## TRADE UNIONISTS! BACK SCOTTSBORO, HERNDON, MOONEY FIGHT!

### By WILLIAM Z. FOSTER

On January 7, the United States Supreme Court handed down a decision to hear the appeal in the cases of Haywood Patterson and Clarence Norris. This is a great victory for the working class and the Negro people, led in this struggle by the Communist Party and the International Labor Defense, in the

fight for the freedom of the Scottsboro boys, Angelo Herndon, and Tom Mooney, whose cases are now before this court. Only the power of the working class could have forced this decision.

The importance of victory in the Scottsboro case, in the Angelo Herndon case, and the Tom Mooney case, all three of which are now before the Supreme Court, to the working class and the Negro liberation movement, and especially to the trade unionists and

the rest of organized labor, can scarcely be over-emphasized.

I urge every trade unionist, every member of organized labor, to join in the fight for these victories, to bring up the question of these cases in his union local, in his mass organization, and to secure the passage of resolutions addressed to the U.S. Supreme Court demanding the freedom of these victims.

**Worker** 

The International Labor Defense, which has

raised \$14,560.20 since July 9, 1934, on the Scottsboro-Herndon campaign, and spent much more, is now faced with the need of \$10,000 to carry on the appeals and campaign. It is essential that this amount be collected before March 1. I urge all friends of the Scottsboro boys to rush funds immediately to the national office of the I. L. D., Room 610, 80 East Eleventh Street, New York City, to meet this urgent need.

The charge is based on a distorted quotation from a speech by A. ## Trial Jan. 14 Based on Acts of Hungarian Soviet Regime

PARIS, Jan. 10. — The fact that the trial of Matthias Rakosi, Hungarian anti-fascist leader, is fixed for Jan. 14, and that the charges are based on paragraphs of the penal law involving the death sentence, were stressed in an appeal by the World Committee Against War and Fascism and other international organizations. . Em. phasizing once more the utter untenability of the indictment, the appeal states

When Rakosi was tried nine years ago for illegal revolutionary activities, the Hungarian juridicial authorities made no mention whatever of the monstrous charges now brought Now, after nine years of silence, and after Rakosi has served his frightful sentence, he is accused as former People's Commissar for Social Production (successor to the office of Minister of Trade), of twenty-seven murders, of high treason and counterfeiting money Since it is impossible to construct even the shadow of a charge against Rakosi personally, he is being made responsible for everything which the counter-revolution of the largelandowners and the millionaires brings against the Soviet power of the workers: their legitimate selfdefense in the open struggle against

the counter-revolution, the changes carried out on the bourgeois-landowners constitution, and the issue of banknotes by the Hungarian Soviet government.

The appeal exposes the motives of the Gomboes government in seeking to find fresh food for its fascist agitation, and to intimidate the masses of the discontented and rebellious population, by making a victim of Rakosi. It closes by calling on the international working class to save Rakosi by organizing a united and irresistible storm of protest.

The appeal is signed by the World Committee against War and Fascism, the World Youth Committee. the World's Student Committee, the Workers' International Relief, the League against Imperialism and War, the International of Educational Workers, revolutionary writers and artists, the International Release Committee for Thaelmann, Torgler, and all anti-fascist prisoners, as well as by many other organizations.

Another problem that we will face to fight for the immediate demands, and which we must already face today in some localities, is the existence of so-called "Labor" and basis of the revolutionary program "Farmer-Labor" parties who, of the Communist Party. The fact though based to a large extent on that the Communist Party has such the workers' and farmers' mass ora program and at the same time enganizations, in their program, leadership, etc., are in reality not parties in the interests of the masses, but "appendages to the existing munist Party, also emphasizes first that the Communists at all times situation is the Farmer-Labor Party are concerned with the fight for of Minnesota. What shall we do in immediate interests of the workers and secondly that the Communists know that only by gaining party, we make it easier for the Olthe support of the majority of the workers for the Communist program and file of trade unions and the he had never seen in his life. The Communist Party, for examfarmers' organizations, the unemple in Paterson, and this holds good everywhere, would at the same time, while promoting the fight for membership as well as the voters of the Labor Party at the same time take all measures to strengthen itparty to struggle for a class strugself, to gain the influence among gle program at least as far as the the masses, to recruit to the Party, immediate issues of the workers are

concerned and for leadership that will represent the rank and file and for the isolation of the Olsons, Just how this separating will finally take place cannot now be definitely stated and without doubt the development will not be the same in each case

