NEW YORK.—Berlin dispatches yesterday reported that the trial of Thalmann, scheduled to be-gin July 2, was postponed to July 16 by a Nazi decree which ad-journed the first session of the bogus "People's Court" until that

It is not known whether this s another Nazi maneuver to conceal the real date of the trial or a retreat before the world-wide thunder of protest, with the Nazis probably hoping that the protest will abate by that time. In any event, it is a warning to the workers and other anti-fascist fighters to redouble and intensify the fight for Thaelmann, Torgler and other anti-fascist prisoners in Hitler Germany.

N. J. Farm Strikers Drive Thugs Away From Strike Area

Agricultural Union Wins Aid of Jobless in Fight on Terror

BRIDGEPORT, N. J., June 27 .-The 300 Seabrook Farm workers striking under the Agricultural and Cannery Workers Industrial Union (T.U.U.L.) here won their first victory today.

The five gangsters who attacked the picket line yesterday with blackjacks and bullets, seriously injuring three workers, were forced off the farm through the mass protest of employed and unemployed workers who came to the support of the

The Unemployment Council of Vineland, now engaged in a relief strike, the International Labor Defense and other workers' organizations forced the removal of four gangsters and the arrest of one who is being held under \$2,000 bail. The farm workers are striking against which the American masses bring the attempt to deprive them of the wage rises gained in the April

The local politicians are trying to capitalize on the strike by making advances to the strikers. Workers are discovering many politicians who suddenly claim to be their friends. But workers have memories. They remember the many times in the past that the politicians sold them out. But now they have the guidance of the Communist Party which, experience proves, is the only workingman's Party. The Communist Party is active in exposing the true nature of these political maneuvers.

The strike is spreading to other farms, especially among the bean pickers near Glassboro.

Vineland Protest Meet

VINELAND, N. J., June 27.—The nternational Labor Defense of Vineland at the largest open air mass meeting ever held here pro-tested against the terror used against the Seabrook strikers. Breach Grows Between Two Armed Groups

BERLIN, June 27.—Chief Nazi butcher, Adolph Hitler, was forced to step into the growing breach between the top leaders of the Steel Helmets, monarchist veterans' organization, and the Storm Troopers today to prevent serious clashing between these two armed gangs of the fascist dictatorship.

After a decree was issued in Arnsburg forbidding meeting and the vearing of uniforms by the Steel Helmet group, Hitler promised Franz Seldt, Nazi Minister of Labor, and leader of the Steel Helmet, that the organization would not be dis-

First Weekly Table Shows Slow Gain in Circulation

TRAILING the rapidly advancing political situation at a snail's pace and far out-distanced by the opportunities, the circulation of the Daily Worker has increased by 672 in a period of somewhat less than a month according to the tabulation, published below, which is the first of a series of weekly reports which the Central Committee has instructed the Daily Worker to publish to provide a complete check-up of activity in all districts in the campaign for 20,000 new readers in two months.

Fourteen districts show some increases since May 31st. Twelve districts show a decrease. Less than three and one-half per cent of the quota of new readers has been obtained. Pittsburgh leads all districts in the gain of new readers with 52.3

per cent of its quota. Denver, North Carolina, St. Louis, Minnesota and Philadelphia follow. Boston, Buffalo, Cleveland, Chicago, Kansas City, North Dakota, California, Connecticut, Birmingham, Kentucky, Louisiana and South Dakota have all dropped below their total circulations for May 31.

Revised tables will be published in each Thursday's issue of the Daily Worker. Follow these tables closely and intensify the drive in

The Milwaukee Strike

By EARL BROWDER General Secretary, Communist Party, U. S. A.

ONE of the most important strikes in the country is now taking place in the Socialist Party controlled city of Milwaukee. It is the strike of the car men and the power

The strikers are fighting for wage increases, for recognition of their union, which is affiliated with the A. F. of L., and a stop to the victimization and discrimination against workers because of activity in their union. Even Gen. Johnson was forced to admit violation of even the miserable "rights" of N. R. A., and to withdraw the Blue Eagle as "punishment.

These are elementary, basic questions, which today concern the American working class, and which have already resulted in widespread strike struggles in industries throughout the country. This strike of the Milwaukee workers has aroused splendid support and solidarity among the working class of the entire city, with 25,000 workers joining with the strikers to stop the movement of scab-driven

Under such circumstances, with such solidarity, it is clear that the striking workers of Milwaukee have first-rate chances for victory. At this moment, those workers who have still remained on the job, are feeling the encouragement of this solidarity, and despite the use of the blacklist and the trickery of the company pension schemes, they are steadily joining the struggle of their fellow workers.

