green, always the first to come to the defense of every scab act of the Roosevelt government, termed the executive order a first step in the government drive against company unions

On February 3, however, the two highest authorities on the N. R. A., acting for President Roosevelt, "clarifled" the executive order in a way to show that the real intent of Roosevelt was to protect and defend the company unions, spurring their growth at the expense of the workers' own organizations.

The New York Times headlined the joint statement of General Johnson and Donald R. Richberg, chief counsel for the N. R. A. as "N. R. A. Denies Slur at Company Union."

DERHAPS it would clarify matters somewhat to show that two of the most outstanding advocates of company unions, two of the worst exploiters of labor, help determine the N. R. A. policies on company unions These gentlemen are Pierre du Pont, head of the poison gas and war munitions industry known as the du Pont Chemical Corporation, one of the most rabid organizers of company unions, and Walter Teagle, official of the Strandard Oil Co., advocate of company unions.

The A. F. of L. officials on the National Labor Board (that is, Messers Green, Lewis, Berry and Hillman) cooperate with these company union advocates by helping to break strikes, lying to the workers about what rights they are granted under the N. R. A., and completely misrepresenting what the N. R. A. means by "collective

Since the adoption of the N. R. A., company unions have had a phenominal growth. This is no accident. It is the outcome of the joint policy of the A. F. of L. officialdom and the mightiest bosses in the basic industries, steel, chemical, coal, automobile and rubber. While the A. F. of L. officialdom has done all it could to bind the workers to the strikebreaking dictates of the National Labor Board, to insure lower living conditions, the big employers have rushed through com-

The Daily Worker has already published the details wathered by the Pen & Hammer showing that whereas before the N. R. A. there were some 1,500,000 workers around 5,000,000 in these yellow dog, anti-workingclass set-ups. The A. F. of L. officialdom itself admits that around 3,000,000 are in company unions.

The first aid given to company unions was the "merit clause" in the auto code approved by the A. F. of L. officialdom, granting open shop and company union privileges to the powerful automobile trusts. Once established, this was full approval to the open shop in every industry in which the employers with the help of the N. R. A., the state and city forces, their spies, stool pigeons, gunmen, threats of discharge, could bludgeon the workers in the company unions.

Now President Roosevelt, helping his friends in the Standard Oil, du Pont Chemical, United States Steel, and a host of other corporations, has handed the National Labor Board a power that will speed still further the development of company unions.

First Johnson and Richberg state that they will not hold elections just because the workers ask. Second, they say, even where a genuine workers union has been organized the bosses can form a company union, if they wish, with the minority in the plant. This is an invitation to every boss to begin now the formation of company unions to smash and oust the genuine unions of the workers.

THE very last word of the N. R. A. decision on Roosevelt's executive order is a full legalization of every company union throttling the workers. "Nor is it true," say Johnson and Richberg, "that employes, if permitted to act in their own free choice, may not select a company union (meaning local plant union.)" Under the "merit clause" the boss is given the "free choice" to fire any worker without reason, if that worker does not belong to a company union established by the boss.

The rank and file in the A. F. of L., menaced by this company union monster created by their officials. should arouse their membership in the local unions to the danger and join hands with the workers in company union plants to defeat the company enemy.

Already the fight against the company unions is bearing fruit. The Weirton Steel Co. workers, who had a company union clamped on them, are taking up the battle, but they face the betrayals of their officialdom in the A. F. of L. Amalgamated Union. In Minneapolis, as shown by a report published in today's Daily Worker, 500 shop men are organizing to deal a death blow to the company union on the Soo Line, They have banded together and have ordered the company not to deduct dues for the company union yellow

Where the company unions are being foisted on the workers, the greatest vigilance, organization and strugale is required of the militant workers, and the Communist Party members there have the greatest tasks and responsibilities. The workers hate the company unions. But they must be organized and led for a successful struggle. Every issue brought up by the company unions shrould be answered. Department and shop committees should be organized. Leaflets and shop papers especially in company union plants must be issued regularly to spur the battle against the yellow dog organizations. The workers should be told just how the N. R. A. has chained them with company unions, and how these chains can be smashed and genuine organizations leading struggles for the improvement of their conditions can be founded

Fight Roosevelt War Poison! TroopsBrought TAXI!