Finally it must be stated that the her. building of the local Labor Parties, the work within the existing parties of the type of the Minnesota Farmer-Labor Party for a genuine Labor Party can only be successful to the extent that the Party pene

An outstanding speech at the National Congress for Unemploy-

Garage Men HIS MASTER'S VOICE **Need Support Of All Labor** 

## **Strikers Warned Against** Arbitration or Craft Settlements

MINNEAPOLIS, Minn., Jan. 10 .-The entire labor movement must be called upon to give support to the striking garage mechanics, reads the statement of the Communist Party, Twin Cities, greeting the striking garage mechanics, now out for a week.

The Communist Party warns the workers against arbitration, against separate craft settlements, or "friendly" city officials. The statement recalls how the Farmer-Labor aldermen and others joined last summer to order machine guns and every other means of suppression against the striking truck drivers. The Party's statement, in full, follows

Fellow Workers, Greetings!

We congratulate you on the step you have taken to win an increase in wages and better working conditions. Garage workers are now learning what the textile workers, truck drivers and others have learned in the past, that the N. R. A. promises have been a delusion, and that if the workers are going to gain anything they will have to fight for their gains. We know that the garage workers are among the lowest paid and most intensely exploited of all toilers.

We take this opportunity to inform you that our entire member ship-those who are in your ranks as strikers, those who are in the unions, in the Unemployed Council, and in other mass organizations of workers-will support the strike by all possible means. We realize that you are fighting, not only for yourselves, but that your fight is M part of the struggle to raise the living standard of the entire working class. Your fight must be carried on and broadened in the consciousness that if you win it will be a victory for all workers; and that columns of filth has always been at you lose, all workers will be made to bear the consequences.

## **Agents To Be Printed**

As one of the features of the present circulation drive, the Daily Worker will publish letters from Red Builders, canvassers, carriers, subscription getters and other sellers of the Daily Worker. These letters should tell the problems and experiences of chose who sell the "Daily." They should relate their difficulties in

the diet or environment or if that is impossible, the patient is vaccinated against the guilty substances. Your attacks are caused by sensitivity to certain foods, since you improved when you received injections at the clinic or when you starved yourself. You should have been told, however, that

skin injections alone are unsatisfactory. The tests should only be used to find out what foods you are "sensitive" or "allurgic" to. These foods should then be eliminated from the diet and the attacks will cease. Unfortunately a sensitive individual will usually show skin :eactions to a great many foods that are generally necessary for a wellbalanced diet.

tests by a specialist. The careful

history and skin tests will determine

what substances in the food or

environment of the patient are re-

sponsible for the attacks. The sub-

stances are then eliminated from

appa:ently

The best procedure, therefore, is to place the patient on what is known as an "elimination diet." A very strict diet is ordered under a doctor's supervision in which all foods likely to cause an attack are eliminated. This will cause relief of symptoms. Then one food after another is added to the diet. The particular food responsible for the attacks will in this way be discovered. It is then eliminated from the diet and the patient will no longer get attacks.

You can understand., therefore that cases of asthma due to sensitivity to food will not be helped much by going to another climate such as Arizona. Such cases require careful study and individual treatment by a specialist. You have not received such treatment at the clinic you are now attending, which we believe, is the fault of the particular clinic. You will probably get more adequate treatment at special "asthma" clinics.

DIRTY Willie Hearst is busy as a rat in a corncrib. He has begun a campaign to make America a Nazi land. Dirty Willie was once charged with inspiring the assassination of President McKinley. Today Dirty Willie is laying the train for bigger and better crimes-for the mass murder of every liberal, Jew. Negro, Japanese, Socialist, Communist, and all the rest of the population earning less than \$25.000 a year.