Here, as in all the battles of labor, the Communist Party in Milwaukee has already mobilized all its forces in energetic and wholehearted support of the strike. The Milwaukee workers have chosen the A. F. of L. union, and the Communist Party stands ready to aid these workers in the fight to win recognition for the union of their choice. The issues here are clear and unmistakable. The Milwaukee workers are fighting in defense of their elementary rights.

In this struggle of the Milwaukee workers against their exploiters what is the Socialist administration of Milwaukee doing? What is the Socialist Mayor Hoan doing, he who joined with the self-styled "militant" group of Thomas and Kreuger, at the recent Socialist Party con-

Victory's testimony, given under the questioning of Maurice Sugar, noted labor atterney retails. noted labor attorney, retained by the International Labor Defense, was one of the high points in a trial remarkable for the completeness of the defense and the clearcut character of the frame-up against him.

Son of a full-blooded Indian farmer and a Negro slave, Victory told how he went to work at the age of seven. At 13 he was already tinner at the McKeesport Tin Plate Mill, McKeesport, Pa., working there continuously for 10 years till he was drafted in the army. He saw action on three fronts, the Argonne Forest, Chateau Thierry and all these years Comrade Greenspan the Hindenburg line, and went over

His account of his movements on the night of May 12 corroborated in every detali the testimony of about 15 witnesses who preceded him. In relating what happened to after his arrest May 14, he told how a detective at the Connors St. Station had pointed a gun at him and threatened him, though he didn't even know what he had been arrested for. At the main poheadquarters a detective had said to him: "You black son of a bitch, if you don't tell the truth, I'll whip your head."

Attorney Sugar placed nine character witnesses on the stand, mos of them white, who testified to the high reputation Victory enjoyed in the community in which he worked Assistant Prosecuting Attorney Frank Schemanske, in cross-examination, made several attempts to discredit Victory's character, but failed. He tried to introduce the element of race prejudice by asking whether Victory hadn't once asked woman whether wouldn't hire him to clean her apartment. This question was ruled out when defense attorney Sugar vigorously objected. The prosecution's last stand proved to be a boomerang. Schemanske called two Union of Greater New York, charged dicks in an effort to disprove statements of Victory and James Spain, Negro defense witness, that they had been terrorized by detectives. Sugar ironically asked one of the dicks "The police never point guns at prisoners, do they, they never intimidate or beat them up, they that the court was filled with hack-

power at its command on the side of the strikers. One would expect that a Socialist Party administration, an administration which was elected as representing the interests of the working class of Milwaukee, would throw its support without any hesitation against the employers and in the interests of the striking workers.

Certainly, there cannot be any doubt that if the Socialist Party Mayor and his administration were to act in this way, then the strength of the companies would be broken, the terrorism of the company thugs completely defeated, and the strike would sweep quickly

Certainly, it must be clear to every worker that if the Socialist Party administration of Milwaukee were to exercise all its powers to give full protection to the strikers on the picket lines, if this administration exercised its legal power to swear in defense groups from the ranks of the pickets, if the administration would put its relief machinery at the complete disposal of the strikers, then surely the emoyers would be quickly brought to their knees

In short, if the Socialist Party officials running the Milwaukee government were to act now in the interest of the striking Milwaukee workers, these workers would immediately wrest from the employers the demands for which they are fighting.

But exactly what is the Hoan administration of Milwaukee doing? In this strike it is doing exactly what every capitalist mayor is ing in every capitalist city of the country. It is doing what the "liberal" La Guardia is doing in New York, what the Republican Rossi doing in San Francisco against the striking longshoremen.

The Socialist administration of Milwaukee is using the government apparatus, the police, the courts, to break the strike of the Milwaukee workers in order to protect the profits of the employers.

It is therefore high time that Mr. Norman Thomas, recognized leader of the so-called "new left," National Executive Committee of the Socialist Party, answer a few pertinent questions.

The workers of Milwaukee and of the whole country have a right know what Norman Thomas has to say about the following: Do you approve of the strike-breaking actions of Mayor Hoan?

