FIGHT FOR RIGHT TO ASSEMBLE; MORE MILITIA CALLED Main Demands

In the Strike

The textile workers, 1,000,000 strong, from Maine to Alabama, are fighting for the following main demands as adopted by the recent convention of United Textile Workers' Union:

(1) Hours: Two shifts of 30 hours per week with no exemp-

(2) Differentials: The establishment of four minimum wages: Unskilled, \$13 per 30hour week; semi-skilled, \$18 per 30-hour week; skilled, \$22.50 per 30-hour week; highly skilled, \$30 per 30-hour week.

(3) Machine Load: The revision of all work loads on the basis of reason and ordinary (4) Recognition of the Union:

Reinstatement of all workers victimized because of union

(NOTE:—For detailed statement of wage demands for each category of workers and machine loads in each department see the Daily Worker of Tuesday, September 4.)

Mill Strikers Are Assailed

NEW YORK.—The position of textile strike has been made clear by Roosvelt's personal spokesman, General Hugh S. Johnson, N.R.A.

Johnson publicly denounced the strike as a "breach of faith," as "unjustified." and as "releasing riot and rebellion."

Giving full support to the textile employers, Johnson said, "Whenever Germany is prohibited from importing "military" supplies under I think of George Sloan, my heart weeps."

textile employers was made public

GRANT STRIKERS' DEMANDS AND STOP KILLINGS!

- AN EDITORIAL-

THAT the textile barons are becoming hysterical in the face of the militant solidarity of the textile workers, and of the effectiveness of their strike. is evident from the statements of Governor Green. of Rhode Island, and the speeches made on Thurs-

day in the State Legislature. The Democratic Governor declared: "The State is confronted by a Communist insurrection and not a textile strike."

The Republican floor leader of the State Senate, Harry Bodwell, waxed still more oratorical. "The very pillars of established society are being seriously threatened by flares of Communism, under the Red banner of destruction," he shouted, "the safety of our homes, of our property, of our lives are threatened by this extreme emergency. This is not a strike. It is an incorrection. In the face of religion every patriotic American

can take but one stand."

THIS is how the textile bosses and their hirelings in the State office feel when the workers asked for only slightly improved conditions. Just look at what the workers are demanding:

(1.) Hours: Two shifts of 30 hours per week. (2.) Differentials: The establishiment of four minimum wages: Unskilled, \$13 per 30-hourweek; semi-skilled, \$18 per 30-hour week; skilled, \$22.50 per 30-hour week; highly skilled, \$30 per 30-hour week.

(3.) Machine Load: The revision of all work leads on the basis of reason and common sense. (4.) Recognition of the union; renstatement of all workers victimized because of union activities or membership.

These domands, boiled down, are morely demands for shorter hours, for the end of the speedup, for very clicht increases in wages and for the recognition of the unio:

Yet, in the eyes of the bosses, the fight for these elementary demands constitutes "insurrection"! All the armed forces of the State are Workers are killed and seriously wounded. Federal troops are asked for. The bosses shout about "the safety of our homes, of our property, of our lives." What hysterical nonsense!

IF THE situation is so serious, if "the very pillars of established society are threatened by flares of Communism," why don't the mill owners do a very

Let them grant the demands of the textile workers. Give the workers the 39-hour week, the minimum wages they ask for, slow down the vicious speed-up, and recognize their union. The workers would then return to the mills, "the pillars of established society" would remain, the bosses' "homes," "property" and "lives" would be

saved-for the present, at least. And the mill owners could well afford to do this. Their profits during the past year under Roosevelt's N. R. A. have grown rapidly. Their position at this moment is such that they could well afford to give greatly improved conditions to the workers-even much more than the workers ask.

The Communist Party, against which these bosses rave, seriously proposes that the workers' demands be granted. That is what the Communists are fighting for, together with the textile workers, in this strike.

We have stated repeatedly, from the very outset of the strike: Grant the demands of the textile workers as formulated by these workers themselves. We have further stated that when these demands are unconditionally granted we would

Johnson, were not to be tolerated. A. F. of L. officialdom agreed.

The codes were established. Labor had nothing of a decisive character to say about them during the period wage-cutting and stretch-out textile code was signed. The company union strike-breaking automobile code was signed.

Company Unions Grew

Company unionism grew like a mushroom-embracing some 5,000,-In the West Coast strikes troops 000 industrial workers, as against something like 1,000,000 before the some 45 per cent of industrial workers into its strangling folds, while Roosevelt's textile board stands the textile strike the list of mur- or 10 per cent. In the steel industry just as his longshoremen's headed by Archbishop is written. Thousands have been of the workers had been forced into

The A. F. of L. officialdom continued to be the loudest boosters of to workers' living standards and This alone is striking proof of their efforts to organize in unions

> Against Jobless Insurance The A. F. of L. officialdom once more set its face against compulsory all workers. It continued to fight the Workers Unemployment Insurance Bill (House Bill 7598).