I notice that one of Hearst's trained hound-dogs in this work is none other than Richard Washburn Child. The Hearst papers syndicate a red-baiting article by Child every day, and under the by-line tell us who he is. Mr. Child, children, is "a noted author and former U.S. Ambassador to Italy."

It happens that years ago, I heard this Mr. Child speak to a students' literary group at Harvard College. Mr. Child is a "distinguished" alumnus of that most aristocratic of American universities. He surely had on a most distinguished appearance that afternoon, I remember, and impressed us all enormously.

One could easily see that Mr. Child came from an old and distinguished American family. His hair was parted in the middle, and he wore a wing collar and bow necktie. He had perfectly creased pants. Let me confess it now, this man made me feel inferior and melancholy. If it took all this fine heredity and skillful tailoring to become a writer, then I was permanently out.

Later I discovered that Mr. Child wrote regularly in the Saturday Evening Post, and I began to follow his short stories there. What a real joy they brought, what medicine for my humility! For I discovered I didn't need to envy the wonderful and flawless aristocrat; why this Mr. Child, under the glorious facade, was only another bowl of stale tripe-a manufacturer of hack romances for the pulp-magazine market. Hooray!

### How to Be An Ambassador

THE good and great President Harding, who died of overeating crabs, was also a famous lover of camembert, it seems, for he made Richard Washburn Child the American Ambassador to Fascist Italy.

.98

How the other literary limburgers on the Satui day Evening Post ground their teeth with envy. I happened to know one who was a terrific souse and foul-mouthed lecher and who also wrote little tender stories of pure young love for the Post. This man, lying in a gutter and raving at the moon, managed to say, one night, before the cop dragged him off, "I am a mental prostitute, gentlemen, but I am also a patriot, so why the hell did they break my heart and make Richard Washburn Child the Ambassador to Italy? He can't write, gentlemen, never. never!"

No, writing is only an incident in such a career; a graceful way of marking time until the big moment comes. And it came for Dickie, as the boys called Mr. Child. .

#### Pimping for Judas

S I REMEMBER it, Mr. Child was furnishing A advice to Mussolini even before that cunning Judas had betrayed the Italian masses. Mr. Child was close to the Leader, and worshipped him with an almost girlish awe.

I can remember many articles that the Ambassador wrote in the Sat. Eve. Post about that time, gushing over Mussolini, recounting how marvelously the trains now ran on time in Italy, and

Question: Why do Communists attack the program of the Utopian Society, if the Utopians are for a cooperative state which would do away with depressions?-M. B. S.

Answer: The Utopians are among the many movements that have sprung up as the result of the growing dissatisfaction of the masses with intolerable conditions. They are utilized by the capitalist class to divert the discontented toilers into safe channels, and to keep them from moving towards the revolutionary solution of the crisis.

Movements like the Utopians hide their defense of the existing scheme of things with phrases about 'cooperative states," and foster the illusion that capitalism can be reformed "by peaceful means under the Constitution." Like the Nazis they blame the evils of capitalism upon "speculation" and distinguish between good and bad capitalists. They also consider "strikes wasteful;" and speak of "unemployment insurance and old-age pensions, as patchwork paneceas."

It can thus be seen that on every point they adopt a position that is not in the interests of the working class. They attack the fight for unemployment and social insurance which is the central demand and need of the workers. They adopt the Nazi practice of blaming the evils of capitalism upon the "speculator." They block the fight for immediate demands which is the matrix out of which develops the struggle for the revolutionary overthrow of capitalism. In conclusion, we must emphasize that capitalism cannot be reformed through the constitution. The latter is the legal expression of the property rights of the capitalists. and as such has always been used as an instrument against the interests of the workers.

Question: In the event of war between the Soviet Union and Japan what would be the position of the Communist Party, if for reasons of their own the American imperialists were to declare war upon their Japanese rivals?-Study Group

Answer: The question relates to a hypothetical situation. It is highly improbable that events will lead the American imperialists to attack their Japanese rivals at a time when the latter were waging an imperialist war of aggression against the Soviet Union. The most likely course would be that the American bourgeoisie would sell munitions and supplies to the Japanese militarists and hope that the situation would result in a stalemate from which they could realize their own imperialist ambitions.