2. Do you believe that the workers of Milwaukee are fighting for just demands and deserve the whole-hearted support of the Socialist 3. Do you believe that it is the duty of a Socialist administration.

of officials elected on a Socialist Party platform to protect the property and interests of the employers, and to act as strike-breakers? Are you not aware that it was precisely this policy of the German and Austrian Socialist parties that made possible the victory of fascism in these until 11 a.m. today on the grounds

4. If you approve of the actions of Mayor Hoan will you state so publicly, or do you wish your silence to be considered as support of his men and that he did not want to

5. If you disapprove of the actions of your colleague, Mayor Hoan, will you state so publicly, and will the National Executive Committee which you control jointly with Mayor Hoan, take action against the Socialist Party administration of Milwaukee for its strike-breaking actions in the present strike?

Perhaps the answers to these questions have already been given by the Socialist Jewish Daily Forward, which stated that at the Detroit convention it was the "Old Guard" which won the victory on every question that really counts, on the N. R. A. codes, on the relations of the Socialist Party to the A. F. of L. bureaucracy, etc. Very cynically the Socialist Daily Forward reveals the nature of the new "left" leadership by stating that whatever its victories at the Detroit convention, they mean little, for they concern only the "abstract, and distant future." In addressing these questions to Mr. Norman Thomas, perhaps we should understand that the events of the Detroit convention merely reveal a division of labor between the Thomas faction and the Waldman-Oneal faction, the better to placate the Socialist Party rank and file.

The Communist Party will continue to mobilize all its energy to give every possible support to the Milwaukee strikers.

We appeal to all workers, to Socialist workers, especially to the Socialist workers in Milwaukee to join with us at once in the organization of the widest possible united actions to assure victory to the Milwaukee strikers now struggling against the exploitation of theircapitalist employers.

BALTIMORE, Md., June 26 (By Mail) .- A farewell meeting by the Baltimore Waterfront Unemployment Council to five members who were railroaded out of town by the 'order of the court" was held last night at the Marine Workers Industrial Hall. The Secretary of the Waterfront Unemployed Council, Walter Stack, and W. FARL BROWDER, Secretary of the Communist Party, in his report to the 8th National Convention said the Daily Worker circulation increase of the past year was "almost entirely the product of the spontaneous response to the improved contents of the paper and ONLY IN A SMALL DEGREE THE PLANNED, CONSCIOUS, SYSTEM-ATIC ACTIVITY OF THE PARTY!

It was in order to build up Daily circulation through the "planned, conscious, systematic activity of the Party," that the present drive to double the circulation of the Daily Worker was started. As a part of this drive the whole Party is now concentrating on getting 20,000 new readers in 2 months. In order to avoid a slow and ponderous start, in order that every district throw all forces into the campaign immediately, it is essential we should first and foremost

Under the N. R. A. the steel companies have been permitted to force some 85 per cent of their employees

Before the retreat of the A. A. leadership at its special convention in Pittsburgh, when strikes in the industry seemed probable, steel companies recruited private armies through detective agencies in the cities, bought and stored quantities of arms and ammunition, gas bombs etc. The steel companies fortifying their plants and preparing what would have amounted to civil war against the steel workers and their sympathizers, their organizations and their families. These preparations could

mitted to carry through elections of and the revised Wagner Bill now their employes under complete company supervision and control. They were permitted even to take so-called "strike votes"—an heard of proceeding even in the steel industry notorious for its open-shop policy and suppression of all elementary political rights in its company towns and other communities which it dominates. Taken as a whole these anti-labor activities of the steel companies constitute the open use of fascist methods against workers and their organ-

THE N. R. A. has been used to lower the living standards of the workers and to make worse conditions already almost unbearable Where improvements have occurred they have been won only through resolute struggle by workers and their organizations and in the face of the most widespread organized use of force and suppression ever seen in this country. The strong tendency for all important strikes to develop toward general strikes in the present period is proof that workers no longer depend on N. R. A. and its clause 7-A to improve their conditions. They are right.

ganization and determined strikes are taken away through price increases and the general rise in the cost of living. On the other hand profits show an enormous increase. The N. R. A. itself, and all the bsequent decisions under it, such as the auto code, the auto settlement of last winter, and now the working out of the revised steel code, etc., have only served to strengthen company unionism, while the efforts to workers to organize and better their conditions, have been met with mass arrests imprisonment, clubbing and shooting down of workers at the hands of the various government agencies