> The A. F. of L. officialdom, headed by Green and Woll, continued its slanderous attacks on the Soviet Union. It tried to prevent recognition of the U.S.S.R. Since recognition, it tried continually, cooperating with the National Civic Federation, with Woll as its acting

staked their all on the ability of graphical Union-who later added N. R. A. and the Roosevelt administration to pull capitalism out of the five-year crisis and stage a real spilling press poison on their fel- recovery in industry and agriculture. Forgot Two Factors

They dreamed bright dreamsbut not for long. They had forgotten two factors: the millions tum of President Roosevelt, elab- of hungry, angry and determined workers in the big basic industries Johnson, Wagner and Perkins, that and the Communist Party of the

In the year that has elapsed since the Washington convention, mass strikes have swept from the Canadian line to the Gulf Coast, from the Atlantic to the Pacific-and back again. Strike waves have swept through practically every industry. These struggles have developed into actual general strikes, and in still more of these struggles the labor movement has teetered on the verge of a general strike.

Anti-Strike Record

The grip of the Roosevelt administration, of N. R. A. and its labor arm-A. F. of L. officialdem-upon the American working class has slipped. Some time ago A. F. of L. officialdom started out to "clean up" all the strike spots so the 54th Convention could assemble in a "peaceful atmosphere." They gypped the strikers in Mellon's aluminum plants-a general strike in an industry. They sent Paul Smith to Minneapolis, where Farmer-Labor Governor Olson and his martial law, his henchmen in the Trades and Labor Assembly, and the political cowardice of the Trotskyite leaders of the union, enabled them to prevent a city-wide general strike and gyp the strike of truck drivers and helpers. They sent John P. Frey and a squad of twelve union officials and organizers to Butte to try to split the craft unions away from the general strike of miners. smelter workers, engineers and mechanics in Butte. Anaconda and Great Falls. Here they failed.

Then the general strike in the textile industry, in spite of all these worthy efforts toward "cooperation of capital, management and labor' under "government supervision," hit the A. F. of L. officialdom and the N. R. A. right between the eyes.

Francisco general strike, in the midst of a labor movement stronger and more militant than ever before, in an atmosphere not of class peace but of class war.

Inat: 4—No member of the union excless than a million in the Independent with the breakers or as working in the interests of the employers shall be deprived if the right to be nominated, put on the ballot and act as an official or representative of the union when elected.

happened before, but this time millions of workers, engaged in mighty struggles for elementary rights, fresh from these struggles or about to plunge into new battles, know this leadership is bankrupt.

This is the main difference between the 53rd and the 54th Annual A. F. of L. Convention.

(The next article will deal with the part played in various decisive strike situations by the A. F. of L. officialdom in the past year-with its policies and tactics and the struggle against them, which has brought forward numbers of new leaders directly from the ranks of the huge new contingents of workers in the basic industries formerly entirely unorganized.)

CHANGE

THE scene is Columbus, Ga. The time was on a Sunday morning, long before the present textile strike. William D. Anderson, president of the Bibb Manufacturing Company, and one of the biggest mill owners in the South, called together 1,200 of his workers in the local school-

Perhaps there were less than 1,200 workers, for it is doubtful if that number could find places in the kind of schoolhouses they have in mill towns in Georgia, as the publicity department of the United Textile Workers suggests in releasing the story of Mr. Anderson's eventful gathering.

The mill owner had a message for his workers. A fine breakfast (southern-cooked) in his belly, freshly shaved, Mr. Anderson was in a mellow, optimistic mood. He wanted to have a few words with his employees. He had heard that some of his "hands" had been speaking words of discontent. Loyal foremen (bossmen, the workers call them) had brought to Mr. Anderson the disturbing report that some of the mill workers were "steamed up" because of the stretch-out system, a new-fangled scientific method by which workers tend three times as many looms as formerly for less wages than they had received before the stretch-out was instituted.

He Faces the Issue Squarely

WORST of all, Mr. Anderson, the president of the Bibb Manufacturing Company, had been told by his foremen (they are also called (stoolpigeons) that there was talk of strike because the workers were unable to feed themselves and their families on the wages they were getting. Moreover, most of them were working part-time and could barely keep body and soul together with the few pennies that Mr. An-

The president of the Bibb Manufacturing Company decided to face the issue squarely. He decided to have a heart-to-heart talk with his "hands." No use, he thought, to be bellicose on this fine Sunday morning. Why not take the bull by the horns and show how foolish is this talk about low wages in the mill?

Mr. Anderson was not like those "poor whites" who didn't know enough to get the advantages of a sound education. Most of them, poor devils, had never gone to school in their lives. But Mr. Anderson wouldn't hold that against them. The Lord, Mr. Anderson always felt, had rewarded those who were worthy and punished those who were unworthy. The fact that he, Mr. Anderson had had opportunities for more than "plain larnin" was part of the pattern which the Lord himself had designed. It also explained why he was president of the Bibb Manufacturing Company and not just a mill hand.

Science That Is Profitable

THE word "science" had even seeped down into the deep South in spite of the anti-evolution trial in Tennessee and the fact that hundreds of schools were shut down for lack of funds. Mr. Anderson, who prided himself on the fact that he was no provincial, subscribed to the Atlanta Constitution and thought that the Rev. Hudson, the Georgia prosecutor who demanded the electric chair for Angelo Herndon and "all reds caught south of the Mason and Dixon line," was a mighty fine, educated and upstanding man. Of course, Mr. Anderson didn't believe in the kind of science that made men skeptical regarding the inscrutable ways of the Lord, but on the Sunday he called his workers together he felt that there were certain sciences that were sometimes useful to mankind.