THE Roosevelt war machine is getting ready for

Roosevelt has succeeded in building up the bigges war building program in the history of the country. Beginning "National Defense Week," February 12, ecording to official announcements, the press, the radio, the movies, the schools and church will spew the old, vile jingoism with which every capitalist ruling class fills the mind of the masses to make them for get their misery and starvation.

IN THE Far East, where the three major imperialist wolves, British, Japanese and American imperialism, are sharpening their teeth for the feast of the plunder of the Chinese people and the Soviet Union, Japanese imperialism has already unsheathed its bayonets for the attack against the U.S.S.R.

Japanese imperialism, faced with the growing power of proletarian revolution at home, is ready at any moment, to lunge forward in murderous attack against the Workers' Fatherland.

And let it not be thought that the Roosevelt recognition of the U.S.S.R. excludes the possibility of Wall Street aid to Japanese imperialism in the intervention assault. For as much as the imperialist wolves hate and fear one another, they hate and fear the Socialist Fatherland of the Soviet Union even more.

And this persistent imperialist drive to war is sinister with the menace of such misery and suffering for the millions of workers and impoverished farmers in this country as they have not yet seen. All this imperialist war terrorism and oppression converges in the common hatred of the imperialists against the Soviet Union, land of Socialist Construction. That is why the frenzied war preparations of the Roosevelt government are so menacing to the Soviet Union.

COMRADES, we cannot waste a moment! The struggle against imperialist war, particularly on the eve of its outburst, is a basic Bolshevik, revolutionary task, the fulfillment of which leads along the road to the revolutionary struggle for power, for the overthrow of the Wall Street dictatorship,

The Communist Party alone can lead the fight against the Roosevelt plans to send the sons of the working class into slaughter for the defense of Wall Street profits! Every unit, section and district, every Party fraction in the mass organization should get to work at once! Do not wait for formal directions!

Meetings and demonstrations must be arranged at once, without delay! Banners, placards, leaflets must be immediately prepared carrying our message against the Roosevelt war jingoism! These placards and posters must be displayed to the widest number of workers. They must carry slogans exposing the war propaganda. They must say to the workers, "War will not bring back prosperity. It will bring misery to the workers and big profits to the Wall Street bankers." They must tell the workers, "War means more hunger, profiteering, and rising costs of living."

We must ask the question, and confront the Roosevelt government with it. Why does the government find billions for the Army and Navy while slashing the compensation of the 1917 war veterans? Why does the Roosevelt government find billions for the Army and Navy, for a record-breaking war building program, while nearly 16,000,000 jobless workers and their families are starving, without any adequate Federal relief or Unemployment Insurance?

The demand that the Roosevelt billions for war be turned over for the use of the 16,000,000 jobless, for relief and unemployment insurance must be at the center of our anti-war demonstrations and

THE menace of intervention against the Soviet Union, the land of proletarian dictatorship, of Socialist construction, the land that has abolished wage slave exploitation, poverty and unemployment, must be made absolutely clear, and the slogan For the Defense of the Soviet Union must be driven home to the masses, as a major point, as one of the ways that the working class fights against its own capitalist ex-

The stoppage of all munitions shipments to Japanese imperialism should be a slogan prominently featured on all placards, etc. This appeal should be made especially in all transportation centers, docks, railroad terminals, shipping centers, etc.

In exposing the intervention war plans of Japknife-like clarity, distinguish ourselves from the roosevelt anti-Japan jingoism with which Wail Street tries to stir up hatred among the American masses for its imperialist rival in the Far East. We must show how Roosevelt Wall Street imperialism aids Japanese imperialism with munitions, at the same time that it strives to weaken it by spurring it into military adventurism against the Soviet Union, in the hope that thereby Wall Street will strengthen its position in the Far East.