But if the situation did crystallize out in the form of your hypothesis, the position of the American Communist Party would still be to wage a relentless and unceasing war against capitalism and our own imperialists. It would raise Lenin's slogan of turning the imperialist war into a revolutionary civil war against the capitalists. And all Communists would be in the forefront of this fight against American imperialism, realizing that the only genuine ally of the workers' fatherland would be a Soviet America.

It is pertinent to conclude that while your question is justifiable as a bit of speculation, it is far more important to keep your eyes fixed on the present situation. Every enemy of capitalism and every friend of the Soviet Union will be infinitely In Soviet Theater Today, Hein-rich Diament, editor of Internation-al Theater, writes: "... the U.S. S. By RICHARD WASHBURN CHILD

Noted author and former Ambassador to Italy "A group of professors have written a 'ROUND ROBIN'.

Professors' round robins begin an ornithological sequence which in the last twenty years has led to ROUND CUCKOOS and ROUND DODOES.

This time the round cuckoo is addressed to the McCormack-Dickstein Committee and complains because the Hearst newspapers are EXPOSING THE PROGRESS OF COMMUNISM IN CERTAIN COL-LEGES AND PRIVATE SCHOOLS.

And the reason for complaint given by the professors is that the Hearst papers are TELLING THE TRUTH!

The position of the perplexed professors is that telling the truth may result in suppression of American free speech!

The logic of this is so ridiculous that it reflects upon the ability of these sign-here, professorial petitioners to pass an examination in elementrary logic.

Do they expect certain professors to be RED and at the same time ask that freedom of speech about their **REDNESS** be suppressed?

Do they want a free press to SUPPRESS FACTS? The Hearst papers have not preached suppres-

**Chicago Critics Object** 

Violently to Stevedore

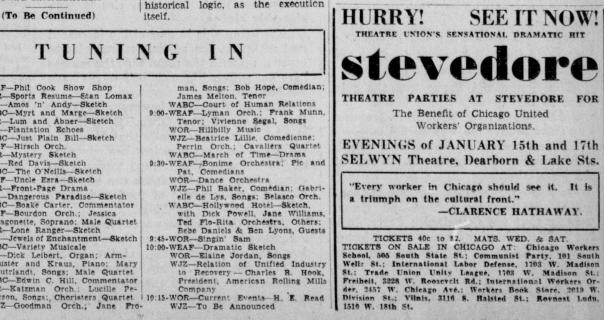

The Chicago showing of "Stevedore." acknowledged as an important event in the American Theatre by every New York critic, has been damned by Chicago critics in violently abusive language. The Theatre Union is struggling to keep it on so that Chicago workers may have an opportunity to see a play that thrilled a total audience of 200,000 people in New York, and many organizations there are rallying to its support, according to Liston M. Oak, of the Theatre Union Executive Board, who heads the campaign there.

The Chicago Tribune, reactionary and laborhating paper, describes "Stevedore" as an attempt to "iritate and exacerbate an American racial problem-to shout rhetorically about the grievances of the colored and to start an argument about 'equality'."

The stirring climax of the play that has brought a hundred audiences to their feet cheering the militant action of the stevedores, he calls a "warped emotional frenzy.'

The Chicago American's critic, who takes care to let his readers know that he comes of Southern aristocracy, ends a grudging review with this bit of poison. "'Stevedore' may be 'good theatre' but I'll leave it to Upton Sinclair if it isn't lousy Communism.

In sharp contrast is the unanimous opinion of the working class press as to the dramatic power It was summed up by Clarence Hathaway, the editor of the Daily Worker, in the following words: ". . Stevedore, as the first American play to tell the truth about Negro workers, and the use of lynching to prevent unity of black and white in struggle, has great political significance. It is a triumph on the cultural front. Every New York worker should see it before it goes on tour, and every worker in Philadelphia, Chicago, Detroit, and other cities should see it when they are given the opportunity."

## William Randolph Hearst Lies About the Communist Party

## WORKERS WILL NOT BELIEVE YARNS ABOUT SOVIET UNION WHEN THEY KNOW HEARST LIES ABOUT AMERICA

**THEY HEAR!** 

MR. WILLIAM RANDOLPH HEARST has been busy retailing yarns about "mass murder and starvation" in the Soviet Union.