It was the notion of a "balanced diet" which seized Mr. Anderson's imagination on that fine Sunday morning in Columbus, Ga. His workers were already on short time and he knew that many of them felt that cotton mill wages even on full time are pretty scanty. But Mr. Anderson had a solution for their troubles-which, he explained, were not confined to themselves, but to all mankind. The problem, he said was to make ends meet. But the textile workers, he explained, would have no trouble in caring for themselves if they only bought the right foods. Here, according to the U.T.W. press service, is a list of supplies which he set forth as an example for a textile workers' family of four persons for a week:

4 pounds of lard 35 cents pounds of potatoes 16 cents 1 peck of corn-meal 25 cents

TOTAL \$1.25 Now, there, no further cause for discontent! Of course, said Mr. Anderson, you always have chronic grumblers and bellyachers who wouldn't even be content in Paradise. But nowadays, with so many people out of work, and with the market for cotton being so poor, folks have to be satisfied with whatever the Lord has provided.

Some Concessions, Too

OF COURSE, the president of the Bibb Manufacturing Company, conceded, if folks from to time hankered for a little luxury, he was prepared to be a reasonable and human man, ever guided by that fine human principal of "live and let live." His mill hands might have in addition to the flour, lard, potatoes and corn meal, one package of coffee a week at 12 cents, and two pounds of fatback at 20 cents. The total cost for this "balanced diet" for four persons works out, in cheap stores, at \$1.68 a week.

Now, isn't that sensible? If folks would only be reasonable and listen to the advice of such thoughtful men as Mr. Anderson, there'd be no need for strikes and all kinds of trouble that give the commu-

nity a bad name outside the state. But it seems there was a rub somewhere. For in the "balanced diet" suggested by Mr. Anderson no salt is provided, no sweetening, no vegetables except potatoes. Not only were vegetables missing, but also

fresh meat, and most important-fresh milk. It appears that some enterprising individual called up the United States Public Health Service and read the Anderson "balanced diet"

to them. "What do you think of it?" asked the inquirer, when he had finished.

"I don't think you could find a more perfect prescription for pro-

ducing pellagra," was the answer.

They'd Rather Not Diet

DELLAGRA is a disease caused by malnutrition. It is a disease which rots away the bones and which ultimately kills the victim.

It is a disease which is caused by the lack of essential foods in the diet, such as milk, butter, fresh vegetables and meats.

In view of this fact it is not surprising to learn that the workers in the Bibb Manufacturing Company of Columbus, Ga., have turned down Mr. Anderson's "balanced diet" ideas and have instead joined the hundreds of thousands of other textile workers in a fight which is now shaking the entire country.

Highlights of the Recent Congress Of Soviet Authors Held in Moscow Provides Guides for

Greater Knowledge of Past Culture Urged by Maxim Gorky

THE first All-Union Congress of Soviet Writers opened in the House of Trade Unions in Moscow on Aug. 17. The congress, which marks the consummation of two years' organizational work in creating the new Union of Soviet Writers, was preceded by local meetings to discuss the problems of literature in all parts of the Soviet Union. Thousands of literary circles in the factories and collective farms took part in this nation-wide literary movement, as well as the professional writers of the cities and cultural centers.

Over 500 delegates attended the ngress, from all parts of the Soviet Union and from its varied national groups. A large number of delegates also came from other fields of activity.

The presidium of 52 members insuch well-known Soviet literary figures as Demyan, Biedny, Gladkov, Fadeyev, Panferov, Ehrenbourg, Marietta Shaginian, Koltz-Ivanov, Novikov-Priboi, Leon-Tolstoy, Illesh, Pasternak, Serafimovich, Lydia Seifulina and Sholokhov. Looking down on the congress from the columns all around the great hall were the pictures of Virgil, Dante, Shakespeare, Molliere, Cervantes, Balzac, Heine, Pushkin, Gogol, Dostoyevsky, Chekhov and other giants of world lit-

The idea of this gathering goes back to April 23, 1932, when the Central Committee of the Commu-nist Party passed a resolution dissolving the RAPP (Association of Proletarian Writers) and providing for the foundation of a single Union of Soviet Writers to unite all the novelists, poets, dramatists and literary critics of all the peoples of the U.S.S.R., party and non-party members alike, "fellow-travelers" as well as Communist writers. RAPP had committed many blunders through its narrow dogmatic attitude, through insisting that all writers hew to a definite line, and had a stifling effect on creative activity in literature. The April deciment. It must not be forgotten sion put an end to the inner divi- that Russian bourgeois literaturesions in the Soviet literary groups and threw the gates open to all Soviet writers united by the com-mon literary idea of "Socialist real-After two years' preparatory work the Congress met to complete the organization of the Union of Soviet Writers, to define and amplify the method of "Socialist realism" and to raise the standards by

NEW THEATRE, organ of the man's question as to whether or tember issue, 10c.

> Reviewed by ALBERT MALTZ

THE September issue of "New Theatre" is the first I have read four months. Although I knew of the steady improvement in the magazine, I didn't know how tremendous that improvement has been. Reading it now I am not surprised to discover that from May to September the circulation of the magazine jumped from twenty-five nundred to sixty-five hundred.