HEREFORE, we have not come here to ask the government responsible for these conditions to right the wrongs, injustices, the indignities and the tyrannies under which steel workers suffer. Neither do we have any faith that such Green of that of Mike Tighe of the A. But the Steel and Metal Workers Industrial Union realizes that the compromise Wagner Bill already is in force. We recognize that Presihere speaking ostensibly in the name of some thousands of organized steel workers, whether they have never denied the numerous reports in the press that they were not. We come here, therefore, to make proposals which we believe will, if

adopted and enforced, establish the right of workers to join unions of their own choice and to elect those who really represent them. We adopted and enforced, will enable these rights to be established in spite of the legal limitations imposed by N. R. A., the steel code signed by the President.

The regular A. A. Convention last April adopted a set of demands to be presented to the steel companies, These demands were:

a) Six-hour day, five-day week. b) One dollar an hour minimum wage c) Skilled and semi-skilled

trades and occupations to receive increased wage in proportion. d) Abolition of differential be-tween North and South.

e) Equal rights for Negro work-

f) Recognition of the union and the recognition of mill and department committees to adjust grievances. g) Adoption of the Workers

d) To hear and determine immediately any matter of discrimination against or discharge of any employee in violation of Section 7-a of the National Recovery Act.

Same as Steel Trust Proposals

With the exception of the point dealing with majority rule Green proposals are substantially Iron and Steel Institute and apsubstantially the same as the sub stitute for the Wagner Bill, passed by Congress and already signed by the President. None of these pro posals contain guarantees for the free expression by workers. They do not contain real guarantees even for "collective bargaining." They do crimination against workers who voice opinions and vote against company unions. They do not contain any provisions for stopping arbitrary discharge and blacklisting.

CHANGE

GOOD deal has been written about the recent success-A ful strike of office workers against the Macaulay Company, but I want to say a few words about it from the special point of view of the writer. Many comrades seem disposed to regard the Macaulay fight as a special caseadmittedly important because it represents one of the first concrete victories achieved by white collar workers-nevertheless they point out that only eleven employees were involved and that the effective collaboration of writers as pickets was an amusing and spectacular

Of course the most vital thing about this strike was that it showed the increasing militancy of white collar employees: New York's skyscrapers are really prison-like factories in which the stenographers and clerks are often as ill-paid and as inhumanly treated as factory workers. The eleven men and women who defied Macaulay showed a fighting spirit which will have an effect on thousands of other city

But it also seems to me that the participation of writers in this activity has a unique significance—and indicates directives for further activity which should be considered and followed up. Of course authors have been on picket lines in other cases; but in the Macaulay strike their presence was not strictly as sympathizers, but in a professional capacity dealing with conditions in their own field. Another important point is the varied composition of this picket-line, involving people of such different points of view as Dashiell Hammett, Malcolm Cowley, Tess Slesinger.

More than two dozen writers rallied eagerly and quickly to support the Macaulay workers. Many more were ready to respond if the strike had continued. This shows a very real sense of responsibility on the part of authors, when issues concerned with their own occupation

A great deal can be accomplished by writers: the Macaulay situation showed the effectiveness of action and pressure by a comparatively small group. Similar pressure on a somewhat larger scale might be of great further use in assisting workers to organize for recognition and decent conditions. This applies not only to the narrow field of publishing, but to many other fields in which the writer's prestige and special qualifications give him influence: offices of magazines, motion picture companies, booking offices, film exchanges.

Great numbers of white collar workers are exploited in these enterprises; the Macaulay victory will undoubtedly exert a powerful influence in extending the organization of the Office Workers' Union. Thus the continued and increasing solidarity of authors with their fellow workers can become a big factor in winning the rights of employees in a whole network of offices.

Capitalist Propaganda Becomes Louder and Cruder

THERE is another way in which writers who are aware of the maturing crisis can exert their influence; they can be active in fighting and exposing the flood of lying ruling class propaganda which issues from books, magazines, newspapers, movies, the theatre, the radio. The large-scale literary output of the United States, is of course, entirely supported by finance capital. As capitalism becomes more desperate and more insanely brutal in its efforts to maintain itself, it goes without saying that the organs of capitalist propaganda become louder and cruder. The present year will see a big increase in rank chauvinism and slimy Fascism. The movies will redouble their slanders against the working class. Magazines and newspapers (and books) will whip up the red scare; oily voices over the radio will plead

. The Saturday Evening Post has already printed an article which openly praises the "orderliness" and "charm" of Hitler's bloody regime. I am told that Liberty, which competes with the Saturday Evening Post for the honor of being the most reactionary and most moronic periodical in America, is about to publish a serial depicting the juicy horrors of a coming war between the United States and Japan.