Wanton killings of "innocent peasants" by the proletarian government of the U.S.S.R. are reported by Mr. Hearst in large, round figures.

Mr. Hearst lies!

Page 6

He lies because his fantastic yarns are refuted by hundreds of reputable observers of life in the U.S.S.R. and even by correspondents for such staunch upholders of capitalism as the New York Times.

Hearst yellow journalism has for years been synonymous with fraud and sensation.

If the Hearst press lies about and distorts facts

right under the very noses of the American workers, how can these workers believe the fantastic and blood-curdling yarns published in the Hearst reptile press about life in the Soviet Union?

Consider the Hearst journalistic "technique" right here at home.

A Hearst reporter called upon Prof. John N. Washburne of Syracuse University. He introduced himself as "Richard Smith," but did not say he was a Hearst reporter. He said he was interested in studying government and politics-"especially the Russian experiment."

The professor recommended a couple of innocuous courses given by liberal teachers at the university. Next day, accompanied by another Hearst reporter, who described himself as a "draftsman," the prospective "student" quizzed the professor on a variety of subjects. Was he a Communist? Did he believe in the Constitution. etc?

Several days later Hearst's Syracuse Journal appeared with screaming headlines "exposing" Syracuse University as a "hotbed of radicalism."

A similar experiment was repeated in New York City with two professors at Teachers' College, Columbia University.

Aware of what had happened in Syracuse, these professors took the precaution of having a stenographer present during the "interview." Challenged, the Hearst reporter frankly confessed that he was working under orders. "You realize, of course," he said, "that because of my assignment I will have to select the most sensational statements from the interview in order to make a good case. That is what Mr. Hearst is expecting.' This is the Hearst method.

This is how Hearst obtains his "facts" about Com-

munism in the United States. These contemptible, slimy methods are character-

istic of Hearst journalism. Hearst lies every day, every moment about life in

the United States. He lies about the Communist Party of the United States, and about the triumphant rule of the proletariat in the Soviet Union.

The workers of the United States will see through these lies and recognize Mr. Hearst as one of their most dangerous enemies!

## The Scottsboro Ruling

THE brilliant victory won by the I.L.D. in forcing the Supreme Court to grant a review of the death verdicts in the Scottsboro case is not going unchallenged by the enemies of the boys' defenders.

As would be expected, the capitalist press is already giving the formula by which the vindication of the mass policies of the I.L.D. is to be attacked in a new form.

The New York Times, for example, greets the announcement as proving that the Supreme Court "stands forth as the defender of that right . . . of the humblest citizen to the due process of law."

This, to put it bluntly, is hypocritical bolonev

The Times knows very well that the Supreme Court in its decision acted only in the interests of the capitalist system which it is defending. The Supreme Court acted as it did only because it did not dare to ignore the millions of workers all over the world and in this country, particularly, who have been aroused over the case by the campaign of the I.L.D.

THE election of the Plain Goods Depart-I ment of the Paterson Silk Workers Union (U.T.W.) which takes place this tomorrow, brings up the issue of whether or not the workers will take control of their own union.

Silk Workers' Election

The reactionary Keller-Lovestoneite leadership, masquerading under the title of "Progressives," is fighting for its life in these elections.

In a desperate statement issued by the "progressive" group, an attempt is made to confuse the issues by shameless lying. They, who have been eating the heart out of the union, have the audacity to entitle their leaflet "Save the Union." The "enemy" Keller says is the growing rank and file movement, the militant membership. The Lovestoneites pledge to expel from the union former members of the National Textile Workers Union, now among the most active in its ranks. Keller carries out Green's expulsion policy, but not a word of concrete criticism of Gorman's treachery in the General Strike is contained in the "progressive" statement

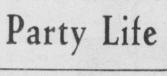

An overwhelming vote for the rank and file slate, Saturday, similar to the victory scored in the dyer's local last Saturday by the rank and file dyers' slate, will be the most fitting answer to these reactionaries. To defeat the wage-cuts and gain better conditions, the Keller clique, which supports the Gorman machine, must be defeated.