Perhaps the most outstanding quality of "New Theatre" as contrasted with bourgeois theatre magazines is the sense of activity it gives. Like the worker's theatra movement itself, it is going somewhere-it has a goal, it has a directive, it is fighting for something. This is a far cry from the bourgeois magazines — theatre gossip, silly, sugared articles on polite playwrights, dull, academic criticismthe whole thing selling for fifty

"New Theatre" is the expression and discussion of a problem-the problem confronting the workers' theatre movement—the problem of internal growth, of broadening the field of its activity, of raising its come foreign writers, those who artistic level. In facing this problem, therefore, the magazine must analyze the technique and expose the ideology of the bourgeois theatre, it must discuss the financial, technical and ideological problems the calling of the congress is a not- of the worker's theatre and it must information and suggest new mediums of expression. This is precisely what the September issue of "New Theatre" does.

> WE FIND on the one hand an play were imaginatively the Meyerhold manner? article by King Vidor where, in the simple observation that the by the business men and not by the artists, a Hollywood director has exposed the whole machinery of Broadway and Hollywood, has explained the romantic slop, the inthemes that pass for art. And, on the other hand, Stephen

worker's theatres—perhaps the most important article in the magazine because it can serve as a guide to is a proletarian standard and that workers inexperienced in play pro- is intelligibility and meaning. the magazine.

plays will probably answer Free- make the same mistake.

League of Worker's Theatres, Sep- not Rice will continue his growth, there are already some indications that he will not. In "We the People" Rice attempted to sit on a fence and the results were not too

successfu" Now he seems to be trying it again, because he has already saddled himself with a Broadway theatre, rumored to cost some forty thousand dollars-he must make it geois audience—his price scale is from a dollar ten to three-thirty. Having done this he must either choose financial failure or else write plays which will please a bourgeois audience. 'The Broadway Theatre has already demonstrated, with few exceptions, the sort of play that the bourgeois audience will ap-

THERE is an article on Meyerhold by Lee Strassburg of the Group Theatre, made interesting by Strassburg's excitement over Meyerhold's production methods. Could there be more on Meyerhold? I, for one, do not know what Meyerhold is really about, what his contribution to the theatre really is, Strassburg states that Meyerhold's methods follow from his purpose and his purpose is "to explore life more fully by means of the theatre." What

does this mean for us? I'm sure, for instance, that in directing "Men in White," Strassburg himself tried to do this. To a certain extent any intelligent director tries by means of his own technical inventiveness to enrich the meaning of a play. Is Meyerhold just cleverer and more imaginative than else to his work? Could we have an article in which a well known play were imaginatively produced in

The September issue also contains several articles on the movies and purse strings of the movies are held the dance-too many, in fact, to review all of them here. Elion's article on the dance, in its emphasis upon content, cannot be considered too important. There is no point to a worker's dance movement or tellectual drivel, the chauvinistic literature or theatre if they are unintelligible to workers. Too many "proletarian writers" employ the Karnot, continuing a series of ar- highly technical, intellectualized ticles called "From a Director's style derived from James Joyce, too Notebook," has been concerned with many dancers follow the bourgeois a method for play production by mode of highly abstract, formalized dancing. MONDAY, SEPTEMBER 17, 1934

General Johnson Weeps

CENERAL JOHNSON, in a speech de-U livered at Carnegie Hall, New York, tells us that he is sad at heart over the textile strike.

Mothers, fathers, brothers, sisters and shop mates of the 12 dead textile strikers are mourning their loss.

In the hospitals there are hundreds of textile strikers bayonetted, clubbed, gassed, wounded. Hundreds of thousands of textile workers, suffering the pangs of hunger, are fighting against the terrible conditions in the textile mills.

But over whom is General Johnson shedding his crocodile tears? We have his own word for it that this hard-boiled general is actually weeping. "When I think of George Sloan," he declared, "my heart weeps." This Man Friday of the Roosevelt government is not in the least moved by the starying hundreds of thousands of textile workers. He weeps for Sloan. His heart melts into tears when he thinks of the millionaire textile bosses

TEXTILE workers, here is a man foremost in the councils of the Roosevelt government, the man who is charged with the most important task of the Roosevelt regime, putting over the N. R. A. When textile workers go out on strike, his only thought is tears for the profit-grabbing bosses.

That is the real sentiment of the Roosevelt government, which through its tears is ready to send Federal troops against you. Johnson and Roosevelt tell you to trust this government. They affirm that it is a neutral government.

But ask yourselves: How many textile workers have been killed? Then, how many textile bosses have been killed? How many of Mr. Sloan's pals, for whom General Johnson's tears flow so copiously, are hungry, or are facing the guns of the National Guard?

The militia, the armed thugs, the capitalist state is on the side of the class covered by General Johnson's tears. To console Mr. Sloan and the other textile mill owners, the government is using the militia to protect the strikebreakers.

One more point of General Johnson's tearstained speech. He bemoans the fact that Tom MacMahon, and other "labor leaders" were unable to stop the strike. General Johnson declared that the N. R. A. code was put over with the help of MacMahon & Co., who "sat in on their arbitrations and agreed with the results."

YES, these men did agree to the code and bear the responsibility for the starvation results. General Johnson said: "We reached an agreement and on that agreement the strike was called off. The present strike is an absolute violation of that understanding."

The MacMahons, who sold out the workers. could not deliver the goods because the rank and file forced the strike against the rotten conditions.