This story (specially ordered by the editors and cut to their measure by a high-priced hack) starts with the Japanese blowing up a ship in the middle of the Panama Canal, thus block the canal at a time when the American fleet is maneuvering in Atlantic waters and leaving the Pacific open to attack. Thus Liberty does its bit to prove that we must arm to the teeth and additional millions must be spent on war preparations.

A Task for Honest Writers

HONEST writers can do a great deal toward showing up this sort of propaganda. One can't expect to stop the filthy lies which come from all the organs of capitalist publicity-because the spreading of lies is the sole real function for which the movies and magazines and the radio exist—but a militant fight can accomplish a lot in exposing, limiting and counter-acting the lies. I am sure an increasing number of authors are beginning to see the necessity of taking part in such a

I don't wish to appear foolishly optimistic. A majority of writers are certainly going to stick to their flesh-pots and ivory towers, grateful for the sheltered prostitution which Capitalism offers them. But there are others (and these are necessarily the more intelligent and the more talented) who gradually realize that the revolutionary path is the only path open to the intellectual who dares to use his eyes and his brains. This is often a difficult decision for the confused intellectual-it means a bitter fight with himself and his own confusion.

Many writers are honest enough to make this fight-and to accept the militant discipline of Communism. These have serious tasks; it seems to me one of these tasks is to exert a militant influence on their own profession, and in those industries to which they sell their services. The Macaulay walk-out suggested the effectiveness of such action. Further organization and activity seem to be needed.

John Reed Clubs Must Lead the Cultural Front

IN THIS connection, one would suppose that the John Reed Clubs should exercise a far wider influence than they at present possess. I'am not sufficiently familiar with the structure and organization of the John Reed Clubs to discuss them intelligently. But, being the American section of the International Union of Revolutionary Writers, it seems clear that these clubs should lead the cultural front in the class struggle. It seems equally clear that, although the John Reed Clubs are active in the struggle, it cannot be said that they furnish adequate leadership or that they represent a solid front of revolutionary writers. I don't know where the fault lies. It is partly due to the fact t) at many left-wing authors are not members; others have joined pe inctorily but take no active part in the clubs' work.

The anveness and vigor of the John Reed Clubs is demonstrated in the magazines which they publish. Partisan Review, issued by the New York club, strikes me as being of extraordinary value. The stories in the last issue, by John Wexley, Edward Newhouse, Barney Conal and Arthur Pense, are exciting creative material; for that matter, so is everything else in the magazine. Partisan Review is an important contribution to revolutionary culture. I don't know what its circulation may be, but I feel sure it should have a ten times wider circulation.

The writer who wishes to serve the working class must, of course, unhesitatingly enter the class struggle. The only way in which he can write intelligently about the world around him is to take part in the life-and-death fight in which the future of the world is being decided. One phase of this struggle relates to the writer's special field; he must stand shoulder-to-shoulder with other workers; he must fight the forces of reaction and Fascism which degrade his profession. In facing these problems, organization and contact among writers ought to be of great value: isn't this the essential function of the John Reed

At the Indianapolis J.R.C. William Galatsky, secretary of the Chicago Committee to Aid the Victims of German Fascism, addressed a large crowd on Thaelmann.

John Reed Magazines

THE second issue of The Cauldron organ of the Grand Rapids John Reed Club, has just appeared. It is an excellent illustration of how effective a local publication can be if it puts its emphasis on local problems. The first number contained a survey of the Grand Rapids furniture industry. The leading article in this issue deals with a recent case in the city in which workers protesting against a cut in relief were arrested. The article is not written in an ordinary fashion, but is a breezy piece of reporting, with dialogue and description. The club joined in petitioning the governor the Grand Rapids Press featured the story. A biographical sketch of David C. DeJong, a resident of Grand Rapids and author of the novel, "Belly Fulla Straw," is also included in the magazine; the article is written by DeJong's brother. In Hartford, a small J.R.C. group edits The Hammer, a mimeographed magazine. The current issue contains a piece of revolutionary introspection, "Spring Night in Hartford," by Miriam Clark, an analysis of recent strikes in the city, and