Elect the rank and file slate!

## Thomas and Coughlin

THE radio priest, Coughlin, while calling I for fascist pogroms against the Communists, praised Norman Thomas as a "gentleman, who is anything but a follower of Marx," and that "Norman Thomas has the same objects in view as I have."

And the United Press reported on December 10 that Norman Thomas said: "Coughlin is a fine man, but many of his ideas are not practical."

U have been passed by our Party to impress on the members of the Party that, "Without a decisive turn of the Party to work among the masses of young workers, a successful struggle against the attacks of the capitalist class-against fascism, against the intensive preparations for war, for the estabishment of a revolutionary workers government-Soviet Power, is impossible.

## World Front

By HAREY GANNES ---The British Rainbow Hunger at the End **Brisbane** Distortions

THE American capitalists 1 are riotously generous in their newspaper headlines at least, with the money of the bosses of other lands. This is especially well illustrated in the recent cable story from London on the new trick move of the British government in the field of unemployment doles.

When the story was first carried, the New York Sun, for instance, made it appear that the British government had passed a bill guaranteeing all workers earning less than \$25 a week sufficient to make up that sum. And they declaredin the headlines, of course-that 17,000,000 workers would benefit.

But the more one investigates the stories, even in the capitalist press, the more one can see that every move against the workers is translated, in the boss press, as a great boon to the wage slaves. It's all very much like Roosevelt's scheme to take workers off the relief lists and put them-or a small proportion of them-on work relief, and then throw them off work relief into the garbage can.

In England the situation is of a different complexion because there the workers have won at least some meagre form of unemployment insurance. The aim of the employers now is to try to lower the amount the workers get, while the workers fight for an increase in the small

NOW let's trace the story. Arthur Brisbane, quick to use every quirk in the news to amaze and befuddle his readers, takes up the isue. He writes:

"The British government assumes responsibility for the care and maintenance of every able-bodied worker, insured or not insured, whose wages, when he works are less than \$25 a week.

Youth In Unions A Center Aid from the Oldsters **COUNTLESS** resolutions

trades, laundry, etc., where youth have participated in strike struggles their militancy has been unquestioned, their unflagging spirit and enthusiasm have very often been the cause of many a strike victory. Through these struggles the youth have been drawn into the unions, youth who are not class conscious, who know very little of trade unionism; Republican. Democrat, Socialist and every fascistled youth who fought because they knew that it was their bread and

The Supreme Court gives the masses concessions only when forced to do so by mass pressure.

The "due process of law" which The Times claims as the bulwark of the "humblest citizen" is only the hypocrisy of capitalist law which is devoted largely to protecting capitalist profit and capitalist oppression.

The Supreme Court is a defender of the whole system of national oppression and lynching out of which grows such a hideous frame-up as the Scottsboro case. How then can it be a defender of the boys?

Only one thing can make the Supreme Court, as well as any other capitalist court listen to the voice of the masses-organized mass protest, the policy of the I.L.D.

The trick of The Times is to belittle this mass protest just now at a time when more than ever it is the only thing that stands between the boys and the electric chair.

## A Belated Admission

CENERAL HUGH S. JOHNSON, exgeneralissimo of the N.R.A., finally admits the correctness of the Communist Party's claim that the N.R.A. is an instrument for building Wall Street monopoly.

"The N.R.A. has proven to be constructive," the New York Times reports him as saying, "to highly organized industry, but it has proven moribund for smaller industries."

This is a fancy way of saying that the N.R.A. has given the Wall Street monopolies bigger profits by crushing small, nonmonopoly business.

This is exactly what the Communist Party said the N.R.A. would do, from the first week of its administration in 1933.

The Communist Party was the only voice in this country which branded the whole Roosevelt New Deal-N.R.A. program as a drive to give the Wall Street monopolies a bigger share of the national wealth and income at the expense of the rest of the population.

The past two years' experience has confirmed this analysis a thousand times. proving that the Communist Party, basing itself on Marxism-Leninism, the theory of the world Communist International, is the only true guide of the working class to understanding the development of the crisis and the Roosevelt program.