The MacMahons are not "organized labor," as Johnson states. They are the organized fakers, working hand and glove with the bosses. They try to misuse organized labor, and as Johnsonnow so bitterly bewails, they failed.

General Johnson may well weep for Sloan and bemoan MacMahon's inability to stop the strike. The workers are pushing forward, and by continuing their actions to close the mills, to keep their ranks solid and united, carrying on their fighting spirit, the strike will be won, and Johnson and Sloan can have more cause to weep.

We Ask You, Mr. Gorman

FRANCIS J. GORMAN, chairman of the textile strike committee, taking his cue from General Johnson and Governor Green of Rhode Island, made another vicious attack against the Communists.

Every textile worker should inquire into the basis for these onslaughts. How does its come about that Gorman can be in full agreement with Governor Green, whose troops shoot textile strikers, and with General Johnson, who weeps for Mr. Sloan, when it comes to Com-

The Communist Party with all its forces is bent on helping the textile workers win their strike demands. In order to achieve this, the strikebreakers must be driven from the mills.

Mr. Gorman, we ask, why do you attack the Communists for this when you know if the mills are not shut down, the strike will be lost? Do you want the strike to be lost? Don't you know that the attack on the Communists is the main weapon of the bosses in the attack against the textile strikers? That is because the Communists are the most militant fighters in the ranks of the entire working class.

Why do you attack us because we tell the workers to continue mass picketing, to keep up the flying picket squadrons, to force all the mills to close down; to safeguard every guarantee for the victory of the strike?

DO YOU think General Johnson, who "weeps for Sloan," or Governor Green, himself interested in textile mills, will close the mills for the workers?

These men are using the armed forces of the capitalists, the militia, the state police, as well as private gunmen, to keep the mills open. The Communists are fighting to shut them down?

When you attack the Communists, whether consciously or unconsciously, you help the employers and their strikebreakers.

Mr. Gorman, you say the Communists want to destroy the unions. Is it destroying the unions when we fight in the ranks of the workers to close the mills so that the strike will be won? To win the strike means to build the union, to help the unions win recognition and better conditions. Do you know any better way of building the union, Mr. Gorman?

You say you don't like the philosophy of the Communists. That is exactly the opinion of every

mill owner in the country, But the first point in the philosophy of the Communists is to win the textile strike. Do you dislike this, Mr. Gorman? To win the strike, the Communist philosophy says that labor must fight without hesitation against capital and its government, whose militia shoots down strikers.

DOES the philosophy of General Johnson appeal to you more? The general who weeps for Sloan, has a great liking for you too. He said in his Carnegie speech: "I know young Gorman. I doubt if there is a more conscientious patriot and sincere man in the country than he."

Are you sincere or "patriotic" to labor when with your cry against the Communists you help organize the defeat of the textile workers, deliberately aiding the employers and their government? With this you do only damage to the strike, you help discourage and disunite labor,

If General Johnson can single you out as a conspicuous patriot of the bosses' government which shoots down textile strikers, which through the N. R. A. brought worse starvation to the textile workers, then we can understand your attack on the Communists, whose sole devotion, whose allegiance is on the side of the working class,

We, the Communists, are fighting with might and main to win the textile strike, and to win it in the shortest possible time. We are fighting for a real trade union movement, strengthened in these fires of struggle. That is why we fight such people as you, who through your taking up the mill cry against the Communists help to disunite the strikers, to disorganize their union and fighting

The U.S.S.R. and the League

A NOTHER victory for the peace policy of the Soviet Union is recorded by the League of Nations' invitation offering the workers' fatherland a seat on the Council of the League.

What is the situation which has brought about this change? In 1917 and 1923 the League of Nations tried to organize the united armed intervention of the capitalist powers against the Soviet Union. It failed. Today 30 nations sign the invitation to the Soviet Union to join the League of Nations.

The main reason for this changed relationship is the effectiveness of the peace policy of the Soviet Union, which is winning victory after victory in a world torn by the strife and conflict of the imperialist powers.

The world economic crisis has heightened the antagonisms among the bourgeois states, has intensified the unevenness of their drive to war, is causing a constant reshifting and upsetting of their war alliances.

The capitalist governments are forced to recognize the Soviet Union, which in the eyes of the world's toiling population has become the cornerstone of peace. The U.S.S.R., the land of the victorious proletarian revolution, the land that is rapidly building Socialism, has become such a powerful factor for peace that the leading imperialist powers are forced to treat and deal with it.

The bourgeois states were not able to utilize the League of Nations for their pet scheme of intervention. The growing imperialist conflicts created a rupture in the League, with Fascist Germany and imperialist Japan leaving the League in their conflicts with the other powers. This opened a wedge in the imperialist front which the Soviet Union is driving in still further in the cause of world peace, in the cause of the victorious proletarian revolution.

The Soviet Union will utilize its seat on the Council as a revolutionary power of the proletariat, as a proletarian dictatorship, working with might and main against every war move of the imperialists, to stave off the day of a new imperialist world slaughter. It will utilize the League of Nations as a great forum, as a sounding board, to speak to the toiling mass throughout the world, to stress and keep before them its revolutionary policy of peace and struggle against the war plans of the imperialist masters.