We must show how Roosevelt is financing the Anti-Soviet campaign against Soviet China, with its recent \$50,000,000 cotton "loan" which went for war munitions of the Nanking government.

Especially, against the vile Roosevelt poison of nationalist hatreds against the working class of other countries, we must with the greatest determination raise the slogan of Proletarian International Solidarity with the oppressed tollers of all countries, with the victorious working class of the Soviet Union, of China, with the exploited toiling masses of Japan. We must show how the masses in Japan are fighting the same world battle against capitalist misery and exploitation as we are here, that we are part of the world army of the proletariat against world fascism and imperialist war.

Comrades, to work against the coming week of Roosevelt jingoism! For the Defense of the Soviet

Into Paris As Masses Seethe

Socialists Leap to Aid of Shaky Daladier Government

PARIS, Feb. 5.—Provincial and colonial troops are being massed in Paris today in expectation of widespread demonstrations tomorrow, when Edouard Daladier and his cab-inet faces the French Parliament. Among the troops brought in is a company of Spahis, Negro cavalrymen from North Africa.

Meanwhile Daladier has patched up his cabinet, two members of which resigned when he transferred Jean Chiappe, Paris police prefect, because of his too open connection with Stavisky, the Bayonne pawnshop swindler.

Socialists to the Rescue

The new cabinet members are Radical Socialists. Daladier has thus won the full support of the Socialists of various complexions, who have seized their chance to climb to the top, from where they both sup-port the use of troops against the protesting masses, and are thus using their influence to calm all protests and hasten to bury the scandal Daladier has announced a "ruth less housecleaning" of highly-placed individuals who have been too openly nnected with the Stavisky thievery for him to risk openly protecting them. The nature of his "housecleaning" is seen from the fact that the "punishment" of Chiappe, one of Stavisky's most active protectors, consists in offering him a prized governorship in dismissing him from his position as head of the police

Meanwhile, all Paris is seething with indignation. While workers are preparing to demonstrate in mass against the whitewashing efforts of the government, the Paris War Veterans' Association, with 12,000 members, has announced it will parade in defense of Chiappe, and the Royalists declare they will demonstrate too.

Saturday's Ten Page 'Daily' to Canton Is Rushing Hurl Blow at U.S. Jingo Drive Troops to Fukien onstrate too.

The reactionary press continues to clamor for a "strong man" to take dictatorial control of the situation. The Stavisky scandal is only the climax of a long series of events which have stirred the masses, the most powerful factor being the gigantic tax and civil service wage-cut program by which successive governments have attempted to balance a war-swollen budget. Unemployment in France is at its highest peak in history this month.

In Vienna, Chancellor Dollfus was reported preparing to make an appeal to the League of Nations to intervene in the dispute between his own fascism and the German Nazi variety, following his rebuff both from Hitler and from England. A dispatch from Geneva reports that preparations are being made to call a special meeting of the League Council, Monday, Feb. 11, if Dollfuss' appeal is received.

F.S.U. Convention Shows Deep Sympathy in America for U.S.S.R.

A. F. of L. Unionists

The first national convention of the Friends of the Soviet Union, which took place in New York City over this past week-end, came at a time when the capitalist world is in the midst of the fifth year of crisis, and imperialist antagonisms are growing sharp-er as each capitalist nation attempts to solve its crisis at the expense of the other, as well as at the expense of the toiling masses at home. At the same time, the Soviet Union gained Year Plan and became even stronger as a result of the first year of the Second Five-Year Plan, just complet ed. This convention, to which all or-ganizations of workers, farmers, intellectuals and professionals were invited, occuring but a short time after the United States government recognized the Soviet Union, was called to develop a mass organized force for the support of the following program