NEW YORK. - Immediate entrance into the world-wide fight to free Ernst Thaelmann, leader of the German working class, from the clutches of Nazidom, was the unanibership of the Film and Photo League of New York, at a special

meeting held at its headquarters. The Film and Photo League made up of amateur and professional workers in the medium of still and motion picture photog-raphy, decided to send a delegation the German Consulate in New York and to picket the Consulate with petitions demanding the release of Thaelmann. The League some genuine social criticism. States to join in the struggle to liberate Thaelmann,

Sidney Howard, world famous member of the National Committee of the Film and Photo League, joined in the League's call for all workers in the movie and theatre industry to wire the German Consulate, the German Embassy in Washington and Chancellor Adolph Hitler, demanding the release of Ernst Thaelmann. Howard, author of many successful plays and movies and adaptor of Sinclair Lewis' "Dodsworth," concluded the appeal with the following:

"Oppression, in whatever nation it appears, is the concern of all humanity. Thaelmann's confinement in a Nazi gaol is a stigma upon all men and women who give more than lip service to the ideas of freedom and justice."

For Whom Is the Tear Gas, Mr. LaGuardia?

THERE are more than a million people in New York City who are hungry, living on starvation relief or who have no relief at all.

They and their children need bread, food, shelter, care and protection against the misery of an insecure life.

But for these hungry, jobless workers and their families La Guardia is preparing a new kind of diet-a diet of "Duncanite."

This is a new type of bitter, blinding tear gas that corrodes and blisters the eyes and mouths of people as it is shot into the faces of "rioters" from powerful tear gas guns.

Today's press reports that La Guardia's Police Commissioner O'Ryan is very favorably impressed with the advantages of this new weapon against the jobless. "It will clear a block of rioters in a minute," the officials boast proudly.

La Guardia, Wall Street watchdog, is wasting no time in getting ready in his own way to meet the hungry workers of this city when they face him again with the cry for adequate relief for their families.

La Guardia, the repulsive toady, whose whole life is devoted to giving the Wall Street parasites their bloody pound of flesh, is getting ready to meet the starving men, women and children of this city with the same savage brutality with which every ruling class servant always protects the profits of his capitalist masters against the needs of the

La Guardia hands out \$12,000,000 every month to the Wall Street banks. Think how much food that would provide for jobless workers and their families! The Communist Party demands that he turn these millions over for the jobless and the hungry. For this he calls the Communists "yellow

La Guardia is prepared to spend more money for tear gas guns. . . but not a cent more than he is forced to to feed the jobless.

There is not an honest person in New York who will not see that La Guardia is acting to destroy every vestige of the elementary civil rights of free assemblage, of the right of the jobless to demonstrate for more adequate relief, for more food. There is not a decent person in the city who will not wish to join the fight of the Communist Party and the Unemployed Councils for the enactment of a real program of relief for the jobless-at the expense of the Wall Street bank-

La Guardia is moving toward more open, brutalized reaction. There is not an honest person who will not be eager to join in the struggle against this fascization of the life of the city.

THE jobless masses of this city, as of the whole a country, need immediate cash relief, unemployment insurance to be paid for by the government and the employers.

A Soviet Government, a Workers' and Farmers' Government, would smash the brutal rule of the Wall Street banks, would immediately take over these banks of the bloathed Wall Street millionaires, and use them for the masses, would break the back of the whole capitalist dictatorship and begin to use this wealth for the care and happiness of the vast majority of the population, the workers and their children.

The first interest of a Workers' and Farmers' Government would be to protect the workers, the majority of the population, against the exploiters,

A Communist municipal government would not be, as La Guardia is, watchdog for the Wall Street banks. It would put an end to the rule of these banks and feed the hungry.

The hungry and jobless of New York must be fed. The Communist Party and the Unemployment Councils are leading the fight to force more adequate relief from the Wall Street city government.

No terrorism of La Guardia can stop this fight for bread. La Guardia and his police chief, O'Ryan, BOTH must go!

For the Elementary Rights of Steel Workers!

THE Steel and Metal Workers Industrial Union has presented to the Department of Labor in Washington demands for the necessary guarantees to establish the right of the steel workers to organize into unions of their own choice and elect their own union representatives. Only on the basis of these demands can the steel workers defeat the attempts of the Iron and Steel Institute, the Roosevelt government, and the A. F. of L. officials, to yoke them with the company unions through N.R.A.supervised "elections." The fact that such N.R.A. "elections" saddle the company union on the workers is seen in the "elections" held in Weirton, in Clairton, in the mining fields (Lafayette County, etc.), and in the auto industry.