The Soviet Union enters the League of Nations without the slightest shred of illusions regarding the aims of the capitalist powers in the League. The toiling masses throughout the world will greet this step as a continuation of the successful peace policy of the Soviet Union, as a carrying still further the efforts to expose and to block as far as possible every maneuvre of the capitalists in their attempts to explode the world into a new imperialist slaughter.

For Speedy United Action!

IN SATURDAY'S Daily Worker there was published the complete text of the reply of the Central Committee of the Communist Party to the letter of the National Executive Committee of the Socialist Party postponing consideration of united action between the two parties.

"Despite our disappointment," says the letter of the C. C. of the C. P., "we are by no means prepared to slacken our efforts to achieve united action."

The letter, which goes on to explain in detail the position of the Communist Party on the united front, concludes with the hope that the workers of both parties will yet "fight unitedly and thus march forward to victory.

The Communist Party, which will never abandon the fight for unity, welcomes every effort at united action, no matter on how small a scale it may be. The letter of the Central Committee emphasizes this, when it declares:

"The final paragraph in your letter opens up the possibilities of local united actions, particularly in defense of workers' rights. We will do everything possible to stimulate such local

actions." Today, in scores of textile towns there is the greatest need for such united actions to defend the right of the workers to organize, to strike and to picket. We urge the immediate formation of local united front bodies, local united actions, demonstrations, parades, without delay. The tremendous united front general one day strike in Hazleton, Pa., in support of the striking textile workers is a model in this respect

Right in New York City there is the most burning necessity for immediate united action between Socialist and Communist workers and followers of both parties. Over one million jobless people will receive no further cash relief! Certainly, if ever there was need for unity on an immediate problem -the right of the New York jobless to live-it is

Cannot every Socialist worker see that on this issue the two parties can organize such a rousing movement, can get literally hundreds of thousands of New York workers into the streets in angry protest, that La Guardia and the bankers will be compelled without delay to rescind their infamous decision? Surely this is possible. Certainly this is

There is no time to lose! To delay on such a vital matter is to trifle with the life-and-death needs of the working masses!

Forward to speedy united action!

Soviets Lead All Countries In Agriculture

Capitalist Nations Can't Follow USSR Method, Says U. S. Scientist

(Special to the Daily Worker) MOSCOW, Sept. 16 (By Wireless) -Professor Meller of Texas, specialist in genetics, with two other outstanding specialists in agriculture. Dr. Osserman, of Argentina, and Dr. Kostov, of Bulgaria, have just returned to Moscow from a two-week journey through the Soviet Urkaine. he North Caucasus, Armenia and

These scientists visited numerou ollective farms and state farms to cquaint themselves with matters of rganization, agriculture and scienific institutions. Professor Melle gave the following impressions of is observations.

"In the course of this journey as able to become fully convinc f the power of the socialist form f agriculture. Even in its early ransitional periods, socialist agri-culture has succeeded in organizing remendous and really scientific diection and development in it

"Although I have read much abou he U.S.S.R., nevertheless my eyo was not prepared to see the tremendous and radical reconstruction in agriculture which has taken place since my last visit to the Sovie Union in 1932. In the extensiv grain regions, numerous agricultural nachines, working the wide space inder cultivation, are giving a sat sfactory and even a good harves lespite the unusually dry spring this year, all of which further proves the progress of the socialist system. My risit to the state farms leaves no doubt in my mind that their work is ecoming ever more effective.'

Emphasizing the exceptionally ineresting work of agricultural and cientific research institutions in the Ukraine and the Caucasus, and their onnections with collective farms nd state farms, Professor Meller tated that:

"In the science of vegetation and llied spheres, the scientific research institutions of the U.S.S.R. already ccupy first place, and lay down patterns for the other countries of he world. I may mention, moreover, that in the majority of cases, other countries are unable to follow the footsteps of the Soviet Union because they hold to an obsoete system of economy.

"The U.S.S.R. no longer feels the urden of the competition of private enterprises nor the spectre of crises and has systematically organized the utilization of the world's resources and vegetations for the economic development of each separate region and the entire country as a whole.

"The combination of properties to obtain any variety, and most important, the systematic hybridization of various plants with the aid of physiological methods of acclimatizing individual plants, as widely used in this country, are the chief and characteristic features of the work which puts the Soviet Union in first place in the theory and the practice of scientific vege-

denied it in Shanghai-which proves

nothing.

At its last session the committee showed that the American du Ponts engaged a professional international spy who boasts of having served thirteen imperialist governments to sell duPont powder to Hitlers "Re-The first contract signed with this fellow, a straightaway contract making no reference t the treaty it obviously violated, was destroyed, and the duPonts negotiated another saying their powder was to be sold if and when Germany obtained "redress" from the treaty. In connection with this, an officer of Hitler's general staff recently visited one of the duPonts Later they destroyed the second contract-and paid the spy \$25,000

to be rid of it. Also in the record is evidence that American machine guns and revolvers-the sale of which supposedly is carefully supervised to prevent gangsters from obtaining them in this country—are smuggled into Nazi hands in a big bootleg

Repercussions from the scandalous disclosures thus far are piling in upon Washington, and today's capinewspapers significantly shoved the story way inside. This reflects the extent of pressure that being exerted to channel the inestigation into "safe" lines,