Two fine men! Two gentlemen who do not follow Marx!

How does it happen that a Socialist Party leader praises a typical and sinister Wall Street fascist tool as a "fine man?" How does it happen that an unscrupulous fascist demagogue praises a Socialist Party leader because he "does not follow Karl Marx?'

Is it not clear that for all their "criticism" of one another they have no real enmity for one another? When Norman Thomas praises Coughlin he is aiding this fascist to spread his influence.

Thomas says his ideas are not "practical." But Coughlin's ideas are only too practical to carry out the aims of Wall Street and fascism! With this talk. Thomas depicts a man who is a conscious agent of Wall Street as a well-intentioned visionary.

Now we put this question: Does not this help this Wall Street agent in his fascist work?

## Living Costs Still Soan

**C**ROM the beginning of the New Deal the Communist Party has declared that it was a scheme to increase the super-profits of the capitalist class at the expense of the living standards of the working class.

The Communist analysis was verified again on Wednesday when Secretary of Labor Perkins announced that the cost of living had gone up 8.3 per cent during the 18-month period between June, 1933, and November, 1934. The real rise is considerably higher.

Not being able to conceal the increased cost of living, the administration tries to cover it up with the claim that the masses have not suffered because real wages have not fallen.

It is easy enough, however, to show that real wages have fallen. Even the A. F. of L. leadership admits that "thus far the rapid increase in prices has cancelled all the gains in the average worker's income. "The worker's dollar can buy only about 78 cents worth of food and about 79 cents worth of clothing."

And in terms of real wages his purchasing power in November was three per cent less than in March, 1933, at the lowest point of the crisis. This shows that the New Deal cut the real wages of the workers in order to increase capitalist profits.

After a splendid victory. industry. we today find that the floor boys union exists only in name, that there is no floor boys union, because no plans were made and no form of organization created that would keep this union from disintegrating during the slow season. simply give this one example, but all of us can point to dozens more.

Are the reformists and reactionaries "youth-conscious?" Yes, they are doing everything in their power to win the youth.

At a meeting of the youth section ber of the American working class. of the T. U. U. C., we decided to He joined their unions, went on work for the establishment of a Trade Union Youth Center. This for higher wages. He did his work center to be open to all youth, whether they be T. U. U. L., A. F. of L. or independent union members. The aim of this center will be primarily to educate the youth for leadership in their unions. We will have complete facilities for all sports activities, including a gym which will contain a basketball court and other gymnastic equipment, all forms of social and cul-

tural activities, discussions, forums and lectures on trade unionism and topics of the day with prominent speakers But we need a start! After hav-

ing explained the importance of this project to leading Party comrades in the unions and showing how it will assist in building their union we have asked them for their cooperation. With about \$200 we could establish such a center. We have planned on ways and means of making it self-supporting. Every comrade we spoke to said it was grand idea, some even told us that they had thought of it years ago, others scolded us for having waited so long before starting such a progressive venture. All saw its potentialities and promised their

We gave them only two tasks: 1-Publicize the center in the union. 2-See to it that we get the quota assigned to your union, immediately. Nearly six weeks have passed and less than \$50 has been collected.

What About It?

Not one union has met its quota, despite the fact that the highest sum requested from any one union has been \$30. The metal, food, marine, shoe (whose executive board voted us \$25) and other smaller unions haven't contributed one penny, to date, and you will note it is especially these unions that have a very high percentage of youth.

It is the task of the Party members in the unions and in the first place the members of the leading fractions to see to it that these tasks are carried out, and we are sure that if this question is brought into the unions, it will receive the fullest support. We would suggest that our leading Party comrades in the trade unions should reread the

"The new act definitely puts a stop to further borrowing by the unemployment insurance fund and compels the board to work steadily toward making that fund solvent and 'actuarially sound.' Second, it attempts to take the whole question out of politics by giving the board complete power to determine the scale of assistance without any detailed interference from Parliament. Third, since the present swing to the Left is resulting in the Labor Party's election of numerous local authorities, it removes any temptation to appeal to the electors by promising increased unemployment assistance."