"Elections" held under Roosevelt's new board will mean a free reign to the terrorization and blacklist of workers, to enforce the rule of the company union in the steel industry.

The Steel and Metal Workers Industrial Union demands that the Roosevelt government guarantee

the unqualified opening up of all company towns for full and free discussion of the issues involved including discussion of the right of the steel workers to organize in unions of their choice; discussion of the difference between genuine unionism and company unionism, the right to strike and picket, etc. The demands call for the immediate disarming and dispersal of the armed forces of the steel companies, abolition of the company spy system, abolition of blacklisting, guarantees against discrimination against Negro workers and foreign

The ballot, the S.M.W.I.U. declares, must be worded, "Are you in favor of the trade and industrial unions controlled by workers, which are part of the American labor movement. Vote yes or no. Are you in favor of so-called employe representative plans-commonly called company unionshaving no connection with the American labor movement. Vote yes or no." Thus will the issue be placed clearly without any chance of preventing the steel workers from declaring their preference against the company union.

The proposals demand that all candidates shall be required to state clearly their stand for or against the company union and that the workers be guaranteed full and free discussion during the election period. The vote for or against the genuine trade and industrial union or company union should be computed "by adding the votes cast both for the A.A. and the Steel and Metal Workers Industrial Union (and any other genuine union)" as against the company union. All representatives shall be removable by a majority vote of the rank and file at any time.

THE struggle of the steel workers for their economic demands-against the speed-up, for wage increases, for union recognition and against discrimination-has been only temporarily defeated by the acceptance of Roosevelt's arbitration board by the Green-Tighe Committee of Ten. The steel workers, led by the S.M.W.I.U., must now organize the united struggle for these demands in every mill, and prepare for strike to achieve these demands.

The coming government-controlled elections, backed by the guns of the steel trust guards, are aimed to complete the sell-out and smash the workers' unions. As the S.M.W.I.U. stated in Washing-

Nation-wide organization, honest and militant leadership, directly responsible to and removable by the rank and file, unity of all steel workers in the constant struggle for decent living conditions and against the continual encroachments upon and denial of elementary workers' right by the companies, is the only effective weapon of the workers in this key industry of American capitalism. The proposals of the S.M.W.I.U. are intended to make possible the rapid forging of this necessary weapon for the steel workers."

The Auto Union Conference

WILLIAM GREEN has taken another step in the betrayal of the auto workers by railroading through the recent conference of A. F. of L. federal auto locals in Detroit a decision placing these federal locals under the domination of one man, appointed by Green. The machine of Collins, Green's representative in the auto industry, steam-rollered through the conference a resolution which sets up a national council of eleven, over the federal locals, whose only power and function is "to advise and assist the national representative of the A. F. of L. (Collins)." William Green took personal charge of setting up a bureaucratic oneman domination, speaking at the conference against strikes and declaring that the auto workers were not intelligent or experienced enough to have their own international union at this time.

The Green-Collins machine took these steps at this time because of the growing dissatisfaction of the auto workers with the results of the rule of the Auto Labor Board set up by Roosevelt, with the agreement of the A. F. of L. officials. Under this board the workers are robbed of their right to strike: all of their economic demands have been forgotten and buried in endless "arbitration." Never have the company unions flourished in the auto industry as they have under the Auto Labor Board, which legalized the company unions. This legalization of the company unions was recognized by the A. F. of L. officials. The auto workers are seething with anger at the betraval of their demands against the speed-up, for wage increases and for union recog-

However, the strangling of the rank and file proposals at the conference did not go smoothly. There were twenty-five delegates from Cleveland. Tarrytown, South Bend, Flint, Kenosha and Detroit, who supported the rank and file resolution for one industrial union in the auto industry. This resolution embodies the call of the Auto Workers' Union for unity in the industry to fight for the economic demands. The resolution of the rank and file proposed: (1) an industrial union uniting all crafts and all present unions in the auto industry (except company unions); (2) for rank and file control of the union; (3) it specifically excludes from the organizing committee of such an industrial union "foremen, superintendents or officials at present on full time salary basis;" (4) it clearly lays down the purpose of the union to be a determined struggle against the employers and company unions.