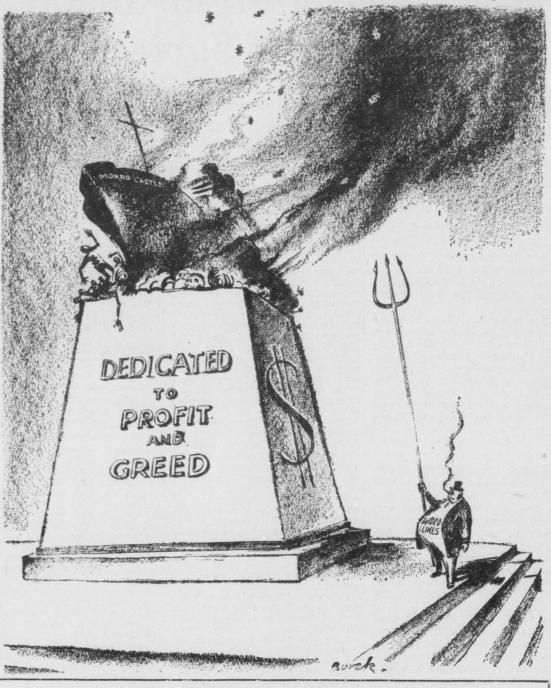

Jobless Body Acts for N. Y. Relief

(Continued from Page 1)

other way out but to borrow from the bankers," he can arrange a loan. On Saturday, vigorous protests against the starvation and relief cutting plans of LaGuardia began to pour into City Hall. The Unemployment Councils of Greater New York, in a telegram to LaGuardia, demanded immediate provision of funds as provided in the tax plans it has submitted. These plans demand an end to the payments to the banks, income and ineritance taxes on the higher brackets, utility, corporation taxes and taxation on large realty holdings and tax-exempt church prop-

The Association of Office and Professional Emergency Employes, citing LaGuardia's demagogic romises that "no one shall starve demanded also an immediate end to the payments to the bankers and annulment of the order to stop relief payments.

ON THE ALTAR OF CAPITALISM

Grant Strikers' Demands and Stop Killings!

(Continued from Page 1)

urge the workers to return to work in an organized manner, prepared to hold the gains they have won.

The Hearst press repeatedly states that: "Comnunists want to keep the strike going; they don't want it settled on any terms." This we have branded as a lie. We repeat: Grant the workers' demands, and the Communists will advise them to return to the mills.

OUT the bosses will never willingly grant even these modest demands of the textile workers unless they are literally forced to do so by a determined working class, with ranks so solid that they cannot be broken by the bosses or their armed forces.

In the first place there is the greed of the textile bosses for ever greater profits for themselves at the expense of the workers. They will not agree to improved conditions. Their aim is worsened conditions, more misery, more poverty, more speed-up. Their aim is ever mounting profits, increased wealth and luxury.

An unnamed wealthy spokesman for the bosses gave out an interview to the Associated Press yesday in Washington which shows their position on the present strike.

"We know," he said, "that there is more at stake than the welfare of the textile industry. If we give in there will be a wave of strikes in all industries; it is a case of determining here and now whether or not organized labor is all-powerful." There the issue is put squarely. Can the or-

ganized workers determine the conditions under which they live and work? Or must the workers continue to bow before organized power of the bosses, a power used to force them into a position of greater and greater degradation and slavery? From this state it is clear that the textile bosses

are fighting with the solid backing of the capitalist class as a whole. This is why all the armed forces of the capitalist government, local, state, and national, are at their beck and call. That is why the textile workers, while themselves

fighting more determinedly than ever, must have

THE timid and limited investigation and

fications of the munitions industry by the

Nye Committee have shaken the state and

war offices of all imperialist nations and

The indignant denials and furious pro-

tests flooding Washington are caused, however, not

so much by what has been revealed to date as by

It is a matter of gravest concern to the ruling

class of the entire capitalist world in the fifth year

of the crisis, with the class struggle especially in

the United States where it involves literally new

contingents composed of millions of workers in basic

industries-reaching new high levels, to have even

a superficial exposure of the interlocking of govern-

ments, the peddlers of the machinery for mass

murder, and the fabulous profits into which rivers

of toilers' blood are converted by the black magic

Two tactical lines are to be observed in the

procedure of the Nye committee: One is to put for-

ward the chimera of "government control" of the

munitions industry as the remedy for the murderous

intrigue, debauching of "public servants," and

"fomenting" of wars. The other approach-made

by some of the important witnesses-is to identify

frankly the munitions industry as an inseparable

part of capitalist production and conclude, there-

clusions. In most countries the munitions indus-

tries, because they are after all the heavy and

decisive industries, are linked either officially or

unofficially with the government-like the Comité

The Communist Party urges all workers to rally to the support of the textile workers. Demand a halt to the killing of strikers. Fight for the workers' right to strike and picket. Support the strike

with substantial and immediate relief collections.