Although this resolution was sidetracked by Collins' machine, the fact that 25 delegates representing federal local unions supported it, shows that the Green-Collins machine will not be able to prevent the developing struggle in the auto industry.

Now the task is to consolidate and build this rank and file opposition to the no-strike Auto Labor Board, backed by Collins and Green.

The building and spreading of the organized rank and file opposition in all federal auto locals of the A. F. of L. will insure the development of an effective struggle of the auto workers for their economic demands. The organization of the rank and file opposition will achieve the solidarity and unity of the auto workers in their fight against the betrayal policies of Green, and will smash the strangle-hold of the company unions.

Widow of Murdered Berlin ILD Leader Tortured by Nazis

Call on Women of World To Demand Her Release from Fascist Dungeon

NEW YORK-According to information from Berlin, the wife of Comrade Erich Steinfurth, the eader of the International Labor Defense in Berlin, who together with John Scheer, Rudolph Schwarz and Eugen Schonhaar were murdered by the Nazis in January 1934, during an "attempt to escape," is in extreme danger due to continuous tortures. On the day when her husband was taken from Sonnenburg by the secret state police, she was arrested. In the fascist dungeons she was cruelly ill-treated and tortured in order to extort "confessions" against her huband and

Now the Nazi beasts wish to jus tify their deeds in the eyes of the world and have fixed the trial against Elsa Steinfurth together with that against Duemor and his comrades. It is said that a defendant in this trial has already died from the consequences of repeated ill treatment. No visitors are admitted to Elsa Steinfurth, not even her old mother. She is probably in such a condition that the police wish to prevent her from being seen. Nevertheless her letters are very cour-

The German masses, who for over 14 months have suffered the nost criminal depredations at the hands of the Nazis, are soon to be presented with inflation and increased taxation.

HOW revolting this perspective is to the German masses can be seen from the fact that the Nazi butchers dare not attempt to go through with it with their own brown-shirted gangs armed and in their barracks. These pettybourgeois dupes have become absolutely unreliable, yes, even more, dangerous to the further existence

Under the pretext of a "month's vacation," the storm troopers are told to "store" their uniforms. It isn't the uniforms Hitler wants so much; but in the Sam Brown belts there is the important re-volver, and in the barracks the machine guns, rifles, and other weapons. The Hitler government wants to wean them away from arms, uniform and contact with each other. During the "vaca-tion," the Nazi leaders will mobilize their most reliable forces in preparation for the civil war against the toiling masses, and those storm troopers who are rapidly going over to the struggle against those who shamelessly duped and betrayed them.

The homosexual beast, Col. Ernst Roehm, head of the storm troops, himself went on "sick leave," and he may be retired for whatever time there is left for the Nazi regime to his male harem.

"Even if this boast (of reduced unemployed) is for the moment accepted at its face value," he writes, "there has been a catastrophic fall in the standard of living of the German wage-earner, for the total payroll of workers, employes, and domestic servants

In the first quarter of 1934, the payroll fell 6,100,000,000 marks, or about 10 per cent below the average for 1932. As an example of how drastically wages are falling for the workers in Germany he cites the fact that in 1932 a skilled auto worker in Saxony earned 60 marks a week and an unskilled worker 30 to 35 marks. Today the wages for the same skilled worker has dropped to 26 marks, and for the unskilled 12 to 15 marks.

"IN ADDITION," he states, "the purchasing power of his earnings has decreased enormously, because retail prices continue to rise at a rate out of proportion to that of the rise of raw materials.

Food consumption in Germany during 1933 fell altogether no less than 1,000,000,000 marks. Now on top of all this, inflation is coming; taxes will increase; prices are going up still further; unemployment will increase. That is why the storm troopers who were promised the fascist millenium are being dis-

banded. Who got the benefit of the huge vage cuts, where did the tremendously increased state budget go? Mr. Baker answers: "The benefit dustries in Germany is shown the increase of 80 per cent in their Let us not forget that the French profits during 1933." "Far from improving the eco. nomic conditions in the Reich," he says, "the Nazis have not kept their promises to bring relief and their rule has but accelerated the downward trend. . . . Well may these questions be asked: Is Ger-many facing bankruptcy? And if the Nazi government is unable to cope with the ever-deepening crisis, how much longer will that government be able to prevent what now appears to be not only an inevitable ecoonmic catastrophe but also a social unheaval fraught