In all ways rally to defense of the strike knowing,

as the spokesman for the bosses admits, that the

the support of the entire working class. That is

textile workers are in the front line trenches fighting a battle for the workers as a whole. As for the question of "revolution," of "insurrection," the Communist Party has stated, and repeats, that that is not the issue in this strike. The issue is the workers' demands. That is what we are fighting

At the same time the Communist Party states to the workers: We are the Party of proletarian revolution; our aim is the winning of the working class for the seizure of power, for the establishment of a workers' government, a Soviet Government in the

Don't you realize, fellow workers, as a result of your experiences in this strike that our revolutionary goal must be reached by the workers. We believe it is becoming clear to you, the workers of the country, that a capitalist class which, murders workers in cold blood, which starves workers, their wives and children, which uses the military forces of the government to prevent you from winning even the smallest demands, must be driven out of

When the bosses become hysterical about the Communists, and against your strike, they know what they are doing. They see the workers beginning to fight. They know that today you fight for little things, but in these fights you gain understanding and a consciousness of power. They know that from these little demands will grow the demand for a workers' government, for a Soviet Government. We urge you to think of these problems. Join the Communist Party!

By Burck Trade Unions In USSR Given Vital Tasks

Vast Growth in Soviets **Economy Brings New** Work to Unions

(Special to the Daily Worker)

MOSCOW, Sept. 16 (By wireless) -Commenting on the reorganiza. tion of Soviet trade unions, "Pravda," central organ of the Communist Party, has stated that the gigantic growth of all branches of national economy in the U.S.S.R. has set the trade unions exception. ally responsible tasks.

In an article devoted to the recent decisions of the Fourth Plenum of the All-Union Trade Unions, Pravda says:

"New gigantic industrial enter-prises have grown up, and old factories and works have been reconstructed. The U.S.S.R. has become a country foremost in technique, country foremost in Socialist agriculture. Millions of young workingmen and working women have been surging into industry and Socialist farming

"In the course of three years, from 1930 to 1933, the number of workers and office employes increased seven and a half million. In ferrous metallurgy, 32.4 percent of the total are young workers, ranging in ages from 18 to 23; in transport and machine building, the percentage is 30.6; in the electrotechnical industry, 35.4, and so

"The number of women engaged in all branches of national economy has increased since 1928 by 5,000,000. These figures suffice to point to the tremendous tasks set before the trade unions of the U.S.S.R. They have had to organize and educate millions of working men and women who for the first time entered industry without knowing capitalist

"It is through the trade unions that millions of working men and women learn consciously to participate in Socialist construction and to master the high culture of advanced technique. Millions of shock workers of Socialist labor show examples of industrial enthusiasm and devotion to the cause of the workingclass."

Dwelling further on the factors which caused the re-organization of the trade unions, "Pavda" remarks that experience in the division of the trade unions into smaller units, which took place in 1931, gave positive results.

Since then the trade unions have grown, uniting the vast majority of al workers and office employes (22 percent of all workers and office employes are not yet members of the trade unions). To this fact must be added that the trade unions are scattered over the tremendous territory of the U.S.S.R. swelled the extremely variegated cultural and every-day life, with different conditions in different districts.

Emphasizing that the basic reorganization of the trade unions will make it possible for each trade union organization to pay more attention to serving the cultural and every-day life of all groups of workers and to the i the work organs, social insurance, labor inspection, etc., "Pravda" says:

"The Soviet trade unions have unbounded prospects. In conditions of the victorious dictatorship of the proletariat the trade unions, led by the Party of Lenin and Stalin, organize the activities, the initiative and the militant power of scores of millions of toilers around the task of Socialist construction

"The successes of the trade unions in the U.S.S.R. are strikingly in contrast with the dislocation and degeneration of the trade unions in capitalist countries. 'Labor lieutenants of the capitalists,' as Lenin called the leaders of the reformist Turn the Searchlight on Munitions and Mass Murder! trade union movement, do their utmost to weaken the militant power of the working class and facilitate the offensive of the bourgeoisie againg the working class. in the instruments of mass murder for profit. And

"They assisted in every way the advent of the Fascists to power, the destruction of the workingclass organizations which were created in the course of many decades by painstaking efforts of several gen-

"On the advent of Hitler in Germany and the destruction of the workers' organizations, the British trade union leaders, led by the reformist trade union official, Citrin, hypocritically exclaimed: 'I rely upon God that we shall never be placed in such a situation. . , The prostituted leaders of the reformist trade unions are prepared for any baseness just to preserve

the good-will of the cruelest Fasother opponents of imperialist war to demand from cism hangmen orf the workingclass. the Roosevelt administration that the munitions "The endless, abominable treachinvestigation be carried on without any limitations ery of the Leiparts, Citrins, and all the bankrupt reformist lackeys

Demand that the hearings be broadcast over all of the bourgeoisie is significant! "The trade union movement in radio systems. Let's find out where the money goes the U.S.S.R. by its whole history of that is appropriated by the Congress for "defense progress stands as a towering historical example. The Soviet trade Let's find out who gets the enormous sums of

unions are an example for millions of revolutionary proletarians who are throwing off the chains of reformism. The successes of the Soviet trade unions inspire all honest, all revolutionary elements of the world proletariat, to struggle for the proletarian revolution.

"The bolshevist reconstruction of the trade unions will strengthen tenfold the forces of the most powerful, the feremost revolutionary detachment of the world proletariat!"

Sam Darcy to Speak Over KMTR Wednesday

LOS ANGELES, Sept. 16. - Sam Darcy, Communist candidate for governor, will speak Wednesday night, Sept. 19, over Radio Station KMTR, from 8:30 to 8:45 p.m.

This will be the first of a series of weekly campaign broadcasts at which the leading state and local candidates will speak.
